"(A) A mixture, or preparation containing a nonnarcotic controlled substance, which mixture or preparation is approved for prescription use, and which contains one or more other active ingredients which are not listed in any schedule and which are included therein in such combinations, quantity, proportion, or concentration as to vitiate the potential for abuse.

"(B) A compound, mixture, or preparation which contains any controlled substance, which is not for administration to a human being or animal, and which is packaged in such form or concentration, or with adulterants or denaturants, so that as packaged it does not present any significant potential for abuse.".

(b) Section 202(d) (21 U.S.C. 812(d)) is repealed.

SEC. 510. Section 302(a) (21 U.S.C. 822(a)) is amended to read as follows:

"(a)(1) Every person who manufactures or distributes any controlled substance, or who proposes to engage in the manufacture or distribution of any controlled substance, shall obtain annually a registration issued by the Attorney General in accordance with the rules and regulations promulgated by him.

"(2) Every person who dispenses, or who proposes to dispense, any controlled substance, shall obtain from the Attorney General a registration issued in accordance with the rules and regulations promulgated by him. The Attorney General shall, by regulation, determine the period of such registrations. In no event, however, shall such registrations be issued for less than one year nor for more than three years.".

SEC. 511. Section 303(f) (21 U.S.C. 823(f)) is amended to read as follows:

"(f) The Attorney General shall register practitioners (including pharmacies, as distinguished from pharmacists) to dispense, or conduct research with, controlled substances in schedules II, III, IV, or V, if the applicant is authorized to dispense, or conduct research with respect to, controlled substances under the laws of the State in which he practices. The Attorney General may deny an application for such registration if he determines that the issuance of such registration would be inconsistent with the public interest. In determining the public interest, the following factors shall be considered:

"(1) The recommendation of the appropriate State licensing board or professional disciplinary authority.

"(2) The applicant's experience in dispensing, or conducting research with respect to controlled substances.

"(3) The applicant's conviction record under Federal or State laws relating to the manufacture, distribution, or dispensing of controlled substances.

"(4) Compliance with applicable State, Federal, or local laws relating to controlled substances.

"(5) Such other conduct which may threaten the public health and safety.

Separate registration under this part for practitioners engaging in research with controlled substances in schedules II, III, IV, or V, who are already registered under this part in another capacity, shall not be required. Registration applications by practitioners wishing to conduct research with controlled substances in schedule I shall be referred to the Secretary, who shall determine the qualifications and competency of each practitioner requesting registration, as well as the merits of the research protocol. The Secretary, in determining the merits of each research protocol, shall consult with the Attorney General as to effective procedures to adequately safeguard against diversion of such controlled substances from legitimate medical or scientific use. Registration for the purpose of bona fide research with controlled substances in schedule I by a practitioner deemed qualified by the Secretary may be denied by the Attorney General only on a ground specified in section 304(a). Article 7 of the Convention on Psychotropic Substances shall not be construed to prohibit, or impose additional restrictions upon, research involving drugs or other substances scheduled under the convention which is conducted in conformity with this subsection and other applicable provisions of this title.".

SEC. 512. Section 304(a) (21 U.S.C. 824(a)) is amended—

(1) by inserting before the period in paragraph (3) the following: "or has had the suspension, revocation, or denial of his registration recommended by competent State authority"; and

(2) by striking out "or" at the end of paragraph (2), by striking out the period at the end of paragraph (3) and inserting in lieu thereof "; or", and by adding after paragraph (3) the following:

"(4) has committed such acts as would render his registration under section 303 inconsistent with the public interest as determined under such section.".

SEC. 513. Section 304 (21 U.S.C. 824) is amended by adding at the end the following:

"(g) The Attorney General may, in his discretion, seize or place under seal any controlled substances owned or possessed by a registrant whose registration has expired or who has ceased to practice or do business in the manner contemplated by his registration. Such controlled substances shall be held for the benefit of the registrant, or his successor in interest. The Attorney General shall notify a registrant, or his successor in interest, who has any controlled substance seized or placed under seal of the procedures to be followed to secure the return of the controlled substance and the conditions under which it will be returned. The Attorney General may not dispose of any controlled substance seized or placed under seal under this subsection until the expiration of one hundred and eighty days from the date such substance was seized or placed under seal.".

SEC. 514. (a) Section 307(c)(1)(A) (21 U.S.C. 827(c)(1)(A)) is amended to read as follows:

"(A) to the prescribing of controlled substances in schedule II, III, IV, or V by practitioners acting in the lawful course of their professional practice unless such substance is prescribed in the course of maintenance or detoxification treatment of an individual; or".

(d) Section 307(c)(1)(B) (21 U.S.C. 827(c)((1)(B)) is amended to read as follows:

"(B) to the administering of a controlled substance in schedule II, III, IV, or V unless the practitioner regularly engages in the dispensing or administering of controlled substances and charges his patients, either separately or together with charges for other professional services, for substances so dispensed or administered or unless such substance is administered in the course of maintenance treatment or detoxification treatment of an individual;".

SEC. 515. Section 307 (21 U.S.C. 827) is further amended by adding at the end a new subsection (g) as follows:

"(g) Every registrant under this title shall be required to report any change of professional or business address in such manner as the Attorney General shall by regulation require.".

SEC. 516. Section 403(a)(2) (21 U.S.C. 843(a)(2)) is amended to read as follows:

"(2) to use in the course of the manufacture, distribution, or dispensing of a controlled substance, or to use for the purpose of acquiring or obtaining a controlled substance, a registration number which is fictitious, revoked, suspended, expired, or issued to another person.".

SEC. 517. (a) Section 503(a) (21 U.S.C. 873(a)) is amended by striking out "and" at the end of paragraph (4), by striking out the period at the end of paragraph (5) and inserting in lieu thereof "; and" and by adding at the end the following:

"(6) assist State and local governments in suppressing the diversion of controlled sub-

stances from legitimate medical, scientific, and commercial channels by—

"(A) making periodic assessments of the capabilities of State and local governments to adequately control the diversion of controlled substances;

"(B) providing advice and counsel to State and local governments on the methods by which such governments may strengthen their controls against diversion; and

"(C) establishing cooperative investigative efforts to control diversion.".

(b) Section 503 is amended by adding at the end the following:

"(d)(1) The Attorney General may make grants, in accordance with paragraph (2), to State and local governments to assist in meeting the costs of—

"(A) collecting and analyzing data on the diversion of controlled substances,

"(B) conducting investigations and prosecutions of such diversions,

"(C) improving regulatory controls and other authorities to control such diversions,

"(D) programs to prevent such diversions,

"(E) preventing and detecting forged prescriptions, and

"(F) training law enforcement and regulatory personnel to improve the control of such diversions.

"(2) No grant may be made under paragraph (1) unless an application therefor is submitted to the Attorney General in such form and manner as the Attorney General may prescribe. No grant may exceed 80 per centum of the costs for which the grant is made, and no grant may be made unless the recipient of the grant provides assurances satisfactory to the Attorney General that it will obligate funds to meet the remaining 20 per centum of such costs. The Attorney General shall review the activities carried out with grants under paragraph (1) and shall report annually to Congress on such activities.

"(3) To carry out this subsection there is authorized to be appropriated $6,000,000 for fiscal year 1985 and $6,000,000 for fiscal year 1986.".

SEC. 518. Section 511(a) (21 U.S.C. 881(a)) is amended by inserting the following new paragraph:

"(8) All controlled substances which have been possessed in violation of this title.".

SEC. 519. Section 1002(a)(1) (21 U.S.C. 952(a)(1)) is amended to read as follows:

"(1) such amounts of crude opium, poppy straw, concentrate of poppy straw, and coca leaves as the Attorney General finds to be necessary to provide for medical, scientific, or other legitimate purposes, and".

SEC. 520. Section 1002(a)(2) (21 U.S.C. 952(a)(2)) is amended by striking out "or" at the end of subparagraph (A), by adding "or" at the end of subparagraph (B), and by adding the following after subparagraph (B):

"(C) in any case in which the Attorney General finds that such controlled substance is in limited quantities exclusively for scientific, analytical, or research uses,".

SEC. 521. Section 1002(b)(2) (21 U.S.C. 952(b)(2)) is amended to read as follows:

"(2) is imported pursuant to such notification, or declaration, or in the case of any nonnarcotic controlled substance in schedule III, such import permit, notification, or declaration, as the Attorney General may by regulation prescribe, except that if a nonnarcotic controlled substance in schedule IV or V is also listed in schedule I or II of the Convention on Psychotropic Substances it shall be imported pursuant to such import permit requirements, prescribed by regulation of the Attorney General, as are required by the Convention.".

SEC. 522. Section 1003(e) (21 U.S.C. 953(e)) is amended to read as follows:

"(e) It shall be unlawful to export from the United States to any other country any nonnarcotic controlled substance in schedule III or IV or any controlled substances in schedule V unless—

"(1) there is furnished (before export) to the Attorney General documentary proof that importation is not contrary to the laws or regulations of the country of destination for consumption for medical, scientific, or other legitimate purposes;

"(2) it is exported pursuant to such notification or declaration, or in the case of any nonnarcotic controlled substance in schedule III, such export permit, notification, or declaration as the Attorney General may by regulation prescribe; and

"(3) in the case of a nonnarcotic controlled substance in schedule IV or V which is also listed in schedule I or II of the Convention on Psychotropic Substances, it is exported pursuant to such export permit requirements, prescribed by regulation of the Attorney General, as are required by the Convention.".

SEC. 523. Section 1007(a)(2) (21 U.S.C. 957(a)(2)) is amended to read as follows:

"(2) export from the United States any controlled substance in schedule I, II, III, IV, or V,".

SEC. 524. Section 1008(b) (21 U.S.C. 958(b)) is amended to read as follows:

"(b) Registration granted under this section shall not entitle a registrant to import or export controlled substances other than specified in the registration.".

SEC. 525. Section 1008 (21 U.S.C. 958) is further amended by redesignating subsections (d), (e), (f), (g), and (h) as subsections (e), (f), (g), (h), and (i), respectively, and—

(1) by inserting after subsection (c) the following new subsection (d):

"(d)(1) The Attorney General may deny an application for registration under subsection (a) if he is unable to determine that such registration is consistent with the public interest (as defined in subsection (a)) and with the United States obligations under international treaties, conventions, or protocols in effect on the effective date of this part.

"(2) The Attorney General may deny an application for registration under subsection (c), or revoke or suspend a registration under subsection (a) or (c), if he determines that such registration is inconsistent with the public interest (as defined in subsection (a) or (c)) or with the United States obligations under international treaties, conventions, or protocols in effect on the effective date of this part.

"(3) The Attorney General may limit the revocation or suspension of a registration to the particular controlled substance, or substances, with respect to which grounds for revocation or suspension exist.

"(4) Before taking action pursuant to this subsection, the Attorney General shall serve upon the applicant or registrant an order to show cause as to why the registration should not be denied, revoked, or suspended. The order to show cause shall contain a statement of the basis thereof and shall call upon the applicant or registrant to appear before the Attorney General, or his designee, at a time and place stated in the order, but in no event less than thirty days after the date of receipt of the order. Proceedings to deny, revoke, or suspend shall be conducted pursuant to this subsection in accordance with subchapter II of chapter 5 of title 5 of the United States Code. Such proceedings shall be independent of, and not in lieu of, criminal prosecutions or other proceedings under this title or any other law of the United States.

"(5) The Attorney General may, in his discretion, suspend any registration simultaneously with the institution of proceedings under this subsection, in cases where he finds that there is an imminent danger to the public health and safety. Such suspension shall continue in effect until the conclusion of such proceedings, including judicial review thereof, unless sooner withdrawn by the Attorney General or dissolved by a court of competent jurisdiction.

"(6) In the event that the Attorney General suspends or revokes a registration granted under this section, all controlled substances owned or possessed by the registrant pursuant to such registration at the time of suspension or the effective date of the revocation order, as the case may be, may, in the discretion of the Attorney General, be seized or placed under seal. No disposition may be made of any controlled substances under seal until the time for taking an appeal has elapsed or until all appeals have been concluded, except that a court, upon application therefor, may at any time order the sale of perishable controlled substances. Any such order shall require the deposit of the proceeds of the sale with the court. Upon a revocation order becoming final, all such controlled substances (or proceeds of the sale thereof which have been deposited with the court) shall be forfeited to the United States; and the Attorney General shall dispose of such controlled substances in accordance with section 511(e) of the Controlled Substances Act."; and

(2) by striking our "304," in the second sentence of redesignated subsection (e).

And the Senate agree to the same.

Amendment numbered 134.

That the House recede from its disagreement to the amendment of the Senate numbered 134, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

CHAPTER VI— DIVISION I, JUSTICE ASSISTANCE

SUBDIVISION A—AMENDMENTS TO OMNIBUS CRIME CONTROL AND SAFE STREETS ACT OF 1968

SHORT TITLE

SEC. 601. This division may be cited as the "Justice Assistance Act of 1984".

DECLARATION AND PURPOSE

SEC. 602. Title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3701-3799) is amended in the matter preceding part A by striking out the declaration and purpose.

OFFICE OF JUSTICE PROGRAMS

SEC. 603. (a) Part A of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3711-3713) is amended to read as follows—

"PART A—OFFICE OF JUSTICE PROGRAMS

"ESTABLISHMENT OF OFFICE OF JUSTICE PROGRAMS

"SEC. 101. There is hereby established an Office of Justice Programs within the Department of Justice under the general authority of the Attorney General. The Office of Justice Programs (hereinafter referred to in this title as the 'Office') shall be headed by an Assistant Attorney General (herein-

after in this title referred to as the 'Assistant Attorney General') appointed by the President, by and with the advice and consent of the Senate.

"DUTIES AND FUNCTIONS OF ASSISTANT ATTORNEY GENERAL

"SEC. 102. (a) The Assistant Attorney General shall—

"(1) publish and disseminate information on the conditions and progress of the criminal justice systems;

"(2) maintain liaison with the executive and judicial branches of the Federal and State governments in matters relating to criminal justice;

"(3) provide information to the President, the Congress, the judiciary, State and local governments, and the general public relating to criminal justice;

"(4) maintain liaison with public and private educational and research institutions, State and local governments, and governments of other nations relating to criminal justice;

"(5) provide staff support to coordinate the activities of the Office and the Bureau of Justice Assistance, the National Institute of Justice, the Bureau of Justice Statistics, and the Office of Juvenile Justice and Delinquency Prevention; and

"(6) exercise such other powers and functions as may be vested in the Assistant Attorney General pursuant to this title or by delegation of the Attorney General.

"(b) The Assistant Attorney General shall submit an annual report to the President and to the Congress not later than March 31 of each year.".

NATIONAL INSTITUTE OF JUSTICE

SEC. 604. (a) Section 201 of part B of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3721) is amended—

(1) in paragraph (3) by inserting "and" at the end thereof,

(2) by striking out paragraph (4),

(3) by redesignating paragraph (5) as paragraph (4),

(4) by striking out "to develop alternatives to judicial resolution of disputes,", and

(5) by inserting "and demonstrate" after "to develop".

(b) Section 202 of part B of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3722) is amended—

(1) in subsection (b) by inserting after the second sentence the following: "The Director shall report to the Attorney General through the Assistant Attorney General.", and

(2) in subsection (c)—

(A) in paragraph (2)—

(i) in subparagraph (A) by striking out ", including programs authorized by section 103 of this title", and

(ii) in subparagraph (E) by striking out "the prevention and reduction of parental kidnapping", and

(B) in paragraph (3) by striking out "part" and inserting in lieu thereof "title",

(C) by striking out paragraph (4),

(D) in paragraph (10)—

(i) by striking out "national priority grants under part E and ", and

(ii) by striking out "part F" and inserting in lieu thereof "part E",

(E) by striking out paragraph (9), and

(F) by redesignating paragraphs (5), (6), (7), (8), (10), and (11) as paragraphs (4), (5), (6), (7), (8), and (9), respectively.

(c) Part B of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3721–3724) is amended by striking out section 204.

BUREAU OF JUSTICE STATISTICS

SEC. 605. (a) The first sentence of section 301 of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3731) is amended—

(1) by striking out "(including white-collar crime and public corruption)", and

(2) by striking out "(including crimes against the elderly, white-collar crime, and public corruption)".

(b) Section 302 of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3732) is amended—

(1) in subsection (b) by inserting after the third sentence the following: "The Director shall report to the Attorney General through the Assistant Attorney General.",

(2) in subsection (c)—

(A) by striking out paragraphs (13) and (16),

(B) by redesignating paragraphs (14), (15), and (17) as paragraphs (16), (17), and (19), respectively,

(C) by inserting after paragraph (12) the following new paragraphs:

"(13) provide for the development of justice information systems programs and assistance to the States and units of local government relating to collection, analysis, or dissemination of justice statistics;

"(14) develop and maintain a data processing capability to support the collection, aggregation, analysis and dissemination of information on the incidence of crime and the operation of the criminal justice system;

"(15) collect, analyze and disseminate comprehensive Federal justice transaction statistics (including statistics on issues of Federal justice interest such as public fraud and high technology crime) and to provide technical assistance to and work jointly with other Federal agencies to improve the availability and quality of Federal justice data;", and

(D) by inserting after paragraph (17), as so redesignated, the following new paragraph:

"(18) insure conformance with security and privacy requirement of section 812 and identify, analyze and participate in the development and implementation of privacy, security and information policies which impact on Federal and State criminal justice operations and related statistical activities; and", and

(3) in subsection (d)—

(A) in paragraph (1) by inserting ", and to enter into agreements with such agencies and instrumentalities for purposes of data collection and analysis" before the semicolon,

(B) in paragraph (3) by striking out "and" at the end thereof,

(C) in paragraph (4) by striking out the period at the end thereof and inserting in lieu thereof a "; and", and

(D) by inserting after paragraph (4) the following new paragraph:

"(5) encourage replication, coordination and sharing among justice agencies regarding information systems, information policy, and data.

(c) Part C of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3731–3735) is amended by striking out section 304.

(d) Part C of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3731–3735) is amended by redesignating section 305 as section 304.

BLOCK GRANTS

SEC. 606. Part D of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3741–3745) is amended to read as follows:

"PART D—BLOCK GRANTS

"ESTABLISHMENT OF BUREAU OF JUSTICE ASSISTANCE

"SEC. 401. (a) There is established within the Department of Justice, under the general authority of the Attorney General, a Bureau of Justice Assistance (hereinafter in this part and part E referred to as the 'Bureau').

"(b) The Bureau shall be headed by a Director (hereinafter in this part and part E referred to as the 'Director') who shall be appointed by the Attorney General. The Director shall report to the Attorney General through the Assistant Attorney General. The Director shall have final authority for all grants, cooperative agreements, and contracts awarded by the Bureau. The Director shall not engage in any employment other than that of serving as the Director, nor shall the Director hold any office in, or act in any capacity for, any organization, agency, or institution with which the Bureau makes any contract or other arrangement under this title.

"DUTIES AND FUNCTIONS OF DIRECTOR

"SEC. 402. The Director shall—

"(1) provide funds to eligible States, units of local government and private nonprofit organizations pursuant to this part and part E;

"(2) establish priorities for programs in accordance with part E and, following public announcement of such priorities, award and allocate funds and technical assistance in accordance with the criteria of part E and on terms and conditions determined by the Director to be consistent with part E;

"(3) cooperate with and provide technical assistance to States, units of local government, and other public and private organizations or international agencies involved in criminal justice activities;

"(4) provide for the development of technical assistance and training programs for State and local criminal justice agencies and foster local participation in such activities;

"(5) encourage the targeting of State and local resources on efforts to reduce the incidence of violent crime and on programs relating to the apprehension and prosecution of repeat offenders;

"(6) establish and carry on a specific and continuing program of cooperation with the States and units of local government designed to encourage and promote consultation and coordination concerning decisions made by the Bureau affecting State and local criminal justice priorities; and

"(7) exercise such other powers and functions as may be vested in the Director pursuant to this title.

"DESCRIPTION OF PROGRAM

"SEC. 403. (a) It is the purpose of this part to assist States and units of local government in carrying out specific programs which offer a high probability of improving the functioning of the criminal justice system, with special emphasis on violent crime and serious offenders. The Bureau is authorized to make grants under this part to States for the purpose of—

"(1) providing community and neighborhood programs that enable citizens and police to undertake initiatives to prevent and control neighborhood crime;

"(2) disrupting illicit commerce in stolen goods and property;

"(3) combating arson;

"(4) effectively investigating and bringing to trial white-collar crime, organized crime,

public corruption crimes, and fraud against the Government;

"(5) identifying criminal cases involving persons (including juvenile offenders) with a history of serious criminal conduct in order to expedite the processing of such cases and to improve court system management and sentencing practices and procedures in such cases;

"(6) developing and implementing programs which provide assistance to jurors and witnesses, and assistance (other than compensation) to victims of crimes;

"(7) providing alternatives to pretrial detention, jail, and prison for persons who pose no danger to the community;

"(8) providing programs which identify and meet the needs of drug-dependent offenders;

"(9) providing programs which alleviate prison and jail overcrowding and programs which identify existing State and Federal buildings suitable for prison use;

"(10) providing training, management, and technical assistance to criminal justice personnel and determining appropriate prosecutorial and judicial personnel needs;

"(11) providing prison industry projects designed to place inmates in a realistic working and training environment in which they will be enabled to acquire marketable skills and to make financial payments for restitution to their victims, for support of their own families, and for support of themselves in the institution;

"(12) providing for operational information systems and workload management systems which improve the effectiveness of criminal justice agencies;

"(13) providing programs of the same types as programs described in section 501(a)(4)—

"(A) which the Director establishes, under section 503(a), as discretionary programs for financial assistance under part E; and

"(B) which are innovative and have been deemed by the Director as likely to prove successful;

"(14) implement programs which address critical problems of crime, such as drug trafficking, which have been certified by the Director, after consultation with the Director of the National Institute of Justice, Director of the Bureau of Justice Statistics, and Administrator of the Office of Juvenile Justice and Delinquency Prevention, as having proved successful;

"(15) providing programs which address the problem of serious offenses committed by juveniles;

"(16) addressing the problem of crime committed against the elderly;

"(17) providing training, technical assistance, and programs to assist State and local law enforcement authorities in rural areas in combating crime, with particular emphasis on violent crime, juvenile delinquency, and crime prevention; and

"(18) improving the operational effectiveness of law enforcement by integrating and maximizing the effectiveness of police field operations and the use of crime analysis techniques.

"(b)(1) For any fiscal year ending after September 30, 1984, the Federal portion of any grant made under this part shall be 50 per centum of the cost of programs and projects specified in the application of such grant, except that in the case of funds distributed to an Indian tribe which performs law enforcement functions (as determined by the Secretary of the Interior) for any program or project described in subsection (a), the Federal portion shall be 100 per centum of such cost.

"(2) The non-Federal portion of the cost of such program or project shall be in cash.

"(c) No funds may be given under this title to a grant recipient for a program or project for which funds have been given under this title for 4 years (in the aggregate), including any period occurring before the effective date of this subsection.

"ELIGIBILITY

"SEC. 404. The Bureau is authorized to make financial assistance under this part available to a State to enable it to carry out all or a substantial part of a program or project submitted and approved in accordance with the provisions of this part.

"APPLICATIONS

"SEC. 405. No grant may be made by the Bureau to a State, or by a State to an eligible recipient pursuant to this part, unless the application for such grant sets forth criminal justice programs and projects covering a 2-year period which meet the purposes of section 403(a) of this title, designates which purpose specified in section 403(a) each such program or project is intended to achieve, and identifies the State agency or unit of local government which will implement each such program or project. This application must be amended annually if new programs are to be added to the application or if the programs contained in the original application are not implemented. The application must include—

"(1) an assurance that following the first fiscal year covered by an application and each fiscal year thereafter, the applicant shall submit to the Bureau or to the State, as the case may be—

"(A) a performance report concerning the activities carried out pursuant to this part and part E; and

"(B) an assessment by the applicant of the impact of those activities on the purposes of this part and the needs and objectives identified in the applicant's statement;

"(2) a certification that Federal funds made available under this title will not be used to supplant State or local funds, but will be used to increase the amounts of such funds that would, in the absence of Federal funds, be made available for criminal justice activities;

"(3) an assurance that fund accounting, auditing, monitoring, and such evaluation procedures as may be necessary to keep such records as the Bureau shall prescribe shall be provided to assure fiscal control, proper management, and efficient disbursement of funds received under this title;

"(4) an assurance that the applicant shall maintain such data and information and submit such reports in such form, at such times, and containing such data and information as the Bureau may reasonably require to administer other provisions of this title;

"(5) a certification that its programs meet all the requirements of this section, that all the information contained in the application is correct, that there has been appropriate coordination with affected agencies, and that the applicant will comply with all provisions of this title and all other applicable Federal laws (such certification shall be made in a form acceptable to the Bureau and shall be executed by the chief executive or such other officer of the applicant qualified under regulations promulgated by the Office);

"(6) if the applicant is a State, an assurance that not more than 10 per centum of the aggregate amount of funds received by a State under this part for a fiscal year will be distributed for programs and projects designated as intended to achieve the purpose specified in section 403(a)(13);

"(7) an assurance that the State will take into account the needs and requests of units of general local government in the State and encourage local initiative in the development of programs which meet the purposes of section 403(a);

"(8) an assurance that the State application described in this section, and any amendment to such application, has been submitted for review to the State legislature or its designated body (for purposes of this section, such application or amendment shall be deemed to be reviewed if the State legislature or such body does not review such application or amendment within the 60-day period beginning on the date such application or amendment is so submitted); and

"(9) an assurance that the State application and any amendment thereto was made public before submission to the Bureau and, to the extent provided under State law or established procedure, an opportunity to comment thereon was provided to citizens and to neighborhood and community groups.".

"REVIEW OF APPLICATIONS

"SEC. 406. (a) The Bureau shall provide financial assistance to each State applicant under this part to carry out the programs or projects submitted by such applicant upon determining that—

"(1) the application or amendment thereto is consistent with the requirements of this title; and

"(2) before the approval of the application and any amendment thereto the Bureau has made an affirmative finding in writing that the program or project has been reviewed in accordance with section 405.

Each application or amendment made and submitted for approval to the Bureau pursuant to section 405 of this title shall be deemed approved, in whole or in part, by the Bureau not later than 60 days after first received unless the Bureau informs the applicant of specific reasons for disapproval.

"(b) The Bureau shall suspend funding for an approved application in whole or in part if such application contains a program or project which has failed to conform to the requirements of this part or purposes of section 403(a) of this title. The Bureau may make appropriate adjustments in the amounts of grants in accordance with its findings pursuant to this subsection.

"(c) Grant funds awarded under this part shall not be used for—

"(1) the purchase of equipment or hardware, or the payment of personnel costs, unless the cost of such purchases and payments is incurred as an incidental and necessary part of a program under section 403(a) of this title;

"(2) programs which have as their primary purpose general salary payments for employees or classes of employees within an eligible jurisdiction, except for the compensation of personnel for time engaged in conducting or undergoing training programs or the compensation of personnel engaged in research, development, demonstration, or short-term programs;

"(3) land acquisition or construction projects; or

"(4) programs or projects which, based upon evaluations by the National Institute of Justice, Bureau of Justice Assistance, Bureau of Justice Statistics, State or local agencies, and other public or private organizations, have been demonstrated to offer a

low probability of improving the functioning of the criminal justice system. Such programs must be formally identified by a notice in the Federal Register after opportunity for comment.

"(d) The Bureau shall not finally disapprove any application, or any amendment thereto, submitted to the Director under this part without first affording the applicant reasonable notice and opportunity for reconsideration.

"ALLOCATION AND DISTRIBUTION OF FUNDS

"SEC. 407. (a) Of the total amount appropriated for this part and part E in any fiscal year, 80 per centum shall be set aside for this part and allocated to States as follows:

"(1) $250,000 shall be allocated to each of the participating States.

"(2) Of the total funds remaining after the allocation under paragraph (1), there shall be allocated to each State an amount which bears the same ratio to the amount of remaining funds described in this paragraph as the population of such State bears to the population of all the States.

"(b)(1) Each State which receives funds under subsection (a) in a fiscal year shall distribute among units of local government, or combinations of units of local government, in such State for the purposes specified in section 403(a) of this title that portion of such funds which bears the same ratio to the aggregate amount of such funds as the amount of funds expended by all units of local government for criminal justice in the preceding fiscal year bears to the aggregate amount of funds expended by the State and all units of local government in such State for criminal justice in such preceding fiscal year.

"(2) In distributing funds received under this part among urban, rural and suburban units of local government and combinations thereof, the State shall give priority to those jurisdictions with the greatest need.

"(3) Any funds not distributed to units of local government under paragraph (1) shall be available for expenditure by the State involved.

"(4) For purposes of determining the distribution of funds under paragraph (1), the most accurate and complete data available for the fiscal year involved shall be used. If data for such fiscal year are not available, then the most accurate and complete data available for the most recent fiscal year preceding such fiscal year shall be used.

"(c) No funds allocated to a State under subsection (a) or received by a State for distribution under subsection (b) may be distributed by the Director or by the State involved for any program other than a program contained in an approved application.

"(d) If the Director determines, on the basis of information available to it during any fiscal year, that a portion of the funds allocated to a State for that fiscal year will not be required or that a State will be unable to qualify or receive funds under this part, or that a State chooses not to participate in the program established by this part, then such portion shall be awarded by the Director to urban, rural, and suburban units of local government or combinations thereof within such State giving priority to those jurisdictions with greatest need.

"(e) Any funds not distributed under subsections (b) and (d) shall be available for obligation under part E.

"STATE OFFICE

"SEC. 408. (a) The chief executive of each participating State shall designate a State office for purposes of—

"(1) preparing an application to obtain funds under this part; and

"(2) administering funds received from the Bureau of Justice Assistance, including receipt, review, processing, monitoring, progress and financial report review, technical assistance, grant adjustments, accounting, auditing, and fund disbursements.

"(b) An office or agency performing other functions within the executive branch of a State may be designated to carry out the functions specified in subsection (a).".

NATIONAL PRIORITY GRANTS

"SEC. 607. Title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3701 et seq.) is amended by striking out part E.

DISCRETIONARY GRANTS

"SEC. 608. (a) 601, 602, and 603 of part F of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3761-3762) are amended to read as follows:

"PURPOSE

"SEC. 501. (a) The purpose of this part is to provide additional Federal financial assistance to public agencies and private nonprofit organizations for purposes of—

"(1) undertaking educational and training programs for criminal justice personnel;

"(2) providing technical assistance to States and local units of governments;

"(3) undertaking projects which are national or multi-State in scope and which address the purposes specified in section 403(a) of this title; and

"(4) providing financial assistance to public agencies and private nonprofit organizations for demonstration programs which, in view of previous research or experience, are likely to be a success in more than one jurisdiction and are not likely to be funded with moneys from other sources.

"(b) In carrying out this part, the Bureau is authorized to make grants, and enter into cooperative agreements and contracts with, public agencies and private nonprofit organizations.

"PERCENTAGE OF APPROPRIATION FOR DISCRETIONARY GRANT PROGRAM

"SEC. 502. Of the total amount appropriated for part D and this part in any fiscal year, 20 per centum shall be reserved and set aside for this part in a special discretionary fund for use by the Bureau in carrying out the purposes specified in section 501 of this title. Grants under this part may be made for amounts up to 100 per centum under this part may be made for amounts up to 100 per centum of the costs of the programs or projects contained in the approved application.

"PROCEDURE FOR ESTABLISHING DISCRETIONARY PROGRAMS

"SEC. 503. (a) The Director of the Bureau shall periodically establish discretionary programs and projects for financial assistance under this part. Such programs and projects shall be considered priorities for a period of time not to exceed 3 years from the time of such determination.

"(b) The Director shall annually request the National Institute of Justice, the Bureau of Justice Statistics, the Office of Justice Programs, State and local governments, and other appropriate public and private agencies to suggest discretionary programs and projects. The Director shall then, pursuant to regulations, annually publish the proposed priorities pursuant to this part and invite and encourage public comment concerning such priorities. Priorities shall not be established or modified until the Director has provided at least 60-days advance notice for such public comment and the Director shall encourage and invite recommendations and opinions concerning such priorities from appropriate agencies and officials of State and units of local government. After considering any comments submitted during such period of time and after consultation with appropriate agencies and officials of State and units of local government, the Director shall determine whether existing established priorities should be modified. The Director shall publish in the Federal Register the priorities established pursuant to this part before the beginning of fiscal year 1985 and each fiscal year thereafter for which appropriations will be available to carry out the program".

(b) Section 604 of part F of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3764) is amended by striking out "Administration" each place it appears and inserting in lieu thereof "Bureau".

(c) Section 605 of part F of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3765) is amended to read as follows:

"CRITERIA FOR AWARD

"SEC. 505. The Bureau shall, in its discretion and according to the criteria, and on the terms and conditions it determines consistent with this part, provide financial assistance to those programs or projects which most clearly satisfy the priorities established under section 503 of this title. In providing such assistance pursuant to this part, the Bureau shall consider whether certain segments and components of the criminal justice system have received a disproportionate allocation of financial aid and assistance pursuant to other parts of this title, and, if such a finding is made, shall assure the funding of such other segments and components of the criminal justice system as to correct inequities resulting from such disproportionate allocations.".

(d) Section 606 of part F of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3766) is amended to read as follows:

"PERIOD FOR AWARD

"SEC. 506. The Bureau may provide financial aid and assistance to programs or projects under this part for a period not to exceed three years. Grants made pursuant to this part may be extended or renewed by the Bureau for an additional period of up to two years if—

"(1) an evaluation of the program or project indicates that it has been effective in achieving the stated goals or offers the potential for improving the functioning of the criminal justice system; and

"(2) the public agency or private nonprofit organization within which the program or project has been conducted agrees to provide at least one-half of the total cost of such program or project from any source of funds, including Federal grants, available to the eligible jurisdiction.".

(e) The heading for part F of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3761-3766) is amended by striking out "Part F" and inserting in lieu thereof "Part E".

(f) Part E, as so redesignated, of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3701-3766) is amended by redesignating section 604 as section 504.

PILOT PROGRAMS FOR CONSTRUCTION OF CRIMINAL JUSTICE FACILITIES

SEC. 609. Title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3701-3799) is amended by inserting after part E, as so redesignated, the following new part:

"PART F—CRIMINAL JUSTICE FACILITY CONSTRUCTION: PILOT PROGRAM

"AUTHORITY FOR PAYMENTS

"SEC. 601. In order to relieve overcrowding and substandard conditions at State and local correctional facilities, the Director of the Bureau of Justice Assistance (hereinafter in this part referred to as the 'Director') is authorized to make grants to States, units of local government, and combinations of such units to assist in construction of correctional facility projects approved under this part, and in planning to relieve overcrowding and substandard conditions in correctional facilities.

"ELIGIBILITY

"SEC. 602. (a) A State, unit of local government, or combination of such units shall be eligible for assistance under this part for a correctional facility project only—

"(1) if the Director, with the concurrence of the Director of the National Institute of Corrections established in chapter 315 of title 18, United States Code, has made a determination that such project represents a prototype of new and innovative methods and advanced design that will stand as examples of technology for avoiding delay and reducing costs in correctional facility design, construction, and improvement; and

"(2) for not more than one such project in any State per fiscal year.

"(b) A State, a unit of local government, or a combination of such units shall be eligible for assistance under this part for the development of a plan for relieving overcrowding or substandard conditions in correctional facilities operated by the State, a unit of local government, or a combination of such units. Such assistance shall not exceed 50 percent of the cost of developing the plan.

"APPLICATION; APPROVAL; PAYMENT

"SEC. 603. (a) A State, unit of local government, or combination of such units desiring to receive assistance under this part for a correctional facility project shall submit to the Director an application which shall include—

"(1) reasonable assurance that the applicant has developed an acceptable plan for reducing overcrowding and improving conditions of confinement in its correctional facilities and has implemented, or is in the process of implementing, such plan through legislative, executive, or judicial initiatives;

"(2) a detailed description of the correctional facility to be constructed, altered, or expanded, including a description of the site of such facility;

"(3) an estimate of the total cost of the construction of such project, including the amount of assistance requested for such project;

"(4) reasonable assurance that title to such site is or will be vested solely in the applicant, or another agency or instrumentality of the applicant;

"(5) reasonable assurance that adequate financial support will be available for the construction of the project and for its maintenance and operation when complete; and

"(6) reasonable assurance that the applicant will comply with the standards and recommendations of the clearinghouse on the construction and modernization of correctional facilities established under section 605.

"(b)(1) The Director may approve any such application only if the Director finds that—

"(A) there are sufficient funds available to provide the assistance requested;

"(B) such assistance does not exceed 20 percent of the estimated total cost of construction;

"(C) the application contains such reasonable assurances as may be required under subsection (a); and

"(D) the eligibility criteria of section 602 are met.

"(2) In approving applications under this subsection, the Director shall consider the numbers and general characteristics of the inmate population (to include factors such as offenders' ages, offenses, average term of incarceration, and custody status), and the degree to which the applicant has implemented an inmate classification system which addresses the need for appropriate security assignment.

"(c) Upon approving an application under this section, the Director shall award the amount of assistance so approved, but in no event an amount greater than 20 percent of the cost of construction of the approved correctional facility project, and shall provide for payment to the applicant or, if designated by the applicant, any agency or instrumentality of the applicant. Such amount shall be paid, in advance or by way of reimbursement, and in such installments consistent with the progress of construction as the Director may determine. Funds paid under this subsection for the construction of an approved project shall be used solely for carrying out such project as so approved.

"(d) An amendment of any application shall be subject to approval in the same manner as an original application.

"RECAPTURE PROVISIONS

"SEC. 605. If, within 20 years after completion of any correctional facility project with respect to which assistance has been provided under this section, such facility ceases to be operated as a correctional facility, the United States may recover from the recipient of such assistance any amount not to exceed 20 percent of the then current value of such project (but in no event an amount greater than the amount of assistance provided under this part for such project), as determined by agreement with the parties or by action brought in the district court of the United States for the district in which such facililty is situated.

"CLEARINGHOUSE ON THE CONSTRUCTION AND MODERNIZATION OF CRIMINAL JUSTICE FACILITIES

"SEC. 606. (a) The Director shall provide for the operation of a clearinghouse on the construction and modernization of correctional facilities, which shall collect, prepare, and disseminate to the public and to interested State and local public agencies information, including recommendations, pertaining to the construction and modernization of correctional facilities. Such information shall include information regarding—

"(1) new and innovative methods and advanced design that will stand as examples of technology for avoiding delay and reducing costs in correctional facility design, construction, and improvement;

"(2) ways in which a construction planning program may be used to improve the administration of the criminal justice system within each State;

"(3) recommended minimum standards concerning construction materials and methods, to be updated from time to time to reflect technological advances;

"(4) the cost-effectiveness of available construction materials, methods, and design technologies;

"(5) the training of correctional facility personnel; and

"(6) health and safety considerations in construction planning.

"(b) The Director is authorized to enter into contracts with private organizations and interagency agreements with the National Institute of Corrections, the National Institute of Justice, the Bureau of Justice and Statistics, and other appropriate public agencies, to operate the clearinghouse required under this section."

TRAINING AND MANPOWER DEVELOPMENT

SEC. 609A. (a) Part G of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3771-3775) is amended to read as follows:

"PART G—FBI TRAINING OF STATE AND LOCAL CRIMINAL JUSTICE PERSONNEL

"TRAINING AND MANPOWER DEVELOPMENT

"SEC. 701. (a) The Director of the Federal Bureau of Investigation is authorized to—

"(1) establish and conduct training programs at the Federal Bureau of Investigation National Academy at Quantico, Virginia, to provide, at the request of a State or unit of local government, training for State and local criminal justice personnel;

"(2) develop new or improved approaches, techniques, systems, equipment, and devices to improve and strengthen criminal justice; and

"(3) assist in conducting, at the request of a State or unit of local government, local and regional training programs for the training of State and local criminal justice personnel engaged in the investigation of crime and the apprehension of criminals. Training for rural criminal justice personnel shall include, when appropriate, effective use of regional resources and methods to improve coordination among criminal justice personnel in different areas and in different levels of government. Such training shall be provided only for persons actually employed as State police or highway patrol, police of a unit of local government, sheriffs, and their deputies, and other persons as the State or such unit may nominate for police training while such persons are actually employed as officers of such State or unit.

"(b) In the exercise of the functions, powers, and duties established under this section, the Director of the Federal Bureau of Investigation shall be under the general authority of the Attorney General.

"(c) Notwithstanding the provisions of subsection (a), the Secretary of the Treasury is authorized to establish, develop, and conduct training programs at the Federal Law Enforcement Training Center at Glynco, Georgia, to provide, at the request of a State or unit of local government, training for State and local criminal justice personnel provided that such training does not interfere with the Center's mission to train Federal law enforcement personnel.".

ADMINISTRATIVE PROVISIONS

SEC. 609B. (a) Part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3781 et seq.) is amended by striking out section 801.

(b) Sections 802 and 803 of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3782) are amended to read as follows:

"CONSULTATION; ESTABLISHMENT OF RULES AND REGULATIONS

"SEC. 801. (a) The Office of Justice Programs, the Bureau of Justice Assistance, the Office of Juvenile Justice and Delinquency Prevention, the Bureau of Justice Statistics, and the National Institute of Justice are authorized, after appropriate consultation with representatives of States and units of local government, to establish such rules, regulations, and procedures as are necessary to the exercise of their functions, and as are consistent with the stated purposes of this title.

"(b) The Bureau of Justice Assistance shall, after consultation with the National Institute of Justice, the Bureau of Justice Statistics, the Office of Juvenile Justice and Delinquency Prevention, State and local governments, and the appropriate public and private agencies, establish such rules and regulations as are necessary to assure the continuing evaluation of selected programs or projects conducted pursuant to parts D and E, in order to determine—

"(1) whether such programs or projects have achieved the performance goals stated in the original application, are of proven effectiveness, have a record of proven success, or offer a high probability of improving the criminal justice system;

"(2) whether such programs or projects have contributed or are likely to contribute to the improvement of the criminal justice system and the reduction and prevention of crime;

"(3) their cost in relation to their effectiveness in achieving stated goals;

"(4) their impact on communities and participants; and

"(5) their implication for related programs.

In conducting evaluations described in this subsection, the Bureau of Justice Assistance shall, when practical, compare the effectiveness of programs conducted by similar applicants and different applicants. The Bureau of Justice Assistance shall also require applicants under part D to submit an annual performance report concerning activities carried out pursuant to part D together with an assessment by the applicant of the effectiveness of those activities in achieving the purposes of section 403(a) of this title and the relationships of those activities to the needs and objectives specified by the applicant in the application submitted pursuant to section 403 of this title. The Bureau shall suspend funding for an approved application under part D if an applicant fails to submit such an annual performance report.

"(c) The procedures established to implement the provisions of this title shall minimize paperwork and prevent needless duplication and unnecessary delays in award and expenditure of funds at all levels of government.

"NOTICE AND HEARING ON DENIAL OR TERMINATION OF GRANT

"SEC. 802. (a) Whenever, after reasonable notice and opportunity for a hearing on the record in accordance with section 554 of title 5, United States Code, the Bureau of Justice Assistance, the National Institute of Justice, and the Bureau of Justice Statistics finds that a recipient of assistance under this title has failed to comply substantially with—

"(1) any provisions of this title;

"(2) any regulations or guidelines promulgated under this title; or

"(3) any application submitted in accordance with the provisions of this title, or the provisions of any other applicable Federal Act;

the Director involved shall, until satisfied that there is no longer any such failure to comply, terminate payments to the recipient under this title, reduce payments to the recipient under this title by an amount equal to the amount of such payments which were not expended in accordance with this title, or limit the availability of payments under this title to programs, projects, or activities not affected by such failure to comply.

"(b) If any grant application submitted under part D of this title has been denied, or any grant under this title has been terminated, then the Bureau of Justice Assistance, the National Institute of Justice, or the Bureau of Justice Statistics, as appropriate, shall notify the applicant of its action and set forth the reason for the action taken. When such an applicant requests a hearing, the Bureau of Justice Assistance, the National Institute of Justice, or the Bureau of Justice Statistics, or any authorized officer thereof, is authorized and directed to hold such hearings or investigations, including hearings on the record in accordance with section 554 of title 5, United States Code, at such times and places as necessary, following appropriate and adequate notice to such applicant; and the findings of fact and determinations made with respect thereto shall be final and conclusive, except as otherwise provided herein. The Bureau of Justice Assistance, the National Institute of Justice, or the Bureau of Justice Statistics is authorized to take final action without a hearing if, after an administrative review of the denial of such application or termination of such grant, it is determined that the basis for the appeal, if substantiated, would not establish a basis for awarding or continuing of the grant involved. Under such circumstances, a more detailed statement of reasons for the agency action should be made available, upon request, to the applicant.

"(c) If the applicant involved is dissatisfied with the findings and determinations of the Bureau of Justice Assistance, the National Institute of Justice, or the Bureau of Justice Statistics following notice and hearing provided for in subsection (a) of this section, a request may be made for rehearing, under such regulations and procedure as the Bureau of Justice Assistance, the National Institute of Justice, or the Bureau of Justice Statistics may establish, and such applicant shall be afforded an opportunity to present such additional information as may be deemed appropriate and pertinent to the matter involved.".

(c) Section 804 of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3784) is amended by striking out "Law Enforcement Assistance Administration" and inserting in lieu thereof "Bureau of Justice Assistance".

(d) Section 805 of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3785) is amended—

(1) by striking out "Office of Justice Assistance, Research, and Statistics, the Law Enforcement Assistance Administration," each place it appears and inserting in lieu thereof "Office of Justice Programs, Bureau of Justice Assistance,",

(2) by inserting "the Office of Juvenile Justice and Delinquency Prevention," before "or the National Institute of Justice" each place it appears,

(3) in subsection (a) by striking out "section 803, 804, or 815(c)(2)(G)" and inserting in lieu thereof "section 802, 803, or 809(c)(2)(G)", and

(4) in subsection (b) by inserting "the Office of Juvenile Justice and Delinquency Prevention" before "or the Bureau of Justice Statistics".

(e) Part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3781 et seq.) is amended by striking out sections 806, 807, 808, 809, 810, 811, 812, 813, 814, 819, and 826.

(f) Part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3781–37890) is amended by redesignating sections 804, 805, 815, 816, 817, 818, 820, 821, 822, 823, 824, 825, and 827 as sections 803, 804, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, and 819, respectively.

(g) Part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3781–3789o) is amended by inserting after section 804, as so redesignated, the following new sections:

"DELEGATION OF FUNCTIONS

"SEC. 805. The Attorney General, the Assistant Attorney General, the Director of the National Institute of Justice, the Director of the Bureau of Justice Statistics, the Administrator of the Office of Juvenile Justice and Delinquency Prevention, and the Director of the Bureau of Justice Assistance may delegate to any of their respective officers or employees such functions under this title as they deem appropriate.".

"SUBPOENA POWER; EMPLOYMENT OF HEARING OFFICERS; AUTHORITY TO HOLD HEARINGS

"SEC. 806. The Bureau of Justice Assistance, the National Institute of Justice, and the Bureau of Justice Statistics may appoint such hearing examiners or administrative law judges or request the use of such administrative law judges selected by the Office of Personnel Management pursuant to section 3344 of title 5, United States Code, as shall be necessary to carry out their respective powers and duties under this title. The Bureau of Justice Assistance, the National Institute of Justice, and the Bureau of Justice Statistics or upon authorization, any member thereof or any hearing examiner or administrative law judge assigned to or employed thereby shall have the power to hold hearings and issue subpoenas, administer oaths, examine witnesses, and receive evidence at any place in the United States they respectively may designate.".

"PERSONNEL AND ADMINISTRATIVE AUTHORITY

"SEC. 807. (a) The Assistant Attorney General, the Director of the Bureau of Justice Assistance, the Director of the Institute, and the Director of the Bureau of Justice Statistics are authorized to select, appoint, employ, and fix compensation of such officers and employees as shall be necessary to carry out the powers and duties of the Office, the Bureau of Justice Assistance, the National Institute of Justice, and the Bureau of Justice Statistics, respectively, under this title.

"(b) The Office, the Bureau of Justice Assistance, the National Institute of Justice, and the Bureau of Justice Statistics are authorized, on a reimbursable basis when appropriate, to use the available services, equipment, personnel, and facilities of Federal, State, and local agencies to the extent deemed appropriate after giving due consideration to the effectiveness of such existing services, equipment, personnel, and facilities.

"(c) The Office, the Bureau of Justice Assistance, the National Institute of Justice, and the Bureau of Justice Statistics may arrange with and reimburse the heads of other

Federal departments and agencies for the performance of any of the functions under this title.

"(d) The Office, the Bureau of Justice Assistance, the National Institute of Justice, and the Bureau of Justice Statistics may procure the services of experts and consultants in accordance with section 3109 of title 5, United States Code, relating to appointments in the Federal service, at rates of compensation for individuals not to exceed the daily equivalent of the rate of pay payable from time to time for GS-18 of the General Schedule under section 5332 of title 5, United States Code.

"(e) The Office, the Bureau of Justice Assistance, the National Institute of Justice, and the Bureau of Justice Statistics are authorized to appoint, without regard to the provisions of title 5, United States Code, advisory committees to advise them with respect to the administration of this title as they deem necessary. Such committees shall be subject to the Federal Advisory Committee Act (5 U.S.C. App.). Members of such committees not otherwise in the employ of the United States, while engaged in advising or attending meetings of such committees, shall be compensated at rates to be fixed by the Office but not to exceed the daily equivalent of the rate of pay payable from time to time for GS-18 of the General Schedule under section 5332 of title 5 of the United States Code, and while away from home or regular place of business they may be allowed travel expenses, including per diem in lieu of subsistence, in the same manner as authorized by section 5703 of such title 5 for persons in the Government service employed intermittently.

"(f) Payments under this title may be made in installments, and in advance or by way of reimbursement, as may be determined by the Office, the Bureau of Justice Assistance, the National Institute of Justice, or the Bureau of Justice Statistics, and may be used to pay the transportation and subsistence expenses of persons attending conferences or other assemblages notwithstanding 1345 of title 31, United States Code.

"(g) The Office, the Bureau of Justice Assistance, the National Institute of Justice, and the Bureau of Justice Statistics are authorized to accept and employ, in carrying out the provisions of this title, voluntary and uncompensated services notwithstanding section 1342 of title 31, United States Code. Such individuals shall not be considered Federal employees except for purposes of chapter 81 of title 5, United States Code, with respect to job-incurred disability and title 28, United States Code, with respect to tort claims.

"TITLE TO PERSONAL PROPERTY

"SEC. 808. Notwithstanding any other provision of law, title to all expendable and nonexpendable personal property purchased with funds made available under this title, including such property with funds made available under this title as in effect before the effective date of the Justice Assistance Act of 1984, shall vest in the criminal justice agency or nonprofit organization that purchased the property if it certifies to the State office described in section 408 of this title that it will use the property for criminal justice purposes. If such certification is not made, title to the property shall vest in the State office, which shall seek to have the property used for criminal justice purposes elsewhere in the State prior to using it or disposing of it in any other manner.".

(h) Section 809, as so redesignated, of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3789d) is amended—

(1) by amending the heading to read as follows: "Prohibition of Federal Control Over State and Local Criminal Justice Agencies; Prohibition of Discrimination";

(2) by amending subsection (a) to read as follows:

"(a) Nothing in this title or any other Act shall be construed to authorize any department, agency, officer, or employee of the United States to exercise any direction, supervision, or control over any police force or any other criminal justice agency of any state or any political subdivision thereof.", and

(3) in subsection (c) by striking out "Office of Justice Assistance, Research, and Statistics" each place it appears and inserting in lieu thereof "Office of Justice Programs".

(i) Section 810, as so redesignated, of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3789e) is amended to read as follows:

"REPORT TO PRESIDENT AND CONGRESS

"SEC. 810. Not later than April 1 of each year, the Assistant Attorney General, the Director of the Bureau of Justice Assistance, the Director of the Bureau of Justice Statistics, and the Director of the National Institute of Justice shall each submit a report to the President and to the Speaker of the House of Representatives and the President of the Senate, on their activities under this title during the fiscal year next preceding such date.".

(j) Section 811, as so redesignated, of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3789f) is amended—

(1) by striking out "Office of Justice Assistance, Research, and Statistics" each place it appears and inserting in lieu thereof "Office of Justice Programs",

(2) by striking out subsection (d), and

(3) by redesignating subsections (e) and (f) as subsections (d) and (e), respectively.

(k) Section 812, as so redesignated, of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3789g) is amended by striking out "Office of Justice Assistance, Research, and Statistics" each place it appears and inserting in lieu thereof "Office of Justice Programs".

(l) Part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3781-3789o) is amended by striking out section 819.

(m) Section 813, as so redesignated, of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3789i) is amended—

(1) by striking out subsection (a), and

(2) in subsection (b) by striking out "(b)".

(n) Section 816, as so redesignated, of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3789l) is amended by striking out "Administration" and inserting in lieu thereof "Assistant Attorney General".

(o) Section 819(c), as so redesignated, of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (18 U.S.C. 1761 note) is amended—

(1) by striking out "this section" and inserting in lieu thereof "section 1761 of title 18, United States Code, and of the first section of the Act of June 30, 1936 (49 Stat. 2036; 41 U.S.C. 35), commonly known as the Walsh-Healey Act,", and

(2) by inserting ", as amended from time to time," after "goods".

DEFINITIONS

SEC. 609c. (a) Section 901 of part I of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3791) is amended by striking out "Administration" each place it appears and inserting in lieu thereof "Office".

(b) Section 901(a) of part I of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3791(a)) is amended—

(1) in paragraph (2)—

(A) by inserting "and" after "Puerto Rico," and

(B) by striking out ", Guam, American Samoa, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands",

(2) in paragraph (3) by inserting ", Guam, American Samoa, the Trust Territory of the Pacific Islands, or the Commonwealth of the Northern Mariana Islands" after "District of Columbia" before the semicolon,

(3) in paragraph (4)—

(A) by inserting "renovation, repairs, remodeling," after "acquisition,", and

(B) by striking out ", but does not include renovation, repairs, or remodeling",

(4) in paragraph (7) by striking out "institution or",

(5) by amending paragraph (8) to read as follows:

"(8) 'correctional facility project' means a project for the construction, replacement, alteration or expansion of a prison or jail for the purpose of relieving overcrowding or substandard conditions;", and

(6) by amending paragraph (13) to read as follows:

"(13) 'cost of construction' means all expenses fund by the Director to be necessary for the construction of the project, including architect and engineering fees, but excluding land acquisition costs;".

FUNDING

SEC. 609D. (a) Section 1001 of part J of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3793) is amended to read as follows:

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 1001. (a)(1) There are authorized to be appropriated for fiscal years 1984, 1985, 1986, 1987, and 1988 such sums as may be necessary to carry out the functions of the Bureau of Justice Statistics.

"(2) There are authorized to be appropriated for fiscal years 1984, 1985, 1986, 1987, and 1988 such sums as may be necessary to carry out the functions of the National Institute of Justice.

"(3) There is authorized to be appropriated such sums as may be necessary for each of the fiscal years 1984, 1985, 1986, 1987, and 1988 to carry out the remaining functions of the Office of Justice Programs and the Bureau of Justice Assistance, other than functions under parts F, G, and L of this title.

"(4) There is authorized to be appropriated $25,000,000 for each of the fiscal years 1984, 1985, 1986, 1987, and 1988 to carry out part F.

"(5) There are authorized to be appropriated for each fiscal year such sums as may be necessary to carry out part L.

"(6) Funds appropriated for any fiscal year may remain available for obligation until expended.

"(b) Notwithstanding any other provision of law, no funds appropriated under this section for parts D and E of this title may be transferred or reprogrammed for carrying

out any activity which is not authorized under such parts.".

(b) Part J of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3793-3793b) is amended by striking out sections 1002 and 1003.

CRIMINAL PENALTIES

SEC. 609E. (a) Section 1101 of part K of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3795) is amended by striking out "Law Enforcement Assistance Administration" and inserting in lieu thereof "Office of Justice Programs, Bureau of Justice Assistance".

(b) Section 1103 of part K of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3795-3795b) is amended by striking out "Law Enforcement Assistance Administration" and inserting in lieu thereof "Office of Justice Programs, Bureau of Justice Assistance".

PUBLIC SAFETY OFFICERS' DEATH BENEFITS

SEC. 609F. Part L of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3796-3796c) is amended to read as follows:

"PART L—PUBLIC SAFETY OFFICERS' DEATH BENEFITS

"PAYMENTS

"SEC. 1201. (a) In any case in which the Bureau of Justice Assistance (hereinafter in this part referred to as the 'Bureau') determines, under regulations issued pursuant to this part, that a public safety officer has died as the direct and proximate result of a personal injury sustained in the line of duty, the Bureau shall pay a benefit of $50,000 as follows:

"(1) if there is no surviving child of such officer, to the surviving spouse of such officer;

"(2) if there is a surviving child or children and a surviving spouse, one-half to the surviving child or children of such officer in equal shares and one-half to the surviving spouse;

"(3) if there is no surviving spouse, to the child or children of such officer in equal shares; or

"(4) if none of the above, to the dependent parent or parents of such officer in equal shares.

"(b) Whenever the Bureau determines upon showing of need and prior to final action that the death of a public safety officer is one with respect to which a benefit will probably be paid, the Bureau may make an interim benefit payment not exceeding $3,000 to the individual entitled to receive a benefit under subsection (a) of this section.

"(c) The amount of an interim payment under subsection (b) shall be deducted from the amount of any final benefit paid to such individual.

"(d) Where there is no final benefit paid, the recipient of any interim payment under subsection (b) shall be liable for repayment of such amount. The Bureau may waive all or part of such repayment, considering for this purpose the hardship which would result from such repayment.

"(e) The benefit payable under this part shall be in addition to any other benefit that may be due from any other source, except—"

"(1) payments authorized by section 12(k) of the act of September 1, 19916, as amended (D.C. Code, sec. 4-622); or

"(2) benefits authorized by section 8191 of title 5, United States Code. Such beneficiaries shall only receive benefits under such section 8191 that are in excess of the benefits received under this part.

"(f) No benefit paid under this part shall be subject to execution or attachment.

"LIMITATIONS

"SEC. 1202. No benefit shall be paid under this part—

"(1) if the death was caused by the intentional misconduct of the public safety officer or by such officer's intention to bring about his death;

"(2) if the public safety officer was voluntarily intoxicated at the time of his death;

"(3) if the public safety officer was performing his duties in a grossly negligent manner at the time of his death;

"(4) to any individual who would otherwise be entitled to a benefit under this part if such individual's actions were a substantial contributing factor to the death of the public safety officer; or

"(5) to any individual employed in a capacity other than a civilian capacity.

"DEFINITIONS

"SEC. 1203. As used in this part—

"(1) 'child' means any natural, illegitimate, adopted, or posthumous child or stepchild of a deceased public safety officer who, at the time of the public safety officer's death, is—

"(i) 18 years of age or under;

"(ii) over 18 years of age and a student as defined in section 8101 of title 5, United States Code; or

"(iii) over 18 years of age and incapable of self-support because of physical or mental disability;

"(2) 'dependent' means any individual who was substantially reliant for support upon the income of the deceased public safety officer;

"(3) 'firefighter' includes an individual serving as an officially recognized or designated member of a legally organized volunteer fire department;

"(4) 'intoxication' means a disturbance of mental or physical faculties resulting from the introduction of alcohol into the body as evidenced by—

"(i) a post-mortem blood alcohol level of .20 per centum or greater; or

"(ii) a post-mortem blood alcohol level of at least .10 per centum but less than .20 per centum unless the Bureau receives convincing evidence that the public safety officer was not acting in an intoxicated manner immediately prior to his death;

or resulting from drugs or other substances in the body;

"(5) 'law enforcement officer' means an individual involved in crime and juvenile delinquency control or reduction, or enforcement of the laws, including, but not limited to, police, corrections, probation, parole, and judicial officers;

"(6) 'public agency' means the United States, any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, Guam, American Samoa, the Trust Territory of the Pacific Islands, the Commonwealth of the Northern Mariana Islands, and any territory or possession of the United States, or any unit of local government, department, agency, or instrumentality of any of the foregoing; and

"(7) 'public safety officer' means an individual serving a public agency in an official capacity, with or without compensation, as a law enforcement officer or a firefighter.

"ADMINISTRATIVE PROVISIONS

"SEC. 1204. (a) The Bureau is authorized to establish such rules, regulations, and procedures as may be necessary to carry out the purposes of this part. Such rules, regulations, and procedures will be determinative of conflict of laws issues arising under this part. Rules, regulations, and procedures issued under this part may include regulations governing the recognition of agents or other persons representing claimants under this part before the Bureau. The Bureau may prescribe the maximum fees which may be charged for services performed in connection with any claim under this part before the Bureau, and any agreement in violation of such rules and regulations shall be void.

"(b) In making determinations under section 1201, the Bureau may utilize such administrative and investigative assistance as may be available from State and local agencies. Responsibility for making final determinations shall rest with the Bureau.".

TRANSITION

SEC. 609G. Section 1301 of part M of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3799) is amended—

"(1) in subsection (a)—

(A) by inserting "(1)" after "(a)", and

(B) by adding at the end thereof the following new paragraph:

"(2) All orders, determinations, rules, regulations, and instructions issued under this title which are in effect on the date of the enactment of the Justice Assistance Act of 1984 shall continue in effect according to their terms until modified, terminated, superseded, set aside, or revoked by the President, the Attorney General, the Assistant Attorney General, the Director of the Bureau of Justice Statistics, the Director of the National Institute of Justice, the Administrator of the Office of Juvenile Justice and Delinquency Prevention, or the Director of the Bureau of Justice Assistance with respect to their functions under this title or by operation of law.",

"(2) by striking out subsection (j), and

"(3) by redesignating subsection (k) as subsection (j).

TABLE OF CONTENTS

SEC. 609H. The table of contents of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3701-3799) is amended to read as follows:

REFERENCES IN OTHER LAWS

SEC. 609I. (a) Any reference to the Law Enforcement Assistance Administration, or to the Administrator of the Law Enforcement Assistance Administration, in any law other than this Act and the Omnibus Crime Control and Safe Streets Act of 1968, applicable to activities, functions, powers, and duties that after the date of the enactment of this Act are carried out by the Bureau of Justice Assistance shall be deemed to be a reference to the Bureau of Justice Assistance, or to the Director of the Bureau of Justice Assistance, as the case may be.

(b) Any reference to the Office of Justice Assistance, Research, and Statistics, or to the Director of the Office of Justice Assistance, Research, and Statistics, in any law other than this Act and the Omnibus Crime Control and Safe Streets Act of 1968, applicable to activities, functions, powers, and duties that after the date of the enactment of this Act are carried out by the Office of Justice Programs, the Bureau of Justice Assistance, the Bureau of Justice Statistics, the National Institute of Justice, or the Office of Juvenile Justice Delinquency Prevention shall be deemed to be a reference to the Office of Justice Programs, the Bureau of Justice Assistance, the Bureau of Justice Statistics, National Institute of Justice, or Office of Juvenile Justice Delinquency Prevention, or to the Director of the Office of Justice Programs, the Director of the Bureau of Justice Assistance, the Director of the Bureau of Justice Statistics, the Director of the National Institute of Justice, or the Administrator of the Office of Juvenile Justice and Delinquency Prevention, as the case may be.

TECHNICAL AMENDMENTS TO OTHER LAWS

SEC. 609J. (a) Section 5314 of title 5, United States Code, is amended by striking out "Director, Office of Justice Assistance, Research, and Statistics.".

(b) Section 5315 of title 5, United States Code, is amended by striking out "Administrator of Law Enforcement Assistance.".

OFFENSES INVOLVING PRISON-MADE GOODS

SEC. 609K. (a) Section 1761(c) of title 18, United States Code, is amended—

(1) by striking out "seven" and inserting in lieu thereof "twenty", and

(2) by striking out "Administrator of the Law Enforcement Assistance Administration" and inserting in lieu thereof "Director of the Bureau of Justice Assistance".

(b) Section 1761 of title 18, United States Code, is amended by adding at the end thereof the following new subsection:

"(d) Notwithstanding any law to the contrary, materials produced by convict labor may be used in the construction of any highways or portion of highways located on Federal-aid systems, as described in section 103 of title 23, United States Code.".

FRAUD AND RELATED ACTIVITY IN CONNECTION WITH IDENTIFICATION DOCUMENTS

SEC. 609L. (a) For purposes of section 1028 of title 18, United States Code, to the maximum extent feasible, personal descriptors or identifiers utilized in identification documents, as defined in such section, shall utilize common descriptive terms and formats designed to—

(1) reduce the redundancy and duplication of identification systems by providing information which can be utilized by the maximum number of authories, and

(2) facilitate positive identification of bona fide holders of identification documents.

(b) The President shall, no later than 3 years after the date of enactment of this Act, and after consultation with Federal, State, local, and international issuing authorities, and concerned groups make recommendations to the Congress for the enactment of comprehensive legislation on Federal identification systems. Such legislation shall—

(1) give due consideration to protecting the privacy of persons who are the subject of any identification system,

(2) recommend appropriate civil and criminal sanctions for the misuse or unauthorized disclosure of personal identification information, and

(3) make recommendations providing for the exchange of personal identfication information as authorized by Federal or State law or Executive order of the President or the chief executive officer of any of the several States.

SUBTITLE B—EMERGENCY FEDERAL LAW ENFORCEMENT ASSISTANCE APPLICATION

SEC. 609M. (a) In the event that a law enforcement emergency exists throughout a State or a part of a State, a State (on behalf of itself or another appropriate unit of government) may submit an application under this section for Federal law enforcement assistance.

(b) An application for assistance under this section shall be submitted in writing by the chief executive officer of a State to the Attorney General, in a form prescribed by rules issued by the Attorney General. The Attorney General shall, after consultation with the Director of the Office of Justice Assistance and appropriate members of the Federal law enforcement community, approve or disapprove such application not later than 10 days after receiving such application.

(c) Federal law enforcement assistance may be provided if such assistance is necessary to provide an adequate response to a law enforcement emergency. In determining whether to approve or disapprove an application for assistance under this section, the Attorney General shall consider—

(1) the nature and extent of such emergency throughout a State or in any part of a State,

(2) the situation or extraordinary circumstances which produced such emergency,

(3) the availability of State and local criminal justice resources to resolve the problem,

(4) the cost associated with the increased Federal presence,

(5) the need to avoid unnecessary Federal involvement and intervention in matters primarily of State and local concern, and

(6) any assistance which the State or other appropriate unit of government has received, or could receive, under any provision of title I of the Omnibus Crime Control and Safe Street Act of 1968.

DEFINITIONS

SEC. 609N. For purposes of this subdivision—

(1) the term "Federal law enforcement assistance" means funds, equipment, training, intelligence information, and personnel,

(2) the term "Federal law enforcement community" means the heads of the following departments or agencies:

(A) the Federal Bureau of Investigation,

(B) the Drug Enforcement Administration,

(C) the Criminal Division of the Department of Justice,

(D) the Internal Revenue Service,

(E) the Customs Service,

(F) the Immigration and Naturalization Service,

(G) the United States Marshals Service,

(H) the National Park Service,

(I) the United States Postal Service,

(J) the Secret Service,

(K) the Coast Guard,

(L) the Bureau of Alcohol, Tobacco, and Firearms, and

(M) the other Federal agencies with specific statutory authority to investigate violations of Federal criminal laws,

(3) the term "law enforcement emergency" means an uncommon situation which requires law enforcement, which is or threatens to become of serious or epidemic proportions, and with respect to which State and local resources are inadequate to protect the lives and property of citizens or to enforce the criminal law, except that such term does not include—

(A) the perceived need for planning or other activities related to crowd control for general public safety projects, or

(B) a situation requiring the enforcement of laws associated with scheduled public events, including political conventions and sports events, and

(4) the term "State" means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the trust territory of the Pacific Islands, or the Commonwealth of the Northern Mariana Islands.

LIMITATION ON AUTHORITY

SEC. 609O. (a) Nothing in this subdivision authorizes the use of Federal law enforcement personnel to investigate violations of criminal law other than violations with respect to which investigation is authorized by other provisions of law.

(b) Nothing in this subdivision shall be construed to authorize the Attorney General or the Federal law enforcement community to exercise any direction, supervision, or control over any police force or other criminal justice agency of an applicant for Federal law enforcement assistance.

(c) Nothing in this subdivision shall be construed to authorize the Attorney General or the Federal law enforcement community—

(1) to condition the availability or amount of Federal law enforcement assistance upon the adoption by an applicant for such assistance of, or

(2) to deny or discontinue such assistance upon the failure of such applicant to adopt, a percentage ratio, quota system, or other program to achieve racial balance in any criminal justice agency of such applicant.

(d) No funds provided under this subdivision may be used to supplant State or local funds that would otherwise be made available for such purposes.

(e) Nothing in this subdivision shall be construed to limit any authority to provide emergency assistance otherwise provided by law.

PROHIBITION OF DISCRIMINATION

SEC. 609P. (a) No person in any State shall, on the grounds of race, color, religion, national origin, or sex, be excluded from participation in, be denied the benefits of, be subjected to discrimination under, or be denied employment in connection with any activity for which Federal law enforcement assistance is provided under this subdivision.

(b) Paragraph (3) and paragraph (4) of section 809(c) of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (as so redesignated by section 511(f) of this Act) shall apply with respect to a violation of subsection (a), except that the terms "this section" and "paragraph (1)", as such terms appear in such paragraphs, shall be deemed to be references to subsection (a) of this section, and a reference to the Office of Justice Programs in such paragraph shall be deemed to be a reference to the Attorney General.

CONFIDENTIALITY OF INFORMATION

SEC. 609Q. Section 812 of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (as so redesignated by section 511(f) of this Act) shall apply with respect to—

(1) information furnished under this subdivision,

(2) criminal history information collected, stored, or disseminated with the support of Federal law enforcement assistance provided under this subdivision, and

(3) criminal intelligence systems operating with the support of Federal law enforcement assistance provided under this subdivision,

except that terms "this title" and "this section", as such terms appear in such section 812, shall be deemed to be references to this subdivision and this section, respectively, of this Act, and a reference to the Office of Justice Programs in such section 812 shall be deemed to be a reference to the Attorney General.

PROHIBITION OF LAND ACQUISITION

SEC. 609R. No funds provided under this subdivision shall be used for land acquisition.

REPAYMENT

SEC. 609S. (a) If Federal law enforcement assistance provided under this subdivision is used by the recipient of such assistance in violation of section 554 or for any purpose other than the purpose for which it is provided, then such recipient shall promptly repay to the Attorney General an amount equal to the value of such assistance.

(b) The Attorney General may bring a civil action in an appropriate United States district court to recover any amount required to be repaid under subsection (a).

RECORDKEEPING REQUIREMENT

SEC. 609T. (a) Each recipient of Federal law enforcement assistance provided under this subdivision shall keep such records as the Attorney General may prescribe to facilitate an effective audit.

(b) The Attorney General and the Comptroller General of the United States shall have access, for the purpose of audit and examination, to any books, documents, and records of recipients of Federal law enforcement assistance provided under this subdivision which, in the opinion of the Attorney General or the Comptroller General, are related to the receipt or use of such assistance.

REPORT TO CONGRESS

SEC. 609U. Not later than April 1 of each year, the Attorney General shall submit to the President, to the Speaker of the House of Representatives, and to the President of the Senate a report describing Federal law enforcement assistance provided under this subdivision during the calendar year preceding the date such report is made.

BUREAU OF JUSTICE ASSISTANCE

SEC. 609V. The Director of the Bureau of Justice Assistance may assist the Attorney General in providing Federal law enforcement assistance under this subdivision and in coordinating the activities authorized under this subdivision.

LIMITATION ON CIVIL JUSTICE MATTERS

SEC. 609W. Federal law enforcement assistance provided under this subdivision may not be used with respect to civil justice matters except to the extent that such civil justice matters bear directly and substantially upon criminal justice matters or are inextricably intertwined with criminal justice matters.

ISSUANCE OF RULES

SEC. 609X. The Attorney General, after consultation with appropriate members of the law enforcement community and with State and local officials, shall issue rules to carry out this subdivision.

AUTHORIZATION OF APPROPRIATIONS

SEC. 609Y.(a) There is authorized to be appropriated $20,000,000 for each fiscal year ending after September 30, 1984, to provide under this subdivision Federal law enforcement assistance in the form of funds.

(b) There are authorized to be appropriated for each fiscal year ending after September 30, 1984, such sums as may be necessary to provide under this subdivision Federal law enforcement assistance other than funds.

SUBTITLE C—CONFORMING AMENDMENT; EFFECTIVE DATES REPEALER

SEC. 609Z. Section 204 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act (Public Law 98-411) is repealed.

EFFECTIVE DATES

SEC. 609AA. (a) Except as provided in subsection (b), this division and the amendments made by this title shall take effect on the date of the enactment of this joint resolution or October 1, 1984, whichever is later.

(b)(1) The amendment made by section 609F shall take effect on October 1, 1984, and shall not apply with respect to injuries sustained before October 1, 1984.

(2) Section 609Z shall take effect on October 1, 1984.

DIVISION II—AMENDMENTS TO THE JUVENILE JUSTICE AND DELINQUENCY PREVENTION ACT OF 1974

SUBDIVISION A—GENERAL PROVISIONS

SHORT TITLE

SEC. 610. This Division may be cited as the "Juvenile Justice, Runaway Youth, and Missing Children's Act Amendments of 1984".

FINDINGS

SEC. 611. Section 101(a) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5601(a)) is amended—

(1) in paragraph (1)—

(A) by striking out "account" and inserting in lieu thereof "accounted", and

(B) by striking out "today" and inserting in lieu thereof "in 1974 and for less than one-third of such arrests in 1983",

(2) in paragraph (2) by inserting "and inadequately trained staff in such courts, services, and facilities" after "facilities",

(3) in paragraph (3) by striking out "the countless, abandoned, and dependent", and

(4) in paragraph (5) by striking out "prevented" and inserting in lieu thereof "reduced".

PURPOSE

SEC. 612. Section 102(a) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5602(a)) is amended—

(1) in paragraph (1) by striking out "prompt" and inserting in lieu thereof "ongoing",

(2) in paragraph (4) by striking out "an information clearinghouse to disseminate" and inserting in lieu thereof "the dissemination of", and

(3) in paragraph (7) by inserting "and homeless" after "runaway".

DEFINITIONS

SEC. 613. Section 103 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5603) is amended—

(1) in paragraph (3)—

(A) by striking out "for neglected, abandoned, or dependent youth and other youth", and

(B) by inserting "juvenile" after "prevent",

(2) in paragraph (4) by amending subparagraphs (A) and (B) to read as follows:

"(A) the term 'Bureau of Justice Assistance' means the bureau established by section 401 of the Omnibus Crime Control and Safe Streets Act of 1968;

"(B) the term 'Office of Justice Programs' means the office established by section 101 of the Omnibus Crime Control and Safe Streets Act of 1968;",

(3) in paragraph (6) by striking out "services," and inserting in lieu thereof "services),",

(4) in paragraph (14)—

(A) by inserting "or other sex offenses punishable as a felony" after "rape", and

(B) by striking out "and" at the end thereof,

(5) in paragraph (15) by striking out the period at the end thereof and inserting in lieu thereof "; and", and

(6) by adding at the end thereof the following new paragraph:

"(16) the term 'valid court order' means a court order given by a juvenile court judge to a juvenile who has been brought before the court and made subject to a court order. The use of the word 'valid' permits the incarceration of juveniles for violation of a valid court order only if they received their full due process rights as guaranteed by the Constitution of the United States.".

SUBDIVISION B—JUVENILE JUSTICE AND DELINQUENCY PREVENTION

OFFICE OF JUVENILE JUSTICE AND DELINQUENCY PREVENTION

SEC. 620. Section 201 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5611) is amended to read:

"ESTABLISHMENT OF OFFICE

"SEC. 201. (a) There is hereby established an Office of Juvenile Justice and Delinquency Prevention (hereinafter in this division referred to as the 'Office') within the Department of Justice under the general authority of the Attorney General.

"(b) The Office shall be headed by an Administrator (hereinafter in this title referred to as the 'Administrator') appointed by the President, by and with the advice and consent of the Senate, from among individuals who have had experience in juvenile justice programs. The Administrator is authorized to prescribe regulations consistent with this Act to award, administer, modify, extend, terminate, monitor, evaluate, reject, or deny all grants and contracts from, and applications for, funds made available under this title. The Administrator shall report to the Attorney General through the Assistant Attorney General who heads the Office of Justice Programs under part A of title I of the Omnibus Crime Control and Safe Streets Act of 1968.

"(c) There shall be in the Office a Deputy Administrator who shall be appointed by the Attorney General and whose function shall be to supervise and direct the National Institute for Juvenile Justice and Delinquency Prevention established by section 241 of this Act. The Deputy Administrator shall also perform such functions as the Administrator may from time to time assign or delegate and shall act as the Administrator during the absence or disability of the Administrator.".

TECHNICAL AMENDMENTS

SEC. 621. (a) Section 202(a) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5612(a)) is amended by striking out "him" and inserting in lieu thereof "the Administrator".

(b) Section 202(c) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5612(c)) is amended—

(1) by striking out "him" and inserting in lieu thereof "the Administrator", and

(2) by striking out "his functions" and inserting in lieu thereof "the functions of the Administrator".

CONCENTRATION OF FEDERAL EFFORTS

SEC. 622. (a) Section 204(a) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5614(a)) is amended by striking out "his functions" and inserting in lieu thereof "the functions of the Administrator".

(1) by striking out "him" and inserting in lieu thereof "the Administrator", and

(2) by striking out "he" and inserting in lieu thereof "the Administrator".

(e) Section 204(g) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5614(g)) is amended by striking out "his functions" and inserting in lieu thereof "the functions of the Administrator".

(f) Section 204(i) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5614(i)) is amended—

(1) by striking out "title" and inserting in lieu thereof "section", and

(2) by striking out "he" and inserting in lieu thereof "the Administrator".

(g) Section 204(l) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5614(l)) is amended—

(1) in paragraph (1)—

(A) by striking out "section 204(d)(1)" and inserting in lieu thereof "subsection (d)(1)", and

(B) by striking out "section 204(f)" and inserting in lieu thereof "subsection (f)",

(2) in paragraph (2)—

(A) by striking out "subsection (1)" and inserting in lieu thereof "paragraph (1)", and

(B) by striking out "section 204(e)" each place it appears and inserting in lieu thereof "subsection (e)", and

(3) in paragraph (3)—

(A) by striking out "him" and inserting in lieu thereof "the Administrator", and

(B) by striking out "subsection (1)" and inserting in lieu thereof "paragraph (1)".

COORDINATING COUNCIL ON JUVENILE JUSTICE AND DELINQUENCY PREVENTION

SEC. 623. (a) Section 206(a)(1) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5616(a)(1)) is amended—

(1) by striking out "Community Services Administration" and inserting in lieu thereof "Office of Community Services",

(2) by striking out "Director of the Office of Justice Assistance, Research, and Statistics," and inserting in lieu thereof "Assistant Attorney General who heads the Office of Justice Programs,", and

(3) by striking out "Administrator of the Law Enforcement Assistance Administration" and inserting in lieu thereof "Director of the Bureau of Justice Assistance".

(b) Section 206(c) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5616(c)) is amended by striking out "deliquency programs" and inserting in lieu thereof "delinquency programs and, in consultation with the Advisory Board on Missing Children, all Federal programs relating to missing and exploited children".

(c) Section 206(e) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5616(e)) is amended by striking out "he" and inserting in lieu thereof "the Administrator".

(d) Section 206(g) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5616(g)) is amended by striking out "$500,000" and inserting in lieu thereof "$200,000".

NATIONAL ADVISORY COMMITTEE FOR JUVENILE JUSTICE AND DELINQUENCY PREVENTION

SEC. 624. Section 207 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5617(a)) is repealed.

TECHNICAL AMENDMENTS

SEC. 625. (a) The Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5601 et seq.) is amended by inserting after the heading for subpart I of part B of title II the following new heading for section 221:

"AUTHORITY TO MAKE GRANTS"

(b) Section 222(b) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5632(b)) is amended—

(1) by striking out "and the Trust Territory" and inserting in lieu thereof "the Trust Territory", and

(2) by inserting ", and the Commonwealth of the Northern Mariana Islands" after "Pacific Islands".

STATE PLANS

SEC. 626. (a) Section 223(a) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5633(a)) is amended—

(1) by amending paragraph (1) to read as follows:

"(1) designate the State agency described in section 261(c)(1) as the sole agency for supervising the preparation and administration of the plan;",

(2) in paragraph (2) by striking out "(hereafter referred to in this part as the 'State criminal justice council')",

(3) in paragraph (3)—

(A) by amending subparagraph (C) to read as follows: "(C) which shall include (i) representatives of private organizations, including those with a special focus on maintaining and strengthening the family unit, those representing parents or parent groups, those concerned with delinquency prevention and treatment and with neglected or dependent children, and those concerned with the quality of juvenile justice, education, or social services for children; (ii) representatives of organizations which utilize volunteers to

work with delinquents or potential delinquents; (iii) representatives of community based delinquency prevention or treatment programs; (iv) representatives of business groups or businesses employing youth; (v) youth workers involved with alternative youth programs; and (vi) persons with special experience and competence in addressing the problems of the family, school violence and vandalism, and learning disabilities,", and

(B) in subparagraph (F)—

(i) by striking out "State criminal justice council" each place it appears and inserting in lieu thereof "State agency designated under paragraph (1)",

(ii) in clause (ii) by striking out "paragraph (12)(A) and paragraph (13)" and inserting in lieu thereof "paragraphs (12), (13), and (14)", and

(iii) in clause (iv)—

(I) by striking out "paragraph (12)(A) and paragraph (13)" and inserting in lieu thereof "paragraphs (12), (13), and (14)", and

(II) by striking out "in advising on the State's maintenance of effort under section 1002 of the Omnibus Crime Control and Safe Streets Act of 1968, as amended,",

(4) in paragraph (9) by inserting "special education," after "education,",

(5) In paragraph (10)—

(A) in the matter preceding subparagraph (A)—

(i) by striking out "programs for juveniles" and inserting in lieu thereof "programs for juveniles, including those processed in the criminal justice system,", and

(ii) by striking out "and provide for effective rehabilitation" and inserting in lieu thereof "provide for effective rehabilitation, and facilitate the coordination of services between the juvenile justice and criminal justice systems",

(B) in subparagraph (E) by inserting ", including programs to counsel delinquent youth and other youth regarding the opportunities which education provides" before the semicolon at the end thereof,

(C) in subparagraph (F) by inserting "and their families" before the semicolon at the end thereof,

(D) in subparagraph (H)—

(i) by amending clause (iii) to read as follows:

"(iii) establish and adopt, based on the recommendations of the National Advisory Committee for Juvenile Justice and Delinquency Prevention made before the date of the enactment of the Juvenile Justice, Runaway Youth, and Missing Children's Act Amendments of 1984, standards for the improvement of juvenile justice within the State;",

(ii) in clause (iv) by inserting "or" at the end thereof, and

(iii) by adding at the end thereof the following new clause:

"(v) involve parents and other family members in addressing the delinquency-related problems of juveniles;",

(E) in subparagraph (I) by striking out "and" at the end thereof,

(F) in subparagraph (J) by striking out "juvenile gangs and their members" and inserting in lieu thereof "gangs whose membership is substantially composed of juveniles", and

(G) by adding at the end thereof the following new subparagraphs:

"(K) programs and projects designed to provide for the treatment of juveniles' dependence on or abuse of alcohol or other addictive or nonaddictive drugs; and

"(L) law-related education programs and projects designed to prevent juvenile delinquency;",

(6) by amending paragraph (14) to read as follows:

"(14) provide that, beginning after the five-year period following December 8, 1980, no juvenile shall be detained or confined in any jail or lockup for adults, except that the Administrator shall, through 1989, promulgate regulations which make exceptions with regard to the detention of juveniles accused of nonstatus offenses who are awaiting an initial court appearance pursuant to an enforceable State law requiring such appearances within 24 hours after being taken into custody (excluding weekends and holidays) provided that such exceptions are limited to areas which—

"(i) are outside a Standard Metropolitan Statistical Area,

"(ii) have no existing acceptable alternative placement available, and

"(iii) are in compliance with the provisions of paragraph (13).",

(7) in paragraph (18)—

(A) by striking out "arrangements are made" and inserting in lieu thereof "arrangements shall be made",

(B) by striking out "Act. Such" and inserting in lieu thereof "Act and shall provide for the terms and conditions of such protective arrangements established pursuant to this section, and such",

(C) in subparagraph (D) by inserting "and" at the end thereof,

(D) in subparagraph (E) by striking out the period at the end thereof and inserting in lieu thereof a semicolon, and

(E) by striking out the last sentence of such paragraph,

(8) in paragraph (21) by striking out "State criminal justice council" and inserting in lieu thereof "State agency designated under paragraph (1)",

(9) in the matter following paragraph (22) by striking out the first sentence,

(10) by striking out the last sentence thereof,

(11) by redesignating paragraphs (17), (18), (19), (20), (21), and (22) as paragraphs (18), (19), (20), (21), (22), and (23), respectively, and

(12) by inserting after paragraph (16) the following new paragraph:

"(17) provide assurance that consideration will be given to and that assistance will be available for approaches designed to strengthen and maintain the family units of delinquent and other youth to prevent juvenile delinquency. Such approaches should include the involvement of grandparents or other extended family members when possible and appropriate;".

(b) Section 223(b) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5633(b)) is amended—

(1) by striking out "State criminal justice council designated pursuant to section 223(a)" and inserting in lieu thereof "State agency designated under subsection (a)(1)", and

(2) by striking out "section 223(a)" and inserting in lieu thereof "subsection (a)".

(c) The last sentence of section 223(c) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5633(c)) is amended by striking out "not to exceed 2 additional years" and inserting in lieu thereof "not to exceed 3 additional years".

(d) Section 223(d) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5633(d)) is amended by striking out "sections 803, 804, and 805" and inserting in lieu thereof "sections 802, 803, and 804".

GRANTS AND CONTRACTS

SEC. 627. Section 224 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5634) is amended to read as follows:

"AUTHORITY TO MAKE GRANTS AND CONTRACTS

"SEC. 224. (a) From not less than 15 percent, but not more than 25 percent, of the funds appropriated for a fiscal year to carry out this part, the Administrator shall, by making grants to and entering into contracts with public and private nonprofit agencies, organizations, institutions, or individuals provide for each of the following during each fiscal year:

"(1) developing and maintaining community-based alternatives to traditional forms of institutionalization of juvenile offenders;

"(2) developing and implementing effective means of diverting juveniles from the traditional juvenile justice and correctional system, including restitution and reconciliation projects which test and validate selected arbitration models, such as neighborhood courts or panels, and increase victim satisfaction while providing alternatives to incarceration for detained or adjudicated delinquents;

"(3) developing and supporting programs stressing advocacy activities aimed at improving services to youth impacted by the juvenile justice system, including services which encourage the improvement of due process available to juveniles in the juvenile justice system;

"(4) developing model programs to strengthen and maintain the family unit in order to prevent or treat juvenile delinquency;

"(5) developing and implementing special emphasis prevention and treatment programs relating to juveniles who commit serious crimes (including such crimes committed in schools), including programs designed to deter involvement in illegal activities or to promote involvement in lawful activities on the part of gangs whose membership is substantially composed of juveniles; and

"(6) developing and implementing further a coordinated, national law-related education program of delinquency prevention, including training programs for persons responsible for the implementation of law-related education programs in elementary and secondary schools.

"(b) From any special emphasis funds remaining available after grants and contracts are made under subsection (a), but not to exceed 10 percent of the funds appropriated for a fiscal year to carry out this part, the Administrator is authorized, by making grants to and entering into contracts with public and private nonprofit agencies, organizations, institutions, or individuals, to develop and implement new approaches, techniques, and methods designed to—

"(1) improve the capability of public and private agencies and organizations to provide services for delinquents and other youth to help prevent juvenile delinquency;

"(2) develop and implement, in coordination with the Secretary of Education, model programs and methods to keep students in elementary and secondary schools, to prevent unwarranted and arbitrary suspensions and expulsions, and to encourage new approaches and techniques with respect to the prevention of school violence and vandalism;

"(3) develop, implement, and support, in conjunction with the Secretary of Labor, other public and private agencies and orga-

nizations and business and industry programs for youth employment;

"(4) develop and support programs designed to encourage and enable State legislatures to consider and further the purposes of this title, both by amending State laws if necessary, and devoting greater resources to those purposes;

"(5) develop and implement programs relating to juvenile delinquency and learning disabilities, including on-the-job training programs to assist law enforcement personnel and juvenile justice personnel to more effectively recognize and provide for learning disabled and other handicapped juveniles;

"(6) develop statewide programs through the use of subsidies or other financial incentives designed to—

"(A) remove juveniles from jails and lockups for adults;

"(B) replicate juvenile programs designated as exemplary by the National Institute of Justice; or

"(C) establish and adopt, based upon the recommendations of the National Advisory Committee for Juvenile Justice and Delinquency Prevention made before the date of the enactment of the Juvenile Justice, Runaway Youth, and Missing Children's Act Amendments of 1984, standards for the improvement of juvenile justice within each State involved;

"(7) develop and implement model programs, relating to the special education needs of delinquent and other youth, which develop locally coordinated policies and programs among education, juvenile justice, and social service agencies.

"(c) Not less than 30 percent of the funds available for grants and contracts under this section shall be available for grants to and contracts with private nonprofit agencies, organizations, or institutions which have had experience in dealing with youth.

"(d) Assistance provided under this section shall be available on an equitable basis to deal with female, minority, and disadvantaged youth, including mentally, emotionally, or physically handicapped youth.

"(e) Not less than 5 percent of the funds available for grants and contracts under this section shall be available for grants and contracts designed to address the special needs and problems of juvenile delinquency in the Virgin Islands, Guam, American Samoa, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands.".

APPROVAL OF APPLICATIONS

SEC. 628. (a) Section 225(b) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5635(b)) is amended—

(1) in paragraph (2) by inserting "(such purpose or purposes shall be specifically identified in such application)" before the semicolon,

(2) in paragraph (5) by striking out ", when appropriate," and inserting in lieu thereof "(if such State or local agency exists)",

(3) in paragraph (6) by striking out ", when appropriate", and

(4) in paragraph (8) by striking out "indicate" and inserting in lieu thereof "attach a copy of".

(b) Section 225(c) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5635(c)) is amended—

(1) by inserting "and for contracts" after "for grants",

(2) in paragraph (4) by striking out "delinquents and other youth to help prevent delinquency" and inserting in lieu thereof "address juvenile delinquency and juvenile delinquency prevention",

(3) in paragraph (5) by inserting "and" at the end thereof,

(4) by striking out paragraph (6), and

(5) by redesignating paragraph (7) as paragraph (6).

(c) Section 225 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5635) is amended—

(1) by redesignating subsection (d) as subsection (e), and

(2) inserting after subsection (c) the following new subsection:

"(d)(1)(A) Except as provided in subparagraph (B) new programs selected after the effective date of the Juvenile Justice, Runaway Youth, and Missing Children's Act Amendments of 1984 for assistance through grants or contracts under section 224 or part C of this title shall be selected through a competitive process to be established by rule by the Administrator. As part of such process, the Administrator shall announce in the Federal Register the availability of funds for such assistance, the general criteria applicable to the selection of applicants to receive such assistance, and a description of the procedures applicable to submitting and reviewing applications for such assistance.

"(B) The competitive process described in subparagraph (A) shall not be required if—

"(i) the Administrator has made a written determination that the proposed program is not within the scope of any program announcement or any announcement expected to be issued, but can otherwise be supported by a grant or contract in accordance with section 224 or part C of this title, and if the proposed program is of such outstanding merit, as determined through peer review conducted under paragraph (2), that the award of a grant or contract without competition is justified; or

"(ii) the Administrator makes a written determination, which shall include the factual and other bases thereof, that the applicant is uniquely qualified to provide proposed training services as provided in section 244, and other qualified sources are not capable of carrying out the proposed program.

"(C) In each case where a program is selected for assistance without competition pursuant to the exception provided in subparagraph (B), the Administrator shall promptly so notify the chairman of the Committee on Education and Labor of the House of Representatives and the chairman of the Committee on the Judiciary of the Senate. Such notification shall include copies of the Administrator's determination under clause (i) or clause (ii) of such subparagraph and the peer review determination required under paragraph (2).

"(2) New programs selected after the effective date of the Juvenile Justice, Runaway Youth, and Missing Children's Act Amendments of 1984 for assistance through grants or contracts under section 224 shall be reviewed before selection and thereafter as appropriate through a formal peer review process utilizing experts (other than officers and employees of the Department of Justice) in fields related to the subject matter of the proposed program. Such process shall be established by the Administrator in consultation with the Directors and other appropriate officials of the National Science Foundation and the National Institute of Mental Health. Before implementation, the Administrator shall submit such process to such Directors, each of whom shall prepare and furnish to the chairman of the Committee on Education and Labor of the House of Representatives and the chairman of the Committee on the Judiciary of the Senate a final report containing their comments on such process as proposed to be established.

"(3) The Administrator, in establishing the processes required under paragraphs (1) and (2), shall provide for emergency expedited consideration of program proposals when necessary to avoid any delay which would preclude carrying out the program.".

(d) Section 225 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5035) is amended by adding at the end thereof the following new subsection:

"(f) Notification of grants and contracts made under section 224 (and the applications submitted for such grants and contracts) shall, upon being made, be transmitted by the Administrator, to the chairman of the Committee on Education and Labor of the House of Representatives and the chairman of the Committee on the Judiciary of the Senate.".

USE OF FUNDS

SEC. 629. Section 227(c) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5637(c)) is amended by striking out "section 224(a)(7)" each place it appears and inserting in lieu thereof "section 224(a)(3)".

PAYMENTS

SEC. 630. (a) Section 228(a) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5638(a)) is amended by striking out "he" and inserting in lieu thereof "the Administrator".

(b) Section 228(d) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5638(d)) is amended by striking out "he" and inserting in lieu thereof "the Administrator".

(c) Section 228(e) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5638(e)) is amended—

(1) by striking out "him" and inserting in lieu thereof "the Administrator",

(2) by striking out "section 803" and inserting in lieu thereof "section 802", and

(3) by striking out "section 224(a)(5)" and inserting in lieu thereof "section 224(b)(6)".

NATIONAL INSTITUTE FOR JUVENILE JUSTICE AND DELINQUENCY PREVENTION

SEC. 631. (a) The Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5601 et seq.) is amended by inserting after the heading for part C of title II the following new heading for section 241:

"ESTABLISHMENT OF NATIONAL INSTITUTE FOR JUVENILE JUSTICE AND DELINQUENCY PREVENTION"

(b) Section 241(b) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5651(b)) is amended by striking out "section 201(f)" and inserting in lieu thereof "section 201(c)".

(c) Section 241(d) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5651(d)) is amended to read as follows:

"(d) It shall be the purpose of the Institute to provide—

"(1) a coordinating center for the collection, preparation, and dissemination of useful data regarding the prevention, treatment, and control of juvenile delinquency; and

"(2) appropriate training (including training designed to strengthen and maintain the family unit) for representatives of Federal, State, local law enforcement officers, teachers and special education personnel, family counselors, child welfare work-

ers, juvenile judges and judicial personnel, probation personnel, correctional personnel (including volunteer lay personnel), persons associated with law-related education, youth workers, and representatives of private agencies and organizations with specific experience in the prevention, treatment, and control of juvenile delinquency.".

(d) Section 241 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5651) is amended—

(1) by redesignating subsection (f) as subsection (g),

(2) by inserting after subsection (e) the following new subsection:

"(f) The Administrator, acting through the Institute, shall provide, not less frequently than once every 2 years, for a national conference of member representatives from State advisory groups for the purpose of—

"(1) disseminating information, data, standards, advanced techniques, and program models developed through the Institute and through programs funded under section 224;

"(2) reviewing Federal policies regarding juvenile justice and delinquency prevention;

"(3) advising the Administrator with respect to particular functions or aspects of the work of the Office; and

"(4) advising the President and Congress with regard to State perspectives on the operation of the Office and Federal legislation pertaining to juvenile justice and delinquency prevention.", and

(3) by adding at the end thereof the following new subsection:

"(h) The authorities of the Institute under this part shall be subject to the terms and conditions of section 225(d).".

RESEARCH, DEMONSTRATION, AND EVALUATION FUNCTIONS

SEC. 632. Section 243 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5653) is amended—

(1) in paragraph (1) by inserting "which seek to strengthen and maintain the family unit or" after "methods",

(2) in paragraph (4) by striking "Associate" and inserting in lieu thereof "Deputy",

(3) by amending paragraph (5) to read as follows:

"(5) prepare, in cooperation with educational institutions, with Federal, State, and local agencies, and with appropriate individuals and private agencies, such studies as it considers to be necessary with respect to the prevention and treatment of juvenile delinquency and related matters, including—

"(A) recommendations designed to promote effective prevention and treatment, particularly by strengthening and maintaining the family unit; and

"(B) assessments regarding the role of family violence, sexual abuse or exploitation, media violence, the improper handling of youth placed in one State by another State, the possible ameliorating roles of familial relationships, special education, remedial education, and recreation, and the extent to which youth in the juvenile system are treated differently on the basis of sex, race, or family income and the ramifications of such treatment;

"(C) examinations of the treatment of juveniles processed in the criminal justice system; and

"(D) recommendations as to effective means for detering involvement in illegal activities or promoting involvement in lawful activities on the part of gangs whose membership is substantially composed of juveniles.", and

(4) in paragraph (7) by striking out "(including a periodic journal)".

TRAINING FUNCTIONS

SEC. 633. Section 244 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5654) is amended—

(1) in paragraph (1)—

(A) by striking out "or who are" and inserting in lieu thereof "working with or", and

(B) by striking out "and juvenile offenders" and inserting in lieu thereof ", juvenile offenders, and their families",

(2) in paragraph (2) by striking out "workshop" and inserting in lieu thereof "workshops", and

(3) in paragraph (3) by striking out "teachers" and all that follows through the end thereof and inserting in lieu thereof the following: "teachers and special education personnel, family counselors, child welfare workers, juvenile judges and judicial personnel, probation personnel (including volunteer lay personnel), persons associated with law-related education, youth workers, and organizations with specific experience in the prevention and treatment of juvenile delinquency; and".

REPEALER

SEC. 634. Section 245 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5655) is repealed.

ANNUAL REPORT

SEC. 635. Section 246 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5656) is amended by striking out "SEC. 246." and inserting in lieu thereof "SEC. 245.".

DEVELOPMENT OF STANDARDS FOR JUVENILE JUSTICE

SEC. 636. Section 247 of the Juvenile Justice and Delinquency Act of 1974 (42 U.S.C. 5657) is amended to read as follows:

"ADDITIONAL FUNCTIONS OF THE INSTITUTE

"SEC. 246. (a) The National Institute for Juvenile Justice and Delinquency Prevention shall review existing reports, data, and standards, relating to the juvenile justice system in the United States.

"(b) The National Institute for Juvenile Justice and Delinquency Prevention is authorized to develop and support model State legislation consistent with the mandates of this title and the standards developed by National Advisory Committee for Juvenile Justice and Delinquency Prevention before the date of the enactment of the Juvenile Justice, Runaway Youth, and Missing Children's Act Amendments of 1984.".

ESTABLISHMENT OF TRAINING PROGRAM

SEC. 637. (a) Section 248(b) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5659(b)) is amended to read as follows:

"(b) Enrollees in the training program established under this section shall be drawn from law enforcement and correctional personnel (including volunteer lay personnel), teachers and special education personnel, family counselors, child welfare workers, juvenile judges and judicial personnel, persons associated with law-related education, youth workers, and representatives of private agencies and organizations with specific experience in the prevention and treatment of juvenile delinquency.".

(b) Section 248 of the Juvenile Justice and Delinquency Act of 1974 (42 U.S.C. 5659) is amended by striking out "SEC. 248." and inserting in lieu thereof "SEC. 247.".

TECHNICAL AMENDMENT

SEC. 638. Section 249 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5660) is amended by striking out "SEC. 249." and inserting in lieu thereof "SEC. 248.".

TRAINING PROGRAM

SEC. 639. (a) The heading for section 250 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5661) is amended to read as follows:

"PARTICIPATION IN TRAINING PROGRAM AND STATE ADVISORY GROUP CONFERENCES"

(b) Section 250(c) of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5661(c)) is amended to read as follows:

"(c) While participating as a trainee in the program established under section 246 or while participating in any conference held under section 241(f), and while traveling in connection with such participation, each person so participating shall be allowed travel expenses, including a per diem allowance in lieu of subsistence, in the same manner as persons employed intermittently in Government service are allowed travel expenses under section 5703 of title 5, United States Code. No consultation fee may be paid to such person for such participation.".

(c) Section 250 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5661) is amended by striking out "SEC. 250." and inserting in lieu thereof "SEC. 249.".

AUTHORIZATION OF APPROPRIATIONS

SEC. 640. Section 261 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5671) is amended to read as follows:

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 261. (a) To carry out the purposes of this title there is authorized to be appropriated such sums as may be necessary for fiscal years 1985, 1986, 1987, and 1988. Funds appropriated for any fiscal year may remain available for obligation until expended.

"(b) Of such sums as are appropriated to carry out the purposes of this title—

"(1) not to exceed 7.5 percent shall be available to carry out part A;

"(2) not less than 81.5 percent shall be available to carry out part B; and

"(3) 11 percent shall be available to carry out part C.

"(c) Notwithstanding any other provision of law, the Administrator shall—

"(1) establish appropriate administrative and supervisory board membership requirements for a State agency responsible for supervising the preparation and administration of the State plan submitted under section 223 and permit the State advisory group appointed under section 223(a)(3) to operate as the supervisory board for such agency, at the discretion of the Governor; and

"(2) approve any appropriate State agency designated by the Governor of the State involved in accordance with paragraph (1).

"(d) No funds appropriated to carry out the purposes of this title may be used for any bio-medical or behavior control experimentation on individuals or any research involving such experimentation. For the purpose of this subsection, the term 'behavior control' refers to experimentation or research employing methods which involve a substantial risk of physical or psychological harm to the individual subject and which are intended to modify or alter criminal and other anti-social behavior, including aversive conditioning therapy, drug therapy or chemotherapy (except as part of routine

clinical care), physical therapy of mental disorders, electroconvulsive therapy, or physical punishment. The term does not apply to a limited class of programs generally recognized as involving no such risk, including methadone maintenance and certain alcohol treatment programs, psychological counseling, parent training, behavior contracting, survival skills training, restitution, or community service, if safeguards are established for the informed consent of subjects (including parents or guardians of minors).".

APPLICATION OF OTHER ADMINISTRATIVE AUTHORITY

SEC. 641. Section 262 of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5672) is amended to read as follows:

"ADMINISTRATIVE AUTHORITY

"SEC. 262. (a) The Office shall be administered by the Administrator under the general authority of the Attorney General.

"(b) Sections 809(c), 811(a), 811(b), 811(c), 812(a), 812(b), and 812(d) of the Omnibus Crime Control and Safe Streets Act of 1968, as so designated by the operation of the amendments made by the Justice Assistance Act of 1984, shall apply with respect to the administration of and compliance with this Act, except that for purposes of this Act—

"(1) any reference to the Office of Justice Programs in such sections shall be deemed to be a reference to the Assistant Attorney General who heads the Office of Justice Programs; and

"(2) the term 'this title' as it appears in such sections shall be deemed to be a reference to this Act.

"(c) Sections 801(a), 801(c), and 806 of the Omnibus Crime Control and Safe Streets Act of 1968, as so designated by the operation of the amendments made by the Justice Assistance Act of 1984, shall apply with respect to the administration of and compliance with this Act, except that for purposes of this Act—

"(1) any reference to the Attorney General, the Assistant Attorney General who heads the Office of Justice Programs, the Director of the National Institute of Justice, the Director of the Bureau of Justice Statistics, or the Director of the Bureau of Justice Assistance shall be deemed to be a reference to the Administrator;

"(2) any reference to the Office of Justice Programs, the Bureau of Justice Assistance, the National Institute of Justice, or the Bureau of Justice Statistics shall be deemed to be a reference to the Office of Juvenile Justice and Delinquency Prevention; and

"(3) the term 'this title' as it appears in such sections shall be deemed to be a reference to this Act.

"(d) The Administrator is authorized, after appropriate consultation with representatives of States and units of local government, to establish such rules, regulations, and procedures as are necessary for the exercise of the functions of the Office and as are consistent with the purpose of this Act.".

Subdivision C—Runaway and Homeless Youth

RULES

SEC. 650. Section 303 of the Runaway and Homeless Youth Act (42 U.S.C. 5702) is amended to read as follows:

"RULES

"SEC. 303. The Secretary of Health and Human Services (hereinafter in this title referred to as the 'Secretary') may issue such rules as the Secretary considers necessary or appropriate to carry out the purposes of this title.".

PURPOSES OF GRANT PROGRAM

SEC. 651. (a) The first sentence of section 311(a) of the Runaway and Homeless Youth Act (42 U.S.C. 5711(a)) is amended—

(1) by inserting "and assistance to their families" before the period at the end thereof, and

(2) by striking, in the first sentence, "nonprofit private agencies and coordinated networks of such agencies" and inserting in lieu thereof "private entities and coordinated networks of such entities".

(b) Section 311(b) of the Runaway and Homeless Youth Act (42 U.S.C. 5711(b)) is amended by inserting "and to the families of such juveniles" before the period at the end thereof.

ELIGIBILITY

SEC. 652. Section 312(b) of the Runaway and Homeless Youth Act (42 U.S.C. 5712) is amended—

(1) in paragraph (2) by striking out "portion" and inserting in lieu thereof "proportion",

(2) in paragraph (3) by striking out "(if such action is required by State law)",

(3) in paragraph (4) by inserting "school system personnel," after "social service personnel,",

(4) in paragraph (5) by striking out "parents" and inserting in lieu thereof "families", and

(5) in paragraph (6) by striking out "parents" and inserting in lieu thereof "family members".

APPROVAL BY SECRETARY

SEC. 653. The first sentence in section 313 of the Runaway and Homeless Youth Act (42 U.S.C. 5713) is amended by striking out "nonprofit private agency" and inserting in lieu thereof "private entity".

GRANTS TO PRIVATE AGENCIES, STAFFING

SEC. 654. Section 314 of the Runaway and Homeless Youth Act (42 U.S.C. 5714) is amended—

(1) by amending the heading to read as follows: "GRANTS TO PRIVATE ENTITIES; STAFFING", and

(2) in the first sentence—

(A) by striking out "nonprofit private agencies" and inserting in lieu thereof "private entities", and

(B) by striking out "house" and inserting in lieu thereof "center".

ADDITIONAL ASSISTANCE

SEC. 655. The Runaway and Homeless Youth Act (42 U.S.C. 5701 et seq.) is amended—

(1) by redesignating sections 315 and 316 as sections 317 and 318, respectively, and

(2) by inserting after section 314 the following new sections:

"ASSISTANCE TO POTENTIAL GRANTEES

"SEC. 315. The Secretary shall provide informational assistance to potential grantees interested in establishing runaway and homeless youth centers. Such assistance shall consist of information on—

"(1) steps necessary to establish a runaway and homeless youth center, including information on securing space for such center, obtaining insurance, staffing, and establishing operating procedures;

"(2) securing local private or public financial support for the operation of such center, including information on procedures utilized by grantees under this title; and

"(3) the need for the establishment of additional runaway youth centers in the geographical area identified by the potential grantee involved.

"LEASE OF SURPLUS FEDERAL FACILITIES FOR USE AS RUNAWAY AND HOMELESS YOUTH CENTERS

"SEC. 316. (a) The Secretary may enter into cooperative lease arrangements with States, localities, and nonprofit private agencies to provide for the use of appropriate surplus Federal facilities transferred by the General Services Administration to the Department of Health and Human Services for use as runaway and homeless youth centers if the Secretary determines that—

"(1) the applicant involved has suitable financial support necessary to operate a runaway and homeless youth center;

"(2) the applicant is able to demonstrate the program expertise required to operate such center in compliance with this title, whether or not the applicant is receiving a grant under this part; and

"(3) the applicant has consulted with and obtained the approval of the chief executive officer of the unit of general local government in which the facility is located.

"(b)(1) Each facility made available under this section shall be made available for a period of not less than 2 years, and no rent or fee shall be charged to the applicant in connection with use of such facility.

"(2) Any structural modifications or additions to facilities made available under this section shall become the property of the United States. All such modifications or additions may be made only after receiving the prior written consent of the Secretary or other appropriate officer of the Department of Health and Human Services.".

REORGANIZATION

SEC. 656. Part C of the Runaway and Homeless Youth Act (42 U.S.C. 5741) is repealed.

AUTHORIZATION OF APPROPRIATIONS

SEC. 657. (a) The Runaway and Homeless Youth Act (42 U.S.C. 5701 et seq.) is amended by inserting after the heading for part D the following new heading for section 341:

"AUTHORIZATION OF APPROPRIATIONS".

(b) Section 341(a) is amended by striking out "for each of the fiscal years" and all that follows through the period at the end thereof and inserting in lieu thereof "such sums as may be necessary for fiscal years 1985, 1986, 1987, and 1988.".

(c) Section 341(b) of the Runaway and Homeless Youth Act (42 U.S.C. 5751(b)) is amended by striking out "Associate".

(d) Section 341 of the Runaway and Homeless Youth Act (42 U.S.C. 5751) is amended by adding at the end thereof the following new subsection:

"(c) No funds appropriated to carry out the purposes of this title—

"(1) may be used for any program or activity which is not specifically authorized by this title; or

"(2) may be combined with funds appropriated under any other Act if the purpose of combining such funds is to make a single discretionary grant or a single discretionary payment unless such funds are separately identified in all grants and contracts and are used for the purposes specified in this title.".

(e) Part D of the Runaway and Homeless Youth Act (42 U.S.C. 5751) is redesignated as part C.

(f) Section 341 of the Runaway and Homeless Youth Act (42 U.S.C. 5757) is redesignated as section 331.

Subdivision D—Missing Children's Assistance

ASSISTANCE RELATING TO MISSING CHILDREN

SEC. 660. The Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5601 et seq.) is amended by adding at the end thereof the following new title:

"TITLE IV—MISSING CHILDREN

"SHORT TITLE

"SEC. 401. This title may be cited as the Missing Children's Assistance Act.

"FINDINGS

"SEC. 402. The Congress hereby finds that—

"(1) each year thousands of children are abducted or removed from the control of a parent having legal custody without such parent's consent, under circumstances which immediately place them in grave danger;

"(2) many of these children are never reunited with their families;

"(3) often there are no clues to the whereabouts of these children;

"(4) many missing children are at great risk of both physical harm and sexual exploitation;

"(5) in many cases, parents and local law enforcement officials have neither the resources nor the expertise to mount expanded search efforts;

"(6) abducted children are frequently moved from one locality to another, requiring the cooperation and coordination of local, State, and Federal law enforcement efforts;

"(7) on frequent occasions, law enforcement authorities quickly exhaust all leads in missing children cases, and require assistance from distant communities where the child may be located; and

"(8) Federal assistance is urgently needed to coordinate and assist in this interstate problem.

"DEFINITIONS

"SEC. 403. For the purpose of this title—

"(1) the term 'missing child' means any individual less than 18 years of age whose whereabouts are unknown to such individual's legal custodian if—

"(A) the circumstances surrounding such individual's disappearance indicate that such individual may possibly have been removed by another from the control of such individual's legal custodian without such custodian's consent; or

"(B) the circumstances of the case strongly indicate that such individual is likely to be abused or sexually exploited; and

"(2) the term 'Administrator' means the Administrator of the Office of Juvenile Justice and Delinquency Prevention.

"DUTIES AND FUNCTIONS OF THE ADMINISTRATOR

"SEC. 404. (a) The Administrator shall—

"(1) issue such rules as the Administrator considers necessary or appropriate to carry out this title;

"(2) make such arrangements as may be necessary and appropriate to facilitate effective coordination among all federally funded programs relating to missing children (including the preparation of an annual comprehensive plan for facilitating such coordination);

"(3) provide for the furnishing of information derived from the national toll-free telephone line, established under subsection (b)(1), to appropriate law enforcement entities;

"(4) provide adequate staff and agency resources which are necessary to properly carry out the responsibilities pursuant to this title;

"(5) analyze, compile, publish, and disseminate an annual summary of recently completed research, research being conducted, and Federal, State, and local demonstration projects relating to missing children with particular emphasis on—

"(A) effective models of local, State, and Federal coordination and cooperation in locating missing children;

"(B) effective programs designed to promote community awareness of the problem of missing children;

"(C) effective programs to prevent the abduction and sexual exploitation of children (including parent, child, and community education); and

"(D) effective program models which provide treatment, counseling, or other aid to parents of missing children or to children who have been the victims of abduction or sexual exploitation; and

"(6) prepare, in conjunction with and with the final approval of the Advisory Board on Missing Children, an annual comprehensive plan for facilitating cooperation and coordination among all agencies and organizations with responsibilities related to missing children.

"(b) The Administrator, either by making grants to or entering into contracts with public agencies or nonprofit private agencies, shall—

"(1) establish and operate a national toll-free telephone line by which individuals may report information regarding the location of any missing child, or other child 13 years of age or younger whose whereabouts are unknown to such child's legal custodian, and request information pertaining to procedures necessary to reunite such child with such child's legal custodian;

"(2) establish and operate a national resource center and clearinghouse designed—

"(A) to provide technical assistance to local and State governments, public and private nonprofit agencies, and individuals in locating and recovering missing children;

"(B) to coordinate public and private programs which locate, recover, or reunite missing children with their legal custodians;

"(C) to disseminate nationally information about innovative and model missing children's programs, services, and legislation; and

"(D) to provide technical assistance to law enforcement agencies, State and local governments, elements of the criminal justice system, public and private nonprofit agencies, and individuals in the prevention, investigation, prosecution, and treatment of the missing and exploited child case; and

"(3) periodically conduct national incidence studies to determine for a given year the actual number of children reported missing each year, the number of children who are victims of abduction by strangers, the number of children who are the victims of parental kidnappings, and the number of children who are recovered each year.

"(c) Nothing contained in this title shall be construed to grant to the Administrator any law enforcement responsibility or supervisory authority over any other Federal agency.

"ADVISORY BOARD

"SEC. 405. (a) There is hereby established the Advisory Board on Missing Children (hereinafter in this title referred to as the 'Advisory Board') which shall be composed of 9 members as follows:

"(1) a law enforcement officer;

"(2) an individual whose official duty is to prosecute violations of the criminal law of a State;

"(3) the chief executive officer of a unit of local government within a State;

"(4) a statewide elected officer of a State;

"(5) the Director of the Federal Bureau of Investigation or the Director's designee from within the Federal Bureau of Investigation; and

"(6) 4 members of the public who have experience or expertise relating to missing children (including members representing parent groups).

"(b) The Attorney General shall make the initial appointments to the Advisory Board not later than 90 days after the effective date of this title. The Advisory Board shall meet periodically and at the call of the Attorney General, but not less frequently than annually. The Chairman of the Advisory Board shall be designated by the Attorney General.

"(c) The Advisory Board shall—

"(1) advise the Administrator and the Attorney General in coordinating programs and activities relating to missing children which are planned, administered, or assisted by any Federal program;

"(2) advise the Administrator with regard to the establishment of priorities for making grants or contracts under section 406; and

"(3) approve the annual comprehensive plan for facilitating cooperation and coordination among all agencies and organizations with responsibilities relating to missing children and submit the first such annual plan to the President and the Congress not later than 18 months after the effective date of this title.

"(d) Members of the Advisory Board, while serving away from their places of residence or regular places of business, shall be entitled to reimbursement for travel expenses, including per diem in lieu of subsistence, in the same manner as is authorized by section 5703 of title 5, United States Code, for persons employed intermittently in the Government service.

"GRANTS

"SEC. 406. (a) The Administrator is authorized to make grants to and enter into contracts with public agencies or nonprofit private organizations, or combinations thereof, for research, demonstration projects, or service programs designed—

"(1) to educate parents, children, and community agencies and organizations in ways to prevent the abduction and sexual exploitation of children;

"(2) to provide information to assist in the locating and return of missing children;

"(3) to aid communities in the collection of materials which would be useful to parents in assisting others in the identification of missing children;

"(4) to increase knowledge of and develop effective treatment pertaining to the psychological consequences, on both parents and children, of—

"(A) the abduction of a child, both during the period of disappearance and after the child is recovered; and

"(B) the sexual exploitation of a missing child;

"(5) to collect detailed data from selected States or localities on the actual investigative practices utilized by law enforcement agencies in missing children's cases; and

"(6) to address the particular needs of missing children by minimizing the negative impact of judicial and law enforcement procedures on children who are victims of abuse or sexual exploitation and by promoting the active participation of children and

their families in cases involving abuse or sexual exploitation of children.

"(b) In considering grant applications under this title, the Administrator shall give priority to applicants who—

"(1) have demonstrated or demonstrate ability in—

"(A) locating missing children or locating and reuniting missing children with their legal custodians;

'(B) providing other services to missing children or their families; or

"(C) conducting research relating to missing children; and

"(2) with respect to subparagraphs (A) and (B) of paragraph (1), substantially utilize volunteer assistance.

The Administrator shall give first priority to applicants qualifying under subparagraphs (A) and (B) of paragraph (1).

"(c) In order to receive assistance under this title for a fiscal year, applicants shall give assurance that they will expend, to the greatest extent practicable, for such fiscal year an amount of funds (without regard to any funds received under any Federal law) that is not less than the amount of funds they received in the preceding fiscal year from State, local, and private sources.

"CRITERIA FOR GRANTS

"SEC. 407. The Administrator, in consultation with the Advisory Board, shall establish annual research, demonstration, and service program priorities for making grants and contracts pursuant to section 406 and, not less than 60 days before establishing such priorities, shall publish in the Federal Register for public comment a statement of such proposed priorities.

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 408. To carry out the provisions of this title, there are authorized to be appropriated $10,000,000 for fiscal year 1985, and such sums as may be necessary for fiscal years 1986, 1987, and 1988.".

Subdivision E—Effective Dates

EFFECTIVE DATES

SEC. 670. (a) Except as provided in subsection (b), this division and the amendments made by this division shall take effect on the date of the enactment of this joint resolution or October 1, 1984, whichever occurs later.

(b) Paragraph (2) of section 331(c) of the Runaway and Homeless Youth Act, as added by section 657(d) of this division, shall not apply with respect to any grant or payment made before the effective date of this joint resolution.

And the Senate agree to the same.

Amendment numbered 159:

That the House recede from its disagreement to the amendment of the Senate numbered 159, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment, insert the following:

CHAPTER XIII—NATIONAL NARCOTICS ACT

SEC. 1301. This chapter may be cited as the "National Narcotics Act of 1984".

SEC. 1302. (a) The Congress hereby makes the following findings:

(1) The flow of illegal narcotics into the United States is a major and growing problem.

(2) The problem of illegal drug activity falls across the entire spectrum of Federal activities both nationally and internationally.

(3) Illegal drug trafficking is estimated by the General Accounting Office to be an $80,000,000,000 per annum industry in the United States.

(4) The annual consumption of drugs has reached epidemic proportions.

(5) Despite the efforts of the United States Government and other nations, the mechanisms for smuggling opium and other hard drugs into the United States remain virtually intact and United States agencies estimate that they are able to interdict no more than 5 to 15 percent of all hard drugs flowing into the country.

(6) Such significant indicators of the drug problem as drug-related deaths, emergency room visits, hospital admissions due to drug-related incidents, and addiction rates are soaring.

(7) Increased drug trafficking is strongly linked to violent, addiction-related crime and recent studies have shown that over 90 percent of heroin users rely upon criminal activity as a means of income.

(8) Much of the drug trafficking is handled by syndicates, a situation which results in increased violence and criminal activity because of the competitive struggle for control of the domestic drug market.

(9) Controlling the supply of illicit drugs is a key to reducing the crime epidemic confronting every region of the country.

(10) The magnitude and scope of the problem requires the establishment of a National Drug Enforcement Policy Board, chaired by the Attorney General, to facilitate coordination of all Federal efforts by relevant agencies.

(11) Such a Board must have responsibility for coordinating the operations of Federal agencies involved in attacking this problem through the development of policy and resources, so that a unified and efficient effort can be undertaken.

(b) It is the purpose of this Act to insure—

(1) the maintenance of a national and international effort against illegal drugs;

(2) that the activities of the Federal agencies involved are fully coordinated; and

(3) that a single, competent, and responsible high-level Board of the United States Government, chaired by the Attorney General, will be charged with this responsibility of coordinating United States policy with respect to national and international drug law enforcement.

SEC. 1303. There is established in the executive branch of the Government a Board to be known as the "National Drug Enforcement Policy Board" (hereinafter in this Act referred to as the "Board"). There shall be at the head of the Board a Chairman who shall be the Attorney General (hereinafter in this Act referred to as the "Chairman"). In addition to the Chairman, the Board shall be comprised of the Secretaries of State, Treasury, Defense, Transportation, Health and Human Services, the Director of the Office of Management and Budget, and the Director of Central Intelligence and such other officials as may be appointed by the President. Decisions made by the Board pursuant to section 4(a) of this Act shall be acknowledged by each member thereof in writing.

SEC. 1304. (a) The Board shall facilitate coordination of United States operations and policy on illegal drug law enforcement. In the furtherance of that responsibility, the Board shall have the responsibility, and is authorized to—

(1) review, evaluate and develop United States Government policy, strategy and resources with respect to illegal drug law enforcement efforts, including budgetary priorities and a National and International Drug Law Enforcement Strategy;

(2) facilitate coordination of all United States Government efforts to halt national and international trafficking in illegal drugs; and

(3) coordinate the collection and evaluation of information necessary to implement United States policy with respect to illegal drug law enforcement.

(b) For the purpose of coordinating the activities of the several departments and agencies with responsibility for drug law enforcement and implementing the determinations of the Board, it shall be the duty of the Chairman—

(1) to advise the Board in matters concerning drug law enforcement;

(2) to make recommendations to the Board for the coordination of drug enforcement activities;

(3) to correlate and evaluate intelligence and other information on drug law enforcement to support the activities of the Board;

(4) to act as primary adviser to the President and Congress on national and international illegal drug law enforcement programs and policies developed by the Board under subsection (a) of this section and the implementation thereof; and

(5) to perform such other duties as the President may direct.

(c) In carrying out responsibilities under this section, the Chairman, on behalf of the Board, is authorized to—

(1) direct, with the concurrence of the head of the agency employing such personnel, the assignment of Government personnel within the United States Government in order to implement United States policy with respect to illegal drug law enforcement;

(2) provide guidance in the implementation and maintenance of policy, strategy, and resources developed under subsection (a) of this section;

(3) review and approve the reprograming of funds relating to budgetary priorities developed under subsection (a) of this section;

(4) procure temporary and intermittent services under section 3109(b) of title 5 of the United States Code, but at rates for individuals not to exceed the daily equivalent of the maximum annual rate of basic pay payable for the grade of GS-18 of the General Schedule;

(5) accept and use donations of property from all Government agencies; and

(6) use the mails in the same manner as any other department or agency of the executive branch.

(d) Notwithstanding the authority granted in this section, the Board and the Chairman shall not interfere with routine law enforcement or intelligence decisions of any agency and shall undertake no activity inconsistent with the authorities and responsibilities of the Director of Central Intelligence under the provisions of the National Security Act of 1947, as amended, or Executive Order 12333.

(e) The Administrator of the General Services Administration shall provide to the Board on a reimbursable basis such administrative support services as the Chairman may request.

SEC. 1305. The Chairman shall submit to the Congress, within nine months after enactment of this Act, and biannually thereafter, a full and complete report reflecting United States policy with respect to illegal drug law enforcement, plans proposed for the implementation of such policy, and, commencing with the submission of the second report, a full and complete report reflecting accomplishments with respect to the

United States policy and plans theretofore submitted to the Congress.

SEC. 1306. Title II of the Drug Abuse Prevention, Treatment and Rehabilitation Act (21 U.S.C. 1112) is amended by adding at the end of section 201 (21 U.S.C. 1111) a new subsection (d) as follows:

"(d) Support to National Drug Enforcement Policy Board. One of the duties of the White House Office of Drug Abuse Policy shall be to insure coordination between the National Drug Enforcement Policy Board and the health issues associated with drug abuse.".

SEC. 1307. This chapter and the amendments made by this chapter shall take effect January 20, 1985.

CHAPTER TITLE XIV—VICTIM COMPENSATION AND ASSISTANCE

SEC. 1401. This chapter may be cited as the "Victims of Crime Act of 1984".

CRIME VICTIMS FUND

SEC. 1402. (a) There is created in the Treasury a separate account to be known as the Crime Victims Fund (hereinafter in this chapter referred to as the "Fund").

(b) Except as limited by subsection (c), there shall be deposited in the Fund—

(1) all fines that are collected from persons convicted of offenses against the United States except—

(A) fines available for use by the Secretary of the Treasury pursuant to—

(i) section 11(d) of the Endangered Species Act (16 U.S.C. 1540(d)); and

(ii) section 6(d) of the Lacey Act Amendments of 1981 (16 U.S.C. 3375(d)); and

(B) fines to be paid into—

(i) the railroad unemployment insurance account pursuant to the Railroad Unemployment Insurance Act (45 U.S.C. 351 et seq.);

(ii) the Postal Service Fund pursuant to sections 2601(a)(2) and 2003 of title 39 of the United States Code and for the purposes set forth in section 404(a)(8) of such title 39;

(iii) the navigable waters revolving fund pursuant to section 311 of the Federal Water Pollution Control Act (33 U.S.C. 1321); and

(iv) county public school funds pursuant to section 3613 of title 18 of the United States Code;

(2) penalty assessments collected under section 3013 of title 18 of the United States Code;

(3) the proceeds of forfeited appearance bonds, bail bonds, and collateral collected under section 3146 of title 18 of the United States Code; and

(4) any money ordered to be paid into the Fund under section 3671(c)(2) of title 18 of the United States Code.

(c)(1) If the total deposited in the Fund during a particular fiscal year reaches the sum of $100 million, the excess over that sum shall be deposited in the general fund of the Treasury and shall not be a part of the Fund.

(2) No deposits shall be made in the Fund after September 30, 1988.

(d)(1) Sums deposited in the Fund shall remain in the Fund and be available for expenditure under this subsection for grants under this title without fiscal year limitation.

(2) Fifty percent of the total deposited in the Fund during a particular fiscal year shall be available for grants under section 1403 and fifty percent shall be available for grants under section 1404.

(e) Any sums awarded as part of a grant under this chapter that remain unspent at the end of a fiscal year in which such grant is made may be expended for the purpose for which such grant is made at any time during the next succeeding fiscal year, at the end of which year any remaining unobligated sums shall be returned to the general fund of the Treasury.

(f) As used in this section, the term "offenses against the United States" does not include—

(1) a criminal violation of the Uniform Code of Military Justice (10 U.S.C. 801 et seq.);

(2) an offense against the laws of the District of Columbia; and

(3) an offense triable by an Indian tribal court or Court of Indian Offenses.

CRIME VICTIM COMPENSATION

SEC. 1403. (a)(1) Except as provided in paragraph (2), the Attorney General shall make an annual grant from the Fund to an eligible crime victim compensation program of 35 percent of the amounts awarded during the preceding fiscal year, other than amounts awarded for property damage. A grant under this section shall be used by such program only for awards of compensation.

(2) If the sums available in the Fund for grants under this section are insufficient to provide grants of 35 percent as provided in paragraph (1), the Attorney General shall make, from the sums available, a grant to each eligible crime victim compensation program so that all such programs receive the same percentage of the amounts awarded by such program during the preceding fiscal year, other than amounts awarded for property damage.

(b) A crime victim compensation program is an eligible crime victim compensation program for the purposes of this section if—

(1) such program is operated by a State and offers compensation to victims of crime and survivors of victims of crime for—

(A) medical expenses attributable to a physical injury resulting from compensable crime, including expenses for mental health counseling and care;

(B) loss of wages attributable to a physical injury resulting from a compensable crime; and

(C) funeral expenses attributable to a death resulting from a compensable crime;

(2) such program promotes victim cooperation with the reasonable requests of law enforcement authorities;

(3) such State certifies that grants received under this section will not be used to supplant State funds otherwise available to provide crime victim compensation;

(4) such program, as to compensable crimes occurring within the State, makes compensation awards to victims who are nonresidents of the State on the basis of the same criteria used to make awards to victims who are residents of such State;

(5) such program provides compensation to victims of crimes occurring within such State that would be compensable crimes, but for the fact that such crimes are subject to Federal jurisdiction, on the same basis that such program provides compensation to victims of compensable crimes; and

(6) such program provides such other information and assurances related to the purposes of this section as the Attorney General may reasonably require.

(c) A State crime victim compensation program in effect on the date grants may first be made under this section shall be deemed an eligible crime victim compensation program for the purposes of this section until the day after the close of the first regular session of the legislature of that State that begins after such date.

(d) As used in this section—

(1) the term "property damage" does not include damage to prosthetic devices or dental devices;

(2) the term "medical expenses" includes, to the extent provided under the eligible crime victim compensation program, expenses for dental services and devices and prosthetic devices and for services rendered in accordance with a method of healing recognized by the law of the State;

(3) the term "compensable crime" means a crime the victims of which are eligible for compensation under the eligible crime victim compensation program; and

(4) the term "State" includes the District of Columbia, the Commonwealth of Puerto Rico, and any other possession or territory of the United States.

CRIME VICTIM ASSISTANCE

SEC. 1404. (a)(1) Subject to the availability of money in the Fund, the Attorney General shall make an annual grant from any portion of the Fund not used for grants under section 1403 with respect to a particular fiscal year, and after any deduction under subsection (c), to the chief executive of each State for the financial support of eligible crime victim assistance programs.

(2) Such chief executive shall—

(A) certify that priority shall be given to eligible crime victim assistance programs providing assistance to victims of sexual assault, spousal abuse, or child abuse;

(B) certify that funds awarded to eligible crime victim assistance programs will not be used to supplant State and local funds otherwise available for crime victim assistance; and

(C) provide such other information and assurances related to the purposes of this section as the Attorney General may reasonably require.

(3) The amounts of grants under paragraph (1) shall be—

(A) $100,000 to each State; and

(B) that portion of the then remaining available money to each State that results from a distribution among the States on the basis of each State's population in relation to the population of all States.

(4) If the amount available for grants under paragraph (1) is insufficient to provide $100,000 to each State, the funds available shall be distributed equally among the States.

(b)(1) A victim assistance program is an eligible crime victim assistance program for the purposes of this section if such program—

(A) is operated by a public agency or a nonprofit organization, or a combination of such agencies or organizations or of both such agencies and organizations, and provides services to victims of crime;

(B) demonstrates—

(i) a record of providing effective services to victims of crime and financial support from sources other than the Fund; or

(ii) substantial financial support from sources other than the Fund;

(C) utilizes volunteers in providing such services, unless and to the extent the chief executive determines that compelling reasons exist to waive this requirement;

(D) promotes within the community served coordinated public and private efforts to aid crime victims; and

(E) assists potential recipients in seeking crime victim compensation benefits.

(2) An eligible crime victim assistance program shall expend sums received under sub-

section (a) only for providing services to victims of crime.

(c)(1) The Attorney General may in any fiscal year deduct from amounts available under section 1404 an amount not to exceed 5 percent of the amount in the Fund, and may expend the amount so deducted to provide services to victims of Federal crimes by the Department of Justice, or reimburse other instrumentalities of the Federal Government otherwise authorized to provide such services.

(2) The Attorney General shall appoint or designate an official of the Department of Justice to be the Federal Crime Victim Assistance Administrator (hereinafter in this chapter referred to as the "Federal Administrator") to exercise the responsibilities of the Attorney General under this subsection.

(3) The Federal Administrator shall—

(A) be responsible for monitoring compliance with guidelines for fair treatment of crime victims and witnesses issued under section 6 of the Victim and Witness Protection Act of 1982 (Public Law 97-291);

(B) consult with the heads of Federal law enforcement agencies that have responsibilities affecting victims of Federal crimes;

(C) coordinate victim services provided by the Federal Government with victim services offered by other public agencies and nonprofit organizations; and

(D) perform such other functions related to the purposes of this title as the Attorney General may assign.

(4) The Attorney General may reimburse other instrumentalities of the Federal Government and contract for the performance of functions authorized under this subsection.

(d) As used in this section—

(1) the term "State" includes the District of Columbia, the Commonwealth of Puerto Rico, and, except for the purposes of paragraphs (3)(A) and (4) of subsection (a) of this section, any other territory or possession of the United States; and

(2) the term "services to victims of crime" includes—

(A) crisis intervention services;

(B) providing, in an emergency, transportation to court, short-term child care services, and temporary housing and security measures;

(C) assistance in participating in criminal justice proceedings; and

(D) payment of all reasonable costs for a forensic medical examination of a crime victim, to the extent that such costs are otherwise not reimbursed or paid;

(3) the term "services to victims of Federal crime" means services to victims of crime with respect to Federal crime, and includes—

(A) training of law enforcement personnel in the delivery of services to victims of Federal crime;

(B) preparation, publication, and distribution of informational materials—

(i) setting forth services offered to victims of crime; and

(ii) concerning services to victims of Federal crime for use by Federal law enforcement personnel; and

(C) salaries of personnel who provide services to victims of crime, to the extent that such personnel provide such services;

(4) the term "crisis intervention services" means counseling to provide emotional support in crises arising from the occurrence of crime; and

(5) the term "chief executive" includes a person designated by a chief executive to perform the functions of the chief executive under this section.

PENALTY ASSESSMENT

SEC. 1405. (a) Chapter 201 of title 18 of the United States Code is amended by adding at the end the following:

"§ 3013. Special assessment on convicted persons

"(a) The court shall assess on any person convicted of an offense against the United States—

"(1) in the case of a misdemeanor—

"(A) the amount of $25 if the defendant is an individual; and

"(B) the amount of $100 if the defendant is a person other than an individual; and

"(2) in the case of a felony—

"(A) the amount of $50 if the defendant is an individual; and

"(B) the amount of $200 if the defendant is a person other than an individual.

"(b) Such amount so assessed shall be collected in the manner that fines are collected in criminal cases.".

(b) The table of sections for chapter 201 of title 18 of the United States Code is amended by adding at the end the following:

"3013. Special assessment on convicted persons.".

SPECIAL FORFEITURE OF COLLATERAL PROFITS OF CRIME

SEC. 1406. (a) Title 18 of the United States Code is amended by adding after chapter 231 the following:

"CHAPTER 232—SPECIAL FORFEITURE OF COLLATERAL PROFITS OF CRIME

"Sec.
"§ 3671. Order of special forfeiture.
"§ 3672. Notice to victims of order of special forfeiture.

"§ 3671. Order of special forfeiture

"(a) Upon the motion of the United States attorney made at any time after conviction of a defendant for an offense against the United States resulting in physical harm to an individual, and after notice to any interested party, the court shall, if the court determines that the interest of justice or an order of restitution under chapter 227 or 231 of this title so requires, order such defendant to forfeit all or any part of proceeds received or to be received by that defendant, or a transferee of that defendant, from a contract relating to a depiction of such crime in a movie, book, newspaper, magazine, radio or television production, or live entertainment of any kind, or an expression of that defendant's thoughts, opinions, or emotions regarding such crime.

"(b) An order issued under subsection (a) of this section shall require that the person with whom the defendant contracts pay to the Attorney General any proceeds due the defendant under such contract.

"(c)(1) Proceeds paid to the Attorney General under this section shall be retained in escrow in the Crime Victims Fund in the Treasury by the Attorney General for five years after the date of an order under this section, but during that five year period may—

"(A) be levied upon to satisfy—

"(i) a money judgment rendered by a United States district court in favor of a victim of an offense for which such defendant has been convicted, or a legal representative of such victim; and

"(ii) a fine imposed by a court of the United States; and

"(B) if ordered by the court in the interest of justice, be used to—

"(i) satisfy a money judgment rendered in any court in favor of a victim of any offense for which such defendant has been convicted, or a legal representative of such victim; and

"(ii) pay for legal representation of the defendant in matters arising from the offense for which such defendant has been convicted, but no more than 20 percent of the total proceeds may be so used.

"(2) The court shall direct the disposition of all such proceeds in the possession of the Attorney General at the end of such five years and may require that all or any part of such proceeds be released from escrow and paid into the Crime Victims Fund in the Treasury.

"(d) As used in this section, the term 'interested party' includes the defendant and any transferee of proceeds due the defendant under the contract, the person with whom the defendant has contracted, and any person physically harmed as a result of the offense for which the defendant has been convicted.

"§ 3672. Notice to victims of order of special forfeiture

"The United States attorney shall, within 30 days after the imposition of an order under this chapter and at such other times as the Attorney General may require, publish in a newspaper of general circulation in the district in which the offense for which a defendant was convicted occurred, a notice that states—

"(1) the name of, and other identifying information about, the defendant;

"(2) the offense for which the defendant was convicted; and

"(3) that the court has ordered a special forfeiture of certain proceeds that may be used to satisfy a judgment obtained against the defendant by a victim of an offense for which the defendant has been convicted.".

(b) The table of chapters for part II of title 18 of the United States Code is amended by adding after the item for chapter 231 the following:

"232. Special forfeiture of collateral profits of crime.".

ADMINISTRATIVE PROVISIONS

SEC. 1407. (a) The Attorney General may establish such rules, regulations, guidelines, and procedures as are necessary to carry out any function of the Attorney General under this chapter and may delegate to any officer or employee of the Department of Justice any such function as the Attorney General deems appropriate.

(b) Each recipient of sums under this chapter shall keep such records as the Attorney General shall prescribe, including records that fully disclose the amount and disposition by such recipient of such sums, the total cost of the undertaking for which such sums are used, and that portion of the cost of the undertaking supplied by other sources, and such other records as will facilitate an effective audit.

(c) The Attorney General or any duly authorized representative of the Attorney General shall have access, for purpose of audit and examination, to any books, documents, papers, and records of the recipient of sums under this chapter that, in the opinion of the Attorney General or any duly authorized representative of the Attorney General, may be related to the expenditure of funds received under this chapter.

(d) Except as otherwise provided by Federal law, no officer or employee of the Federal Government, and no recipient of sums under this chapter, shall use or reveal any research or statistical information furnished under this chapter by any person and identifiable to any specific private person for any purpose other than the purpose for which such information was obtained in ac-

cordance with this chapter. Such information, and any copy of such information, shall be immune from legal process and shall not, without the consent of the person furnishing such information, be admitted as evidence or used for any purpose in any action, suit, or other judicial, legislative, or administrative proceeding.

(f) No person shall on the ground of race, color, religion, national origin, handicap, or sex be excluded from participation in, denied the benefits of, subjected to discrimination under, or denied employment in connection with, any undertaking funded in whole or in part with sums made available under this chapter.

(g) If, after reasonable notice and opportunity for a hearing on the record, the Attorney General finds that a State has failed to comply substantially with any provision of this chapter or a rule, regulation, guideline, or procedure issued under this chapter, or an application submitted in accordance with this chapter or the provisions of any other applicable law, the Attorney General shall—

(1) terminate payments to such State;

(2) suspend payments to such State until the Attorney General is satisfied that such noncompliance has ended; or

(3) take such other action as the Attorney General deems appropriate.

(h) The Attorney General shall, no later than December 31, 1987, report to the President and to the Congress on the revenue derived from each source described in section 1002 and on the effectiveness of the activities supported under this chapter. The Attorney General may include in such report recommendations for legislation to improve this chapter.

PAROLE PROCEEDING AMENDMENTS

SEC. 1408. (a) Section 4207 of title 19 of the United States Code is amended—

(1) by striking out "and" at the end of paragraph (4); and

(2) by inserting after paragraph (4) the following new paragraph:

"(5) a statement, which may be presented orally or otherwise, by any victim of the offense for which the prisoner is imprisoned about the financial, social, psychological, and emotional harm done to, or loss suffered by such victim; and".

(b) Section 6(a) of the Victim and Witness Protection Act of 1982 is amended—

(1) in the catchline of paragraph (4), by striking out "Major";

(2) in paragraph (4), by striking out "if possible, of judicial proceedings relating to their case, including—" and inserting in lieu thereof "if possible, of—"; and

(3) in subparagraph (D) of paragraph (4)—

(A) by inserting "and punishment" after "prosecution"; and

(B) by inserting "a hearing to determine a parole release date and" after "imposed,".

(c) Section 4215 of title 18 of the United States Code is amended—

(1) so that the heading of such section reads as follows:

"§ 4215. Appeal";

(2) in subsection (a)—

(A) in the first sentence—

(i) by striking out "have the decision reconsidered" and inserting in lieu thereof "appeal such decision"; and

(ii) by striking out "regional commissioner" and inserting in lieu thereof "National Appeal Board"; and

(B) by striking out the second sentence; and

(3) in subsection (b), by striking out the first sentence.

(d) The table of sections at the beginning of chapter 311 of title 18 of the United States Code is amended so that the item relating to section 4215 reads as follows:

"4215. Appeal.".

EFFECTIVE DATES

SEC. 1409. (a) Except as provided in subsection (b), this chapter and the amendments made by this chapter shall take effect 30 days after the date of enactment of this joint resolution.

(b) Sections 1402, 1403, 1404, and 1407 of this chapter shall take effect on October 1, 1984.

CONFORMING AMENDMENT

Section 1410.

Section 3150(a) of title 18 U.S.C. is amended by striking out "the general fund of".

CHAPTER XV—TRADEMARK COUNTERFEITING

SEC. 1501. This chapter may be cited as the "Trademark Counterfeiting Act of 1984".

TITLE 18 AMENDMENT

SEC. 1502. (a) Chapter 113 of title 18 of the United States Code is amended by adding at the end the following:

"§ 2320. Trafficking in counterfeit goods or services

"(a) Whoever intentionally traffics or attempts to traffic in goods or services and knowingly uses a counterfeit mark on or in connection with such goods or services shall, if an individual, be fined not more than $250,000 or imprisoned not more than five years, or both, and, if a person other than an individual, be fined not more than $1,000,000. In the case of an offense by a person under this section that occurs after that person is convicted of another offense under this section, the person convicted, if an individual, shall be fined not more than $1,000,000 or imprisoned not more than fifteen years, or both, and if other than an individual, shall be fined not more than $5,000,000.

"(b) Upon a determination by a preponderance of the evidence that any articles in the possession of a defendant in a prosecution under this section bear counterfeit marks, the United States may obtain an order for the destruction of such articles.

"(c) All defenses, affirmative defenses, and limitations on remedies that would be applicable in an action under the Lanham Act shall be applicable in a prosecution under this section. In a prosecution under this section, the defendant shall have the burden of proof, by a preponderance of the evidence, of any such affirmative defense.

"(d) For the purposes of this section—

"(1) the term 'counterfeit mark' means—

"(A) a spurious mark—

"(i) that is used in connection with trafficking in goods or services;

"(ii) that is identical with, or substantially indistinguishable from, a mark registered for those goods or services on the principal register in the United States Patent and Trademark Office and in use, whether or not the defendant knew such mark was so registered; and

"(iii) the use of which is likely to cause confusion, to cause mistake, or to deceive; or

"(B) a spurious designation that is identical with, or substantially indistinguishable from, a designation as to which the remedies of the Lanham Act are made available by reason of section 110 of the Olympic Charter Act;

but such term does not include any mark or designation used in connection with goods or services of which the manufacturer or producer was, at the time of the manufacture or production in question authorized to use the mark or designation for the type of goods or services so manufactured or produced, by the holder of the right to use such mark or designation;

"(2) the term 'traffic' means transport, transfer, or otherwise dispose of, to another, as consideration for anything of value, or make or obtain control of with intent so to transport, transfer, or dispose of;

"(3) the term 'Lanham Act' means the Act entitled 'An Act to provide for the registration and protection of trademarks used in commerce, to carry out the provisions of certain international conventions, and for other purposes', approved July 5, 1946 (15 U.S.C. 1051 et seq.); and

"(4) the term 'Olympic Charter Act' means the Act entitled 'An Act to incorporate the United States Olympic Association', approved September 21, 1950 (36 U.S.C. 371 et seq.).".

(b) The table of sections at the beginning of chapter 113 of title 18 of the United States Code is amended by adding at the end the following new item:

"2320. Trafficking in counterfeit goods or services.".

LANHAM ACT AMENDMENT

SEC. 1503. The Act entitled "An Act to provide for the registration and protection of trademarks used in commerce, to carry out the provisions of certain international conventions, and for other purposes", approved July 5, 1946 (15 U.S.C. 1051 et seq.) is amended—

(1) in section 34 (15 U.S.C. 1116)—

(A) by designating the first paragraph as subsection (a);

(B) by designating the second paragraph as subsection (b);

(C) by designating the third paragraph as subsection (c); and

(D) by adding at the end the following:

"(d)(1)(A) In the case of a civil action arising under section 32(1)(a) of this Act (15 U.S.C. 1114) or section 110 of the Act entitled 'An Act to incorporate the United States Olympic Association', approved September 21, 1950 (36 U.S.C. 380) with respect to a violation that consists of using a counterfeit mark in connection with the sale, offering for sale, or distribution of goods or services, the court may, upon ex parte application, grant an order under subsection (a) of this section pursuant to this subsection providing for the seizure of goods and counterfeit marks involved in such violation and the means of making such marks, and records documenting the manufacture, sale, or receipt of things involved in such violation.

"(B) As used in this subsection the term 'counterfeit mark' means—

"(i) a counterfeit of a mark that is registered on the principal register in the United States Patent and Trademark Office for such goods or services sold, offered for sale, or distributed and that is in use, whether or not the person against whom relief is sought knew such mark was so registered; or

"(ii) a spurious designation that is identical with, or substantially indistinguishable from, a designation as to which the remedies of this Act are made available by reason of section 110 of the Act entitled 'An Act to incorporate the United States Olympic Association', approved September 21, 1950 (36 U.S.C. 380);

but such term does not include any mark or designation used in connection with goods or services of which the manufacturer or producer was, at the time of the manufacture or production in question authorized to

use the mark or designation for the type of goods or services so manufactured or produced, by the holder of the right to use such mark or designation.

"(2) The court shall not receive an application under this subsection unless the applicant has given such notice of the application as is reasonable under the circumstances to the United States attorney for the judicial district in which such order is sought. Such attorney may participate in the proceedings arising under such application if such proceedings may affect evidence of an offense against the United States. The court may deny such application if the court determines that the public interest in a potential prosecution so requires.

"(3) The application for an order under this subsection shall—

"(A) be based on an affidavit or the verified complaint establishing facts sufficient to support the findings of fact and conclusions of law required for such order; and

"(B) contain the additional information required by paragraph (5) of this subsection to be set forth in such order.

"(4) The court shall not grant such an application unless—

"(A) the person obtaining an order under this subsection provides the security determined adequate by the court for the payment of such damages as any person may be entitled to recover as a result of a wrongful seizure or wrongful attempted seizure under this subsection; and

"(B) the court finds that it clearly appears from specific facts that—

"(i) an order other than an ex parte seizure order is not adequate to achieve the purposes of section 32 of this Act (15 U.S.C. 1114);

"(ii) the applicant has not publicized the requested seizure;

"(iii) the applicant is likely to succeed in showing that the person against whom seizure would be ordered used a counterfeit mark in connection with the sale, offering for sale, or distribution of goods or services;

"(iv) an immediate and irreparable injury will occur if such seizure is not ordered;

"(v) the matter to be seized will be located at the place identified in the application;

"(vi) the harm to the applicant of denying the application outweighs the harm to the legitimate interests of the person against whom seizure would be ordered of granting the application; and

"(vii) the person against whom seizure would be ordered, or persons acting in concert with such person, would destroy, move, hide, or otherwise make such matter inaccessible to the court, if the applicant were to proceed on notice to such person.

"(5) An order under this subsection shall set forth—

"(A) the findings of fact and conclusions of law required for the order;

"(B) a particular description of the matter to be seized, and a description of each place at which such matter is to be seized;

"(C) the time period, which shall end not later than seven days after the date on which such order is issued, during which the seizure is to be made;

"(D) the amount of security required to be provided under this subsection; and

"(E) a date for the hearing required under paragraph (10) of this subsection.

"(6) The court shall take appropriate action to protect the person against whom an order under this subsection is directed from publicity, by or at the behest of the plaintiff, about such order and any seizure under such order.

"(7) Any materials seized under this subsection shall be taken into the custody of the court. The court shall enter an appropriate protective order with respect to discovery by the applicant of any records that have been seized. The protective order shall provide for appropriate procedures to assure that confidential information contained in such records is not improperly disclosed to the applicant.

"(8) An order under this subsection, together with the supporting documents, shall be sealed until the person against whom the order is directed has an opportunity to contest such order, except that any person against whom such order is issued shall have access to such order and supporting documents after the seizure has been carried out.

"(9) The court shall order that a United States marshal or other law enforcement officer is to serve a copy of the order under this subsection and then is to carry out the seizure under such order. The court shall issue orders, when appropriate, to protect the defendant from undue damage from the disclosure of trade secrets or other confidential information during the course of the seizure, including, when appropriate, orders restricting the access of the applicant (or any agent or employee of the applicant) to such secrets or information.

"(10)(A) The court shall hold a hearing, unless waived by all the parties, on the date set by the court in the order of seizure. That date shall be not sooner than ten days after the order is issued and not later than fifteen days after the order is issued, unless the applicant for the order shows good cause for another date or unless the party against whom such order is directed consents to another date for such hearing. At such hearing the party obtaining the order shall have the burden to prove that the facts supporting findings of fact and conclusions of law necessary to support such order are still in effect. If that party fails to meet that burden, the seizure order shall be dissolved or modified appropriately.

"(B) In connection with a hearing under this paragraph, the court may make such orders modifying the time limits for discovery under the Rules of Civil Procedure as may be necessary to prevent the frustration of the purposes of such hearing.

"(11) A person who suffers damage by reason of a wrongful seizure under this subsection has a cause of action against the applicant for the order under which such seizure was made, and shall be entitled to recover such relief as may be appropriate, including damages for lost profits, cost of materials, loss of good will, and punitive damages in instances where the seizure was sought in bad faith, and, unless the court finds extenuating circumstances, to recover a reasonable attorney's fee. The court in its discretion may award prejudgment interest on relief recovered under this paragraph, at an annual interest rate established under section 6621 of the Internal Revenue Code of 1954, commencing on the date of service of the claimant's pleading setting forth the claim under this paragraph and ending on the date such recovery is granted, or for such shorter time as the court deems appropriate.";

(2) in section 35 (15 U.S.C. 1117)—

(A) by inserting "(a)" before "When"; and

(B) by adding at the end the following new subsection:

"(b) In assessing damages under subsection (a), the court shall, unless the court finds extenuating circumstances, enter judgment for three times such profits or damages, whichever is greater, together with a reasonable attorney's fee, in the case of any violation of section 32(1)(a) of this Act (15 U.S.C. 1114(1)(a)) or section 110 of the Act entitled 'An Act to incorporate the United States Olympic Association', approved September 21, 1950 (36 U.S.C. 380) that consists of intentionally using a mark or designation, knowing such mark or designation is a counterfeit mark (as defined in section 34(d) of this Act (15 U.S.C. 1116(d)), in connection with the sale, offering for sale, or distribution of goods or services. In such cases, the court may in its discretion award prejudgment interest on such amount at an annual interest rate established under section 6621 of the Internal Revenue Code of 1954, commencing on the date of the service of the claimant's pleadings setting forth the claim for such entry and ending on the date such entry is made, or for such shorter time as the court deems appropriate."; and

(3) in section 36 (15 U.S.C. 1118), by adding at the end of such section "The party seeking an order under this section for destruction of articles seized under section 34(d) (15 U.S.C. 1116(d)) shall give ten days' notice to the United States attorney for the judicial district in which such order is sought (unless good cause is shown for lesser notice) and such United States attorney may, if such destruction may affect evidence of an offense against the United States, seek a hearing on such destruction or participate in any hearing otherwise to be held with respect to such destruction.".

CHAPTER XVI—CREDIT CARD FRAUD

SEC. 1601. This chapter may be cited as the "Credit Card Fraud Act of 1984".

SEC. 1602. (a) Chapter 47 of title 18 of the United States Code is amended by adding at the end thereof the following:

"§ 1029. Fraud and related activity in connection with access devices

"(a) Whoever—

"(1) knowingly and with intent to defraud produces, uses, or traffics in one or more counterfeit access devices;

"(2) knowingly and with intent to defraud traffics in or uses one or more unauthorized access devices during any one-year period, and by such conduct obtains anything of value aggregating $1,000 or more during that period;

"(3) knowingly and with intent to defraud possesses fifteen or more devices which are counterfeit or unauthorized access devices; or

"(4) knowingly, and with intent to defraud, produces, traffics in, has control or custody of, or possesses device-making equipment;

shall, if the offense affects interstate or foreign commerce, be punished as provided in subsection (c) of this section.

"(b)(1) Whoever attempts to commit an offense under subsection (a) of this section shall be punished as provided in subsection (c) of this section.

"(2) Whoever is a party to a conspiracy of two or more persons to commit an offense under subsection (a) of this section, if any of the parties engages in any conduct in furtherance of such offense, shall be fined an amount not greater than the amount provided as the maximum fine for such offense under subsection (c) of this section or imprisoned not longer than one-half the period provided as the maximum imprisonment for such offense under subsection (c) of this section, or both.

"(c) The punishment for an offense under subsection (a) or (b)(1) of this section is—

"(1) a fine of not more than the greater of $10,000 or twice the value obtained by the offense or imprisonment for not more than ten years, or both, in the case of an offense under subsection (a)(2) or (a)(3) of this section which does not occur after a conviction for another offense under either such subsection, or an attempt to commit an offense punishable under this paragraph;

"(2) a fine of not more than the greater of $50,000 or twice the value obtained by the offense or imprisonment for not more than fifteen years, or both, in the case of an offense under subsection (a)(1) or (a)(4) of this section which does not occur after a conviction for another offense under either such subsection, or an attempt to commit an offense punishable under this paragraph; and

"(3) a fine of not more than the greater of $100,000 or twice the value obtained by the offense or imprisonment for not more than twenty years, or both, in the case of an offense under subsection (a) of this section which occurs after a conviction for another offense under such subsection, or an attempt to commit an offense punishable under this paragraph.

"(d) The United States Secret Service shall, in addition to any other agency having such authority, have the authority to investigate offenses under this section. Such authority of the United States Secret Service shall be exercised in accordance with an agreement which shall be entered into by the Secretary of the Treasury and the Attorney General.

"(e) As used in this section—

"(1) the term 'access device' means any card, plate, code, account number, or other means of account access that can be used, alone or in conjunction with another access device, to obtain money, goods, services, or any other thing of value, or that can be used to initiate a transfer of funds (other than a transfer originated solely by paper instrument);

"(2) the term 'counterfeit access device' means any access device that is counterfeit, fictitious, altered, or forged, or an identifiable component of an access device or a counterfeit access device;

"(3) the term 'unauthorized access device' means any access device that is lost, stolen, expired, revoked, canceled, or obtained with intent to defraud;

"(4) the term 'produce' includes design, alter, authenticate, duplicate, or assemble;

"(5) the term 'traffic' means transfer, or otherwise dispose of, to another, or obtain control of with intent to transfer or dispose of; and

"(6) the term 'device-making equipment' means any equipment, mechanism, or impression designed or primarily used for making an access device or a counterfeit access device.

"(f) This section does not prohibit any lawfully authorized investigative, protective, or intelligence activity of a law enforcement agency of the United States, a State, or a political subdivision of a State, or a political subdivision of a State, or of an intelligence agency of the United States, or any activity authorized under title V of the Organized Crime Control Act of 1970 (18 U.S.C. note perc. 3481).".

(b) The table of sections at the beginning of chapter 47 of title 18 of the United States Code is amended by adding at the end the following new items:

"1029. Fraud and related activity in connection with access devices.".

SEC. 1603. The Attorney General shall report to the Congress annually, during the first three years following the date of the enactment of this joint resolution, concerning prosecutions under the section of title 18 of the United States Code added by this chapter.

CHAPTER XVII—SALARIES OF UNITED STATES ATTORNEYS

SEC. 1701. (a) Section 548 of title 28, United States Code, is amended to read as follows:

"§ 548. Salaries

"Subject to sections 5315 through 5317 of title 5, the Attorney General shall fix the annual salaries of United States attorneys, assistant United States attorneys, and attorneys appointed under section 543 of this title at rates of compensation not in excess of the rate of basic compensation provided for Executive Level IV of the Executive Schedule set forth in section 5315 of title 5, United States Code.".

(b) Section 5315 of title 5, United States Code, is amended by striking out the items relating to the United States Attorney for the Southern District of New York, the United States Attorney for the District of Columbia, the United States Attorney for the Northern District of Illinois, and the United States Attorney for the Central District of California.

CHAPTER XVIII—ARMED CAREER CRIMINAL

SEC. 1801. This chapter may be cited as the "Armed Career Criminal Act of 1984".

SEC. 1802. Section 1202(a) of title VII of the Omnibus Crime Control and Safe Streets Act of 1968 (18 U.S.C. App. 1202(a)) is amended by adding at the end "In the case of a person who receives, possesses, or transports in commerce or affecting commerce any firearm and who has three previous convictions by any court referred to in paragraph (1) of this subsection for robbery or burglary, or both, such person shall be fined not more than $25,000 and imprisoned not less than fifteen years, and, notwithstanding any other provision of law, the court shall not suspend the sentence of, or grant a probationary sentence to, such person with respect to the conviction under this subsection, and such person shall not be eligible for parole with respect to the sentence imposed under this subsection.".

SEC. 1803. Section 1202(c) of title VII of the Omnibus Crime Control and Safe Streets Act of 1968 (18 U.S.C. App. 1202(c)) is amended—

(1) by striking out the period at the end of paragraph (7) and inserting a semicolon in lieu thereof; and

(2) by adding at the end the following:

"(8) 'robbery' means any felony consisting of the taking of the property of another from the person or presence of another by force or violence, or by threatening or placing another person in fear that any person will imminently be subjected to bodily injury; and

"(9) 'burglary' means any felony consisting of entering or remaining surreptitiously within a building that is property of another with intent to engage in conduct constituting a Federal or State offense.".

CHAPTER XIX—CRIMINAL JUSTICE ACT REVISION

SEC. 1901. This chapter may be cited as the "Criminal Justice Act Revision of 1984".

Subsection (d) of section 3006A of title 18, United States Code, is amended—

(1) by striking out "$30" in paragraph (1) and inserting in lieu thereof "$60";

(2) by striking out "$20" in paragraph (1) and inserting in lieu thereof "$40";

(3) by striking out ", or such other hourly rate, fixed by the Judicial Council of the Circuit, not to exceed the minimum hourly scale established by a bar association for similar services rendered in the district" in paragraph (1);

(4) by striking out "$1,000" each place it appears in paragraph (2) and inserting in lieu thereof "$2,000";

(5) by striking out "$400" in paragraph (2) and inserting in lieu thereof "$800"; and

(6) by striking out "$250" in paragraph (2) and inserting in lieu thereof "$500".

CHAPTER XX—TERRORISM

PART A—HOSTAGE TAKING

SEC. 2001. This part may be cited as the "Act for the Prevention and Punishment of the Crime of Hostage-Taking".

SEC. 2002. (a) Chapter 55 of title 18 of the United States Code is amended by adding at the end the following new section:

"§1203. Hostage taking

"(a) Except as provided in subsection (b) of this section, whoever, whether inside or outside the United States, seizes or detains and threatens to kill, to injure, or to continue to detain another person in order to compel a third person or a governmental organization to do or abstain from doing any act as an explicit or implicit condition for the release of the person detained, or attempts to do so, shall be punished by imprisonment for any term of years or for life.

"(b)(1) It is not an offense under this section if the conduct required for the offense occurred outside the United States unless—

"(A) the offender or the person seized or detained is a national of the United States;

"(B) the offender is found in the United States; or

"(C) the governmental organization sought to be compelled is the Government of the United States.

"(2) It is not an offense under this section if the conduct required for the offense occurred inside the United States, each alleged offender and each person seized or detained are nationals of the United States, and each alleged offender is found in the United States, unless the governmental organization sought to be compelled is the Government of the United States.

"(c) As used in this section, the term 'national of the United States' has the meaning given such term in section 101(a)(22) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(22)).".

(b) The table of sections at the beginning of chapter 55 of title 18 of the United States Code is amended by adding at the end the following new item:

"1203. Hostage taking.".

SEC. 2003. This part and the amendments made by this part shall take effect on the later of—

(1) the date of the enactment of this joint resolution; or

(2) the date the International Convention Against the Taking of Hostages has come into force and the United States has become a party to that convention.

PART B—AIRCRAFT SABOTAGE

SHORT TITLE

SEC. 2011. This part may be cited as the "Aircraft Sabotage Act".

STATEMENT OF FINDINGS AND PURPOSE

SEC. 2012. The Congress hereby finds that—

(1) the Convention for the Suppression of Unlawful Acts Against the Safety of Civil Aviation (ratified by the United States on November 1, 1972) requires each contracting State to establish its jurisdiction over certain offenses affecting the safety of civil aviation;

(2) such offenses place innocent lives in jeopardy, endanger national security, affect domestic tranquility, gravely affect interstate and foreign commerce, and are offenses against the law of nations; and

(3) the purpose of this subtitle is to implement fully the Convention for the Suppression of Unlawful Acts Against the Safety of Civil Aviation and to expand the protection accorded to aircraft and related facilities.

SEC. 2013. (a) Section 31 of title 18, United States Code, is amended—

(1) in the first paragraph by—

(A) striking out "and" before the term "spare part" and inserting "and 'special aircraft jurisdiction of the United States'" after the term "spare part"; and

(B) striking out "Civil Aeronautics Act of 1938" and inserting in lieu thereof "Federal Aviation Act of 1958";

(2) by striking out "and" at the end of the third undesignated paragraph thereof;

(3) by striking the period at the end thereof and inserting in lieu thereof ";"; and

(4) by adding at the end thereof the following new paragraphs:

"'In flight' means any time from the moment all the external doors of an aircraft are closed following embarkation until the moment when any such door is opened for disembarkation. In the case of a forced landing the flight shall be deemed to continue until competent authorities take over the responsibility for the aircraft and the persons and property on board; and

"'In service' means any time from the beginning of preflight preparation of the aircraft by ground personnel or by the crew for a specific flight until twenty-four hours after any landing; the period of service shall, in any event, extend for the entire period during which the aircraft is in flight.".

(b) Section 32 of title 18, United States Code, is amended to read as follows:

"§ 32. Destruction of aircraft or aircraft facilities

"(a) Whoever willfully—

"(1) sets fire to, damages, destroys, disables, or wrecks any aircraft in the special aircraft jurisdiction of the United States or any civil aircraft used, operated, or employed in interstate, overseas, or foreign air commerce;

"(2) places or causes to be placed a destructive device or substance in, upon, or in proximity to, or otherwise makes or causes to be made unworkable or unusable or hazardous to work or use, any such aircraft, or any part or other materials used or intended to be used in connection with the operation of such aircraft, if such placing or causing to be placed or such making or causing to be made is likely to endanger the safety of any such aircraft;

"(3) sets fire to, damages, destroys, or disables any air navigation facility, or interferes by force or violence with the operation of such facility, if such fire, damaging, destroying, disabling, or interfering is likely to endanger the safety of any such aircraft in flight;

"(4) with the intent to damage, destroy, or disable any such aircraft, sets fire to, damages, destroys, or disables or places a destructive device or substance in, upon, or in proximity to, any appliance or structure, ramp, landing area, property, machine, or apparatus, or any facility or other material used, or intended to be used, in connection with the operation, maintenance, loading, unloading or storage of any such aircraft or any cargo carried or intended to be carried on any such aircraft;

"(5) performs an act of violence against or incapacitates any individual on any such aircraft, if such act of violence or incapacitation is likely to endanger the safety of such aircraft;

"(6) communicates information, knowing the information to be false and under circumstances in which such information may reasonably be believed, thereby endangering the safety of any such aircraft in flight; or

"(7) attempts to do anything prohibited under paragraphs (1) through (6) of this subsection;

shall be fined not more than $100,000 or imprisoned not more than twenty years or both.

"(b) Whoever willfully—

"(1) performs an act of violence against any individual on board any civil aircraft registered in a country other than the United States while such aircraft is in flight, if such act is likely to endanger the safety of that aircraft;

"(2) destroys a civil aircraft registered in a country other than the United States while such aircraft is in service or causes damage to such an aircraft which renders that aircraft incapable of flight or which is likely to endanger that aircraft's safety in flight;

"(3) places or causes to be placed on a civil aircraft registered in a country other than the United States while such aircraft is in service, a device or substance which is likely to destroy that aircraft, or to cause damage to that aircraft which renders that aircraft incapable of flight or which is likely to endanger that aircraft's safety in flight; or

"(4) attempts to commit an offense described in paragraphs (1) through (3) of this subsection;

shall, if the offender is later found in the United States, be fined not more than $100,000 or imprisoned not more than twenty years, or both.

"(c) Whoever willfully imparts or conveys any threat to do an act which would violate any of paragraphs (1) through (5) of subsection (a) or any of paragraphs (1) through (3) of subsection (b) of this section, with an apparent determination and will to carry the threat into execution shall be fined not more than $25,000 or imprisoned not more than five years, or both.".

(c) Section 101(38)(d) of the Federal Aviation Act of 1958 (49 U.S.C. 1301(38)(d)), relating to the definition of the term "special aircraft jurisdiction of the United States", is amended—

(1) in clause (i), by striking out "; or" and inserting in lieu thereof a semicolon;

(2) at the end of clause (ii), by striking out "and" and inserting in lieu thereof "or;" and

(3) by adding at the end thereof the following new clause:

"(iii) regarding which an offense as defined in subsection (d) or (e) of article I, section I of the Convention for the Suppression of Unlawful Acts against the Safety of Civil Aviation (Montreal, September 23, 1971) is committed if the aircraft lands in the United States with an alleged offender still on board; and".

SEC. 2014. (a)(1) Section 901 of the Federal Aviation Act of 1958 (49 U.S.C. 1471) is amended by adding at the end thereof the following new subsections:

"(c) Whoever imparts or conveys or causes to be imparted or conveyed false information, knowing the information to be false and under circumstances in which such information may reasonably be believed, concerning an attempt or alleged attempt being made or to be made, to do any act which would be a crime prohibited by subsection (i), (j), (k), or (l) of section 902 of this Act, shall be subject to a civil penalty of not more than $10,000 which shall be recoverable in a civil action brought in the name of the United States.

"(d) Except for law enforcement officers of any municipal or State government or officers or employees of the Federal Government, who are authorized or required within their official capacities to carry arms, or other persons who may be so authorized under regulations issued by the Administrator, whoever while aboard, or while attempting to board, any aircraft in, or intended for operation in, air transportation or intrastate air transportation, has on or about his person or his property a concealed deadly or dangerous weapon, which is, or would be, accessible to such person in flight shall be subject to a civil penalty of not more than $10,000 which shall be recoverable in a civil action brought in the name of the United States.".

(2) That portion of the table of contents contained in the first section of the Federal Aviation Act of 1958 which appears under the side heading

"Sec 901. Civil penalties."

is amended by inserting at the end thereof:

"(c) Conveying false information.

"(d) Concealed weapons.".

(b) Section 901(a)(2) of the Federal Aviation Act of 1958 (49 U.S.C. 1471(a)(2)) is amended by inserting "penalties provided for in subsections (c) and (d) of this section or" after "Secretary of Transportation in the case of".

(c)(1) Section 902(l)(1) of the Federal Aviation Act of 1958 (49 U.S.C. 1472(l)(1) is amended by striking out "$1,000" and inserting in lieu thereof "$10,000".

(2) Section 902(l)(2) of the Federal Aviation Act of 1958 (49 U.S.C. 1472(l)(2)) is amended by striking out "$5,000" and inserting in lieu thereof "$25,000".

(d)(1) Section 902(m) of the Federal Aviation Act of 1958 (49 U.S.C. 1472(m)) is amended to read as follows:

"FALSE INFORMATION AND THREATS

"(m)(1) Whoever willfully and maliciously, or with reckless disregard for the safety of human life, imparts or conveys or causes to be imparted or conveyed false information, knowing the information to be false and under circumstances in which such information may reasonably be believed, concerning an attempt or alleged attempt being made or to be made, to do any act which would be a felony prohibited by subsection (i), (j), (k), or (l) of this section, shall be fined not more than $25,000 or imprisoned not more than five years, or both.

"(2) Whoever imparts or conveys or causes to be imparted or conveyed any threat to do an act which would be a felony prohibited by subsection (i), (j), (k), or (l) of this section with an apparent determination and will to carry the threat into execution shall be fined not more than $25,000 or imprisoned not more than five years, or both.".

(2) That portion of the table of contents contained in the first section of the Federal Aviation Act of 1958 which appears under the side heading

"Sec. 902. Criminal penalties."

is amended by striking out

"(m) False information."

and inserting in lieu thereof

"(m) False information and threats.".

SEC. 2015. This part shall become effective on the date of the enactment of this joint resolution.

CHAPTER XXI—ACCESS DEVICES AND COMPUTERS

SEC. 2101. This chapter may be cited as the "Counterfeit Access Device and Computer Fraud and Abuse Act of 1984".

SEC. 2102. (a) Chapter 47 of title 18 of the United States Code as amended by chapter XVI of this joint resolution is further amended by adding at the end thereof the following:

"§ 1030. Fraud and related activity in connection with computers

"(a) Whoever—

"(1) knowingly accesses a computer without authorization, or having accessed a computer with authorization, uses the opportunity such access provides for purposes to which such authorization does not extend, and by means of such conduct obtains information that has been determined by the United States Government pursuant to an Executive order or statute to require protection against unauthorized disclosure for reasons of national defense or foreign relations, or any restricted data, as defined in paragraph r. of section 11 of the Atomic Energy Act of 1954, with the intent or reason to believe that such information so obtained is to be used to the injury of the United States, or to the advantage of any foreign nation;

"(2) knowingly accesses a computer without authorization, or having accessed a computer with authorization, uses the opportunity such access provides for purposes to which such authorization does not extend, and thereby obtains information contained in a financial record of a financial institution, as such terms are defined in the Right to Financial Privacy Act of 1978 (12 U.S.C. 3401 et seq.), or contained in a file of a consumer reporting agency on a consumer, as such terms are defined in the Fair Credit Reporting Act (15 U.S.C. 1681 et seq.); or

"(3) knowingly accesses a computer without authorization, or having accessed a computer with authorization, uses the opportunity such access provides for purposes to which such authorization does not extend, and by means of such conduct knowingly uses, modifies, destroys, or discloses information in, or prevents authorized use of, such computer, if such computer is operated for or on behalf of the Government of the United States and such conduct affects such operation;

shall be punished as provided in subsection (c) of this section. It is not an offense under paragraph (2) or (3) of this subsection in the case of a person having accessed a computer with authorization and using the opportunity such access provides for purposes to which such access does not extend, if the using of such opportunity consists only of the use of the computer.

"(b)(1) Whoever attempts to commit an offense under subsection (a) of this section shall be punished as provided in subsection (c) of this section.

"(2) Whoever is a party to a conspiracy of two or more persons to commit an offense under subsection (a) of this section, if any of the parties engages in any conduct in furtherance of such offense, shall be fined an amount not greater than the amount provided as the maximum fine for such offense under subsection (c) of this section or imprisoned not longer than one-half the period provided as the maximum imprisonment for such offense under subsection (c) of this section, or both.

"(c) The punishment for an offense under subsection (a) or (b)(1) of this section is—

"(1)(A) a fine of not more than the greater of $10,000 or twice the value obtained by the offense or imprisonment for not more than ten years, or both, in the case of an offense under subsection (a)(1) of this section which does not occur after a conviction for another offense under such subsection, or an attempt to commit an offense punishable under this subparagraph; and

"(B) a fine of not more than the greater of $100,000 or twice the value obtained by the offense or imprisonment for not more than twenty years, or both, in the case of an offense under subsection (a)(1) of this section which occurs after conviction for another offense under such subsection, or an attempt to commit an offense punishable under this subparagraph; and

"(2)(A) a fine of not more than the greater of $5,000 or twice the value obtained or loss created by the offense or imprisonment for not more than one year, or both, in the case of an offense under subsection (a)(2) or (a)(3), of this section which does not occur after a conviction for another offense under such subsection, or an attempt to commit an offense punishable under this subparagraph; and

"(B) a fine of not more than the greater of $10,000 or twice the value obtained or loss created by the offense or imprisonment for not more than ten years, or both, in the case of an offense under subsection (a)(2) or (a)(3) of this section which occurs after a conviction for another offense under such subsection, or an attempt to commit an offense punishable under this subparagraph.

"(d) The United States Secret Service shall, in addition to any other agency having such authority, have the authority to investigate offenses under this section. Such authority of the United States Secret Service shall be exercised in accordance with an agreement which shall be entered into by the Secretary of the Treasury and the Attorney General.

"(e) As used in this section, the term 'computer' means an electronic, magnetic, optical, electrochemical, or other high speed data processing device performing logical, arithmetic, or storage functions, and includes any data storage facility or communications facility directly related to or operating in conjunction with such device, but such term does not include an automated typewriter or typesetter, a portable hand held calculator, or other similar device.".

(b) The table of sections at the beginning of chapter 47 of title 18 of the United States Code is amended by adding at the end the following new items:

1030. Fraud and related activity in connection with computers.".

SEC. 2103. The Attorney General shall report to the Congress annually, during the first three years following the date of the enactment of this joint resolution, concerning prosecutions under the sections of title 18 of the United States Code added by this chapter.

CHAPTER XXII

SEC. 2201. Notwithstanding this or any other Act regulating labor-management relations, each State shall have the authority to enact and enforce, as part of a comprehensive statutory system to eliminate the threat of pervasive racketeering activity in an industry that is, or over time has been, affected by such activity, a provision of law that applies equally to employers, employees, and collective bargaining representatives, which provision of law governs service in any position in a local labor organization which acts or seeks to act in that State as a collective bargaining representative pursuant to the National Labor Relations Act in the industry that is subject to that program.

CHAPTER XXIII

SEC. 2301. (a) Subsection (a) of section 1963 of title 18 of the United States Code, as amended by chapter III of this title, is further amended by adding at the end the following: "In lieu of a fine otherwise authorized by this section, a defendant who derives profits or other proceeds from an offense may be fined not more than twice the gross profits or other proceeds."

(b) Section 1963 of title 18 of the United States Code, as amended by chapter III of this title, is further amended by striking out subsection (d).

(c) Section 1963 (m)(1) of title 18 of the United States Code, as amended by chapter III of this title, is further amended by striking out "for at least seven successive court days".

(d) Section 413(a) of title II of the Comprehensive Drug Abuse Prevention and Control Act of 1970, as amended by chapter III of this title, is further amended by adding at the end of the following: "In lieu of a fine otherwise authorized by this part, a defendant who derives profits or other proceeds from an offense may be fined not more than twice the gross profits or other proceeds."

(e) Section 413 of title II of the Comprehensive Drug Abuse Prevention and Control Act of 1970, as amended by chapter III of this title, is further amended—

(1) by striking out subsection (d); and

(2) by redesignating subsections (e), (f), (g), (h), (i), (l), (m), (n), (o), and (p) as subsections (d), (e), (f), (g), (h), (i), (j), (k), (l), (m), (n), and (o) respectively.

(f) Section 413(n) of title II of the Comprehensive Drug Abuse Prevention and Control Act of 1970, as amended by chapter III of this title, and as so redesignated by this chapter, is further amended by striking out "for at least seven successive court days".

SEC. 2302. Part D of title II of the Comprehensive Drug Abuse Prevention and Control Act of 1970, as amended by chapter III of this title and this chapter, is further amended by adding at the end the following new section:

"ALTERNATIVE FINE

"SEC. 415. In lieu of a fine otherwise authorized by this part, a defendant who derives profits or other proceeds from an offense may be fined not more than twice the gross profits or other proceeds.".

SEC. 2303. (a) Section 524 of title 28 of the United States Code, as amended by chapter III of this title, is further amended in subsection (c)(1)—

(1) by striking out "and" at the end of subparagraph (c);

(2) by striking out the period at the end of subparagraph (1) and inserting a semicolon in lieu thereof; and

(3) by inserting after subparagraph (D) the following:

"(E) for equipping for law enforcement functions of forfeited vessels, vehicles, and aircraft retained as provided by law for official use by the Drug Enforcement Adminis-

tration or the Immigration and Naturalization Service; and

"(F) for purchase of evidence of any violation of the Controlled Substances Act of the Controlled Substances Import and Export Act."

(b) Section 524 of title 28 of the United States Code; as amended by chapter III of this title, is further amended in subsection (c)—

(1) by inserting after paragraph (2) the following new paragraph:

"(3) Any amount under subparagraph (F) of subsection (c)(1) of this section shall be paid at the discretion of the Attorney General or his delegate, except that the authority to pay $100,000 or more may be delegated only to the respective head of the agency involved."; and

(2) by redesignating paragraphs (3) through (8) as (4) through (9) respectively.

SEC. 2304. Section 613(a) of the Tariff Act of 1930, as amended by chapter III of this title, is further amended—

(1) by striking out "and" at the end of subsection (a)(1);

(2) by striking out the period at the end of subsection (a)(2) and inserting a semicolon in lieu thereof;

(3) by inserting after paragraph (2) of subsection (a) the following:

"(3) for equipping for law enforcement functions of forfeited vessels, vehicles, and aircraft retained as provided by law for official use by the United States Customs Service; and

(4) purchases by the United States Customs Service for evidence (A) of smuggling of controlled substances, and (B) of violations of the currency and foreign transaction reporting requirements of chapter 53 of title 31, United States Code, if there is a substantial probability that the violation of these requirements are related to the smuggling of controlled substances";

(4) by inserting after subsection (a) the following:

"(b) If the expense of keeping the vessel, vehicle, aircraft, merchandise, or baggage is disproportionate to the value thereof, and such value is less than $1,000, such officer may proceed forthwith to order destruction or other appropriate disposition of such property, under regulations prescribed by the Secretary of the Treasury.

"(c) Amounts under subsection (a) of this section shall be available, at the discretion of the Commissioner of Customs, to reimburse the applicable appropriation for expenses incurred by the Coast Guard for a purpose specified in such subsection."; and

(5) by redesignating subsections (b) through (f) as subsections (d) through (h) respectively.

And the Senate agree to the same.

Amendment Numbered 160:

That the House recede from its disagreement to the amendment of the Senate numbered 160, and agree to the same with an amendment, as follows:

In lieu of the matter inserted by said amendment insert the following:

TITLE III—PRESIDENT'S EMERGENCY FOOD ASSISTANCE ACT OF 1984

SHORT TITLE

SEC. 301. This title may be cited as the "President's Emergency Food Assistance Act of 1984".

PART A—PRESIDENT'S EMERGENCY FUND

FINDINGS

SEC. 302. The Congress finds that—

(1) acute food crises continue to cause loss of life, severe malnutrition, and general human suffering in many areas of the Third World, especially in sub-Saharan Africa;

(2) the United States continues to respond to these needs, as a reflection of its humanitarian concern for the people of the Third World, with emergency food and other necessary assistance to alleviate the suffering of those affected by severe food shortages;

(3) the timely provision of food and other necessary assistance to those in need is of paramount importance if the worst effects of such food crises are to be mitigated; and

(4) the ability of the United States to provide food and other necessary assistance on a timely basis, and to ensure that such assistance is distributed to those in need, should be enhanced in order to better enable the United States to help those affected by severe food shortages.

ESTABLISHMENT OF THE FUND

SEC. 303. (a) There is hereby established the President's Emergency Food Assistance Fund (hereafter in this title referred to as the "Fund"). Whenever the President determines it to be in the national interest of the United States, he is authorized to furnish, in accordance with the provisions of this part, and on such terms and conditions as he may determine, assistance from the Fund for the purpose of alleviating the human suffering of peoples outside the United States caused by acute food shortages. Such assistance may be provided through such governments or other entities, private or public, including intergovernmental and multilateral organizations, as the President deems appropriate.

(b) Because the effects of severe food shortages will vary with the country or region, assistance to alleviate human suffering may include the provision of food assistance or such activities as the provision of seed, animal fodder, animal vaccines, and transportation (including inland transportation) and distribution services.

(c) There are authorized to be appropriated to the President $50,000,000 each for fiscal year 1985 and fiscal year 1986 to carry out the purposes of this title, to remain available unitl expended.

(d) The President may make loans, advances, and grants to, make and perform agreements and contracts with, or enter into transactions with, any individual, corporation, or other body of persons, government or government agency, whether within or without the United States, and international and intergovernmental organizations in furtherance of the purposes and within the limitations of this title.

REPORTS

SEC. 304. Not later than December 31 of each year, the President shall submit a comprehensive report to the appropriate committees of Congress detailing all activities carried out under the authority of this title during the previous fiscal year.

PART B—FOOD FOR PEACE PROGRAM

TRANSPORTATION AND STORAGE

SEC. 305. Section 203 of the Agricultural Trade Development and Assistance Act of 1954 is amended by inserting after the semicolon at the end of clause (4) the following: "in the case of commodities for urgent and extraordinary relief requirements, including prepositioned commodities, transportation costs from designated points of entry or ports of entry abroad to storage and distribution sites and associated storage and distribution costs;".

And the Senate agree to the same.

The committee of conference report in disagreement amendment numbered 14.

Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the joint resolution (H.J. Res 648) making continuing appropriations for the fiscal year 1985, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

Amendment No. 1: Restores heading of "Title I".

AGRICULTURE, RURAL DEVELOPMENT AND RELATED AGENCIES

Amendment No. 2: Provides that programs, projects, or activities provided for in the Agriculture, Rural Development, and Related Agencies Appropriation Act of 1985 (H.R. 5743) shall be available to the extent and in the manner provided for in the conference report and joint explanatory statement of the managers (H. Rept. 98-1071), filed in the House of Representatives on September 25, 1984, as if such Act had been enacted into law as proposed by the Senate. The House bill provided for a rate of operations based on the House passed bill.

The conferees point out that in connection with wood utilization research the word "center", which appears in the statement of the managers on the Agriculture Appropriation Bill, is a printing error and should be deleted from both House Report No. 98-1071 (p. 12) and Vol. 130 No. 122 of the CONGRESSIONAL RECORD (dated 9/25/84, p. H10020).

The conferees feel that labeling requirements for fruit or juice beverages should specifically address the need for separate consideration of beverages such as cranberry juice-based products. The proposed exemption to 21 CFR 102.33 for cranberry juice cocktail should be extended to include all cranberry juice/based beverages containing more than 15 percent cranberry juice.

The conferees have been advised that the Department of Agriculture acknowledges responsibility in connection with the second depopulation of a flock infected with avian flu located in the State of Pennsylvania. The conferees will expect the Department to proceed with the payment of this claim.

DISTRICT OF COLUMBIA

Amendment No. 3: Provides continuing authority for programs under the District of Columbia Appropriation Act at the rate of the conference agreement instead of the rate in the House-passed bill as proposed by the House or the rate in the Senate-passed bill as proposed by the Senate.

APPROPRIATIONS FOR THE DEPARTMENT OF THE INTERIOR AND RELATED AGENCIES

Amendment No. 4: Section 101(c) of House Joint Resolution 648 provides appropriations for programs, projects, and activities provided for in the Department of the Interior and Related Agencies Appropriation Act, 1985. The House version of the joint resolution provides appropriations for programs, projects, or activities at a rate for operations and to the extent and in the manner provided for in H.R. 5973 as passed the House of Representatives on August 2, 1984. The Senate version of the joint resolution provides appropriations for these programs, projects, and activities at a rate for operations and to the extent and in the manner provided for in H.R. 5973 as passed by, or deemed as having been passed by, the Senate as of October 1, 1984.

The conference agreement on House Joint Resolution 648 incorporates some of the provisions of both the House and Senate versions of the Department of the Interior and Related Agencies Appropriation Act, 1985, and has the effect of enacting the Act into law. The language and allocations set forth in House Report 98-886 and Senate Report 98-578 shall be complied with unless specifically addressed to the contrary in this joint resolution and accompanying statement of the managers. The Department of the Interior and Related Agencies Appropriation Act, 1985, put in place by this joint resolution, incorporates the following agreements of the managers:

TITLE I—DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

Appropriates $393,849,000 instead of $364,444,000 as proposed by the House and $399,645,000 as proposed by the Senate.

The net decrease from the amount proposed by the Senate includes: increases of $1,000,000 for coal, for drilling and data-gathering; $500,000 for wilderness management; $1,150,000 for recreation resources; $1,000,000 for planning; $1,200,000 for cadastral survey—other states; $500,000 for recreation maintenance; and $404,000 for general administration—personnel and training; and decreases of $300,000 for oil shale and tar sands; $500,000 for desert land entries; $100,000 for support of Alaska cadastral survey; $1,500,000 for forest management (public domain); $8,000,000 for wild horses and burros; and $1,150,000 for Alaska cadastral survey.

The increases over the budget of $1,000,000 for reforestation and $500,000 for timber stand improvement on public domain lands will allow for start-up of this effort. The Committees intend to address further needs in this area next year. Within the amount provided for wildlife habitat, an increase of $1,000,000 is provided for threatened and endangered species. This restores the program to the 1984 level. The increase over the budget for soil and water includes $2,900,000 for water inventory and rights activities, $190,000 for two air quality studies, and $910,000 for improvements. The increase in the recreation program includes $150,000 for safety improvements in the Yaquina Head recreation area.

The $500,000 in oil and gas which had been proposed for reduction by the House and which has been restored, should be used for additional KGS determinations.

The managers have agreed to a wild horse and burro program level of $17,081,000. An increase of $11,00,000 over the budget has been provided to increase the FY1985 removal rate to 11,000 excess animals and to remove the approximately 6,142 excess animals budgeted for but not removed in fiscal years 1983 and 1984. The managers recognize that this is a controversial program and that, in spite of spending over $2,000,000 for studies over the past several years, there is still significant disagreement concerning how many animals are excess, what historic-levels were, and what is the current rate of reproduction. The managers have, therefore, included $1,000,000 for studies for the Bureau, through the National Academy of Sciences, to continue to develop data to answer these and other pertinent questions.

LAND ACQUISITION

Appropriates $2,750,000 instead of $4,500,000 as proposed by the House. The following table shows the allocation agreed to by the managers:

Acquisition management	$300,000
King Range National Conservation Area, CA	1,000,000
Upper Sacramento River, CA	1,000,000
Upper Missouri Wild and Scenic River, MI	300,000
Rio Grande Wild and Scenic River, NM	150,000
Total	2,750,000

The Second Supplemental Appropriations Act for fiscal year 1984 (Public Law 98-396) requires BLM to propose that a willing seller of more than 40 acres accept lands of comparable value and utility in exchange for lands proposed for acquisition. If the seller rejects such an exchange, the BLM may then purchase the lands. The managers expect that the BLM will be able to acquire more land using this process than through purchase only. If, using the process, the BLM does not need to use all of the funds allocated to each project shown above, the balances may be used to acquire additional lands in any of the projects listed above. Further, the managers have no objection to using excess balances to acquire areas for the Upper Colorado Will and Scenic River. The funds provided may also be used for cash equalization payments as authorized by Sections 205 and 206 of FLPMA.

OREGON AND CALIFORNIA GRANT LANDS

Appropriates $55,397,000 instead of $55,147,000 as proposed by the House and $55,647,000 as proposed by the Senate.

The increase over the amount proposed by the House is $250,000 for project survey and design of fish habitat improvement projects in western Oregon. The managers have agreed to consider additional fish habitat improvement project funding next year.

SPECIAL ACQUISITION OF LANDS AND MINERALS

Appropriates $15,000,000 as proposed by the Senate to purchase non-Federal coal deposits and other mineral interests and rights in the Cranberry Wilderness Area, West Virginia, as authorized by Public Law 97-466.

RANGE IMPROVEMENTS

Appropriates $10,000,000 as proposed by the Senate instead of $7,330,000 as proposed by the House. The managers have agreed to retain bill language concerning the grazing provisions. The managers agree that only the costs incurred by the permittees for the installation or maintenance of improvements on public land as called for or agreed to by BLM are to be used in the calculation.

SERVICE CHARGES, DEPOSITS, AND FORFEITURES

Bill language proposed by the House that would have required BLM to collect reasonable costs of rights of way studies has been deleted.

ADMINISTRATIVE PROVISIONS

The managers have modified language directing the BLM to complete a land exchange between the Oregon International Port of Coos Bay and the United States before the end of December 1984. Language is included to continue the withdrawal of 18,323 acres of public land in Churchill County, Nevada for use by the Navy.

UNITED STATES FISH AND WILDLIFE SERVICE

RESOURCE MANAGEMENT

Appropriates $311,365,000 instead of $305,964,000 as proposed by the House and $307,119,000 as proposed by the Senate.

The net increase above the amount proposed by the House includes: increases of $500,000 for Chesapeake Bay cleanup activities; $5,000,000 for refuge resource threat mitigation; $500,000 for public use improvement programs; $1,000,000 for management of Alaska refuges; $385,000 to begin staffing and management at Tensas NWR; $325,000 to continue blackbird research at North Dakota State University; $200,000 to support research needs for the Lower Snake River Compensation Plan at the Hagerman research field station; $300,000 for the Per-

egrine falcon recovery program through the Peregrine Fund, Inc.; $50,000 for the Hawaiian forest bird recovery program; $400,000 to initiate operations at the Cape Charles NWR, Va.; $536,000 for the Fish and Wildlife Service to plan and monitor wildlife effects of the Des Plaines River, Illinois wetlands demonstration project; $100,000, to be matched by non-Federal funds, for the Service to develop a habitat conservation plan for North Key Largo, Florida, in conjunction with the Governor's Office; $250,000 to finance the fishery study described later, addressing hatchery needs and the appropriate Federal role; and $75,000 for Woodland Caribou recovery programs; and decreases of $500,000 for project investigations; $550,000 for the special wetland inventory study; $2,500,000 for acceleration of refuge rehabilitation projects; $300,000 in savings anticipated to occur as a result of shifting from an open fish feed diet to a closed diet as directed by the Senate; $120,000 for an evaluation of the Makah NFH; and $250,000 for endangered species law enforcement.

The managers agree that $250,000 is available for a wetlands inventory study, that earmarkings within each report are agreed to, unless countermanded by the conference report, that the LaCrosse research laboratory should conduct work beneficial to the Pacific Northwest, and that full-time equivalents ceiling needed to administer the programs for which funds are appropriated should be provided to the Service. This ceiling should not be provided at the expense of other ongoing programs administered by the Department. No funds are provided to continue operation of the Bend, Oregon and Olympia, Washington ADC research facilities. If beneficial to the Forest Service, those stations should be funded through the Forest Service. The managers agree that blackbird depredation of sunflower and rice crops is growing and expect the Service to include a proposal in the fiscal year 1986 request to develop direct control programs that will not be harmful to other populations and are effective in reducing blackbird populations. This program should be reviewed by the advisory commission established by the managers as proposed in the Senate report. The managers agree that the Service should not deduct overhead for ADC reimbursable work and that the Service should address the toxic waste problem at Crab Orchard NWR as proposed by the Senate.

The managers agree to continue operation of hatcheries funded in fiscal year 1984. The House Committee on Merchant Marine and Fisheries plans to hold hearings on legislation establishing a national fish production policy. The Service, whether in connection with those hearings or otherwise, should prepare a report on additional fish rearing plans and include in that report a comparative analysis of the costs of Service production to private or commercial production. In addition, the report should provide a list of potential new hatchery sites including an evaluation of the Nisqually Tribe hatchery, plans for the future production outputs from the Makah NFH, and an analysis of the effect of the *Boldt* case decisions, and the Salmon and Steelhead Enhancement Act on those hatcheries. In addition, the study should address other fishery issues including Atlantic salmon and striped bass recovery including the appropriate Federal role. That report should reflect public comment and be provided to the Committees in time for the fiscal year 1986 appropriation hearings.

Funds in the amount of $1,250,000 have been included for the international endangered species law enforcement and port inspection program. The managers are concerned that only 36 wildlife port inspectors are available for service at custom entry stations throughout the United States. At least twenty (20) additional law enforcement officers are needed to alleviate that problem and eliminate delays due to lack of staff. At least one additional FTE should be assigned to Puerto Rico and two assigned to O'Hare International Airport. No additional custom entry stations should be established if staffing at existing custom entry stations would be reduced as a result.

No funds are earmarked in the bill for refuge operation and maintenance, as was provided in the House bill language. The budget justifications for fiscal year 1986 and subsequent years should show, for each program, how much is included for regional and Washington office expenses, by function. The exact details are to be worked out with the Appropriations Committees. Language is continued permitting designation of critical habitat for Northern Rocky Mountain Wolf in Idaho only if coterminous with the boundaries of the Central Idaho Wilderness Areas, as established by Public Law 96-312.

The managers have included $50,000 for each of the following grizzly bear projects: the development of a state of the art compendium on research; a determination of the best grizzly bear habitat; an analysis of road access needs and the development of closure criteria; and an analysis of the impact of backcountry recreation on the grizzly. Revised bill language has been included concerning augmentation of bear populations and appropriate budget information to be provided. There is no need for the Service to provide further consideration this year of the issue of emergency supplemental feeding.

The amounts budgeted for grizzly bear programs in fiscal year 1985 are approved. The managers direct that each agency, bureau or organization funded by this Act shall submit a list of grizzly bear activities and the estimated fiscal year 1985 cost to the Committees on Appropriations no later than November 30, 1984.

The managers agree that not less than $3,300,000 for high priority projects within the scope of the approved budget shall be carried out by the Youth Conservaton Corps as if authorized by the Act of August 13, 1970, as amended by Public Law 93-408. The managers agree that, within available funds, $150,000 is to be provided to complete the Metropolitan River Corridor study and that the $390,000 provided for participation in the Western Hemisphere Convention is available for training and technical assistance projects.

CONSTRUCTION AND ANADROMOUS FISH

Appropriates $24,794,000 instead of $17,342,000 as proposed by the House and $23,329,000 as proposed by the Senate. The net increase above the amount proposed by the House includes: increases of $6,746,000 for Alaskan refuge construction, $3,000,000 for refuge resource threat mitigation, $450,000 for Bogue Chitto NWR, $2,500,000 for Tensas NWR, $406,000 for Ruby Lake NWR, and $950,000 for a wet laboratory replacement at Hagerman NFH; and decreases of $6,000,000 for the Nisqually Tribe hatchery, and $600,000 for facility design at Minnesota Valley NWR.

The managers direct the Service, using $430,000 available from planning and design funds provided in fiscal year 1981, to proceed expeditiously to complete the final engineering drawings and other preliminary activities required before funds can be obligated for construction of the Nisqually hatchery. The managers will consider additional appropriations together with the findings and conclusions of the hatchery production and fishery policy study provided for in the resource management account.

The $500,000 provided for an anadromous fish research center includes a minimum of $400,000 to complete the planning and design of the facility. If available, there is no objection to using up to $50,000 of funds provided for an assessment of East Coast anadromous fish research needs and $50,000 for site evaluation and selection for the anadromous fish research center on the Connecticut River in Massachusetts.

The managers also include language to permit use of funds to continue the striped bass study.

MIGRATORY BIRD CONSERVATION ACCOUNT

Appropriates $21,700,000 as an advance to this account instead of $9,000,000 as proposed by the House and $20,000,000 as proposed by the Senate.

The increase above the amount proposed by the House is $2,200,000 for Humboldt Bay, Calif., $3,000,000 for Ridgefield, Washington, and $7,500,000 for Anderson-Tully, Tenn. and Ark. The managers deleted bill language proposed by the Senate prohibiting condemnations in the Cache River, Ark. project.

LAND ACQUISITION

Appropriates $64,508,000 instead of $60,658,000 as proposed by the House and $58,308,000 as proposed by the Senate. The following table shows the allocation agreed to by the managers:

American Crocodile, FL	$5,000,000
Ash Meadows, NV	600,000
Bear Valley, OR	800,000
Karl Mundt, SD	300,000
Banks Lake, GA	608,000
Bogue Chitto, LA	3,000,000
Bon Secour, AL	3,000,000
California Condor, CA	4,000,000
Connecticut Coastal NWR, CT	1,500,000
Clear Creek Gambusia, TX	20,000
Coachella Valley, CA	5,000,000
Currituck NWR, NC	3,500,000
Florida Panther, FL	4,000,000
Great Dismal Swamp, NC and VA	1,500,000
Hawaii forest birds, HI	4,500,000
Key Deer, FL	2,500,000
Kirtland Warbler, MI	750,000
Kofa NWR, AZ	350,000
Lower Rio Grande Valley, NWR, TX	7,500,000
Lower Suwanee, FL	3,450,000
Masked Bobwhite, AZ	4,000,000
Moapa Dace, NY	800,000
Ozark big-eared bat, OK	100,000
Pahrump Killfish, NV	180,000
Parker River, MA (administrative site)	400,000
Cartegena and Tortuguero Lagoons, Puerto Rico	5,000,000
Trustom Pond, RI	650,000
Acquisition management	1,500,000
Total	$64,508,000

The managers agree that no conditions are attached to obligations of funds for acquisition of Nature Conservancy lands at Currituck NWR. This leaves current legal rights of access along the beach at the Monkey Island and Swan Island tracts and

retains the ability of the Fish and Wildlife Service to designate an emergency upland vehicle access corridor across the same tracts. The managers also approve exceeding the appraised value of each tract at Protection Island NWR by $225. The Service should consider the possibility of filing a Declaration of Taking of the Beach Club as a means of resolving that controversy at the earliest appropriate time. The bill also earmarks funds for acquisition at Connecticut Coastal NWR and provides that those funds will be available for obligation only upon enactment of authorizing legislation.

The managers expect that funds provided for acquisition of the two properties in Puerto Rico will be made available for acquisition for the Cartegena property first and that both properties will be staffed by Fish and Wildlife Service employees.

ADMINISTRATIVE PROVISIONS

The managers agree that the Service may acquire an aircraft by donation. The managers agree to not provide language regarding hunting on the Bosque del Apache NWR while Whooping Cranes are on the refuge. The Service and the state are expected to continue their efforts to provide adequate protection to the endangered Whooping Crane.

NATIONAL PARK SERVICE

OPERATION OF THE NATIONAL PARK SYSTEM

Appropriates $625,365,000 instead of $629,344,000 as proposed by the House and $621,098,000 as proposed by the Senate.

The net decrease below the amount recommended by the House includes the following: increases of $500,000 for Apostle Island NL, $130,000 for Jean Lafitte NHP, $171,000 for the Anchorage and Fairbanks interagency visitor centers, $20,000 for the International Council of Monuments and Sites, and $350,000 for a cooperative maintenance agreement with the National Capital Children's Museum; and decreases of $1,150,000 for a cooperative maintenance agreement with the National Building Museum, $750,000 provided for the Park Police rookie class, $250,000 for Park Police operations at Gateway NRA, NY, to be funded, however, within available appropriations and $3,000,000 for unemployment compensation payments. The managers agree that a study of Park Police operations in Gateway and Golden Gate NRAs should be done. This study should evaluate the impact on park management of replacing the Park Police with park rangers with law enforcement certification, primarily addressing the safety and protection of park visitors and use and enjoyment of park resources, and on the comparative costs of providing the current level of protection by the Park Police and by park rangers with law enforcement certification. The managers agree that, of the $400,000 returned to the U.S. Park Police from the office of the Secretary protection activity, $250,000 shall be available for the budgeted request for Gateway NRA, NY, and that the remaining $150,000 shall be retained by the National Capital Region unit of the Park Police. Within available funds, $85,000 is to be made available to the town of Harpers Ferry, West Virginia for law enforcement assistance in accordance with the current or any future agreements signed by the National Park Service, and the towns of Harpers Ferry and Boliver.

Funds provided for maintenance at Delaware Water Gap NRA are for site restoration ($100,000) and fire and intrusion alarms ($50,000) and feasibility study and specifications for the Milford bicycle trail ($50,000).

The managers agree that further funding for the Mary McLeod Bethune NHS requires additional authorization and await additional authorization before providing additional funding.

The managers agree that not less than $3,400,000 for high priority projects within the scope of the approved budget shall be carried out by the Youth Conservation Corps as if authorized by the Act of August 13, 1970, as amended by Public Law 93-408.

NATIONAL RECREATION AND PRESERVATION

Appropriates $11,338,000 instead of $11,690,000 as proposed by the House and $10,276,000 as proposed by the Senate. Reductions below the House amount are $102,000 for rivers and trails studies and $250,000 in grant administration.

HISTORIC PRESERVATION FUND

Appropriates $26,000,000 as proposed by the Senate instead of $27,000,000 as proposed by the House. The managers expect the National Park Service, in cooperation with the maritime preservation community and the National Trust for Historic Preservation, to conduct a survey of historic maritime resources, including those of the Service; recommend standards and priorities for the preservation of those resources; and recommend the appropriate Federal and private sector roles in addressing those priorities.

VISITOR FACILITY FUND

Appropriates $6,000,000 as proposed by the Senate instead of $6,400,000 as proposed by the House. The managers expect the Service to provide the National Park Foundation with adequate funds for the assistance provided to the Service in this program. The managers are hopeful that the Foundation can provide construction supervision and other services at savings for the Service.

CONSTRUCTION

Appropriates $113,716,000 instead of $109,375,000 as proposed by the House and $98,908,000 as proposed by the Senate.

The net increase above the amount proposed by the House includes decreases of $67,000 for Voyageurs NP, $142,000 for Cuyahoga Valley NRA, and $3,500,000 for Gulf Island NS, and increases of $1,530,000 for Buffalo NR, $3,500,000 for Cape Hatteras NS lighthouse rehabilitation and protection, $650,000 for Fort Jefferson NM utility systems, $825,000 for Harpers Ferry NHS water system, $530,000 for Jean Lafitte NHS, and project planning of $690,000 for Buffalo NR, of $75,000 for Fort Jefferson, and of $250,000 for New River Gorge NR. Within available planning funds, $600,000 it to be provided for design of a hotel replacement at Denali NP. The managers also recommend $28,000,000 to liquidate contract authority provided from the Highway trust fund to continue work on the Cumberland Gap NHS bypass tunnel.

The managers deleted the $8,500,000 proposed by the Senate to pave the Burr Trail and upgrade it into an all-weather, scenic highway linking the Utah towns of Boulder and Bullfrog. Construction funds were deleted in response to strenuous objections raised about potentially serious environmental problems.

Project proponents point to potentially significant benefits and the long history associated with proposals to upgrade the road. The managers are extremely sensitive to the environmental consequences of such construction.

To date, the National Park Service has not conducted an Environmental Assessment on this project. Therefore, in order to provide adequate information respecting environmental concerns, the managers have included $200,000, within available funds, for the National Park Service to conduct an Environmental Assessment. Public meetings are to be held, as appropriate. The National Park Service should transmit such an assessment, together with its recommendation, to the Committee by July 1, 1985.

LAND ACQUISITION AND STATE ASSISTANCE

Appropriates $150,220,000 instead of $175,000,000 as proposed by the House and $151,410,000 as proposed by the Senate. The following table shows the allocation agreed to by the managers.

Assistance to States:	
Matching grants	$73,319,000
Administrative expenses	1,681,000
Total, assistance to States	75,000,000
Federal acquisition:	
Acquisition management	7,060,000
Alaskan areas	500,000
Antietam NB	500,000
Big Cypress N. Pres	2,000,000
Biscayne NP	1,000,000
Chaco Culture NHP	1,000,000
Channel Islands NP	15,000,000
Chattahoochee River NRA	1,000,000
Chesapeake & Ohio Canal NHP	500,000
Cuyahoga Valley NRA	2,000,000
Delaware Water Gap NRA	1,800,000
Fort Frederica NM	300,000
FDR NHS	270,000
Golden Gate NRA	1,000,000
Gunnison NM (Black Canyon)	1,300,000
Indiana Dunes NL	1,375,000
Jean Lafitte NHP	3,000,000
Lower St. Croix WSR	500,000
Manassas NBP	3,000,000
Martin Luther King, Jr. NHS	500,000
Monocacy NB	1,500,000
New River Gorge NR	4,000,000
Obed WSR	500,000
Petersburg NB	1,550,000
Point Reyes NS	2,500,000
Rocky Mountain NP	1,000,000
St. Croix NSR	1,000,000
Salinas NM	500,000
Santa Monica Mountains NRA	8,165,000
Saratoga NHP	200,000
Theodore Roosevelt NHS (Sagamore Hill)	250,000
Valley Forge NHP	1,500,000
Voyageurs NP	1,000,000
War in the Pacific NHP	1,200,000
Deficiencies and relocations	1,750,000
Inholdings, emergency, recently authorized, and hardship acquisitions	5,000,000
Total, Federal acquisition	75,220,000
Total, land acquisition and State assistance	150,220,000

Funds provided for Golden Gate NRA are for areas in Marin County. The managers agree that the reduction from the House level for Cuyahoga Valley NRA is made

without prejudice. Approximately $3,800,000 remains available from prior year appropriations which, when combined with the $2,000,000 provided herein, will be sufficient to maintain the acquisition schedule for fiscal year 1985.

The managers have deleted language proposed by the Senate changing acquisition priorities at Channel Islands NP, California, and agree that the Santa Rosa Island acquisition project shall receive priority.

NATIONAL CAPITAL REGIONAL ARTS AND CULTURAL AFFAIRS

Appropriates $5,000,000 as proposed by the Senate instead of zero as proposed by the House.

Language proposed by the Senate establishing a grant program in support of artistic and cultural activities in the National Capital Region has been placed within the National Park Service rather than the Institute of Museum Services as proposed by the Senate.

The managers have agreed to forward fund this program, for a one-time, temporary, trial, so that eligible organizations will be able to submit applications and have such applications reviewed in the fiscal year prior to the year for which the grant funds are available. If effective, this trial may provide for a smooth transition from the existing funding method to this new program.

The managers agree that the amounts required for the contracts with Wolf Trap Farm Park and Ford's Theater shall be available from this account without regard to any other provisions which establish criteria for eligibility and requirements for an application and review process.

For fiscal year 1985, the managers have agreed to continue the practice of earmarking funds for specific organizations through the National Park Service and the Smithsonian Institution.

ILLINOIS AND MICHIGAN CANAL NATIONAL HERITAGE CORRIDOR

Appropriates $250,000 as proposed by the House.

JEFFERSON NATIONAL EXPANSION MEMORIAL COMMISSION

Appropriates $75,000 as proposed by the House.

ADMINISTRATIVE PROVISIONS

Deletes additional police type vehicles provided by the House for Park Police rookie class and permits BLM to provide the city of Boise, Idaho with land to replace land the city provided to the Peregrine Fund.

GEOLOGICAL SURVEY

SURVEYS, INVESTIGATIONS, AND RESEARCH

Appropriates $420,664,000 instead of $417,448,000 as proposed by the House and $412,230,000 as proposed by the Senate.

The net increase above the amount proposed by the House includes: decreases of $500,000 for printing and distribution of maps, $700,000 for modernization of mapping technology, $500,000 for cartographic and geographic information, $2,000,000 for side-looking airborne radar, $1,779,000 for volcano hazard assessment, $1,443,000 for geologic framework, $750,000 for the world energy assessment program, $1,212,000 for the regional aquifer study, and $1,500,000 for the energy hydrology (coal) program; and increases of $600,000 for expenses related to recent volcano activity in Hawaii, $1,000,000 for ground failure and construction hazards, $2,500,000 for offshore geologic surveys, $9,000,000 for water resource research programs, and $500,000 in additional map receipts.

The managers recommend the following allocation of the funds provided for water resource research programs:

Water resource research institutes (sec. 104)	$6,210,000
Water research grants (sec. 105)	2,600,000
Administration	190,000
Total	9,000,000

The managers also recommend that the Federal coal hydrology program be budgeted in the Office of Surface Mining in subsequent fiscal years. It is also expected that the SLAR funds will be allocated within priority areas in a geographically balanced manner.

MINERALS MANAGEMENT SERVICE

Appropriates $166,818,000 for leasing and royalty management instead of $167,207,000 as proposed by the House and $166,992,000 as proposed by the Senate.

The decrease of $389,000 below the amount proposed by the House represents a reduction in General Support Services for special building and communications costs.

The managers agree that, within available funds, a grant of $50,000 shall be made to the Oil/Fisheries Group of Alaska, Inc., a non-profit corporation based in Anchorage, Alaska to assist in the mitigation of potential Outer Continental Shelf leasing conflicts between the petroleum and fisheries industries. The managers will monitor this effort to determine if it is a viable approach to resolving such conflicts well in advance of leasing activities.

The managers agree that no funds shall be deducted from Federal onshore mineral leasing receipts prior to their division and distribution pursuant to 30 U.S.C. 191, to offset the costs expended in the collection of Federal onshore mineral leasing receipts.

BUREAU OF MINES

Appropriates $138,734,000 for Mines and Minerals instead of $123,049,000 as proposed by the House and $138,184,000 as proposed by the Senate. Changes to the Senate amount include increases of $2,500,000 for respirable dust research to be carried on as part of the existing respirable dust program including the generic center program, $400,000 for research to mitigate the effects of subsidence on prime farmland in Illinois to be matched by non-federal funds and $500,000 for general administration. Reductions to the Senate amount include $500,000 for strategic and critical materials research; $700,000 for mineral assessment work in Alaska and $1,650,000 in the Mineral Institute program.

The $8,000,000 provided for the Mineral Institute program includes $4,650,000 to be divided equally among the 31 institutes; $350,000 for administration and $3,000,000 for a competitive research program among the institutes in the manner of the University Coal Research program administered by the Department of Energy's fossil research program. It is the managers' expectation that the research will be focused on the highest priority minerals problems.

OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT

REGULATION AND TECHNOLOGY

Appropriates $76,625,000 for regulation and technology instead of $75,039,000 as proposed by the House and $76,025,000 as proposed by the Senate. Changes to the Senate amount include increases of $300,000 for inspector training and $300,000 for better management information systems.

ABANDONED MINE RECLAMATION FUND

Appropriates $303,001,000 for the abandoned mine reclamation fund instead of $307,031,000 as proposed by the House and $296,701,000 as proposed by the Senate. Changes to the House amount include reductions of $330,000 for staff at the Wilkes-Barre, Pennsylvania office and $3,700,000 for the Rural Abandoned Mine Program. The managers expect the Wilkes-Barre, Pa. office to be maintained at a level of 40 full-time equivalents. The amount provided for RAMP includes $6,300,000 for new starts.

BUREAU OF INDIAN AFFAIRS

OPERATION OF INDIAN PROGRAMS

Appropriates $895,834,000 instead of $895,687,000 as proposed by the House and $875,117,000 as proposed by the Senate.

The net increase over the amount proposed by the Senate includes the following: increases of $200,000 for vocational education at the Phoenix Indian Boarding School; $150,000 for the school transportation formula; $1,550,000 for the Indian School equalization formula; $100,000 for equipment and program upgrading at the Southwestern Indian Polytechnic Institute; $500,000 for tribal courts; $410,000 for child welfare assistance, including $300,000 for Indian Child Welfare Act grants and $110,000 for the Solo Parent program; $302,000 for self-determination grants; $2,830,000 for the Navajo-Hopi settlement program; $146,000 for the Papago Skills Center; $73,000 for economic development; $61,000 related to the ADP transfer from Economic Development; $3,500,000 for forest development; $1,597,000 for wildlife and parks; $413,000 related to the ADP transfer from natural resources; $700,000 for litigation support; $500,000 for attorneys' fees; $798,000 for hunting and fishing rights; $100,000 for real estate services for the Miccosukee Tribe; $308,000 related to the ADP transfer from Trust Responsibilities; $2,169,000 for facilities management, including $180,000 for the Navajo Mountain school, $43,000 for the Sanostee School, $1,850,000 to restore the A-76 related reduction, and $96,000 related to the ADP transfer; $8,541,000 for ADP; $159,000 for program transfers related to ADP; and $500,000 for improvements to the finance system; and decreases of $13,000 for Johnson-O'Malley assistance; $1,037,000 related to the ADP transfer from Indian Services; $2,127,000 for forest inventories; and $1,713,000 for general administration.

The managers agree that the plan for gifted and talented students in BIA schools should be submitted to the Committees as soon as it is completed, with a budget request for its implementation. While the budget has not been decreased in relation to services for students of less than ¼ blood quantum, the managers agree that BIA must establish regulations to determine adequacy of service, and must also work with affected schools to resolve this situation, including establishment of cooperative schools, where appropriate. The budget request for fiscal year 1986 should be based only on those students eligible under current law. The allowance for ISEF includes $750,000 related to continued operation of a portion of the Sanostee School, including lump sum leave and severance pay. The managers agree that the established school attendance boundaries should be enforced beginning with the 1984-85 school year.

The increase of $500,000 for tribal courts is to meet the most pressing needs; however, BIA should ensure completion of the Court Improvement Plan, and include the necessary funds in its budget to implement the plan. The increase of $7,000,000 for law enforcement is to be distributed so as to bring all programs, including that proposed to be operated by the Nez Perce tribe, at least halfway to the "exemplary" level, while maintaining the program on the tribal priority system. The increase of $73,000 for economic development is to be combined with the increase of $212,000 in the budget under credit and financing, to allow a Buy-Indian contract for services to tribes who are developing business ventures which qualify for assistance under the Indian Finance Act and who request such services. No funds are provided for the economic development facilitators unit.

The increase over the budget for wildlife and parks is to be distributed as follows:

Tribe or group	*Increase*
Red Cliff, WI	+$203,000
Colville, WA	+110,000
Columbia River Intertribal Fish Commission	+522,000
Metlakatla, AK	+312,000
Lac du Flambeau, WI	+250,000
Quinault, WA	+100,000
Mescalero, AZ	+15,000
Nez Perce	+162,000
Western Washington tribes:	
Fisheries:	
Hoh	+8,000
Makah	+11,000
Muckleshoot	+6,000
Nooksack	+12,000
NWIFC	+35,000
Point-No-Point	+19,000
Puyallup	+37,000
Quileute	+23,000
Quinault	+21,000
Skagit System Coop	+41,000
Squaxin Island	+27,000
Stilliquamish	+57,000
Tulalip	+86,000
Hatchery O&M:	
Lummi	+24,000
Makah	+15,000
Muckleshoot	+2,000
Quileute	+4,000
Quinault	+17,000
Skagit System Coop	+9,000
Suquamish	+17,000
Tulalip	+29,000
Subtotal, Western Washington	+500,000
Total, wildlife and parks	+2,174,000

The increase for litigation support shall include, but not necessarily be limited to, the San Juan River and Little Colorado River cases. In the hunting and fishing rights activity, total increases of $148,000 for the Klamath, OR tribal conservation program and $1,000,000 for the Great Lakes Indian Fish Commission are included, to include $350,000 from the undistributed funds in Central Office.

In the road maintenance activity, $360,000 should be provided for seal coating of Bureau roads paved with Highway Trust Funds (HTF). Future budget requests should include the amount required to seal roads constructed in the past with BIA funds as well as those built with HTF monies. Within forestry, $370,000 should be provided for rehabilitation of the Menominee Forest. No funds beyond those specifically identified in the budget should be used for P.L. 93-638 contract oversight or monitoring costs.

The managers agree that $20,000,000 shall be available for the Bureau's automatic data processing system (ADP). The funds shall be derived as follows:

Budget request for ADP Services	$3,115,000
Education MIS	790,000
Transfers from programs (as detailed in appeal statement)	4,995,000
Finance/payroll system	1,000,000
Indian priority system	100,000
Congressional increase	10,000,000
Total	20,000,000

The managers have agreed to bill language which provides permanent authority for a number of activities routinely included in annual appropriations bills.

$55,706,000 is earmarked for higher education and Johnson-O'Malley funds instead of $55,693,000 as proposed by the House and $55,719,000 as proposed by the Senate. The increase over the amount proposed by the House is for the Johnson-O'Malley program.

$2,830,000 is earmarked for the Navajo and Hopi Settlement program rather than $3,830,000 as proposed by the House and zero as proposed by the Senate.

Language proposed by the House limiting automatic data processing (ADP) expenditures has been deleted. The managers, however, expect expenditures for ADP to remain within the $20,000,000 provided for this purpose. Any additional expenditures shall require Committee approval. The Bureau shall also report to the Committees on indirect ADP expenditures (those costs covered through Bureau contracts), so that the total cost of the ADP program is available for review. The managers direct that the BIA continue to provide quarterly reports on ADP operations.

Language is included terminating general assistance payments in Alaska; and establishing standards for all Bureau general assistance programs beginning September 30, 1985.

Language is included establishing a one year moratorium on new contract school starts. The managers agree that the current Bureau position of having to enter into a contract for a new school whenever so requested by a tribe is unacceptable. Standards must be established and regulations adopted to address the concerns which have been expressed in this area.

Language proposed by the Senate regarding the Mt. Edgecumbe Boarding School has been deleted as this provision was included in the fiscal year 1984 supplemental appropriation bill.

CONSTRUCTION

Appropriates $109,686,000 instead of $103,124,000 as proposed by the House and $104,243,000 as proposed by the Senate.

The increase over the amount provided by the Senate includes: $5,000,000 for facilities improvement and repair and $443,000 for the La Push Ocean Park Resort, WA.

The managers agree with the directives regarding the facilities improvement and repair program in the House and Senate reports, with the following clarification: no funds in excess of $1,500,000 may be spent on a single repair project without the consent of the Committees on Appropriations. Smaller projects grouped together which exceed this amount do not require Committee approval.

No funds are to be used for a feasibility study on the proposed Ganado II dam.

Within available unobligated balances, up to $200,000 should be used to continue design of the next schools on the construction priority list.

To assist with an equitable distribution of HIP funds, $160,000 is earmarked to obtain a workable, valid and consistent Indian housing inventory. Resident training counseling funds available to the University of Wisconsin through a BIA contract may be used to support HUD funded trainers as well as HIP coordinators.

The managers agree that facility improvement and repair funds may be used to demolish buildings at the Sanostee school which are eventually found to be unsafe, but only after negotiations with the tribe are completed.

ROAD CONSTRUCTION

Appropriates $6,000,000 instead of $1,000,000 as proposed by the House and $5,000,000 as proposed by the Senate. The increase over the amount proposed by the Senate is for the Pushmataha Indian Road, OK.

WHITE EARTH BAND OF CHIPPEWA INDIANS TRUST FUND

Appropriates no money for deposit into the White Earth Band Economic Development Fund instead of $3,500,000 as proposed by the Senate.

TRIBAL TRUST FUNDS

Language proposed by the Senate to provide permanent authority for tribal trust funds has been included.

REVOLVING FUND FOR LOANS

$18,600,000 is provided for direct loans as proposed by the Senate instead of $16,100,000 as proposed by the House.

ADMINISTRATIVE PROVISIONS

Language has been included making permanent a number of provisions routinely carried in previous annual Interior appropriation bills.

Language proposed by he House requiring forward funding of educational programs has been deleted. The managers understand that the Bureau has established an earlier date for the official "count week" so that funds should be made available to schools in a more timely manner. Language proposed by the Senate regarding employees not subject to Indian preference has been deleted. Language proposed by the Senate regarding the use of funds collected for quarters rental has been deleted from this section and included under Title III, General Provisions.

Language proposed by the Senate requiring the Secretary to hire 28 employees of the Flathead Irrigation Project has been included. The managers agree that there is no budgetary impact of this provision as the employees will be paid from collections of the project.

Language proposed by the Senate prohibiting the use of funds to implement new legislative provisions in education has been included. The managers agree that the budget is based on current law and time is required to review the impact of legislative changes made after the beginning of the school year.

TERRITORIAL AND INTERNATIONAL AFFAIRS

ADMINISTRATION OF TERRITORIES

Appropriates $76,554,000 instead of $76,954,000 as proposed by the House and $77,170,000 as proposed by the Senate.

The net decrease from the amount proposed by the Senate consists of increases of $484,000 for American Samoa, and

$1,000,000 for technical assistance; and decreases of $500,000 for the Northern Marianas hospital; $1,500,000 for Virgin Islands financial planning assistance; and $100,000 for the Office of Territorial and International Affairs.

The increase provided for American Samoa includes $800,000 for the cost of living increase, $2,000,000 for the marine railway, $1,500,000 for relocation of government offices, and $1,000,000 for home mortgage loans.

A total of $5,000,000 has been provided for technical assistance. The managers are aware of a number of needs that have been identified which can be funded within this increased level. These include, but are not limited to, planning assistance for the St. Croix, V.I., airport runway; financial planning assistance for the Virgin Islands; hospital staffing, training, and planning assistance for the Northern Marianas and Marshall Islands; power plant maintenance for Palau; boundary surveys in Palau; additional costs for financial management systems; and outside expert review of the Enewetak planting program.

The managers agree that the $500,000 grant to the College of the Virgin Islands must be matched by $250,000 from other, non-Federal funds.

Bill language proposed by the Senate regarding the use of funds for the Northern Marianas hospital is included.

TRUST TERRITORY OF THE PACIFIC ISLANDS

Appropriates $100,811,000 instead of $118,225,000 as proposed by the House and $97,611,000 as proposed by the Senate.

The net increase from the amount proposed by the Senate includes: increases of $850,000 for pre-1982 medical referral liabilities; $55,000 for cost-of-living increase for the Marshall Islands; $900,000 for a fuel tank farm in Kosrae; $4,000,000 for capitol relocation, Federated States of Micronesia (FSM); $1,914,000 for Bikini cleanup studies; and decreases of $1,683,000 for FSM cost-of-living; $156,000 for Palau cost-of-living; $180,000 for Palau sewer system; and $2,500,000 for prior service benefits.

The $4,000,000 provided for FSM capital relocation is for the first year of phased funding of a total estimated cost of $13,400,000. The managers remain committed to providing funds for capitol relocation for the Marshall Islands and Palau, pending review of the plans for these facilities. The managers will also consider funding for the new hospital in Palau, after review of the plans.

Instead of providing funds for prior service benefits at this time, the managers reiterate the request contained in the House report that a study be conducted of various options for the program post-Compact, including establishing a trust fund, or a one-time lump sum payment, and the cost thereof, to be submitted to the Committees by March 1, 1985.

$1,914,000 is included for studies related to the cleanup of Bikini Atoll. These studies will provide information that will be necessary if an eventual decision is made to clean up Bikini Island, including costs and the feasibility of various methodologies. The final decision on whether to proceed with clean up, and the details and responsibilities related thereto, will be made at a later time, when the required information is available.

DEPARTMENTAL OFFICES

OFFICE OF THE SECRETARY

Appropriates $45,544,000 instead of $44,131,000 as proposed by the House and $47,360,000 as proposed by the Senate.

The net increase above the amount proposed by the House consists of: increases of $179,000 for Congressional and Legislative Affairs, $23,000 for public affairs, $57,000 for A/S for Water and Science, $159,000 for A/S for Land and Minerals Management, $10,000 for A/S for Fish and Wildlife and Parks, $9,000 for A/S Indian Affairs, $148,000 for A/S Territorial and International Affairs, $17,000 for A/S Policy, Budget, and Administration, $50,000 for A-76 coordination, $500,000 for Office of ADP Management, $413,000 for Policy Analysis, and $309,000 for the Office of Hearings and Appeals; and decreases of $309,000 for the Office of Historically Black College and University Programs, $112,000 for the Departmental library, and $40,000 for an audit response coordinator.

The managers agree to provide no funds to reimburse the Park Police for protective services in this account. Funds requested for that purpose, with the concurrence of the Secretary, have been appropriated to the Park Police in the National Park Service appropriation. The managers have not included a bill-wide provision regarding OMB Circular A-76 contract studies which will be addressed elsewhere in this statement. As a result, funds are included for the departmental A-76 coordinator. The managers have also agreed to provide funds to the Office of ADP Management. The Secretary is expected to inform the Committees of actions he proposes to take so that the concerns addressed in the House report are met.

No funds are provided to establish or participate in a Federal-State working group to find some way to reconcile conflicts between the application of the Endangered Species Act in the Upper Colorado River system and the interstate system of laws within that system. The Secretary is, however, expected to work with the appropriate states to mitigate and reconcile the many conflicts which have developed under the Act.

OFFICE OF THE SOLICITOR

Appropriates $20,548,000 instead of $19,463,000 as proposed by the House and $21,242,000 as proposed by the Senate.

The increase over the amount proposed by the House includes $1,035,000 to accommodate the workload generated by the Office of Surface Mining's assumption of regulatory functions in Oklahoma and Tennessee and $50,000 for an additional attorney for Indian cases.

Bill language proposing a transfer of the Associate Solicitor for Indian Affairs to the Bureau of Indian Affairs has been deleted. The managers remain concerned, however, with the issue of conflict of interest within the Department, when Indian interests are in conflict with other interests of the Department. This issue has become particularly acute in recent years in the area of Indian water rights. The position taken by a previous Solicitor of the Department, which relegated the Federal government's trust responsibility to the same level as other competing interests which do not carry the same requirements as the trust responsibility, is not acceptable. The managers expect the Department to carry out the Federal government's trust responsibility to the fullest extent, including the protection and enhancement of Indian rights. The Committees will continue to monitor closely the conduct of the Solicitor's Office in this area.

CONSTRUCTION MANAGEMENT

Appropriates $750,000 as proposed by the House instead of $916,000 as proposed by the Senate.

OFFICE OF THE SECRETARY

(SPECIAL FOREIGN CURRENCY PROGRAM)

Appropriates $2,000,000 for U.S. Fish and Wildlife Service research in India and Pakistan with excess foreign currency funds instead of $5,500,000 as proposed by the Senate.

ADMINISTRATIVE PROVISIONS

Language is recommended which authorizes acquisition of four aircraft for replacement only and prohibits augmentation of programs funded by appropriations in the Office of the Secretary, Solicitor, and Inspector General through the Working Capital Fund or the Consolidated Working Fund.

DEPARTMENTWIDE PROVISIONS

Sec. 102. Continues authority to transfer no-year funds for emergency actions (e.g. fires, earthquakes, subsidence, etc.) with provision that such amounts transferred are to be replenished by a supplemental appropriation.

Sec. 104. Prohibits use of funds in this title for expenses of the Great Hall of Commerce.

Sec. 107. Continues moratorium on OCS leasing in the Central and Northern California planning area north of Morro Bay.

Sec. 108. Continues moratorium on OCS leasing in Georges Bank area of the North Atlantic planning area.

Sec. 109. Prohibits changing the name of Mount McKinley.

Sec. 110. Provides that appropriations in this title shall be available to provide insurance in Canada and Mexico.

Sec. 111. Continues moratorium on OCS leasing in the Southern California planning area.

The managers note that this is the fourth year in which OCS moratoria have been included in this bill. The managers will not continue such blanket moratoria in future years unless a case can be made that the pre-lease negotiation process with the Department of the Interior is inadequate to ensure that all resource values and Department of Defense needs are provided proper consideration and protection in specific areas, and then such moratoria will not exceed the geographic limit of such areas. The Department is urged to pursue a resolution of the long-term leasing status of these areas through continuing negotiations with the appropriate Congressional, state, and local officials, and it is expected that adequate consultation with these officials will occur pursuant to the Outer Continental Shelf Lands Act, as amended.

The managers agree to delete House provisions prohibiting exchanges in Alaska conservation areas and in National Wildlife Refuges and National Park Units. The managers expect the appropriate committees of jurisdiction to be consulted before exchanges in these areas are proposed.

Sec. 112. Prohibits nonreimbursable details unless consistent with the Office of Personnel Management regulations.

Sec. 113. Extends the obligation deadline for Urban Park, Land and Water Conservation Fund, and Historic Preservation Fund funds provided in Public Law 98-8 from September 30, 1984 to March 1, 1985.

Bill language concerning the transfer of power facilities on Guam has not been included at this time in lieu of the following directive of the managers:

On October 5, 1972, the Department of the Navy and the Guam Power Authority (GPA) entered into an agreement which provided for the pooling of power production and transmission systems and for an equitable sharing of costs. The ultimate objective of this agreement was to transfer the control of the islandwide power production and transmission systems to the Guam Power Authority after GPA had demonstrated the capability to successfully operate the system. The Department of the Navy then would become a customer of GPA.

Because GPA's financial viability has been tenuous, primarily caused by the Guam legislature's interference in rate setting, the military has been reluctant to terminate the existing arrangement. It is essential that the military operations on Guam have an assured adequate supply of electric power. Therefore, the managers believe that an independent rate-setting body needs to be established in Guam before the power pool agreement is terminated, and the financial condition of GPA must be monitored carefully.

There is no intent on the part of the managers to transfer military base distribution assets or assets which are necessary to supply emergency power for military operations or which are needed in a reserve capacity for national defense. However, the managers would anticipate that military-owned power generating and transmission facilities and easements, which are not needed solely for these purposes, be transferred to GPA, or be made available for use, at no cost to GPA. GPA shall operate and maintain the power facilities that are not reserved exclusively for military base distribution or stand-by purposes, in accordance with electric utility standards for similar areas and situations.

It is the intent of the managers to see the customer-supplier relationship established. The Secretaries of Interior and Navy shall commission an independent third party in coordination with GPA to identify financial, management, and service criteria for GPA, and recommend a plan, with performance standards and milestones, for takeover by GPA of island-wide power responsibilities. In addition, the Independent third party shall insure that the plan addresses adequately the specific minimum power required now and for the next twenty years by any Department of Defense Agency or facility currently sited on Guam. The Independent third party will judge when the plan's performance standards and milestones are met, and shall complete the plan and present it to the House and Senate Committees on Appropriations within 12 months of the enactment of this Act.

The plan shall approach the transfer in a phased manner, with the following objectives: (1) developing a contract whereby GPA will operate and maintain Tanguisson power plant; (2) transferring maintenance responsibilities to GPA for the transmission (and distribution) system; and (3) developing a contract for GPA to provide reliable electric service to the military in accordance with electric utility standards including the levels of cold reserve and spinning reserve for similar island areas and stable year-long weather situations.

A critical first step is the joint manning of GPA's dispatch control center. The managers expect that Navy and GPA will establish together a training program which will promptly provide for joint manning not later than July 1985 or as soon thereafter as any necessary additional operating equipment can be procured by GPA, installed and tested.

The aforementioned plan presupposes that (1) the legislature of Guam will establish an independent rate setting body and (2) the GPA will attain a level of financial stability, both of which must be acceptable to the Secretary of the Interior. The Secretary will certify his acceptance to the Committees on Appropriations after consultation with the Secretary of the Navy. When both criteria have been met, and the plan has been completed and reported to the Committees, the Secretaries of both Departments will insure that it is implemented promptly, but in any event, not later than 12 months following completion of the plan or the certification, whichever comes later. Should GPA's financial situation deteriorate following certification, the period for implementing the plan will be extended for the period of time necessary for financial health to be restored, as determined by the Secretary of the Interior. Moreover, the independent third party, with the approval of the House and Senate Committees on Appropriations, may also extend the period for implementation whenever, in its discretion, a particular performance standard or milestone is not being met.

TITLE II—RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

Forest Service

FOREST RESEARCH

Appropriates $123,433,000 instead of $123,710,000 as proposed by the House and $124,395,000 as proposed by the Senate.

The amount provided over the budget estimate of $103,070,000 includes the following: fire and atmospheric sciences—$500,000 for acid deposition research; insect and disease research—$100,000 at Fairbanks, AK, $640,000 at Morgantown, WV for gypsy moth research, $100,000 at Berkeley, CA, $60,000 for acid deposition research; inventory and analysis—$3,600,000 to increase frequency of inventory cycle in all regions, and $2,300,000 for acid deposition research; trees and timber management—$150,000 for FIR, $250,000 at Columbia, MO, $100,000 at Lincoln, NE, $100,000 at Fairbanks, AK, $100,000 at Moscow, ID, $300,000 at Sewanee, TN, and $1,350,000 for acid deposition research; watershed management and rehabilitation—$173,000 at Fairbanks, AK, and $1,250,000 for acid deposition; wildlife, range, and fish habitat—$150,000 at La Grande, OR, $40,000 for Skagit River eagles, $100,000 for anadromous fish habitat at Arcata, Ca, $100,000 at Boise, ID, $50,000 at Columbia, MO, $100,000 at Fairbanks, AK, and $150,000 at Juneau, AK; recreation research—$100,000 at Chicago, IL; forest products and harvesting—$500,000 for the Forest Products Laboratory; competitive grants program—$8,000,000, divided equally between improved harvesting, processing, and utilization research, and basic forestry biology including biotechnology.

The managers expect the Forest Service to work with the Fish and Wildlife Service, the Bureau of Land Management, and other interested groups to develop a comprehensive research proposal for timber management practices in the interactive zone between coastal and upstream waters for California, Oregon, Washington, and Alaska, and to devote appropriate research attention in 1985 to address resource conflicts in high yield forest areas threatened by landslides and other problems.

STATE AND PRIVATE FORESTRY

Appropriates $59,505,000 instead of $61,810,000 as proposed by the House and $56,835,000 as proposed by the Senate.

The amount under the House consists of decreases of $90,000 for cooperative lands pest suppression; $65,000 for fire protection; $530,000 for wood utilization; $1,600,000 for urban forestry; and $20,000 for management improvement.

House language is retained which provides a grant of $325,000 for the Disabled American Veterans resort in Minnesota; and earmarks $35,000 for oak wilt suppression in Texas.

The managers direct the Forest Service, working with State Foresters and other interested groups, to develop, analyze, and report the advantages and disadvantages of various targeting procedures for State and private grant funding to the Committees prior to the FY1986 appropriation hearings. If no substantive progress has been made, the managers have agreed to consider this approach again next year.

NATIONAL FOREST SYSTEM

Appropriates $1,067,020,000 instead of $1,041,459,000 as proposed by the House and $1,064,710,000 as proposed by the Senate.

The net increase over the amount provided by the Senate consists of increases of $2,200,000 for advanced sales-preparation for 200 mbf of new timber sales; $914,000 for maintenance of facilities; $3,500,000 for budgeted costs for processing and handling defaulted volumes and re-purchased volumes; $1,000,000 for trail maintenance; $400,000 for a timber cost-accounting system; $2,800,000 for tree improvement; $6,000,000 for recreation use; $500,000 for cultural resources; $500,000 for soil, water, and air administration, and $1,300,000 for inventories; and decreases of $1,000,000 for leaseable minerals; $500,000 for timber related road maintenance support; $2,000,000 for nursery operations; $1,600,000 for timber related recreation support; $400,000 for timber related wildlife support; $400,000 for timber related soil, water, and air support; $5,500,000 for the preparation and offer of 500 mbf for new timber sales; $1,904,000 for noxious weed control; $1,000,000 for anadromous fish habitat; and $2,500,000 for the Forest Level Information Processing System (FLIPS).

In developing the expanded timber cost accounting system, in line with concerns expressed in the House and Senate report, the Forest Service should develop proposals for a reasonable but complete system and should work with the accounting systems division of GAO in developing the system. At a minimum, the system should allow for identification of the costs of the timber sale program by component, and allow for a comparison of actual costs and benefits. The system should also allow for identifying other aspects of the timber program, such as firewood and non-convertible products. The Committees expect to be kept fully informed of the progress on this effort, including an initial report to the Committee within 60 days of enactment of this act.

The increase for the land line location program is for the base program, not an increase in support of the timber program.

The managers support the Forest Service efforts to install distributed data processing throughout the organization. However, a reduction of $2,500,000 has been applied to

the FLIPS program, to be taken from appropriate sources within this account, in order to encourage more cost conscious management of this project than has been shown to date. The managers are also concerned that the Forest Service has not yet fully analyzed the costs and benefits associated with the FLIPS procurement. Therefore, the managers direct that the Forest Service withhold orders for the acquisition of any additional FLIPS hardware until the following directives are addressed by the Forest Service, reported to and approved by the Committees on Appropriations. The Forest Service response should be submitted to the Committees by no later than December 31, 1984, and address the following recommendations:

—Centralize the management of FLIPS in an organization under the direct supervision of the highest management officials of the Forest Service having sufficient authority, staff and other resources to plan and control its implementation at all organizational levels;

—Establish systems and procedures to closely monitor and manage all FLIPS costs and benefits in an acceptable cost accounting manner, periodically reporting on any changes in planned and actual numbers to the Committees on Appropriations as requested in several prior reports;

—Strengthen central management control over software acquisition, development, maintenance and use, establishing and enforcing agency-wide policy, procedures and standards to ensure compatibility and software sharing;

—In conjunction with software management, establish a data base administrator to develop uniform data dictionaries and directories;

—Perform an agency-wide analysis of ADP technical skills needed to operate and maintain FLIPS, measuring any possible skills gap at each site, and staffing and training needed to close any such gap;

—Analyze, plan for and implement the security requirements of all automated systems, concentrating especially on FLIPS because of its widely distributed nature; and

—Establish a comprehensive information resource planning and evaluation process to establish requirements, set priorities, allocate resources, and assess progress in the above activities.

The managers agree that not less than $3,300,000 for high priority projects within the scope of the approved budget shall be carried out by the Youth Conservation Corps as if authorized by the Act of August 13, 1970, as amended by Public Law 93-408.

CONSTRUCTION

Appropriates $268,635,000 instead of $260,798,000 as proposed by the House and $281,235,000 as proposed by the Senate.

The decrease from the amount proposed by the Senate includes decreases of $500,000 from the FS high priority recreation construction list, leaving an increase of $4,500,000; $325,000 for the Sunny Dene Resort, and $14,500,000 for timber roads; and increases of $165,000 for roads and $560,000 for recreation facilities in the Bankhead NF, AL, and $2,000,000 for trail construction.

The managers will consider additional funds for the Mt. St. Helens Visitors Center in the FY 1985 supplemental if the plans and bids indicate an additional need.

Unexpended timber purchaser credits in the amount of $226,290,000 have been transferred to offset appropriations in this account, instead of a rescission of $226,348,000 as proposed by the Senate and a rescission of $226,290,000 as proposed by the House. The managers also reduced the 1985 allowance for timber purchaser road credits by $90,000,000, to reflect unobligated balances carried forward.

LAND ACQUISITION

Appropriates $44,493,000 instead of $64,000,000 as proposed by the House and $32,295,000 as proposed by the Senate. The following table shows the allocation agreed to by the managers:

Acquisition management	$3,565,000
Allegheny NF, PA	2,000,000
Appalachian Trail	1,000,000
Cascade Head SRA, OR	773,000
Flathead WSR, MT	1,000,000
Green Mountain NF, VT	3,400,000
Lake Tahoe Basin, CA and NV	10,000,000
Monongahela NF, WV	450,000
Mount St. Helens NVM, WA	310,000
Nantahala NF, NC	1,250,000
Pisgah NF, NC	375,000
Salmon WSR (Main Stem), ID	1,500,000
Santa Fe NF, NM	1,000,000
Sawtooth NRA, ID	4,000,000
Spruce Knob-Seneca Rocks NRA, WV	1,000,000
Toiyabe NF, NV	4,000,000
Wayne NF, Ohio	1,200,000
White Mountain NF, NH and ME	4,000,000
White River NF, CO	1,000,000
Endangered Species Habitat, CA (condor)	1,600,000
Cash equalization-exchanges	1,070,000
Total	44,493,000

The managers agree that the Service is to use available funds to acquire the Hamilton Wedge tract in the Monongahela NF. No funds are provided for "Weeks Act" acquisitions in the Wayne NF.

With respect to the funds provided for the Allegheny NF, the managers have agreed to include bill language providing for obligation of funds only to the extent that the Secretary deems necessary to carry out the purposes of the Pennsylvania Wilderness Act of 1984.

Funds are provided for acquisition of the Mingus, Palomino Ranch, and Peabody tracts in the Wayne NF, Ohio.

YOUTH CONSERVATION CORPS

The managers have agreed to continue the program within available funds in the U.S. Fish and Wildlife Service, the National Park Service, and the Forest Service.

RANGE BETTERMENT FUND

The managers have deleted Senate language providing for a minimum level of appropriations from the Range Betterment Fund.

ADMINISTRATIVE PROVISIONS

Bill language prohibiting abolishing or changing regions without Committee approval is included.

Language is included requiring advance approval of the House and Senate Appropriations Committees before altering the appropriation structure.

Language is included requiring the personal approval of the Chief of the Forest Service on certain specific documents and instruments.

Language is included regrading adjustment of recreation residence fees. The Forest Service is expected to complete action to resolve this issue as quickly as possible.

DEPARTMENT OF THE TREASURY

ENERGY SECURITY RESERVE

The managers agree to rescind $5,375,000,000 of funds in the Energy Security Reserve previously available to the Synthetic Fuels Corporation. This reduction is in addition to a $2 billion rescission of SFC funds in June, 1984. Of the $8,025,000,000 which remains available for the original purposes of the Corporation, $5,700,000,000 is to be applied to projects which presently have an authorized letter of intent with the SFC on or before June 1, 1984. Eight projects totaling nearly $6,800,000,000 in earmarked assistance are eligible for funding from this $5,700,000,000 set-aside. The agreement provides that if any of these set-aside funds remain available, due to cancellation of projects or for other reason, one half of these funds will be retained to assist other projects which may be supported by the Corporation. The remaining fifty percent of such funds would remain among the assets of the Corporation but shall not be available for obligation. They will, however, remain available for further appropriation by the Congress.

The managers have designated that $750,000,000 of the $5,375,000,000 rescission noted previously is to be placed in a funding reserve entitled the Clean Coal Technology Reserve, solely for the purpose of conducting clean coal demonstration activities such as those eligible for consideration under section 320 of the Senate reported version of H.R. 5973. Annual funding for such activities is subject to appropriation by the Congress. The managers agree that the $750 million placed in reserve for clean coal technology demonstration activities should be used to demonstrate commercial feasibility of technologies and not for ongoing research and development on a small scale. Extensive industrial support would be necessary for this, and the managers have included a cost-sharing requirement in the bill language so that industrial financial commitment is considered as one of the important project evaluation criteria.

The agreement further stipulates that when considering projects for assistance, the Board of Directors are to ignore the national synthetic fuel production goals established in section 125 of the Energy Security Act until the recommended comprehensive strategy for the future of the synthetic fuels program has been completed, adopted by the Board, submitted to and approved by the Congress as required by section 126 of the Act. And, certain changes with respect to public access to information, conduct of board meetings in public, and personal conduct have been incorporated in the bill.

The managers on the part of the House have most reluctantly agreed to delete language prohibiting the use of funds for the Union II and Cathedral Bluffs oil shale projects which it considered to be extravagant and not consistent with the statutory mandate that such projects reflect technological diversity. The House, when it considered the synthetic fuels program, included the prohibition out of concern for the substantial potential outlays with only a limited increase in technological diversity. The managers agree, however, that it is more appropriate for a reconstituted Board of Directors to review these projects rather than have Congressional action preclude further consideration in view of the substantial investment made by the companies to advance the projects this far. The review should consider the extent to which the projects meet

the technological diversity goal and the suspension of the production goals of the Energy Security Act.

DEPARTMENT OF ENERGY

FOSSIL ENERGY RESEARCH AND DEVELOPMENT

Appropriates $280,558,000 for fossil energy research and development instead of $267,558,000 as proposed by the House and $275,633,000 as proposed by the Senate. Changes to the House proposal include increases of $1,000,000 for gas stream cleanup; $1,000,000 for coal liquefaction infratechnology and generic technology development; $500,000 for a study of an integrated coal-fired power train for locomotive applications; $1,250,000 for a high-temperature, high-pressure bench scale research unit for study of composite sorbents; $1,500,000 for operation at higher pressures of the U-Gas agglomerating fluidized bed gasification technique; $1,000,000 for eastern oil shale; $450,000 for western tight gas sands research; $1,000,000 for strategic and critical materials research in conjunction with the Bureau of Mines program; $7,500,000 for the kilngas demonstration and $400,000 for reservior property measurement. The managers have also provided an additional $2,000,000 for the increased and accelerated 11 Mw full height stack test incorporating the most advanced technology available.

Decreases to the House proposal include $1,000,000 for advanced technology development of the phosphoric acid fuel cell; $400,000 for 7.5 megawatt fuel cell technology development; $1,500,000 for magnetohydrodynamics; $1,500,000 for methanol overfiring over coal and $200,000 in the amount provided for tube replacement at an existing DOE atmospheric fluidized bed demonstration in the nation's capital.

The managers agree that there is $1,000,000 each for Carbondale and the Ames Laboratory in the amount provided for coal preparation and $1,000,000 for a laboratory scale demonstration of purged carbon. The amount for Carbondale covers an eight month period. There is a total increase over the budget request of $3,000,000 for eastern oil shale for specific eastern shale research in such areas as expanding the data base, increasing the utilization of fines, for moving bed hydroretorting, to study beneficiation, chemical composition of kerogen, primary and secondary reaction products of eastern oil shale retorting, and for the gasification characteristics of eastern oil shale.

The managers agree that continuation of Congressional support for magnetohydrodynamics can continue only if the private sector moves aggressively to provide significant cost sharing. Although the managers understand that cost sharing would normally be more heavily weighted toward the outyears of the program, cost sharing early in the program's planned schedule must serve to indicate the commitment of the private sector toward development of this technology and set the pace for technology development.

The managers expect that future budget justifications for advanced research and technology development will include only those activities which are truly program cross-cutting. Gasification and liquefaction items, for example, should be budgeted in their respective programs rather than as part of advanced research and technology development.

The managers expect the study of an integrated coal-fired power train for locomotive applications to involve industry, a national laboratory and university participants. No money is available for a slagging combustor test at the Pittsburgh Energy Technology Center.

NAVAL PETROLEUM AND OIL SHALE RESERVES

Appropriates $160,076,000 for Naval Petroleum and Oil Shale Reserves instead of $159,855,000 as proposed by the House and $164,216,000 as proposed by the Senate. Changes from the House level include reductions of $43,000 in headquarters program direction and $96,000 in NPR-3 program direction and an increase of $360,000 for one of the gas wells being drilled on Naval Oil Shale Reserve 3 in order to provide an opportunity to incorporate the Western tight sands research with the well.

ENERGY CONSERVATION

Appropriates $467,969,000 for energy conservation instead of $485,494,000 as proposed by the House and $449,844,000 as proposed by the Senate. In buildings and community systems there is a reduction of $600,000 from the House position for thermally activated heat pumps and $3,500,000 in the amount provided for a district heating retrofit. For industrial programs, the changes to the House position include an increase of $1,000,000 for research and development of sensors and controls, including further research on in-situ analysis of molten metals and separations, an increase of $2,200,000 for capital equipment, and a decrease of $800,000 for organic rankine cycle fluids for bottoming cycle appropriations. The House level for Direct Strip Casting research and development includes $1,000,000 for a second multi-year effort which the department should prepare to cost share through the pilot plant stage if the process proves to be technically feasible.

The transportation programs include a $500,000 increase for lead acid and nickel iron batteries, and $1,000,000 for increased dynamometer and in-vehicle testing of new batteries and vehicle system technologies, and a $1,500,000 decrease for a methanol vehicle demonstration.

There are decreases from the House position in the state and local programs of $5,000,000 for the low income weatherization program and $2,000,000 in the schools and hospitals program. No funds are provided for a pilot fellowship program, a reduction of $1,000,000 from the House position.

In the multi-sector program, there is an increase of $1,925,000 for the energy conversion and utilization technology activity. Program direction is also increased by $250,000 over the House position. There is a reduction of $10,000,000 in the amount made available to establish an energy conservation applied research laboratory at Northwestern University. The $16,000,000 remaining available will provide for design and initial construction of the facility. Presently, there is no research center devoted exclusively to energy conservation like other programs within the Department of Energy. The laboratory will serve as a focus to the energy conservation research programs of the Department, improve their effectiveness and reemphasize the vital role energy conservation must have in our overall energy program. The center will also serve as a focus for technology transfer.

The $1,500,000 made available for district heating is to use the Scranton, PA. system as a laboratory for developing ways to modernize old district heating systems. The $14,000,000 provided for the automotive Stirling engine is for further MOD II design and actual engine fabrication of hardware for the engine.

Language is included as proposed by the Senate to permit state energy office grants and energy extension grants to the Commonwealth of the Northern Mariana Islands, the Federated states of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau.

The methanol vehicle demonstration program provided in the Department of Energy is to be closely coordinated with that begun in the Department of Defense so that the maximum benefit may be derived.

ECONOMIC REGULATION

Appropriates $25,247,000 for Economic Regulation instead of $31,037,000 as proposed by the House and $23,397,000 as proposed by the Senate. There are two decreases to the amount provided by the House; one of $20,000 for the Office of Hearings and Appeals and $5,770,000 for emergency preparedness. Emergency preparedness is being provided for in a new separate appropriation account.

EMERGENCY PREPAREDNESS

Appropriates $6,220,000 for emergency preparedness as proposed by the Senate. A new appropriation account is established for emergency preparedness apart from Economic Regulation and apart from the Strategic Petroleum Reserve. The Secretary is provided with authority to transfer funds to emergency preparedness from other accounts available to the Department of Energy from this bill. Prior notification before any such transfer is expected in keeping with existing reprogramming guidelines.

SPR PETROLEUM ACCOUNT

Appropriates $2,049,550,000 for the SPR Petroleum Account instead of $2,349,550,000 as proposed by the Senate and $2,351,400,000 as proposed by the House. This amount will provide for a fill rate of approximately 159,000 barrels per day.

ENERGY INFORMATION ADMINISTRATION

Appropriates $61,657,000 for the Energy Information Administration instead of $62,057,000 as proposed by the House and $61,563,000 as proposed by the Senate. Changes to the Senate position include a decrease of $1,000,000 for quality maintenance and increases of $644,000 for additional staffing requirements and $200,000 for state heating oil grants. There is also an increase of $250,000 above the Senate amount to design a survey which would gather information for research purposes from industrial sources of emissions of sulfur and nitrogen oxides. EIA is to report to the Congress upon the completion of the survey design on any additional resources which may be required for the conduct of the survey.

The managers agree that the manufacturing energy consumption survey (previously referred to as the industrial consumption survey) shall be conducted in a manner that will protect confidential energy information and will not be overly burdensome on respondents. EIA should continue to work with the Bureau of the Census and others to find the best method to conduct the survey.

The managers also concur that it is important for EIA to be able to continue to collect essential energy information including natural gas data comparable to that included in the "Natural Gas Annual," and insist that the Department and other officials allow EIA to carry out its statutory duties. The managers intend that EIA continue to analyze the data it collects, and to issue timely reports like those it has issued in the past

two years on current developments in the natural gas industry.

The managers agree that enhanced monitoring of No. 2 distillate within the Petroleum Allocation for Defense District I-A and I-B shall be for each state that is participating in the state heating oil grant program.

In addition to the information called for in the House Report, regarding enhanced monitoring, the managers agree that EIA shall include the latest information available to it concerning national, regional, and state distillate production, imports and stocks.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Services Administration

INDIAN HEALTH SERVICES

Appropriates $809,927,000 instead of $817,992,000 as proposed by the House and $796,243,000 as proposed by the Senate.

The net increase over the amount proposed by the Senate includes the following: decreases of $80,000 for the model diabetes program, $180,000 for the village-based clinic program in Alaska, and $2,840,000 general program restoration; and increases of $4,000,000 for emergency medical services, $7,482,000 for mandatory cost increases, $357,000 for hospital and health clinic staff, $125,000 for alcoholism programs, $1,700,000 for contract care, $1,079,000 for preventive health staff, $632,000 for Indian health manpower, and $1,409,000 for program management.

The managers direct that $10,000,000 of the carryover balances in the Medicare/Medicaid fund be used to fund mandatory cost increases in the hospitals and clinics program. The managers agree that the additional staffing funds provided under hospitals and health clinics and preventive health are sufficient to support the number of positions identified in the House report. $125,000 of the increase for the alcoholism program shall be directed to the Warm Spings tribe, making a total of $200,000 for a demonstration program. The managers direct that the contracts for alcoholism research at the Universities of Washington and Oklahoma be continued at the 1984 level.

The managers agree that up to $500,000 shall be made available to develop mental health and substance abuse programs at the Sherman and Phoenix boarding schools. The managers agree that the expanded contract with the Mid-Dakota hospital shall not include any reimbursement for claims submitted in past years which have been denied. The contract shall cover current and future services only.

The managers agree that at least $500,000 shall be available for the Poarch Band of Creek Indians. The service area shall include Mobile County, Alabama in addition to the counties named in the House report.

At the discretion of the Director of the Indian Health Service, such funds as are deemed necessary may be provided to the Seattle Urban Indian Health program from the amounts available for the hepatitis-B program, to meet the health needs of Alaskan Natives residing in that area.

The managers agree that $220,000 of the funds available for Indian health manpower shall be provided for the administrative expenses of the masters in public health program.

Of the increase over the budget estimate provided for program management, $1,000,000 shall be used to initiate a training program and $1,409,000 is provided in partial restoration of the 1984 base level of funding.

The managers direct that no charges for personnel costs associated with the regional operations for facilities engineering and construction be assessed to IHS without prior approval of the House and Senate Appropriations Committees.

INDIAN HEALTH FACILITIES

Appropriates $62,892,000 for Indian health facilities instead of $96,137,000 as proposed by the House and $43,535,000 as proposed by the Senate. The increase over the amount proposed by the Senate consists of $1,027,000 for site work for the Rosebud hospital, $9,910,000 for construction of outpatient care facilities at Kyle, SD, Wolf Point, MT, and Ft. Thompson, SD, $5,000,000 for sanitation facilities, and $3,420,000 for construction of personnel quarters at Crownpoint, NM.

The managers agree that $3,500,000 of the sanitation construction funds shall be used in cooperation with the Navajo and Hopi Indian Relocation Commission program.

The managers remain concerned with the delays in initiating construction projects once funds have been appropriated. The Department is directed to prepare planning information documents annually on the top five construction priority projects and to report to the Committees by February 1, 1985 on other steps which can be taken to streamline the facilities planning and design process. The managers expect timely notification of any adverse impact on the facilities construction program caused by the reorganization of the regional offices of facilities engineering and construction.

ADMINISTRATIVE PROVISIONS

Bill language proposed by the House establishing a floor for full-time equivalent positions has been deleted. The managers have taken this action on the assurance of the Department that no ceilings will be imposed on the Indian Health Service which would impede carrying out the IHS program as funded by the Congress. The Committees will monitor this situation closely to determine if additional action is required.

Bill language proposed by the Senate establishing a limit on contract care payments has been deleted.

Bill language proposed by the Senate allowing Indian Health Service to seek subrogation of claims has been modified to ensure that such action may not be taken if it involves billing of individual beneficiaries.

Bill language proposed by the Senate to allow the use of other than IHS funds for facilities improvements has been included.

DEPARTMENT OF EDUCATION

Office of Elementary and Secondary Education

INDIAN EDUCATION

The managers agree, that to the maximum extent possible, Indian Parent Committees are to be allowed to participate in curriculum decisions. The managers also agree that responsibilities between Indian Parent Committees and Local Educational Agencies should be delineated as in prior years.

OTHER RELATED AGENCIES

Navajo and Hopi Indian Relocation Commission

Appropriates $20,736,000, for salaries and expenses as proposed by the Senate instead of $16,986,000 as proposed by the House.

The net increse of $3,750,000 above the House includes an increase of $3,575,000 for Relocation Operations and $175,000 to be transferred from the requested level for Operation of the Commission to the Discretionary Fund.

Language is included in the bill to establish July 7, 1985 as the deadline for receipt of applications for voluntary relocation instead of June 30, 1985 as proposed by the Senate.

The managers agree that benefits for voluntary relocation shall be available only to those households or individuals who have filed an application with the Commission on or prior to July 7, 1985.

With respect to "involuntary relocatees," the managers believe that it is the responsibility of the Commission to notify those individuals eligible for relocation of the change in the date for applications. After July 7, 1985, those people who have not applied cannot be considered uninformed and therefore are "involuntary relocatees" if they have not made the effort to apply for relocation with the Commission.

Smithsonian Institution

SALARIES AND EXPENSES

Appropriates $165,730,000 instead of $171,699,000 as proposed by the House and $160,271,000 as proposed by the Senate.

The net decrease below the amount proposed by the House consists of the following: increases of $800,000 for computer equipment for the Smithsonian Astrophysical Observatory, and $100,000 for a curator of aquatic habitats; and decreases of $160,000 for Evans Hall exhibitions, $150,000 for tropical reforestation research, $150,000 for vehicle and equipment replacement for the National Zoo, $43,000 for asbestos removal at the Silver Hill site, $80,000 for conservation equipment and staff for the National Museum of American Art, $87,000 for conservation equipment and staff for the National Portrait Gallery, $149,000 for the Hirshhorn Museum and Sculpture Garden, $100,000 for Sackler Gallery acquisitions, $37,000 for the Anacostia Neighborhood Museum, $28,000 for library equipment, $211,000 for the National Museum Act, $831,000 for programs and staffing at the Museum Support Center, $4,414,000 for equipment for the Museum Support Center, $154,000 for equipment for the Office of Protection Services, and $275,000 for personnel costs for the Office of Plant Services.

Three additional positions have been provided for a five year project to remove asbestos from objects stored at Silver Hill. The managers agree that the other three positions required shall be reallocated from base resources. Unbudgeted funds provided for research projects at the National Museum of Natural History include one-time equipment and start-up costs. These one-time costs are not to be reflected in the fiscal year 1986 request. Although no additional funds have been provided for equipping the new Anacostia Neighborhood Museum, the managers expect that these requirements will be met within the amount currently available for construction and the base equipment resources of the Museum.

Bill language earmarks $789,000 to carry out the provisions of the National Museum Act, and $350,000 for the National Symphony and $350,000 for the Washington Opera in connection with their responsibilities as resident companies of the Kennedy Center, an independent bureau of the Smithsonian.

A total of $3,325,000 has been provided for equipment at the Museum Support Center. The estimated costs for collections storage equipment at the MSC have trebled since

the initial estimates were provided in fiscal year 1981; and even though staffing, program, equipment, and move costs have been fully funded for the past four years, the scheduled move of the collections to the Center has fallen two years behind schedule. Furthermore, the existing resources which the Smithsonian had previously identified as being available to absorb some of these additional expenses have not yet been proposed for reallocation to the Center. The managers expect to be informed in a timely manner of any further revisions to the estimates for equipment costs and the scheduled collections move to the MSC.

The managers are greatly concerned by the Institution's seeming inability to accurately estimate costs associated with major construction and equipment programs, especially in view of the aggressive building program the Smithsonian hopes to pursue. For example, the January 1984 5-year plan incuded estimates of $35,000,000 to rehabilitate the old general post office building and $12,000,000 for each pod of the proposed Dulles facility. Two months later, the Smithsonian testified that $40,000,000 and $20,000,000 were the amounts needed for those facilities. The Committees expect to be informed as to what actions the Regents will propose to alleviate concerns generated by estimates such as those and for the MSC equipment.

The managers state their continued adherence to the plan presented by the Smithsonian to the Congress when construction of the Quadrangle Building was presented joining the Sackler Gallery with the Freer Gallery as the center for Asian and Near East art and culture; and the National Museum of African Art as the center for sub-Saharan African art and culture, and expect the Smithsonian to adhere also to that plan.

The Smithsonian requested funds for operation of organizations expected to occupy the Quadrangle structure as a separate budget activity. The managers have agreed to provide funds for these programs in the appropriate budget activity and expect that future justifications will reflect costs associated with programs to be justified within the justification for the proper organization.

CONSTRUCTION AND IMPROVEMENTS, NATIONAL ZOOLOGICAL PARK

Appropriates $4,950,000 as proposed by the Senate instead of $4,150,000 as proposed by the House. The managers agree that none of the available funds should be used for renovations to the Holt House.

RESTORATION AND RENOVATION OF BUILDINGS

Bill language is included under restoration and renovation of buildings allowing the transfer of up to $100,000 to Santa Cruz County, Arizona for repairing of the bridge and rerouting of the access road to the Whipple Observatory as proposed by the Senate.

The managers agree that none of the restoration and renovation funds, or any other funds, may be used for developing the master plan for the proposed construction at Dulles Airport until such construction has been authorized. Funds budgeted in the 1985 request ($135,000) should be reallocated to the next priority renovation project.

NATIONAL GALLERY OF ART

Appropriates $36,821,000 for salaries and expenses as proposed by the Senate instead of $35,603,000 as proposed by the House.

The net increase of $1,218,000 above the House-passed level includes increases of an additional $2,000,000 to support the Treasure Houses of Britain exhibition and $218,000 for utilities, which reduces the budget request for utilities by $300,000, and a decrease of $1,000,000 for renovation of the West building.

The managers have included bill language earmarking $2,000,000 for the Treasure Houses of Britain exhibition.

WOODROW WILSON INTERNATIONAL CENTER FOR SCHOLARS

The managers request that the Board of Trustees of the Woodrow Wilson International Center for Scholars and the Board of Regents of the Smithsonian at their next meeting consider whether the Woodrow Wilson Center should be a part of Smithsonian's proposed international center and under what terms and conditions. The managers request that the two boards report their decision to the Congress. The title of the account for the Woodrow Wilson International Center for Scholars is changed to "Woodrow Wilson International Center for Scholars, Salaries and Expenses".

The bill does not include language and additional funding to establish an Endowment Challenge Fund as proposed by the Senate. The managers agree that before such a fund is established, specific authorization should be enacted.

NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES

NATIONAL ENDOWMENT FOR THE ARTS

GRANTS AND ADMINISTRATION

Appropriates $137,000,000 instead of $144,118,000 as proposed by the House and $132,000,000 as proposed by the Senate. This includes $121,100,000 for program and state grants instead of $127,750,000 as proposed by the House and $118,300,000 as proposed by the Senate; and $15,900,000 for administrative programs instead of $16,368,000 as proposed by the House and $13,700,000 as proposed by the Senate.

The managers agree on the following allocation of funds:

Program grants:	
Artists-in-Schools	$5,450,000
Educational program	100,000
Dance	9,000,000
Design Arts	4,400,000
Expansion Arts	6,850,000
Folk Arts	3,200,000
Inter Arts	4,250,000
Literature	5,250,000
Media Arts	9,250,000
Museums	11,500,000
Music	12,450,000
Opera/Musical Theatre	4,200,000
Locals Test	2,300,000
Theatre	11,000,000
Visual Arts	6,400,000
Advancement	700,000
Subtotal, program grants	96,300,000
State Programs	24,800,000
Subtotal, grants	121,100,000
Administrative area:	
Policy Planning and Research	1,000,000
Regional Representatives	700,000
Administration	14,200,000
Subtotal, administrative area	15,900,000
Total, grants and administration	137,000,000

MATCHING GRANTS

Appropriates $30,000,000 as proposed by the Senate instead of $30,882,000 as proposed by the House. This includes $9,000,000 for Treasury funds and $21,000,000 for challenge grants.

NATIONAL ENDOWMENT FOR THE HUMANITIES

GRANTS AND ADMINISTRATION

Appropriates $111,325,000 instead of $114,964,000 as proposed by the House and $107,975,000 as proposed by the Senate. This includes $97,150,000 for program and state grants instead of $100,982,000 as proposed by the House and $94,500,000 as proposed by the Senate; and $14,175,000 for administrative programs instead of $13,982,000 as proposed by the House and $13,475,000 as proposed by the Senate.

The managers agree on the following allocation of funds:

Program grants:	
Media Grants	$9,100,000
Museums and Historical Organizations	9,000,000
Humanities programs for youth	750,000
Humanities programs for adults	1,450,000
Humanities projects in libraries	3,000,000
Education programs	18,500,000
Fellowships and seminars	14,500,000
Research grants	19,000,000
Subtotal, program grants	75,300,000
State programs	21,850,000
Subtotal, grants	97,150,000
Administrative area:	
Administration	13,475,000
Planning and assessment	700,000
Subtotal, administrative areas	14,175,000
Total, grants and administration	111,325,000

MATCHING GRANTS

Appropriates $31,000,000 instead of $30,036,000 as proposed by the House and $32,000,000 as proposed by the Senate. This includes $11,000,000 for Treasury funds and $20,000,000 for challenge grants.

INSTITUTE OF MUSEUM SERVICES

GRANTS AND ADMINISTRATION

Appropriates $22,000,000 instead of $27,000,000 as proposed by the House and $14,387,000 as proposed by the Senate. The managers agree on the following allocation of funds:

General operating support grants	$17,574,000
Conservation grants	3,500,000
Museum Service Board	76,000
Program administration	850,000
Total	22,000,000

No funds are provided for a "National Capital Region Arts and Cultural Affairs Program." The managers are concerned that the Director of the Institute and staff,

as part of an effort to discredit the concept, took numerous actions that appear to violate Section 304 of Public Law 98-146 and the provisions of 18 U.S.C. 1913. Before referring this to the Attorney General, the managers want a full explanation of the actions of the IMS Director and staff in connection with this matter.

COMMISSION OF FINE ARTS

Appropriates $380,000 for salaries and expenses as proposed by the Senate instead of $379,000 as proposed by the House.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

Appropriates $1,578,000 for salaries and expenses as proposed by the House instead of $1,611,000 as proposed by the Senate.

NATIONAL CAPITAL PLANNING COMMISSION

Appropriates $2,725,000 for salaries and expenses as proposed by the House instead of $2,735,000 as proposed by the Senate.

PENNSYLVANIA AVENUE DEVELOPMENT CORPORATION

Appropriates $2,300,000 for salaries and expenses instead of $2,229,000 as proposed by the House and $2,330,000 as proposed by the Senate.

The increase of $71,000 above the amount proposed by the House is for one-time relocation expenses.

UNITED STATES HOLOCAUST MEMORIAL COUNCIL

Appropriates $2,031,000 for the Holocaust Memorial Council instead of $1,976,000 as proposed by the House and $2,051,000 as proposed by the Senate.

The net increase of $55,000 above the amount provided by the House is to be utilized for the Museum Education Development Component ($160,000) and maintains the Museum Archives and Research Development component at the requested level ($245,000).

TITLE III—GENERAL PROVISIONS

The managers have agreed to delete the House provision which prohibited use of funds for additional A-76 contracting unless funds for studies had been specifically budgeted and approved for such studies. The managers have been assured by the Office of Management and Budget and the Department of the Interior that studies will look only at activities involving more than 10 full-time equivalents and that studies underway on activities involving fewer than 10 full-time equivalents must show savings significantly greater than the cost of completing the study. No new studies of activities involving less than 10 full-time equivalents will be initiated. The managers agree that the study related to road maintenance at Glacier National Park (which involves 10.2 full-time equivalents) should be discontinued.

Sec. 305. Provides for a continued prohibition on the enforcement of steel shot regulations by the Department of the Interior in any State without such states' approval until state and flyway specific base-line criteria are promulgated by the Department. The managers hope that the Department of the Interior's ongoing consultative process, involving states, flyway groups, sportsmen and wildlife groups and others, will produce a consensus proposal, reflecting the public comment and the value of scientific data.

Sec. 308. Provides for a continuation of the prohibition on the use of funds to process or issue leases for coal, oil, gas, oil shale, phosphate, potassium, sulfur, gilsonate, or geothermal resources on wilderness lands and Forest Service RARE II further planning an Bureau of Land Management wilderness study areas.

Sec. 314. Provides no deer hunting on Loxahatchee NWR.

Sec. 315. Provides that the Department of the Interior and the Forest Service, when contracting for private air services, must use FAA certified aircraft unless the Secretary determines such aircraft are not available.

Sec. 316. Provides certain restrictions on the use of funds for the designation, management, or enhancement of grizzly bear habitat on National Park System or National Forest System lands.

Sec. 317. Provides for the transfer of certain lands on Guam from the General Services Administration to the Department of the Interior.

Sec. 318. Provides for the development of an inventory of waterfowl production areas in North Dakota under easement. The managers will review progress on the North Dakota waterfowl production area easement quantification project in conjunction with the fiscal year 1986 budget process, and will consider necessary funding and staffing requirements at that time.

Sec. 319. Provides for the extension of certain leases under the Geothermal Steam Act of 1970 and prohibits geothermal leasing in the Island Park area.

Sec. 320. Establishes funds within various agencies funded by the Act for deposit of collections from quarters rentals to be used for operation and maintenance of such quarters.

Sec. 321. Provides for the Secretary of Energy to solicit private sector interest in the cost-shared construction of facilities employing clean coal technologies.

The managers have deleted language proposed by the Senate which amended the Indian Elementary and Secondary School Assistance Act. This provision was included in Public Law 98-396, the Second Supplemental for FY 1984.

Sec. 322. Provides for travel payments to firefighters from their official duty station to the fire event and return to their official duty station.

Sec. 323. Expresses the sense of the Congress that the Continental Scientific Drilling Program is an important national scientific endeavor benefiting the Commerce of the Nation.

Sec. 324. Amends the Surface Mining Reclamation and Control Act to include a subsidence insurance program as one of the purposes for which funds in the Abandoned Mine Reclamation program may be used. The managers agree that a subsidence insurance program shall not increase the liability of the United States for subsidence.

Sec. 325. Provides certain leasing restrictions on a 960 acre tract in Payne County, Oklahoma.

Sec. 326. Eliminates matching share requirements under Section 407(e) of the Surface Mining and Control and Reclamation Act of 1977 for acquisition and relocation in Centralia, Pennsylvania.

Sec. 327. Provides for a two percent reduction in budget authority, to be applied ratably to every account program, activity, and project funded in this Act.

Amendment No. 5: Agrees to the House level for the Mary McLeod Bethune "Council House." This matter is addressed in Amendment No. 4.

Amendment No. 6: Provides travel costs for Forest Service fire fighters to and from official duty stations. This matter is addressed in Amendment No. 4.

Amendment No. 7: Prohibits geothermal leasing in the Island Park area west of Yellowstone National Park. This matter is addressed in Amendment No. 4.

Amendment No. 8: Provides $100,000, on a matching basis, to develop a habitat preservation plan for North Key Largo in cooperation with the State of Florida and private landowners. This matter is addressed in Amendment No. 4.

Amendment No. 9: Adds $536,000 for a wetlands demonstration project on the Des Plaines River. This matter is addressed in Amendment No. 4.

Amendment No. 10: Deletes additional $300,000 earmarking to accelerate renovation and rehabilitation of the William Howard Taft home proposed by the Senate. $200,000 is provided for this work under Amendment No. 4.

Amendment No. 11: Agrees to the House level of $1,000,000 for the Milk River Irrigation Project. This matter is addressed in Amendment No. 4.

Amendment No. 12: Agrees to language setting forth requirements to be met prior to establishing new grizzly bear habitats; requiring public participation; and requiring detailed budget information. This matter is addressed in Amendment No. 4.

Amendment No. 13: Extends the time for the Bureau of Land Management to complete land segregation until the Department of the Navy withdrawal application is acted upon by the Congress. This matter is addressed in Amendment No. 4.

Amendment No. 14: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which forgives interest payments and establishes a bond repayment fund for the John F. Kennedy Center. Such payments will be made from parking revenues.

Amendment No. 15: Deletes the additional $250,000 proposed by the Senate to be earmarked for a study of Pacific Northwest salmon stock production. Amendment No. 4 provides $250,000 and requires the study to be conducted within six months.

Amendment No. 16: Agrees to the House level of $2,000,000 for land acquisition within the Allegheny National Forest. This matter is addressed in Amendment No. 4.

Amendment No. 17: Exempts the state of Pennsylvania from the matching requirements for the Centralia fire relocation program. This matter is addressed in Amendment No. 4.

LABOR/HHS/EDUCATION RATE OF OPERATION

Amendment No. 18: Inserts language providing for funding of programs, projects or activities provided for in the Departments of Labor, Health and Human Services and Education and Related Agencies Appropriation Act, 1985 (H.R. 6028), to the extent and in the manner provided for in the conference report and joint explanatory statement of the Committee of Conference (House Report Numbered 98-1132), filed in the House of Representatives on October 3, 1984, as if such Act had been enacted into law, and continues the language of the 1984 appropriation Act with respect to voluntary school prayer and payments for abortions, which is identical to the language in sections 204 and 307 of H.R. 6028 as passed the House. The House resolution contained language which provided for funding for Labor, Health and Human Services, and Education programs at the rate provided in H.R. 6028 as passed the House. The Senate resolution contained language which provided for

funding at the rate of the Senate-passed bill. In addition, an appropriation of $4,000,000 is provided, as proposed by the Senate, for the United States Institute for Peace recently authorized in the Department of Defense Authorization Act for 1985. The House resolution contained no provision with regard to the Institute.

NATIONAL LIBRARY OF MEDICINE

Amendment No. 19: Appropriates $3,500,000 for the National Library of Medicine instead of $7,400,000 as proposed by the Senate. The House resolution contained no similar provision.

SUMMIT CONFERENCE ON EDUCATION

Amendment No. 20: Deletes $500,000 proposed by the Senate for expenses related to a national summit conference on education. The House resolution contained no similar provision.

ALCOHOL, DRUG ABUSE AND MENTAL HEALTH

Amendment No. 21: Appropriates $2,500,000 for alcohol, drug abuse and mental health instead of $9,000,000 as proposed by the Senate. The House resolution included no similar provision. The conferees are agreed that the additional funds provided are for state planning grants authorized by the Alcohol, Drug Abuse and Mental Health Amendments of 1984.

REFUGEE RESETTLEMENT SYSTEMS

Amendment No. 22: Inserts language proposed by the Senate which authorizes demonstration projects to test alternative refugee resettlement systems. No similar provision was included in the House resolution.

MILITARY CONSTRUCTION

Amendment No. 23: Appropriates $8,405,206,000 for military construction for the Department of Defense for the fiscal year ending September 30, 1985, instead of $8,258,471,037 as proposed by the House and $8,535,946,000 as proposed by the Senate.

ITEMS OF GENERAL INTEREST

Alternate construction methods.—The House and Senate both included language urging the Department to continue to explore various alternate construction methods. The conferees reiterate that the Department is to continue to explore all areas mentioned in both the House and Senate reports. Each Service is to identify and report on at least one project to be performed under performance specification and turnkey methods in both fiscal year 1985 and fiscal year 1986. A report on all initiatives to explore alternate construction methods, which includes estimates of potential cost savings and specific recommendations on legislative actions, should be submitted by January 31, 1985.

Architect and engineer liability.—The conferees urge the continued vigorous pursuit by the Department of instances of potential architect and engineer liability. Although the amounts actually obtained have increased, they remain small in relation to the amounts sought. The Department is to devote all the legal resources necessary to fully pursue all instances of potential architect and engineer liability.

Reprogramming criteria.—The conferees have agreed to continue all existing reprogramming criteria for military construction projects. The conferees agree that the existing reprogramming criteria apply to all military construction projects, including those estimated to cost less than $1,000,000. The Fiscal Year 1985 Military Construction Authorization Act (P.L. 98-407, Section 802) authorizes the Services to pay any deficiency judgment awarded by a court for land condemnations from funds available for military construction without regard to limitations on the agreed price for the land. The conferees direct that all land acquisition projects shall continue to be governed by existing reprogramming criteria, which require that prior approval be obtained before any payments above existing thresholds are made.

New family housing construction projects are to be governed by the same rules that govern military construction projects. The family housing improvement projects over $3,000,000 are to be governed by the same criteria as military construction projects. The operation and maintenance accounts continue to be governed by the same rule established last year. The conferees are also agreed that the clarification of this rule relating to cumulative transfers as outlined in the House report is to be put into effect. In addition to these requirements, the conferees have added a new rule on transferring funds between or among the subaccounts of the operations accounts as follows: The transfer of any amount in excess of 25 percent or $3,000,000, whichever is less, shall be reported to the Committees within 30 days of such action.

Energy.—The conferees are concerned that the Air Force is ignoring the requirement to review all construction projects for potential solar energy applications and direct that they submit a report by January 31, 1985, detailing efforts made to pursue solar energy applications on military construction projects. The conferees urge the Navy to expeditiously complete ongoing studies of potential sites for development of geothermal energy and also expect that the NWS China Lake, California, project will be on line by September of 1985 and that the NAS Fallon, Nevada, project will be on line by late 1986. In addition, the Department should follow the direction of the Senate report concerning ceiling fans.

Dependents overseas.—The conferees are concerned about the growing number of dependents at overseas locations, not only because of the high cost of supporting them, but also because of inability of the United States to evacuate them in a contingency situation. The conferees direct that a report on this subject as outlined in the Senate report be submitted not later than January 31, 1985. The conferees further direct that the preparation of this study not be contracted out to a private firm.

U.S. construction in Europe.—The conferees agree with the House position that not enough has been done by the U.S. Government to stimulate U.S. business participation in NATO infrastructure and unilaterally funded military construction projects in Europe. The conferees direct that an ombudsman-type office be established immediately to facilitate U.S. business participation in these projects. The conferees have taken additional steps to promote U.S. business participation in European construction projects, which are outlined in other sections of this report.

Commerce Business Daily notification.—The conferees direct that, effective immediately, all U.S. funded military construction projects throughout the world over $5,000,000 are to be advertised in the Commerce Business Daily. In addition, all internationally bid NATO infrastructure projects and clustered projects over $5,000,000 are to be advertised in the Commerce Business Daily. These notifications are to contain a contact point with U.S. Government personnel familiar with the project in addition to other pertinent information.

Persian Gulf construction program.—The conferees direct that contracts on all approved military construction projects over $5,000,000 in fiscal year 1984 and fiscal year 1985, including Morocco, are to be let under the existing American preference policy. In addition, the conferees direct the Department to submit by January 31, 1985, a report detailing all known and anticipated operation and maintenance costs to the U.S. for our facilities in Diego Garcia, Egypt, Kenya, Morocco, Oman, and Somalia.

Family housing construction improvements.—The conferees have agreed to retain the $30,000 limit on improvements to foreign source units. The conferees have also agreed that all future requests for improvement projects are to clearly indicate the amounts spent on the given units in the previous three years and the amounts planned in the following three years. The conferees also note the application of existing criteria for reprogramming to construction improvement projects over $3,000,000. This will allow for close monitoring of actual costs. The conferees also note that both House and Senate reports contained similar restrictions on the approval of projects within this lump sum account which are to be followed. Existing rules on classification of expenditures between the maintenance and improvements accounts are to continue in effect. The Services should strive for an 85% execution rate in this account. Funds for a given project should not be requested if it is deemed unexecutable in the budget year at the time of the budget submission.

Family housing maintenance.—The conferees are agreed that the details of any proposed expenditure which would exceed $15,000 per unit per year for maintenance and repair is to be identified as part of the justification material for this account. The conferees direct that a report be submitted no later than January 31, 1985, detailing all actual expenditures in the fiscal years 1983 and 1984 from the maintenance account where more than $15,000 per unit has been expended on general or flag officer quarters. In addition, the conferees direct that operations and maintenance expenditures on all general or flag officer quarters are limited to $25,000 per year unless specifically approved by the Committees on Appropriations. A list of affected units where expenditures are anticipated to exceed $25,000 in fiscal year 1985 should be submitted no later than January 31, 1985. The Services' cooperation in implementing these new restrictions will determine whether additional restrictions are required next year.

The conferees also direct the Department to submit an initial plan on historic structures called for in the House report by March 1, 1985.

Power generation.—If the military establishes a generation facility or goes outside the local public utility system for power, the military is encouraged to take into account the impact upon the remaining electric consumers and to therefore coordinate with the current local provider of electric services to mitigate the adverse rate impact to those remaining consumers.

Matters addressed by only one committee.—The reports of both the House and the Senate contain items addressed by only one committee. Unless otherwise indicated in this conference report, those items are approved by the committee of conference.

MILITARY CONSTRUCTION, ARMY

The conferees agreed to the appropriation of $1,593,137,000 for Military construction, Army, instead of $1,606,350,000 as proposed by the House and $1,640,177,000 as proposed by the Senate. The amount of $153,500,000 is earmarked for planning and design purposes. The conferees have agreed to the following additions and deletions to the amounts and line items as proposed by the House:

Alaska—Fort Richardson: Dining facilities modernization	+$1,700,000
Arizona—Fort Huachuca: General instruction building	+500,000
California—Fort Irwin: Cold storage facility	+1,850,000
Colorado—Fort Carson: Range roads	+250,000
Georgia—Fort Stewart/Hunter AAF: Physical fitness training center	+1,363,000
Indiana—Fort Benjamin Harrison: Barracks	+13,400,000
New York—Fort Drum: Physical fitness training center	+968,000
North Carolina—Fort Bragg: Security operations training facility	+38,000,000
Oklahoma—Fort Sill: Physical fitness training center	+800,000
Pennsylvania—New Cumberland Army Depot: Site acquisition and preparation	+6,550,000
South Carolina—Fort Jackson: Applied instruction facility	+10,200,000
CONUS Classified	+1,000,000
Germany:	
Ansbach:	
Aircraft maintenance facility (Katterbach Kaserne)	+19,000,000
Ammunition storage	−730,000
Europe Various: Ammunition storage Phase 1	[1]−670,000
Fulda: Military clothing sales store	−360,000
Giessen:	
Barracks	+12,000,000
Utilities	+3,900,000
Hanau: Physical fitness training center	−884,000
Mainz: Ammunition storage	[1]−870,000
Nuernberg: Ammunition storage	[1]−1,150,000
Wuerzburg: Ammunition storage	[1]−530,000
General reduction	−130,000,000
Exigent minor construction	+4,000,000
Planning and design	+6,500,000
Total	−13,213,000

[1] Failed authorization.

The conferees agreed to fund all other items in conference at the level proposed by the House, as shown below:

California—Fort Ord: Military operations inurbanized terrain	$4,500,000
Maryland:	
Aberdeen Proving Ground: Unaccompanied enlisted personnel housing	17,800,000
Fort Detrick: Medical logistics building addition	3,100,000
New York—Fort Drum: Central heating plant	$13,000,000
Pennsylvania—Fort Indiantown Gap: Electric substation	2,500,000
Texas—Corpus Christi Army Depot: Composite blade test facility	2,200,000
Virginia:	
Fort Belvoir:	
Communications facility	17,200,000
Computer systems development facility	0
Fort Pickett: Heating plant	2,400,000
Germany:	
Ansbach:	
Aircraft parking apron (Storks Barracks)	0
Ammunition storage	1,500,000
Barracks	0
Dining facility	0
Tactical equipment shop	0
Utilities	0
Aschaffenburg: Ammunition storage	780,000
Fulda: Ammunition storage	1,850,000
Giessen:	
Battalion headquarters	0
Tactical equipment shop	0
Rheinberg: Purchase of support facilities	0
Schweinfurt: Ammunition storage	930,000
Wuerzburg: Ammunition storage	510,000

Kentucky—Lexington-Blue Grass Army Depot: Demilitarization facility.—The conferees have agreed to include language in the bill preventing use of funds in this Act for construction of a chemical munitions demilitarization facility at this location.

New York—Fort Drum: Central heating plant.—The conferees agreed to fund the $13,000,000 heating plant proposed by the House. However, the Army is to assure the Committees on Appropriations that the facility will be constructed in a manner to use the most fuel efficient heating methods.

Virginia—Fort Belvoir: Computer systems development facility.—The conferees have deferred funding for the $31,200,000 computer facility planned at Fort Belvoir, Virginia. The Army is to reexamine the scope of this project and come forward with a less costly facility.

Germany—Ansbach (Katterback Kaserne): Aircraft maintenance facility.—The conferees have provided $19,000,000 for a maintenance facility at Katterbach Kaserne in Ansbach, Germany, as a prefinanced NATO infrastructure project. The conferees understand that this project will become eligible in the next NATO infrastructure program and expect the Department to immediately pursue recoupment. Prefinancing this project was deemed necessary due to the need to free up space for other relocations associated with force modernization in Germany.

Germany—Ansbach (Storks Barracks): Aircraft parking apron.—The conferees have not recommended fiscal year 1985 appropriations for the $12,000,000 aircraft parking apron at Storks Barracks in Ansbach, Germany. It appears that funding for army airfields will be included in the next NATO infrastructure program. The conferees endorse the use of NATO infrastructure funds for this project; however, if the project does not become NATO eligible, a future appropriations request would be considered.

Germany—Fulda: Military clothing sales store.—The conferees have agreed to fund the $360,000 requested for a military clothing sales store at Fulda, Germany, through minor construction funds, as indicated in the Senate report.

Germany—Giessen: Various projects.—The conferees have agreed to fund a $12,000,000 barracks and a $3,900,000 utility heating plant at Giessen, Germany. These projects were in question because of the Army's plan to deploy DIVAD at Giessen. However, the Army has now stated that these projects are needed regardless of the type of air defense system deployed. The conferees have not funded the proposed $1,550,000 battalion headquarters and $11,600,000 tactical equipment shop. These projects should be submitted following decisions on DIVAD deployment.

Germany—Rheinberg: Purchase of support facilities.—The conferees have agreed to defer without prejudice the $13,100,000 authorized to purchase a former rug factory for a support facility at Rheinberg, Germany. The Department is to seek funding for this project at the highest level of the Government of the Federal Republic of Germany. Additionally, further review of this project in terms of NATO infrastructure funding is to be considered. Although the initial phase requested for this project is only $13 million, the project initiates a new army base in Europe that will involve 6,000 U.S. active duty personnel and dependents. Additionally, the Army envisions hiring more than 1,000 German nationals to work on the base. Although the conferees recognize the merits of the administrative functions of this facility, there is a need to share the U.S. burden for its costs. The conferees agreed that the Army may proceed with design related to this project.

Germany—Vilseck: Master restationing program.—The conferees agreed to release $23,500,000 in prior-year funds for the construction of facilities at Vilseck, Germany. The conferees further agreed that the funds were released in order to support force modernization in Europe and should not be seen as a weakening in the House/Senate feeling that funds should be sought from the Republic of Germany for the master restationing plan. The conferees feel that the Government of Germany should help share the costs of moving U.S. troops forward in Germany. The Vilseck projects were released in order to complete construction of the first phase of a force modernization program, which would be delayed and more costly if undertaken at other locations. The conferees direct the Army to continue its efforts to obtain funding from Germany for the master restationing plan.

Indoor swimming pools.—The conferees have agreed to fund indoor swimming pools at Fort Steward, Georgia ($1,363,000); Fort Drum, New York ($968,000); and Fort Sill, Oklahoma ($800,000). However, the Army is to first examine each of these projects to determine whether alternate construction methods could be used to enclose existing pools or to construct the pools proposed in fiscal year 1985. The funding for the indoor pools was provided based on the Army's claim that they were needed for training purposes. The conferees agreed that the construction of indoor pools should not

become a part of the military construction program unless they are absolutely necessary for training.

Planning and design.—The conferees have agreed to fund Army planning and design at a level of $153,500,000 instead of the $147,000,000 proposed by the House and the $160,000,000 proposed by the Senate. The funds above the House amount have been provided to meet requirements associated with the stationing of the new light infantry divisions. The additional funds are not to be used to develop full design for mobilization projects, as discussed in the House report.

MILITARY CONSTRUCTION, NAVY

The conferees agreed to the appropriation of $1,534,592,000 for Military construction, Navy, instead of $1,449,442,000 as proposed by the House and $1,550,242,000 as proposed by the Senate. The amount of $140,900,000 is earmarked for planning and design purposes. The conferees have agreed to the following additions and deletions to the amounts and line items as proposed by the House:

Arizona—MCAS Yuma: Unaccompanied enlisted personnel housing	+$900,000
California:	
MCAGCC Twentynine Palms: Battalion headquarters	+1,900,000
MCAS El Toro: Land acquisition	+3,500,000
MCB Camp Pendleton: Unaccompanied enlisted personnel housing	+1,000,000
MCRD San Diego: Unaccompanied enlisted personnel housing	+500,000
NAS North Island: Maintenance hangar	+5,190,000
NH San Diego: Access road	+2,200,000
NS Mare Island: Unaccompanied enlisted personnel housing	−600,000
NS Treasure Island: Brig	[1] −13,600,000
NSB San Diego: Pier extension	+19,500,000
PMTC Point Mugu: Electrical & electronics systems lab	+1,700,000
Connecticut—NH Groton: Hospital expansion	[1] −8,900,000
District of Columbia—CND Washington: Administrative office	[1] −2,000,000
Hawaii—NSB Pearl Harbor:	
Unaccompanied enlisted personnel housing	+1,000,000
Unaccompanied officer personnel housing	+640,000
Maine—NAS Brunswick: Land acquisition	+2,170,000
Maryland—NAVACAD Annapolis: Boat repair facility modernization	+200,000
Michigan—NRTF Republic: Access road	+1,000,000
Mississippi—NAS Meridian:	
Arm/dearm pads	+1,300,000
Air operations building addition	+820,000
Roads	+750,000
Nevada—NAS Fallon:	
Unaccompanied enlisted personnel housing	+12,900,000
Unaccompanied officer personnel housing	+8,100,000
South Carolina:	
NSY Charleston: Logistics support facility	+5,800,000
Waterfront services support building	+1,830,000
NSC Charleston: Data processing center	+2,700,000
Virginia—LANTFLT HQ Support Activity Norfolk: Operations command center addition	+3,000,000
Virginia—Naval Safety Center Norfolk: Naval safety center	+3,000,000
Iceland:	
NF Keflavik: Terminal equipment building addition	+$2,620,000
NS Keflavik: Fuel facilities	+7,000,000
Italy—NAS Sigonella: Unaccompanied officer personnel housing	+500,000
Spain:	
NH Rota: Hospital	+15,000,000
NS Rota: Unaccompanied officer personnel housing	+910,000
United Kingdom—FOCCE London: Fleet command center	+2,620,000
Total	+85,150,000

[1] Failed authorization.

The conferees agreed to fund all other items in conference at the level proposed by the House, as shown below:

California—PMTC Point Mugu: Unaccompanied personnel housing (San Nicholas Island)	$4,500,000
Connecticut—NSB New London: Operational trainer facility	4,250,000
Florida—NAS Whiting Field: Parking apron	2,100,000
Maine—NSY Portsmouth: Engineering management building	0
Nevada—NAS Fallon:	
Maintenance hangar	0
Aircraft direct fueling station	0
North Carolina—MCAS Cherry Point: Engine test cell	9,700,000
Pennsylvania—NSY Philadelphia: Electrical distribution system	12,600,000
South Carolina—NS Charleston: Fleet support center	0
Guam—NAVCAMSWESTPAC Guam: Theater	0
Iceland—NS Keflavik: Combined operations center	4,000,000
Italy—NAS Sigonella: Automotive vehicle maintenance shop	1,340,000
Spain—NS Rota:	
Engine test cell	5,000,000
Pier extension	0
United Kingdom—NAVACT London: Fleet hospital facilities (RAF Locking)	[1]
Overseas various—NATO infrastructure support	0

[1] Failed authorization.

Access roads.—The conferees have agreed to fund the three requested access road projects as separate projects. The funds approved for these projects are provided under the same reprogramming rules as separate military construction projects.

California—MCAS El Toro: Land acquisition.—The conferees have agreed to provide $3,500,000 for this land acquisition. This amount represents a more equitable appraisal of the land's actual value. The Marine Corps is to seek to purchase this land within the funds available.

California—NWS Concord: Access road.—The conferees direct the Navy to fund this project at $500,000 with minor construction funds.

Maine—NSY Portsmouth: Engineering management building.—The conferees have not provided funds for this project as it is unexecutable in fiscal year 1985 due to lack of design. The Navy is to put this project under design so that it may be funded in a future construction program.

Nevada—NAS Fallon: Air Strike University.—The conferees have agreed to fund $21,000,000 for projects associated with the establishment of Air Strike University at NAS Fallon, Nevada. The Committees have always been responsive to urgent requirements that occur after the budget submission. However, the initiation of a major program through additions to the budget at the congressional level is highly unusual. The Committees will entertain reprogramming requests for the two unfunded projects when they are ready for execution.

Virginia—LANTFLT HQ Support Activity Norfolk: Operations command center addition.—The conferees have approved $21,000,000 for this project. The Navy should either reduce the scope of this facility or seek additional NATO funds, as the amount provided is a ceiling.

Guam—NAVCAMSWESTPAC Guam: Theater.—The conferees have not provided funds for the theater, but direct that it be constructed using nonappropriated funds.

Spain—NH Rota: Hospital.—The conferees have agreed to provide $15,000,000 for this project. The Navy is to do whatever is necessary to construct this facility within the amount provided.

NATO infrastructure support.—The conferees have not provided the $2,790,000 requested for this purpose and direct the Navy to submit a reprogramming request for these projects.

SANTA MARGARITA WATER PROJECT

The conferees have not provided any of the funds requested for the Santa Margarita water project due to the lack of authorization. The conferees direct that no funds to initiate design be obligated unless legislation is enacted to fully authorize this project.

MILITARY CONSTRUCTION, AIR FORCE

The conferees agreed to the appropriation of $1,572,655,000 for Military construction, Air Force, instead of $1,543,225,000 as proposed by the House and $1,635,818,000 as proposed by the Senate. The amount of $143,900,000 is earmarked for planning and design purposes. The conferees have agreed to the following additions and deletions to the amounts and line items as proposed by the House:

California:	
Edwards AFB: Add/alter headquarters center command post	[1] −$980,000
George AFB: ECIP-Install radiant heaters	[1] −480,000
Vandenberg AFB: STS-Launch support facilities	+2,450,000
Colorado—US Air Force Academy: Add/alter cadet dining hall	+7,500,000
Florida—MacDill AFB: Satellite communication ground terminal	+2,600,000

Georgia—Robins AFB:	
Hazardous materials storage facility	+9,000,000
Indiana—Grissom AFB:	
Aircraft maintenance shop	−400,000
Base Civil Engineer complex	−100,000
Kansas—McConnell AFB:	
Visiting officer quarters	[1] −3,500,000
Louisiana—England AFB:	
Aircraft maintenance area lighting	−600,000
Base Civil Engineer administrative facility	[1] −1,700,000
Maine—Loring AFB: Composite medical facility	+2,500,000
Michigan:	
K.I. Sawyer AFB: ALCM-Igloo	+2,500,000
Wurtsmith AFB:	
ALCM-Igloo	+2,500,000
Library	−700,000
Mississippi:	
Columbus AFB: Aircraft maintenance dock	+$5,000,000
Keesler AFB: Electrical distribution	+3,000,000
Nebraska—Offutt AFB: Unaccompanied enlisted personnel housing	+5,400,000
New Mexico:	
Cannon AFB: Weapons maintenance facility	+1,700,000
Holloman AFB: Water lines-Boles wells	+3,200,000
North Dakota:	
Grand Forks AFB: Small arms range	[1] −1,300,000
Minot AFB:	
Add/alter gymnasium	[1] −560,000
Alter unaccompanied enlisted personnel housing	[1] −4,350,000
Hospital	+27,500,000
South Carolina—Shaw AFB: Add/alter gymnasium	+2,100,000
South Dakota—Ellsworth AFB: Security police facility	−650,000
Texas:	
Bergstrom AFB: ECIP-Alter lighting/mechanical systems	[1] −1,100,000
Brooks AFB: Directed energy laboratory	+500,000
Randolph AFB: Unaccompanied officer personnel housing	−300,000
Washington—Fairchild AFB:	
Security police facility	[1] −2,600,000
Squadron operations facility	[1] −4,000,000
Wyoming—F.E. Warren AFB:	
MX-Launch facilities site work	+2,000,000
MX-Launch facility trainer (silo)	+3,900,000
MX-Real estate acquisition	+700,000
MX-Upgrade roads and highways	+10,000,000
Italy—Comiso:	
GLCM-Child care center	−700,000
GLCM-Clothing sales	−510,000
GLCM-Library	[1] −210,000
Japan—Misawa AB: F16-Jet fuel storage	+4,400,000
Philippines—Clark AB: Add/alter passenger terminal	−4,200,000
United Kingdom—RAF Greenham Common:	
GLCM-Library	−600,000
Overseas Various—Chemical warfare protection	+8,520,000
General reduction	−50,000,000
Minor construction	+2,000,000
Total	+29,430,000

[1] Failed authorization.

The conferees agreed to fund all other items in conference at the level proposed by the House, as shown below:

Alabama—Maxwell AFB: Alter dormitories	$1,800,000
Arkansas—Blytheville AFB: Alert taxiway barrier	960,000
California:	
Mather AFB: Vehicle maintenance building	5,800,000
Vandenberg AFB: STS-South Base powerplant	0
Colorado:	
Peterson AFB: NORAD & Space Command headquarters	19,000,000
US Air Force Academy: Add/alter cadet gymnasium	0
Florida:	
Eglin AFB Auxilliary Field 9: Consolidated support center	5,750,000
Eglin AFB: High explosive research center	4,500,000
Tyndall AFB: Aircraft general purpose shop	3,450,000
Michigan:	
K.I. Sawyer AFB: Aircraft parking	(1)
Wurtsmith AFB: Aircraft parking	(1)
Missouri—Whiteman AFB:	
Missile operations facility	2,200,000
Recreation center	1,650,000
Montana—Malmstrom AFB: Add/alter gymnasium	1,500,000
New York:	
Griffiss AFB: Range	750,000
Plattsburgh AFB: Alter unaccompanied enlisted personnel housing	2,900,000
Ohio—Wright-Patterson AFB: Add to Air Force Museum	5,400,000
Virginia—Langley AFB:	
Antisatellite-Administrative building	0
Antisatellite-Control center	0
Antisatellite-Cryogen storage and processing facility	0
Antisatellite-Hydrazine storage	0
Antisatellite-Integrated maintenance facility	0
Antisatellite-Missile and motor storage facility	0
Wyoming—F.E. Warren AFB: MX-Impact assistance funds	0
CONUS Unspecified—Real estate for GWEN facilities	0
Guam—Andersen AFB:	
Alter unaccompanied enlisted personnel housing	6,900,000
Small parts corrosion control facility	892,000
Italy—Comiso: GLCM-Armed Forces Radio & TV Service	1,155,000
Japan—Misawa AB: F16-Upgrade apron pavement	0
Turkey:	
Incirlik AB: Second echelon medical storage facility	(1)
Mus AB:	
Air cargo ramp	0
Ammunition igloos	0
Ammunition maintenance and inspection	0
Arrestor gear	0
Dispersed aprons/taxitracks/paralled taxiways	0
Hangar	0
POL storage/distribution	0
Water supply and distribution	0
Minor land	130,000

[1] Failed authorization.

California—Vandenberg AFB: South Base power plant.—The conferees have denied $15,950,000 requested for the new power plant for Vandenberg AFB. The Air Force is to reevaluate this project and investigate the feasibility of using private company power capabilities and/or the updating of the current backup power generators.

Colorado—US Air Force Academy: Add/alter cadet dining hall and gymnasium.—The conferees have agreed to fund the cadet dining hall project at the US Air Force Academy at a level of $7,500,000 instead of the $13,100,000 requested. The conferees believe that this is sufficient funding to take care of the warehouse and cold storage needs included in the original request. No funding has been provided for the requested $10,000,000 gymnasium project. The Air Force is to follow the House guidance and reduce the scope and costs of this project.

Maine—Loring AFB: Composite medical facility.—The conferees have agreed to fund the Loring AFB hospital at the amount of $22,500,000 instead of the $20,000,000 proposed by the House or the $24,900,000 proposed by the Senate. The Air Force is to reexamine the number of acute care beds planned for this hospital and make reductions as recommended in the House report.

Michigan—K.I. Sawyer AFB: Aircraft parking.—The conferees agreed that the $600,000 aircraft parking project at K.I. Sawyer AFB should be funded through the Air Force minor construction program.

Michigan—Wurtsmith AFB: Aircraft parking and library.—The conferees agreed that the $600,000 aircraft parking project and the $700,000 library project are to be funded under the Air Force minor construction program.

North Dakota—Minot AFB: Hospital.—The conferees have agreed to provide funding in the amount of $27,500,000 for a new hospital at Minot AFB. The conferees agree that funds appropriated for this project are not to be used to relocate the golf course.

Ohio—Wright-Patterson AFB: Addition to Air Force Museum.—The conferees have recommended $5,400,000, the amount requested, for an addition to the Wright-Patterson Museum, but none of these funds are to be obligated until a matching amount has been raised in the private sector. The conferees have also agreed that private funds—not nonappropriated funds—are to be used as matching funds for this project.

Virginia—Langley AFB: Antisatellite facilities.—The conferees have deferred funding for facilities associated with the deployment of antisatellite weaponry at Langley AFB, Virginia. This action was taken because of the current schedule for deployment and uncertainties regarding procurement decisions. It appears that more than sufficient construction time is available if the projects requested this year are funded in a future appropriations bill.

Wyoming—F.E. Warren AFB: MX facilities.—The conferees have agreed to partially restore MX-related construction funds re-

duced by the House. The funds provided will permit the Air Force to proceed with all construction elements at F.E. Warren AFB associated with deploying the first 10 MX missiles. These 10 missiles have been designated to meet the initial operating capability in 1986 and were funded in the fiscal year 1984 Defense Appropriations Act.

Prior to obligating any of the MX-related funds approved in fiscal year 1985, the Air Force is to verify to the Committees on Appropriations that (1) the deployment of these missiles will not be in conflict with fiscal year 1985 authorization and appropriations decisions on the procurement of the MX missile and (2) sufficient testing of silo modifications has taken place to assure that construction is not preceding complete and successful testing.

The MX projects considered in conference and the amounts recommended follow:

Project	Budget request	Conference recommendation
Launch facilities site work	$3,200,000	$2,000,000
Launch facility trainer (silo)	3,900,000	3,900,000
Real estate acquisition	1,200,000	700,000
Upgrade roads and highways	21,000,000	10,000,000
Total	29,300,000	16,600,000

The Air Force had included a $2,000,000 request for planning and design funds under the roads and highways portion of the MX request. The conferees agree that this should be funded under the Air Force planning and design account.

Wyoming—F.E. Warren AFB: MX impact assistance funds.—The conferees have agreed to defer without prejudice the $5,940,000 added by the Senate for MX impact assistance funds. It was agreed that a formal Executive Branch request and justification was needed prior to appropriating the assistance funds. However, should this occur during the year, the conferees concurred that a reprogramming or a supplemental request would be considered.

CONUS Unspecified—Real estate for GWEN facilities.—The conferees have agreed to defer the $1,200,000 requsted for the site acquisition associated with the GWEN program. It is agreed that funding should not be approved until specific sites are identified.

Italy—Comiso: GLCM support facilities.—The conferees have agreed to fund facilities associated with the establishment of accompanied tours at the GLCM base at Comiso, Italy. Funds for the Armed Forces Radio and TV Service facility have been approved. The child care center is to be included in the school approved in the Defense Agencies account. Funds for these projects are not to be obligated until the Military Construction Subcommittees are satisfied that family housing construction is proceeding as outlined in the Air Force family housing section of this report.

Japan—Misawa AB: F-16 facilities.—The conferees have agreed to provide $4,400,000, the amount requested, for a jet fuel storage facility at Misawa AB, Japan. However, the conferees felt that the $2,830,000 project to upgrade the apron pavement should be funded under the Japanese cost sharing program. This project meets the criteria for Japanese cost sharing, and the Department should make a better effort to assure that projects meeting criteria are included in the cost sharing program.

Philippines—Clark AB: Add/alter passenger terminal.—The conferees have not recommended the $4,200,000 requested for the Clark AB passenger terminal. The conferees agreed with the Senate position that the facility was overscoped.

Turkey—Mus AB: Collocated operating base facilities.—The conferees have not provided the $24,500,000 requested for facilities proposed for the NATO collocated operating base at Mus, Turkey. These projects are to be funded through the NATO infrastructure program. The first stage of construction has been delayed to the point that inclusion in the next slice of the NATO infrastructure program should not delay the overall construction program. The base is fully eligible for NATO infrastructure funding and should be funded as a top priority.

United Kingdom—RAF Greenham Common: GLCM-Library.—The conferees agreed to fund the $600,000 library proposed at RAF Greenham Common under the Air Force minor construction account.

United Kingdom—RAF Molesworth: GLCM facilities.—Both the House and the Senate approved the funds requested for GLCM facilities at RAF Molesworth, United Kingdom. However, the conferees have agreed with the House position on the obligation of these funds. The Military Construction Appropriations Subcommittees are to be informed on the status of United Kingdom costs associated with the construction at RAF Molesworth.

Overseas Various—Chemical warfare protection facilities.—The conferees have agreed to fund chemical warfare protection facilities in the amount of $8,520,000 instead of the $13,400,000 recommended by the Senate and no funding recommended by the House. Only chemical facilities at U.S. bases have been recommended. The conferees believe that the Department should continue its efforts to establish both NATO and DOD guidelines for chemical protective facilities. The Department is to submit a report on these efforts to the Military Construction Appropriations Subcommittees by January 31, 1985. Projects funded in fiscal year 1985 follow:

Germany—Zweibrucken: Avionics workshop	$2,420,000
Italy—Aviano: Photo interpretation facility	1,220,000
Turkey—Incirlik: Squadron operations	1,220,000
United Kingdom:	
Greenham Common:	
Central security control	1,220,000
Wing command post	1,220,000
Upper Heyford: Squadron operations	1,220,000
Total	8,520,000

MILITARY CONSTRUCTION, DEFENSE AGENCIES

The conferees agreed to the appropriations of $302,198,000 for Military construction, Defense Agencies, instead of $309,108,000 as proposed by the House and $351,010,000 as proposed by the Senate. The amount of $27,500,000 is earmarked for planning and design purposes. The conferees have also agreed to include the transfer authority in the bill as proposed by the Senate. The conferees have agreed to the following additions and deletions to the amounts and line items as proposed by the House:

Georgia—Robins AFB: Relocate Defense Property Disposal Office	+$2,500,000
New Mexico—White Sands Missile Range: High energy systems test fac...	+9,000,000
Italy—Comiso: Elementary/high school	−2,310,000
Japan—Zukeran (Okinawa): Elementary school addition	+2,250,000
General reduction	−21,350,000
Exigent minor construction	+500,000
Planning and design	+2,500,000
Total	−6,910,000

The conferees agreed to fund all other items in conference at the level proposed by the House, as shown below:

California:	
Defense Language Institute Monterey:	
Physical fitness center	$7,800,000
Recreation center	1,400,000
Defense Property Disposal Office San Diego:	
Hazardous material/waste facility	(1)
District of Columbia: Fort McNair: Land acquisition	(1)
Maryland:	
Baltimore: Appraiser's store	(1)
Fort Meade: SAB 3 expansion	(1)
Japan—Camp McTureous: Elementary school	0
Korea—Defense Fuel Support Point Pohang: Fuel tankage	0

[1] Failed authorization.

New Mexico—White Sands Missile Range: High energy laser systems test facility.—The conferees agreed to appropriate $9,000,000 for the White Sands Missile Range high energy laser facility in New Mexico. However, funds are to be obligated only under a competitively bid contracting procedure.

Italy—Comiso: Elementary/high school.—The conferees agreed to fund the $11,290,000 elementary/high school and child care center at Comiso, Italy. However, funds are not to be obligated until requirements indicated in the Air Force family housing section of this report have been met.

Japan—Camps McTureous and Zukeran: DOD dependent schools.—The conferees agreed to appropriate funds only for the Camp Zukeran project and to defer funding of the Camp McTureous project until the question of Japanese cost sharing has been resolved. The conferees agreed that if Japanese cost sharing is not forthcoming, a reprogramming action or supplemental request would be considered.

Korea—Defense Fuel Support Point Pohang: Fuel tankage.—The conferees agreed not to fund the $15,800,000 requested for a fuel tank at DFSP Pohang, Korea. The Department is to seek Korean host nation support for this project.

General reduction.—The conferees have agreed to a general reduction of $65,600,000 to Military construction, Defense Agencies. A reduction of $13,100,000 has been made to the DOD dependent schools account in addition to the $52,500,000 reduction made to other accounts to conform with specific project reductions made in the fiscal year 1985 authorization bill.

NORTH ATLANTIC TREATY ORGANIZATION INFRASTRUCTURE

The conferees agreed to appropriate $107,200,000 for NATO infrastructure as

proposed by the Senate instead of $131,700,000 as proposed by the House. The amount provided is sufficient to meet the U.S. commitment to this program. The reduction from the amount proposed by the President is not to be taken as an offset for proposed projects at Mus Air Base, Turkey.

The appropriation is $189,500,000 below the original Departmental request of $296,700,000 for NATO infrastructure funding. The conferees feel that the Department is doing a poor job of providing accurate NATO infrastructure estimates, as it appears that the 63.9% reduction to this account made by Congress will have no negative effect on carrying out the NATO infrastructure program. Using better budget planning, the Department could have used the unneeded $189,500,000 for other programs.

The conferees strongly support the U.S. effort to expand the 1985 through 1990 NATO infrastructure program to $10 billion. In view of the expanded program, the conferees feel there should be no problem in programming the remaining $260,000,000 in prefinanced projects for recoupment in the next six years. The conferees expect that no additional requests for prefinanced projects will be received until the recoupment program has achieved positive results.

The conferees are also concerned that international competitive bidding requirements are waived on many NATO infrastructure projects. Because of this concern, the conferees direct that the Committees on Appropriations are to be notified within 30 days of the granting of any waiver of international competitive bidding procedures on NATO infrastructure projects over $5,000,000. These notifications should contain an explanation of the reasons for these waivers.

The conferees have agreed to add under the amendment numbered 24 a general provision requiring the recoupment of one dollar in prefinanced NATO projects for every four dollars obligated.

MILITARY CONSTRUCTION, ARMY NATIONAL GUARD

The conferees agreed to the appropriation of $98,603,000 for Military construction, Army National Guard, instead of $92,117,000 as proposed by the House and $96,900,000 as proposed by the Senate. The conferees have agreed to the following additions and deletions to the amounts and line items as proposed by the House:

Massachusetts—	
Dorchester: Armory	[1]—$1,600,000
Minor construction	+8,086,000
Total	+6,486,000

[1] Failed authorization.

The conferees agreed to fund all other items in conference at the level proposed by the House, as shown below:

Ohio—Akron/Canton Airfield:	
Army aviation support facility	$3,770,000
Oklahoma—Holdenville: Armory	900,000

Minor construction.—The conferees have provided $16,086,000 of the $19,053,000 requested for minor construction and direct that the following projects be accomplished with these funds:

Alabama:	
Dothan: Organizational maintenance shop addition/alternation	$140,000
Eglin AFB, Florida: Tank ranges	173,000
Northport: Organizational maintenance shop No. 9	301,000
Alaska:	
Alakanuk: Scout armory expansion	122,000
Camp Denali:	
U.S. Property and Fiscal Officer's Office improvements	117,000
Contingency storage site	163,000
Kipnuk: Scout armory expansion	127,000
Kwethluk: Scout armory expansion	122,000
Noatak: Scout armory expansion	127,000
Nome: Armory unit storage building	262,000
Point Hope: Scout armory expansion	127,000
Tununak: Scout armory expansion	122,000
Arkansas:	
Camp Robinson:	
Academic building (classrooms)	322,000
Activity center, National Guard Professional Education Center	352,000
Combined support maintenance shop/vault	87,000
Professional Education Center learning center	369,000
Scaled range target system	64,000
Training facility pistol range phase 2	27,000
California:	
Barstow: Organizational maintenance shop	273,000
National City: Organizational maintenance shop addition	89,000
Riverside: Organizational maintenance shop miscellaneous work	184,000
San Lorenzo: Organizational maintenance shop alterations/adds	101,000
Santa Ana: Organizational maintenance shop miscellaneous work	165,000
Georgia:	
Atlanta: U.S. Property and Fiscal Officer's Office addition	318,000
Baxley: Armory unit storage building	23,000
Hawkinsville: Armory unit storage building	65,000
Hunter: Armory unit storage building	223,000
Louisville: Armory unit storage building	70,000
Lyons: Armory unit storage building	152,000
Macon: Military academy rehabilitation	151,000
Quitman: Armory unit storage building	33,000
Reidsville: Armory unit storage building	33,000
Illinois:	
Camp Lincoln: Upgrade existing baffled range rifle/pistol	103,000
Quincy: Armory unit storage addition	33,000
Springfield: Combined support maintenance shop rehabilitation paint shop ventilation	98,000
Hawaii:	
Hilo: Ammunition storage	114,000
Pearl City: Contingency storage site	107,000
Wheeler: Ammunition storage	59,000
Kentucky:	
Ashland: Armory parking	77,000
East Kentucky Training Site: 25 meter/field fire range	186,000
Louisiana:	
Camp Beauregard:	
Combined support maintenance shop renovation	289,000
NCO education system barracks	329,000
Organizational maintenance shop expansion No. 4	193,000
Winterize barracks	328,000
Fort Polk: Crane facility	110,000
Maryland:	
Edgewood:	
Organizational maintenance shop	265,000
Rehabilitate administration building	36,000
Havre de Grace: Contingency storage site	153,000
Mississippi:	
Camp Shelby:	
Rehabilitate bachelor officer quarters	39,000
Range infantry remote engagement target	370,000
Greenwood: Organizational maintenance shop	273,000
Nevada:	
Carson City: Contingency storage site	61,000
Indian Springs: Tank table No. 7 range	189,000
New York:	
Camp Smith:	
Contingency storage site	180,000
25 meter range	189,000
Guilderland: Training area	336,000
Newark Training Site: Combat pistol range/M-16 25 meter	160,000
Rochester:	
Combined support maintenance shop modernization	45,000
Contingency storage site	140,000
Youngstown Training Site: Combat pistol range	68,000
North Carolina:	
Ahoskie: Armory addition	85,000
Asheville: Armory addition	100,000
Camp Butner:	
Combat pistol	67,000
Night firing range	150,000
Record fire range	113,000
25 meter zero/M79	66,000
Fayetteville: Armory unit storage building	43,000
Fort Bragg:	
Mobilization and training equipment site apron	26,000
Mobilization and training equipment site POV parking	273,000
Monroe: Armory unit storage building	24,000
Raeford: Armory unit storage building	21,000
Rockingham: Armory unit storage building	82,000
Southern Pines: Armory unit storage building	24,000
Ohio:	
Camp Perry:	
Barracks latrine/company administration Phase IV	363,000
Battalion dispensary	147,000
Contingency storage site	75,000
Oklahoma:	
Norman: Direct support logistics facility/spare parts supply fac	86,000
Stillwater: Organizational maintenance shop No. 4	272,000

Oregon—Camp Rilea: Ammunition bunkers (2)	200,000
Pennsylvania:	
Butler: Organizational maintenance shop renovation	113,000
Clearfield: Armory alteration	142,000
Connellsville: Organizational maintenance shop modernization	75,000
Fort Indiantown Gap:	
Aircraft fuel storage facility addition	140,000
Army aviation support facility security fence	58,000
Unit training and equipment site alteration	261,000
Lebanon: Motor vehicle storage building expansion	54,000
New Castle: Organizational maintenance shop No. 9 alteration	70,000
Philadelphia: Organizational maintenance shop—admin area	56,000
South Carolina:	
Fort Jackson:	
NCO Academy (Primary NCO course)	290,000
Upgrade water system	270,000
Tennessee:	
Camden: Organizational maintenance shop subshop	240,000
Smyrna: Vault and supply battalion	103,000
Texas:	
Austin: Army aviation support facility expansion hangar and aircraft parking	210,000
Columbus: Armory rehabilitation/addition	400,000
Denison: Armory rehabilitation	277,000
Henderson: Armory rehabilitation/addition	400,000
Utah:	
Beaver: Organizational maintenance shop No. 10	282,000
Camp Williams:	
Dispensary	175,000
Training facility	149,000
Ogden: Organizational maintenance shop No. 2 rehabilitation	176,000
Washington:	
Camp Murray: Contingency storage site	144,000
Ephrata: Organizational maintenance shop (2 bay)	250,000
Total	16,086,000

The conferees agreed that changes from this project listing are to be reported to the Military Construction Appropriations Subcommittees.

MILITARY CONSTRUCTION, AIR NATIONAL GUARD

The conferees agreed to the appropriation of $111,200,000 for Military construction, Air National Guard, as proposed by the House instead of $110,700,000 as proposed by the Senate. The conferees have agreed to fund all items in conference at the level proposed by the House, as shown below:

New York—Stewart Airport: Phase IV construction	$10,500,000
General reduction	−10,000,000

MILITARY CONSTRUCTION, ARMY RESERVE

The conferees agreed to the appropriation of $69,306,000 for Military construction, Army Reserve, instead of $67,306,000 as proposed by the House and $70,400,000 as proposed by the Senate. The conferees have agreed to the following addition to the amounts and line items as proposed by the House:

American Somoa—150 member Army Reserve Center	+$2,000,000

MILITARY CONSTRUCTION, NAVAL RESERVE

The conferees agreed to the appropriation of $60,800,000 for Military construction, Naval Reserve, as proposed by the Senate instead of $63,800,000 as proposed by the House. The conferees have agreed to the following deletion to the amounts and line items as proposed by the House:

Illinois—NAS Glenview: Runway overlay	[1] −$3,000,000

[1] Failed authorization.

FAMILY HOUSING, ARMY

The conferees agree to an appropriation of $1,348,432,000 for Family housing, Army, instead of $1,338,752,000 as proposed by the House and $1,340,412,000 as proposed by the Senate. The conferees are agreed that $143,215,000 is appropriated for construction, $1,183,300,000 is appropriated for operations and maintenance, and $21,917,000 is appropriated for debt payment. The conferees have agreed to the following additions and deletions to the amounts and line items as proposed by the House:

California—Sierra Army Depot: Family housing units	−$520,000
Operations: Management	+2,200,000
Maintenance	+8,000,000
Total	+9,680,000

The conferees agreed to fund all other items in conference at the level proposed by the House, as shown below:

Texas—Fort Hood: 20 family housing units	$1,950,000
Germany:	
Babenhausen: 106 family housing units	7,620,000
Mainz: 186 family housing units	14,200,000
Construction improvements	100,000,000
General reduction	0
Operations:	
Services	44,500,000
Utilities	285,000,000
Furnishings	112,800,000
Miscellaneous	1,000,000
Leasing	105,000,000

California—Fort Ord: Trailer pads.—The conferees agreed that the Army is to construct 70 trailer pads estimated to cost $1,081,000 out of funds available in the family housing construction account.

California—Sierra Army Depot: Family housing units.—The conferees have agreed to provide $400,000 to acquire title to 125 units of Wherry housing at this location and $5,130,000 to construct 80 units of new housing.

Maryland—Aberdeen Proving Ground: 439 family housing units.—The conferees endorse the authorization of $30,792,000 for 439 new family housing units at Aberdeen Proving Ground, Maryland. The conferees direct the Army to use the $7,746,000 requested in the improvements account for this installation and available savings to construct these new units. This project should be submitted as a reprogramming when it is ready for execution.

Texas—Fort Hood: 20 family housing units.—The conferees have agreed to provide $1,950,000 for 20 units of new housing at Fort Hood. The conferees direct that 20 units be built with the funds provided.

Construction improvements.—The conferees have agreed that the Army is to accomplish the $4,800,000 improvement project at Fort Monmouth, New Jersey, out of the $100,000,000 provided for this account.

FAMILY HOUSING, NAVY

The conferees agreed to an appropriation of $681,075,000 for Family housing, Navy, instead of $674,368,000 as proposed by the House and $686,897,000 as proposed by the Senate. The conferees are agreed that $117,027,000 is appropriated for construction, $538,602,000 is appropriated for operation and maintenance, and $25,446,000 is appropriated for debt payment. The conferees have agreed to the following addition to the amounts and line items as proposed by the House:

Alaska—NS Adak: 405 family housing units	+$6,707,000

The conferees agreed to fund all other items in conference at the level proposed by the House, as shown below:

California—MCB Camp Pendleton: 360 family housing units	$20,000,000
Virginia—AEGIS Combat Systems Center Wallops Island: 28 family housing units	2,170,000
Cuba—NS Guantanamo Bay: 100 family housing units	9,350,000
Operations:	
Management	38,200,000
Services	28,000,000
Utilities	160,000,000
Furnishings	13,000,000
Leasing	19,000,000
Maintenance	280,000,000

Alaska—NS Adak: 405 family housing units.—The conferees have approved $53,107,000 for this project. The Navy is not to use additional savings for this project unless its is specifically approved in a reprogramming request.

California—MCB Camp Pendleton: 360 family housing units.—The conferees have agreed to provide $20,000,000 for the 360 new units requested. In addition, the amount of $15,000,000 has been provided towards the construction of 647 new units for E-4s and below. These funds along with the proceeds of the sale of the existing complex will be used to fund this project. The Navy is to submit this project for approval via a reprogramming prior to contract award.

FAMILY HOUSING, AIR FORCE

The conferees agreed to an appropriation of $912,043,000 for family housing, Air Force, instead of $882,134,000 as proposed by the House and $868,080,000 as proposed by the Senate. The conferees are agreed that $181,123,000 is appropriated for construction, $700,940,000 is appropriated for operations and maintenance, and $29,980,000 is appropriated for debt payment. The conferees have agreed to the following additions and deletions to the amounts and line items as proposed by the House:

California—Fort MacArthur: 140 family housing units	+$11,800,000
Germany—Classified location: 180 family housing units	+13,500,000

Italy—Comiso: 460 family housing units	−8,100,000
Korea—Osan AB: Utilities	+2,700,000
Construction improvements	+10,009,000
Total	+29,909,000

The conferees agreed to fund all other items in conference at the level proposed by the House, as shown below:

Montana—Conrad AFS: 40 family housing units	$2,950,000
Wyoming—F.E. Warren AFB: 265 family housing units	16,300,000
United Kingdom:	
RAF Bentwaters: 200 family housing units	16,200,000
RAF Greenham Common: 250 family housing units	17,800,000
General reduction	0
Operations:	
Management	25,300,000
Services	22,000,000
Utilities	230,000,000
Furnishings	40,000,000
Miscellaneous	1,380,000
Leasing	53,000,000
Maintenance	329,260,000

California—Fort MacArthur: 140 family housing units.—The conferees have agreed to provide $11,800,000 for 140 housing units in support of the Air Force Space Division personnel in Los Angeles, California. However, funds have not been approved for land acquisition, and appropriated funds are not to be used for this purpose. The conferees endorse the position outlined in the fiscal year 1985 Military Construction Authorization Act which prohibited the use of appropriated funds to pay for land transfers. The conferees do not concur with the Executive Branch policy of requiring one federal agency to pay another for federal land. If the Air Force is unable to resolve the issue regarding the proposed site, they should work with the city to find an alternative site. None of the funds appropriated for construction are to be obligated until the Committees on Appropriations have been notified concerning the disposition of the site.

Italy—Comiso: 460 family housing units.—The conferees have agreed to provide $32,200,000 for 460 units of housing at Comiso AB, Italy. Obligation of these funds is contingent upon submission of the signed agreement on the use of U.S. manufactured housing. Any future proposed lease/construct agreements for housing at this location must meet the cost effectiveness test as required by law.

Korea—Osan AB: Utilities.—The conferees have agreed to fund the utility extension at Osan but caution that it is not to be construed as an endorsement of accompanied tours at this location.

Construction improvements.—The conferees have approved the $62,173,000 requested for construction improvements. The conferees have approved the funding for the five improvement projects denied by the House on the condition that all future requests for improvement projects clearly indicate the amounts spent on the given units in the previous three years and the amounts planned for the units in the following three years. This will allow for a coherent review of the total improvement planned for all units.

FAMILY HOUSING, DEFENSE AGENCIES

The conferees have agreed to the appropriation of $17,437,000 for Family housing, Defense Agencies, instead of $17,291,000 as proposed by the House and $19,300,000 as proposed by the Senate. The amount of $707,000 is appropriated for construction and $16,730,000 is appropriated for operation and maintenance. The conferees have agreed to the following additions to the amounts and line items as proposed by the House:

Classified Location—NSA:	
6 family housing units	+$60,000
Maintenance	+86,000
Total	+146,000

The conferees agreed to fund all other items in conference at the level proposed by the House, as shown below:

Operations:	
Furnishings	$1,800,000
Miscellaneous	470,000
Leasing	13,700,000

GENERAL PROVISIONS

Section 120.—The conferees agreed to amend the House provision to change the construction floor to $10,000,000 for projects requiring U.S. contracts for installed equipment in NATO and Japan for countries not meeting a 3% increase in defense spending in 1983. The amended section reads as follows:

"SEC. 120. None of the funds appropriated in this Act may be obligated for contracts estimated by the Government to exceed $10,000,000 for military construction projects to be accomplished in Japan or in any NATO member country if that country has not increased its defense spending by at least 3 per centum in calendar year 1983, as certified by the Secretary of Defense, unless such contracts require that all installed equipment utilized in such projects have been manufactured in the United States."

Section 121.—The conferees agreed to retain the House provision restricting A&E contracts exceeding $1,000,000 in NATO countries and Japan not meeting a 3% defense increase in 1983 to U.S. companies or joint ventures with U.S. companies.

Section 122.—The conferees agreed to delete the House Section 122 restricting the use of funds for the master restationing plan in Germany. The recommendations on the master restationing plan are discussed under the Army section earlier in this conference report.

Section 123.—The conferees agreed to amend Section 123 as proposed by the Senate. The section, as amended and renumbered, reads as follows:

"SEC. 122. None of the funds appropriated in this Act for military construction in the United States territories and possessions in the Pacific and on Kwajalein Island may be used to award any contract estimated by the Government to exceed $5,000,000 to a foreign contractor: *Provided*, That this section shall not be applicable to contract award for which the lowest responsive bid of a United States contractor exceeds the lowest responsive bid of a foreign contractor by greater than 20 per centum."

Section 124.—The conferees have agreed to delete House Section 124 and Senate new Section 121. During action on the fiscal year 1984 military construction supplemental, funds were released to initiate the design of a new hospital at Fort Sam Houston, Texas. This action and language included the fiscal year 1985 military construction authorization bill to support the need for proceeding quickly with the Brooke Army Medical Center replacement.

Section 125.—The conferees have agreed to the same provision on prior notification on military exercises as provided in the House and Senate bills but with a new section number 123.

Section 126.—The conferees agreed to delete the language included by the House calling for a general reduction of .003%. The conferees have made general reductions which take into account savings from the use of alternate construction methods.

Senate new section 123.—The conferees agreed to the language proposed by the Senate concerning the transfer of receipts from the family housing management account. The provision, as amended by a new section number, reads as follows:

"SEC. 124. Unexpended balances in the Military Family Housing Management Account established pursuant to section 2831 of title 10, United States Code, as well as any additional amounts which would otherwise be transferred to the Military Family Housing Management Account during fiscal year 1985, shall be transferred to the appropriations for Family Housing provided in this Act, as determined by the Secretary of Defense, based on the sources from which the funds were derived, and shall be available for the same purposes, and for the same time period, as the appropriation to which they have been transferred.".

Senate new section 124.—The conferees agreed to the language proposed by the Senate concerning narcotics control. The provision, as amended by a new section number, reads as follows:

"SEC. 125. (a) None of the funds appropriated in this Act may be available for any country if the President determines that the government of such country is failing to take adequate measures to prevent narcotic drugs or other controlled substances cultivated or produced or processed illicitly, in whole or in part, in such country, or transported through such country, from being sold illegally within the jurisdiction of such country to United States personnel or their dependents, or from being smuggled into the United States. Such prohibition shall continue in force until the President determines and reports to the Congress in writing that—

"(1) the government of such country has prepared and committed itself to a plan presented to the Secretary of State that would eliminate the cause or basis for the application to such country of the prohibition contained in the first sentence; and

"(2) the government of such country has taken appropriate law enforcement measures to implement the plan presented to the Secretary of State.

"(b) The provisions of subsection (a) shall not apply in the case of any country with respect to which the President determines that the application of the provisions of such subsection would be inconsistent with the national security interests of the United States.".

Senate new section 125.—The conferees agreed to amend the language proposed by the Senate concerning consultants and consultant services. The provision, as amended and renumbered, reads as follows:

"SEC. 126. Of the total amount of budget authority provided for fiscal year 1985 by this Act that would otherwise be available for consulting services, management and professional services, and special studies and analyses, 10 per centum of the amount intended for such purposes in the President's budget for 1985, as amended, for any agency, department or entity subject to ap-

portionment by the Executive shall be placed in reserve and not made available for obligation or expenditure: *Provided*, That this section shall not apply to any agency, department or entity whose budget request for 1985 for the purposes stated above did not amount to $5,000,000.".

Senate new section 126.—The conferees agreed to the Senate language calling for NATO and Japan to increase their defense spending by 3% per year. The provision, as amended by a new section number, reads as follows:

"SEC. 127. It is the sense of the Congress that the administration should call on the pertinent member nations of the North Atlantic Treaty Organization and on Japan to meet or exceed their pledges for at least a 3 per centum real increase in defense spending and furtherance of increased unity, equitable sharing of our common defense burden, and international stability.".

Amendment No. 24: Adds language as proposed by the Senate requiring that $1 be recouped for prefinanced U.S. NATO infrastructure projects for every $4 to be obligated. The conferees agreed that the Department is to tie the obligations to the funds appropriated in the fiscal year 1985 Military Construction Appropriations Act. The conferees felt that it was necessary to include this provision in order to highlight the need to increase the recoupment of the large sums owed the United States for prefinanced NATO infrastructure projects.

DEPARTMENT OF DEFENSE—CIVIL

DEPARTMENT OF THE ARMY

CORPS OF ENGINEERS—CIVIL

Amendment No. 25: Deletes language proposed by the House and stricken by the Senate and deletes language proposed by the Senate.

FOREIGN ASSISTANCE APPROPRIATIONS

Amendment No. 26: Provides for funding for foreign assistance programs for fiscal year 1985. The House language would have provided for foreign assistance programs at the level and terms and conditions of H.R. 6237, the Foreign Assistance and Related Programs Appropriations Act, 1985 as reported to the House of Representatives on September 13, 1984. The Senate language would have provided for similar programs contained in S. 2793 as reported to the Senate on June 26, 1984.

NEW HEALTH INITIATIVE

The managers are providing a total of $85,000,000 in new health care initiatives with $10,000,000 to be used for nutrition, $50,000,000 for the delivery of primary and related health care services and health care education, and $25,000,000 for a new program entitled "Child Survival Fund."

JOHNS HOPKINS UNIVERSITY

The managers on the part of the House and Senate direct that $1,000,000 of the funds provided for the Child Survival Fund be utilized to support a new international health program at Johns Hopkins University for applied research, development and training in immunization, and other health programs. It is the intention of the conferees that $1,000,000 be provided each year for up to five years.

CEILING ON CENTRAL AMERICA DEVELOPMENT ASSISTANCE

The managers have placed a ceiling on the level of development assistance for Central America at $225,000,000. This ceiling provides a substantial increase in development assistance for Central America while also freeing funds for poorer areas of the world. Additional funds may be provided to Central America through the regular notification process of the Committees on Appropriations.

PRIVATE VOLUNTARY ORGANIZATIONS

The managers are providing that funds in this Act may not be made available after January 1, 1986 to any United States voluntary organization, other than a cooperative development organization, which obtains less than 25 percent of its funds from sources other than the United States Government.

The Committees on Appropriations will hold hearings on this proposal before it is implemented in January 1986 and will determine if any modifications or changes should be made to the legislation.

The managers recognize that the test of non-governmental participation may include financial donations from the private sector which may be applied directly to PVO program activities without flowing through a PVO headquarters or national budget. These local financial contributions shall be eligible to be counted as part of the total annual funding of a PVO for international activities.

DEVELOPMENT LOAN TERMS

The managers have agreed not to include an arbitrary percentage on the amount of development assistance that should be used for loans, but rather to permit the Administrator of AID to fix such amount and such terms based on existing law. It is the expectation of the managers that AID will realistically manage its loan portfolio in a manner that reflects prudent financial judgment, the objectives of the foreign assistance program, and the financial conditions in developing countries. The managers expect AID to take such steps as are necessary to negotiate loans on more realistic terms than have been negotiated in the past, particularly for those countries with a greater ability to repay. The managers have included a provision stating that, to the extent practicable, any AID loans to private sector institutions should be made at rates at or near the cost of borrowing money from the U.S. Treasury. The managers direct that AID submit a report that explains how this section will be carried out within 30 days of enactment of this bill.

ECONOMIC SUPPORT FUNDS FOR AFRICA

The managers are providing an additional $75,000,000 for Africa, subject to regular notification procedures. This action is being taken in place of the $75,000,000 requested by the Administration for the Economic Policy Initiative for Africa.

CASH TRANSFER FOR EGYPT

The managers are providing $100,000,000 in economic support funds for Egypt as a cash transfer. The managers direct that the Agency for International Development administer these funds in a manner similar to that contained in program assistance approval document number 263-K-608, dated September 19, 1984 which required that Egyptian pounds, equivalent to the amount of the cash grant, be used for development purposes.

AID DEOBLIGATION/REOBLIGATION AUTHORITY

The managers on the part of the House and the Senate support deobligation reobligation authority for AID. This authority has been provided in the past and is an excellent management tool for ending poor projects and reallocating funds for new priorities. Unfortunately, the Administration in fiscal year 1985 was unwilling either to continue its support for this improved management authority or to allocate funds for this purpose.

The managers have included deobligation reobligation authority for AID for fiscal year 1985 in this Act and have broadened that authority to allow additional disaster or development assistance funding for Andean countries, which are still recovering from weather related disaster and economic difficulties. Nevertheless, in the next fiscal year, the managers will not continue to support this management authority for the AID programs unless the Administration also recognizes its importance, requests the authority, and allocates funds for this purpose in the fiscal year 1986 budget documents.

SEPARATE ECONOMIC SUPPORT FUND FOR EL SALVADOR

The managers have included language which requires that economic support funds provided for El Salvador that are maintained in the Central Reserve Bank be placed in a separate account.

It is not the managers' intention to change the nature of the assistance provided to El Salvador as cash transfer assistance. Because the funds are provided as cash assistance, statutory and regulatory requirements that would normally attach to the procurement or transportation of commodities financed by AID would not have to be applied to the use of funds maintained in the separate account. Such statutory requirements include: section 604 of the Foreign Assistance Act of 1961, as amended; section 901(b)(1) of the Merchant Marine Act of 1936, as amended; section 5 of the International Air Transportation Fair Competitive Practice Act of 1974; section 644 of the Small Business Act; section 2711 of the Competition in Contracting Act of 1984; and the provisions of the Federal Property and Administrative Services Act of 1949, as amended.

REGIONAL MILITARY TRAINING CENTER IN HONDURAS

The managers on the part of the House and the Senate are particularly concerned about the resolution of issues addressing the Regional Military Training Center in Honduras. The managers note that several recent events raise questions about the possibility of maintaining a Regional Military Training Center in Honduras. These events include (1) the recent failure to reach agreement with the Government of Panama on the continued use of the regional military training schools in that country; (2) the statements of those countries involved in the Contadora peace plan and their proposals for the elimination of military training schools in Central America; (3) the continuing border disputes between El Salvador and Honduras; and, (4) recent decisions of the military high command in Honduras refusing to allow El Salvadoran military training at the existing Regional Military Training Center.

Nevertheless, the managers support the concept of such a Center and believe that the President should have maximum flexibility to continue negotiating cost effective methods of providing necessary military training to Central American armed forces. Consequently, the managers have provided funds for such a Center subject to the regular notification process of the Committee on Appropriations. Additionally, the managers have included a provision to ensure adequate, effective and prompt determination

and settlement of a claim by a United States citizen for compensation arising from, or relating to, the establishment and operation of the existing Regional Military Training Center on private property in Honduras. The managers believe that it is essential that the U.S. Department of State and the Honduran government work together immediately to resolve this claim promptly and amicably under international law. The managers expect that these same conditions will be applied to funds contained in Public Law 98-396, the Supplemental Appropriations Act.

While the managers stress the above points, they do emphasize as a general principle that the Congress should involve itself in expropriation cases only after all other resonable legal remedies have been pursued and failed.

FAILURE TO REPAY U.S. LOAN ASSISTANCE

Severe debt problems faced by U.S. assistance recipient countries have increased the likelihood that some of these countries will be unable to repay their foreign assistance loans owed to the U.S. Government. Section 517 of the Appropriations Act requires that no additional assistance be furnished to any country which is in default of its United States foreign assistance program loans for a period in excess of one calendar year, unless an official debt rescheduling is completed. After one year has passed without timely payment of a loan, the relevant agency has eight additional months to obligate funds solely for the purpose of ending activities in a country.

The conferees are concerned that U.S. agencies providing foreign assistance have not developed and implemented plans to carry out the intent of Section 571. Accordingly, the conferees are providing the following guidelines concerning Section 517 and the conferees expect that all agencies covered in this Act will develop procedures to implement these guidelines.

The conferees expect the relevant agencies to have in place a system to implement Section 517 and to begin concluding activities in a country as soon as possible after Section 517 becomes effective.

The implementing system should include at least the following: (1) cable notifications to field missions six months before the one year deadline; (2) initiation of assessments, prior to the one year deadline, of necessary requirements to end the program; (3) negotiations with the delinquent government, for the purpose of both encouraging repayment and making the government aware of the consequences of non-payment as soon as it appears likely that the one year deadline will be exceeded; and (4) obligation of funds only for purposes necessary for the rapid conclusion of current activities as soon as possible after the one year deadline has been passed. The conferees intend that a very narrow interpretation be given to what constitutes activities necessary for concluding existing programs as quickly as possible.

EXPORT-IMPORT BANK

The managers direct that the Export-Import Bank take all necessary steps to carry out an expansion of its small business program. The conferees further direct that the Bank conduct a study as to the feasibility of relocating its headquarters to less expensive office space. This study should be completed by March 31, 1985.

AMERICAN UNIVERSITY OF BEIRUT AND THE AMERICAN UNIVERSITY IN CAIRO

The managers on the part of the House and the Senate are strongly committed to the future of the American University of Beirut and the American University in Cairo. They are directing that the Secretary of State conduct a study to determine the most appropriate manner by which to provide continuing financial assistance to these institutions.

Amendment No. 27. Deletes Senate Amendment No. 27 concerning the United Nations Fund for Victims of Torture. This amendment is addressed in Amendment No. 26.

Amendment No. 28. Deletes Senate Amendment No. 28 concerning a separate account for United States assistance funds deposited in the Central Reserve Bank of El Salvador. This amendment is addressed in Amendment No. 26.

Amendment No. 29. Deletes Senate Amendment No. 29 concerning the Regional Military Training Center in Honduras. This amendment is addressed in Amendment No. 26.

Amendment No. 30. Deletes Senate Amendment No. 30 concerning the extension of concessional foreign military sales credit to Turkey. This amendment is addressed in Amendment No. 26.

Amendment No. 31. Deletes Senate Amendment No. 31 concerning policy setting the level of Economic Support Funds for Israel. This amendment is addressed in Amendment No. 26.

DEPARTMENT OF DEFENSE APPROPRIATION ACT

Amendment No. 32: Section 101(h) of House Joint Resolution 648 provides appropriations for programs, projects and activities provided for in the Department of Defense Appropriation Act, 1985. The House version of the joint resolution provides appropriations for programs, projects and activities at a rate of operations and to the extent and in the manner provided for in H.R. 6329 as reported to the House of Representatives on September 26, 1984. The Senate version of the joint resolution provides appropriations for these programs, projects and activities at the rate and in the manner provided for in S. 3026 as reported to the Senate on September 26, 1984, with certain additional provisions and exceptions provided for in the joint resolution.

The conference agreement on House Joint Resolution 648 incorporates some of the provisions of both the House and Senate versions of the Department of Defense Appropriation Act, 1985, and has the effect of enacting the Act into law. The language and allocations set forth in House Report 98-1086 and Senate Report 98-636 should be complied with unless specifically addressed in this joint resolution and statement of the managers to the contrary. The Department of Defense Appropriation Act, 1985, put in place by this joint resolution incorporates the following agreements of the managers.

TITLE I—MILITARY PERSONNEL

The conferees agree to the following amounts for the Military Personnel accounts:

[In thousands of dollars]

	Budget	House	Senate	Conference
SUMMARY				
Military personnel, Army	21,172,900	21,020,244	21,049,200	21,020,344
Military personnel, Navy	15,897,500	15,660,134	15,695,358	15,660,246
Military personnel, Marine Corps	4,845,900	4,802,100	4,812,066	4,803,366
Military personnel, Air Force	17,799,900	17,607,825	17,567,780	17,572,005
Reserve personnel, Army	2,184,300	2,090,500	2,109,700	2,084,100
Reserve personnel, Navy	1,131,600	1,131,600	1,127,300	1,127,700
Reserve personnel, Marine Corps	269,500	268,700	269,500	268,700
Reserve personnel, Air Force	565,800	564,500	565,800	564,500
National Guard personnel, Army	3,075,000	2,969,210	2,935,500	2,926,100
National Guard personnel, Air Force	889,200	874,878	882,900	868,578
Total, military personnel	67,831,600	66,989,691	67,015,104	66,895,639

The following items represent language as agreed to by the conferees:

ACTIVE DUTY FORCES

The conferees agree to a reduction of $208,800,000 from requested amounts resulting from Authorization reductions in end strengths and associated man-years. The following table summarizes strength levels as agreed to by the conferees.

FISCAL YEAR 1985 ACTIVE DUTY END STRENGTHS

	Budget	Authorization	Conference
Army	780,800	780,800	780,800
Navy	575,300	571,300	571,300
Marine Corps	199,500	198,300	198,300
Air Force	610,200	602,070	602,070
Total	2,165,800	2,152,470	2,152,470

GUARD/RESERVE FORCES

The conferees agree to a reduction of $240,600,000 from requested amounts resulting from authorization reductions in selected reserve average strengths and full-time reserve end strengths. Additionally, the conferees agree to a reduction of 555 Active/Guard Reserve (AGR) personnel and $9,022,000 from the Air National Guard personnel accounts, and an increase of 555 (civilian) military technicians and $8,083,000 to the Air Guard O&M accounts. The conferees further agree that the 762 in Air Guard selected reserve average strengths and full-time end strengths reduced by the 1985 Defense Authorization Bill should be spread in proportion across all Air Guard programs and not solely against new programs.

The following table summarizes strength levels as agreed to by the conferees.

FISCAL YEAR 1985 GUARD/RESERVE STRENGTHS

	Budget	Authorization	Conferees
Selected Reserve (average strength):			
Army Reserve	288,400	284,073	284,073
Navy Reserve	124,200	124,100	124,100
Marine Corps Reserve	44,300	44,300	44,300
Air Force Reserve	72,900	72,900	72,900
Army National Guard	440,100	435,117	435,117
Air National Guard	106,200	105,438	105,438
Total	1,076,100	1,065,928	1,065,928
Full-Time Reserve (end strength):			
Army Reserve	15,027	10,700	10,700
Navy Reserve	15,410	15,210	15,210
Marine Corps Reserve	1,129	1,129	1,129
Air Force Reserve	623	623	623
Army National Guard	26,583	20,583	20,583
Air National Guard	7,224	7,024	6,469
Total	65,996	55,269	54,714

RETIRED PAY ACCRUAL

It has come to the attention of the conferees that the Department of Defense Retirement Board of Actuaries has recently met and completed action on determining the value of the normal cost percentage for military retired pay for fiscal year 1985. The conferees direct that any funds appropriated for Military Retired Pay, which are

subsequently determined to be excess to requirements due to the revaluation of the normal cost percentage, shall be used as an offset to costs associated with the January 1, 1985 military pay raise and shall not be used for any other purposes.

SURVIVORS' BENEFITS

The conferees agree that the individual Service's military personnel appropriations should make funds available, up to $7,000,000, in order to fund payments for survivors' benefits as authorized in section 941 of the 1984 Defense Authorization.

NAVY MANPOWER

The Senate directed the Navy to accommodate the requirement for the 9th Mobile Construction Battalion (NMCB No. 7) within the fiscal year 1985 authorized and appropriated strengths. The House did not address the issue. The conferees agree with the Senate position.

COMMISSARY TESTS

The Senate included language directing the Department of Defense to test contracting out of military commissaries in three metropolitan areas. The House included no such language. The Senate recedes.

INDEPENDENT NATIONAL GUARD BRIGADES

The conferees agree that the Department of the Army must quickly resolve the uncertainty surrounding the roles, missions, training and administrative support of the 41st Infantry Brigade in Oregon and the 79th Infantry Brigade, Hawaii. These brigades will lose active Army unit affiliation when the Army converts the 7th and 25th Divisions to light divisions. The Army is directed to report to the House and Senate Committees on Appropriations, by February 1, 1985, what its plans are for these brigades. The report should address all alternatives considered, the pros and cons of each alternative, and the Army's preferred alternative. The report should specifically address the recommendations made by both the House and Senate Appropriations Committees in their respective reports.

WINTER CLOTHING

The conferees agree that $500,000 shall be available for purchase of winter clothing and gear for the Vermont Army National Guard, unless such purchase would deny clothing or equipment to higher priority or earlier deploying National Guard units.

MILITARY PERSONNEL, ARMY

The conferees agree to the following amounts for Military Personnel Army:

[In thousands of dollars]

	Budget	House	Senate	Conference
Military personnel, Army				
Enlisted grade growth/man-years	15,798,297	15,773,297	15,778,297	15,773,297

Operation and maintenance, Air Force Reserve	883,461,000	928,661,000	872,461,000	872,461,000
Operation and maintenance, Army National Guard	1,404,643,000	1,437,043,000	1,397,243,000	1,424,293,000
Operation and maintenance, Air National Guard	1,862,148,000	1,844,531,000	1,810,348,000	1,810,348,000
National Board for the Promotion of Rifle Practice, Army	914,000	914,000	914,000	914,000
Claims, Defense	177,900,000	157,900,000	157,900,000	157,900,000
Court of Military Appeals, Defense	3,470,000	2,870,000	3,416,000	2,870,000
Summer Olympics				
Environmental Restoration fund, Defense			314,000,000	314,000,000
Total, title II, new budget (obligational) authority, operation and maintenance	80,927,042,000	76,599,129,000	78,201,727,000	77,521,356,000

The following items represent language as agreed to by the conferees:

BASE OPERATIONS TRANSFER

The managers on the part of the Senate agree to recede to the House on the transfer of $180,900,000 base operations support funds from Air Force Research and Development to the operating account. The conferees agree that the Department of Defense should budget for R&D related base operations costs using the same criteria for each military service. Currently, the budgeting procedures range widely even though the types of expenses involved are virtually identical. The conferees recognize that the transfer of only a portion of Air Force base operations funds would merely add to the disparate DoD budget policy.

The conferees direct the Secretary of Defense to submit a plan to accompany the fiscal year 1986 budget request which provides for the implementation of a uniform budgeting system for base operations by fiscal year 1987. The primary objective must be to remove normal operating expenses attendant to the operation of military bases from the R&D accounts and reflect such costs in the operating account requests.

COOPERATIVE EDUCATION

The conferees agree with the Senate position to lift the ceiling on the Defense Department Cooperative Education (Coop Ed) program. However, the conferees remain concerned the Defense Department might abuse the expanded Coop Ed authority, as it has in the past. Therefore, the conferees agree that the program should be devoted predominantly, but not exclusively, to recruitment of students pursuing scientific and technical career fields. The conferees will closely monitor the program to ensure the intent of the conferees is being followed.

Further, the conferees believe the use of Coop Ed students should not exclude recruitment of other individuals by the Defense Department such as college graduates who were not undergraduate Coop Ed students. To aid in recruiting these college graduates, the conferees direct that individuals who have received a baccalaureate degree and are attending accredited colleges and universities in advanced degree programs either full-time or in their off-duty hours should be eligible for this program.

The conferees understand these expansions of authority are consistent with existing personnel regulations as part of the Coop Ed program within the general appointments in the excepted service. The conferees expect the Defense Department to implement these recommendations.

PARTIAL HOSPITALIZATION

The Senate report included for the second year a directive that CHAMPUS begin a partial hospitalization mental health benefit. The conferees remain concerned that nearly 80 percent of all mental health expenditures under CHAMPUS are for in-patient care and accordingly, direct the Department to actively explore less costly alternatives such as partial hospitalization. The conferees intend that this approach shall expressly be targeted to reduce the use of inpatient hospitalization, rather than be viewed as an expansion of the overall mental health benefit. The conferees also agree that the Department should ensure that any partial hospitalization program approved for a patient is based upon medical or psychological necessity for the benefit solely of that patient and which could otherwise not be provided on an outpatient basis.

DRUG INTERDICTION

The conferees agree to the Senate allowance of $9,500,000 to modify three P-3A aircraft to be turned over to the U.S. Customs Service by the end of the fiscal year. Further, the Navy is expected to fund the flying hour program in support of Department of Treasury drug interdiction missions commensurate with the level of operations supported in fiscal year 1984.

OPERATION AND MAINTENANCE, ARMY

The conferees agree to provide $18,411,078,000 instead of $18,093,539,000 as recommended by the House and $18,574,318,000 as recommended by the Senate. Details of the adjustments are as follows:

[In thousands of dollars]

	House	Senate	Conference
Stock fund fuel refund	−421,700	−33,000	−421,700

Total, Operation and Maintenance—Army	−1,392,979	−912,200	−1,075,440

The following items represent language as agreed to by the conferees:

NATIONAL SCIENCE CENTER FOR COMMUNICATIONS AND ELECTRONICS

The conferees agree to provide the full $689,000 requested for the National Science Center for Communications and Electronics as recommended by the Senate. However, because of the inaccurate and often contradictory information provided by the Army on this matter, the conferees agree that these funds are not to be expended without the submission of a prior approval reprogramming request which clearly documents the total cost of the Center to the Army; the direct benefits to be obtained by the Army; the extent to which Army students

will use and benefit from the Center; a clearly defined set of reimbursable procedures which ensure the Army will pay only for costs related to its own mission; and the extent to which any additional legislation is necessary to permit establishment or operation of such a Center with Army participation. The conferees are concerned that without such documentation, this diversion of limited operation and maintenance resources might unnecessarily decrement higher priority Army readiness programs.

ARMY DEVELOPMENT (ADEA) AND EMPLOYMENT AGENCY

The conferees agree to provide $38,473,000 for the Army Development and Employment Agency, ADEA. In order to clarify the Army-wide application of ADEA activities, in particular for the new light division initiative, the conferees direct the Army to provide a report, by March 1, 1985, on the ADEA mission and current and planned accomplishments. The conferees address this issue further in the Research and Development portion of this report.

OPERATION AND MAINTENANCE, NAVY

The conferees agree to provide $25,116,241,000 instead of $24,688,941,000 as recommended by the House and $25,390,326,000 as recommended by the Senate. Details of the adjustments are as follows:

[In thousands of dollars]

	House	Senate	Conference
Military end strength reduction tail	−53,000		−8,000
Stock fund fuel refund	−347,500	−352,700	−352,700

Total, Operation and Maintenance—Navy	−1,559,485	−858,100	−1,132,185

The following items represent language as agreed to by the conferees:

OVERHAUL COMPETITION

The Senate recommended bill language instructing the Navy to test the concept of competition between public and private shipyards for ship overhauls. The conferees agree the Navy should proceed with the test in fiscal year 1985 in accordance with the procedures outlined by the Senate.

TAKX SHIP CHARTERS

The conferees agree to Senate bill language modifying existing statutes pertaining to TAKX ship leases to include recording of obligations for charter costs on an annual basis.

SHIP MAINTENANCE RESERVED FOR HOMEPORTS

The House included detailed report language addressing the Navy practice of reserving certain ship repair, alteration, and overhaul work for homeport private shipyards.

The conferees agree that current Navy policy with regard to homeport reservation does not recognize that ship maintenance and repair workload has, over the past several years, gradually increased the proportion being accomplished during Selected Restricted Availabilities (SRA) as opposed to during major overhauls. While this change toward SRAs is beneficial for operational requirements, and is cost-effective, the practice of allocating 100% of SRA workload to homeport areas and also continuing to reserve a minimum of 30% of the ship overhauls for these same homeports ignores the long-term adverse impact on the mobilization capability of critical non-homeport private shipyards. The conferees therefore agree that the Navy may reserve SRAs for homeport areas, but direct that the reservation of an arbitrary 30% of ship overhauls be terminated. However, to minimize the disruptive impact on Navy families associated with overhauls, up to 2 overhauls may be reserved for a single homeport during any one fiscal year. Inasmuch as this is an item of congressional interest, no funds are available to deviate from this policy without submission of a prior approval reprogramming to the Committees on Appropriations.

CERTIFICATION OF PRIVATE YARDS

The conferees agree that private shipyards without access to non-Navy piers and drydocks are disruptive to Navy operational requirements, contribute little to the industrial mobilization capability of the United States, and should therefore be immediately decertified from receiving further Navy ship repair, alteration, and overhaul work.

BIDDING PROCEDURES FOR SHIP REPAIR CONTRACTORS

The House directed the Navy to use Request For Proposal (RFP) instead of Invitation For Bid (IFB) contracting procedures to eliminate what appears to be a trend toward private shipyard "low-balling" to win contracts. This practice benefits neither the Navy nor the private yards because of the inevitable claims and delays, and has occasionally resulted in the Navy being required to tow the ship out of the "winning" bidders yard because it is unable to complete the overhaul.

The conferees agree that the Navy will not be required to use RFP procedures in all contracts. However, the Navy is directed to take appropriate action to prevent keen competition from becoming low-balling, and provide to the Committees on Appropriations an analysis of the extent to which such activity is taking place and the adverse impact, if any, which results.

OPERATION AND MAINTENANCE, MARINE CORPS

The conferees agree to provide $1,640,294,000 as recommended by the House instead of $1,633,469,000 as recommended by the Senate. Details of the adjustments are as follows:

[In thousands of dollars]

	House	Senate	Conference
Stock fund fuel refund	−1,900	−40,400	−26,500
Military end strength reduction tail	−15,000		−2,400

[H 10766, H 11436]

The following item represents language as agreed to by the conferees:

CT–39 REPLACEMENT AIRCRAFT OPERATIONS

The Senate included report language establishing a budgeting procedure to account for CT–39 replacement executive aircraft flying hours by Air Force user activities. Currently, the Air Force centrally budgets for these costs through the Military Airlift Command. The conferees agree to the budget procedure outlined by the Senate which will lend a degree of accountability and assign fiscal responsibility to the operating commands which benefit from these valuable training assets. As the operations of the CT–39 aircraft are dedicated to pilot training and proficiency objectives independent of transportation services, the Air Force should reserve not less than 50 percent of such flying hours for the priority cargo and personnel airlift needs of other Defense Department components.

OPERATION AND MAINTENANCE, DEFENSE AGENCIES

The conferees agree to provide $7,067,469,000 instead of $7,037,898,000 as recommended by the House and $7,126,470,000 as recommended by the Senate. Details of the adjustments are as follows:

[In thousands of dollars]

	House	Senate	Conference

Total, operation and maintenance—Defense agencies	−300,472	−211,900	−270,901

The following item represents language as agreed to by the conferees:

TRI-SERVICE MEDICAL INFORMATION SYSTEMS (TRIMIS)

The conferees agree that the Defense Department should proceed with the TRIMIS program. However, before the Request for Proposals (RFP) is released DOD must:

Develop a common TRIMIS data dictionary;

Validate and priortize the TRIMIS functional requirements, ensuring that the concerns and requirements of the service surgeons general have been identified, addressed, and resolved by the Assistant Secretary of Defense for Health Affairs;

Delete the Automated Medical Record functional description from the RFP;

Adopt an extended "benchmarking" evaluation acquisition strategy between at least two competing vendors including a mandatory requirement that one of the vendors use and adapt existing Veterans Administration software for TRIMIS use;

Proceed with the testing of the VA software at March Air Force Base to determine the feasibility and cost-effectiveness of using the VA software;

Ensure that any system ultimately implemented will be compatible across all DOD large and small hospitals, combat medical support units, and VA hospitals; and

Demonstrate to the House and Senate Committees on Appropriations compliance with the guidance listed above.

The General Accounting Office should continue its review of the TRIMIS program and specifically monitor the functional requirement validation process and the testing of the VA software at March Air Force Base. Moreover, the Department should acquire an independent evaluation of the benchmarking process by a qualified outside technical firm not involved in the TRIMIS competition.

With the decision to acquire TRIMIS under the strategy outlined above, the conferees direct that there is to be no further obligation of funds for operation, test, evaluation, or expansion of existing HIS (Hospital Information System) or IOC (Initial Operation Capability) medical systems except where necessary to meet the day-to-day needs of DOD medical facilities. Any resulting savings should be made available to the Assistant Secretary of Health Affairs for accelerating the TRIMIS contract. The conferees agree that funding should be centralized for the first several phases of system implementation to ensure compliance with the above guidance.

In order to fund the interim quality assurance system and necessary support for accelerating TRIMIS contract award, the conferees agree to restore $8,062,000 of the $16,062,000 deleted by the House.

OPERATION AND MAINTENANCE, ARMY RESERVE

The conferees agree to provide $724,400,000 as recommended by the House instead of $713,150,000 as recommended by the Senate. Details of the adjustments are as follows:

[In thousands of dollars]

	House	Senate	Conference
Organizational clothing and equipment	+3,750		+3,750
Medical equipment	+4,500		+4,500
Storage leases	+2,300		+2,300
Communications and automation upgrades	+1,200		+1,200
Shelter for the homeless	+500		+500
ADP leases	−1,000		−1,000
Items not in conference	−2,300	−2,300	−2,300
Total, operation and maintenance—Army Reserve	+8,950	−2,300	+8,950

OPERATION AND MAINTENANCE, NAVY RESERVE

The conferees agree to provide $827,181,000 as recommended by the House instead of $812,431,000 as recommended by the Senate. Details of the adjustments are as follows:

[In thousands of dollars]

	House	Senate	Conference
Stock fund fuel refund	−7,100	−17,100	−7,100
Marine Reserve flying hours	+2,800		+2,800

Total, operation and maintenance—Army National Guard	+32,400	−9,050	+19,650

The following item represents language as agreed to by the conferees:

ENVIRONMENTAL PROJECTS

The conferees agree to the increase of $400,000 as recommended by the Senate for

a one year test program to conduct engineering projects coordinated with state and other federal agencies at national or state parks and forests. To amplify on the parameters of the test, the conferees agree that such projects must be restricted within the United States and territories. The test projects selected must enhance military related training and must not compete with projects which would otherwise be performed by private concerns.

Operation and Maintenance, Air National Guard

The conferees agree to provide $1,810,348,000 as recommended by the Senate instead of $1,844,531,000 as recommended by the House. Details of the adjustments are as follows:

[In thousands of dollars]

	House	Senate	Conference
Stock fund fuel refund	−21,600	−69,000	−55,783

Civilian technicians	+8,083		+8,083
Items not in conference	+17,200	+17,200	+17,200
Total, operation and maintenance—Air National Guard	−17,617	−51,800	−51,800

Court of Military Appeals

The conferees agree to provide $2,870,000 as recommended by the House instead of $3,416,000 as recommended by the Senate.

Environmental Restoration, Defense

The conferees agree to provide $314,000,000 as recommended by the Senate instead of no appropriation as recommended by the House.

Title III—Procurement

The conferees agree to the following amounts for the Procurement accounts:

	Fiscal year 1985 estimates	House	Senate	Conference
TITLE III—PROCUREMENT				
Aircraft procurement, Army	4,008,300,000	3,725,300,000	3,950,100,000	3,940,900,000
(Transfer from other accounts)		(30,000,000)	(30,000,000)	
Missile procurement, Army	3,442,400,000	3,183,500,000	3,150,400,000	3,167,000,000
(Transfer from other accounts)		(25,000,000)		
Procurement of weapons and tracked combat vehicles, Army	5,092,700,000	4,673,100,000	4,421,735,000	4,548,100,000
(Transfer from other accounts)		(239,800,000)	(213,100,000)	
Procurement of ammunition Army	2,494,000,000	2,011,700,000	2,625,050,000	2,646,300,000
(Transfer from other accounts)		(44,000,000)	(44,000,000)	
Other procurement, Army	6,022,400,000	4,989,510,000	5,256,850,000	5,122,450,000
(Transfer from other accounts)		(47,800,000)		
Aircraft procurement, Navy	11,474,200,000	10,808,198,000	10,818,295,000	10,903,798,000
(Transfer from other accounts)		(75,000,000)		
Weapons procurement, Navy	4,650,860,000	4,246,460,000	4,395,960,000	4,353,611,000
(Transfer from other accounts)		(50,000,000)	(20,000,000)	
Shipbuilding and conversion, Navy	13,141,900,000	10,708,000,000	11,558,300,000	11,736,000,000
(Transfer from other accounts)		(588,000,000)	(347,400,000)	
Other procurement, Navy	5,953,900,000	5,063,667,000	5,533,376,000	5,341,614,000
(Transfer from other accounts)		(85,700,000)		
Procurement, Marine Corps	1,978,581,000	1,791,247,000	1,860,796,000	1,836,722,000
(Transfer from other accounts)		(7,500,000)		
Aircraft procurement, Air Force	28,676,500,000	24,906,866,000	26,376,700,000	26,188,266,000
(Transfer from other accounts)		(549,500,000)	(111,000,000)	
Missile procurement, Air Force	9,820,600,000	7,361,749,000	8,581,862,000	6,909,245,000
(Transfer from other accounts)		(15,000,000)

AH–64 APACHE ATTACK HELICOPTER

The conference agreement for the AH–64 Apache attack helicopter is $1,159,200,000 for 144 aircraft instead of $1,119,200,000 as proposed by the House and $1,199,200,000 as proposed by the Senate. If additional resources are required to procure 144 aircraft, a reprogramming will be considered. The conferees agree to provide $87,600,000 in advance procurement for 144 aircraft.

The conferees also direct that eighteen of the AH–64 Apache helicopters funded in the bill be assigned to the Army National Guard in conformance with report direction of both the Senate and House Committees. Bill language has been included to effect this assignment.

UH–60A BLACKHAWK HELICOPTER

The conferees agree to provide $288,300,000, funding an additional eight UH–60's out of program savings and direct that out of the total buy of 86, 8 helicopters shall be provided to the Army National Guard as proposed by the House. Four of those UH–60's shall be provided to the Alaska National Guard. Four of the eight additional helicopters are intended as replacement for aircraft previously provided to the Treasury Department as proposed by the Senate. The conferees further agree that 2 more helicopters should be loaned to the Treasury Department subject to later replacement.

C–12 AIRCRAFT

The House proposed $24,000,000 for 12 C–12s. The Senate proposed $12,000,000 for 6 aircraft. The conferees agree to $24,000,000 for 12 C–12s, 6 of which shall be for the Army National Guard, and 6 for replacement aircraft provided to the Treasury Department's drug control program.

AIRCRAFT SPARES

The House allowance was $554,400,000 compared to a Senate allowance of $702,000,000. The conferees agree to an allowance of $675,900,000 including $302,000,000 for initial spares, $280,600,000 for replenishment spares, and $93,300,000 for war reserve spares. This increase in replenishment spares is to support increases in the Army flying hour program.

MISSILE PROCUREMENT, ARMY

The conferees agree to the following amounts for Missile Procurement, Army:

[In thousands of dollars]

	Budget	House	Senate	Conference
MISSILE PROCUREMENT, ARMY

TOW–II MISSILE

The conferees agree to provide $132,300,000 for at least 6,000 TOW–II missiles. The conferees expect the Army to combine these 6,000 missiles with the $18,000 funded last year to level production at $12,000 per year for the 1984–85 program as proposed by the May budget revision.

In addition, the conferees provide $16,200,00 to support the first production surge program on a test basis but do not approve the multiyear procurement of the missile. The surge funds are provided only for increased levels of long lead materials and not for increased levels of tooling and test equipment. The conferees ask to be notified of the Department's plans to apply these extra long lead materials to a production program now that the program is being stretched out.

PROCUREMENT OF WEAPONS AND TRACKED COMBAT VEHICLES, ARMY

The conferees agree to the following amounts for Procurement of Weapons and Tracked Combat Vehicles, Army:

[In thousands of dollars]

	Budget	House	Senate	Conference
PROCUREMENT OF WEAPONS AND TRACKED COMBAT VEH

DIVISION AIR DEFENSE GUN SYSTEM (DIVAD)

The conferees agree that, due to the continuing lack of proven performance and the absence of conclusive operational test and evaluation, no funding is provided for the fiscal year 1985 procurement of DIVAD fire units. Instead, $100,000,000 is provided in fiscal year 1985 for the DIVAD program, the revised amount proposed by the Secretary of Defense. These funds may be obligated only for long lead materials needed to protect the option of a potential fiscal year 1986 procurement. The conferees also agree to reductions of $32,800,000 for DIVAD spares and $31,200,000 for DIVAD ammunition below the revised May budget requests, the balance of these funds to be used solely for building the inventories for previously funded DIVAD fire units. The conferees further agree to bill language, similar to that proposed by the Senate, stating that no funds may be expended for the Division Air Defense system until—

1. Initial production testing and the fiscal year 1985 operational testing of such system have been completed;

2. The Secretary of Defense has reported to the Armed Services and Appropriations Committees of the Congress the results of the testing and has certified to the Committees that (a) additional production of the Division Air Defense system is in the national interest to counter the present and projected Soviet threat, and (b) the system satisfactorily meets all design and performance requirements, and

3. A period of at least thirty days has elapsed after the day on which the Committees have received the report and certification, such date to be not later than sixty days after the completion of either initial production testing or the fiscal year 1985 operational testing, whichever is later.

The conferees hereby express their strong concern over the scope and nature of the DIVAD tests conducted to date and will accordingly take an avid interest in the conduct and evaluation of forthcoming tests. Future support for the DIVAD system is contingent upon a determination by the Secretary of Defense that, after having examined all available alternatives, the DIVAD system is the most cost-effective response to our forward air defense requirements.

9MM PERSONAL DEFENSE WEAPON

The conferees support the 9mm Personal Defense Weapon program as presented to the Congress by the Department of Defense for the fiscal year 1985 budget. Expedited transition to this new standard handgun will ease the logistics burden and accelerate standardization among U.S. services and our NATO allies. To help accomplish this objective, the technical data package for the selected handgun should be qualified as soon as possible so that the Army can consider an overlapping second multiyear procurement from a competitive contractor. The Army should consider designating ammunition for handguns and submachine guns as a mobilization-base item.

MORTARS

The conference agreement includes the $11,300,000 budgeted for the second procurement of the Improved 81mm mortar. This is based on the Army's decision to include this mortar in its new force structure. The Army has also decided to introduce a 120mm mortar to replace the 4.2 inch mortar as a heavy mortar. The conferees expect the Army to report expeditiously on plans to phase-in the new force structure, including milestones and budget requirements for both mortars and ammunition.

The conference agreement also includes $13,338,000 earmarked in Research, Development, Test and Evaluation, Army to approve a 120mm mortar for service use. The conferees further agree that when such approval is achieved, a portion of these funds may be transferred to the procurement appropriation to initiate procurement using normal reprogramming procedures.

105MM TANK GUN MODS

The conferees deny the $3,000,000 budgeted to initiate procurement for the 105 mm tank gun modifications without prejudice. The conferees support this program, but procurement in fiscal year 1985 appears premature.

PROCUREMENT OF AMMUNITION, ARMY

The conferees agree to the following amounts for Procurement of Ammunition, Army:

[In thousands of dollars]

	Budget	House	Senate	Conference
Procurement of Ammunition, Army				
Cartridge, 5.56mm, ball	57,200	35,100	57,200	57,200
Cartridge 9mm ball (hand gun)	1,400	1,400		1,400

MORTAR AMMUNITION

The conference agreement includes $67,900,000 in a general line for procurement of mortar ammunition. This approach is being used because of the uncertainty of mortar ammunition requirements resulting from recent decisions concerning the Army's mortar force structure. The conferees direct the Army to submit to the Committees on Appropriations for approval its allocation of this budget line. The conferees expect that future budget submissions will include P–1 lines for specific end-items as in the past.

As explained under "Procurement of Weapons and Tracked Combat Vehicles", the conferees expect the Army to report soon on its plans to phase-in the new mortar force structure. A portion of the funds included on the mortar ammunition line may be used to initiate procurement of 120mm mortar ammunition if such a procurement can be executed in fiscal year 1985.

WAR RESERVE AMMUNITION

The conference agreement provides $401,900,000 in an unallocated line for war reserve ammunition. This Congressional initiative is intended to enhance Army readiness and sustainability. The conferees disapprove the reprogramming of $48,600,000 within "Procurement of Ammunition, Army 1984/1986" proposed in request FY 84–36PA to initiate the RDX/HMX modernization program, but provide that $19,500,000 may be reprogrammed for initial design efforts at the lead RDX plant. The conferees direct the application of the remaining funds to procure war reserve ammunition to begin this initiative. The conferees direct the Army to present to the Committees, for approval, its allocation of these additional funds.

With respect to the budget proposal to stockpile explosives and propellants, the conferees note that neither the effects of the improved production capacity at Holston AAP nor the use of the proveout product from the new facilities had been considered in the RDX/HMX master plan. When these are considered, the stockpile requirement is less than stated in the plan. The conferees direct that the stockpile plan be revised to take into consideration those two considerations and the Congressionally funded RDX/HMX master plan. In the interim, the proposed stockpiling program is deferred.

RDX/HMX PRODUCTION FACILITIES

The House bill included no funding for RDX/HMX facilities; the Senate bill included $80,000,000. The conference agreement provides $60,000,000 for the following:

	Budget	Conference
Holston Modernization	$24,000	$24,000
HMX Musall Pilot Plant	0	4,000
RDX Production Facilities (Design)	0	32,000
Total	24,000	60,000

The conference agreement recognizes that $20,000,000 proposed by the Senate for the RDX to HMX conversion projects at Holston Army Ammunition Plant (AAP) can not be executed because of incomplete work making 1985 funding premature. This projects no slips to 1986 pending completion of necessary design work.

The conferees recommend full funding for the Holston AAP modernization projects as proposed by the Senate, but stipulate that these activities shall be carried out only under fixed price contracts.

The conferees direct that the $3,000,000 HMX Musall process demonstration project at Longhorn AAP be started as soon as possible, and hereby approve the fiscal year 1983 reprogramming needed for that purpose. Based upon that initiation of the demonstration, the conferees recommend $4,000,000 to initiate final design efforts for the "scale pilot HMX" plant at Longhorn AAP needed before construction of the pilot plant or initiation of work on the proposed full scale HMX Musall manufacturing facility. This recommendation is in lieu of the Senate's allocation of $4,000,000 for the HMX manufacturing facility for which $11,000,000 was requested in the budget.

Finally, the conferees recommend a total of $32,000,000 for design and engineering work on the mobilization base RDX manufacturing facilities. This funding is needed to ensure completion of the necessary design work to support future budget requests and construction through fixed price contracts. The conferees understand that this level of funding is all that can be effectively used in 1985.

The conferees direct that one plant, Louisiana AAP, be designated as the lead plant in the multiple RDX production plant program authorized by Congress this year. The $32,000,000 for RDX facilities shall be allocated for design efforts as follows: $10,000,000 for Louisiana AAP, $10,000,000 for Joliet AAP, $10,000,000 for Alabama AAP; $1,000,000 for Indiana AAP, and $1,000,000 for Iowa AAP. The conferees expect that construction of the lead facility should be started first if adequate funding is not available for concurrent construction of more than one plant. Further, the conferees direct the Army to study the cost effectiveness of multiple RDX manufacturing sites, and report to the Committees on Appropriations of the House and Senate before additional site specific work is undertaken.

The conferees reiterate the House's expectations that all construction will be budgeted and executed under fully funded fixed price contracts, and direct the Army to respond to questions and concerns raised in the House report and reprogramming letter before obligating any fiscal year 1985 funds.

OTHER PROCUREMENT, ARMY

The conferees agree to the following amounts for Other Procurement, Army:

[In thousands of dollars]

MOBILE SUBSCRIBER EQUIPMENT (MSE)

The Mobile Subscriber Equipment (MSE) program is a communications system to provide mobile and stationary users at corps and division levels with automatic, secure communications. The Army budgeted $110,000,000 to initiate procurement of the MSE program as a non-developmental item (NDI)—i.e., there would be no government funding for RDT&E.

The conferees note that an RFP (request for proposal) for this program was recently issued, and the response to that RFP will help to clarify various issues including whether (1) MSE is fully interoperable with other U.S. communications equipment, (2) MSE will be used on light weight U.S. vehicles for mobility, and (3) MSE capacity will be adequate for both voice and data for the modern automated battlefield. The conferees also note that the MSE request for proposal has a long list of priced options and desired features which include such things as interoperability, mobility, and anti-jamming. The response to the RFP will enable the cognizant Congressional Committees to accurately assess the ultimate cost effectiveness of the program.

The conferees recommend a total of $63,250,000, as proposed by the Senate, none of which may be obligated until Congress is provided the details of the specific equipment to be included in the program, the associated testing results of that equipment, and the proposed funding schedule. It is further agreed that future funding commitments to this program not be made until the scheduled user evaluation is completed.

ARMORED COMBAT EARTHMOVER

The conference agreement provides $24,100,000 the amount appropriated in fiscal year 1984. The conference agreement also rescinds fiscal year 1984 authority to enter a multiyear contract using fiscal year 1984 funds, as proposed by the Senate. These actions are taken in recognition of program slippage. The conferees urge the Army to expedite testing so that results can be known in time for deliberations on the fiscal year 1986 budget. Additional multiyear authority will be considered if the Army can demonstrate that the program meets the criteria, and has the firm support of the Army.

REMOTELY PILOTED VEHICLE

The conferees deny procurement funding for the remotely piloted vehicle without prejudice. Based on the current program plan, it does not appear that even advance procurement can be obligated in fiscal year 1985. If future testing is completely successful, and if the Army can demonstrate that advance procurement is necessary and justified, in fiscal year 1985 the Committees will consider a reprogramming.

AIRCRAFT PROCUREMENT, NAVY

The conferees agree to the following amounts for Aircraft Procurement, Navy:

[In thousands of dollars]

	Budget	House	Senate	Conference
AIRCRAFT PROCUREMENT, NAVY				
BA–1 Combat aircraft

CH–53E HEAVY LIFT HELICOPTER

The conferees fully expect the Navy to execute the four year, 56 aircraft multiyear procurement profile as submitted to the Congress.

C–12

The C–12 is a common utility transport aircraft in all the Services and there is a common logistics support system for the 207 C–12 aircraft throughout the force structure. In order to reduce support costs, the

Navy should provide all logistics support, maintenance and supply for C-12 aircraft on a joint package basis with the other Services.

AH-1T ATTACK HELICOPTER

The conferees agree that any savings for the AH-1T program be used to procure two additional AH-1T helicopters to replace those helicopters that were lost in Grenada. If additional funds are not totally sufficient to cover the flyaway cost of an aircraft, the conferees will consider a reprogramming action to cover any additional costs.

NAVY ADVERSARY AIRCRAFT

The conferees agree that, in order to take advantage of the economies associated with larger quantity procurement and to expand the number of eligible candidate aircraft, the Navy should combine the $28,700,000 appropriated in fiscal year 1984 for procurement of Navy Adversary aircraft with the $116,800,000 provided herein (for fiscal year 1985) for that purpose. The Navy is directed to cancel any procurement activities taken in connection with the fiscal year 1984 appropriation. The combined total of $125,500,000 shall be used by the Navy to initiate its Adversary replacement program, and the Navy is encouraged to minimize the cost of this program with innovative procurement practices such as commercial type pricing and operational/support warranties. The conferees also believe that further economies may be realized if both the Navy and the Air Force modernize their Adversary/Aggressor aircraft with a common replacement aircraft. Accordingly, the Secretary of the Navy and Secretary of the Air Force are directed to provide a report by January 1, 1985, on the desirability of a common program for Adversary/Aggressor replacements. If a common replacement aircraft program is selected, the Air Force should be the procuring agency since its total requirement is significantly larger than the Navy's.

UH-60 HELICOPTERS

The conferees agree that there is a critical shortage of Navy aircraft capable of meeting combat search and rescue (CSAR) and light attack missions (HAL). Also, there is concern that the continued slippage in the Carrier Variant Helicopter program (CV Helo) will seriously impact the operational availability of the current helicopter squadrons.

Taking these issues into consideration, the conferees agreed to add $12,000,000 to purchase two UH-60 helicopters. Since the contract award for the Carrier Variant Helicopter is forthcoming, the conferees believe that the Navy should have the option to use these helicopters for either Combat Search and Rescue or early demonstration prototypes for the CV Helo program. If the option to use one or both these aircraft as CV Helo prototypes, in order to make up for the slippage in the program, is both practical and desirable, the Navy, upon completion of a CV Helo activity, is directed to return/replace these aircraft in the Navy reserve program for Combat Search and Rescue Squadrons. It is also the conferee's intent that these helicopters go directly into Reserve Combat Search and Rescue Squadrons if the Navy chooses not to use any of these aircraft as CV Helo prototypes.

Additionally, the conferees agree with the House language that requests a detailed plan by March 1, 1985, outlining the requirements and mission objective for the Naval Reserve Combat Search and Rescue Squadrons. This report should include the following: (1) specific characteristics of selected aircraft; (2) number of aircraft required and cost to complete the program; (3) adequacy of funding programmed in fiscal year 1986 and beyond; and (4) planned modification to the force structure and implications of combining CSAR and HAL missions.

AN/AQA-7

IMPROVEMENT PROGRAM FOR NAVAL RESERVE P-3 AIRCRAFT

The conferees agree that the AN/AQA-7 processing system must have an improved display system incorporated in the 135 P-3A and P-3B Naval Reserve Aircraft. Accordingly, the conferees agree to add $7,500,000 to procure five service test models of the improved AQA-7 display sytem in order to test and evaluate this system to determine fleet operability and suitability.

F-14 MODERNIZATION PROGRAM

The conferees agree to the House position which adds $68,000,000 to the F-14 modification line to accelerate the modernization of F-14A's for the Naval Reserve.

WEAPONS PROCUREMENT, NAVY

The conferees agree to the following amounts for Weapons Procurement, Navy:

[In thousands of dollars]

AIR/RIM-7F/M SPARROW

The conferees agree to provide $278,000,000 for AIM/RIM-7F/M Sparrow, instead of $245,500,000 as proposed by the House, or $288,000,000 as proposed by the Senate. In addition, the Senate recedes to the House in the proposed application to Sparrow of a $20,000,000 transfer from Weapons, Procurement, Navy, 1984/1986. The Navy is directed to procure the maxium possible number of missiles with this $278,000,000.

AIM-54A/C PHOENIX

AIM-54A/C PHOENIX ADVANCE PROCUREMENT

The conferees agree to provide $314,000,000 for Phoenix, instead of $310,500,000 as proposed by the House, or $317,000,000 as proposed by the Senate; and $24,400,000 for Phoenix Advance Procurement as proposed by the House, instead of $17,300,000 as proposed by the Senate.

The House proposed that $30,000,000 included in last year's funds for Phoenix production to facilitize the current sole source contractor from 40 to 55 missiles per month be used instead to fund actions related to establishing a second source. The conferees agree to setting aside these funds for this purpose, and direct the Navy to provide to the Committees on Appropriations a plan detailing the second source program, to include a financial analysis of recoupment of start-costs before proceeding. To implement its proposal, the House included a bill provision transferring $30,000,000 of fiscal year 1984 funds into fiscal year 1985. Because these funds are available for three years, the conferees agree that such a transfer is unnecessary, and have not included transfer language in the bill.

AGM-88A HARM

The conferees agree to provide $278,200,000 for AGM-88A HARM, instead of $248,200,000 as proposed by the House, or $289,700,000 as proposed by the Senate. The Navy is directed to procure the maximum possible number of missiles with these funds.

The conferees agreed last year on sole source procurement of HARM "with the specific proviso that development of an alternate seeker will be accelerated in order that a block change can be made at the earliest possible date." The conferees reaffirm that proviso. The Navy is directed to develop an alternate seeker as rapidly as possible, so that it can be transitioned quickly into production and form the basis of a cost-cutting block change in HARM in the near future. Additional language on the Low Cost Anti-Radiation Seeker is provided in the RDT&E, Navy section of this report.

MK-48 ADCAP

The conferees agree to extend the restriction on the obligation of MK-48 ADCAP funds until the CNO review board reviews the program and certifies that the established requirements are met. It is not the intent of the conferees to disrupt the development of a second source and, accordingly, the conferees impose no objection to the obligation these funds required to establish a second source.

SUPPORT EQUIPMENT AND FACILITIES

The conferees agree to the Senate position which directs that $2,500,000 be used to reconstruct the solvent preparation building at the Allegheny Ballistic Laboratory.

SHIPBUILDING AND CONVERSION, NAVY

The conferees agree to the following amounts for Shipbuilding and Conversion, Navy:

Transfer from other accounts		(588,000)	(347,400)	
Total funding available	13,141,900	11,296,000	11,905,700	11,736,000

CG-47 AEGIS CRUISER

The conferees agree to an allowance of $2,883,000,000 for three CG-47 cruisers. Prior to the obligation of funds for solid state frequency converters, propellers, and vertical package/stores conveyors, a second source must be developed in order that these systems can be competitively awarded.

The conferees have also included $83,000,000 in advance procurement, and bill language instructing the development of a second source for the AEGIS SPY-1 radar system. In this regard, the Navy must submit a plan to accompany the fiscal year 1986 budget request which outlines the procurement strategy for second source selection. The Navy should prepare bid solicitations, and evaluations in a timely manner for selection of the second source by the end of the fiscal year.

An additional $19,000,000 of advance funding provides for MK-45 gun multiyear procurement.

DDG-51

The conferees agree to an allowance of $1,050,000,000 for the lead DDG-51 destroyer. Prior to obligating funds for solid state frequency converters, vapor compression distillation system, and vertical package/stores conveyors, a second source be developed in order that these systems can be competitively awarded.

The conferees also agree that sufficient amounts within this appropriation are available to begin establishing a second source for ship construction in order that a second shipyard can be introduced into the follow-on procurement of the DDG-51 which is currently planned for fiscal year 1987.

FISCAL YEAR 1984 GUIDED MISSILE FRIGATE PROGRAM

The conferees agree to the Senate bill language pertaining to the release of $340,000,000 in appropriated funds for the fiscal year 1984 FFG-7 frigate program previously committed by a legislative requirement to construct the ship with a MK-92 fire control system and phased array upgrade. In addition, the conferees agree to expand the enabling language by making $36,300,000 available from fiscal year 1983 shipbuilding funds to fiscal year 1984 in order to complete full funding required for the FFG-61. The following table displays the fiscal year 1983 shipbuilding program sources.

Program	*Amount*
FFG-7 Guided missile frigate	$9,200,000
SSN-688 Attack submarine	6,400,000
T-AH Hospital ship	3,400,000
T-AO Fleet oiler	7,300,000
Escalation on prior year programs	10,000,000
Total transfer	36,300,000

T-AVB LOGISTICS SHIP ADVANCE PROCUREMENT

The conferees agree to an allowance of $5,200,000 for T-AVB Aviation Logistics Support Ship advance procurement in conformance with the House position. While the Senate concurs in the provision of funds for battery chargers, pumps, fork lifts and other long lead items. The conferees recognize that the primary purpose for the advance procurement funding is to retain favorable contract option prices for the second T-AVB conversion planned for fiscal year 1986.

T-ACS CRANE SHIPS

The conferees instruct the Secretary of the Navy to submit any budget request in fiscal year 1986 for additional T-ACS crane ship conversions in compliance with the full funding policy. In accordance with the Senate report language, the Navy should seek the concurrence of the Appropriations Committees if additional ship conversions in fiscal year 1985 can be attained. In addition, the conferees concur in the House report language directing the establishment of a cadre of reservists to perform the T-ACS mission requirements. The Secretary of the Navy shall report to the Committees on Appropriations on the results of the evaluation of T-ACS requirements as instructed by the House.

T-AO FLEET OILER

The conferees agree that source selection considerations for the T-AO program should continue to emphasize both price and preservation of the industrial base.

OTHER PROCUREMENT, NAVY

The conferees agree to the following amounts for Other Procurement, Navy:

[In thousands of dollars]

	Budget	House	Senate	Conference
Other procurement Navy:

SEALIFT SUPPORT EQUIPMENT

The conferees agree to an allowance of $18,500,000, and encourage the Navy to reprogram funds, if necessary, to fully fund the procurement of 160 Seasheds.

COMMUNICATIONS AND ELECTRONICS EQUIPMENT

AN/SQR-17 ACOUSTIC PROCESSOR

The conferees are concerned that the Navy's proposed cut in AN/SQR-17 production could disrupt production schedules, increase costs, and most importantly delay fleet introduction of this improved capability.

Consequently, the conferees support the original procurement profile and direct that the Navy procure 26 systems, as originally planned, using non-antisubmarine assets within the communications and electronics equipment budget activity.

In a related matter, the video generator drawer utilized in the AN/SQR-17 is also used in the acoustic system of the Carrier ASWM and is planned for use in the display upgrade of the P-3 AQA-7 acoustic processor. In order to further capitalize on the cost effectiveness and commonality of this advanced technology across technically similar Naval weapons systems suites, and to establish a lower cost second source alternative to counter the high cost of current Navy combat systems, the conferees direct that the Navy procure three modified AN/SQR-17 video generator drawers for system testing as part of the AN/SQQ-89 ASW combat suite. After successful completion of the applicable testing routines, the Navy shall develop a production baseline that will allow competition of follow-on buys of this equipment for utilization in CG-47 and DDG-51 combatants. The conferees expect the Navy to proceed with this effort forthwith.

FFG-7 MK-92 UPGRADE PHASE II (CORT)

Since the Secretary of the Navy has approved the MK-92 Upgrade Phase II (CORT) program, the conferees would not interpose an objection to the reprogramming of funds to or within the Other Procurement, Navy appropriation to procure production units of the MK-92 Upgrade Phase II (CORT).

ORDNANCE SUPPORT EQUIPMENT

QUICKSTRIKE MINES

The conferees agree to the House language on the Quickstrike Mine program.

PERSONAL AND COMMAND SUPPORT EQUIPMENT

UNDERWATER SECURITY SYSTEMS

The conferees agree to the Senate language on Underwater Security Systems, but the agreement provides only research funding.

PROCUREMENT, MARINE CORPS

The conferees agree to the following amounts for Procurement, Marine Corps:

[In thousands of dollars]

	Budget	House	Senate	Conference
Procurement, Marine Corps				
Small arms ammo, all types	12,646	12,646	12,246	12,646

Total funding available	1,978,581	1,798,747	1,860,796	1,836,722

UNIT LEVEL CIRCUIT SWITCH (ULCS)

The conferees note that additional testing and evaluation is needed for the Unit Level Circuit Switch (ULCS). The conferees deny the $14,873,000 requested for first year procurement by the Marine Corps and the $11,800,000 for initial procurement by the Air Force of the ULCS. The conferees recommend a total of $11,745,000 for ULCS Life Cycle Support for the Marine Corps, which may be used to buy life cycle support equipment only upon the completion of the special verification tests, production approval by the Marine Corps Systems Acquisition Review Council, and approval by the cognizant Congressional Committees. In no case may these funds be obligated before it is certain that the Marine Corps is committed to a procurement program.

AIRCRAFT PROCUREMENT, AIR FORCE

The conferees agree to the following amounts for Aircraft Procurement, Air Force:

[In thousands of dollars]

	Budget	House	Senate	Conference
AIRCRAFT PROCUREMENT, AIR FORCE				
Combat Aircraft				
Strategic offensive:

B-1B

The conferees agree to provide $5,526,600,000 for the procurement of 34 B-1B bomber aircraft, which is a budget reduction of $31,600,000. The reduction is due to deferral of CSRL conversion kits as stated in the House report.

The conferees decided not to reduce B-1B management reserves as proposed by the House. This agreement is solely to provide the Air Force with maximum flexibility during its final B-1B contract negotiations and to ensure the $20,500,000,000 constant 1981 dollar cost ceiling is not exceeded. Due to the low consumption of change order funding to date, there is a strong possibility that the full amount budgeted for change orders will not be needed. As stated in the Senate report, the Air Force is expected to provide a full accounting of B-1B costs after the major contracts are awarded and to submit a formal 1986 budget amendment to reflect any savings.

F-15

The conferees agree to provide $1,778,400,000 for the procurement of 42 F-15 aircraft in fiscal year 1985 and $176,400,000 for advance procurement of 48 F-15's in fiscal year 1986. The weapon system line was reduced by $65,000,000 as follows:

	Amount
Reduction of 6 aircraft	−$154,200,000
Engine competition	+123,800,000
Engine warranty	−43,000,000
Dual role fighter	+37,500,000
Support equipment	−20,000,000
Management reserve	−9,100,000
Net Reduction	−65,000,000

F-16

The conferees agree to provide $2,446,400,000 for the procurement of 150 F-16 aircraft in fiscal year 1985 and $586,800,000 for advance procurement of 180 F-16 aircraft in fiscal year 1986. The conferees also agree to the House bill language approving a F-16 multiyear procurement of 720 F-16's in fiscal years 1986 to 1989, of which 72 F-16's shall be provided to the Reserve Forces by 1991; and providing that 30 of the F-16 aircraft for which funds are appropriated in the Act shall be provided to the Reserve Forces. The conferees also agree with the Senate language which directs that the F-16 multiyear contract include prenegotiated options for any additional budgeted aircraft purchase and that the unit cost of these additional aircraft should not exceed the average unit cost of aircraft in the basic multiyear contract. The weapon system line was reduced by $514,400,000 as follows:

	Amount
Engine competition	−$319,900,000
Support equipment	−105,000,000
Bomb rack	−67,000,000
Management reserve	−15,400,000
FMS engine savings	−11,000,000
Customs Service Radars	+3,900,000
Net reduction	−514,400,000

C-5B

The conferees agree to provide $1,378,000,000 for the procurement of 8 aircraft in fiscal year 1985. The weapon system line was adjusted as follows:

	Amount
Budget Revision reduction of 2 aircraft	−$294,600,000
Excessive change orders	−72,200,000
Simulators	−25,000,000
Management reserves	−19,100,000
ANG support equipment for Stewart AFB	+16,700,000
Net reduction	−394,200,000

The conferees request to be kept informed of the results of any contract renegotiations which further reduce program cost.

C-130H

The conferees agree to provide 16 C-130H aircraft in fiscal year 1985, of which eight are for the Air National Guard and eight are for the Air Force Reserve as stated in the Act. The conferees reiterate the Senate observation that the Air Force must budget for its own C-130H requirements. It is further requested that the Committees on Appropriations be notified of any planned reassignment out of the Reserve Forces of C-130H aircraft provided as part of the Reserve Forces C-130A modernization program.

C-20A

The conferees agree to provide $51,900,000 for the procurement of 3 aircraft in fiscal year 1985, which is a reduction of $3,200,000 from the budget request due to excessive management reserves.

FLIGHT INSPECTION AIRCRAFT

The conferees agree to provide $20,000,000 for the procurement of one flight inspection aircraft in fiscal year 1985. The conferees do not totally agree with the House language, and direct that the competition for this procurement be based on both performance and total life cycle cost.

TR-1/U-2

The conferees agree to provide $168,900,000 for the procurement of 4 aircraft in fiscal year 1985. The budget request was reduced by $35,700,000 for classified programs and by $6,000,000 due to excessive management reserves.

C-12 OPERATIONAL SUPPORT AIRCRAFT

The House provided $12,000,000 for 6 C-12J aircraft for the Air National Guard. The Senate provided $8,000,000 for the modification on a test basis of 2 C-131s, the current operation support aircraft. The conferees agree that it is imperative that adequate operational support airlift is provided to the state National Guard headquarters. To that end, the conferees provide $12,000,000 for 6 new C-12Js and $8,000,000 for the test modification of 2 C-131s.

The Department of Defense is directed to insure that all essential National Guard operational support airlift requirements are filled to include using up to 15 of the C-12s leased by the Air Force if necessary.

B-52 MODIFICATIONS

The conferees agree to provide $466,500,000 for B-52 aircraft modifications in fiscal year 1985, a reduction of $107,700,000 as follows:

	Amount
Pave Mint	−$15,900,000
Defensive Fire Control System	−12,000,000
Common Strategic Rotary Launcher	−79,800,000
Total	−107,700,000

No funds are provided for the procurement of the Common Strategic Rotary Launcher and associated airframe modifications since the design has not been proven, flight tests will not be completed until mid-1986, and the Armed Services Committees did not provide a full authorization of the procurement funds requested by the Air Force. This action does not preclude the Air Force from spending a limited amount on long lead internal launcher system items if it becomes critical to avoid a schedule delay. In that case, the Appropriations Committees will entertain a reprogramming request. The conferees also direct the Air Force to develop and present to the Armed Services and Appropriations Committees of Congress a comprehensive test plan and schedule prior to incurring major procurement expenses for internal ALCM carriage capability.

CRAF

The conferees agree to provide bill language that allows the Air Force to apply $144,800,000 appropriated in fiscal year 1983 for procurement of (C-19) commercial wide body aircraft to the Civil Reserve Air Fleet modification program.

KC-135 REENGINING

The Senate recommended $737,100,000 for the KC-135 tanker aircraft modification program and provided for the use of $89,300,000 from fiscal year 1984 savings to fund 43 authorized engine modification kits. The House recommended $826,500,000 for the 43 kits, but made no assumptions on the use of prior year savings. The conferees agree to the House allowance, but specify that the Air Force may procure no more than 43 engine and airframe modification kits in fiscal year 1985.

F-15 MODIFICATIONS

The conferees agree to provide $115,100,000 for F-15 modifications, a decrease of $15,000,000 of which $9,500,000 is due to antisatellite (ASAT) modifications and $5,500,000 is due to a modification for improved communications and navigation that had been appropriated in fiscal year 1984 as shown in the House report.

SPARES AND REPAIR PARTS

The conferees agree to provide $5,362,100,000 for the procurement of aircraft spares and repair parts in fiscal year 1985. This is a reduction of $628,100,000 from the budget request as follows:

Initial spares:	
B-1	−$50,000,000
F-15	−49,200,000
F-16	−124,100,000
C-5B	−18,100,000
KC-10	−1,000,000
C-130H	+12,000,000
C-12J	+3,000,000
Classified projects	−17,500,000
Flight control aircraft	+3,000,000
C-135 Mods	−7,500,000
Total	−249,400,000
Replenishment spares:	
B-1	−17,200,000
F-4E	−5,000,000
T-39	−4,500,000
Flying hour reduction	−32,000,000
General reduction	−320,000,000
Total	−378,700,000
Grand total	−628,100,000

COMMON GROUND EQUIPMENT

The conferees agree to provide the authorized amount, $629,500,000.

WAR CONSUMABLES

The conferees agree to provide $116,500,000 for procurement of war consumables in fiscal year 1985, a reduction of $118,900,000 from the budget request as follows:

Bomb rack	−$71,000,000
AMRAAM launchers	−8,900,000
Assembled fuel tanks	−39,000,000
Total	−118,900,000

OTHER PRODUCTION CHARGES

The conferees agree to provide $1,874,081,000 for Other Production Charges, a reduction of $211,819,000 as follows:

Lantirn	−$100,300,000
Classified programs	−111,519,000

MISSILE PROCUREMENT, AIR FORCE

The conferees agree to the following amounts for Missile Procurement, Air Force:

[In thousands of dollars]

	Budget	House	Senate	Conference
MISSILE PROCUREMENT, AIR FORCE				
Ballistic missiles				
Peacekeeper (M-X)	2,938,900	1,580,900	2,352,000	852,000

PEACEKEEPER (MX)

The conferees agree to provide $1,000,000,000 in new budget authority for procurement related to the deployment of the 21 MX missiles for which funds were appropriated for fiscal year 1984, for advance procurement of parts and materials for the MX missile program and maintenance of the MX missile program contractor base, and for spare parts for the MX missile program. The conferees also agree to make available $1,500,000,000 in prior year unobligated balances, as discussed below, for prior approval transfers, or reprogrammings or for procurement of 21 additional operational MX missiles which is not available for obligation unless after March 1, 1985:

1. The President reports to Congress on the requirements for, and the impact of, additional MX missile procurement as prescribed in section 110(e) of the Defense Authorization Act, and

2. A joint resolution approving the authorization of the obligation of funds for the additional MX missiles is enacted pursuant to section 110 of the Department of Defense Authorization Act, 1985, and

3. A joint resolution approving the obligation and availability of the prior year unobligated balances for additional MX missiles is enacted.

The first joint resolution mentioned above will be referred to the Armed Services Committees. The second will be referred to the Appropriations Committees. Both are subject to fast track provisions designed to insure their speedy consideration by both Houses before next Easter. The expedited procedures are nearly identical to those cotained in the Defense authorization conference agreement.

The $1,500,000,000 made available in prior year unobligated balances shall be derived from the line items and fiscal year appropriations identified in House and/or Senate appropriation bills and are listed below:

Appropriation	Line item	Amount
Aircraft procurement, Army, 1984/1986.	General reduction	$30,000,000
Missile procurement, Army 1984/1986.	General reduction	13,000,000

Other procurement, Air Force, 1984/1986.	May budget revision	14,500,000
Grand total		1,500,000,000

AIM-7F/M SPARROW

The conferees agree to provide $65,000,000 for AIM-7F/M Sparrow, instead of no funds as proposed by the House, or $100,000,000 as proposed by the Senate. The Air Force is directed to procure the maximum possible number of missiles with these funds.

DEFENSE SATELLITE COMMUNICATIONS SYSTEM III

The conferees concur in the Senate position providing $251,200,000 for multiyear procurement of the Defense Satellite Communications System III (DICS III) as opposed to the House recommendation of $215,138,000 to procure DSCS III satellites on an annual basis. Enabling bill language is included.

OTHER PROCUREMENT, AIR FORCE

The conferees agree to the following amounts for Other Procurement, Air Force:

[In thousands of dollars]

ADPE

The conferees agree to provide $154,632,000 and to support the House report langauge directing that at least $45,000,000 be provided for lease-to-purchase conversions and $50,000,000 be provided for logistics systems.

TACTICAL EQUIPMENT MODIFICATIONS

The conferees agree to provide $20,000,000 for tactical equipment modifications and direct the Air Force to improve its obligation rates for this program.

COMMUNICATIONS—ELECTRONICS SPARES AND REPAIR PARTS

The conferees agree to provide $348,542,000 which is the authorized amount.

GENERAL REDUCTION

The conferees agree that the $11,800,000 general reduction in this appropriation shall be applied to budgeted funding for the Unit Level Circuit Switch.

NATIONAL GUARD AND RESERVE EQUIPMENT

The conferees agree to the following amounts for Reserve and National Guard:

[In thousands of dollars]

	Budget	House	Senate	Conference
NATIONAL GUARD AND RESERVE EQUIPMENT, DEFENSE				
Reserve, Navy		20,000	40,000	20,000
Reserve, Marine Corps			30,000	30,000
Reserve, Army			168,000	150,000
Guard, Army			163,000	150,000
Guard, Air Force			20,000	20,000
Reserve, Air Force			10,000	10,000
Total, National Guard and Reserve Equipment, Defense		20,000	431,000	380,000

NAVAL RESERVE EQUIPMENT

The conferees agree that $20,000,000 be provided for unit equipment and supplies in naval mobile construction battalions. The conferees request that naval mobile construction battalion equipment be managed by unit sets to facilitate rapid deployment, and that a system of testing deployment readiness of such equipment be implemented.

EARMARKING AND REPORTING REQUIREMENTS

The conferees agree to the reporting requirements and the designation of funds proposed by the Senate for National Guard and Reserve Equipment.

PROCUREMENT, DEFENSE AGENCIES

The conferees agree to the following amounts for Procurement, Defense Agencies:

DEFENSE PRODUCTION ACT PURCHASES

The conferees agree to $10,000,000 for Defense Production Act Purchases as proposed by the House instead of $25,000,000 as proposed by the Senate.

TITLE V—RESEARCH, DEVELOPMENT, TEST AND EVALUATION

The conferees agree to the following amounts for the Research, Development, Test and Evaluation accounts:

[In thousands of dollars]

	Budget	House	Senate	Conference
RECAPITULATION				
Total, RDTE, Army	4,987,100	4,252,553	4,541,125	4,349,015

Total, RDTE	33,985,037	29,779,538	31,897,567	31,157,071

The conferees agree to the following language:

ANTIARMOR PROGRAMS

The conferees specifically endorse the language of the House concerning the need to improve the Department's approach to antiarmor programs. In particular, the framework recently established for reviewing these programs must be greatly strengthened, with OSD in actual as well as nominal control. The conferees are committed to the propositions that a single coordinated antiarmor master plan must be obtained which is administered and enforced by OSD, that cooperation must be obtained among the Services, and that duplication must be eliminated. Evidence of substantial progress will be expected in the fiscal year 1986 budget requests. The conferees direct submission of the fiscal year 1986 edition of the Anti-Armor Master Plan by March 30, 1985.

REPORTS ON THEATER NUCLEAR WEAPONS AND FORCE STRUCTURE

WITHDRAWAL OF TACTICAL NUCLEAR WARHEADS FROM EUROPE

UNITED STATES COUNTERFORCE CAPABILITY

The House included directives for reports on Theater Nuclear Weapons and Force Structure, Withdrawal of Tactical Nuclear Warheads from Europe, and United States Counterforce Capability. Subsequently the conference agreement on H.R. 5167, the Department of Defense Authorization Act, 1985, included provisions requiring such reports to the Congress. The conferees endorse the authorization conference action requiring these reports, and recognize that their inclusion in the appropriations legislation is not required.

REPORT ON STRATEGIC NUCLEAR SUBMARINE FORCE

The Senate recedes to the House on the directive to the Secretary of Defense to submit a report on the survivability of the strategic nuclear submarine force, including its command control and communication.

REPORT ON STRATEGIC DEFENSE INITIATIVE

The House included a directive that the Department of Defense submit a report on Strategic Defense Programs. Subsequently the conference agreement on H.R. 5167, the Department of Defense Authorization Act, 1985, included a provision for a similar report to be submitted to the House and Senate Committees on Armed Services and the House Foreign Affairs Committee and the Senate Foreign Relations Committee. The conferees direct that such report, in unclassified form, with classified addenda as necessary, be provided to the Committees on Appropriations of the House and Senate.

Such report shall include the status, from the present year to completion, of each program, Project and Task under the SDI and related programs with respect to compliance with the ABM treaty, modifications to the Treaty that might be required to complete the development of SDI and related programs, and current and additional organizational and reporting mechanisms for monitoring compliance of the SDI and related programs with the ABM Treaty.

SDI PROGRAM ELEMENT STRUCTURE

The House report directed a modification of the program element structure of the Strategic Defense Initiative to provide better visibility of costs. Because the report on SDI described above is required to include budgeted amounts for programs, projects and tasks, that directive is withdrawn.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

The conferees agree to the following amounts for Research, Development, Test and Evaluation, Army:

The conferees agree to the following language:

TERMINALLY GUIDED PROJECTILES

The conferees agree to provide $5,000,000 for Terminally Guided Projectiles, instead of no funds as proposed by the House, or $10,030,000 as proposed by the Senate. The conferees agree that $3,000,000 of fiscal year 1984 funds provided previously for this program may be obligated and expended, reversing the House position. The total of $8,000,000 is to be used solely for the 155-millimeter SADARM project.

Although funds are being provided for this program, the conferees direct the Department's attention to the conference language, appearing above, on anti-armor programs. No future requests for development of SADARM technology will be entertained unless that development is shown to be integral to, and an essential part of, a satisfactory anti-armor master plan.

ARMY DEVELOPMENT AND EMPLOYMENT ACTIVITY

FORCE DEVELOPMENT INITIATIVES

A total of $55,000,000 of generic authorization was provided for appropriations related to development initiatives that have the potential for high payoff and rapid implementation. Pursuit of such initiatives is the mission of the Army Development and Employment Activity (ADEA). The conferees are aware of Army concerns that RDT&E funds cannot be spent effectively if distributed directly to six division commanders, and of the Army's belief that the desired efforts are best accomplished through the existing ADEA organization. The conferees accept the Army's position, and agree to provide $37,517,000 for ADEA.

ADVANCED ANTITANK WEAPON

The conferees agree to provide $24,901,000 for Advanced Anti-Tank Weapon (AATW) as proposed by the Senate instead of $19,000,000 as proposed by the House. Of the sum provided, $5,000,000 shall be used to investigate and evaluate, through actual firings, the French-developed DARD 120-millimeter close range anti-tank weapon. Future requests for funds for AATW will be examined in the context of a single coordinated anti-armor master plan.

HIGH TECHNOLOGY LIGHT DIVISION

The request for High Technology Light Division (HTLD) failed authorization, and the conferees therefore provide no funds. Three of the six projects within the HTLD program element were authorized to be transferred to other program elements. The conferees agree to the following actions on those three projects:

1. AWACS Interface is funded at $1,414,000 in the Division Air Defense Command and Control program.

2. No funds are provided for the Indirect Sight System. Although this project was transferred to the TOW program, no increase in authorization was provided for that program.

3. No funds are provided for GAMP. An information paper dated September 24, 1984 provided by the Army states: "A recent Army decision has resulted in termination of the GAMP program."

JOINT SURVEILLANCE AND TARGET ATTACK RADAR SYSTEM (JSTARS)

The conferees agree to provide $30,000,000 for the Army portion of the JSTARS program instead of no funds, as proposed by the House, or $102,168,000 as proposed by the Senate. Details of the conference agreement are provided in the classified annex to this report.

JOINT TACTICAL FUSION PROGRAM

The conferees agree to a reduction of $33,000,000 from the budget request for the Army's portion of the Joint Tactical Fusion Program (JTFP) instead of a reduction of $46,281,000, as recommended by the House, or a reduction of $23,000,000 as recommended by the Senate.

The conferees agree with the concern expressed by the House on the issue of the history of the JTFP program and the planned deployment schedule for the full system. Additionally, the conferees agree that the restructuring of the JTFP program should be finalized and submitted to the appropriate congressional committees for review.

The conferees do not concur with the House language "fencing" fiscal year 1985 funding for the JTFP program; prohibiting source selection and/or contract award on the current Request for Proposal (RFP); or the direction that the Jet Propulsion Lab (JPL) be removed from the management of the program. However, the conferees believe that an orderly transition to traditional Army development entities should take place once contract award is made.

The conferees note that the Authorization conferees, in authorizing funding for the JTFP program, stipulated that the program be restructured and reoriented toward the less costly, lighter weight and more easily transported system being considered for Army light divisions. Accordingly, the conferees direct that the fiscal year 1985 funding for the JTFP program be obligated and expended for the development of the authorized fusion system.

120-MILLIMETER MORTAR

The conferees agree to provide $13,338,000 for 120-Millimeter Mortar as proposed by the House, instead of no funds as proposed by the Senate. These funds are for activities specifically relevant to obtaining approval for service use, and are provided as a consequence of section 101(e) of the DoD Authorization Act for 1985, which requires the Secretary of the Army to select not later than February 1, 1985 a contractor for the supply of 120-millimeter mortars necessary to meet the requirements of the Army. Language has been provided in the bill which earmarks funds for the 120-millimeter mortar.

DOD HIGH ENERGY LASER SYSTEMS TEST FACILITY

The conferees agree to provide $33,000,000 for the DoD High Energy Laser Systems Test Facility as proposed by the Senate, instead of $19,399,000 as proposed by the House. The conferees agree that, of the funds provided, $4,600,000 shall be used to operate and maintain MIRACL and $8,300,000 shall be used to continue acquisition of the Multi-Purpose Chemical Laser.

CERAMIC VALVES

The conferees recommend that Army aggressively pursue the current contract to initiate a $500,000 project to develop ceramic elements for rotating valves in a single-cylinder research engine. The conferees believe that fiscal year 1985 funding for a potential follow-on effort for multiple-cylinder engine is premature, but would be willing to entertain a reprograming action if test results prove promising.

METHANOL CAR RESEARCH

The Army is directed to use within available funds the sum of $1,300,000 to carry

out the methanol car research project authorized in Section 202(a) of the DoD Authorization Act for 1985. Approximately 50 percent of the methanol used in this project shall be derived from coal and approximately 50 percent shall be derived from natural gas. The Army is directed to coordinate its efforts with the Department of Energy, which is carrying out companion research on methanol fuels.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

The conferees agree to the following language:

TRIDENT II

The conferees agree to provide $2,063,113,000 for the Trident II SLBM, instead of $2,051,113,000 as proposed by the House and $2,075,113,000 as proposed by the Senate. The conferees endorse the Senate language directing that at least $14,000,000 of the funds provided for the Trident II shall be for the Trident II penetration aids research effort.

STRATEGIC LASER COMMUNICATIONS

The conferees agree to provide $2,500,000 for Strategic Laser Communications, as proposed by the Senate, instead of no funds as proposed by the House. The conferees endorse the Senate language on the blue-green laser communications program found on page 200 of the Senate report.

RADAR SURVEILLANCE EQUIPMENT

The conferees agree to provide no funds for Radar Surveillance Equipment as proposed by the House, instead of $2,969,000 as proposed by the Senate. This action is without prejudice. The conferees are willing to consider a reprogramming upon receipt from the Navy of validated specific requirements and a concrete plan for filling those requirements.

AV-8B (ENGINEERING)

The conferees agree to provide $60,000,000 for AV-8B (Engineering) as proposed by the House, instead of $70,447,000 as proposed by the Senate. The conferees would be willing to entertain a reprograming action to fully fund all fiscal year 1985 funding requirements for the TAV-8B trainer.

AIRCRAFT PROPULSION (ENG)

The conferees agree to provide $26,000,000 for Aircraft Propulsion (Eng), instead of $20,000,000 as proposed by the House and $32,000,000 as proposed by the Senate. The conferees endorse the language contained on page 164 of the Senate report regarding the E-2C program.

LOW COST ANTI-RADIATION SEEKER

HARM IMPROVEMENTS

DEFENSE SUPPRESSION WEAPONS

The conferees agree to provide $14,736,000 for Low Cost Anti-Radiation Seeker and $19,569,000 for HARM Improvements in Navy RDT&E, and $3,000,000 for Defense Suppression Weapons in Air Force RDT&E. Of the funds provided for HARM Improvements, $15,205,000 shall be applied only to the Low Cost Anti-Radiation Seeker program, and $4,364,000 shall be used only for correction of deficiencies in the current design of HARM revealed by operational testing. The entire sum of $3,000,000 provided for Defense Suppression Weapons shall be applied only to the Low Cost Anti-Radiation Seeker program.

The conferees continue to support fully the Low Cost Anti-Radiation Seeker program, and endorse the language on pages 220-221 of the House report. The conference agreement provides sufficient funds to continue development in accordance with the Navy plan now being executed by the Naval Weapons Center, China Lake, California. A reprogramming action will therefore not be necessary, and the requirement for certification contained in the Senate report is withdrawn. Language has been provided in the bill which specifies that $29,941,000 of the total provided for Navy RDT&E and $3,000,000 of the total provided for Air Force RDT&E are available only for this program.

The conferees direct that future budget requests for the Low Cost Anti-Radiation Seeker program be carried as a separate program element, and not be merged with other program elements.

NAVY STRATEGIC COMMUNICATIONS

The conferees agree to provide $106,535,000 for Navy Strategic Communications. Of that sum, $77,105,000 is for a manned airborne relay platform. The conferees agree that the ECX (also called the E-6A), a modified 707 transport aircraft, appears to be the preferable alternative for this mission.

LIGHTER-THAN-AIR TECHNOLOGY

The conferees agree with the language of the Senate report concerning the need for lighter-than-air technology to be explored. There is increasing evidence that long-endurance airships equipped with surveillance radars would be a cost-effective asset to the Navy in a fleet defense role as well as providing the opportunity for use of airships in other military and nonmilitary applications.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

The conferees agree to the following amounts for Research, Development, Test and Evaluation, Air Force:

The conferees agree to the following language:

HYPERVELOCITY MISSILE

The conferees agree to provide no funds for Hypervelocity Missile as proposed by the House, instead of $2,994,000 as proposed by the Senate. The conferees concur in the observations made on page 236 of the House report, and agree to entertain a reprogramming request in the context of a single coordinated anti-armor master plan.

VERY HIGH SPEED INTEGRATED CIRCUITS

The conferees agree to provide $135,000,000 for Very High Speed Integrated Circuits (VHSIC) as proposed by the House, rather than $119,978,000 as proposed by the Senate. The conferees note that only one of six Phase I contractors has completed their Phase I work within schedule, and concur in the observations of the Senate that the Phase I effort for VHSIC is the foundation of all subsequent Phase II submicron work, and that this foundation should be as strong as practical. The Conferees direct that prior to obligating or expending funds on Phase II submicron work, the Under Secretary of Defense (Research and Engineering) ensure that the VHSIC Phase I effort is substantially complete, and so inform the Committees on Appropriations of the House and Senate.

ICBM MODERNIZATION

The conferees agree to provide $2,340,786,000 for ICBM Modernization as proposed by the House, instead of $2,345,000,000 as proposed by the Senate. The conferees direct that, of the funds provided, at least $9,600,000 be used for the deep basing project, the same amount identified as the fiscal year 1985 funding requirement in the President's May budget revision.

SPACE DEFENSE SYSTEMS

The conferees agree to provide $133,000,000 for Space Defense Systems (anti-satellite weapons), instead of $120,000,000 as proposed by the House or $143,278,000 as proposed by the Senate. The conferees agree to prohibit the obligation or expenditure of funds for testing of an anti-satellite weapon against an object in space until March 1, 1985, or fifteen days after the President has certified the necessity and desirability for such testing, whichever occurs later. The conferees agree to allow no more than three such tests, without regard to their success or failure, in fiscal year 1985. Language has been provided in the bill which reflects these agreements.

NCMC-SPACE DEFENSE SYSTEMS

The conferees agree to provide $37,441,000 for NCMC-Space Defense Systems as proposed by the House, instead of $52,253,000 as proposed by the Senate. This reduction postpones upgrading of the ASAT Prototype Mission Operations Center, and is not intended to affect current operation of that prototype center.

DEFENSE SUPPRESSION WEAPONS

As stated above under Navy RDT&E, the conferees agree to provide $3,000,000 for Defense Suppression Weapons. The entire amount is to be used only for the Low Cost Anti-Radiation Seeker program being carried out by the Navy.

JOINT SURVEILLANCE AND TARGET ATTACK RADAR SYSTEM (JSTARS)

The conferees agree to provide a total of $50,000,000 for the Air Force portion of the JSTARS program as proposed by the House, instead of $72,318,000 as proposed by the Senate. Details of the conference agreement are provided in the classified annex to this report.

JOINT TACTICAL FUSION PROGRAM

The conferees agree that the Air Force portion of the Joint Tactical Fusion Program (JTFP) shall be bound by the language concerning JTFP appearing in the RDT&E, Army section of this report.

OTHER OPERATIONAL EQUIPMENT

The conferees agree that Project 2783, Ground Power Generator Development, in the Other Operational Equipment program is to be funded at the full budgeted amount of $10,600,000, and that no subsequent reductions are to be levied against that project.

TRAFFIC CONTROL/APPROACH/LANDING SYSTEM

The conferees agree to provide $10,502,000 for Traffic Control/Approach/Landing System, instead of $11,766,000 as proposed by the House or $8,502,000 as proposed by the Senate. Of the total provided, the conferees agree that $2,000,000 is for the Rapidly Deployable Air Traffic Control System (MPN–XX). The conferees direct submission of a report on MPN–XX by March 1, 1985 to the Committees on Appropriations of the House and Senate. The report should include a discussion of operational requirements, the use of existing technology versus new development, costs, schedules, and the impact of deleting EMP hardening requirements from the system.

SPACE BOOSTERS

The conferees agree to provide $15,356,000 for research and development associated with space boosters instead of $10,356,000, as proposed by the House, or $20,356,000, as proposed by the Senate. Of the amount agreed to, $5,000,000, is to be utilized to study and define a follow-on expendable launch vehicle (ELV) capable of launching shuttle class payloads. This constitutes a reduction of $5,000,000 from the budget request for the preliminary development efforts related to a follow-on ELV.

The Committee of Conference agrees that the Air Force must have assured access to space for critical national defense payloads. However, the conferees concur with the Senate language expressing concern over the fact that current alternatives under consideration by the Air Force do not have any significant growth potential. In view of this, the conferees direct that the $5,000,000 be used for initial study and development of a follow-on expendable launch vehicle which must include adequate consideration of vehicles with growth potential. The conferees note that in addition to these funds, $6,000,000 has been included in the fiscal year 1985 HUD-Independent Agencies Appropriation bill for the purpose of a joint Air Force-NASA ELV program. The conferees believe that such an approach, based on a follow-on ELV with growth potential, could help restore the traditional Air Force-NASA relationship that has so effectively served the nation's space effort.

Additionally, the conferees agree with the Senate's direction that the Department of Defense, in conjunction with the NASA and OMB, conduct a study which shall include the following:

1. A review of ELV needs and requirements both in the 1988 time frame and the 1990's. This review should assess the viability and reliability of the space shuttle as a sole means of access to space during an intermediate period in the late 1980's;

2. An assessment of shuttle derived technology applicability for both the short term (beginning prior to 1990) and in heavy-lift configurations through the 1990's; and

3. An analysis of the cost implications of various alternatives toward meeting both short-term and long-term ELV requirements. With respect to shuttle derived technology, this analysis should include information on economies of scale which may be achieved.

To the extent possible, this report should represent a consensus view of DoD, NASA, and OMB on the relevant estimates and assessments. Should significant differences not be resolved, the report should identify and discuss such differences. The study should be transmitted to the appropriate committees of the Congress no later than January 15, 1985.

The conferees do not agree with the Senate language "fencing" ELV follow-on funding until January 15, 1985. Accordingly, the $5,000,000 recommended shall be available for obligation by the Air Force once the fiscal year 1985 Continuing Resolution is enacted.

Furthermore, the conferees note that an official, revised funding profile for the development and procurement of ten follow-on ELV's has not been formally submitted to the Congress. Accordingly, the conferees direct the Air Force to develop a funding profile which details the Five Year Defense Plan (FYDP) programmed funding requirements for this program. This plan should include a traditional, "up-front" procurement funding as opposed to the previously proposed off-budget approach. This plan should be submitted with the report discussed above.

Research, Development, Test and Evaluation, Defense Agencies

The conferees agree to the following amounts for Research, Development, Test and Evaluation, Defense Agencies:

[In thousands of dollars]

	Budget	House	Senate	Conference
RESEARCH AND DEVELOPMENT TEST & EVAL, DEF AGENCIES				
Technology Base				
Defense research sciences	102,500	80,700	102,500	80,700
In-house lab independent research	1,874	1,874	1,874	1,874

The conferees agree to the following language:

STRATEGIC TECHNOLOGY

The conferees agree to provide $165,750,000 for Strategic Technology, instead of $144,250,000 as proposed by the House and $160,700,000 as proposed by the Senate. The amount provided fully funds the authorized transfer of funding for artificial intelligence to Strategic Technology, but deletes $6,450,000 for project ST-4, Strategic Deterrent. The conferees agree that $30,000,000 shall be provided for project ST-9, Submarine Laser Communications, an increase of $5,000,000 above the budget request, to accelerate research and development on blue-green laser communications.

FREE ELECTRON LASER TECHNOLOGY FOR RESEARCH

The conferees agree that $10,000,000 of the funds provided for Defense Agencies RDT&E shall be used for research in the biomedical and materials sciences using free electron laser technology. Language has been provided in the bill which earmarks these funds.

DEFENSE NUCLEAR AGENCY

The conferees agree to provide $327,000,000 for the Defense Nuclear Agency, instead of $308,714,000 as proposed by the House or $347,014,000 as proposed by the Senate. The resulting reduction from the budget request is general, and is not applied to specific projects. The conferees agree that reports concerning a secure data network and a new supercomputer are to be provided as directed by the House.

WWMCCS SYSTEM ENGINEER

The conferees agree to provide $28,632,000 for WWMCCS System Engineer, instead of $28,132,000 as proposed by the House or $30,637,000 as proposed by the Senate. The total allows $500,000 for a proposed study on C^3 requirements after the United States has sustained a nuclear attack. The conferees agree that funding for this study in the future will be provided only upon a satisfactory justification of need, to include an explanation of the uses made of the many past studies on the same subject.

STRATEGIC DEFENSE INITIATIVE

The conferees agree to provide $1,400,000,000 for Strategic Defense Initiative (SDI), instead of $1,090,000,000 as proposed by the House or $1,627,000,000 as proposed by the Senate. The reduction of $377,000,000 is a general reduction from the budget request. The conferees direct the Department to submit expeditiously to the Committees on Appropriations of the House and Senate for approval its proposal for allocation of this reduction to the programs which comprise SDI.

Title VI—Revolving and Management Funds

ARMY STOCK FUND

The conferees agree to provide $366,448,000 as recommended by the Senate instead of $356,448,000 as recommended by the House.

AIR FORCE STOCK FUND

The conferees agree to provide $548,593,000 as recommended by the Senate instead of $631,793,000 as recommended by the House.

MERCHANT SHIP CONSTRUCTION REVOLVING FUND

The conferees agree to provide no appropriation as recommended by the House instead of a transfer of $500,000,000 as recommended by the Senate.

The following item represents language as agreed to by the conferees:

The conferees reluctantly agree not to establish a revolving fund for the purpose of building and leasing militarily useful commercial vessels. The Senate proposed a transfer of $500,000,000 to capitalize the refund subject to the enactment of enabling legislation. Although this financing methodology was developed some time ago, the conferees realize that authorizing legislation has not been introduced much less enacted. Given this legislative impasse, the Congress must look to the Administration to provide a proposal designed to meet the national defense sealift needs. The rapid deterioration of the entire commercial maritime industry mandates a timely proposal to address urgent DoD sealift requirements.

ALLOCATION OF REDUCTIONS TO THE REVOLVING FUNDS

The conferees agree that all reductions to the operating accounts for changes in fuel prices should be passed through to the Defense Stock Fund. The conferees also agree that the reductions to the Navy and Air Force operating accounts reflecting revised prices to the stock fund should be passed through to the Navy and Air Force Stock Funds respectively. The reduction to the Army operating account for revised stock fund prices should be passed through to the Defense Stock Fund. The resulting asset in

the Army Stock Fund should be retained in the Army Stock Fund to capitalize the fiscal year 1986 implementation of the stock funding of aviation depot level repairables as instructed by the Senate. Further, the conferees concur in the House report language instructing reporting of all credits, advances and transfers and direct that DOD also report the cash position of each DOD revolving fund on a monthly basis to the Committees on Appropriations.

TITLE VII—RELATED AGENCIES

INTELLIGENCE COMMUNITY STAFF

The conferees agree to provide $20,797,000 for the Intelligence Community Staff, instead of $20,297,000 as proposed by the House and $21,797,000 as proposed by the Senate.

TITLE VIII—GENERAL PROVISIONS

The conferees agree to the following language in the General Provisions:

Public Affairs and Legislative Liaison Activities.—The conferees agree to include the higher limitations provided by the House for both public affairs and legislative liaison activities. The conferees further agree to include a provision requiring that the Department include the effects or retired pay accrual for military personnel when determining the costs associated with these programs.

Insignia Resale.—The House continued the provision contained in the 1984 Defense Appropriations Bill imposing a surcharge on the sale price of insignia purchased for resale by the Department of Defense. The Senate deleted the provision as requested in the budget. The Department has initiated a new policy for procurement of insignia, whereby insignia procured for free issue to personnel by the Department are procured by the Department, while insignia procured for sale by the exchange system are procured by the exchanges directly from private industry. The conferees believe this new procurement policy should obviate the need for the surcharge provision. The conferees agree to delete the provision, but direct the Department to fully implement the aforementioned insignia procurement policy.

Multiyear Procurement Contracts.—The conferees agree to revised language which clarifies the intent of the House bill, which was to prohibit unfunded cancellation ceilings for economic order quantity procurements.

Technician Floor-AGR Ceiling.—The conferees agree to the House language, with an amendment adjusting the limitation on Active Guard/Reserve (AGR) personnel to 37,957. This limitation equates to the fiscal year 1985 AGR end strengths authorized for the Army Reserve and Army National Guard of 10,700 and 20,583, respectively. For the Air National Guard, the limitation of 6,674 results from authorized end strengths less actions taken by the conferees.

Civilian End Strength Ceilings.—The House included a general provision prohibiting the use of civilian personnel end strengths in the Department of Defense. The Senate included a provision limiting the prohibition on ceilings to DoD industrial funded activities.

The conferees agree that civilian personnel ceilings promote inefficiencies and should be removed. Consequently, a general provision has been included similar to that contained in the FY 1985 Defense authorization bill. The only change is a provision directing the FY 1986 budget be submitted based upon the assumption of no civilian personnel ceilings in that year as well as a base-line for congressional authorization and appropriations review.

Although the administrative limitations have been removed, the authorization included some civilian workyear reductions initially offered in a version of the authorization bill which had retained an employment cap. Clearly, such budget reductions in the absence of applicable rationale must be considered an oversight and if accepted, such reductions would be non-programmatic, and deleterious to readiness.

Prohibition on Assistance to Nicaragua.—The House included a general provision prohibiting funds from being obligated or expended for the purpose of supporting, directly or indirectly, military or paramilitary operations in Nicaragua. The Senate did not include any type of prohibition concerning funds for Nicaragua.

The conferees have included a provision which prohibits funds from being obligated or expended to support, directly or indirectly, military or paramilitary operations in Nicaragua unless after February 28, 1985, the President submits a report to Congress and a joint resolution approving such assistance is enacted by Congress. A ceiling of $14,000,000 is placed on such obligations and expenditures during fiscal year 1985.

The joint resolution is subject to expedited procedures in both Houses similar to procedures for the MX missile procurement resolution provided elsewhere in the bill.

Leasing of Certain Vessels, Aircraft, and Vehicles.—The conferees agree to include a provision recommended by the Senate requiring prior Congressional approval of appropriations for leasing of certain vessels, aircraft, or vehicles for a term of longer than 18 months. The conferees also agree to delete similar provisions in both bills which included a conflicting 3 year time period.

Warranties.—The Conferees agree to provide no general provision on warranties since permanent warranty legislation has been enacted in the Department of Defense Authorization Act of 1985.

Coal use at U.S. defense installations in Europe.—The Committee recommends a new general provision because it is increasingly concerned over the security of energy sources for U.S. defense installations in Europe. Recent incidents which involved the destruction of, and threats to, oil cargo vessels in the Persian Gulf, including those transporting oil for such defense installations, and the uncovering of information on terrorist intent to disrupt strategic pipelines, strongly indicate the need for a redetermination of energy policy at USAREUR.

The Committee views the continued use of natural gas (increasingly from the Soviet Union), oil from crisis areas, and other potentially vulnerable energy sources as inadvisable in the context of current international situations.

Of specific concern at this time is the increased dependence on commercial or district heat sources located off military reservations, allowing for additional reliance on non-U.S. energy sources. Further, the consistently declining use of U.S. coal by the Department, particularly in Army and Air Force installations under the coordination of USAREUR, especially with reference to new district heating connections, is not regarded as consistent with U.S. Government coal use policy.

The new general provision will eliminate further funding for consolidation or conversion of facilities to this source, with the possible exception of certain ongoing projects where negotiations are advanced and reversal of such plans would inconvenience Army planning. Those projects in USAREUR as identified by the Department of the Army are Babenhausen, Bad Nauheim, Bad Toelz, Kitzingen, Darmstadt (3), Dexheim, Frankfurt (2), Fulda, Garmisch, Giessen (4), Heilbronn (2), Idar-Oberstein, Ludwigsburg, Nabollenbach, Neckarsulm, Pirmasens, Kaiserslautern, Schwaebisch Hall, Wildfecken, Wiesbaden, and Wuerzburg. The conferees agree that these projects are individually items of special interest to the Appropriations Committees and therefore require the approval of the appropriating committees prior to signing any contracts or obligation of any funds.

Realizing there may be circumstances whereby conversion to district heating is unavoidable, the conferees direct the Department of Defense to vigorously study measures to offset any resulting diminished use of U.S. coal by increasing coal use at other U.S. military installations worldwide, with the goal of maintaining DoD consumption of coal at stable and steady levels.

The Committee directs that to offset the anticipated decline of U.S. coal use at USAREUR, the Department of the Army continue with its plans to use bituminous coal as the energy source at an ongoing construction program at the U.S. Military Academy at West Point, N.Y., and that anthracite be used at an ongoing modernization and expansion of facilities at New Cumberland, Pa.

While the Department of Defense maintains alternate source plans for natural gas in the event of state of emergency or wartime circumstances, and maintains a strategic stockpile of oil, its coal contingency planning for such circumstances is considered inadequate, with reliance on the commercial economy of a foreign nation whose own wartime requirements would accelerate. The Committee, therefore, directs that from available funds a 1-year strategic stockpile of U.S. anthracite and bituminous coal for Europe be acquired, with total tonnage to be determined from an average of the totals for 3 previous fiscal year requirements. The acquisition of the strategic stockpile will begin as part of the normal fiscal year 1985 procurement for Europe, continuing in equal one-fourth increments for the 3 succeeding fiscal years. Further, it is directed that the stockpile be purchased and maintained in Europe for war reserve status exclusively, irrespective of a normal multi-purpose reserve, and not be used as part of normal supply and demand. The conferees further agree that the Secretary of Defense should ensure that the additional coal stockpiled in Europe is done so within available space, and the Department should report on the additional cost of transporting and storing this additional stockpile overseas.

Variable Housing Allowance Windfalls.—The Senate included a provision ot eliminate payment of Variable Housing Allowances (VHA) in excess of actual housing costs. The House did not address the issue. The conferees agree housing compensation of members of the uniformed services stationed in the United States and abroad needs to be reassessed. However, the House conferees believe permanent changes in these programs should await the completed studies of military housing allowances by the General Accounting Office, the Defense Inspector General, and further review by

the four committees involved in oversight of these programs.

The conferees agree to remove the Senate provision eliminating VHA payment in excess of actual costs. Nonetheless, the conferees believe payment of VHA windfalls cannot be allowed to continue and direct the Defense Department to include legislation to eliminate such payment and delete funds which would allow such payment in the fiscal year 1986 budget request. The DOD should calculate windfall savings as the actual spending of VHA recipients who are overcompensated for their costs versus the actual compensation. If time is not sufficient to collect the necessary data, an assessment of windfall savings can be made using a sampling survey. Average utility costs by location can be used instead of actual costs.

Communications and Electronic Component Repair.—The Army shall conduct no new operations in the continental United States relating to the repair of communications and electronic components at facilities other than Tobyhanna and Sacramento until it studies present and projected needs for this work and the impact of any additional operations on Tobyhanna and Sacramento taking into account the temporary removal of manpower limits.

The study is to be submitted to the Appropriations Committees within 3 months. The study will examine the advisability and impact of the planned GOCO facility at Lexington Blue Grass Army Depot on Tobyhanna and Sacramento.

It shall include a review of whether this facility will reduce current workload levels at Tobyhanna and Sacramento or impede the normal workload increase projected for Tobyhanna and Sacramento by the Army's expected additional electronics and communications repair work, up to the highest reasonable level of efficiency which can be performed at these facilities.

The conferees, therefore, agree to delete the provision proposed by the House.

Foreign Selling Costs.—In agreeing to the Senate provision concerning foreign selling costs, the conferees feel that the issue could be reconsidered in the next supplemental appropriations request if the Secretary of Defense certifies the cost effectiveness of a change in the existing regulations.

Sea Launched Cruise Missiles.—The House included language which subjected funds made available in the appropriation act for deployment of nuclear sea launched cruise missiles to all the limitations, restrictions and conditions set forth in the House passed authorization bill for fiscal year 1985. The Senate included no such provision. The conferees agreed to delete the House provision.

The conferees note the existence of a sharp division in the approaches taken to the arms control problems posed by the deployment of nuclear-capable sea-launched cruise missiles on naval submarines and surface ships.

In view of the deployment of nuclear-armed sea-launched cruise missiles by the Soviet Union since 1962, and the absence of existing reliable means whereby the presence (or absence), range, warhead or capabilities of sea-launched cruise missiles can be verified, the conferees do not believe that a moratorium on the deployment of nuclear-armed Tomahawk sea-launched cruise missiles would be consistent with the national security interest of the United States.

The conferees support an early resumption of the Strategic Arms Reduction Talks (START) and the Intermediate Range Nuclear Force (INF) negotiations, and urge the Soviet Union to drop its preconditions to the resumption of these important negotiations. The conferees believe that discussions on limitations of nuclear sea-launched cruise missiles should be included in the appropriate negotiations. However, the conferees recognize that the characteristics of sea-launched cruise missiles would seriously complicate the negotiation of effective verification of such limitations. The United States is, and the conferees believe that the Soviet Union should be, willing to accept those intrusive on-site inspection procedures necessary for effective verification as an integral part of mutual and verifiable arms reductions. Therefore, the conferees urge that means whereby limitations on sea-launched cruise missiles could be effectively verified be pursued as a matter of the highest priority, and direct that the Congress be fully informed about the status of programs in this regard.

Toward this end, the conferees direct the President to submit a report to the Congress by March 15, 1985, that will:

(1) describe an arms control method by which it would be possible to determine whether a cruise missile designed to be launched from a naval vessel is conventionally armed or nuclear armed and by which it would be possible to effectively verify an arms control limitation on the number of cruise missiles that are armed with nuclear warheads and deployed on naval vessels; and

(2) state whether the Joint Chiefs of Staff and the Director of Central Intelligence have agreed that the method described would be a high-confidence method as applied by the United States to cruise missiles of another nation and would be an acceptable method for use when applied by another nation to cruise missiles of the United States.

Introduction of United States Armed Forces Into Central America for Combat.—The House included a prohibition against the introduction of United States combat troops into Central America. The Senate included no such language.

The conferees have included a sense of the Congress provision stating that United States Armed Forces should not be introduced into or over the countries of Central America. The language is similar to language contained in the Defense Authorization Act, 1985.

Humanitarian and Civic Assistance Costs.—The conferees agree to include the Senate provision providing authority for use of operation and maintenance funding for humanitarian and civic assistance costs incidental to authorized operations.

The conferees emphasize the limited nature of this authority in addition to constraints imposed by the Senate report language. The only use of this authority being granted is with Joint Chiefs of Staff directed or coordinated exercises overseas. Costs associated with humanitarian and civic assistance must be included as a part of the funding available for any single JCS exercise subject to the constraints for exercise funding discussed elsewhere in this report. Additional uses of this authority must receive the prior approval of both the House and Senate Committees on Appropriations.

The conferees also have included a provision providing clear authority for existing Army Civic Action Teams providing support to the Trust Territories of the Pacific Islands.

M-1 Tank Engine (AGT-1500) Second Source Competition.—The Senate bill includes a general provision repealing the statutory prohibition to the establishment of a second source of production for the M-1 tank engine. The House had no similar provision. The conferees do not agree to the lifting of the second source restriction. The conferees agree that the Army may continue to study the advisability of establishing a second source.

Hawaiian Milk.—The Senate added language which prohibits purchase of milk by the Department which was pasteurized more than 72 hours before acceptance. The House included no such language. The conferees agree to delete the Senate provision. The Department is directed to perform a study of this issue which addresses the problem of freshness, price differentials between Hawaiian and mainland milk, and adverse impacts on the Hawaiian economy. In addition, the Department is directed to study the processing of milk utilizing ultra high temperature (UHT) procedures. The Department should provide results of these studies to the Appropriations Committees of the House and Senate by April 1, 1985.

CHAMPUS Dental Care.—The conferees agree to delete the Senate provision for CHAMPUS dental care. The conferees also agree that the Assistant Secretary of Defense for Health Affairs should study the need for CHAMPUS dental benefits for the dependents of active duty military personnel and report on the cost and feasibility of implementing such a program.

National Defense Stockpile.—The conferees agree that the Department of Defense must follow existing law with respect to the disposal of silver from the strategic silver stockpile and have deleted the Senate bill language.

Overseas Station Allowances.—The conferees agree to the Senate provision concerning station housing allowances in Alaska and Hawaii with an amendment clarifying the conferees' intent.

Contingency Funding for Unified and Specified Commands—Although both the House and the Senate deleted language requested by the Department permitting the utilization of Operation and Maintenance funding for any purpose (including procurement or research and development) simply upon the determination of the Commanders-in-Chief (CINC's) of the Unified and Specified Commands, the conferees agree that unforeseen urgent readiness requirements should be accomplished in a timely fashion. The conferees have, therefore, included a general provision permitting Operation and Maintenance funds to be used for such emergent requirements, but stipulating that such use be limited to traditional Operation and Maintenance expenses. The conferees note that regardless of the new authorities provided in this bill or in section 304 of the fiscal year 1985 Defense authorization bill, the Department must comply with existing reprogramming procedures and should consider use of the new transfer authority included in either this or the authorizing bill to be an item of special congressional interest.

Purchase of European NATO weapons.—The conferees agree to language which requires notification to the Committees on Appropriations of the House and Senate of any purchase of European NATO weapons, subsystems or munitions by the Defense Director of Test and Evaluation pursuant to section 1002(e)(2)(A) of the Department of Defense Authorization Act, 1985.

Consultants Limitation.—The conferees agree to the Senate bill language which re-

duces funds available for obligation pertaining to consultants, studies and analyses, contract management support services and other such advisory or assistance related contract efforts. While the Department of Defense budget exhibits attempt to justify $1,300,000,000 of such costs, independent analyses indicate that expenditures for these services exceed $15,000,000,000 in the Defense Department alone. Previous attempts to control consulting services and contract management support contracts have invariably resulted in the Defense Department treating recommendations as general reductions. Clearly, the Congress never intended to apply a recommended reduction directed toward such contracts in any other area.

The Senate provision will require the Defense Department to review all contracts subject to the SF 279 reporting requirements and assure that no more than $14,000,000,000 is expended for consultants, studies, analyses, management support services, or other advisory and assistance efforts. The Department is required to report to the Committees on the savings attained by this effort and identify the areas where the savings are applied.

PCS Reimbursements.—The Senate added a general provision which allows the Department, within available funds, to increase the mileage allowance for members of the uniformed services in connection with permanent change of station (PCS) travel and to provide for the payment of temporary lodging expenses for such members who are in an enlisted pay grade below E-8. The House included no such language. The conferees agree to allow the Department to fund the increase in mileage from 13 to 15 cents from within funds available for PCS travel. The conferees agree not to allow the Department to fund temporary lodging expenses.

The conferees believe if this new benefit is necessary, the Defense Department should use existing PCS funds and provide the new benefit for at least six months of fiscal year 1985 by curtailing PCS moves. If he chooses to implement this change, the Secretary of Defense is instructed to report on the long term costs and on how moves will be curtailed to provide funds for the program.

Amendment No. 33: Deletes Senate language which would have required a report on September 30, 1985 on obligations incurred for humanitarian and civic assistance costs. This issue is addressed in amendment number 32.

Amendment No. 34: Deletes Senate language which would have provided an increase in the mileage allowance and reimburse subsistence expenses incurred by a member of the uniform services in a pay grade below E-8 while occupying temporary quarters incident to a change of permanent station. This issue is addressed in amendment number 32.

Amendment No. 35: Deletes Senate language which would have provided for a study to update the report entitled "Military Spouse and Family Issues, Europe, 1982". This issue is addressed in amendment number 32.

Amendment No. 36: Deletes Senate language which would have withheld from apportionment funds appropriated for consultants, studies, analyses, management support services or other advisory and assistance services in the amount of $1 billion. This issue is addressed in amendment number 32.

Department of Transportation and Related Agencies Appropriation Act

Amendment No. 37: Deletes language proposed by the House and Senate and inserts new language relating to the rate for operations for projects or activities provided for in the Department of Transportation and Related Agencies Appropriation Act, 1985.

The House version of H.J. Res. 648 provides appropriations for activities of the Department of Transportation and related agencies at a rate for operations not in excess of the current rate or the rate provided for in the budget estimates, whichever is lower. The Senate version of the Joint Resolution provides appropriations for these activities at the rate and in the manner provided in S. 2852 as reported to the Senate on July 17, 1984. The conference agreement incorporates some of the provisions of both the House and Senate versions of the Joint Resolution and has the effect of enacting the Department of Transportation and Related Agencies Appropriation Act, 1985, into law. The conferees agree that language included in House Report 98-859 or Senate Reports 98-561 or 98-634 shall be controlling unless otherwise addressed in the statement of the managers.

The conference agreement incorporates the provisions of S. 2852 in accordance with the following agreements:

TITLE I—DEPARTMENT OF TRANSPORTATION

Office of the Secretary

SALARIES AND EXPENSES

Appropriates $50,000,000 instead of $41,275,000 as proposed by the House and $50,592,000 as proposed by the Senate.

TRANSPORTATION PLANNING, RESEARCH AND DEVELOPMENT

Appropriates $5,700,000 instead of $4,878,000 as proposed by the House and $6,754,000 as proposed by the Senate.

Inserts language related to contract awards for a methane conversion study as authorized by section 152 of the Surface Transportation Assistance Act of 1982.

The conferees are pleased to note the substantial improvement in Amtrak's financial performance over recent years. Amtrak will cover a projected 58 percent of its operating costs in 1985 compared to only 42 percent in 1976. This progress has been due, in large measure, to the revenue-cost ratio performance requirements that have been stipulated in Federal law. The conferees are also aware that a similar revenue-cost ratio approach has been used successfully in Canada with respect to the allocation of mass transit operating assistance.

With the advent of the Section 15 mass transit reporting system and the standardized financial and operating data it generates, the conferees are interested in the technical feasibility of establishing a minimum operating revenue-operating cost performance standard for U.S. transit systems. Such a standard could be set as a minimum requirement for receiving Federal operating assistance and might serve to assuage those who argue that the Federal government should not provide mass transit operating assistance because the Federal government has no influence over local operating costs and revenues.

The conferees direct the Department to submit a report to Congress no later than March 1, 1985, assessing the policy implications and technical feasibility of requiring transit properties to meet a minimum operating revenue-operating cost ratio as a condition of receiving Federal operating assistance. In addition to a discussion of the policy-related pros and cons of such an approach, this report should describe the suitability of Section 15 data for this purpose; the types of operating costs and operating revenues that could be used in this calculation; a listing of transit properties that have revenue-cost ratios (based on most recent data) below 45 percent, below 50 percent, and below 55 percent; and the minimum revenue-cost ratio that the Department believes would be appropriate if such a standard were set.

This report should also contain an explanation of the Canadian (Ontario) method of allocating operating subsidies to individual cities, the reasons why such an approach was first adopted, and any "before and after" data available that would indicate the success or failure of this approach.

LIMITATION ON WORKING CAPITAL FUND

Limits operating costs and capital outlays of the working capital fund to $65,500,000 as proposed by the Senate instead of $66,001,000 as proposed by the House.

Coast Guard

OPERATING EXPENSES

Appropriates $1,740,000,000 as proposed by the Senate instead of $1,665,256,000 as proposed by the House.

ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS

Appropriates $344,500,000 as proposed by the Senate instead of $362,000,000 as proposed by the House.

The conference agreement includes the following amounts:

Vessels	$179,944,000
Aircraft	38,300,000
Shore facilities	86,806,000
Aids-to-navigation	13,450,000
Administration	26,000,000

Within the amount provided, the conferees expect the Coast Guard to comply with the project distribution outlined in House Report 98-859 as modified by Senate Reports 98-561 and 98-634, with the following exceptions:

An additional $17,400,000 for C-130 aircraft "PILOCs";

$13,000,000 for survey and design work at Cold Bay, Alaska instead of $15,000,000 for Dutch Harbor, Alaska; and

A total of $73,350,000 for the 378-foot cutter renovation and modernization program.

The conference agreement also inserts language proposed by the Senate regarding contract warranties and deletes language proposed by the Senate regarding the issuance of contracts for vessel repairs on the West Coast.

The conferees concur in the language included in Senate Report 98-634 regarding aerostat procurements and urge the timely lease of one additional radar aerostat surveillance system and the procurement of three aerostat radar balloons within available funds.

RETIRED PAY

Appropriates $330,800,000 as proposed by the Senate instead of $334,800,000 as proposed by the House.

RESERVE TRAINING

Appropriates $58,833,000 as proposed by the Senate instead of $54,805,000 as proposed by the House.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

Appropriates $23,000,000 instead of $22,500,000 as proposed by the House and $23,500,000 as proposed by the Senate.

NATIONAL RECREATIONAL BOATING SAFETY AND FACILITIES IMPROVEMENT FUND

Appropriates $13,625,000 to liquidate contract authority obligations instead of $12,500,000 as proposed by the House and $14,750,000 as proposed by the Senate.

Limits obligations to $13,750,000 for the national recreational boating safety program instead of $12,500,000 as proposed by the House and $15,000,000 as proposed by the Senate.

FEDERAL AVIATION ADMINISTRATION

HEADQUARTERS ADMINISTRATION

Appropriates $66,900,000 instead of $56,900,000 as proposed by the House and $68,900,000 as proposed by the Senate.

OPERATIONS

Appropriates $2,622,600,000 as proposed by the Senate instead of $2,530,000,000 as proposed by the House.

The Federal Aviation Administration is directed to report immediately to the House and Senate Committees on Appropriations if the conference agreement level will result in the reeducation of any personnel essential to the operation of a safe and effective air traffic control system.

The conferees direct the Federal Aviation Administration to submit, no later than December 1, 1984, an updated facility consolidation report similar to the report submitted pursuant to section 319 of Public Law 98-78.

FACILITIES AND EQUIPMENT

(AIRPORT AND AIRWAY TRUST FUND)

Appropriates $1,370,000,000 instead of $750,000,000 as proposed by the House and $1,492,000,000 as proposed by the Senate.

The conferees agreement represents an 82.7 percent increase over the level provided for fiscal year 1984. The conferees direct that, in making necessary adjustments to the fiscal year 1985 facilities and equipment funding plan, the Federal Aviation Administration shall give the highest priority to the continued funding of safety-related projects.

The conferees direct the Secretary to submit a report to the House and Senate Appropriations Committees by November 15, 1984, describing the adjustments made to the facilities and equipment funding plan presented in the President's budget to meet the funding level provided in the conference agreement. Such report shall break down these adjustments to the project level and shall contain an explanation for each adjustment. This report should also discuss the near-term impact of these adjustments on the safety of the national airspace system. If significant safety problems are alleged, such report should contain an explanation of the potential problem along with recommended corrective action.

The conferees intend that, of the $5,000,000 provided in the conference agreement to continue the airway science curriculum program, $1,000,000 is to be made available to the University of North Dakota to complete its aerospace sciences project. Furthermore, the conferees expect the FAA to expedite the award of funds previously set aside for a minority institution.

RESEARCH, ENGINEERING AND DEVELOPMENT

(AIRPORT AND AIRWAY TRUST FUND)

Appropriates $265,000,000 instead of $263,452,000 as proposed by the House and $266,000,000 as proposed by the Senate.

The conference agreement includes $16,500,000 for aviation weather research as proposed by the Senate.

GRANTS-IN-AID FOR AIRPORTS

(AIRPORT AND AIRWAY TRUST FUND)

Appropriates $810,000,000 to liquidate contract authority obligations as proposed by the Senate instead of $745,000,000 as proposed by the House.

Limits obligations for airport development and planning grants to $925,000,000 instead of $800,000,000 as proposed by the House and $987,000,000 as proposed by the Senate.

In addition to the airports listed in House Report 98-859 and Senate Report 98-561, the conferees direct that priority be given to grant applications involving construction or further development at the following airports: Tupelo, Mississippi; Evansville Dress Regional Airport, Indiana; Tulsa-Jones Airport, Oklahoma.

OPERATION AND MAINTENANCE, METROPOLITAN WASHINGTON AIRPORTS

Appropriates $35,931,500 as proposed by the Senate instead of $34,557,000 as proposed by the House.

CONSTRUCTION, METROPOLITAN WASHINGTON AIRPORTS

Appropriates $13,000,000 as proposed by the Senate instead of $13,500,000 as proposed by the House.

AIRCRAFT PURCHASE LOAN GUARANTEE PROGRAM

Limits the total amount that can be borrowed from the Secretary of the Treasury to pay off defaulted loans to $125,000,000 in lieu of a limitation of $150,000,000 outstanding at any one time as proposed by the Senate.

FEDERAL HIGHWAY ADMINISTRATION

LIMITATION ON GENERAL OPERATING EXPENSES

Limits general operating expenses to $204,891,000 as proposed by the Senate instead of $201,700,000 as proposed by the House.

Provides $5,000,000 for the establishment and implementation of a demonstration bonding program for economically and socially disadvantaged businesses.

RAILROAD-HIGHWAY CROSSINGS DEMONSTRATION PROJECTS

Appropriates $15,000,000 as proposed by the Senate. The conference agreement includes the following amounts:

Lafayette, Ind	$7,000,000
Pine Bluff, Ark	1,400,000
Lincoln, Neb	1,800,000
Springfield, Ill	2,800,000
Carbondale, Ill	500,000
Brownsville, Tex	1,500,000

INTERMODAL URBAN DEMONSTRATION PROJECT

Appropriates $2,750,000 to carry out the provisions of section 124 of the Federal-Aid Highway Amendments of 1974.

AUTO-PEDESTRIAN SEPARATION DEMONSTRATION PROJECT

Appropriates $1,750,000 as proposed by the Senate.

FEDERAL-AID HIGHWAYS

Appropriates $12,800,000,000 to liquidate contract authority obligations as proposed by the Senate instead of $11,600,000,000 as proposed by the House.

Limits Federal-aid highway obligations to $13,250,000,000 instead of $12,520,000,000 as proposed by the House and $13,550,000,000 as proposed by the Senate.

Inserts language as proposed by the Senate exempting Zilwaukee Bridge obligations from this limitation.

The conferees expect that the discretionary funds under the interstate transfer grants-highways program will be allocated to achieve the following program levels in fiscal year 1985:

Tucson, Ariz	$8,422,650
Denver, Col	33,261,000
Chicago, Ill	136,000,000
Iowa	31,232,000
Baltimore, Md	70,000,000
Duluth, Minn	21,280,000
Minneapolis-St. Paul, Minn	30,720,000
Omaha, Neb	9,000,000
State of New York	25,000,000
Portland, Oreg	37,300,000
Washington, D.C	21,900,000

The conferees recognize that delays in some regions' projects might necessitate adjustments to the above allocations. The conferees expect these adjustments, if required, to be accomplished through the normal reprogramming process.

RIGHT-OF-WAY REVOLVING FUND

Limits direct loans to $50,000,000 as proposed by the Senate instead of $30,000,000 as proposed by the House.

MOTOR CARRIER SAFETY

Appropriates $14,066,000 as proposed by the Senate instead of $13,020,000 as proposed by the House.

MOTOR CARRIER SAFETY GRANTS

Appropriates $14,000,000 instead of $8,000,000 as proposed by the House and $16,000,000 as proposed by the Senate.

ACCESS HIGHWAYS TO PUBLIC RECREATION AREAS ON CERTAIN LAKES

Appropriates $5,000,000 as proposed by the Senate.

WASTE ISOLATION PILOT PROJECT ROADS

Appropriates $16,400,000 as proposed by the Senate.

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION

OPERATIONS AND RESEARCH

Appropriates $82,350,000 instead of $78,300,000 as proposed by the House and $84,850,000 as proposed by the Senate.

The conference agreement includes the following amounts:

Rulemaking	$7,000,000
(O&R positions)	(84)
Enforcement	11,500,000
(O&R positions)	(98)
Highway safety	13,200,000
(O&R positions)	(98)
(402 positions)	(80)
Research and analysis	41,175,000
(O&R positions)	(144)
Office of the administrator	2,475,000
(O&R positions)	(40)
(402 positions)	(7)
General administration	7,000,000
(O&R positions)	(78)
(402 positions)	(11)

HIGHWAY TRAFFIC SAFETY GRANTS

Appropriates $125,000,000 to liquidate contract authority obligations for various highway safety grant programs as proposed

by the Senate instead of $118,000,000 as proposed by the House.

Limits obligations for the State and community highway safety formula grant program to $100,000,000 as proposed by the Senate instead of $98,100,000 as proposed by the House. This limitation is further addressed in a subsequent amendment.

Limits obligations under the alcohol safety incentive grant program (section 408) to $50,000,000 as proposed by the Senate instead of $37,950,000 as proposed by the House.

FEDERAL RAILROAD ADMINISTRATION

OFFICE OF THE ADMINISTRATOR

Appropriates $10,700,000 as proposed by the Senate instead of $11,051,000 as proposed by the House.

RAILROAD SAFETY

Appropriates $26,061,000 as proposed by the Senate instead of $26,691,000 as proposed by the House.

The conference agreement distributes these funds as follows:

Federal enforcement	$22,161,000
(Positions)	(379)
Rail safety grants	$1,900,000
Automated track inspection	[1] $800,000
Regulation and administration	$2,000,000
(Positions)	(66)

[1] Carryover funds.

RAILROAD RESEARCH AND DEVELOPMENT

Appropriates $15,525,000 as proposed by the Senate instead of $15,653,000 as proposed by the House.

RAIL SERVICE ASSISTANCE

Appropriates $23,200,000 as proposed by the Senate instead of $8,357,000 as proposed by the House.

NORTHEAST CORRIDOR IMPROVEMENT PROGRAM

Appropriates $27,800,000 instead of $10,000,000 as proposed by the Senate. The House provided $100,000,000 for this program in section 101(f).

These funds are to be distributed as follows:

Union and Warren Street bridges	$2,400,000
New York tunnel electrical and mechanical	1,700,000
Reverse signaling: Philadelphia-Morrisville	5,900,000
Concrete ties	17,800,000

GRANTS TO THE NATIONAL RAILROAD PASSENGER CORPORATION

Appropriates $684,000,000 instead of $680,000,000 as proposed by the House and $700,000,000 as proposed by the Senate.

This funding level was derived from the following assumptions:

Operations:	
Section 403(b)	$59,000,000
Section 403(d)	19,000,000
Wage/price increases	74,300,000
Other operating costs	1,332,700,000
Revenue for operations	−846,000,000
Operating grant requirement	639,000,000
Labor protection	2,000,000
Capital program	144,000,000
Revenue for capital	−25,000,000
Carryover funds	−46,000,000
NEC purchase funds	−4,000,000
Locomotive sale	−6,000,000
Jobs bill carryover	−20,000,000
Capital grant required	43,000,000

Of the funds provided, up to $4,000,000 is made available to alleviate operating problems at Amtrak's Northeast Corridor bridge over the Bush River in Maryland. The conferees intend that these funds be used to eliminate, in the most cost-effective manner possible, schedule delays and operating costs that Amtrak experiences from opening this bridge for boaters. It is further intended that the current bridge opening schedule not be expanded after completion of the automation project.

The conference agreement provides that the 40 percent local share required for the West Side Connection project may be derived from "non-Amtrak" funds as proposed by the Senate. The conferees intend that the Secretary, in making the required local share certification, may allow non-Amtrak Federal funds to be counted against the local share up to a maximum total project cost of $50,000,000 (excluding right-of-way acquisition costs). Should the total project cost exceed $50,000,000, the conferees direct the Secretary to impose a stricter definition of local funds to exclude the use of any Federal funds for that portion of the local share required to match total project costs exceeding $50,000,000.

RAILROAD REHABILITATION AND IMPROVEMENT FINANCING FUNDS

Limits total commitments to guarantee new loans to $2,500,000 instead of $5,000,000 as proposed by the Senate. The conference agreement inserts language authorizing the Secretary of the Treasury to issue notes or other obligations pursuant to section 512 of Public Law 94-210, as amended, in amounts not to exceed $100,000,000.

URBAN MASS TRANSPORTATION ADMINISTRATION

ADMINISTRATIVE EXPENSES

Appropriates $31,000,000 instead of $29,200,000 as proposed by the House and $31,400,000 as proposed by the Senate.

RESEARCH, TRAINING, AND HUMAN RESOURCES

Appropriates $51,000,000 instead of $44,800,000 as proposed by the House and $54,800,000 as proposed by the Senate.

The conference agreement includes the following amounts:

Research and technical assistance	$29,300,000
New technology	6,000,000
Service and methods	5,000,000
Management training	1,200,000
University research	2,000,000
Human resources	7,500,000

The conference agreement for university research includes $300,000 for the continuation of the Long-Range Future of Public Transportation in Large Cities Study being conducted by the New York University Center for Urban Research.

The conferees concur in the directive contained in House Report 98-859 to expand UMTA's demonstration bonding program.

FORMULA GRANTS

Appropriates $2,449,500,000 instead of $2,389,500,000 as proposed by the Senate and $2,388,592,000 as proposed by the House.

Inserts language proposed by the Senate prohibiting the use of funds for planning, preliminary engineering and design, or construction of the proposed light rail line or subway in the Detroit area until a source of operating funds has been approved in accordance with Michigan law.

DISCRETIONARY GRANTS

Limits obligations to $1,120,000,000 as proposed by the Senate instead of $1,100,000,000 as proposed by the House.

The conference agreement includes the following amounts:

Bus and bus facilities	$130,000,000
Existing rail modernization and extensions	487,500,000
New systems and new extensions	422,500,000
Planning	50,000,000
Elderly and handicapped	25,000,000
Innovative techniques and technology introduction	5,000,000

The conference agreement includes the following amounts for new systems and new extensions:

Portland (light rail)	$19,000,000
Seattle (bus tunnel)	20,000,000
Detroit (automated system)	5,000,000
Miami (rail construction and circulator)	49,000,000
Santa Clara (light rail)	64,800,000
Atlanta (rail construction)	95,000,000
Los Angeles (rail construction)	117,200,000
Houston (busways)	35,000,000
Jacksonville (People mover)	1,800,000
St. Louis (engineering)	10,000,000
Buffalo (light rail)	2,700,000
San Diego (light rail)	3,000,000

The "new start" projects designated by the conferees all have strong local support as demonstrated by the extensive testimony given during the course of the House and Senate appropriations hearings. That testimony showed convincingly that these projects are considered vital to the transportation and urban development goals of those cities.

The conferees are very much aware, however, that the total cost of these projects far exceeds what can reasonably be expected to be available under the existing Discretionary Grant program. According to UMTA estimates, the full dollar demand for new start projects which are at or beyond the preliminary engineering stage is four times greater than available authorizations. The demand for other projects undergoing study could be more than ten times greater than available authorizations.

The conferees believe these demand figures attest to the growing awareness that fixed guideway transit systems are integral to the future growth and development of American cities. Well planned and well designed rail transit projects can contribute significantly to the economic vitality of our large cities, which is an important national objective. In addition, such systems should help us conserve energy, reduce air pollution, and provide essential mobility to the socially and economically disadvantaged. The conferees are pleased that increased national interest is being shown in such projects and intend to make future funding allocations in a way that will promote such interest.

At the same time, the conferees acknowledge that the Federal Government cannot and should not bear the entire load of financing these new systems. By necessity and by design, the conferees expect the Federal role in mass transit to shift increasingly to promoting and planning sound fixed guideway transit projects and to leveraging state, local and private resources to con-

struct these projects. In this regard, it is essential that significant new non-Federal financial sources be developed if the projects currently being planned are to be constructed.

The conferees reiterate that funding earmarks, absent a letter of intent or full funding contract approved by the Appropriations Committees, do not represent long-term commitments to fund any projects to completion. In planning for transit new start projects, the conferees fully expect the transit properties involved to develop viable funding plans which include realistic assessments of future Federal funding. The conferees have attempted to cooperate with interested parties to make such assessments and will continue to cooperate in this manner.

The conferees have also followed with interest UMTA's efforts to develop quantitative criteria with which to evaluate new start proposals. The conferees believe this to be a useful exercise which, if properly designed, can greatly aid Congress in allocating scarce resources. The conferees note, however, that considerable disagreement and dissatisfaction exist within the transit community regarding UMTA's current proposed criteria. The conferees expect UMTA to continue its dialogue with interested parties to achieve a general consensus on final criteria that are, at a minimum, technically unassailable.

It is also the conferees' belief that any criteria should be only advisory in nature. To legislate criteria would be too restrictive in judging projects which can vary widely in terms of benefits, costs, and configuration. If technically sound criteria can be developed that are generally acceptable to the transit community, the conferees intend to use such ratings as a major tool for making future new start allocations.

The conference agreement includes language proposed by the House prohibiting the use of Discretionary Grant funds for the proposed Woodward Corridor light rail project in the Detroit area. This limitation does permit the use of funds necessary to update alternative analysis studies for this project.

The conference agreement includes language proposed by the Senate exempting from the limitation any authority for section 21(a)(2)(B) previously made available for obligation.

LIQUIDATION OF CONTRACT AUTHORIZATION

Appropriates $450,000,000 to liquidate contract authority obligations as proposed by the Senate instead of $242,000,000 as proposed by the House.

INTERSTATE TRANSFER GRANTS—TRANSIT

The conferees expect that the discretionary funds under this program will be allocated to achieve the following total program levels for fiscal year 1985:

Chicago	$130,691,650
Baltimore	32,000,000
Sacramento	25,081,250
Boston	13,160,700
Cleveland	6,353,200
San Francisco	5,817,500
Memphis	2,775,000
Waterloo	1,123,750
Duluth	1,723,200
Washington, DC	598,750
Albany	158,750
New Jersey	828,750
Indianapolis	1,375,000
Fall River to Providence	97,500
New York City	680,000
Rhode Island	3,893,750
Hartford-New Britain	22,980,000
Killingly	37,500
Portland	623,750

The conferees recognize that delays in some regions' projects might necessitate adjustments to the above allocations. The conferees expect these adjustments, if requested, to be accomplished through the normal reprogramming process.

The conferees support completing the Sacramento Light Rail Project in fiscal year 1986.

WASHINGTON METRO

Inserts language proposed by the Senate directing the Secretary not to withhold approval of any construction grant request solely on the basis of any mileage limitation.

ST. LAWRENCE SEAWAY DEVELOPMENT CORPORATION

LIMITATION ON ADMINISTRATIVE EXPENSES

Limits administrative expenses to $1,822,000 as proposed by the Senate instead of $1,800,000 as proposed by the House.

RESEARCH AND SPECIAL PROGRAMS ADMINISTRATION

RESEARCH AND SPECIAL PROGRAMS

Appropriates $18,900,000 instead of $18,623,000 as proposed by the House and $20,394,000 as proposed by the Senate.

The conference agreement includes the following amounts:

Administrator	$138,000
Chief counsel	360,000
Program management and administration:	
Operations	1,750,000
Research and development	815,000
Emergency transportation:	
Operations	817,000
Research and development	285,000
Materials transportation bureau:	
Operations	8,860,000
Research and development	1,375,000
Pipeline safety grants	4,500,000

The provision contained in H.R. 5921 to eliminate the Research and Special Programs Administration and transfer its operating functions to other Department agencies is outside the scope of this conference and is therefore not addressed in the conference report. The conferees expect appropriate departmental officials to be prepared to fully justify in next year's budget hearings the cost-effectiveness of continuing the Research and Special Programs Administration should such a proposal be in the President's fiscal year 1986 budget estimate.

OFFICE OF THE INSPECTOR GENERAL

SALARIES AND EXPENSES

Appropriates $27,900,000 instead of $26,795,000 as proposed by the House and $27,956,000 as proposed by the Senate.

TITLE II—RELATED AGENCIES

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

SALARIES AND EXPENSES

Appropriates $2,000,000 as proposed by the Senate instead of $1,900,000 as proposed by the House.

NATIONAL TRANSPORTATION SAFETY BOARD

SALARIES AND EXPENSES

Appropriates $21,700,000 as proposed by the Senate instead of $20,845,000 as proposed by the House.

CIVIL AERONAUTICS BOARD

SALARIES AND EXPENSES

Appropriates $5,600,000 as proposed by the Senate instead of $19,046,000 as proposed by the House.

PAYMENTS TO AIR CARRIERS

Appropriates $52,000,000 as proposed by the Senate instead of $50,800,000 as proposed by the House.

Inserts language proposed by the Senate earmarking $102,597, 50 percent of the cost to restore subsidized air service to Hazleton, Pennsylvania.

INTERSTATE COMMERCE COMMISSION

SALARIES AND EXPENSES

Appropriates $48,000,000 as proposed by the Senate instead of $53,966,000 as proposed by the House. Staffing for ICC offices is to be distributed as follows:

Office	Funds	Staff years
Commissioners and their offices	$3,000,000	65
Secretary	2,420,000	64
General Counsel	1,350,000	25
Proceedings	8,520,000	160
Hearings	825,000	12
Special counsel	475,000	7
Transportation analysis	1,720,000	30
Accounts	6,850,000	113
Traffic	3,900,000	90
Compliance and consumer assistance	13,200,000	260
Managing director	5,740,000	88

The conferees direct that the 65 staff years allocated for the seven Commissioners and their officers be distributed as follows:

	Staff years
Chairman's office	7
Other commissioner's offices	36
Chairman's satellite offices	22

PAYMENTS FOR DIRECTED RAIL SERVICE

Limits obligations to $1,000,000 as proposed by the Senate instead of $5,000,000 as proposed by the House.

PANAMA CANAL COMMISSION

OPERATING EXPENSES

Appropriates $406,346,000 as proposed by the Senate instead of $391,912,000 as proposed by the House.

CAPITAL OUTLAY

Appropriates $23,500,000 instead of $21,813,000 as proposed by the House and $27,900,000 as proposed by the Senate.

UNITED STATES RAILWAY ASSOCIATION

ADMINISTRATIVE EXPENSES

Appropriates $2,100,000 instead of $2,000,000 as proposed by the Senate. The House provided $2,100,000 in section 101(f).

TITLE III—GENERAL PROVISIONS

Inserts language proposed by the Senate prohibiting the use of funds to implement any change in status of the Transportation Systems Center, modified to also prohibit any planning activities related to changing the Center's current Federal status.

Inserts language proposed by the Senate prohibiting the use of funds to implement a rulemaking which would lower the annual passenger ceiling at Washington National Airport.

Inserts language proposed by the Senate providing for a distribution of funds under

the obligation limitation for Federal-aid highways.

Amendment No. 38: Modifies a provision inserted by the House to provide that programs, projects or activities provided for in the Treasury, Postal Service and General Government Appropriations Act, 1985 (H.R. 5798) will be provided for in accordance with the Conference Report (98-993) as passed the House of Representatives on September 12, 1984, with an exception providing that the amendments regarding the taxation of certain firearms and the exemption of certain items from Customs requirements will be considered as enacted into law.

Amendment No. 39: Inserts language proposed by the Senate regarding voter registration.

Amendment No. 40: Changes section number as proposed by the Senate.

Amendment No. 41: Deletes language proposed by the House providing for the continuation of certain transportation programs at the current rate of operation. These programs are addressed in amendment 37.

Amendment No. 42: Inserts the word "and" as proposed by the Senate.

CURRENT RATE FOR UNAUTHORIZED PROGRAMS

Amendment No. 43: Deletes language proposed by the House which would have provided for funding at the current rate for activities under title V of the Social Security Act; Section 427(a) of the Federal Coal Mine Health and Safety Act; Regional Offices of Facilities Engineering and Construction; and Title XXVI of the Omnibus Budget Reconciliation Act of 1981. These programs are funded under Amendment No. 18.

REFUGEE AND ENTRANT ASSISTANCE

Amendment No. 44: Restores language included by the House but stricken by the Senate which specifies that the rate of operations for refugee and entrant assistance activities shall be the lower of the current rate or the rate authorized by H.R. 3729 as passed by the House of Representatives.

It is the intent of the conferees that $50,000,000 will be available for the targeted assistance program in fiscal year 1985, and that the Department will expend new monies to fulfill the 1985 appropriations levels provided by this bill. The conferees express concern that the agency's delay in allocating and releasing funds until the third and fourth quarter of each year often leaves States and local entities without funds at the beginning of their program years, and direct the Department not to reduce any State or local entity's allotment on the basis of 1984 funds carried over or previously committed.

Further, the conferees expect the Department to continue to provide assistance to Jackson Memorial Hospital and Dade County for the health care and educational needs of refugees.

CURRENT RATE FOR UNAUTHORIZED PROGRAMS

Amendment No. 45: Deletes House language which would have provided for certain activities to be funded at the current rate, and inserts language providing for continuation of foster care and adoption assistance activities under existing terms and conditions; for emergency immigrant education activities at the current rate; and for Follow Through activities at an annual rate of $10,000,000.

DEPARTMENT OF DEFENSE—CIVIL

DEPARTMENT OF THE ARMY

CORPS OF ENGINEERS—CIVIL

Amendment No. 46: Deletes language and appropriation proposed by the House:

FLOOD CONTROL, MISSISSIPPI RIVER AND TRIBUTARIES, ARKANSAS, ILLINOIS, KENTUCKY, LOUISIANA, MISSISSIPPI, MISSOURI, AND TENNESSEE

Amendment No. 47: Deletes appropriation of $2,000,000 as proposed by the House.

APPALACHIAN REGIONAL COMMISSION

Amendment No. 48: Deletes appropriation of $11,000,000 as proposed by the House.

Amendment No. 49: In lieu of the matter stricken and inserted by said amendment insert the following:

In the House engrossed Continuing Resolution strike out all beginning on page 11, line 19 through page 13, line 14, all inclusive.

Amendment No. 50: Deletes language proposed by the House.

Amendment No. 51: In lieu of the matter stricken and inserted by said amendment insert the following:

In the House engrossed Continuing Resolution strike out all beginning on page 13, lines 15 through 22, all inclusive.

Amendment No 52: Deletes language proposed by the House.

Amendment No. 53: In lieu of the matter stricken and inserted by said amendment insert the following:

In the House engrossed continuing Resolution strike out all beginning on page 16, lines 3 through 7, all inclusive.

Amendment No. 54: Deletes language proposed by the House and stricken by the Senate and deletes language proposed by the Senate.

Amendment No. 55: Deletes language proposed by the Senate.

Amendment No. 56: Deletes language proposed by the Senate.

Amendment No. 57: Deletes language proposed by the Senate.

Amendment No. 58: Deletes language proposed by the Senate.

Amendment No. 59: Deletes language proposed by the Senate.

Amendment No. 60: Deletes language proposed by the Senate.

Amendment No. 61: Deletes language proposed by the Senate.

Amendment No. 62: Deletes language proposed by the Senate.

Amendment No. 63: Deletes language proposed by the Senate.

Amendment No. 64: Deletes language proposed by the Senate.

Amendment No. 65: Deletes language proposed by the Senate.

Amendment No. 66: Deletes language proposed by the Senate.

Amendment No. 67: Deletes language proposed by the Senate.

Amendment No. 68: Deletes appropriation of $740,000 as proposed by the Senate.

Amendment No. 69: Deletes language proposed by the House and stricken by the Senate relating to the sale of electric power generated at facilities constructed pursuant to 38 Stat. 242, 1913.

Amendment No. 70: Deletes language proposed by the Senate.

Amendment No. 71: Deletes language proposed by the Senate.

Amendment No. 72: Deletes language proposed by the Senate.

Amendment No. 73: In lieu of the matter stricken and inserted by said amendment insert the following:

In the House engrossed Continuing Resolution strike out all beginning on page 20, line 10 through 17 all inclusive.

TENNESSEE VALLEY AUTHORITY

Amendment No. 74: Deletes language proposed by the House.

FEDERAL EMERGENCY MANAGEMENT AGENCY

Amendment No. 75: Restores language proposed by the House and stricken by the Senate extending the Federal Emergency Management Agency's Federal crime insurance program for one year, from October 1, 1984 through September 30, 1985. It is the intent of the conferees that this is the final extension of the Federal crime insurance program.

The Committee on Appropriations will not provide any further extension of the authority beyond September 30, 1985. Therefore, the conferees urge any State or jurisdiction not providing an alternative program to implement such a program as soon as possible.

ENVIRONMENTAL PROTECTION AGENCY

Amendment No. 76: Inserts language proposed by the Senate appropriating $13,000,000 for refinancing up to 60 percent of the bond debt of the Akron, Ohio recycle energy system. A provision has been included to assure that the Federal government shall have access to the Akron facility as a laboratory for municipal waste to energy research.

The conferees strongly support the Senate's denial of EPA's proposed reprogramming of $7,000,000 for EDB disposal and indemnification costs. These funds should be utilized for the State grants and other program activities as originally intended by the Congress and specified in the conference report accompanying the 1985 HUD-Independent Agencies Appropriation Act (Public Law 98-371). The committee of conference expects the Administration to submit to the Congress a supplemental budget request for additional funds required to meet critical disposal and indemnification costs resulting from the EDB ban.

The conferees agree with the Senate language directing that up to $165,000 of existing funds he made available for feasibility and design studies for the Newport, Oregon field station. In addition, the conferees direct that within funds previously appropriated in Public Law 98-371, up to $106,000 shall be made available to augment funds for the hazardous waste management center specifically for reimbursement of architectural and engineering studies.

DEFENSE INDUSTRIAL BASE

Amendment No. 77: Deletes language proposed by the Senate requiring the Federal Emergency Management Agency to submit a compilation of major findings and recommendations regarding the defense industrial base of the United States. The conferees direct that FEMA modify a current request for proposal on this subject to incorporate a compilation of findings and recommendations of existing studies.

VETERANS' ADMINISTRATION

Amendment No. 78: Inserts language proposed by the Senate appropriating $306,600,000 requested for the loan guaranty revolving fund.

CONSTRUCTION, MAJOR PROJECTS

The conferees agree that the fiscal year 1985 major construction program level totals $713,194,000. This level consists of $568,194,000 appropriated in the 1985 HUD-Independent Agencies Appropriation Act

and $145,000,000 to be derived from savings on completed projects. This is the same amount as carried in the House Report accompanying the joint resolution and $8,000,000 less than the amount requested in the VA's revised submission and carried in the Senate Report. The $8,000,000 requested for the Allen Park replacement hospital project has been deleted without prejudice until such time as a site has been selected by the Veterans Administration and the project is authorized. Funding can be considered at a later date in a 1985 supplemental appropriations bill.

Amendment Nos. 79, 80, and 81: Inserts section numbers as proposed by the Senate.

Amendment No. 82: Inserts an amendment to the Small Business Act which specifies the degree to which the disaster loan program of the Small Business Administration will be available to the fishing industry due to El Nino-related ocean conditions in the Pacific in 1982 and 1983, and clarifies the eligibility of applicants for nonphysical disaster loans, as well as the treatment of agricultural cooperatives. The House had proposed an amendment to the Small Business Act which specified the degree to which the SBA disaster loan program would be available to the fishing industry due to El Nino-related ocean conditions in 1982 and 1983 and to agricultural enterprises due to the recent drought. The Senate had proposed to delete these provisions from the resolution.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Amendment No. 83: Inserts language proposed by the Senate providing that the rescission in the 1985 HUD-Independent Agencies Appropriation Act of up to $7,631,000 in annual contract authority and $164,760,000 in budget authority of recaptured section 236 balances be reduced to up to $4,331,000 in annual contract authority and $69,060,000 in budget authority. The balance of $3,330,000 in annual contract authority and $95,700,000 in budget authority should be used to replace the funds drawn from various State agency reserves in 1982. The committee of conference has agreed to delete the second proviso relating to interest reduction subsidies and rental assistance payments. It is expected that the State housing agencies and the Department of Housing and Urban Development reach mutually agreeable solutions to the outstanding issues regarding the use of the so-called "pool funds".

Amendment No. 84: Inserts language proposed by the Senate requiring that, during fiscal year 1985, departments and agencies of the Federal government make loan guarantee and insurance commitments up to the full amounts provided in appropriation Acts, subject only to the availability of qualified applicants.

Amendment No. 85: Inserts language proposed by the Senate appropriating $300,000,000 to continue various public housing programs as carried in previously enacted appropriation bills, amended to clarify the interest rate on Treasury borrowings.

The conferees note that this language, as amended, is necessary owing to questions in connection with the tax status of obligations issued by public housing agencies to finance development and modernization projects. These questions result from the enactment of the Tax Reform Act of 1984 which attempted to limit abuses of Federally guaranteed tax exempt bond proceeds.

As such, the Act rendered questionable the tax exempt status of all public housing notes and bonds. The Committee expects that ultimately the tax code amendment will be interpreted by the Internal Revenue Service to permit public housing authorities to continue issuance of tax exempt obligations. However, pending this clarification, the Tax Reform Act of 1984 is preventing the regular sales of these instruments. To meet the capital requirements of maturing obligations, HUD has been forced to draw down against its current limitation on borrowing from the Treasury. The Department has also suspended new loan authority reservations and contract executions for public housing development, modernization and Indian housing.

Although HUD has assured the Congress that existing borrowing authority is sufficient to meet current capital requirements, these funds are required to offset the higher interest rate charged under direct Treasury borrowing as compared to the tax exempt rate that has prevailed for public housing securities for the past 40 years. This appropriation is particularly essential for new development and modernization projects that could be delayed without some method of offsetting the interest differential between direct Treasury borrowings and the tax exempt rate assumed for public housing bonds.

The conferees have made available these funds for the interest differential costs to cover Treasury borrowing occurring during the next six months. This provision is in line with a request of the Office of Management and Budget.

The conferees direct HUD to immediately resume the full level of new loan commitments and contract executions which were suspended early in September. The conferees further direct the Department, OMB, and the Treasury Department to make a concerted effort towards an early and definitive interpretation of the tax code change to permit timely resumption of normal tax-exempt note sales.

Amendment No. 86: Changes section number as proposed by the Senate.

Amendment No. 87: Inserts language proposed by the Senate which prohibits the Customs Service from promulgating certain regulations with regard to duty free stores.

Amendment No. 88: Inserts a section proposed by the Senate which amends the Small Business Investment Act of 1958. The amendment reverses the current policy of the Administration which prohibits the Small Business Administration from issuing guarantees under its Pollution Control Equipment Contract Guarantee program which are backed by Industrial Development Bonds.

BUSINESS LOAN AND INVESTMENT FUND

The conferees note that the Small Business Administration encountered legislative problems in the latter part of fiscal year 1984 with regard to the authorized levels for direct loans to the handicapped, for direct purchases of debentures and preferred securities by Minority Enterprise Small Business Investment Companies (MESBIC's) and for guaranteed loans issued by Small Business Investment Companies (SBIC's). As a result SBA could not use all of the funds that were appropriated for fiscal year 1984 to carry out these programs. This situation resulted in an unanticipated increase in the unobligated balance carrying over into fiscal year 1985 in the Business Loan and Investment Fund.

At the beginning of the new fiscal year, SBA had applications pending for $4 million for handicapped assistance loans, $6 million for direct purchases of debentures and securities issued by MESBIC's, and $15 million for SBIC guaranteed loans that were not funded in fiscal year 1984, due to the conflict between the appropriation and authorization levels. Many of these applications had been awaiting consideration since early 1984, and in several instances, this long waiting had caused serious financial difficulties. In addition, the levels provided in the fiscal year 1985 Appropriation Act (Public Law 98-411) for these three programs will barely be sufficient to accommodate the anticipated demand for the new fiscal year. Therefore, the conferees are agreed that the funding levels for these three programs as stated in the Joint Explanatory Statement of the Committee of Conference in House Report 98-952 on the fiscal year 1985 Appropriation Bill are hereby amended as follows:

[In millions]

Program	Program levels, H. Rept. 98-952	Revised program levels
Handicapped direct loans	$20	$24
Investment company loans:		
Direct	41	47
Guaranteed	250	265

The conferees expect that the Office of Management and Budget will act as soon as possible to reapportion the funds available in the Business Loan and Investment Fund for fiscal year 1985 to reflect the revised funding levels for these programs.

Amendment No. 89: Inserts a new section as proposed by the Senate which authorizes the Department of State to carry over until September 30, 1985, funds originally appropriated in P.L. 97-257 for upgrading security at overseas posts.

Amendment No. 90: Makes available an additional $3,611,000 for the Blair House as proposed by the Senate.

Amendment No. 91: Appropriates $348,000 to the State of Arizona for expenses in connection with the San Luis, Arizona Border Station as proposed by the Senate.

Amendment No. 92: Inserts language proposed by the Senate authorizing and directing the Secretary of the Treasury to pay specified amounts to certain individuals in full settlement of claims arising from flooding due to release of water from the Stockton Dam and Reservior, Missouri.

Amendment No. 93: Inserts language proposed by the Senate regarding the designation of certain primary metropolitan statistical area.

Amendment No. 94: Inserts language proposed by the Senate regarding reimbursement to federal employees associated with moving and storage costs.

Amendment No. 95: Deletes language added by the Senate. The conferees took action on the items proposed in this amendment under Amendment No. 23.

LEGISLATIVE BRANCH

Amendment No. 96: Deletes language proposed by the Senate which would have exempted attorneys in the Senate Office of the Legislative Counsel who have attained age 55 and completed 30 years of service in the Office from a portion of the salary re-

ductions applied to reemployed annuitants under section 8344 of title 5, United States Code.

The conferees are concerned with the precedent that this provision might set. However, the employees in question provide invaluable services to the Senate and their continued expertise is needed. The conferees recognize a solution must be developed and recommend the Committee on Rules and Administration of the Senate explore administrative remedies within existing law.

Amendment No. 97: Eliminates a provision enacted by the first fiscal year 1983 continuing resolution (P.L. 97-276) which makes $4.5 million appropriated to complete a 1982 conditional purchase of property by the Architect of the Capitol subject to authorization, as proposed by the Senate. The subject property is adjacent to the Capitol grounds and is bounded by Ivy, Canal, and E Streets, Southeast, Washington, D.C.

Amendment No. 98: Repeals certain provisions of law relating to clerical assistants to Senators and adjusts an internal procedure of the Senate Committee on Rules and Administration, as proposed by the Senate.

AIRPORT NOISE

Amendment No. 99: Inserts language proposed by the Senate providing limited exemption authority from aircraft noise standards, modified to clarify certain "hush kit" requirements. This amendment provides a limited exemption from the January 1, 1985 compliance date for international operations contained in the Aviation Safety and Noise Abatement Act of 1979 (P.L. 96-193) for international flights at Miami International Airport and Bangor International Airport, Maine. These exemptions apply to carriers with aircraft for which "hush kits" to bring the aircraft into compliance are currently under substantial development, but have not been certificated, thus making compliance by means of "hush kits" impossible by the deadline contained in the law; and for certain operators of aircraft for which "hush kits" are not under development. Applicants for exemptions under the "hush kit" provisions must have a signed contract with a supplier of such equipment who is currently involved in the FAA certification process and whom the Secretary of Transportation believes will be certified in time to meet the deadlines contained in the bill language.

FEDERAL RAILROAD ADMINISTRATION

Amendment No. 100: Inserts language proposed by the Senate extending until April 1, 1985, the availability of funds previously appropriated for payment of claims under the Rock Island Labor Protection Program.

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION

Amendment No. 101: Limits obligations under the state and community highway safety formula grant program (section 402) in fiscal year 1985 to $126,500,000 as proposed by the Senate. Although the decisions on the allocation of these funds rest primarily with the states, the conferees expect NHTSA to encourage states to use these funds according to the following distribution:

Alcohol safety	$44,100,000
Police traffic services	30,000,000
Emergency medical services	13,500,000
Traffic records	12,000,000
Occupant protection	15,000,000
Grant administration	4,900,000
All other	7,000,000

The conference agreement also provides $7,500,000, to be derived by transfer, to commence a program to encourage the use of seatbelts and passive restraints as proposed by the Senate. These funds are to be derived by transfer as follows:

Railroad research and development	$5,000,000
Highway safety research and development	1,500,000
Research, training and human resources	1,000,000

In addition, the conferees direct that not more than $2,500,000 be made available from the NHTSA, Operations and Research account to conduct the necessary planning activities for this program. These funds are provided without prejudice to future funding commitments.

The conferees believe the broad concept of this program has merit and deserves further development. However, much more needs to be known about how this program is to be implemented, how much it will cost, and what specific goals are to be accomplished before the conferees will agree to its implementation. The conference agreement, therefore, makes up to $2,500,000 immediately available to be used only for necessary program planning. The conferees expect to be supplied with a detailed justification and plan for this program by next Spring, at which time hearings will be held and a decision made regarding the release of the remaining $7,500,000. The conferees, emphasize that written approval from the House and Senate Appropriations Committees will be necessary before program implementation can commence.

In developing the program plan, the conferees expect the Department to give equal treatment to the promotion of passive restraint and seatbelt usage. The conferees also intend to closely examine the proposed use of national advertising, the coordination with ongoing seatbelt usage activities, and the extent to which such funds will be used to "lobby" state officials.

FEDERAL AVIATION ADMINISTRATION

Amendment No. 102: Inserts language proposed by the Senate authorizing the Secretary of Transportation to grant release to the City of Flagstaff from certain terms and conditions contained in a deed of conveyance made in 1948 for airport purposes.

FEDERAL HIGHWAY ADMINISTRATION

Amendment No. 103: Appropriates $12,000,000 as proposed by the Senate to carry out a series of highway projects in the vicinities of Pontiac and East Lansing, Michigan to demonstrate methods of enhancing safety and promoting economic development.

EMERGENCY BOARD

Amendment No. 104: Deletes language proposed by the Senate requiring the President to create an emergency board to investigate and report on the dispute between Continental Airlines and the Air Line Pilots Association.

FEDERAL HIGHWAY ADMINISTRATION

Amendment No. 105: Inserts language proposed by the Senate requiring the Secretary of Transportation to waive alternate design requirements for the Smith Avenue High Bridge, St. Paul, Minnesota.

COAST GUARD

Amendment No. 106: Appropriates $2,000,000 as proposed by the Senate to reconstruct a lighthouse on Nantucket Island, Massachusetts.

AGRICULTURAL RESEARCH SERVICE

Amendment No. 107: Appropriates $1,000,000 for the Agricultural Research Service for emergency research on citrus canker as proposed by the Senate. The conference agreement provides $750,000 for the research program at the University of Florida and $250,000 for the Agricultural Research Service facility at Orlando, Florida.

FOOD AND DRUG ADMINISTRATION

SALARIES AND EXPENSES

Amendment No. 108: Appropriates $3,200,000 to implement the Drug Price Competition and Patent Term Restoration Act, which was signed into law on September 24, 1984, as proposed by the Senate.

The agreement also appropriates $8,350,000 to the Food and Drug Administration for activities (including construction) related to acquired immune deficiency syndrome as proposed by the Senate. The conference agreement also provides that this appropriation shall be available only to the extent an official budget request is transmitted to the Congress.

The conference agreement includes the following amounts for fiscal year 1985:

Facility renovations	$950,000
Equipment	1,650,000
Contracts relating to the safety of the national blood supply and protection of hemophiliacs	2,000,000
Contract for maintenance of animals currently located in the space to be renovated for AIDS work	1,150,000
Professional scientists under IPA's (11)	1,100,000
Intramural FTE's (20)	1,500,000
	8,350,000

COMMODITY SUPPLEMENTAL FOOD PROGRAM

Amendment No. 109: Provides authority for the remaining balances of the fiscal year 1984 appropriation to be used to settle unresolved funding claims from fiscal year 1982 under the commodity supplemental food program as proposed by the Senate.

Amendment No. 110: Changes section number as proposed by the Senate.

Amendment No. 111: Restricts mineral leasing on 960 acres of land in Payne County, Oklahoma. This matter is addressed in Amendment No. 4.

Amendment No. 112: Amends wilderness language in the Senate reported Interior Appropriations bill. This matter is addressed in section 308 of Amendment No. 4.

Amendment No. 113. Rescinds $5,200,000,000 of the funds available to the Synthetic Fuels Corporation instead of $5,000,000,000 as proposed by the House; sets aside production goals; establishes a $750,000 reserve for clean coal technology demonstration activities; provides $5,700,000,000 to meet April Letters of Intent; provides that of the amounts not required to meet the Letters of Intent, 50 percent becomes available for obligation for new projects and 50 percent is unavailable for obligation. This matter is addressed in Amendment No. 4.

Amendment No. 114: Extends the requirements of the ethical conduct and financial reporting requirements to the members of the United States Synthetic Fuels Corporation Board. This matter is addressed in Amendment No. 4.

Amendment No. 115: Deletes language proposed by the Senate prohibiting the use

of funds provided by the joint resolution for abortions except where the life of the mother would be endangered if the fetus were carried to term.

HOSPICE REIMBURSEMENT

Amendment No. 116: Inserts language proposed by the Senate which requires that hospices which meet certain conditions be reimbursed by Medicare at their 1984 level rather than at the level provided for under section 1814(1) of the Social Security Act. No similar provision was included in the House resolution.

Amendment No. 117: Deletes language proposed by the Senate which would have amended the Clayton Act and also would have repealed Section 510 of Public Law 98-411.

Amendment No. 118: Appropriates $400,000 as proposed by the Senate which would establish a commission and provide funds to study the causes of the famine in the Ukraine in 1932 and 1933. The conferees agree that before these funds may be obligated, the operating budget of the commission shall be submitted to the Committees on Appropriations of the House and Senate for review and approval.

Amendment No. 119: Inserts language proposed by the Senate that prohibits the payment of the United States' proportionate share for any United Nations "post adjustment allowances" for U.N. employees using any method of calculation not in place on January 1, 1984.

Amendment No. 120: Deletes language proposed by the Senate that would require the Secretary of Commerce to conduct a study of Indian artifact commercial fraud. The House Report accompanying the resolution requests such a study. The conferees have been assured by the Commerce Department that the study will be conducted. The conferees understand that there is a problem concerning the importation of counterfeit Native American artifacts into the United States. The conferees are concerned about this matter and expect the Department of Commerce, in cooperation with the Secretary of the Treasury and the Chairman of the Federal Trade Commission, to conduct a study and submit a report by April 15, 1985 to the Appropriations Committees of the House and Senate, the Senate Governmental Affairs Committee and the House Energy and Commerce Committee.

Amendment No. 121: Appropriates a total of $110,200,000, to be available through September 30, 1986, to the State Department to increase security at U.S. missions overseas notwithstanding section 15(a) of the State Department Basic Authorities Act of 1956, and requires that the Department report to the appropriate committees fo Congress on the obligation of funds every thirty days from the date of enactment. The Senate had proposed that this appropriation be available only upon enactment of authorizing legislation and that the Department be subject to this reporting requirement concerning the obligation of funds. The House bill contained no provision concerning this matter. The conferees agree that prior to the obligation of the $28,000,000 provided for the "Acquisition, Operation and Maintenance Abroad" appropriation, the Department of State shall submit a plan of expenditure for these funds pursuant to the guidance of the Appropriations Committees concerning reprogramming.

Amendment No. 122: The Senate included language which would have transferred from the Administrator of General Services to the Director of Central Intelligence functions dealing with the protection of real and personal property of the Central Intelligence Agency. The language also expressed a sense of the Congress that the same status, privileges, and immunities should be extended to United States official representatives in foreign nations as the U.S. Government extends to the same foreign officials in the United States and established a Deputy Director of the Office of Foreign Missions.

The conferees included a provision to allow the transfer of functions dealing with the protection of real and personal property to the Central Intelligence Agency. The additional language was deleted.

Amendment No. 123: Provides authorization for states to use Abandoned Mine funds to establish a subsidence insurance program. This matter is addressed in Amendment No. 4.

CHILD CARE TRAINING

Amendment No. 124: Deletes House language increasing the authorization for title XX of the Social Security Act for child care training directed toward prevention of child abuse. The conferees have agreed to an expanded authorization and appropriation for essentially the same purpose under Amendment No. 161.

Amendment No. 125: Deletes language inserted by the House.

JOB CORPS

Amendment No. 126: Deletes language proposed by the House which would have prohibited the Department of Labor from contracting out the operation of Job Corps civilian conservation centers and inserts language providing for compensation for employees furlouged as a result of the lapse of appropriations and language ratifying obligations incurred in anticipation of appropriations and authority provided in the joint resolution.

DISTRICT OF COLUMBIA

Amendment No. 127: Includes the provisions of H.R. 3932 (98th Congress) as passed the House of Representatives on October 4, 1983 and amended by the Committee on Governmental Affairs of the Senate and further amended with one change requested by the United States Attorney for the District of Columbia with two changes requested by the District government. H.R. 3932, as amended, simply modifies the District of Columbia Self-Government and Governmental Reorganization Act, commonly referred to as the Home Rule Act (93-198 approved December 24, 1973) and brings it into conformity with the June 1983 Supreme Court decision in the case *Immigration and Naturalization Service (INS)* v. *Chadha*. In that decision, the Court held unconstitutional a provision of the Immigration and Naturalization Act that authorized either House of Congress to override a determination of the Attorney General, pursuant to delegated authority, to suspend the deportation of a resident alien. The Court concluded that Article I, section 7 of the Constitution, which requires that bills be passed by both Houses of Congress and presented to the President for signature, had not been complied with when the veto mechanism was used. The Court provided a listing of the Acts or portions of Acts which would be affected by its decision, and included in that listing three sections of the Home Rule Act and one section of the District of Columbia Retirement Reform Act (Public Law 96-122 approved November 17, 1979). Each of these Acts includes a procedure by which Congress, without the President's approval, can reject certain actions of the District of Columbia government by simple or concurrent resolutions of disapproval or in one instance, approve by resolution the emergency use of local police by the President for a period in excess of 30 days. In using its power, the Congress has exercised its veto over Acts of the District government only twice, even though more than 700 laws have been enacted by the District since Home Rule. However, there is a cloud over all of those laws because of the *Chadha* decision, and the District is unable to enter the commercial bond market because its bond counsel will not give the District an unqualified opinion as to the legal validity of the District's contractual debt obligation, which would be entered into in a bond or note issuance under statutory authority provided by the Home Rule Charter. Thus, the courts could find the District's contractual debt obligation to be legally invalid and the District would then be legally restricted from paying the obligations that were found to be invalid, despite its desire to make such payments.

The amended version of H.R. 3932 agreed to by the conferees will bring each of the veto provisions of the Home Rule Act into conformity with the Supreme Court's *Chadha* decision by altering the form of congressional veto action to that of a joint resolution of disapproval which, like laws, must be passed by both Houses of Congress and presented to the President for signature.

The conferees have included language requested by the U.S. Attorney for the District of Columbia nullifying acts of the District Council which were previously disapproved by Congress under provisions of law then in effect. This occurred on two bills; D.C. Act 3-120, Location of Chanceries Act of 1979, and D.C. Act 4-69, District of Columbia Sexual Assault Reform Act of 1981.

The conferees have also agreed to language requested by District officials which extends for one year the authority for the District to borrow through private placements during the transition period to the commercial bond market. This authority was originally provided in Public Law 97-105, approved December 31, 1981 and applies to general obligation bonds sold before October 1, 1984. These bonds are required to be secured by a security interest created in District revenues under section 467(a) of the Home Rule Act. Since the *Chadha* decision delayed the District's entry into the commercial bond market, it is necessary to extend the date for private placements of bonds to those sold before October 1, 1985 to give the District government a better opportunity to enter the market. The conferees have also added language which makes the provisions of section 131 permanent law and effective without limitation as to fiscal year.

FOREIGN ASSISTANCE AUTHORIZATION

Amendment No. 128. This amendment deletes House proposed authorization of Foreign Assistance programs.

OMNIBUS CRIME CONTROL BILL

Amendment No. 129: Inserts language proposed by the Senate that the sentencing court shall impose a sentence sufficient, but not greater than necessary, to comply with the purposes set forth in paragraph (2) that set forth the criteria for evaluating the need for the sentence. The House bill contained no provision on this matter.

Amendment No. 130: Deletes "thirty-six" as proposed by the House, and inserts in lieu thereof "fifty-four" as proposed by the Senate which increases "good time" that accrues from 10 percent to 15 percent.

Amendment No. 131: Deletes "two" as proposed by the House, and inserts in lieu thereof, "three", as proposed by the Senate. The Senate amendment increases the number of Federal judges who shall serve on the Sentencing Commission from two to three.

Amendment No. 132: Inserts language proposed by the Senate that instructs the sentencing commission that the sentencing guidelines it develops shall be formulated to minimize the likelihood that the Federal prison population will exceed the capacity of the Federal prisons, as determined by the Commission. The House bill contained no provision on this matter.

Amendment No. 133: Inserts the provisions of H.R. 5656, the Dangerous Drug Diversion Control Act, which amends the Controlled Substances Act and the Controlled Substances Import and Export Act to prevent the diversion of drugs from legitimate channels of distribution to black market channels for purposes of abuse. The House had proposed certain provisions on this matter that did not protect the interests of private parties. The Senate had proposed deletion of the House provisions and insertion of provisions that accomplished the same result as the conference agreement which provides protections for the industry and medical practitioners. The conference agreement is supported by the Department of Justice, the pharmaceutical industry and the health care professions.

Amendment No. 134: Inserts provisions providing for a program of grants for state and local law enforcement assistance and for a Federal response to crime emergencies confronting state and local governments, reauthorizes the Juvenile Justice and Delinquency Prevention Program, and establishes a clearinghouse for missing children. The House had proposed certain provisions which had authorized a program of justice assistance grants to the States. The Senate had proposed deletion of the House provisions and insertion of a provision which authorized a program of justice assistance grants to the States in a different form, as well as the provisions reauthorizing the Juvenile Justice and Delinquency Prevention Program and establishing a clearinghouse for missing children which are contained in the conference agreement.

Amendment No. 135: Deletes "(a)" as proposed by the House and stricken by the Senate. This is a technical change.

Amendment No. 136: Deletes provisions proposed by the House and stricken by the Senate which removed the jurisdiction of the United States courts over civil suits alleging violations of this labor racketeering chapter and civil suits brought by the United States involving payments to labor organizations for membership dues which violate this section.

Amendment No. 137: Deletes House language which did not require a showing of harm to a labor union and inserts Senate language which would provide penalties only to those who abuse their position in a labor union to seek or obtain an illegal gain at the expense of the members of the labor organization.

Amendment No. 138: Deletes a provision proposed by the House calling for a maximum of ten years disqualification from union activities of those persons convicted of a felony violation of this section and inserts Senate language calling for a maximum of 13 years disqualification for such a violation.

Amendment No. 139: Deletes a provision proposed by the House calling for a minimum of five years disqualification from union activities of those persons convicted of a violation of this section and inserts Senate language calling for a minimum of three years disqualification.

Amendment No. 140: Deletes House language and inserts Senate language identical to amendment No. 137. The purpose of this amendment is to add a requirement that the abuse or misuse of a person's labor organization or employee benefit plan must be for illegal gain at the expense of the members of the labor organization if the section's disqualifications are to apply.

Amendment No. 141: Deletes the House language and inserts Senate language. The effect and purpose of the Senate language are identical to Amendment No. 138.

Amendment No. 142: Deletes the House language and inserts Senate language. The effect and purpose of the Senate language are identical to Amendment No. 139.

Amendment No. 143: Deletes title II, Chapter X, part N proposed by the House and stricken by the Senate. Part N created an offense of robbery or burglary of a pharmacy or other registrant of controlled substance, thereby retaining current law on the subject.

Amendment No. 144: Changes designation of Part "O" to Part "N". This is a technical amendment.

Amendment No. 145: Deletes Title II, Chapter XI, part A proposed by the House and stricken by the Senate. The House language amended the current law concerning child pornography offenses.

Amendment No. 146: Deletes a part of the heading in Title II, Chapter XI, Part D relating to United States Securities fraud, as proposed by the House and stricken by the Senate. This provision was duplicative of current law.

Amendment No. 147: Changes designation "510" of Title II, Chapter XI, Part D as proposed by the House to "511" as proposed by the Senate. This is a technical amendment.

Amendment No. 148: Deletes "States." in Title II, Chapter XI, Part D as proposed by the House and inserts in its place "States."." as proposed by the Senate. This is a technical amendment.

Amendment No. 149: Deletes Title II, Chapter XI, part D as proposed by the House relating to United States Securities fraud and stricken by the Senate. This provision was duplicative of existing law.

Amendment No. 150: Deletes "entities." in Title II, Chapter XI, Part E as proposed by the House and inserts in lieu thereof "entities."." as proposed by the Senate. This is a technical amendment.

Amendment No. 151: Deletes language proposed by the House and stricken by the Senate which would have amended title 18 of the United States Code by inserting "511" after "509." This is a technical amendment.

Amendment No. 152: Deletes Title II, Chapter XII, part F as proposed by the House providing for protection of witnesses and inserts certain provisions proposed by the Senate concerning the matter. The Senate amendment improves the administrative operations of the witness security program, provides significant safeguards for protection of the rights of non-custodial parents of children of a protected witness with custody, provides compensation to victims injured by a protected witness, and provides reemployment safeguards for marshals.

Amendment No. 153: Deletes Title II, Chapter XII, Part G as proposed by the House and stricken by the Senate. This provision is duplicative of current law.

Amendment No. 154: Changes the designation of Title II, Chapter XII, part "H" as proposed by the House to "G" as proposed by the Senate. This is a technical amendment.

Amendment No. 155: Changes the designation of Title II, Chapter XII, part "I" as proposed by the House to "H" as proposed by the Senate. This is a technical amendment.

Amendment No. 156: Changes the designation of Title II, Chapter XII, part "J" as proposed by the House to "I" as proposed by the Senate. This is a technical amendment.

Amendment No. 157: Changes the designation of Title II, Chapter XII, part "K" as proposed by the House to "J" as proposed by the Senate. This is a technical amendment.

Amendment No. 158: Deletes Title II, Chapter XI, part L—Foreign Evidence Improvements as proposed by the House and inserts a new part K as proposed by the Senate improving the method of obtaining foreign documentary evidence.

Amendment No. 159: The conference agreement adopts the Senate amendment which added eight new chapters to the House bill, and makes several other changes. There were no corresponding provisions on these matters proposed by the House. The conference agreement:

(1) Provides for the coordination of drug enforcement efforts and creates a cabinet-level National Drug Enforcement Policy Board, chaired by the Attorney General, to develop an integrated and comprehensive enforcement policy. This matter was an amendment offered by Senator Thurmond to S. 1787, which passed the Senate on February 7, 1984.

(2) Establishes a crime victims fund to be used to provide Federal aid to State crime victim compensation programs.

(3) Creates Federal criminal sanctions for the intentional and knowing trafficking in goods or services on which a counterfeit trademark is used and enhances current civil law penalties for trafficking in such goods and services. This provision is very similar to legislation passed by the House, H.R. 6071 and by the Senate, S. 875, and reflects the resolution of the differences in the versions approved by both Houses.

(4) Prohibits use, production and trafficking in "countefeit" credit cards and credit card production equipment with intent to defraud. It prohibits use and trafficking in "unauthorized" credit cards which are valid cards that have been lost or stolen.

(5) Raises the maximum salary that may be paid to United States Attorneys from Executive Schedule level V to Executive Schedule level IV.

(6) Provides authority for increased participation of the Federal law enforcement system against armed "career criminals". It establishes a mandatory 15 year sentence for a felon who, after having been convicted three times for robbery or burglary, violates the Federal law prohibiting receipt, possession or transportation of a firearm in interstate commerce. This provision is identical to legislation which passed the House on October 2, 1984, H.R. 6248.

(7) Increases the hourly fees that may be paid to court appointed counsel in criminal cases.

(8) Implements the International Convention Against the Taking of Hostages. It supplements the Federal kidnaping statute to cover certain acts of hostage taking, prohibits hostage taking intended to compel a third person or a government to take or refrain from acting, and expands Federal jurisdiction over certain hostage taking offenses. The provision also implements the International Convention for the Suppression of Unlawful Acts Against the Safety of Civil Aviation. It expands the protections of current law to cover more persons, to prohibit more acts that threaten aviation safety, and to expand Federal jurisdiction over certain offenses.

(9) Creates a Federal offense to wrongfully access a computer and obtain information concerning national defense or foreign relations, or any restricted data pursuant to the Atomic Energy Act, with intent to injure the United States or a foreign nation.

(10) Creates a Federal offense to wrongfully access a computer and obtain data protected under the Right to Financial Privacy Act or the Fair Credit Reporting Act.

(11) Creates a Federal offense to wrongfully access to computer and use, modify, destroy or disclose information without authorization, in a government computer, or prevent authorized use of a government computer. Attempts and conspiracies to commit these three offenses are also prohibited.

(12) Provides further that nothing in this continuing resolution or any other Act shall preempt the authority of States to enact comprehensive statutes designed to eliminate the threat of racketeering, including provisions governing service and disqualification for service in labor organizations. Under the amendment, the finding of a state legislature that a threat of pervasive racketeering exists is presumed to be valid. No comparable provisions are in the House bill or any Senate amendment.

(13) Amends titles 18 and 21 of the United States Code to authorize a sentence of an alternative fine of up to twice the proceeds of a violation of the Controlled Substances Act or the Controlled Substances Import and Export Act, or the Racketeering Influenced and Corrupt Organization chapter, (chapter 96) of title 18.

(14) Authorizes the use of the proceeds for the sale of forfeited property to be placed in a fund to be used to maintain seized property, for the purchase of evidence, and for the retro-fitting of seized and forfeited conveyances for their use for law enforcement purposes.

(15) Deletes provisions providing for the forfeiture of "substitute assets" in the House provisions.

(16) Provides for the summary disposition of seized conveyances valued at less than $1,000.00.

PRESIDENT'S EMERGENCY FOOD ASSISTANCE ACT OF 1984

Amendment No. 160: The conference agreement provides for the President's Emergency Food Assistance Act of 1984 as proposed by the Senate, but amended to authorize $50,000,000 each for fiscal year 1985 and fiscal year 1986. The conference agreement deletes Senate language appropriating $50,000,000 and authorizing the transfer of $50,000,000 from the Public Law 480 or Foreign Assistance programs.

CHILD ABUSE PREVENTION

Amendment No. 161: Appropriates an additional $25,000,000 as proposed by the Senate relating to an expanded authorization for title XX of the Social Security Act for training with respect to the prevention of child abuse in child care settings and establishing Federal matching grants to encourage State trust funds or appropriations for child abuse and neglect prevention activities.

The House resolution includes an increase of $50,000,000 in the title XX authorization, essentially for the same purpose, which the conferees have deleted. (See Amendment No. 124)

Mr. WHITTEN. Mr. Speaker, pursuant to the order of the House of October 4, 1984, I call up the conference report on the joint resolution (H.J. Res. 648) making continuing appropriations for the fiscal year 1985, and for other purposes.

The Clerk read the title of the joint resolution.

The SPEAKER. Pursuant to the order of the House of Thursday, October 4, 1984, the conference report is considered as having been read.

The gentleman from Mississippi [Mr. WHITTEN] will be recognized for 30 minutes and the gentleman from Massachusetts [Mr. CONTE] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Mississippi [Mr. WHITTEN].

GENERAL LEAVE

Mr. WHITTEN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the conference report on the joint resolution, [H.R. Res. 648], and that I may include extraneous and tabular material.

The SPEAKER. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

Mr. WHITTEN. Mr. Speaker, I yield myself such time as I may require.

Mr. Speaker, I know as we bring this conference report before our colleagues tonight that there will be many things in this conference report that the Members have not yet had time to study or understand fully. But I would like to say for the record that the preparation and the work that has gone into this conference report reflects a majority of the year's work on the part of the Committee on Appropriations. It has solid foundation.

The entire text of five regular appropriations bills is included in this conference report. Those bills are the 1985 appropriation bills for the Department of Defense, the Department of the Interior, and related agencies, military construction, transportation and related agencies, and foreign assistance and related programs. In addition, four regular appropriation bills are carried by reference in this report at the rates and in the manner specified in the conference reports on the individual bills. Those bills are the 1985 appropriation bills for Agriculture, rural development and related agencies, the Department of Labor, Health and Human Services and Education and related agencies, the Treasury, Postal Service and general Government appropriations bill, and that for the District of Columbia.

One of the factors necessitating this large appropriating measure so late in the year is that we have not gotten au-

thorizations through in time for many reasons. We might find fault here, and there, and every one of us would have different opinions, but partly because we have not been able to get authorizations through in time, the Committee on Appropriations has been forced to bring you this omnibus measure.

May I say here that what we bring to you in this continuing resolution reflects the recommendations of the appropriate subcommittees to the full conference for the items under the jurisdiction of various subcommittees. Unfortunately, some of these issues have not been fully debated before the House, but as voluminous as this report is, it really reflects the hearings, and the information developed by the actions of the subcommittees which through the year have worked on these items.

I am glad that your conferees were able to get together with our colleagues on the other side. When I recommended to the Speaker the appointment of conferees I explained that there might be subjects in conference with which we were not intimately familiar, and as usual we would have to counsel with those who have the most knowledge about them. We have tried to do this in our deliberations with the other body and I believe we have done this.

So as we bring this to you, I say again, we bring you a resolution that reflects all the work that has gone into bills normally as if we had handled them individually. For many reasons, including a lack of time in the waning days in this session of Congress, we are forced to consider these matters together.

Now, unfortunately, in my viewpoint at least, in this time where we face so many dangers at home and abroad, where we have all the problems that we have financially and otherwise, it is my belief that we need to give more attention to our country, because we do not have the gold and silver backing up our currency any more. We have to look to the well-being of our country itself. That is our real wealth. If you study our finances, out high interest rates come from two things, in my opinion. One of them is that when you have the deficit that we have, it means that we have to borrow the money. The more you have to borrow, the greater is the upward pressure on such moneys as are available. Money is going to bring what it is worth. So there is a real need to balance the budget.

But may I say, we bring you a bill that is under the amounts requested by the President.

I would point out here where I differ and I have gone along because as chairman of the committee, I have supported and cooperated with the leadership on this joint resolution. But I will point out here a few things which I feel are very important. We faced a situation on this resolution, that, if left unresolved, would have required us to be here several more days, disrupting plans made by the membership long ago. There was need to get together and pass this measure and that is what we're doing. The point I would make is that what was eliminated to accomplish this goal was an entire section on energy and water development projects. Well, it is said that public works is pork or some other unworthy name. But every public works project is in somebody's district, in some section of the country, where there is a very serious need. The amount that was in conference—after the conferees had previously agreed to retain it—was minor. Compared with the increase recommended in military spending and foreign aid, the original cost of the public works projects that were eliminated is less than four-tenths of 1 percent.

The total cost of that which was eliminated—and the tentative conference agreement had contained only the first year cost, not the total cost—was less than 2.3 tenths of 1 percent of that recommended for military spending for fiscal years 1985-89.

We reluctantly went along with the Senate proposal to eliminate not only the water projects in the resolution, which our aide first proposed at the suggestion of the leadership as a solution to the impasse, but also all other projects in the energy and water development area. Several years ago when the President vetoed a public works bill containing 67 new starts, he stated that these times that are so serious financially at home and abroad, when we have all these problems we cannot afford these new starts in our own country.

We failed to override that veto. It came back to our Committee on Appropriations and I made a motion, supported by my colleagues, to cut every project 2½ percent and send it back. It is the job of the Congress, the people's branch, to originate projects. The President vetoed it again. The second time we overrode it.

I think you will be interested in knowing the argument that I used. I said, "Mr. President, you vetoed this bill because you say we cannot afford it due to the serious conditions that we are in."

I said, "The answer is, we can't afford not to do it." And the greater our problems, the more imperative it is that we wake up to the fact that we had better look after the entire country. That is all we have got to support all the rest.

Now, that is my feeling. Now, in what we have here, I have cooperated with those who have different views because we had to get together. Cooperation is essential. In the position I have, I have that obligation and I have lived up to it. We have all done the best we could.

But I want to say here that I hope we will all give thought to the fact that we had better look after our country, because you can leave your children all the money in the world and a worn out land that will never make it; so if you just take care of the land and its resources and develop it; they could easily set up their own financial system.

Well, Mr. Speaker, we bring you tonight the culmination of a year's work, by the Committee on Appropriations.

In those areas where we needed their expertise, we have counseled with the authorizing committees in an effort to uphold their position.

So we bring you a result of our work of which we are proud. As I say, I doubt that anybody will agree with everything in it, including some of us on the committee, but we have worked together and we bring you a product of which we are proud. I urge your support for the conference report.

Mr. Speaker, I reserve the balance of my time.

The SPEAKER. The Chair recognizes the gentleman from Massachusetts [Mr. CONTE].

Mr. CONTE. Mr. Speaker, we now come to the culmination of the 98th Congress. The moment we have all been waiting for. The apex of our legislative efforts. The acme of our congressional achievements. The panacea for all that currently ails us.

Mr. Speaker, I now present to you and the Members of this illustrious body the continuing resolution to end all continuing resolutions.

Mr. Speaker, the members of the Appropriations Committee have been staring at this continuing resolution for more than 2 weeks now, ever since that fateful day when the House so rudely rejected the purity of a clean resolution. We have been staring at it and watching it grow bigger, bigger, and yet bigger again.

It was as if this House and the other body were seeking to overcome all their shortcomings, all their failings, all the things that shoud have been done, but didn't, by creating this mammoth, pie in the sky, construction, to convince all naysayers of our productivity and our good intent.

And as this resolution grew bigger and bigger, by the time the other body was through, amounting to 753 pages of primal urge, it began to reflect, more and more, all our hopes, all our desires, all our needs to address key problems of the day:

Our concern for defense;

Our hope for peace;

Our concerns over the future;

Our love for our country and her natural beauty;

Our drive for resource development;

Our fear of crime; and

Our need to act.

And as we went to conference, trying to make sense of these conflicting goals and priorities, we had no one to turn to, but ourselves.

Confined in a small room, while the world stopped to watch, we rediscovered, in the course of negotiations, give and take, and general knocking of heads, our essential humanity:

Our goodness and our badness;

Our generosity and our stubborness;

Our ideals and our parochial interests;

Our farsightedness and our shortsightedness; and

Our nobility and our weaknesses.

And, somehow, confined in that small room, we had to work things out, to balance, to weight, to compromise, to kvetch, and to seek to do the best we possibly could, in resolving all these pressing issues of the day.

Mr. Speaker, in this continuing resolution, we have shaped a ball of clay into our own image, no better, and no worse. We have done the best we can, at this time, under these circumstances.

Mr. Speaker, we have seen this continuing resolution, and it is us, sine die.

Mr. Speaker, the title of this joint resolution is "Continuing Appropriations for the Fiscal Year 1985." In fact, it should be called the general appropriation bill for fiscal 1985.

We are funding 9 of the 13 general appropriation bills through the end of the fiscal year. This is the first time in my 26 years of service in this House that we have carried this many bills in a single continuing resolution that runs for the full fiscal year.

Only four of the regular bills were enacted before the start of the fiscal year: Energy and Water, HUD, legislative, and Commerce-Justice.

This is a bad record, and one for which we must take most of the responsibility. We cannot blame the budget process, because the rule on the energy and water bill, which passed the House in May, waived the Budget Act so that we could consider all of the regular appropriation bills without a budget resolution.

We cannot entirely blame the other body, because three bills never passed the House at all, and two others did not pass the House until August.

The fact is that we did not bring five of the nine bills to the House floor in time for action by the other body, and conference, so they are included in this continuing resolution.

Mr. Speaker, all I can say is that this is a heck of a way to run a railroad. It seems clear to me that we have to find a way to avoid running into this kind of continuing resolution situation. It is simply unfair to the 435 Members of this House, each of whom represents over 500,000 constituents, to bring up these massive spending bills under a procedure that does not permit amendments. We have seen what happens when we permit a few amendments, or even 11—we bog down on those issues, and many other important matters never get raised.

One of our problems has been the inability to get authorizations passed. Maybe we should seriously consider 2 year or even longer authorizations, so that we would not run into this problem every year.

Maybe we should take another look at the budget process, to see whether improvements could be made or timetables adjusted so that the budget process is not an impediment to getting our regular appropriations bills enacted.

Maybe something worthwhile will come out of the Senate's current review of its rules and procedures.

But our experience of the last 2 weeks has made it very clear to me, and I think to the rest of my colleagues as well, that we need to clean up our act.

You know, when I introduced a continuing resolution to run from October 1 to October 12, everyone laughed. Everyone said "Don't be silly, SILVIO—we aren't going to be around here that long."

Well, here we are on October 10—and if we hadn't agreed to drop the water projects from this bill we would be here next week as well.

This whole process has been shameful, and I hope that it has provided some incentive for us to get to work on reforming it early in the next Congress.

Second, I compliment my chairman for drafting this resolution for the full year. In past years, we have run the first continuing resolution only through November or December, and then perhaps extended it through March, so that we put ourselves through this agony over and over again, all so that we can pretend that we will still finish our business. Year after year I have said that if we cannot pass bills by October 1, then the first continuing resolution should run for the entire year. I am pleased that we have finally done so.

Finally, of course, we have in fact put ourselves through some needless agony in the past 2 weeks. We have passed four short continuing resolutions—one for 3 days, one for 2 days, one for 4 days, and one yesterday for 2 more days.

We could not get the big continuing resolution passed in time because on September 20 the House defeated a clean rule which CLAUDE PEPPER had courageously brought to this floor. I said at the time that a vote against that rule was a vote to stay here for 2 more weeks, and 171 Members on the other side of the aisle voted "no."

The next rule made in order 11 amendments, including three authorizations, and when two of those authorizations were adopted, it was then germane to offer the President's crime package in a motion to recommit. That was the start of the agony.

When it became obvious that we would not pass the big continuing resolution by October 1st, I introduced a clear continuing resolution, at current rates, through October 12. I asked my chairman to go the same distance. Instead, we have had four short continuing resolution's, which have, in may opinion, accomplished absolutely nothing.

However, we finally have a conference agreement.

That agreement includes the full text of five appropriation bills: Defense, Foreign Operations, Interior, Military Construction, and Transportation.

The agreement also includes four other appropriation bills by reference to the conference reports that have been filed in the House: Agriculture, District of Columbia, Labor-HHS-Education, and Treasury-Postal Service.

In all, we had to reach agreement on 158 Senate amendments, and a bill with Senate amendments of 771 pages. The conference report and statement of managers total 1,000 pages.

These totals do not include the Senate amendments to the individual appropriation bills which were conferenced to be included in the continuing resolution. For example, in the Labor-HHS bill we had to reach agreement on 197 Senate amendments in order to file a conference report that could be included by reference in the continuing resolution.

Defense, Foreign Aid, Interior, Military Construction, and Transportation were also separately conferenced, and included in the continuing resolution.

We met with the Senate conferees 10 times over a period of 11 days, and we have a conference agreement that is acceptable to the administration.

As you all know, the major point of contention in the conference was the authorizations and appropriations for water projects. The conferees agreed to drop all the water projects in both the House and the Senate bills, and in fact to drop all of the provisions under the jurisdiction of the Energy and Water Subcommittees.

It was this agreement that brings us to the floor tonight, and it would have not been possible without an agreement between Chairman JAMIE WHITTEN and Chairman MARK HATFIELD.

Both of the chairmen have strong personal convictions about the need for additional water development projects. I hope we all recognize that these two men made great concessions so that we could get a conference agreement, and be working toward adjournment here tonight.

31-059 O-87-41 (Pt. 22)

Mr. Speaker, the hour is late. I have statements prepared on the separate bills and provisions that are included in the conference agreement. I will insert those statements in the RECORD.

I think your conferees did a good job, under the circumstances, of reaching a conference agreement that is acceptable to the administration, and that will let this Congress adjourn sine die.

I support it, and I recommend that my colleagues do likewise.

□ 2240

Mr. Speaker, I almost forgot the most important part. I have a letter here from the Office of Management and Budget:

STATEMENT OF ADMINISTRATION POLICY,
House, October 10, 1984.

H.J. RES. 648—CONTINUING RESOLUTION

The Administration supports the Conference Report to accompany the bill H.J. Res. 648.

COMMERCE, JUSTICE, STATE, JUDICIARY

The conference agreement provides $110.2 million as requested by the administration on September 28 for the initial phase for an expedited program of increased security for U.S. missions and personnel abroad. The total cost of the 2-year program is now estimated to be $366,278,000, with the remainder of this total to be requested as an urgent supplemental in January 1985.

This additional Security-Enhancement Program was stimulated by the suicide vehicle bombing of the U.S. Embassy annex in Beirut on September 20. In summary, this program will entail additional security, communications, counterterrorism and administrative positions for $81.2 million, a reward program for information concerning terrorist acts for $1 million, and alterations and new construction on physical facilities abroad for $28 million.

These activities would be expanded with the expected urgent supplemental request in January of $256.1 million, with the bulk of that request, or $147.5 million, to be for construction projects.

The conference agreement also includes an extensive crime control and justice assistance authorization package which has been put together by the appropriate authorizing committees. The package includes sentencing reforms, the Dangerous Drug Diversion Control Act. A new program of State and local grants for law enforcement assistance, the reauthorization of the Juvenile Justice and Delinquency Prevention Program, the establishment of a clearinghouse for missing children, language dealing with labor union abuses, improvements and safeguards in the Witness Security Program, and an extensive Senate amendment which adds eight new titles to the House-passed authorization bill, dealing with such issues as the Federal coordination of drug enforcement efforts, a crime victims fund, counterfeit trademarks and credit cards, a salary increase for U.S. attorneys, stepped up actions against career criminals, increased fees for court-appointed counsel in criminal cases, hostage and terrorism prohibitions and penalties, computer access abuses, and changes in the treatment of seized and forfeited property and conveyances.

And finally, the conference agreement includes provisions amending the Small Business Act in regard to the treatment of the fishing industry due to El Nino-related ocean conditions and clarifying the eligibility of applicants for nonphysical disaster loans and the treatment of agricultural cooperatives. The SBA Act is also amended to adopt a House-passed bill which I introduced to reverse the current policy of the administration prohibiting SBA from issuing guarantees under its Pollution Control Equipment Contract Guarantee Program which are backed by industrial development bonds. The House has passed this needed change on a number of occasions, and I commend the conferees for their consideration in this regard.

DEFENSE

The defense portion of the conference establishes a spending level of $274.4 billion which embodies the main points of the agreement reached by the Speaker and the Senate majority leader.

The MX Missile Program is funded at $1 billion to support the missiles procured last year but there will be no procurement of new missiles until and unless both Houses vote next spring on two occassions to release the $1.5 billion fenced for this purpose.

The strategic defense initiative, or so-called star wars is funded at $1.4 billion, which is $377 million below its requested level.

Language on activities in Nicaragua prohibits any expenditure of funds to support rebel forces prior to February 28, 1985, and only then if both Houses of Congress pass a resolution releasing $14 million.

Antisatellite weapons testing is limited to 3 in 1985 and no test may occur prior to March 1985.

In all, the defense section of the resolution is $18.5 billion below the level requested in the February budget submission, $6 billion below the May revision.

This conference report sustains the essentials of the House position on all major issues including MX, Star Wars, and ASAT testing and it tracks closely the elements of the authorization conference report passed by the House on September 26.

Mr. Speaker, I rise in support of the conference report for H.R. 5899, the District of Columbia appropriations bill for fiscal year 1984, incorporated into this continuing resolution.

At the outset, let me commend the work of the subcommittee chairman, Mr. DIXON. There were some very sensitive issues addressed during the consideration of this bill. The status of St. Elizabeths Hospital and the resolution of the District's home rule problem, created by the Supreme Court Chadha decision, are controversial and important to all parties concerned with this bill.

Under the leadership of Chairman DIXON, with my good friend LARRY COUGHLIN, these issues were effectively, and I hope finally, addressed in this conference report.

Considering the not-so-glamorous task demanded by this subcommittee assignment, their work should be commended and applauded by the House.

Mr. Speaker, this conference agreement provides a total of $533.3 million in Federal funds to the District of Columbia, including a Federal payment in lieu of taxes, reimbursement for water and sewer services and a one-time Federal payment of $20 million to St. Elizabeths Hospital. The conference agreement also includes a Senate add-on of $9.9 million for a criminal justice initiative.

I think this conference report is a good deal for all involved, especially the administration. All three of the major objections raised by OMB Director Dave Stockman in his letter to the conferees were favorably resolved in this agreement.

First, the House will recede to the Senate funding level for the D.C. Federal payment. The young slasher wrote to me on September 17, 1984, and explained that "the administration is pleased with the funding level of the Senate version of the bill, which is consistent with the $600 million deficit downpayment plan cap * * *." In this report, the conferees have recommended the lower level for Federal payment to the District.

Second, the conferees agreed to the administration's recommendation concerning the authorization and appropriation of Federal loans to the District of Columbia for capital improvements. Again, Dave Stockman wrote that "The administration supports the Senate action deleting $155 million in Federal loans to the District of Columbia provided in the House bill." In a compromising fashion, the conferees agreed to accept the Senate deletion of funds.

Third, the conference agreement includes an authorization bill to correct the deficiencies in the District Home Rule Act created by the Supreme Court's Chadha decision concerning the legislative veto. Similar to an amendment offered in the House during the consideration of the continuing resolution, House Joint Resolution 648, this provision is designed to remove the cloud created by the

Chadha decision relative to the legislative veto. Since several provisions of the District of Columbia Home Rule Act are considered by some as unconstitutional, many District statutes and authority are surrounded by a cloud of uncertainty.

Specifically, the District has been unable to secure an unqualified legal opinion from bond counsel. This opinion is necessary to enter the municipal bond market with a reasonable rating. The absence of an unqualified legal opinion would make any bond issued by the city effectively unmarketable. No one would buy the bonds.

Currently, the District borrows from the Federal Government with interest. In fact, the administration listed the appropriation of $155 million in Federal loans to the District of Columbia as an objectionable provision in the House passed bill, H.R. 5899. In the same letter, Mr. Stockman wrote that "the District was to start borrowing in 1984 from the private sector and receive all of its capital funds from the private sector in 1985." However, administration objections to this reform have prevented the District from entering the private bond market.

The lack of authority to issue bonds also affects private organizations in the District of Columbia. Georgetown University, for example, has $65 million in tax-exempt bonds pending before the District for approval. Until legislation is enacted clarifying the Chadha problem, the city will be unable to issue bonds, and the Federal Government would be forced to make up the shortfall in loan authority.

Although the administration initially opposed enactment of a partial solution to the Chadha problem, I am told that they will accept this version of the compromise. I hope they see the sense in this important reform.

In addition to these local concerns, there was a foreign policy question left to the conferees to resolve.

Senate amendment 21 designates the area in front of the Soviet Embassy as "Andrei Sakharov Plaza." During subcommittee consideration of this bill, I offered report language urging the District to rename the street in front of the Embassy as "Andrei Sakharov Avenue." This language was similar to a bill introduced in the House and the Senate and cosponsored by several of our colleagues. The Senate bill language is a compromise worked out with District officials to satisfy their concerns about intrusion into the home rule authority.

This designation is intended to send a small but clear message to the Soviets: We won't forget Sakharov and the others who are systematically oppressed by this regime.

In this country the media has a short attention span. Sakharov may make the headlines for a few days, but his daily struggle goes relatively unnoticed.

This is exactly what the Soviets want. They want the West to forget Sakharov, his cause and the millions of other refuseniks in the Soviet Union who are oppressed. This designation would remind them—on a daily basis—of the suffering experienced by Sakharov and the others.

I am aware of Secretary Shultz's letter to the conference committee. His concern for the welfare of Dr. Sakharov and Yelena Bonner is genuine and well taken. His concern, however, can be no greater than the concern of the Sakharov's children. Last week, my staff spoke with the son of Andrei Sakharov and Yelena Bonner, Alexei Semyonov. I understand his wife testified before the Senate subcommittee just a few weeks ago.

His son said that this designation was "an expression of concern of the people of the United States for the fate of my parents." After being read the Secretary's letter, Semyonov said that there "can't be more harassment of my parents than there already has been" and that the designation "will make the Soviets more aware of concern in the West."

It was the view of the conferees and the Senate sponsor, Mr. D'AMATO, that this designation is important to keep the pressure on the Soviets.

Mr. Speaker, this is an excellent conference report, and I hope all Members can support it. It's time we get a regular DC appropriations bill for this fiscal year.

ENERGY AND WATER DEVELOPMENT

Mr. Speaker, the conferees faced a very difficult job in dealing with the energy and water section of this bill. Going into conference, there were 51 new start water projects or authorization amendments in either the House or the Senate versions of the continuing resolution. The total cost of building those projects would be approximately $7.4 billion.

We also had the $18 billion omnibus water authorization bill, H.R. 3678, as a part of this measure. The Senate had added a 3-year reauthorization for the Appalachian Regional Commission, at $150 million per year. There were also funds included by one body or the other for a TVA project in Bristol, TN, for a project at the Hanford Engineering Development Laboratory, and for additional highway construction by the Appalachian Regional Commission.

The administration made it very clear that these water items would result in the veto of this bill. Given that assurance, the conferees agreed to delete the entire energy and water development section of the continuing resolution.

It is unfortunate that this had to be done. I know that there were some very worthwhile projects in there, as well as water authorizations that some people have been awaiting for as much as 14 years. But the reality was that we could simply not, as a matter of fairness, drop the projects that were offensive to the administration and leave the others in. The only equitable way to handle this was to drop everything, and agree to take up this issue again in the next Congress.

FOREIGN AID IN THE CONTINUING RESOLUTION

The conference agreement includes $18.2 billion in new Budget Authority for Foreign Economic and Security Assistance. This is $81 million below the President's budget requests.

For Israel, the conference report provides a total of $2.6 billion, including $1.2 billion in grant economic aid and $1.4 billion in forgiven military loans.

The conference agreement also includes $85 million in new health care initiatives, with $10 million of this to be used for nutrition projects, $50 million for the delivery of primary and related health care services and health care education, and $25 million for the new child survival fund. There was a great deal of support for expanded health activities when the continuing resolution was adopted by the House, and I believe the conferees have responded to that support.

In a related area, we have earmarked an additional $75 million in economic support funds for development activities in Africa, where millions of people face staggering health, shelter, education, and nutrition shortfalls. We have provided these funds under an existing foreign assistance account rather than once again opening yet another spigot as proposed by the administration with the economic policy initiative for Africa. The send result will be the same, or better, and we will not be setting up a new bureaucracy to administer these funds.

Farmers and farmers' organizations in Poland would receive assistance under a new 2-year $10 million program to be operated by the Polish Catholic church. This is a Presidential initiative aimed at reaching rural residents in Poland while assuring that the Polish Government could not administer these funds in any way.

I regret that for budgetary reasons the conferees chose not to fund entirely the supplemental funding I added in committee to clear up several international banking contributions which are long overdue. At the same time, I am pleased that they have included the final $150 million for the sixth replenishment of the international development association, as well as the first contribution of $750 million for IDA VII. IDA provides necessary development funding for the poorest countries in the world, including many countries in Africa.

All in all, this is a balanced foreign assistance appropriation. We have not provided all of the funds requested by the President, but at a time when we are cutting back on domestic programs it is the best we can do.

HUD-INDEPENDENT AGENCIES

The conferees have agreed to provide an extension of the Federal Emergency Management Agency's Federal Crime Insurance Program for 1 year, from October 1, 1984 through September 30, 1985. It is the intent of the conferees that this is the final extension of the 14-year-old program.

For the Environmental Protection Agency, the conferees have agreed to provide $13 million for refinancing up to 60 percent of the bond debt of the Akron, OH, recycle energy system, and have included a provision to ensure that the Federal Government shall have access to this facility as a laboratory for municipal waste to energy research.

We have included the Senate amendment which provides that up to $165,000 of existing funds be made available for feasibility and design studies for the Newport, OR, field station, and that up to $106,000 from within funds previously appropriated be made available for reimbursement of architectural and engineering studies for the hazardous waste management center, The conferees have denied the proposed $7 million reprogramming for EDB disposal and idemnification costs, and expect the administration to submit a supplemental request for additional funds required to meet critical disposal and indemnification costs resulting from the EDB ban.

With regard to the Veterans' Administrtion, the conferees have agreed to provide the $306.6 million supplemental requested by the administration for the loan guarantee revolving fund. We have agreed on a list of major construction projects to be funded from within the $568,194,000 previously appropriated for fiscal year 1985 and $145,000,000 to be derived from savings on completed projects.

For the Department of Housing and Urban Development, the conferees have agreed to provide that the rescission in the fiscal year 1985 HUD Independent Agencies Appropriations Act of up to $7.6 million in annual contract authority and $164.8 million in budget authority of recaptured section 236 balances be reduced to up to $4.3 million in annual contract authority and $69.1 million in budget authority. The balance is to be used to replace funds drawn from State agency reserves in 1982.

We have agreed to provide $300 million to the Treasury to cover the additional interest expenses incurred on borrowings by the Department of Housing and Urban Development for new loan commitments, and contract executions for public housing developments, modernization and Indian housing projects, and for financing of existing contracts.

Finally, the conferees have agreed to include language requiring that, during fiscal year 1985, department and agencies of the Federal Government make loan guarantee and insurance commitments up to the full amounts provided in appropriations acts, subject only to the availability of qualified applicants.

INTERIOR AND RELATED AGENCIES

The conference agreement on fiscal year 1985 appropriations for the Department of Interior and related agencies proposes new budget authority totaling $8.12 billion. This compromise reflects an increase of approximately $86 million over the levels passed by the House on August 2, 1984, and a decrease of approximately $36 million from the levels as passed by the Senate during its consideration of H.R. 5973 and House Joint Resolution 648. The amount recommended by the conferees is approximately $95 million over fiscal year 1984 enacted levels, and approximately $440 million over the revised budget request.

Several complex and divisive issues confronted those of us concerned with maintaining, preserving, managing and cultivating our Nation's precious natural energy and cultural resources. After several days of discussion and negotiation, the conferees were able to reach agreement on levels of funding for a number of essential programs, projects, and activities, as well as on the issues of the Synthetic Fuels Corporation rescission and the Outer Continental Shelf oil and gas leasing prohibitions.

In an effort to reduce the overall level of fiscal year 1985 new budget authority for the Department of Interior and 16 related Federal agencies, the conferees have agreed to an across-the-board cut of 2 percent. This reduction is to be applied to each of the account programs, activities and projects funded in the fiscal year 1985 act at conference levels. I would like to point out to my colleagues that, without this provision, the amounts agreed to by the conferees would have been approximately $467 million over those considered acceptable by the administration.

Included in the $8.1 billion total recommended by the conference committee, and subject to the 2-percent reduction, are the following:

For the management of land and resources within the Bureau of Land Management, the committee recommends $393.8 million. Within the amounts recommended for wildlife habitat, the conferees have restored the Threatened and Endangered Species Program to the fiscal year 1984 level. our recommendation for BLM land acquisition totals $2.75 million.

Our recommendations for resource management in the Fish and Wildlife Service total $311.4 million. Included in this amount are $5.5 million for the national wetlands inventory, and $27.6 million for endangered species. The agreement provides $4.8 million to maintain the fiscal year 1984 funding and personnel levels for the cooperative units and $25 million for the continued operation of hatcheries funded in fiscal year 1984, including $102,000 for the Berkshire National Fish Hatchery. The conferees have also agreed to provide $500,000 to complete the design and planning of an anadromous fish research facility on the Connecticut River.

For the migratory bird conservation account, the conferees have agreed to provide $21.7 million; $9 million of this total is provided in accordance with the House-passed version, making funds available for the acquisition of high priority habitat suitable for waterfowl management. $64.5 million is also recommended in the Service's land acquisition account.

The conferees have recommended $625.4 million for operation of the National Park System, and $11.3 million for natural recreation and preservation, including $1.05 million for State and local river conservation assistance; $21.5 million is recommended for grants-in-aid to the States through the historic preservation fund, and $4.5 million for the national trust for historic preservation. We have included $113.7 million for construction, and $150.2 million for land acquisition and State assistance.

The conference agreement provides $420.7 million for the Geological Survey, including $9 million for Water Resource Research Institutes; $166.8 million for the Minerals Management Service; $138.7 million for the Bureau of Mines; $379.6 million for the Office of Surface Mining; $1.08 billion for the Bureau of Indian Affairs; $177.4 million for territorial affairs; and $86.1 million for secretarial offices. Our $4.4 billion recommendation for the Department of Interior provides for an increase of $388.7 million over fiscal year 1984 enacted levels, and an increase of $424.7 million over the 1985 request.

With regard to the OCS leasing prohibitions, which have been of considerble interest and concern for the past 4 years, the conferees have agreed to retain the House language which continues the moratoria on OCS leasing for 1 year in Georges Bank, in the central and northern California planning area north of Morro Bay, and in the southern California planning area.

For forest research, the conferees have recommended $123.4 million, including $21.5 million for forest insect and disease research, and $9.06 million for wildlife, range and fish habitat re-

search. We have provided $59.5 million for State and private forestry, including $2 million for urban forestry, of the $1.34 billion which we have provided for the Forest Service, $1.06 billion is for the National Forest System, and $44.5 million is for land acquisition.

For the Department of Energy, our recommendation includes $280.6 million for fossil energy Research and development, $160.1 million for naval petroleum and oil shale reserves, and $467.9 million for energy conservation. The Low-Income Weatherization Program level is $195 million; funding for the energy extension service, schools and hospitals, and energy policy and conservation grants programs are continued at fiscal year 1984 levels.

The conference agreement provides $25.5 million for economic regulation, and $6.22 million for emergency preparedness. Our recommendation for the strategic petroleum reserve totals $2.05 billion, an amount which will provide for a fill rate of approximately 159,000 barrels per day. This represents an increase of $160 million and 14,000 barrels per day over the administration's request. At this rate, the total reserve should reach 488 million barrels of oil by the end of fiscal year 1985.

For the Energy Information Administration, we have recommended $61.7 million, including $250,000 for the design of an air emissions survey which is to collect data from large combustors and other major emitting facilities that are industrial sources of sulfur and nitrogen oxides. EIA shall design this survey with the assistance of EPA and other appropriate Federal agencies and report back to the Congress on any additional resources which may be necessary for the conduct of this important survey.

The conferees have recommended $872.8 million for the Indian health services, $68.8 million for Indian education and $20.7 million for the Navajo and Hopi Indian Relocation Commission.

For the Smithsonian Institution, we have agreed to provide $193.4 million, an increase of $26.6 million over fiscal year 1984. We have provided $2.7 million for the Wilson Center, $36.8 million for the National Gallery of Art, and $380,000 for the Commission of Fine Arts.

Our agreement for the National Endowment for the Arts provides $167 million, including $137 million for grants and administration, and $30 million for matching grants. We have recommended $111.3 million for grants and administration at the National Endowment for the Humanities, and $31 million for NEH Matching grants. For the Institute of Museum Services, we have included $22 million.

The committee's recommendations for the Advisory Council on Historic Preservation, the National Capital Planning Commission, the Roosevelt Memorial Commission and the Federal Inspector for Alaska pipeline are the same as the House-passed levels. We have provided $6.8 million for the Pennsylvania Avenue Development Corporation, and $2 million for the Holocaust Memorial Council.

Among the general provisions in title III which were carried in the House or Senate versions of the continuing resolution are those pertaining to A–76 contracting and the steel shot amendment. The conferees have agreed to delete the House provision which prohibited the use of funds for additional A–76 contracting unless funds are budgeted and approved for A–76 studies. Our action was based on assurances which we have received from OMB and the Interior Department that future studies will only examine activities involving more than 10 full-time equivalents, and that studies now underway on activities involving fewer than 10 full-time equivalents must show savings significantly greater than the cost of completing the study.

With regard to the steel shot issue, we have agreed to a continued prohibition on the enforcement of steel shot regulations by the Interior Department in any State without State approval until such time as State and flyway-baseline criteria are promulgated by the Department.

Finally, the conferees have reported an agreement on the Synthetic Fuels Corporation rescission. I believe that the committee has been able to achieve many responsible compromises during the difficult days of conference. But I am dissatisfied and disappointed with the so-called compromise on the SFC which is contained in this resolution.

As many of my colleagues are now aware, the conferees have agreed to a so-called rescission of $5.375 billion of funds in the energy security reserve presently available to the Synthetic Fuels Corporation. The $750 million of these funds are to be placed in clean coal technology reserve for the purpose of conducting clean coal demonstration activities. Annual funding for such activities is, however, subject to annual appropriation by the Congress.

Of the $8 billion which remains available to the SFC, the conferees have recommended that $5.7 billion is to be applied to eight projects with authorized letters of intent. The agreement provides that if any of these set-aside funds remain available, due to project cancellations or for other reasons, 50 percent of the funds would be retained to assist other corporation-supported projects; and 50 percent of those funds would remain among the assets of the corporation, not available for obligation, but available for further appropriation by the Congress.

We have agreed to include Senate language incorporating certain changes with respect to public access to information, conduct of board meetings in public and personal conduct as well as the Senate language stipulating that, when considering projects for assistance, the board of directors are to ignore the national synthetic fuel production goals established in the Engery Security Act until the comprehensive strategy for the corporation has been completed.

The language adopted by the House during consideration of the fiscal year 1985 interior appropriations bill prohibiting funds from the energy security reserve from being made available to the Union Oil shale project phase II and the Cathedral Bluffs oil shale project is not included in the conference agreement. Because the conferees dropped this language on these two corporate welfare boondoggles, I have excepted on this amendment to the continuing resolution in agreeing to the conference report. I know that many Members of this House are not satisfied with this rescission agreement; I would just like my colleagues to know that they have not heard the last from me on this subject.

LABOR/HHS/EDUCATION ITEMS IN THE CONTINUING RESOLUTION

With respect to the rate of operation for programs covered by the Labor, Health and Human Services and Education appropriation bill, the House-passed continuing resolution provided that funding for these programs would be at the rate provided in the House-passed version of H.R. 6028, the fiscal year 1985 Labor/HHS/Education appropriations bill. The Senate provided that these programs would be at the rate and under the terms and conditions provided in the conference report on H.R. 6028 filed on October 3, 1984, and the accompanying statement of the managers. In a separate statement, I will describe the conference agreement on H.R. 6028 in more detail.

In addition, there were a number of programs for which funding was not provided either by the House or by the Senate in H.R. 6028 as passed by the respective Houses, which were provided for in the continuing resolution at the current rate. However, funding for just about all of these programs was provided in the conference agreement on H.R. 6028, and consequently, only a small number of programs were retained in this section of the continuing resolution at the current rate of funding: HMO and resources development, including health planning, and refugee and entrant assistance. The refugee and entrant assistance programs under the continuing resolution are provided funding at the current rate or at the level authorized by the refugee program reauthorization bill passed by

the House, H.R. 3729, whichever is lower.

Two programs, which were funded in the House-passed continuing resolution at the current rate, but not in the Senate-passed continuing resolution, have subsequently had their authorizations passed by the Congress, as part of the conference agreement on S. 2496, and funding has been provided under the conference agreement at the levels allowed by those authorizations: Follow Through, $10 million, and emergency immigrant assistance, $30 million.

The House included in the continuing resolution a $50 million authorization for a new child care training program under the title XX social services block grant. The Senate included both a $25 million authorization and appropriations for this program, as well as an authorization for Federal matching grants to encourage State trust funds or appropriations for child abuse and neglect prevention activities. The conferees agreed to the Senate provision.

The Senate included $4 million for the recently authorized U.S. Institute of Peace. The conferees accepted the Senate amendment.

The Senate added $7.4 million to the National Library of Medicine for projects on computers in medicine and information management. The conferees agreed to level of $3.5 million.

The Senate added $9 million for mental health activities recently agreed to in the bill reauthorizing the alcohol, drug abuse and mental health block grant. The conferees agreed to a level of $2.5 million.

The Senate included a legislative provision permitting demonstration programs under the refugee and entrant assistance program to test alternative refugee resettlement systems, which the conferees accepted.

As part of the demonstration projects authorized under this amendment, the Office of Refugee Resettlement should look at projects to deal with the impact of refugee immigration on heavily impacted school systems at the primary level, in order to develop options to deal most effectively with the most pressing needs of the children and the school systems. In particular, the needs for a program such as this in the District of Columbia are great, since approximately 20 children a week are entering the school system under these circumstances. The Office of Refugee Resettlement should consider funding a project involving an appropriate institution of higher education and the D.C. school system to demonstrate how school systems and universities in heavily impacted cities can cooperate in offering a temporary response to the needs of recently arrived refugee students.

The Senate included legislative language that requires hospices which meet certain conditions to be reimbursed by medicare at a higher rate than currently provided for under the law, which the conferees also accepted.

The House added a provision prohibiting the contracting out of the Civilian Conservation Centers under the Jobs Corps Program, which the conferees deleted, because a similar provision was adopted in the conference agreement on H.R. 6028, the Labor/HHS/Education appropriations bill.

STATEMENT ON U.S. INSTITUTE OF PEACE

Mr. Speaker, the legislation to create a U.S. Institute of Peace has had a long history, and Congress has rigorously examined this proposal over the 9 years since it was first introduced. There has been a congressional commission, two sets of House hearings and three in the Senate, and the Senate Labor Commission has favorably reported the bill twice.

Most recently, the Senate passed the proposal by a voice vote as an amendment to the 1985 Defense authorization bill. The conferees on that bill adopted this language by a voice vote, and the conference report easily passed both Houses last week.

It is particularly gratifying to me to be a party of this history. As the principal Republican sponsor, let me commend my colleagues in this body and in the Senate, on both sides of the aisle, for their years of hard work and steadfast support for this proposal.

Today we have the privilege and the opportunity to effectively launch the U.S. Institute of Peace. By providing the funds for it to operate during its first year, we have enabled it to fulfill its congressionally mandated charter. I am pleased that the 98th Congress made sure of the Institute's existence and that it have the resources to make tangible and significant contributions to peace and conflict resolution research.

It was important and it was appropriate for us to agree with Senator HATFIELD's amendment. He added $4 million to the continuing resolution to fund the Peace Institute in fiscal year 1985. Although the House and Senate had already authorized a funding level of $6 million for this same period, Mr. HATFIELD and the principal sponsors, including myself, agreed that $4 million was an adequate and sufficient amount to start the Institute.

This funding level will enable the Institute's first board to begin the important work of dispensing grants to foster research and education at this Nation's colleges and universities—the strongholds of free and independent research.

Authorizing this U.S. Institute of Peace and approving funds for its first year of work, while one of the last actions of this Congress, will no doubt prove to be one of the best. It indicates that it is no longer enough for this country to invest in military superiority, technology designed to produce the best equipped fighting forces, or weapons of the most accurate kind. This Institute is evidence that it is time to also invest in the study of ways to make peace and to aggressively pursue peaceful and secure international relations.

LEGISLATIVE BRANCH

The only provision in the continuing resolution affecting the House of Representatives is included in Senate Amendment 97, which, in effect, would allow the Architect of the Capitol to complete the purchase of a piece of property south of the House Office Buildings. Funds to complete this purchase were included in Public Law 97-276, the fiscal year 1983 continuing resolution, but the expenditure of those funds was made contingent upon the enactment of authorizing legislation. Language agreed to in this resolution waives that requirement for authorization.

MILITARY CONSTRUCTION

The military construction agreement reached in the conference is just about an even split between the House and Senate figures. The compromise provides $8.4 billion for the construction of military facilities around the world, and increase of 147 million over the House figure and 130 million below the Senate.

No major policy changes were reached in the compromise, but I do want to advise that funds are provided for silo modification and support for the deployment of the first 10 MX missiles.

Mr. Speaker, I believe that the conferees have brought back a very responsible section of the continuing resolution dealing with the Department of Transportation and related agencies. Since the Senate had attached its regular fiscal year 1985 Transportation appropriations bill to the continuing resolution, this conference report becomes in effect the conference report for the Transportation appropriations bill.

One indication of our responsibility in this section is that we have arrived at a conference agreement that is $188 million below the budget request, while providing adequate funds to meet our many important transportation needs.

Certainly a great part of the credit for this outcome must go to the chairman of the Transportation Subcommittee, BILL LEHMAN, the ranking minority member, LARRY COUGHLIN, and their counterparts in the other body. In their Transportation miniconference, they were able to resolve most difficulties, and they deserve our gratitude for an excellent job.

Before I outline some of the more important items contained in this section, I want to mention one item on which I disagreed with the conferees. That item involved language inserted by the Senate that would exempt certain foreign air carriers from complying with Federal noise standards on flights into airports at Miami, FL, and Bangor, ME.

I believe that this provision involves the worst type of discrimination against our U.S. air carriers and other U.S. airports.

Mr. Speaker, the question of noise standards is one that has been before this House time and time again over the past 10 years. In 1979, Congress passed legislation mandating that foreign carriers comply with the noise standards applicable to domestic air carriers by January 1, 1985. In other words, that legislation required foreign carriers flying certain types of aircraft to comply with the same rules applicable to domestic carriers using these same types of planes.

Over the past 6 or 7 years, domestic carriers have literally spent billions of dollars either retrofitting their aircraft or buying new planes to comply with this noise standard.

And after doing so, they find that now we are going to let foreign carriers continue to use the noisy planes, often in head-to-head competition on the same routes against our U.S. carriers. This is extremely inequitable. It is particularly unfair with regard to planes purchased or leased after the effective date of the Noise Act of 1979, which were brought at close to scrap value prices because of this noise legislation. I hope that the Secretary will exercise every bit of discretion available to her under this language to avoid exempting any more aircraft of this type than are absolutely necessary.

Mr. Speaker, the other provisions of this section are to be highly commended. Under the Office of the Secretary, language has been included under transportation, planning, research and development for a methanol study authorized under section 152 of the Surface Transportation Act of 1982.

Congress appropriated $1.75 million for this study in the fiscal year 1983 supplemental appropriations bill. Fifteen months later, the Department of Transportation finally got around to evaluating the competitors for this project. We found that the Department's manner of proceeding was contrary to the intent of Congress, as expressed in both the authorization and appropriation language, and would not result in obtaining the study results sought by the Congress.

We, therefore, have directed the Secretary to proceed to fund the phase I proposals submitted by the two finalists in the contract competition. In this way, we will be able to get the results intended by the Congress. To the extent that the cost of funding those contracts exceeds the previous appropriation, it will have to be made up by the Department out of available funds. I hope that the Department will not seek to circumvent congressional intent again in this matter.

For the Coast Guard's acquisition, construction, and improvements account, the conferees have provided $344.5 million as contained in the Senate bill. This amount will permit two more C-130 PILOC's to be performed, and will also permit a total of $73 million to be used for the 378-foot cutter renovation and modernization program. I would mention that the conferees also agreed to accept a Senate amendment providing $2 million for a lighthouse at Nantucket Island.

For the FAA, the conference agreement provide $1.37 billion for the facilities and equipment account. This amount will permit the vital airspace modernization program to move forward.

For grants in aid for airports, we have provided $925 million, instead of the $800 million in the House bill and $987 million in the Senate bill. This is $125 million more than was provided last year, and will help reduce the more than $2 billion of approved, unfunded airport improvement projects.

For railroad-highway crossings demonstration projects, we were obliged to agree with the Senate figure of $15 million, which was also the number in the House-passed continuing resolution. We had originally, in H.R. 5921, proposed some $48 million for this program, and in the reduction some worthwhile projects unfortunately had to be squeezed. If we can get our regular bill out next year, perhaps we will be able to do better.

Among the projects funded under this program are ones at Lafayette, IN, $7 million and Lincoln, NE, $1.8 million.

I know that my friends from Colorado have been concerned about the interstate transfer grants for highways, which funds the critical C-470 project in Denver. We have provided for a total program level of $33.3 million for that project.

Under the Federal Railroad Administration, we accepted the Senate figure of $1.9 milllion for rail safety grants, and appropriated $15.5 million for railroad research and development. Of that amount, the Department is expected to follow the House earmarking of funds for continuation of a rail maintenance study by MIT, under the direction of a company with experience in that field.

For the Northeast Corridor Improvement Program [NECIP], we have provided $27.8 million. This will provide first-year funding for the four highest priority items on the so-called 310 list.

The conferees have provided $684 million for Amtrak, of which up to $4 million is for Amtrak's Northeast corridor bridge over the Bush River in Maryland. This is a case where the Coast Guard has imposed bridge opening requirements on Amtrak, which are increasingly expensive and injurious to Amtrak's schedule. These funds will permit the automation of the bridge mechanism. The conferees have made clear that the current bridge opening schedule is not to be expanded after completion of the bridge improvements.

I know that a number of my colleagues have been concerned about Amtrak's West Side connection project in New York. The conferees agreed to the Senate "non-Amtrak" share language, permitting non-Amtrak Federal funds to be counted against the local share up to a maximum total project cost of $50 million, exclusive of right of way acquisition. If the total project cost exceeds $50 million, a more rigorous definition of local funds should be used for the remainder.

New loan guarantee commitments under the section 511 railroad loan guarantee program were limited to $2.5 million.

For mass transit, we have provided $2.45 billion in formula grants, which is $60 million above the budget request. In addition, we have provided for the authorized level of $875 million of these funds to be used for operating assistance.

For new starts, we have provided $422.5 million. This includes $95 million for Atlanta, $117.2 million for Los Angeles, $35 million for Houston, and $2.7 million for light rail.

As indicated in the statement of managers, the conferees are aware that the total cost of completing all of these projects greatly exceeds the funds that are likely to be available. Clearly some way will have to be found to bring the demand for such systems into line with available resources.

The Urban Mass Transportation Administration has published for comment certain criteria to be used in evaluating these proposed new start and extension projects. I believe that this is a worthwhile effort, and one that should be encouraged. It is my hope that over the next several months the Department will consult closely with interested Members of Congress and the appropriate congressional committees, as well as with members of the transit community, in arriving at a final set of consensus criteria. These criteria should be of great value to the Congress as it makes the difficult funding decisions on these projects in the years to come.

For interstate transfer transit grants, the conferees have provided slightly over $13.1 million for Boston,

$130.7 million for Chicago, and almost $23 million for Hartford.

For the Interstate Commerce Commission, we have provided the Senate figure of $48 million, which includes funds for the Office of Special Counsel. It may be that we have cut this amount too close to the bone, and I am sure that we would be willing to consider a supplemental if the Commission finds that one is necessary.

Finally, Mr. Speaker, we have included language that prohibits the Department from planning or implementing any change in the current Federal status of the Transportation Systems Center in Cambridge, MA. I hope that this puts to rest, once and for all, any attempt to shut down this outstanding facility and research resource.

Mr. Speaker, for the Treasury-Postal chapter of the continuing resolution, the conference agreement included the provisions of the conference report for H.R. 5798, the Treasury-Postal Service appropriations bill for fiscal year 1985, as amended in House Joint Resolution 648, with two exceptions. First, the conferees agreed to accept a Senate amendment, originally stricken on a point of order, to exempt custom gunmakers from excise tax regulations if they produce less than 50 firearms per year. Second, this agreement includes an amendment to waive the duty requirements for articles necessary for the installation and operation of a telescope in Arizona. During the installation, parts must be sent back and forth to Europe for adjustment and repairs.

The conferees also agreed to accept all amendments adopted by the Senate during the consideration of the continuing resolution. These amendments include a sense of the Senate resolution concerning the conduct of voter registration drives, clarifying language on the customs amendment concerning duty free shops, an additional $3.611 million for the renovation of Blair House, an additional $350,000 for the construction of a road to service the San Luis, AZ, border station, technical changes to a provision included in last year's continuing resolution relating to moving expenses for the senior executive service and finally a provision directing certain changes in the SMSA of St. Louis, MO.

This is a fair compromise with acceptable funding levels, I hope that all Members will report these provisions.

Mr. WHITTEN. Mr. Speaker, I yield 5 minutes to the gentleman from Massachusetts [Mr. BOLAND], the ranking member of the committee.

Mr. BOLAND. Mr. Speaker, the compromise which we have worked out on Nicaragua preserves the House position with one proviso. No funds may be spent on the secret war in Nicaragua until February 28, 1985. Thereafter if the President certifies that Nicaragua is supporting anti-government forces in any other country in Central America, and if he requests more funds for the war, a vote is guaranteed on a joint resolution providing such funds. This is an MX-type guaranteed vote—an expedited process that ensures a vote on the President's request.

The joint resolution, if approved by both Houses, would remove the prohibition on the use of already appropriated funds for the war. In any event, no more than $14 million could be spent during the balance of the fiscal year.

This approach goes as far as I believe the strong House position would permit. Only if Congress affirmatively provides for a renewal of funding for the war could any funds be used for that purpose.

Let me make very clear that this prohibition applies to all funds available in fiscal year 1985 regardless of any accounting procedure at any agency. It clearly prohibits any expenditure, including those from accounts for salaries and all support costs. The prohibition is so strictly written that it also prohibits transfers of equipment acquired at no cost.

The compromise allows the President and the Congress to see how several key matters develop in the next 5 months. Those are: Proposed talks between the Government of El Salvador and the Salvadoran rebels, the continued bilateral talks between the United States and Nicaragua, the resolution of the Contadora Draft Treaty, and the Nicaraguan elections. The President—whoever he may be—will no doubt take into account events affecting these four matters if he makes a request for funds. If he does make a request, it will be a new Congress, a new Intelligence Committee and those new facts which will influence the action of the House and Senate.

To repeat, the compromise provision clearly ends U.S. support for the war in Nicaragua. Such support can only be renewed if the President can convince the Congress that this very strict prohibition should be overturned.

Mr. LIVINGSTON. Mr. Speaker, will the gentleman yield for a couple of questions?

Mr. BOLAND. I am delighted to yield to the gentleman from Louisiana.

Mr. LIVINGSTON. Mr. Speaker, would the gentleman enlighten me: Does this prohibition prevent any expenditure of funds, direct or indirect, for arms or weapons or use of force in Nicaragua by the United States?

Mr. BOLAND. If it is directed against the Government of Nicaragua, the answer would be in the affirmative, yes.

Mr. LIVINGSTON. Are there no exceptions to this prohibition?

Mr. BOLAND. There are no exceptions to the prohibition.

Mr. LIVINGSTON. So in the unlikely event that tanks were to roll from Nicaragua into Honduras, the United States would be prohibited from taking any action; is that correct?

Mr. BOLAND. Insofar as activities inside Nicaragua are concerned. That is correct. We could, of course, help inside Honduras.

Mr. LIVINGSTON. I thank the gentleman for enlightening me.

Mr. CONTE. Mr. Speaker, I yield such time as he may consume to my good friend, the gentleman from Wisconsin [Mr. PETRI].

Mr. PETRI. Mr. Speaker, I rise to draw attention to one portion of the continuing resolution, a Senate amendment on Juvenile Justice, Runaway Youth, and Missing Children. This provision, which passed the House on October 2 as title XXII of H.R. 5690, was the result of hours of negotiations between House and Senate staff representing dozens of Members interested in this legislation from both parties. As a coauthor of H.R. 4971—the original House-passed version of this provision—I was actively involved in those negotiations and support this compromise provision. My earlier floor statements on H.R. 5690 and H.R. 4971 apply equally to the present provision.

Perhaps the most popular section of this legislation is a new initiative to locate abducted children and return them to their families. This is not intended to be a starry-eyed project to track down runaways or cure every problem of childhood. There's not enough money in the Federal Treasury to do that. There will always be kids like Huck Finn in our society, and the Federal Government could not stop them even if it wanted to. But there is a proper role for the Justice Department to combat the kidnaping of children, especially when the abducted children face the risk of sexual abuse or exploitation, torture and even murder.

This may seem like a remote problem to some people, but it is not. Testimony before my subcommittee showed that it is, instead, a random problem that can strike anywhere. One day it's newspaper curriers in Des Moines. Another day it's black children in Atlanta. Yet another day it's young Adam Walsh in Florida. When such abductions occur, they can destroy a family and tear apart a community. We can and should do what we can to combat this problem. The Missing Children's provision in the continuing resolution does this by establishing a national resource center and clearinghouse to provide technical assistance and otherwise coordinate public and private efforts to locate missing children. We must do at least this for our missing children and their families.

The bill also reauthorizes the Juvenile Justice and Delinquency Prevention Act. As you well know, that act has played a vital role in separating youthful offenders from adults in jails. It has also funded research and demonstration projects for treating juvenile delinquency and controlling juvenile delinquents. This legislation continues these efforts while making a variety of administrative and substantive changes. One of these is especially important for the family.

Throughout the bill, new emphasis is focused on addressing the problem of juvenile delinquency in the context of the family by directing program grants and training in this direction. When dealing with delinquent youth, the family can often be the source of either the problem or the solution. In many cases, grandparents can be especially valuable resources in correcting a troubled young person. By supporting local projects designed to tap these resources, this legislation should help rebuild broken families.

Further, let me note that this provision includes the continuation and implementation of the coordinated, National Law-Related Education Program developed and evaluated by the National Institute for Juvenile Justice and Delinquency Prevention. The program has demonstrated that law-related education can help reduce delinquency when properly implemented.

The Law-Related Education Program has been developed largely by five national organizations—the Constitutional Rights Foundation, Law in a Free Society, the National Institute for Citizen Education in the Law, the American Bar Association, and the Phi Alpha Delta Law Fraternity. Support from the Office of Juvenile Justice has enabled these groups to obtain vast experience and expertise in the development and implementation of successful delinquency prevention programs used in a number of States, including my own.

In Wisconsin, the Department of Public Instruction has worked to help establish law-related education programs in over 30 individual school districts. These programs can be found in Appleton, Neenah, White Fish Bay, Janesville, and other locations. In addition, the Wisconsin Bar Foundation sponsors an effective law-related education program called "Project Inquiry."

Law-related education has become an important educational program nationwide. Our action today in including this program in the Juvenile Justice reauthorization guarantees that the momentum of this program will not be lost and that this coordinated national effort will be able to continue.

In a field where failure has been more common than success, law-related education has proven to be a rare exception, an example of a delinquency prevention strategy that works.

Mr. CONTE. Mr. Speaker, I yield 5 minutes to my good friend, the gentleman from Michigan, Mr. HAL SAWYER, who will give us his last speech in the House of Representatives here tonight.

Mr. SAWYER. Mr. Speaker, I want to say that attached to this continuing resolution, kind of as the tail on the dog, if you will, though I do not want to so characterize the continuing resolution, is the biggest crime package that as far as my staff can research has ever passed the Congress of the United States, approximately 60 bills.

I might say that if there ever was a bipartisan bill, this is it.

You may have noticed in the Washington Post editorial of yesterday some four Members of the other body were listed as being major contributors to this bill. Passing a crime bill over there is like passing a crime bill in the Benevolent Order of the Police. Passing one out of this House is like passing one in the board of directors of the American Civil Liberties Union, and you know what that is.

I will tell you, the guy who is responsible for this is BILL HUGHES of New Jersey. He is of the other party and he did it.

I might modestly say I helped him a little, but he did it. And, you know, I helped him on those bills that came under suspension where he needed our votes, and on the other ones where he did not need our vote we passed them anyway.

But this is one tremendous crime bill hidden in the shadow of the hassle on the continuing resolution. It killed many people on the other side of the aisle here to vote for it because while it had so many good things in it that they had to vote for some of the things that they hated, like bail reform and sentencing reform. But it was strictly a bipartisan measure.

I have to say here in final windup that I have not had an association in my life equalling that with BILL HUGHES. I have spent 30 years, mostly practicing active trial law and law, with the last 8 years here in the House, and I have not enjoyed an association more than I have with BILL HUGHES of New Jersey, of the Democratic Party, who worked as hard as I did. We fought the battles here with the tough committees, with the ACLUer's and the people that got the credit in the Washington Post who were the people who were, as I say, breezing it through the benevolent protective order of the police.

It is a totally different ball game here in the House. We hung it on as an amendment that my friend from Massachusetts, SILVIO CONTE, allowed us to hang it on as an amendment. It never would have become law had he not done so. If it were not for him we would not have had the 60 major crime bills.

As I say, I have to credit not only BILL HUGHES, but ROM MAZZOLI on that side of the aisle who has been an objective, bipartisan participant because crime is not a partisan issue; he has called the shots as he saw it. So has SAM HALL on that side of the aisle.

On our side of the aisle so have HAM FISH, DON LUNGREN, CLAY SHAW, GEORGE GEKAS, and BILL MCCOLLUM. We just have a lot of people who have had input into this bill.

I will tell you that I am just so proud to have had the opportunity to be part of perhaps the biggest crime bill to come out of this Congress before I leave. It is kind of bittersweet.

□ 2250

I am going to miss a lot of it. I am going to miss all of the Members but I am looking forward to going back to the practice of law privately, which I also enjoy.

I just want to say it has been just great that at the end we can hang the tail to the dog of the gentleman from Massachusetts, Mr. CONTE. I have just enjoyed it, I have enjoyed my association with all of the Members. It has been a great experience for me.

You taught me a lot. I hope I can take some of it back into the boondocks of Michigan to where I am delighted to retreat.

Mr. SHAW. Mr. Speaker, will the gentleman yield?

Mr. SAWYER. I yield to the gentleman from Florida.

Mr. SHAW. I thank the gentleman for yielding.

Mr. Speaker, I would like to compliment the gentleman for the tremendous hard work that he has done on our subcommittee and on the Committee on the Judiciary. The gentleman has left very large and positive footprints in the Federal law, as he goes back to the practice of law. I sincerely think it will not be criminal law because perhaps it will be a little more difficult to represent criminals in this country with the passage of this bill.

Mr. SAWYER. Civil law might even be a little more compensatory than criminal law generally.

I may say that if you just look at the list of those bills that have passed it is impressive.

The SPEAKER. The time of the gentleman has expired.

Mr. CONTE. Mr. Speaker, I yield 1 additional minute to the gentleman in order to make an observation.

Mr. Speaker, will the gentleman yield to me?

Mr. SAWYER. I yield to the gentleman from Massachusetts.

Mr. CONTE. I thank the gentleman for yielding.

Mr. Speaker, I supported the crime bill and I was in control of the motion

to recommit and I gave it to the gentleman from California [Mr. LUNGREN] to put the crime bill on and supported him.

Mr. SAWYER. I know the gentleman from Massachusetts has been of great assistance. I know the substance of it he is with us, and I appreciate his support.

Thank you all very much, and I appreciate and have enjoyed being with you.

Mr. WHITTEN. Mr. Speaker, I yield 4 minutes to the gentleman from Iowa [Mr. SMITH].

Mr. SMITH. of Iowa. Mr. Chairman, I want to follow up on what the gentleman from Michigan said. First of all I would point out that the $110 million that the administration requested for the purpose of enhancing security at U.S. Embassies overseas is in this bill in the full amount that was requested.

Some of you also were interested in some Small Business Administration disaster loan program amendments. They are in the bill. Also some changes in the pollution control guarantee program of the Small Business Administration are in this bill.

On the crime bill I want to say this: It is not the same as the bills that were passed by either the House or the Senate. However, as the gentleman from Michigan said, the bill is the biggest crime bill ever passed in history. I want to point out just how big it is.

In this bill there are 771 pages, of which 635 pages deal with the crime bill. As a matter of fact, the crime package is 85 percent of the bill, and a relatively small part of the bill deals with money. This is an authorizing bill and the money portion is just tagging along on the crime bill, that is what it really amounts to.

Since the crime package was in both the House and the Senate bill although with differences on some provisions, I, as chairman of the subcommittee handling the funding for the Department of Justice, was primarily responsible on the House side for trying to negotiate a compromise on this matter. We asked the members of the Committee on the Judiciary to come to the conference. They did come to the conference and sat down there and did in 2 hours what in a normal conference might have taken 2 or 3 days.

I also want to commend the gentleman from New Jersey [Mr. RODINO], the chairman of the committee, the gentleman who was mentioned previously, Mr. HUGHES, and Mr. SAWYER and others who worked so hard and hammered out the crime bill.

Because the conference agreement on the crime bill is so comprehensive, I thought I should briefly review the items that are in it.

The crime bill package includes provisions on bail reform; it also narrows the insanity defense, shifting the burden of proof to the defendant; it reforms Federal criminal sentencing procedures; it abolishes parole; it authorizes appeal of sentences by prosecution and defendant; and it includes improvements in forfeiture provisions in drug cases. The crime package also provides authorization for Federal funds to carry out specific anticrime programs. I might say that the House had previously appropriated money in the fiscal year 1985 Appropriation Act for the Department of Justice, anticipating that this authorization would be enacted.

The crime package also includes provisions to strengthen money-laundering penalties; it creates national Drug Law Enforcement Policy Board to coordinate drug enforcement; it improves the witness protection program; it provides for Federal aid for helping victims of crime; it provides for strengthening laws against counterfeiting of trademarked products; it improves the Federal ability to prevent diversion of dangerous prescription drugs; and it provides for Federal penalties for counterfeiting credit cards and for computer fraud and abuse. It also contains an antiterrorism act. It provides enhanced penalties for career criminals possessing a firearm. It also provides for the reauthorization of the Juvenile Justice and Delinquency Prevention Program and establishes an office to address the missing children problem. We had previously appropriated the money to cover these programs, including missing children, in the fiscal year 1985 Appropriation Act for the Department of Justice, anticipating that this authorization would be enacted.

The crime package also provides for a mandatory 5-year prison term that must be imposed for the use of a firearm in the commission of a Federal crime.

These are just some of the provisions in this bill. I want to say again, Mr. Speaker, this is a very important crime bill. It should not be overlooked as a part of this continuing resolution.

Mr. RINALDO. Mr. Speaker, I rise in opposition to the conference report. I cannot accept the deletion of the authorizations for new flood control and other water projects that are critical to my district and the State of New Jersey.

In this same measure, we are voting to spend over $18 billion on aid to foreign countries. Over $292 billion will be given to the Defense Department, and billions more will go for programs of questionable value to the taxpayers. It does not seem to me that it would have been too much to ask that some funds be included for public works projects that will protect the lives and property of our citizens.

The projects in my own area that need authorizations are a good example of the kind of work that must be allowed to go forward. Under the House version of the continuing resolution, approximately $181 million was provided for three flood control projects affecting communities in my district—the Green Brook flood control project, work on the Robinson's Branch of the Rahway River and improvements along the Rahway River and Van Winkles Brook. These are not-spur-of-the-moment, ill-conceived pork-barrel projects. These projects have been planned for several years, have been determined to be cost effective and are critical to the health and welfare of my constituents who live, play, and work in the areas abutting these waterways.

In 1973, a flash flood along the Green Brook killed six people and caused several million dollars in property damage. The Army Corps of Engineers by that time had been studying flood control measures for the Green Brook area for 18 years, since 1955. By 1981, the corps finally made its recommendations for improved flood control along the Green Brook. Work on this project cannot go forward, however, until Congress passes an authorization.

As you know, Mr. Chairman, it has been 8 years since the last flood control authorization bill was enacted. Since that time, the Public Works Committee has spent countless hours holding hearings and drafting legislation to deauthorize obsolete projects and authorize work on new ones. After we have come this far toward providing a new round of funding for these additional projects so important to my district, I cannot in good conscience vote to deny the interest of my constituents.

We do not have to be reminded that without the provisions of the water resources legislation included in the continuing resolution, these projects are dead; we will have to start over again next year on a new bill. I realize that my colleagues on the Public Works Committee plan to bring a new authorization bill to the floor quickly, possibly as early as next February. However, further delay is simply not acceptable—the time for action should have been now.

Even after an authorization is enacted, it will still be many years before work on these flood control projects can be completed. In the meantime, another serious flood could very well cause more fatalities and further damage to property in the Green Brook area. It has been almost 30 years since the planning of this project first began. How long do these people have to wait, how many lives have to be lost before we get this project started?

I think it's ludicrous for us to hand out billions in useless foreign aid, give

the Defense Department millions to waste on overpriced spare parts, and then scrap an inexpensive project that would save lives and protect homes. In protest against the failure to include the water resources authorization in the conference report, I am compelled to vote against it.

□ 2300

Mr. CONTE. Mr. Speaker, I yield 3 minutes to the gentleman from California [Mr. DANNEMEYER].

Mr. DANNEMEYER. Mr. Speaker, this continuing resolution gives each of us a very small measure of choice with respect to what we may do.

Most of us have serious campaigns in our districts. We want to go home and take care of that challenge. We are far beyond the date when the House was scheduled to recess.

I would like to commend those who have worked on the conference committee because I think they have done a lot of work and they are to be commended for the serious challenge that they encountered.

But I think we should reflect at a time like this that something is seriously wrong with the process under which this House and the other body are working at this time, when we reflect on the fact that of the 13 appropriations bills that fund the Federal Government, 4 of them have been passed by both bodies and 9 of them are not passed and the 9 of them are in this bill.

The way our system is supposed to work is that when the legislature passes an appropriation bill, if the President does not agree with it the President is supposed to have the option of a veto and then Congress can review that veto. But when the President, whoever he is, is presented with a continuing resolution of this size, covering nine subject matter appropriations bills, the President has no veto, as a practical matter, because, in effect, the President is blackmailed to accept this because he does not dare really turn down the level of spending contained in this bill because of the adverse repercussion it is going to have all over this country.

Mr. SMITH of Iowa. Mr. Speaker, will the gentleman yield?

Mr. DANNEMEYER. I yield to the gentleman from Iowa.

Mr. SMITH of Iowa. I thank the gentleman from yielding.

Is the gentleman aware that when this bill passes the total appropriations for this year will be less than the President requested?

Mr. DANNEMEYER. That may very well be, but we all know that the appropriations level in this bill—and I have asked over here on our side, maybe you have got the figures, I have not been able to find anybody tonight who will tell us what the level of the figure is. I do not think anybody knows. But the fact is that whatever the amount is it entitles a deficit for fiscal year 1985 and $180 billion. Now, I do not think that is responsible. I do not think any of us has the right to pass this deficit on to future generations. Where do we get that right?

I think that the point that I seek to make in opposition to this conference report is that it points up the necessity of a constitutional amendment that would give our President a line item veto.

Mr. CONTE. Mr. Speaker, I yield 2 minutes to the gentleman from South Carolina [Mr. HARTNETT].

Mr. HARTNETT. Mr. Speaker, I want to thank the gentleman from Massachusetts for yielding to me at this late hour.

I have been amazed, Mr. Speaker, as I sat in my office for the last few minutes to see the Members of this body beat their breasts and contend what a fantastic job they have done in this, the 59th minute of the 11th hour, to bring before us a continuing resolution.

Mr. Speaker, we stood here today and said what a tremendous thing we have done, we have taken the water projects out of this bill. As if to say, look what we have done for our colleagues.

Now, Mr. Speaker, you and I and all these senior Members of Congress know, we did not have the money in the first place to put the water projects in the bill.

So now we say what a noble thing we have done for our constituents, we have taken the water projects out.

I am sure we will return to our home districts in the next few days, Mr. Speaker, and we will try and convince our constituents of what a fantastic job we did in Congress this year. When, if you graded us, Mr. Speaker, on a point from 1 to 10, with the smallest and most ineffective State legislature in the State, we probably would be 30 points behind the most sloppily run legislature in the State, of any small State anywhere in the country.

Do not go home, Mr. Speaker, and try and convince your constituents that you have done a good job, because as legislators you should have passed those appropriations bills. They should have been given a chance to be sent to the President, given him an opportunity to veto or to sign those appropriations bills. You, the senior Members of this Congress, have been derelict in your duty as legislators and do not go home and try and convince your constituents that you have been anything else but.

Mr. WHITTEN. Mr. Speaker, I yield 2 minutes to the gentleman from New York [Mr. ADDABBO].

Mr. ADDABBO. Mr. Speaker, relative to the last speaker's statement that the Appropriation Committees should have done their work earlier, I would advise him and the House that nearly all the appropriations bills were ready in June but the other body had not acted on the necessary authorization bills. Only in the last hours of the session did they finally move on the needed authorizations.

Perhaps next year if they do not move on the needed authorizations in a timely manner, we should get rules and move the appropriations bills as soon as they are ready for consideration by the House.

As far as the defense appropriations part of this resolution, Mr. Speaker, we are $18 billion below the President's original budget. We are about $5 billion below the so-called Rose Garden compromise put forth by the administration. We are above the House reported bill by $4.3 billion, but below the Senate reported bill by $5 billion.

You have heard my colleague from Massachusetts, the chairman of the intelligence authorizing committee give you the report on Nicaragua aid. Aid is cut off until after February 28, 1985, and there is a positive vote by the next Congress on a joint resolution approving such aid.

On antisatellite weapons, there can be no testing against an object in space until March 1 of next year. The President must make specific certifications to Congress and only three tests against objects in space are then allowed.

Concerning the MX, there will have to be a positive vote by the Congress by both the authorizing and the Appropriations Committees after March 1, 1985, before any moneys can be expended for additional MX missiles.

Mr Speaker, it is with a deep sense of regret that I will not be working with two great Members of this House next year, the gentleman from Alabama [Mr. JACK EDWARDS] and the gentleman from Virginia [Mr. KEN ROBINSON] both of whom are retiring. These two very dedicated members of my subcommittee and dedicated Members of this House will be missed.

Mr. Speaker, I will include tabular matter relating to the defense appropriation part of this resolution which follows:

COMPARATIVE STATEMENT OF NEW BUDGET (OBLIGATIONAL) AUTHORITY

	Fiscal year 1984 enacted	Fiscal year 1985 estimates	House	Senate	Conference	Conference compared with			
						Enacted	Estimates	House	Senate
TITLE I—MILITARY PERSONNEL

[1] Includes $5,000,000 appropriated in the Continuing Appropriations Act, 1984, for the Summer Olympics (O&M) and amounts in the Second Supplemental Appropriations Act, 1984.
[2] DOD's accrued retirement liability costs ($16,913,447,000) are included in the military personnel accounts.

□ 2310

Mr. CONTE. Mr. Speaker, I yield 3 minutes to the gentleman from Alabama [Mr. EDWARDS], one of the most valuable Members on my side of the aisle on the Appropriations Committee, who will be speaking for the last time here in the U.S. Congress.

Mr. Speaker, will the gentleman yield?

Mr. EDWARDS of Alabama. I yield to my leader, the gentleman from Massachusetts.

Mr. CONTE. Mr. Speaker, I just do not want to let go by what the gentleman from South Carolina [Mr. HARTNETT], said about running a sloppy Congress. One of the reasons we are here this late is because his Committee on Armed Services did not bring out an authorization bill until the end of the session. I hope the gentleman makes that a project, to either go to 2-year authorization or 3-year authorization so that the gentleman and other members of the Defense Appropriations Committee can bring their bill out in an orderly fashion.

Mr. EDWARDS of Alabama. I thank the gentleman. That is a point well taken. I am sure that over the next year or two I am sure I will probably want to sit at home and write you a few ugly letters about the way you operate around here.

Mr. Speaker, it is not unusual for the defense appropriations bill to be a part of the continuing resolution. It happened 2 years ago. It is unusual to be a part of the continuing resolution and be on the floor, as we are tonight, not having brought our defense bill to the floor of the House of Representatives for consideration by the Members. And it is in that context that I join with my chairman, the gentleman from New York, Mr. ADDABBO, in discussing just very briefly what it is that we have done, because I think you should have a feel for this.

Section 871 contains language which prohibits funds for Defense contracts for commercial or commercial-type products if the solicitation excludes any small business concern that cannot demonstrate that its product is accepted in the commercial market. This language is not meant to pre-

clude the use of a commerciality clause for other than small business concerns in any particular solicitation. We remain committed to the commerciality concept and simply wish to protect the ability of small business to compete for those contracts where they have the capacity to provide effective and cost efficient products.

The chairman touched on several of the major items. I think that it should be noted that this bill calls for $274.4 billion, an amount that fits in with the agreement of the Speaker and the majority leader of the other body. It is in accord with those numbers. It does in fact provide about 5.6 percent real growth, which is greater than we were able to accomplish last year. In spite of all the major cuts that we made, we did put together a bill that I think serves the needs of the defense of this country. And while you have not really had a chance to deal with it here on the floor, I think you can take some comfort in the fact that the members of the conference did spend many hours working on this bill with our very able staff and the members of our subcommittee.

I want to commend the members of the subcommittee and commend the members of the staff for the work that was done.

Mr. YOUNG of Florida. Mr. Speaker, will the gentleman yield?

Mr. EDWARDS of Alabama. I yield to the gentleman from Florida.

Mr. YOUNG of Florida. I thank the gentleman for yielding.

I would like to say to the gentleman and to the Members of the House that, as one of those given the opportunity to work on the subcommittee on defense appropriations led by the gentleman from New York [Mr. ADDABBO] and the gentleman from Alabama [Mr. EDWARDS], here is one Member who knows how much the leadership demonstrated by the gentleman from Alabama [Mr. EDWARDS] is going to be missed. His strong leadership, his steady hand has been of valuable service to the United States of America. As the months and years go by, I think that will become more evident with each passing day.

I say to the gentleman from Alabama, God bless you, good luck wherever your endeavors take you.

Mr. EDWARDS of Alabama. I thank the gentleman.

Mr. WHITTEN. Mr. Speaker, I yield 1 minute to the gentleman from Maryland, [Mr. LONG].

Mr. LONG of Maryland. Mr. Speaker, the Foreign Assistance Appropriations Act for fiscal year 1985 that is included in the conference report is the result of a bipartisan compromise that is supported by both sides of the aisle, by both bodies of the Congress, and the administration and the President. I would urge its adoption. I would note that the foreign assistance bill is below the President's budget, as it has been every year of the 7 years I have been chairman of the Subcommittee on Foreign Operations, except 1.

For the record I will insert a detailed explanation of the actions that the conference took, as follows:

Mr. WHITTEN. Mr. Speaker, I yield 2 minutes to the gentleman from Illinois [Mr. YATES].

Mr. YATES. Mr. Speaker, I should like to say to the gentleman from South Carolina that this is one senior Member of the House who brought his appropriations bill to the full committee on June 28 and that it was passed by the House on August 2, after the 3-week recess. It was brought to the floor with the assistance of a senior Member of the House, the gentleman from Pennsylvania, Mr. MCDADE, and it was a bipartisan bill that we passed. we waited for the other body to pass the bill, we waited and waited, and we are still waiting for that bill to be passed.

Mr. Speaker, President John F. Kennedy with whom President Reagan likes to associate himself was willing to assume blame when his policies failed. Kennedy said he was responsible for the Bay of Pigs debaucle, saying "Victory has many fathers. Defeat has but one." President Reagan reverses that truism. He takes credit for everything and blame for nothing, usually placing blame wrongly on the Democrats as he did when he said that the Democratic House of Representatives was to blame for all the appropriations bills being late.

I am not going to talk about the other appropriations bills which make up the continuing resolutions. I do know about the Interior appropriations bill, and I know that that bill could have and should have been passed by the other body weeks ago instead of being a part of the continuing resolution.

This is the record: The Interior bill was marked up by the Appropriations Committee on June 28, just before the congressional Fourth of July 3-week recess.

It was brought to the floor of the House and passed on August 2.

It was sent to the other body the next day, over 2 months ago. We waited for the Republican-controlled other body to pass it. We waited and we waited. We are still waiting.

Those are the facts relating to the action taken by the House of Representatives and the other body. President Reagan is wrong when he blames this House for the delay. The Democratic-controlled House passed the bill in plenty of time for the bill to be passed by the other body.

We agreed on the Synfuels Program in this way:

First, the amount to be rescinded was $5.375 billion instead of the $5 billion voted by the House and the $5.2 voted by the Senate.

Second, the amount available for letters of intent was established at $5.7 billion. If any letters of intent failed, one-half of the money in that project will remain in the Synfuels Corporation treasury. The other half will go to a fund which cannot be obligated. Congress will be able to rescind it or transfer it for other purposes if it so desires.

Third, $750 million will remain for coal research programs to provide for clean coal technology.

Fourth, most reluctantly, the House receded on the amendment that I had sponsored and which the House approved prohibiting the use of funds for the Union II and Cathedral Bluffs oil shale projects. The conferees agree it was more appropriate for a reconstituted board of directors to review these projects and the managers provided that the review by the board should consider the extent to which the projects met the technological diversity goals and their incredibly expensive costs.

Fifth, that the synthetic fuel production goals established by section 125 of the Energy Security Act are suspended.

The conferees retained the oil leasing moratorium for the next fiscal year. The moratoria will be dropped next year unless it can be shown after public hearings and consultations with local, State, and Federal Government officials that continuance of the moratorium is necessary to protect the environment or for some other important reason.

In accordance with the agreement between the chairman of our committee and the gentleman from New York [Mr. SOLOMON], the agreement by the conferees to forgive the interest owed by the disagreement. That will be the subject of the Kennedy Center for the Performing Arts and what is to be done with the vast amount of interest, $25 million of interest that has accumulated over the years. The gentleman from New York [Mr. MOLINARI] will offer a preferential motion that will seek to create a new method of financing. We will resist that in order that we may come to an agreement with the Senate, send the bill back to them. We feel that the agreement that we have with the Senate is one that will permit the Kennedy Center to not only waive its interest, but to operate on a good finanical basis into the future.

Let's talk about a few items in the bill now. It could have been a better bill if the other body had adopted the House bill. Subsidies are continued for the grazing interests. The House proposed to establish grazing fees in the Bureau of Land Management comparable to those charged by the Fish and Wildlife Service, Indian owners, or the military departments. These are much higher. The other body would not recede on this. It is something that the Legislative Committee should correct.

There are timber subsidies as well. The cut we agreed upon is too large and the taxpayers will continue to subsidize cuts from forests which will be made at a substantial loss. That problem is now being reviewed by the House Legislative Committee.

We had to agree to cut back on purchasing crude oil for the strategic petroleum reserve. Congress has set a daily fill rate of 225,000 barrels per day and this House adhered to that mandate for a number of years. Last year at the insistence of the administration, we had to reduce the fill rate to 186,000 barrels per day.

This year the administration's budget proposed a fill rate of 145,000 barrels per day. The House approved a fill rate of 186,000 barrels per day. We were told that the bill would be vetoed by the President if we did not cut the fill rate, which we did, to 159,000 barrels per day.

We were also told that we faced a veto because there was too much money in the bill. In order to comply with the Presidential mandate, we made an across-the-board cut of 2 percent. This amounted to a cut of about $160 million.

A number of the programs are at levels below those of fiscal year 1984.

Mr. Speaker, the portion of the conference report which funds the Department of the Interior and related agencies provides a total of $8,118,433,000, which is $439,097,000 above the budget estimate, and $95,272,000 above the fiscal year 1984 total appropriation. This report is $84,568,000 above the House passed level and $34,133,000 above the level agreed to by the Senate. These numbers reflect a 2-percent across-the-board reduction.

The agreement includes $256,732,000 to continue high priority land aquisition activities under the Land and Water Conservation Fund. A total of $3,225,779,000 is provided for the natural resources agencies, including $1,310,073,000 for the Forest Service and $1,915,726,000 for management of the public lands, wildlife refuges, and the national parks.

The report provides the funding necessary to address critical energy issues. Included is $458,610,000 for energy conservation activities, including $47,043,000 for the schools and hospitals program and $191,113,000 for low-income weatherization. A total of $274,947,000 is also provided to continue high priority fossil energy research and development activities.

With regard to Native Americans, the report provides $2,000,825,000 for Indian education, Indian health care and facilities, operation of Indian programs, construction and efforts toward relocation of Indians to address the dispute between the Navajo and Hopi Indian Tribes.

The conference report recognizes the importance of continuing our support for the cultural resources of this Nation, and includes $163,660,000 for the National Endowment for the Arts and $139,478,000 for the National Endowment for the Humanities, $21,560,000 for the Institute of Museum Services, and $189,561,000 for the Smithsonian Institution.

The managers are concerned about resource threat problems on our wildlife refuges and have agreed to add $8.5 million above the budget request to address these problems. The matter of alleviating the toxic waste problem at Crab Orchard NWR is a high priority and it is expected that the Fish and Wildlife Service will identify the problem and report promptly to the committees on how much of the $8.5 million will be necessary to solve this problem and what action the Service will take to accomplish this task.

The 2-percent reduction is made proportionately to all appropriations, activities, and projects. If this causes problems for individual construction or land acquisition projects, reprograming procedures included in the CONGRESSIONAL RECORD of October 5, 1983, for the House at page H 7983 and for the Senate on October 19, 1983, at page S14166 should be followed to mitigate those problems.

For the land acquisition accounts, the 2-percent reduction leaves the following amounts for each of the items:

Bureau of Land Mangement

Acquisition management	$294,000
King Range National Conservation Area, CA	980,000
Upper Sacramento River, CA	980,000
Upper Missouri Wild and Scenic River, MT	294,000
Rio Grande Wild and Scenic River, NM	147,000
Total	2,695,000

Fish and Wildlife Service

American Crocodile, FL	4,900,000
Ash Meadows, NV	588,000
Bear Valley, OR	784,000
Karl Mundt, SD	294,000
Banks Lake, GA	596,000
Bogue Chitto, LA	2,940,000
Bon Secour, AL	2,940,000
California Condor, CA	3,920,000
Connecticut Coastal NWR, CT	1,470,000
Clear Creek Gambusia, TX	20,000
Coachella Valley, CA	4,900,000
Currituck NWR, NC	3,430,000
Florida Panther, FL	3,920,000
Great Dismal Swamp, NC and VA	1,470,000
Hawaii forest birds, HI	4,410,000
Key Deer, FL	2,450,000

The managers have agreed to forward fund a grant program in support of artistic and cultural activities in the National Capital region on a one-time temporary, trial basis in fiscal year 1986. The Director of the National Park Service is to provide to the committees, within 90 days after enactment of this act, a plan for implementing this program. The Service is expected to consult with the National Endowment for the Arts in developing this plan.

Mr. Speaker, it gives me a great sense of pride to inform the House that included in the continuing resolution is an initiative calling for the establishment of a national laboratory dedicated to applied research in energy conservation, to be built in cooperation with Northwestern University and the city of Evanston.

We've come a long way from the days of the gas station lines during the Arab Oil Embargo of 1973, when we wondered whether we'd be able to obtain the fuel to run our cars. We've come a long way, too, from the days when it seemed as if we were changing the clock every few months, and mothers and fathers worried because their children were being sent out to school while it was still dark outside.

In those days, we looked for any way out of the fuel shortage crisis. We borrowed a line from President Franklin Delano Roosevelt, who said, when referring to the creation of the New Deal:

> One thing is sure: we have to do something. We have to do the best we know how at the moment. If it doesn't turn out right, we can modify it as we go along.

And so we did the best we knew how. We began an emergency push for research and development of synthetic fuels. We expanded the function of the naval petroleum reserve into the strategic petroleum reserve. We found ways to trigger the Defense Mobilization Act of 1950. We set a national highway speed limit. We changed daylight saving time. We printed gasoline rationing stamps. We increased work in solar energy power utilization. And we began a nationwide campaign to increase awareness of the importance of energy conservation. In recognition of the priority which we needed to give to energy research, the Interior Appropriations Subcommittee, which I now chair, stated in its report for apropriations for fiscal year 1974 the following:

> The Committee believes that a vigorous energy research program in all areas of energy use, resource management, and conservation is vital if government and industry are to provide the nation with a sustained and reliable energy supply in the future. The 23 percent increase in energy research provided in this bill will help reach this objective.

Well, some of those programs worked. And some didn't. The action the House took last summer with repect to the Synthetic Fuels Corporation is a good example. But the one thing we clearly did learn was that nothing was more important in either the long or the short run, then energy conservation.

More than 10 years have passed. And it seems that most Americans have forgotten the lessons of 1973. Gas guzzlers are back on the streets and nobody cares. The Reagan administration comes to power vowing to abolish the Department of Energy, and proposes termination and reduction of essential energy conservation programs, and nobody cares.

But this Congress remembered those lessons, and it cared. Led by the Appropriations Committee, we have fought these penny-wise, but pound-foolish proposals. We have kept alive programs such as weatherization for schools and hospitals, and for low-income housing. We have increased the fill rate of the strategic petroleum reserve while prices were down despite attempts of the Reagan administration to slash funding. And now we are taking the initiative to strengthen our energy conservation program with the establishment of a conservation applied research laboratory at Northwestern University.

It is the committee's expectation that such a laboratory will support energy conservation research in the same way that other Department of Energy facilities have advanced technology in other program areas. Solar energy has the Solar Energy Research Institute in Golden, CO; nuclear physics has Brookhaven National Laboratory; Fermi Laboratory and Argonne National Laboratory are dedicated to high energy physics; and fossil energy has research facilities at Bartlesville, OK; Pittsburgh, PA; and Morgantown, WV. Conservation research has not had a comparable dedicated facility to provide a concentrated emphasis on conservation issues.

A new research facility dedicated solely to energy conservation will reemphasize the commitment to use new technology for more energy efficient ways to transport people and products, fuel our industrial machines, and improve the energy use in both new and existing buildings.

Let no one think that the need for energy conservation is not still pressing. Energy production in the United States remains woefully inadequate to meet energy consumption. In 1983, nearly 2.4 billion barrels of oil were imported, or 40 percent of our petroleum products. At least $70 billion is spent by us annually outside the country for imported oil. I need not describe the impact this has on our balance of payments. Energy conservation is the best way to stave off this appalling drain on our resources.

Energy consumption in the United States is categorized into three major sectors: commercial and residential buildings, transportation, and industry. Each of these sectors has the potential for significant energy conservation and corresponding economic savings. Each will be addressed by the national energy conservation laboratory at Northwestern. In the three sectors combined, it is estimated that a total

of $110 billion in annual savings, can be achieved.

Among the areas of research that the lab will focus on are the following:

Tribology: This research encompasses the multidisciplinary study of friction, wear, and the lubrication of moving surfaces in rubbing contact such as in gears, cams, brakes, and bearings. This research has direct application to service performance of contact surfaces and resistance to failure as a result of wear, scuffing, and fatigue.

Study of fatigue of metals and alloys: Failure of machinery by growth of fatigue cracks is one of the major factors limiting the structural life of metal parts. Research in theoretical and experimental programs aimed at reducing this pervasive problem will result in great energy savings. Potential applications range from improved structural integrity of steel supports to improve durability of metals and alloys used in high-speed machinery.

Manufacturing engineering: Research in this area will be aimed at developing improved processes and production controls through design at conceptual and later stages for particular processes such as forging or machining.

Ceramics: Ceramic materials are being developed as basic components for high temperature engines to improve the efficiency of mobile and stationary powerplants. The United States is far behind other countries in this important work.

New polymers: Research in this area can lead to development of biodegradable structural polymers; polymeric solid electrolytes in batteries and fuel cells; and electrically conductive polymers for antistatic coatings and integrated electronics.

The need for continuing Government involvement in technology development for energy conservation is clear. What is less clear is a workable mechanism for public sector technology developments and improvements to be implemented on a large scale by the private sector. A university, Government, and industry collaboration of the type proposed by the committee is an ideal solution to meet this need.

The energy conservation lab proposed by the committee will be able to draw on the resources of some of the finest minds in the country. Besides Northwestern, the lab will have the support of the University of Chicago, the University of Illinois, and the Illinois Institute of Technology. It also has the full support of major industries in the Chicago area such as the Standard Oil Co. of Indiana, the Inland Steel Co., and the United States Gypsum Co., a letter from the CEO's of which I have received as well as Evanston's major corporations, banks, and hospitals.

The applied research lab will serve as a focal point to coordinate the introduction of new techniques and new technologies into the marketplace. It will provide the link between federally supported research and its transformation into economic reality. It will continue and advance the progress we have made into freedom from international blackmail and toward energy security for the United States.

At this point, I will insert the letter, signed by the CEO's of Standard Oil and Inland Steel Co., in support of this project and a table comparing new obligational authority recommended in the bill for 1985 and the respective recommendations contained in the House and Senate bills and comparison thereto. Reprogramming procedures are to be followed to request changes from this allocation:

SEPTEMBER 19, 1984.

Hon. SIDNEY YATES,
Washington, DC.

DEAR CONGRESSMAN YATES: We are writing to express our strong support for your provision in the House FY 85 Interior Appropriations Bill to create the Basic Industry Research Laboratory as an anchor for the Evanston/University Research Park. The concept of that lab—as a highly interactive research environment focused upon the accelerated transfer of new materials, manufacturing, and environmental technologies to the basic industries—is not only unique but greatly needed.

Many factors have contributed to the problems of the basic industries and their decline in terms of international competition. Some factors, such as labor costs, will remain a source of disadvantage; one factor, technology, offers the greatest potential for advantage. However, despite our nation's dominance in this area since World War II, U.S. investment as a percent of GNP for both R&D and capital plant and equipment decreased during the 1970s, during a period when the rate of investment by Japan, West Germany, and France continued to increase. Japan in particular made dramatic advances partly because of its focus upon the rapid transfer of technology between basic research (often performed at U.S. universities) and commercial production.

Many individual basic industry firms are involved in R&D oriented toward the improvement of specific products through the application of new technologies in materials and manufacturing processes. However, no laboratory exists to deal in a broader way with generic problems that cut across various industrial categories. The Northwestern proposal creates an opportunity to address the kind of needs represented by the following examples. A recent study by Battelle Laboratories estimated the annual costs attributed to metal failure in the U.S. at $119 billion annually. According to a report by the American Society of Mechanical Engineering, U.S. research expenditures on tribology of $35 million would have an estimated savings of more than $21 billion in energy costs along. The interactive research environment of the Basic Industry Research Laboratory would contribute substantially in such areas by accelerating the transfer of basic research from Northwestern, other universities, or federal labs to industrial labs that concentrate upon the problems of product development and manufacture.

Application of new technologies to the basic industries will produce not only increased economic development for the region but also broader benefits for the nation. Cost reductions and quality increases for manufactured products will result in greater competitiveness in international markets, renewed growth in industrial employment, overall improvement in the nation's economy, and long-term reductions in the federal deficit. For these reasons, we applaud your leadership and urge you to continue your support for the Basic Industry Research Laboratory and the other aspects of the Northwestern University-City of Evanston proposal.

Those of us in the basic industries welcome this opportunity to work with the Basic Industry Research Laboratory. The anticipated research results would enhance our own R&D efforts to increase productivity and improve our global competitiveness position.

Sincerely,

LAURANCE H. FULLER,
President, Standard Oil Co.
FRANK W. LUERSSEN,
President, Inland Steel Co.
GRAHAM J. MORGAN,
Retired Chairman, U.S. Gypsum Co.

Mr. CONTE. Mr. Speaker, I yield 2 minutes to the gentleman from California [Mr. LUNGREN].

Mr. LUNGREN. Mr. Speaker, as much as many of us a couple of weeks ago wished that we had a clean continuing resolution and voted in fact that we would move in that direction, when the clean resolution was open many of us thought there was an opportunity to move forward on the crime bill. I must say that we must give credit to the gentleman from Massachusetts [Mr. CONTE] who actually supported us and gave us the opportunity to present the crime bill, S. 1762, on our motion to recommit. There are some changes with respect to that original S. 1762, but I would have to say the heart and soul of S. 1762 are in this. This is a good compromise. It is an approximately 56-point crime package. Some would say it is perhaps the most comprehensive crime package ever passed by any Congress at any time. And even though many of us disagree with the idea of putting other things on what is essentially a spending bill, in this repetition that we seem to have employed of finishing up our business on a continuing resolution as opposed to completing our action on full appropriation bills, this time I would argue that we ought to make an exception. This is an opportunity for a historic crime bill that was made possible, I would say, by the motion to recommit that the gentleman from Massachusetts allowed us to present just over 1 week ago.

So I would urge my colleagues on this side of the aisle to support the bill, essentially, from the crime standpoint, and swallow pretty hard on some of the other stuff, but make sure that we have this historic crime bill passed and signed into law by the President in the next day or so.

Mr. WHITTEN. Mr. Speaker, I yield 4 minutes to the gentleman from Alabama [Mr. BEVILL].

Mr. BEVILL. Mr. Speaker, as you know, the energy and water development appropriations legislation for 1985 was signed by the President in July. Then we had the 51 or really 49 new start appropriations which were held up, waiting for the Roe bill to be passed by the Senate, the bill that the House almost unanimously passed here, a very good bill, authorization bill, and, as a result, there was nothing left but the continuing resolution to add these new starts.

□ 2320

The other body and this House both agreed in conference on these 49 projects and then the White House let us know that it was going to be vetoed and knowing that we would not be able to override a veto, we had no other choice but to unanimously, in the conference, drop those projects.

I am hopeful that we will be able to put these projects in the next supplemental appropriations bill which will probably be around February or March so that we can move on and also some of the leaders in the Senate have assured us that they will help bring up the Roe bill in the other body when it reaches there again in the early part of the year.

I just wanted to pass that on for what it is worth.

Mr. FAZIO. Mr. Speaker, as it relates to amendment No. 69, which deletes language proposed by the House and stricken by the Senate relating to the sale of electric power generated at facilities constructed pursuant to 38 Stat. 242, 1913, known as the Raker Act, some comment should be made.

The conferees agreed to eliminate section 110 of the resolution as passed by the House in view of the agreement in principle reached by the city of San Francisco and the Modesto and Turlock Irrigation Districts for the sale over a 30-year period of power generated at the city's reservoir in Yosemite National Park. Success of the negotiations eliminates need for the section.

The conferees note, however, that the original Raker Act contemplated that an independent review of the city's rates be undertaken by the Secretary of the Interior in the event there is no appropriate California authority to regulate the prices at which Hetch Hetchy power may be sold. While the agreement in principle between the parties displaced the need for such oversight in the current circumstances, the conferees do believe that the Secretary should reassert his authority to oversee Hetch Hetchy power rates should there occur an unanticipated failure in the further negotiations between the parties as they seek to implement their agreement in contractual form.

Mr. Speaker, the military construction portion of this continuing resolution provides fiscal year 1985 funding in the amount of $8.4 billion. This compares to the President's original request of $10.3 billion and is a $1.9 billion overall reduction. In order that Members may have a clear picture of what is included in the conference agreement, I would like to ask unanimous consent to place in the RECORD at this point a complete State and county list of projects provided in the fiscal year 1985 bill.

* INDICATES PREVIOUSLY OR PERMANENTLY AUTHORIZED.

Mr. CONTE. Mr. Speaker, I want to close with one observation. I would like to have the attention of the gentleman from Mississippi [Mr. WHITTEN].

Mr. Speaker, let me for just a moment speak of the energy and water section of this continuing resolution. You know, the water projects in this continuing resolution were the real sticking points as far as the administration was concerned. In conference, the chairman of the Senate Appropriations Committee, Senator MARK HATFIELD, proposed to resolve the matter by striking the entire energy and water section from the bill.

The gentleman from Mississippi, our chairman, Mr. WHITTEN, ultimately agreed with this position, although he was opposed to it. I want to take this opportunity, Mr. Speaker, Members of the House, to pay tribute to the courage and the statesmanship of these two gentlemen. They each gave up very important projects in their own backyards in order to reach this compromise so that we could bring this bill to a resolve, and I think that they deserve our gratitude and our support for their action.

I want to thank them publicly.

Mr. WHITTEN. Mr. Speaker, I yield 1 minute to the gentleman from Florida [Mr. LEHMAN].

(Mr. LEHMAN of Florida asked and was given permission to revise and extend his remarks, and include therein extraneous matter.)

Mr. LEHMAN of Florida. I thank the gentleman for yielding time to me.

Mr. Speaker, I rise in support of the conference report. I would like to recognize the hard work, the tenacity and patience of our chairman, the gentleman from Mississippi [Mr. WHITTEN], and our ranking member, the gentleman from Massachusetts [Mr. CONTE].

The transportation portion of the conference report would provide a total of $11,595,085,584 for the projects or activities of the Department of Transportation and related agencies for fiscal year 1985. This is $188,751,000 less than the President's budget request and $75,146,000 less than the Senate-passed continuing resolution. While the conference agreement is $843,086,000 more than the House-passed continuing resolution, it is $188,687,000 less than the Department of Transportation and related agencies appropriation bill originally reported to the House.

I insert at this point in the RECORD a table giving the conference figures in detail:

	FY 1984 Enacted	FY 1985 Estimates	Continuing Resolution House	Continuing Resolution Senate	Continuing Resolution Conference
TITLE I - DEPARTMENT OF TRANSPORTATION

Mr. CONTE. Mr. Speaker, I yield 3 minutes to the gentleman from Indiana [Mr. MYERS].

Mr. MYERS. I thank the gentleman for yielding me this time.

Mr. Speaker, I rise in support of this conference report. Two weeks ago yesterday, this body passed the conference report. For the past 10 days, the conferees between the other body and the House have been meeting, trying to work out the differences. I am here today to say that I am proud to have been a part of the conference. I have served on a great many conferences, but I do not recall any conference lasting as long from the Appropriations Committee as this.

Now, there have been several comments about the energy and water section. It's out of this report entirely. If the word water or energy appears in this conference report, it must have been a mistake in the printing because the section was taken out by popular demand. Not from a number of us, but both downtown at 1600 and here we got the message loud and clear.

How many people keep talking about pork. Mr. RINALDO, if you are still on the floor, you are not the only one who has come to our subcommittee and told us of the agony, of the suffering that people in this body know of their constituency back home from flood, from the lack of water, from ports that are not deep enough so we can be competitive with the rest of the world and for other projects that are badly needed. But because of an impasse here, it was necessary for us to take that section out completely.

Yes, everybody wanted a clean bill. But more than 600 pages in this bill have nothing to do with appropriation; not the emergency we find ourselves in tonight. I am not against crime reform, of course not. No one in this body is. But is the continuing resolution the proper bill to attach this more than 600 pages?

Yes, we wanted a clean bill but we do not have it for those of you who have been pleading here for the last 3 months, "Be sure the continuing resolution is clean." Mr. CONTE said that this was maybe the last continuing resolution. We all hope and pray you are right, SIL. But I am afraid this is just a beginning, because what we have done here, we may have set the pace that this will be the only show in town in the future.

I am going to support this because we have to, but very frankly, we have loaded this thing down much deeper and we have left out some very, very important projects. Mr. RINALDO and the gentleman from South Carolina, you are exactly right, the gentleman from South Carolina, you missed the target but you were right: We cannot be very proud of cutting out $85 million. Only $65 million to be appropriated; $20 million of it came from the trust fund, $20 million. Yes, we cut it out by popular demand.

I hope we have not made too serious a mistake that cannot be rectified in the future.

Mr. WHITTEN. Mr. Speaker, I yield 1 minute to the gentleman from New Jersey [Mr. HUGHES].

Mr. HUGHES. I thank the gentleman for yielding me this time.

Mr. Speaker, today I take to the floor of the House with mixed feelings. I hope that the desire of HAL SAWYER. and myself to pass effective anticrime measures that will aid the law enforcement community is beyond dispute. To accomplish this, throughout this Congress I have cautioned against packaging anitcrime bills because processing individual bills is the best and safest way to develop criminal laws.

On October 2, however, I proposed a large package of crime bills—but only those that had been separately and carefully developed, and most of which had already passed the House. We took the unusual step of repassing bills which had already passed because the other body seemed to be having difficulty in acting upon them. We were hoping that with adjournment drawing near, and with the other body ensnarled in hundreds of amendments pending to the continuing resolution, it would welcome the opportunity to act upon H.R. 5690, a 24-item major crime bill as an alternative to the out-of-date crime package hastily added to the continuing resolution over here.

Unfortunately, that was not to be. Rather than acting on the House crime package, the other body chose to pluck the most appealing provisions from H.R. 5690 and append them to the continuing resolution. This action signaled that, as a practical matter, working through the continuing resolution represented the last chance for anticrime legislation in this Congress.

As stated earlier, S. 1762, the Senate crime package we attached to the continuing resolution the week of September 24, was out of date and seriously flawed. The Senate's amendment to the continuing resolution cleaned up some of the more obvious problems by deleting the pharmacy robbery and child pornography provisions that had already been signed into law. Included in that amendment were important measures left out of the continuing resolution crime package but which were in the House crime bill (H.R. 5690).

These new parts are significant additions to the original Senate package which the House can properly be proud of. They are—

The Antiterrorism bills;

The Trademark Counterfeiting Act;

The National Narcotics Act ("Drug Czar")

Juvenile Justice and Missing Children Amendments;

Victims of Crime Compensation Act;

Counterfeit Credit Card and Computer Fraud and Abuse Act; and

The Armed Career Criminal Act.

Finally, in conference last Thursday, representatives of the House Judiciary and Appropriation Committees were able to improve upon other parts of S. 1762 and come up with a consensus bill.

Among the most important compromises in this package is the Justice Assistance Act of 1984. This act probably will have more effect on street crime than all the other anticrime bills put together because it aids State and local law enforcement agencies which handle over 90 percent of the criminal justice workload in this country. The Justice Assistance Act in the conference report on the continuing resolution is virtually the same as passed by the House in H.R. 5690 and includes the compromises painstakingly worked out by the House and Senate during August and September. This act sets up a new Office of Justice programs headed by an Assistant Attorney General to coordinate a newly created Bureau of Justice Assistance [BJA], and the existing agencies—Bureau of Justice Statistics [BJS], the National Institute of Justice [NIJ] and the Office of Juvenile Justice and Delinquency Prevention [OJJDP].

BJS, NIJ, AND OJJDP are reauthorized as independent agencies within the Department of Justice, operating under the general authority of the Attorney General. This act does not change the structure or the independence of these agencies. Thus, BJS and NIJ and OJJDP continue to be headed by Directors who are Presidential appointees. The Directors will continue to have final and exclusive authority to set policy for their agencies by awarding contracts, cooperative agreements, and grants; and these agencies continue to have administrative and personnel authority.

It is also important that the continuing resolution includes a new version of the credit card and computer crime bill which we negotiated with the Senate and which is very similar to H.R. 5616 as passed by the House. At this juncture, I want to comment on the two concerns expressed recently by the ACLU. The first is in regard to the provision in the misdemeanor offense of accessing a Government computer without authorization if one "discloses information in" such a computer. The ACLU was concerned that this prohibition might be used to prosecute "whistleblowers" who attempt to expose fraud and abuse in Government. This concern is based on an improper analysis of the bill. Under the bill, no one commits any offense unless he or she is a trespasser as to the information in question. Whistleblowers, who have lawful access to in-

formation, do not violate this statute even if they do not have authority or approval to disclose the information.

The second concern was about the intent standard under the felony dealing with access to classified information. I would merely reiterate the language in the House report quoting the Supreme Court in *Gorin* v. *U.S.*, (312 U.S. 19, 28), which says: "This requires those prosecuted to have acted in bad faith. The sanctions apply only when scienter is established." This is the intent standard applicable under this subsection.

I am appending two more detailed explanations to this statement to clarify the substance of two other provisions of the anticrime package of this continuing appropriation. The first relates to labor racketeering and the second is a joint statement, representing my views and those of Senator CHARLES MCC. MATHIAS, on trademark counterfeiting. I sincerely believe there are very, very substantial improvements and innovations to the criminal justice system in this package to warrant your support. It's unquestionably the most significant and comprehensive crime package to ever be passed by the Congress.

I especially want to thank the outstanding contributions of many Members of the House. First of all, Chairman RODINO has lent critical support and direction that has enabled this bill to come before us. Second, I must acknowledge that HAL SAWYER, the ranking Republican on the Crime Subcommittee has worked with me tirelessly and selflessly, and with unstinting concern to develop the right policy and to correctly express it. I shall greatly miss his support and his constructive insights, and his warm and generous friendship. Our colleagues on the Crime Subcommittee have put a great deal of their energy into many of these bills: LARRY SMITH and CLAY SHAW, who provided valuable insights in the issues dealing with the problem of illegal drugs; ED FEIGHAN, CHUCK SCHUMER, BRUCE MORRISON, who contributed significantly to the Trademark Counterfeiting Act; and JIM SENSENBRENNER and DAN LUNGREN.

Many of the provisons in this bill were carefully considered by other submcommittees which played key roles. BOB KASTENMEIER, chairman of the Subcomittee on Courts, Civil Liberties and the Administration of Justice, and CARLOS MOORHEAD, the ranking Republican on that subcommittee; and JOHN CONYERS, chairman of the Subcommittee on Criminal Justice, and GEORGE GEKAS, the ranking Republican on that subcommittee, all contributed to this historic legislative achievement.

Other Members laid some of the critical groundwork, and longtime legislative projects of theirs are key provisons in this bill. In particular, RON WYDEN, who has worked closely with the subcommittee on the Armed Career Criminal Act; BILL NELSON, who shared his significant expertise in the Development of the Computer Fraud and Abuse Act; JOE MINISH and JOHN LAFALCE, whose work on the problem of money laundering laid the groundwork for the improvements in the Currency and Foreign Transactions Reporting Act; and MARIO BIAGGI, who has so effectively placed the danger of armor piercing ammunition on the congressional agenda; all are most deserving of credit of the development of this bill.

One Member, NEAL SMITH, who has supported the Nation's law enforcement effort in the appropriations process year after year, deserves enormous thanks from all of us who worked on the specific provisons for his labors on the conference committee that brought forth the compromise between the House and the Senate.

As my colleagues know, a great deal of the work product and the support functions for efforts such as this depend upon the conscientious and dependable efforts of our staffs. I want to thank my staff, chief counsel Hayden Gregory, counsel Eric Sterling, Virginia Sloan, and Ed O'Connell, Theresa Bourgeois, Linda Hall, and Phyllis Henderson, as well as the Republican staff, Charlene Vanlier and Shelva Hoffmann. We were ably assisted by our fine Office of Legal Counsel in the persons of Doug Bellis, Tim Shane, and Jean Harmon. I want to single out the staff director of the Appropriations Subcommittee on State, Justice, Commerce and the Judiciary, John Osthaus, for his tremendous support and his totally professional assistance. I know that he worked though the night with members of my own staff in developing the work product necessary to produce this historical conference report.

I urge your support of the anticrime package of the continuing appropriation.

LABOR RACKETEERING

I offered an amendment to the conferees on House Resolution 648 which would clarify the relationship between the crime legislation attached to that resolution, other Federal legislation regulating the collective-bargaining process, the role of labor organizations in that process, and State laws which provide for disqualification of union officers.

The amendment reads as follows:

SEC. 2201. Notwithstanding this or any other Act regulating labor-management relations, each State shall have the authority to enact and enforce, as part of a comprehensive statutory system to eliminate the threat of pervasive racketeering activity in an industry that is, or over time has been, affected by such activity, a provision of law that applies equally to employers, employees, and collective-bargaining representatives, which provision of law govern service in any position in a local labor organization which acts or seeks to act in that State as a collective-bargaining representative pursuant to the National Labor Relations Act, in the industry that is subject to that program.

The Supreme Court most recently spoke to this general subject in *Brown* v. *Hotel Employees*, — U.S. — (Nos. 83-498 and 83-573; July 2, 1984). The court there held that the New Jersey Casino Control Act, insofar as it provides that an official of a local union which represents employees in the casino hotel industry may be disqualified from acting as such an official, is not preempted by any Federal labor law.

The Court emphasize[d] that this conclusion does not implicate the employees' express § 7 right to select a particular labor union as their collective-bargaining representatives, but only their subsidiary right to select the officials of that union organization. While the Court in *Hill* v. *Florida*, 325 U.S. 538 (1945), apparently assumed that the two rights were undifferentiated and equally protected, our reading of subsequent legislative action indicates that Congress has since distinguished between the two and *has accorded less than absolute protection to the employees' right to choose their union officials.* [Slip Op. 17; emphasis added.]

Both the New Jersey Casino Control Act and the New York Waterfront Commission Act which was its model (and which was sustained in *De Veau* v. *Braistead*, 363 U.S. 144 (1960)) are laws directed at regulating particular industries in which a high risk of criminal conduct had been demonstrated. In both Acts the disqualification of certain individuals from holding union office, from employment and from acting as an employer or supplier, in the words of De Veau "was part of a program * * * to vindicate a legitimate and compelling State interest; namely, the interest in combating local crime infesting a particular industry," 363 U.S. 155. In both instances the Court held that in those circumstances the right granted to employees by section 7 of the National Labor Relations Act to choose the particular individuals who would be union officials in not so absolute as to bar State action to protect against a substantial risk of criminal activity.

In De Veau, the plurality opinion relied on "the light that Congress has shed for our guidance," 363 U.S. at 153, by approving the Waterfront Act as part of an interstate compact between New York and New Jersey. This amendment is, in the same spirit, intended to give authoritative guidance as to the limits on state action in this sensitive area. The amendment will preclude any argument that the enactment of the present bill preempts the provision of the New Jersey Casino Control Act which was sustained in Hotel Employees. By spelling out the characteristics of a State law that is

preserved against preemption, the amendment makes clear that the Federal law that regulates collective bargaining—and that, among other things, grant employees the right to self-organization and the right to select their bargaining agent's officers through free and democratic procedures, and provides for the removal of union officers and agents under specified circumstances—permits the States to enact and enforce disqualification laws which, like the Waterfront Act and the Casino Control Act, are not aimed at organized labor alone but are true antiracketeering measures designed to meet a demonstrated threat of pervasive racketeering activity. These measures meet this threat by, among other things, setting equal standards for determining whether a person who wishes to be an employee, employer or union representative is fit to participate in that industry.

The requirement that State disqualification laws "appl[y] equally to employers, employees, and collective-bargaining representatives" does not mean that the disqualification criteria must be precisely the same no matter what the position in question. The conferees instead intend that there should be equal standards based on such relevant factors as capacity to commit criminal wrongs rather than the irrelevant fact of whether the provision applies to a labor or management position.

JOINT STATEMENT ON TRADEMARK COUNTERFEITING LEGISLATION

On June 28, 1984, the Senate approved S. 875, the Trademark Counterfeiting Act of 1984, whose principal sponsor was Senator CHARLES MCC. MATHIAS, JR., chairman of the Subcommittee on Patents, Copyrights, and Trademarks of the Senate Judiciary Committee. That bill was also sponsored by Judiciary Committee Chairman STROM THURMOND, Senator HOWELL HEFLIN, Senator JOHN WARNER, Senator CHRISTOPHER DODD, Senator ALAN SIMPSON, Senator LOWELL WEICKER, Senator PETE WILSON, Senator CLAIRBORNE PELL, Senator JESSE HELMS, Senator FRANK LAUTENBERG, Senator JOHN CHAFEE, Senator CHIC HECHT, Senator CHARLES PERCY, Senator JOSEPH BIDEN, Senator JAMES ABDNOR, and Senator PATRICK LEAHY.

On September 12, 1984, the House of Representatives approved a similar measure, H.R. 6071, also titled the Trademark Counterfeiting Act of 1984. That bill was sponsored by Representative WILLIAM J. HUGHES, chairman of the Subcommittee on Crime of the House Judiciary Committee, Representative PETER W. RODINO, JR., chairman of the Judiciary Committee, Representative HAROLD SAWYER, ranking Republican member of the Subcommittee on Crime, Representative BRUCE MORRISON, Representative LARRY SMITH, Representative EDWARD FEIGHAN, Representative CHARLES SCHUMER, Representative E. CLAY SHAW, JR., Representative F. JAMES SENSENBRENNER, JR., and Representative NANCY JOHNSON.

The Senate and House bills both aimed at accomplishing three primary changes in the law: First, creation of criminal penalties for intentionally dealing in materials that one knows to be counterfeit; second, authorization for mandatory or virtually mandatory awards of trebel damages and attorney's fees in civil counterfeiting cases; and third, authorization for ex parte court orders for the seizure of counterfeit materials when it can be shown that the defendant would be likely to attempt to conceal or transfer the materials.

The principal sponsors of S. 875 and H.R. 6071 have worked together to draft a compromise bill that incorporates the best features of those two bills. The amendment to House Joint Resolution 648 relating to trademark counterfeiting is the product of those negotiations. It retains the three central features of the House and Senate bills, while harmonizing the technical differences between those bills as passed. The present statement explains the provisions of the compromise bill, although, of course, the reports filed by the Senate and House Judiciary Committees with respect to S. 875 and H.R. 6071 should be consulted as to those matters not discussed in this statement.

There are minor differences between this statement and one placed in the CONGRESSIONAL RECORD, October 4, 1984, S13066-S13072, by the distinguished Senator from Maryland, CHARLES MCC. MATHIAS. The House and Senate sponsors intend this statement to be the final and authoritative explanation of the legislative intent of this act.

U.S. SENATE,
COMMITTEE ON THE JUDICIARY,
Washington, DC, October 9, 1984.

Hon. WILLIAM J. HUGHES,
Chairman, Subcommittee on Crime, Committee on the Judiciary, House of Representatives, Washington, DC.

DEAR REPRESENTATIVE HUGHES: I am writing to confirm our understanding, as the chief sponsors of the Trademark Counterfeiting Act of 1984, about the legislative history of that Act. As you know, we have worked together to prepare a joint Explanatory Statement about this legislation. At the time of Senate passage of the Act, as an amendment to H.J. Res. 648, a draft of this Statement was printed at pages S13066-S13072 in the Congressional Record of October 4, 1984. Since then, we have agreed to certain further modifications of the Statement. The Joint Explanatory Statement that appears in today's Record of House proceedings is the version upon which the Senate and House sponsors of this bill have agreed.

With best wishes,
Sincerely,
CHARLES MCC. MATHIAS, JR.,
U.S. Senator.

As explained more fully below, this act is intended to apply to counterfeits both of registered trademarks and of Olympic designations that are protected under section 110 of the Olympic Charter Act, 36 U.S.C. 380. Unless otherwise indicated, any use of the term "mark" or "trademark" is intended to include Olympic designations. The scope of this act is narrower than current law, in that it creates enhanced penalties only for certain types of egregious conduct prohibited by existing law. The bill does not affect current statutory or common law governing other conduct proscribed by the Lanham Act, or other Federal, State, or local laws relating to trademarks. The same reservation applies to conduct covered by section 110 of the Olympic Charter Act.

The amendments to title 18 of the United States Code that are contained in this bill rely to a great extent on concepts and definitions in the Lanham Act, the basic Federal statute governing trademarks. Unless it does so explicitly, this act does not in any way modify the Lanham Act or judicial interpretations of it.

TITLE 18 AMENDMENT

Both the Senate and House bills called for Federal criminal penalties for persons who intentionally deal in goods or services, or the marks thereon, that they know to be counterfeit. The compromise bill reflects the agreement between the two bills on this point. As did both the House and Senate bills, section 2 of the compromise bill amends chapter 113 of title 18 of the United States Code by adding a new section 2320. Section 2320 provides for criminal penalties for anyone who "intentionally traffics or attempts to traffic in goods or services and knowingly uses a counterfeit mark on or in connection with such goods or services."

This key criminal provision represents a compromise between the Senate and House bills. The Senate bill was drafted to prohibit "trafficking in counterfeit goods or services," while the House bill barred "use of a counterfeit mark" in connection with goods or services. Both the House and Senate sponsors recognize that a mark can be "counterfeit" only if it is used in connection with certain types of goods or services. However, conduct regulated by the Lanham Act relates to "marks" rather than "goods or services"; the sponsors feared that it might create confusion to adopt the terminology of "counterfeit goods or services" in a piecemeal fashion. An overall redrafting of the trademark

laws is an appropriate way to make such changes and is beyond the scope of this legislation.

Like both the House and Senate bills, the compromise bill contains two distinct mental state requirements.

The defendant must be shown, first, to have "intentionally" trafficked in particular goods or services, and second, to have "knowingly" used a counterfeit mark in connection with those goods or services. The requirement that the defendant's trafficking be "intentional" means that the government must show that the defendant trafficked in the goods or services in question deliberately, or "on purpose."

Whether the defendant "knew" that the mark was counterfeit depends on whether he or she had an awareness or a firm belief to that effect. (See H. Rept. 96-1396, 96th Cong., 2d Sess. 33 (1980); S. Rept. 97-307, 97th Cong., 1st Sess. 67-68 (1981).) Of course, if the prosecution proves that the defendant was "willfully blind" to the counterfeit nature of the mark, it will have met its burden of showing "knowledge." (See *United States* v. *Jewell*, 532 F.2d 697 (9th Cir.), *cert. denied*, 426 U.S. 951 (1976); H. Rept. 96-1396, *supra*, at 36; S. Rept. 97-307, *supra*, at 68.) The government need not prove that it was the defendant's "purpose" or "objective" to use counterfeit marks, but merely that he or she knew that he or she was doing so.

The sponsors are aware that discount retail outlets sometimes obtain their merchandise from distributors who are not authorized by the trademark owner to provide those goods to the discount outlets. The sponsors are also aware of the existence of "parellel imports" or "gray market" goods, which are discussed more fully below. Neither of these types of goods are counterfeit within the meaning of this legislation. Because of the existence of these alternative distribution channels for noncounterfeit goods, a trademark owner will not ordinarily be able to establish that a defendant knew that goods bore counterfeit marks solely because the trademark owner informed the defendant that the trademark owner's authorized dealers had not sold the goods to the defendant.

If a person has an honest, good faith belief that the mark in question is not counterfeit, he or she will not be liable under this bill. Thus, a manufacturer who believes in good faith that he or she has a prior right to use a particular mark, or that a mark does not infringe a registered mark, could not be said to "know" that the mark is counterfeit.

The definition of the "counterfeit mark," which is discussed in more detail below, includes the fact that the infringed mark must be registered on the principal register in the U.S. Patent and Trademark Office. This factor was included in the definition of "counterfeit mark" in order to make this act easier to administer by limiting its scope to a clearly defined class of marks. In a criminal prosecution for counterfeiting, however, or in the civil proceedings that are affected by this act, it is irrelevant whether the defendant knew that the mark in question is registered on the principal register in the Patent and Trademark Office. For that reason, the definition of "counterfeit mark" makes clear that it need not be shown that the defendant was aware of a mark's status at the Patent and Trademark Office.

With one exception, the penalties provided by the Senate and House bills are identical. Both bills provided that an individual may be imprisoned for up to 5 years and fined up to $250,000 or both. Both bills also provided that a person other than an individual, such as a corporation, may be fined up to $1,000,000. (The term "person" is defined in 1 U.S.C. 1.) The compromise bill includes an additional provision from the House bill, setting forth increased penalties for second offenders. However, these enhanced penalties may be imposed only when the second violation occurs after the defendant has been convicted of a prior violation. Thus, a defendant who violates section 2320 on two separate instances, but who is not convicted of the first violation until after the second violation, is not subject to the enhanced penalties.

Proposed section 2320 also provides for punishment of a person who attempts to engage in the proscribed conduct. An attempt is punishable at the same level as a completed offense. Through 18 U.S.C. 371, conspiracies to commit an offense under proposed section 2320 are also prohibited.

The sponsors wish to emphasize that the prison terms and fines specified in subsection (a) are maximum penalties, which they do not expect to be routinely imposed. In a case in which a defendant has trafficked in counterfeits that pose a grave danger to the public health and safety, these maximum penalties may be fully warranted. However, the sponsors also recognize that many instances of trademark counterfeiting do not pose these same risks, and in those cases imposition of the maximum penalties may not be warranted. The courts should exercise their discretion in imposing penalties that are appropriate under the circumstances. The sponsors believe, however, that a combination of appropriate prison terms and substantial fines will create a needed deterrent to trademark counterfeiting.

The compromise draft does not include proposed subsection 2320(b) from the House bill, which stated that documents seized in the course of a trademark counterfeiting prosecution are exempt from disclosure under the Freedom of Information Act, 5 U.S.C. 552. That provision has been omitted as unnecessary, because the public interest is adequately protected by the existing exemption in that act relating to disclosure of "investigatory records compiled for law enforcement purposes." 5 U.S.C. 552(b)(7).

Proposed subsection 2320(b). This provision authorizes the United States to obtain an order seeking the destruction of any counterfeit articles acquired by the Government in the course of a counterfeiting prosecution. Before such an order may be granted, the Government must prove by a preponderance of the evidence that the articles actually bear counterfeit marks. Even if the defendant is ultimately acquitted of the criminal charge, there is no valid public policy reason to allow the defendant to retain materials that are in fact counterfeit.

This provision gives the court the same options it has in ordering destructions under 15 U.S.C. 1118. In practice, the courts have often ordered that counterfeit articles be given to charitable institutions or to the Federal Government. If goods are of value, and pose no threat to health or safety, they should be preserved whenever possible, so long as any counterfeit marks are removed.

The Senate bill contained a formal "safe harbor" provision. See proposed subsection 2320(c) of S. 875. This provision was intended to offer a potentially useful option to a manufacturer or merchant who is in doubt about whether a mark that he or she plans to use will infringe the trademark rights of a current registrant. Under the Senate provision, such a person could have taken two steps to ensure that he or she would not be liable for counterfeiting: first, notifying the trademark owner of his or her plans 30 days before implementing them, and second, labeling the goods or materials in question so as to disclaim any connection with the trademark owner. This provision was intended to address the concern of the Department of Justice that some manufacturers might be deterred from legitimate marketing techniques because of fear of potential liability under this act.

This compromise draft does not include this provision, in view of the concern of the House sponsors that the value of this provision had not been clearly shown and that it might offer a loophole to actual counterfeiters. However, a party is free to take, on an informal basis, the same sorts of precautions contemplated by the Senate safe harbor provision. Thus, a party planning to use a particular mark could provide ample advance written notice to the owner of an existing mark about the party's plans to use a similar mark. The party could

also conspicuously label its goods and related materials so as to alert the public to the fact that the goods or services are not offered by the owner of the registered trademark.

If a party takes these steps in good faith, it would be virtually impossible to establish, in either a civil or a criminal case, that he or she "knowingly" used a counterfeit mark. Such a painstaking effort to provide advance notice to the trademark owner and to prevent consumer deception would ordinarily preclude any liability under this act. Of course, if a party were to attempt to take these steps in bad faith, as part of an effort to immunize its trafficking in marks it knew to be counterfeit, these procedures would not prevent that party from being found liable under this act.

A party's failure to use this informal notice and labeling procedure is not evidence that he or she dealt in particular marks knowing that they were counterfeit. Indeed, if one believes in good faith that one has a right to use a particular mark, one will not have acted with "knowledge" that the mark was counterfeit, and will not incur any liability under this act.

A person's use of the informal notice and labeling procedures here described does not exempt that person from liability under the Lanham Act or other Federal, State or local laws. The courts must make an independent assessment of whether a party has violated such laws, and the notice and labeling procedures here described do not provide a generalized immunity from liability under those laws.

DEFENSES

In a civil proceeding under the Lanham Act, a number of defenses, affirmative defenses, and limitations on remedies are applicable. (See, *e.g.*, 15 U.S.C. 1114(2); 15 U.S.C. 1115(b).) Subsection 2320(c) provides that any defense, affirmative defense, or limitation on remedies that would be applicable in an action under the Lanham Act shall be applicable in a prosecution under this section.

"Defense" means any issue as to which the plaintiff has the burden of proof in a Lanham Act case, and "affirmative defense" refers to matters as to which the defendant bears that burden. Under this subsection, allocations of burdens of proof will be identical to those in a comparable Lanham Act case. Thus, any affirmative defense under the Lanham Act will remain an affirmative defense under this Act, which a defendant must prove by a preponderance of the evidence. Should there be any serious doubt about the allocation of the burden of proof on a particular issue under the Lanham Act, the burden should be placed on the Government as to that issue. In addition, should any issue appear to be both an element of the offense and part of an affirmative defense, the conflict should be resolved by placing the burden on the prosecutor.

Among the matters on which the defendant appears to have the burden of proof under the Lanham Act are laches, *see Valmor Products Co.* v. *Standard Products Corp.*, 464 F.2d 200, 204 (1st Cir. 1972), and the "antitrust" defense, *see Coca-Cola Co.* v. *Overland, Inc.*, 692 F.2d 1250, 1256 (9th Cir. 1982); *Union Carbide* v. *Ever-Ready Inc.*, 531 F.2d 366, 389 (7th Cir. 1976) ("the burden of . . . proof is a heavy one on the (defendant)" to establish an antitrust defense).

By "limitation on relief," this act incorporates the protections for innocent printers and publishers that are contained in 15 U.S.C. 1114(2), and any other limitations on relief that may be applicable under the Lanham Act. Of course, as is the case in any legal proceeding, only those defenses, affirmative defenses, and limitations on relief that are relevant under the circumstances will be applicable in a prosecution under this section.

DEFINITION OF "TRAFFICKING"

Subsection 2320(d) provides a definition of the term "trafficking." This definition is derived from a related, recently enacted statute, the Piracy and Counterfeiting Amendments Act of 1982, now codified at 18 U.S.C. 2318(b). Under this definition, the scope of the act is limited to commercial activities. Thus, it is not a crime under this act for an individual knowingly to purchase goods bearing counterfeit marks, if the purchase is for the individual's personal use.

The "for value" clause in the definition of trafficking means that transfers without consideration of goods or materials bearing counterfeit marks are not covered by this section. Of course, consideration can take many forms, and the courts should analyze transactions based on their substance and not on their form.

The definitions of "Lanham Act" and of "Olympic Charter Act" in subsection 2320(d) are self-explanatory.

DEFINITION OF "COUNTERFEIT MARKS"

The proposed act defines "counterfeit mark" in two places—in the criminal code amendment, proposed 18 U.S.C. 2320(d), and in the Lanham Act amendment, proposed 15 U.S.C. 1116(d)(1)(B). This definition is important for three reasons. First, it helps to define the conduct for which the criminal penalties of this act may be imposed. See proposed 18 U.S.C. 2320(a). Second, it identifies the cases in which ex parte seizures are authorized by this act. See proposed 15 U.S.C. 1116(d)(1)(A). Finally, it helps to define the circumstances in which treble damages or profits and attorney's fees are to be awarded in Lanham Act cases, absent extenuating circumstances. See proposed 15 U.S.C. 1117(b).

For technical reasons, the two definitions of "counterfeit mark" differ slightly in their terms, but they are identical in substance. The Lanham Act already contains a definition of the term "counterfeit": a "spurious mark which is identical with, or substantially indistinguishable from, a registered mark." 15 U.S.C. 1127. Because it is part of the Lanham Act, the definition of "counterfeit mark" contained in proposed subsection 1116(1)(B) incorporates the section 1127 definition. By contrast, existing Federal criminal laws contains no definition of "counterfeit" with respect to trademarks; the amendment to title 18 therefore spells out the elements that are included in the section 1127 definition of "counterfeit." (As the Senate bill indicated, "spurious" means "not genuine or authentic.")

Under this act, there are two types of "counterfeit marks." The first is counterfeits of marks that are registered on the principal register of the Patent and Trademark Office and in use, and that are used by the defendant in connection with the same goods or services for which the mark is registered. See proposed 18 U.S.C. 2320(d)(1)(A); proposed 15 U.S.C. 1116(d)(1)(B)(i). The second is spurious designations that are substantially indistinguishable from Olympic designations protected under 36 U.S.C. 380. See proposed 18 U.S.C. 2320(d)(1)(B); proposed 15 U.S.C. 1116(d)(1)(B)(ii). Under this act, Olympic symbols will receive the same protection as will federally registered trademarks, subject to the limitations specified in 36 U.S.C. 380 concerning the protections afforded those symbols.

Proposed subsection 18 U.S.C. 2320(d)(1)(A)(iii) states that a "counterfeit mark" must be one the use of which is likely "to cause confusion, to cause mistake, or to deceive." This is the key phrase in the remedial section of the Lanham Act, 15 U.S.C. 1114, and its inclusion here is intended to ensure that no conduct will be criminalized by this act that does not constitute trademark infringement under the Lanham Act. As a practical matter, however, this element should be easily satisfied if the other elements of a "counterfeit mark" have been proven—since a counterfeit mark is the most egregious example of a mark that is "likely to cause confusion."

Under both the criminal and civil definitions, the term "counterfeit mark" refers to a mark or designation that is "identical with or substantially indistinguishable from" a genuine mark or designation. The definition of "substantially indistinguishable" will need to be elaborated on a case-by-case basis by the courts. *See, e.g., Montres Rolex S.A.* v. *Snyder*, 718 F.2d 524, 530–32 (2d Cir. 1983), 104 S. ct. 1594 (1984).

Obviously, a mark need not be absolutely identical to a genuine mark in order to be considered "counterfeit." Such an interpretation would allow counterfeiters to escape liabilitly by modifying the registered trademarks of their honest competitors in trivial ways. However, the sponsors do not intend to treat as counterfeiting what would formerly have been arguable, but not clear-cut, cases of trademark infringement.

For example, a manufacturer may adopt a mark for its goods that is reminiscent of, although certainly not "substantially indistinguishable from," a trademark used by the "name-brand" manufacturer of the product. Thus, "Prastimol" might be used as the mark for a medication that is the functional equivalent of a product sold under the trademark "Mostimol." Whether or not this sort of imitation violates the Lanham Act or other provisions of law, it does not constitute use of a "counterfeit mark" for purposes of the bill.

The definition of "counterfeit mark" in this Act (other than in cases involving protected Olympic symbols) reaches only instances in which the mark is used in connection with goods or services for which the mark is registered on the principal register in the U.S. Patent and Trademark Office and in use. Thus, this act has no impact on cases in which the allegedly infringed mark is unregistered. In addition, because this act is intended to reach only the most egregious forms of trademark infringement, it does not affect cases in which the defendant uses a registered mark in connection with goods or services for which the mark is not registered. Under the Lanham Act, a plaintiff can sometimes obtain relief against a defendant who uses a mark in connection with goods or services that are "related" to those for which the mark is registered. For example, a plaintiff with a Federal registration for use of the mark "Hopscotch" on typewriters might have a Lanham Act remedy against a defendant who used that mark to identify typing paper, even though the plaintiff had not registered that mark for use in connection with typing paper. Under the present act, however, the use of the mark "Hopscotch" on typing paper would not count as the use of a "counterfeit mark."

The term "counterfeit mark" in this bill also excludes the marks on so-called "parallel imports" or "gray market" goods—that is, trademarked goods legitimately manufactured and sold overseas and then imported into the United States outside the trademark owner's desired distribution channels. (See generally *Bell & Howell: Mamiya Co.* v. *Masel Supply Co.*, 719 F.2d 42 (2d Cir. 1983).) Current Treasury Department regulations permit the importation of such goods when the foreign and domestic owners of the trademark are under common ownership and control. See 19 CFR 133.31(c). This regulation is now being challenged in the courts. (See, e.g., *Vivitar Corp.* v. *United States*, No. 84-1-00067 (U.S. Court of International Trade, slip. op., Aug. 20, 1984); *Osawa & Co.* v. *B & H Photo*, No. 83-6874 (S.D.N.Y., slip op. May 24, 1984); *Coalition to Preserve the Integrity of American Trademarks* v. *United States*, No. 84-0390 (D.D.C., filed Feb. 5, 1984).) Regardless of the status of parallel imports" or "gray market" goods under the Treasury regulations, however, the sponsors do not consider such goods to bear "counterfeit marks" for purposes of this legislation, since the marks on these goods are placed there with the consent of the trademark owner or of a person affiliated with the trademark owner.

The bill also does not extend to imitations of "trade dress," that is the color, shape, or design of a product or of its packaging, unless those features have been registered as trademarks. For example, generic drugs may be manufactured in pills or capsules that resemble the chemically equivalent brand-name product. This practice has generated litigation under the existing provisions of the Lanham Act. See, e.g., *Inwood Laboratories* v. *Ives Laboratories*, 456 U.S. 844 (1982).) Provided that such goods are not sold through use of a counterfeit of a registered trademark, they will not be affected by this legislation. The sponsors do not intend, however, to exempt generic drugs entirely from the scope of this bill. If such a drug were to be marketed through use of a counterfeit mark, this Act would make available the same remedies that would exist in any other counterfeiting case.

Third, the definition of "counterfeit mark" follows the House bill in explicitly excluding marks that are used in connection with so-called "overrun" goods—that is, certain goods produced without authorization by a current licensee of a trademark owner. In this Statement, the term "licensee" will be used to describe a person who has been authorized by a trademark owner to use a particular mark in connection with certain goods or services, whether or not the agreement between the trademark owner and the authorized party is formally titled a "license," The exclusion would cover a case, for example, in which a licensee was authorized to make 500,000 umbrellas bearing a trademark owner's mark, and the licensee without authorization manufactured an additional 500,000 umbrellas bearing that mark during the course of the license. The exemption is not limited to "manufacturing," but extends to any type of production of goods or services, including, for example, agricultural production.

The House report explained the reasoning behind the overrun provision in H.R. 6071 as follows:

> The trademark owner has put the wheels in motion for the manufacturer to make the overruns, and has the means to protect himself or herself. For example, the trademark owner can specify in the contract that the making of overruns shall constitute a breach of contract, and that the manufacturer shall be liable for liquidated damages if overruns are made. The contract might also specify that the trademark owner has the right to inspect the manufacturer's facilities to ensure that overruns are not being made * * * . The contractual and other civil remedies already existing make it inappropriate to criminalize such practices. (H. Rept. 98-997, 98th Cong., 2d Sess. 13 (1984).

The overrun provision contained in the compromise draft has been revised from the provision in the House bill. First, the compromise bill does not create a grace period for persons dealing with former licensees—that is, licensees whose right to manufacture goods bearing a particular mark has been terminated at the time of manufacture. Correspondingly, the language of the House bill concerning the knowledge of the user about the termination of the relationship between the trademark owner and the licensee has been omitted. Finally, the phrase "contractual or other relationship" has been replaced by the phrase "authorized by." This last change in wording is simply intended to clarify the precise nature of the relationship between the trademark owner and the licensee that was described in the House bill.

If a licensee manufactures overruns during the course of a valid license, the marks on those goods will remain noncounterfeit for purposes of this act, whatever changes may later occur in the relationship between the trademark owner and the licensee. Thus, if goods are manufactured during the course of a valid license, and sold after the termination of the license, the marks of those goods remain noncounterfeit. In addition, if one purchases goods or services produced by a former licensee in the good faith belief that the licensee is then authorized to produce that type of goods, one will not know that the goods are counterfeit and will thus not be liable under proposed 18 U.S.C. 2320(A) or 15 U.S.C. 1117(b).

As the House report made clear, the burden will be on the defendant to prove that the goods or services in question fall within the overrun exclusion, under both the criminal and civil provisions. (This allocation of the burden of proof is indicated in both the House bill and the compromise draft by the phrase introducing the overrun exemption: "but such terms does not include * * * .") The compromise bill also follows the House bill in that the overrun exemption does not apply if a licensee produces a type of

goods in connection with which he or she was not authorized to use the trademark in question. Thus, if a licensee is authorized to produce "Zephyr" trenchcoats, but without permission manufactures "Zephyr" wallets, the overrun exception would not apply.

The overrun exclusion in this legislation does not in any way alter or affect any remedy that may now exist under the Lanham Act or other provisions of law for the manufacture or sale of overrun goods. The exclusion is intended simply to exempt those goods from the special penalties available under this bill.

At the suggestion of the Justice Department, neither the Senate nor the House bill included an explicit effect on interstate commerce element. The Department argued that the explicit inclusion of this element was unnecessary, since a Federal nexus exists because the marks protected are federally registered trademarks or Olympic symbols protected by a Federal statute. However, the bill is intended to reach all trafficking in counterfeits that affects interstate commerce, including trafficking that is discovered in its incipiency, such as before counterfeit merchandise has left the factory.

LANHAM ACT AMENDMENT

The amendment to the Lanham Act accomplishes two primary goals: First, it provides statutory authorization for the seizure of counterfeit goods on an ex parte basis under certain circumstances in civil trademark cases; and second, mandates the award of treble damages or profits and attorney's fees in civil cases in which the defendant has been shown to have intentionally used a mark knowing that it is counterfeit, unless the defendant can show the existence of extenuating circumstances.

Both the House and Senate bills contained provisions similar to those included in the compromise draft. The draft follows the structure of the House bill, which the sponsors believe will best harmonize with existing civil trademark remedies.

EX PARTE SEIZURES

The proposed draft amends 15 U.S.C. 1116 by adding a new subsection (d), which explicitly authorizes the Federal courts, in conterfeiting cases and in certain circumstances, to grant seizures of goods and related materials on an ex parte basis. Subsection (d) represents a compromise between the House and Senate provisions on this question.

The purpose of the ex parte seizure provision is to provide victims of trademark counterfeiting with a means of ensuring that the courts are able to exercise their jurisdiction effectively in counterfeiting cases. Testimony before both the House and Senate Judiciary Committees established that many of those who deal in counterfeits make it a practice to destroy or transfer counterfeit merchandise when a day in court is on the horizon. The ex parte seizure procedure is intended to thwart this bad faith tactic, while ensuring ample procedural protections for persons against whom such orders are issued. In essence, both the Senate and House bills permitted issuance of an ex parte seizure order if the applicant could show that the defendant would not comply with a lesser court order, such as a temporary restraining order, and that there was no means of protecting the court's authority other than to seize the property in question on an ex parte basis.

As proposed subsection (d)(1) makes clear, this provision is directed solely at the seizure of goods in trademark counterfeiting cases—that is, in cases involving the use of a counterfeit mark in connection with the "sale, offering for sale, or distribution" of goods or services. Neither the House nor the Senate has studied the use of ex parte seizures in trademark infringement cases involving violations less egregious than counterfeiting, or in other civil cases, such as lawsuits involving copyright infringement or patent infringement. While the compromise bill therefore does not address ex parte seizures in other civil cases, such as trademark cases not involving counterfeits, the sponsors believe that in any ex parte seizure, the courts should bear in mind the policy concerns that lie behind the provisions of this bill and the need to provide procedural protections to persons against whom such seizures are ordered.

The procedures detailed in this section are largely derived from the existing requirements of rule 65 of the Federal Rules of Civil Procedure. Those requirements have been modified in certain respects to conform them to the circumstances peculiar to seizures on an ex parte basis. Except where the provisions of rule 65 are inconsistent with the requirements of this act, however, they will continue to apply, as will traditional principles of equity.

Proposed subsection (d)(1)(A) lists the items that may be confiscated during an ex parte seizure: "goods and counterfeit marks" involved in the described violation, "the means of making such marks," such as plates or molds, and "records documenting the manufacture, sale, or receipt of things involved in such violation." This list is derived from similar provisions in the Senate and House bills.

Proposed subsection 1116(d)(2). This subsection is based on comparable provisions in both S. 875 and H.R. 6071. It provides that an applicant for an ex-parte seizure in a counterfeiting case must first provide such notice as is reasonable under the circumstances to the U.S. attorney for the district in which the order is sought. The compromise provision follows the House draft, with two cahanges. First, the phrase "timely notice" has been replaced with the phrase "such notice as is reasonable under the circumstances." This amendment is intended to emphasize that the amount and type of notice provided to the U.S. attorney will need to be determined according to the particular circumstances of a case.

The second change from the House bill is that the compromise provision specifically provides that the court may deny an application for an ex parte seizure order if the U.S. attorney shows that the public interest in a potential prosecution so requires. This addition is intended to make explicit the clear intent of both S. 875 and H.R. 6071. The sponsors intend that whenever practicable, the views of the U.S. attorney should be sought by the court.

Proposed subsection 1116(d)(3). This subsection lays out the technical requirements for issuance of an ex parte seizure order under this bill. Under this provision, an applicant will need to supply the court with an affidavit or verified complaint containing information supporting the issuance of an ex parte seizure order, and other information specified in proposed subsection (d)(5).

In an ex parte proceeding, the court will have no choice but to rely on the representations of the applicant. For that reason, the court should rely, whenever possible, on statements of fact based on the personal knowledge of the affiant. For example, if an individual employee of a company has personal knowledge of relevant facts, the company should submit an affidavit from that indvidual, rather than relying on the information and belief of the company's counsel.

Of course, in some instances the court may consider allegations based on hearsay. For example, if an attorney has obtained information from a confidential source whose identity cannot be revealed publicly, the court may accept hearsay in an affidavit or verified complaint. See generally C. Wright and A. Miller, Federal Practice and Procedure (civil) section 2952, at 514-16 (1973).

Proposed subsection (d)(4). This subsection is the heart of the ex parte seizure provisions. It lays out the two basic requirements for issuance of an ex parte seizure order: First, provision by the applicant of a bond to ensure that the defendant will be made whole if the seizure should prove to have been wrongful; and second, an adequate showing of the facts that justify issuance of such an order. These provisions will ensure that the rights of defendants under the due process clause are fully respected in ex parte seizures under this act.

Proposed subsection (d)(4)(A). The provision of a bond is one of the critical procedural protections designed to ensure that the defendant's rights are adequately protected during the course of an ex parte seizure. In setting the amount of security, courts should err on the side of caution—that is, toward larger bonds—in light of the need to protect the unrepresented defendant, and to ensure that the defendant will have an effective remedy if he or she is the victim of a wrongful seizure.

Proposed subsection (d)(4)(B). This provision details the findings that a court must make in order to issue an ex parte seizure order under this section. The compromise version draws upon both proposed subsection (d)(4) of the House bill and proposed subsection (f)(4) of the Senate bill.

Under this subsection, the court must find that it "clearly appears from specific facts" that the listed circumstances exist. The quoted language is taken from rule 65 of the Federal Rules of Civil Procedure, and the sponsors intend the same standard of proof applicable under that rule to be applicable in connection with this subsection.

Proposed subsection 1116(d)(4)(B)(i). The first required finding is taken from both the Senate and House bills: The applicant must show that an order less drastic than an ex parte seizure would be inadequate. Thus, the applicant must establish that a temporary restraining order on notice to the defendant, or an ex parte temporary restraining order, would not be adequate to achieve the purposes of the Lanham Act. This provision simply codifies the traditional equitable principle that the court should use the least intrusive remedy that will be effective under the circumstances.

Proposed subsection 1116(d)(4)(B)(ii). The second required finding is that the applicant not have publicized the requested seizure. The reason for this provision is that when a private applicant obtains an order directing law enforcement officials to seize materials from an unrepresented defendant, the applicant should not be permitted to take advantage of the surprise character of the seizure to unfairly injure the reputation of the defendant. For example, it would be highly unfair to a defendant who has been given no advance notice of a seizure if the applicant were to alert the press to the upcoming seizure in an effort to create damaging publicity about the defendant. This provision therefore requires a party seeking an ex parte seizure to certify to the court that it has not publicized the requested seizure. Of course, the sponsors appreciate the first amendment principles that are implicated by this provision, and it should be interpreted consistently with those principles.

Proposed subsection (d)(4)(B)(iii). The third required finding is that the applicant is likely to succeed in showing that the defendant used a counterfeit mark in connection with the sale, offering for sale, or distribution of goods or services. This provision does not require any showing about the defendant's state of mind; it simply requires the applicant to make an adequate showing that the marks in which the defendant is commercially dealing are counterfeit.

Proposed subsection (d)(4)(B)(iv). The fourth required finding, derived from both the Senate and House bills, is that an "immediate and irreparable injury" will occur if a seizure is not ordered. This will not ordinarily be a difficult showing in a counterfeiting case. If the mark in question is likely to be found to be counterfeit, then the applicant will ordinarily be able to show irreparable harm that the goods are likely to be distributed if their seizure is not ordered. The courts have repeatedly held that the distribution of infringing goods constitutes irreparable injury sufficient to order preliminary relief. See, for example, *In Re Vuitton et Fils S.A.*, 606 F.2d 1, 4 (2d Cir. 1979); *Helene Curtis Industries, Inc.* v. *Church & Dwight Co.*, 560 F.2d 1325, 1332–33 (7th Cir. 1977), *cert. denied*, 434 U.S. 1070 (1978); *Omega Importing* v. *Petri-Kine Camera Co.*, 451 F.2d 1190, 1195 (2d Cir. 1971). Since the marks at issue here are not merely infringing but counterfeit marks, this conclusion will be still more easily reached.

Proposed subsection (d)(4)(B)(v). The fifth required finding is that the matter to be seized will be located at the place identified in the application. This provision, too, is derived from similar provisions in both the House and Senate bills. As the House report made clear, it may be difficult for the applicant to identify precisely where the goods or materials in question are located. The courts should thus be flexible in applying this requirement, but should require as great a degree of specificity as is possible under the circumstances, and should not grant orders, for example, permitting seizure to take place "anywhere in downtown Washington, DC."

Proposed subsection (d)(4)(B)(vi). The sixth required finding is that "the harm to the applicant of denying the application outweighs the harm to the legitimate interests of the person against whom such seizure would be ordered of granting the application." In cases in which the other listed requirement are satisfied, the sponsors do not anticipate that this showing will be a difficult one. The hardship to a plaintiff caused by the distribution of goods bearing counterfeit marks will usually be great; a defendant's legitimate interest in retaining counterfeits, which he or she would hide or destroy if notified of the suit, will normally be minimal. *Cf. Atari, Inc.* v. *North American Philips Corp.*, 672 F.2d 607, 620 (7th Cir.), *cert. denied*, 103 S. Ct. 176 (1982); *Corning Glass Works* v. *Jeannette Glass Co.*, 308 F. Supp. 1321, 1328 (S.D.N.Y. 1970), *aff'd*, 432 F.2d 784 (2d Cir. 1970).

Proposed subsection (d)(4)(B)(vii). This provision is the key to obtaining an ex parte seizure order under this act. Its language is adapted from the comparable Senate and House provisions. Both of those provisions required, in essence, that the applicant show that if he or she were to proceed on notice to the defendant, the defendant or persons associated with the defendant would destroy, transfer, or hide the materials in question, or otherwise make them inaccessible to the court's jurisdiction. The proof relevant to this finding will, of course, often overlap with that for the first finding above.

The compromise draft requires that the court find that "the person against whom the seizure would be ordered, or persons acting in concert with such person, would destroy, move, hide, or otherwise make such matter inaccessible to the court, if the applicant were to proceed on notice to such person." The most compelling proof on this point would be evidence that the defendant had acted in bad faith toward the judicial process in the past. A court may, however, consider any other evidence relevant to this determination. As used in this provision, the term "persons acting in concert" with the defendant means persons acting under the direction of, or at the request of, the defendant.

The sponsors wish to emphasize that ex parte seizures are to be ordered only as a last resort. It would not be appropriate to order such a seizure against a reputable merchant, absent unusual circumstances—such as when the applicant can make a particularized showing that the merchant would be likely to defy a court order to maintain the status quo. A reputable businessperson would not be likely to conceal or destroy evidence when notified of a pending lawsuit, and the issuance of an ex parte seizure order against such a person would therefore be wholly inappropriate, absent the unusual circumstances just mentioned. Rather, the sponsors believe that ex parte seizures are a necessary tool to thwart the bad faith efforts of fly by night defendants to evade the jurisdiction of the court.

The sponsors note that three provisions of H.R. 6071 concerning ex parte seizures have been omitted in the compromise draft. The first is the provision in proposed section (d)(1)(A) of H.R. 6071 that an ex parte seizure order may be issued only if the defendant "knew or should have known" that

the items in question were counterfeit. The compromise draft follows the Senate bill on this point, see section (f)(4) of S. 875, for two reasons. The first is set forth in the Senate Report. See Senate Report 98-526, supra, at 17. The second is that the sponsors believe that the "should have known" standard was in essence a negligence standard, and thus was inconsistent with the intention to authorize ex parte seizures only when the defendant will act in bad faith to avoid the court's jurisdiction.

The second significant omission from the House bill is the requirement that the applicant for an ex parte seizure show that "the public interest would not be seriously adversely affected by granting the application." If the other requirements for an ex parte seizure have been met, the U.S. attorney has been duly notified of the pending seizure, and the court has considered whether the public interest in a potential prosecution requires denial of the application, the sponsors believe that the issue of the public interest will already have been resolved.

The third major change from the House bill is that the provisions concerning post-seizure document discovery have been considerably simplified. The sponsors believe that the courts will be able to devise appropriate discovery procedures under the circumstances of each case, consistent with the statutory guidance provided by proposed section (d)(7) of this act, and its explanation herein.

Proposed subsection (d)(5). This subsection sets out the information that must be included in an ex parte seizure order. Subsection (d)(5)(B) requires the applicant to provide a "particular description of the matter to be seized." Here, too, the courts should require the greatest specificity that is possible under the circumstances, but should recognize that circumstances may often make it impossible to list in detail every item that is to be seized.

Under proposed subsection (d)(5)(C), the court must indicate the period during which the seizure order is to be carried out—a period that may not be longer than 7 days. Under proposed subsection (d)(5)(E), the court should set a date for a post-seizure hearing, at a time to be calculated in accordance with proposed subsection (d)(10). Service of the order on the defendant just before execution of the seizure, pursuant to subsection (d)(9), will constitute notice to the defendant of the upcoming hearing.

Proposed subsection (d)(6). This provision directs the court to take appropriate action to protect the defendant from publicity generated by the plaintiff about the seizure of the defendant's goods. Because the unfairness of publicizing a seizure order obtained without the defendant's knowledge forms the basis for limiting the plaintiff's efforts to publicize the seizure, the need for protection will primarily exist before and during the seizure. The use of the term "appropriate" is designed to ensure that any action taken by the court will be consistent with the first amendment.

Proposed subsection (d)(7). This provision requires all materials seized in an ex parte seizure order under this section to be placed in the custody of the court. Under proposed subsection (d)(1), the materials seized may include business records. The sponsors recognize that the seizure of such records poses particularly difficult issues, since such documents may contain sensitive business information. If any records have been seized, therefore, the court should enter an appropriate protective order with respect to discovery of the records. In seeking to protect any privileged information that may be contained in the seized records, the courts should employ whatever procedures are appropriate under the circumstances of the case at hand. The sponsors believe that three procedural devices in particular are worthy of special consideration in this regard.

The first is the use of a third party, chosen by the court or by agreement of all concerned, who can examine the records in question and extract the needed information without revealing privileged matter. *See, e.g., Battle Creek Equipment Co.* v. *Roberts Manufacturing Co.*, 90 F.R.D. 85 (W.D. Mich. 1981); *Triangle Manufacturing Co.* v. *Paramount Bag Manufacturing Co.*, 35 F.R.D. 540 (S.D.N.Y. 1964); F.R. Civ. P. 53 (appointment of special masters). The second is in camera inspection of the key documents. *See Altech Industries, Inc.* v. *Al Tech Specialty Steel Corp.*, 528 F. Supp. 521 (D. Del. 1981). Should the court find that these procedures are inappropriate or not fully satisfactory, a protective order may issue permitting counsel, but not the litigants, to have access to certain information. *See, e.g., Federal Open Market Committee* v. *Merrill*, 443 U.S. 340, 362 n.24 (1979); *Federal Trade Commission* v. *Exxon Corp.*, 636 F.2d 1336, 1349-51 (D.C. Cir. 1980); *Chesa International Ltd.* v. *Fashion Associates*, 425 F. Supp. 234 (S.D.N.Y.), *aff'd*, 573 F.2d 1288 (2d Cir. 1977). (In some instances, it may be appropriate to limit disclosure of certain documents to a party's outside counsel. *See, e.g., Federal Trade Commission* v. *Exxon, supra.*) Needless to say, a solution to the problem of protecting privileged business information from improper disclosure will need to be tailored to the circumstances of each case.

Proposed subsection (d)(8). Like both the Senate and House bills, the compromise version provides that ex parte seizure orders under this section shall be sealed until the defendant has had an opportunity to contest the order. It also provides that once the seizure has taken place, the defendant should, of course, be given an opportunity to see the seizure order and supporting materials.

Proposed subsection (d)(9). As did both S. 875 and H.R. 6071, the compromise draft provides that a U.S. marshal or other law enforcement official shall carry out ex parte seizure orders under this act. When possible, a U.S. marshal should carry out the seizures, but other law enforcement officials may perform seizures under this section if the U.S. marshal is unable to do so in an expeditious manner.

The compromise bill also provides that the court should issue appropriate orders to ensure that trade secrets or other confidential data are not improperly disclosed during the course of the seizure. In particular, the provision authorizes the court, when appropriate, to restrict the access of the applicant or its agents or employees to such information during the course of the seizure.

In preparing such an order, the court should keep in mind two competing considerations. The first is that the law enforcement official who carries out the order may not be sufficiently familiar with the goods or services in question to be able to determine what materials or documents should be seized. For this reason, it may be desirable for the court to permit a representative of the applicant, such as its counsel, to accompany the U.S. marshal to assist in making these determinations. On the other hand, the purpose of the ex parte seizure is to protect materials from destruction or concealment; it is not to permit the plaintiff to bypass the normal discovery process. If an applicant is permitted unlimited access to the defendant's documents during a seizure, later protective orders issued during the discovery process may be of little value.

The sponsors believe that the courts can reconcile these two goals by issuing appropriate orders, based on all the circumstances of the case, that will provide the law enforcement officials with sufficient information to carry out the seizure while not jeopardizing the operation of the normal discovery process or the confidentiality of the defendant's business records and other materials. The act leaves to the sound discretion of the court the determination of how best to achieve these goals. One preferred method would be for the court to ask the applicant's counsel, whether or not he or she accompanies the law enforcement officials who execute the seizure, to provide the officials with a "checklist" of matters to be seized, and with other needed information.

The compromise draft does not include the provision in proposed subsection (d)(10) of the House bill calling for application of certain procedures under the Federal Rules of Criminal Procedure. The sponsors determined that the application of these complex rules might needlessly complicate ex parte seizures under this act. However, the courts are free to employ appropriate procedures to accomplish the general purposes of the omitted House provision.

Proposed subsection (d)(10). This provision requires the court to hold a noticed hearing on the propriety of the seizure order. The defendant will have received notice of the hearing by service of the seizure order. The hearing may be waived, if all parties agree.

The hearing must be held no sooner than 10 days after issuance of the seizure order, unless the parties agree to hold it sooner, and no later than 15 days, after the issuance of the order. The flexibility of the hearing date is intended to accommodate the 7-day period after issuance of the order during which the seizure may be executed.

Of course, either party may request a delay in the hearing. The plaintiff must show good cause for a continuance, since at this point in the proceedings the hardship is upon the defendant whose goods have been seized. For the same reason, it is not necessary for the defendant to show cause for a continuance.

At the hearing, the plaintiff will have the burden of showing that the seizure order was justified and that it continues to be justifiable to hold the defendant's goods or other materials. In many instances, there may be no significant new evidence on this issue, and the plaintiff's proof may simply consist of the same evidence presented at the ex parte hearing, along with proof that those facts have not changed. If the plaintiff is unable to show that continuation of the seizure order is justified, however, the seizure order should be dissolved or modified appropriately.

Of course, the court has the power to retain goods that are proven to be counterfeit. If the defendant does not contest this issue, the court should deal with the goods pursuant to 15 U.S.C. 1118.

Paragraph (B) of this subsection permits the courts to modify normal discovery time limits, if necessary, to accommodate the expedited hearing schedule. This provision follows similar language in both the Senate and House bills.

Proposed subsection (d)(11). The sponsors recognize that ex parte seizure orders are an extraordinary remedy, and that a person who is subject to a wrongful ex parte seizure should be fully compensated by the party who obtained the seizure order. A court should award such a victim all appropriate damages, including compensation for lost goods or materials, damage to the defendant's good will, and all other elements of actual damage. For example, if a merchant were to obtain a seizure order in order to harass a legitimate competitor and to accrue additional business for itself, the court should award damages based on the applicant's unjust enrichment. Indeed, whenever a seizure order is obtained in bad faith, the applicant should be required to pay all appropriate damages, including such punitive damages as the trier of fact finds appropriate. In addition, unless the court finds extenuating circumstances, a victim of a wrongful seizure should be awarded a reasonable attorney's fee.

The term "wrongful seizure" was intentionally left undefined in both the Senate and House bills, in the belief that the courts will best be able to interpret this phrase under the circumstances of each individual case, and in light of precedents under rule 65 of the Federal rules of Civil Procedure, However, a few rules of thumb can be outlined. The first is that the mere fact that a few legitimate items may have been seized does not make the seizure as a whole wrongful; otherwise, a counterfeiter could ensure that any seizure of its counterfeit merchandise would be "wrongful" simply by mingling a few genuine items with his or her inventory of fakes. The second is that a seizure will be considered wrongful if the applicant acted in bad faith in seeking it. For example, it would obviously constitute bad faith for an applicant to seek a seizure order in an effort to prevent the sale of legitimate merchandise at discount prices. Similarly, it would constitute bad faith for an applicant deliberately to defy a court order limiting its access to confidential documents seized from the defendant.

Third, a seizure must be considered "wrongful" if the matter seized is legitimate, noninfringing merchandise. In such a case, even if the plaintiff acted in good faith, the defendant should be compensated for his or her losses caused by the plaintiff's use of an ex parte process. Beyond these principles, the act leaves the definition of "wrongful seizure" to case-by-case interpretation in light of rule 65 and other precedents.

The compromise bill adopts the provision of the Senate bill with respect to awards of prejudgment interest on damages for wrongful seizures. See proposed section 2320)d)(2) of S. 875. The purpose of this provision, and of the comparable provision in proposed 15 U.S.C. 1117(b), is to ensure that an injured party is made whole by the relief that he or she is granted, and to discourage dilatory tactics in litigation under this act.

TREBLE DAMAGES AND ATTORNEY'S FEES

The Senate bill called for an automatic award of treble damages and attorney's fees to plaintiffs upon a showing that the defendant had "intentionally trafficked in goods or services" knowing them to be counterfeit. The House provision spoke in terms of "use" of a mark or designation, and gave the court discretion to reduce the award against the defendant in the event of "extenuating circumstances." (In this statement, the phrase "treble damages" is used as shorthand for "treble damages or profits." See 15 U.S.C. 1117).

The Senate sponsors have agreed to the House language concerning "extenuating circumstances," on the understanding that it will be a rare case in which a defendant who has trafficked in goods or services using a mark that he or she knows to be counterfeit can show that he or she should not be assessed treble damages. Once the other requirements for an award of treble damages or profits under section 1117(b) are met that is, intentional use knowing that the mark is counterfeit), it is a very unlikely that there will be any "extenuating circumstances" that will warrant lessening the amount of the reward. In highly unusual instances, however, the court may be warranted in reducing the treble damages and attorney's fees to which the plaintiff would otherwise be entitled. For example, it may not be appropriate to impose treble damages and attorney's fees when the defendant is an unsophisticated individual, operating on a small scale, whose conduct posed no risk to the public's health or safety, and for whom the imposition of treble damages would mean that he or she would be unable to support his or her family.

The act amends 15 U.S.C. 1117, the Lanham Act provision that governs recoveries in trademark cases. For purposes of clarity, the act creates a new subsection 1117(b) relating exclusively to recovery in counterfeiting cases. The provisions of subsection (a) remain applicable in counterfeiting cases except insofar as they are inconsistent with subsection (b). Thus, the sentence of section 1117 that reads "Such sum * * * shall constitute compensation and not a penalty" is inapplicable in counterfeiting cases, since one of the purposes of treble damage awards for intentional dealing in known counterfeits is to provide an adequate penalty for such conduct. (See S. Rept. 98-526, supra, at 6.)

Both the Senate and the House bills provided for a two-part mental state requirement: that the defendant be shown to have acted "intentionally" in dealing in the goods or materials in question, and to have "known" that the items were counterfeit. The compromise bill retains that two-part test.

The comments above concerning the mental state provision of the criminal code amendment are equally applicable here, except that, of course, the standard of proof in a civil case will be "by a preponderance of the evidence" rather than "beyond a reasonable doubt."

The Senate bill called for a mandatory award of reasonable investigator's fees to successful plaintiffs in counterfeiting cases. This provision has been omitted from the compromise bill, because of the concern of the House sponsors that such a provision might set an undersirable precedent. To the extent that an investigator acts under the direction of an attorney, however, his or her fees may be recovered by a prevailing plaintiff as part of an award of attorney's fees.

Here too, the compromise bill adopts the comparable Senate provision concerning prejudgment interest on awards. (See subsection 2320(d)(2) of S. 875.)

The sponsors wish to discourage frivolous allegations of counterfeiting in trademark infringement suits, and to prevent a demand for "counterfeiting treble damages" from becoming a "boilerplate" request in ordinary trademark infringement suits. Should a plaintiff seek treble damages for "intentional use" of a "known counterfeit" in a case in which the mark in question is clearly not counterfeit, it would be appropriate to require the plaintiff to pay the defendant's attorney's fees with respect to that portion of the lawsuit. See 15 U.S.C. 1117 ("The court in exceptional cases may award reasonable attorney's fees to the prevailing party.") For purposes of this act, if the court determines that an allegation of counterfeiting was frivolous, the defendant shall be considered a "prevailing party" with respect to that allegation for purposes of section 1117.

Of course, this provision is not intended to reverse the usual principles of the Federal Rules of Civil Procedure with respect to "notice pleading." In particular, it may be difficult for a plaintiff to be certain, at the time of filing a complaint, whether the defendant knew that particular goods bore counterfeit marks. It may be easier to determine at the outset of a lawsuit whether, for example, a mark could plausibly be considered "substantially identical" to a registered mark. The court should take these and other relevant factors into account in determining whether to award attorney's fees to a prevailing defendant on the basis that an allegation of counterfeiting was frivolous.

Proposed 15 U.S.C. 1118. This provision amends 15 U.S.C. 1118 to require a party seeking the destruction of articles seized under the ex parte procedures of this act to give 10 days' notice to the U.S. attorney before doing so, unless the party can show good cause for giving lesser notice. The destruction of the offending articles will rarely be an emergency matter, and the sponsors therefore expect that the full 10-day notice should ordinarily be given.

● Mr. RODINO. Mr. Speaker, I want to address myself to a portion of the continuing resolution that for many years I have sponsored and worked for, the chapter that makes Federal money available to the States to aid them in helping the innocent victims of crime. Congress has come close to enacting such legislation in the past, but has never done so.

My interest—and the House Judiciary Committee's interest—in helping crime victims has not waned over the years, however. Last term, I authorized legislation that unanimously passed both Houses of Congress and was signed into law as the Victim and Witness Protection Act of 1982. That act strengthened Federal laws protecting victims and witnesses from intimidation and retaliation; required Federal courts to consider a victim impact statement when determining sentence; and made restitution a separate criminal punishment that could be imposed in addition to or in lieu of any other punishment.

Last year, together with some 50 colleagues, I introduced H.R. 3498, the Victims of Crime Act of 1983, which calls for Federal aid for State crime victim compensation programs and for programs that offer services and assistance to crime victims. The Judiciary Committee's Subcommittee on Criminal Justice, under the leadership of our colleague from Michigan [Mr. CONYERS] held extensive hearings on the bill and on an administration proposal sponsored by the gentleman from New York [Mr. FISH].

The other body early last August passed a modified version of the administration bill, and shortly after that I began negotiations with the administration and the leadership of the other body's Judiciary Committee. Those negotiations successfully resolved the differences among the three bills—H.R. 3498, the administration bill, and the bill passed by the other body. I introduced the compromise that we worked out—H.R. 6403—which was also included in the crime package amendments to H.R. 5690 that were approved by the House on Tuesday, October 2. The other body attached the compromise to the continuing resolution, and the House's conferees agreed to accept the language.

There are two features of the compromise that I particularly want to bring my colleague's attention. The first concerns the excise tax on handguns, the Pittman-Robertson tax H.R. 3498 utilizes the proceeds of this tax to help crime victims, as suggested by President Reagan's Task Force on Victims of Crime. As the President's task force stated in its final report:

> There is little if any relation between handguns and hunting or wildlife activity. There is a substantial relationship, however, between handguns and the commission of violent crime * * * The implementation of this suggestion [that the handgun excise tax be used to fund victim assistance programs] will not unduly impede the contribution made to hunters and wildlife protection by the Pittman-Robertson Fund, will substantially assist victims whose pressing needs are not now being met, and will direct the proceeds of this tax to a goal more closely related to the items that give rise to the revenue.

The administration, unfortunately, backed away from this recommendation, and the bill passed by the other body does not call for the use of the handgun excise tax to help crime victims. In order to fashion a compromise bill that could be enacted this term, I agreed not to push for the use of that tax, and the compromise does not derive any revenue from that source.

The second matter I want to bring to my colleague's attention is what is often called a Son of Sam provision. A number of States have enacted such provisions, which confiscate proceeds from the sale of literary and entertainment rights about a crime.

As noted by the conferees on a crime victim compensation bill in the 95th Congress:

> "Such provisions raise serious constitutional questions." H.R. Rep. No. 1762, 95th Cong., 2d Sess. 10 (1978) (citing a memorandum by the American Law Division of the Library of Congress' Congressional Research Service). See Note, "Criminals-Turned-Authors: Victims' Rights v. Freedom of Speech," 54 Indiana L.J. 443 (1979); Note, "Compensating the Victim from the Proceeds of the Criminal's Story—The Constitutionality of the New York Approach," 14 Columbia J. of L. & Soc. Prob's 93 (1978). These constitutional problems are particularly acute in the Administration bill and the bill passed by the other body. See 130 CONGRESSIONAL RECORD 23800 Aug. 10, 1984) (remarks of Senator MATHIAS).

The provision in the compromise seeks to avoid constitutional problems in a variety of ways. First, the provision applies only after there has been a conviction. It does not apply to persons simply charged with an offense. Second, it applies only to conviction of Federal offenses resulting in physical harm to an individual. One of the prime concerns underlying the first amendment is ensuring that political debate be open, robust, and complete. It is clear that accounts of violent criminal acts are not central to that first amendment concern. Finally, the compromise provision leaves the court with sufficient discretion for it to take into account any constitutional considerations.

In order that my colleagues will know how the crime victim compensation and assistance chapter will work,

I am including at this point in the RECORD a section-by-section analysis of that chapter:

SECTION-BY-SECTION ANALYSIS OF CHAPTER XIV OF TITLE II OF H.J. RES. 648

Section 1401 of the bill provides that the short title of the chapter is the "Victims of Crime Act of 1984."

Section 1402: Crime Victims Fund.—Section 1402(a) establishes a separate account in the Treasury of the United States to be known as the "Crime Victims Fund." Section 1402(b) sets forth four sources of money for the Fund.

Section 1402(b)(1) provides that, subject to the limitation in section 1402(c), all fines collected from persons convicted of "offenses against the United States" will be deposited in the Fund, except for certain fines that are currently earmarked for special uses. The fines that will not be deposited in the Fund are: fines available for use by the Secretary of the Treasury under section 11(d) of the Endangered Species Act (16 U.S.C. 1540(d)) and section 6(d) of the Lacey Act Amendments of 1981 (16 U.S.C. 3375(d)); fines paid into the railroad unemployment insurance account pursuant to the Railroad Unemployment Insurance Act (45 U.S.C. 351 et seq.); fines paid into the Postal Service Fund pursuant to 39 U.S.C. 2601(a)(2) and 2003 and for the purposes set forth in 39 U.S.C. 404(a)(8); fines paid into the navigable waters revolving fund pursuant to section 311 of the Federal Water Pollution Control Act (33 U.S.C. 1321); and fines paid into the county public school funds pursuant to 18 U.S.C. 3613.

Section 1402(b)(2) provides that penalty assessments collected under 18 U.S.C. 3013 will (subject to the limitation in section 1402(c)) be deposited in the Fund. This penalty assessment is new to Federal law and is added by section 1405.

Section 1402(b)(3) provides that, subject to the limitation in section 1402(c), the proceeds from forfeited appearance and bail bonds and forfeited collateral will go into the Fund. Section 1402(b)(4) provides that, subject to the limitation in section 1402(c), forfeitures ordered under 18 U.S.C. chapter 232 will be deposited in the Fund. Chapter 232 of title 18 is new to Federal law and is added by section 1406.

Section 1402(c)(1) provides that no more than $100 million may be deposited in the Fund during any particular fiscal year. All revenue in excess of that amount is to be deposited in the general fund of the Treasury.[1] Section 1402(c)(2) sunsets the Fund by providing that no money shall be deposited in the Fund after September 30, 1988.

Section 1402(d)(1) provides that sums deposited in the Fund will remain in the Fund and be available for grants under the legislation without fiscal year limitation.[2] Section 1402(d)(2) provides that 50% of the money deposited in the Fund during the fiscal year will be available for victim compensation grants under section 1403 and 50% will be available for victim assistance grants under section 1404.

Section 1402(e) limits the time within which a grant under the legislation must be spent. It provides that any funds awarded as part of a grant that are unspent at the end of the fiscal year in which the grant is made, must be obligated during the next fiscal year or else returned to the general fund of the Treasury.

Footnotes at end of article.

Section 1402(f) defines the term "offenses against the United States" as used in section 1402 to exclude (1) criminal violations of the Uniform Code of Military Justice (10 U.S.C. 801 et seq.), (2) offenses against the laws of the District of Columbia, and (3) offenses triable by Indian tribal courts or Courts of Indian Offenses.

Section 1403: Crime Victim Compensation.—Section 1403(a) establishes a grant program to reimburse States for a portion of the compensation they pay to victims of crime. Section 1403(a)(1) provides that the Attorney General must make an annual grant to an eligible crime victim compensation program of 35% of the compensation paid to crime victims during the preceding year, other than compensation awarded for property damage. Section 1403(a)(1) also requires that the recipient of the grant use the grant only for the purpose of making further compensation awards.

Section 1403(a)(2) provides for the contingency that there may not be enough money in the Fund to permit a grant of 35% for each eligible crime victim compensation program. In such a contingency, the percentage will be reduced so that each State will receive the same percentage of the compensation paid to crime victims during the preceding fiscal year (other than compensation paid for property damage).[3]

Section 1403(b) sets forth six criteria that a crime victim compensation program must meet in order to be eligible for a grant under the legislation. Section 1403(b)(1) requires that the program be operated by a State and offer compensation to victims of crime and survivors of victims of crime for (A) medical expenses, including expenses for mental health counseling and care, that are attributable to a physical injury resulting from a "compensable crime" (which is defined in section 1403(d)(3)); (B) loss of wages attributable to a physical injury resulting from a compensable crime; and (C) funeral expenses attributable to a death resulting from a compensable crime.[4]

Section 1403(b)(2) requires that the program promote victim cooperation with the reasonable requests of law enforcement authorities. Section 1403(b)(3) requires that the State certify that crime victim compensation grants received under the legislation will not be used to supplant State funds otherwise available to provide crime victim compensation.[5]

Section 1403(b)(4) requires that the program not discriminate against nonresidents of the State. A number of State programs will compensate a victim only if that person is a resident of that State.[6] This provision will make the crime victim compensation programs of such States ineligible for grants under section 1403.

Section 1403(b)(5) requires that the program compensate a victim of a crime occurring within the boundaries of the State that falls within the exclusive Federal jurisdiction to prosecute, to the extent that such victim would have been compensated had the crime been a State crime. Section 1403(b)(6) requires that the program provide any other information and assurances related to the purposes of section 1403 that the Attorney General reasonably requires.

Section 1403(d) defines four terms used in section 1403. Section 1403(d)(1) defines "property damage" to exclude damage to prosthetic devices (such as artificial limbs) and dental devices (such as false teeth). Section 1403(d)(2) defines the term "medical expenses" to include, to the extent that the State crime victim compensation program so provides, expenses for dental services and devices and prosthetic devices, and for services rendered in accordance with a method of healing recognized by the law of the State.[7] Section 1403(d)(3) defines "compensable crime" to mean a crime whose victims are eligible for compensation under the eligible crime victim compensation program. Thus, each State is free to decide for itself those crimes to be covered by its crime victim compensation program. Section 1403(d)(4) defines "State" to include the District of Columbia, the Commonwealth of Puerto Rico, and any other possession or territory of the United States.

Section 1404: Crime Victim Assistance.—Section 1404(a)(1) requires the Attorney General to make an annual grant to the chief executive of each State for the financial support of eligible crime victim assistance programs.[8] These grants are subject to the availability of money in the Fund and are to be made from the total amounts available in the Fund after deducting the amounts needed for grants under section 1403 (which cannot exceed one-half of the Fund) and under section 1404(c) (which cannot exceed 5% of the total amount in the Fund). Under this formula, the States may well receive more than half of the total Fund as grants under section 1404(a).[9] Section 1404(a)(1) also requires that the grant be used only for the purpose of aiding programs that provide services to victims of crime.[10]

Section 1404(a)(2) sets forth conditions that a State's chief executive must comply with in order to receive a crime victim assistance grant under the legislation. Section 1404(a)(2)(A) requires that the chief executive certify that three types of crime victim assistance programs—those serving victims of sexual assault, spousal abuse, and child abuse—will receive priority in the distribution of grant money withing the State.[11]

Section 1404(a)(2)(B) requires that the chief executive certify that funds awarded to eligible crime victim assistance programs will not be used to supplant State and local funds otherwise available for crime victim assistance. This provision parallels section 1403(b)(3), which imposes a similar obligation upon eligible crime victim compensation programs.

Section 1404(a)(2)C) requires that the chief executive provide other information related to the purposes of section 1404 that the Attorney General reasonably requires.

Section 1404(a)(3) sets forth the formula for distributing crime victim assistance grants to the States. Section 1440(1)(3)(A) provides that each State, the District of Columbia, and the Commonwealth of Puerto Rico will receive $100,000. Section 1404(a)(3)(B) provides that the remainder of the Fund available for grants under section 1404(a) will be distributed to the States on the basis of population.[12]

Section 1404(a)(4) provides for the contingency that money in the Fund available for distribution under section 1404(a) might not be sufficient to provide each State with $100,000 under section 1404(a)(3)(A). In that contingency, the money available will be distributed equally among the States, the District of Columbia, and the Commonwealth of Puerto Rico.

Section 1404(b) set forth five criteria that a crime victim assistance program must meet in order to be eligible for financial assistance under section 1404(a). Section 1404(b)(1)(A) requires that the program provide services to victims of crime and be operated by a public agency (an agency of

State or local Government), by a private, nonprofit organization, or by a combination of such entities.

Section 1404(b)(1)(B) requires that the program demonstrate either (i) a record of providing effective services to victims of crime and financial support from sources other than the Fund,[13] or (ii) substantial financial support from sources other than the Fund.[14] Section 1404(b)(1)(C) requires that the program utilize volunteers in its operations, unless (and to the extent that) the chief executive determines that compelling reasons exist that justify waiving this requirement. This is compromise between a provision in H.R. 3498, which required that recipient crime victim assistance programs to utilize volunteers, and a provision in S. 2423, which merely required that the recipient promote, "to the extent practicable," the use of volunteers. The hearings of the Subcommittee on Criminal Justice underscored the importance of volunteers to victim assistance programs.[15] However, in rare instances there may be a compelling reason why volunteers cannot be utilized. Section 1404(b)(1)(C), therefore, carries forward the provision of H.R. 3498 with a narrow exception. This exception permits a chief executive to waive the requirement that volunteers be used if (and only to the extent that) the chief executive determines that there are compelling reasons for doing so.[16]

Section 1404(b)(1)(D) requires that the program promote, within the community served by that program, coordinated public and private efforts to aid crime victims, and section 1404(b)(1)(E) requires that the program assist potential recipients in seeking crime victim compensation benefits.

Section 1404(b)(2) requires that an eligible crime victim assistance program that receives money under the legislation spend the money only for providing services to crime victims. This parallels section 1403(a)(1).

Section 1404(c) permits the Attorney General to make a part of the Fund available for expenditure by Federal agencies for the purpose of assisting victims of Federal crimes. Section 1404(c)(1) authorizes the Attorney General to make up to 5% of the money deposited in the Fund in any particular fiscal year available for such use. The Attorney General can spend the money available for this purpose for services provided by the Department of Justice or for reimbursing other Federal agencies for their expenditures for this purpose, if those expenditures were for services that such agencies were otherwise authorized to provide.

Section 1404(c)(2) requires the Attorney General to appoint a Justice Department official to be the Federal Crime Victim Assistance Administrator and exercise the Attorney General's responsibilities under section 1404(c).

Section 1404(c)(3) sets forth duties of the Administrator. The Administrator is responsible for monitoring compliance with guidelines for the fair treatment of crime victims and witnesses issued under section 6 of the Victim and Witness Protection Act of 1982. The Administrator must consult with the heads of Federal law enforcement agencies that have responsibilities affecting crime victims, and coordinate services to crime victims provided by the Federal Government with such services offered by other public agencies and nonprofit organizations. In addition, the Administrator is to perform such other functions related to the purposes of the legislation as the Attorney General assigns.

Section 1404(c)(4) authorizes the Attorney General to reimburse Federal agencies for expenditures incurred as the result of the performance of functions authorized by section 1404, or to contract for the performance of such functions.

Section 1401(d) defines five terms used in section 1404. Section 1404(d)(1) defines "State" to include the District of Columbia, the Commonwealth of Puerto Rico, and (except for the purposes of section 1404(a)(3)(A) and 1404(a)(4)) any other territory or possession of the United States.

Section 1404(d)(2) defines "services to victims of crime" to include crisis intervention services; providing, in an emergency, transportation to court, short-term child care services, and temporary housing and security measures; assistance in participating in criminal justice proceedings; and payment of all reasonable costs for a forensic medical examination of a crime victim, to the extent that such costs are otherwise not reimbursed or paid. Section 1404(d)(3) defines the term "services to victims of Federal crime" to mean services to victims of crime (as defined in section 1404(d)(2)) that are provided to persons who are the victims of Federal crime, and to include: (A) training law enforcement personnel in the delivery of services to victims of Federal crimes; (B) preparing, publishing, and distributing informational materials setting forth services offered to victims of crime and concerning services to victims of Federal crime for use by law enforcement personnel; and salaries of personnel who provide services to victims of crime, but only to the extent that the personnel provide such services.

Section 1404(d)(4) defines the term "crisis intervention services" to mean counseling to provide emotional support in crises arising from the occurrence of crime, and section 1404(d)(5) defines the term "chief executive" to include a person designated by a chief executive to perform the functions of the chief executive under section 1404.

Section 1405: Penalty Assessment.—Section 1405(a) adds a new provision (section 3013) to title 18 of the United States Code that imposes a financial penalty upon persons convicted of an offense against the United States.[17] New section 3013(a)(1) of title 18 requires Federal courts to impose, for conviction of a misdemeanor, a penalty of $25 if the defendant is an individual and $100 if the defendant is an organization (such as a corporation or union). New section 3013(a)(2) requires Federal courts to impose, for conviction of a felony, a penalty of $50 if the defendant is an individual and $200 if the defendant is an organization.[18] New section 3013(b) provides that such penalties are to be collected in the same manner as Federal criminal fines are collected.

Section 1405(b) amends the table of sections for chapter 201 of title 18 of the United States Code to include an entry for new section 3013.

Section 1406: Special Forfeiture of Collateral Profits of Crime.—Section 1406(a) amends title 18 of the United States Code by adding a new chapter (232), entitled "Special Forfeiture of Collateral Profits of Crime." New chapter 232 contains two sections, 3630 ("Order of special forfeiture") and 3631 ("Notice to victims of order of special forfeiture").

New chapter 232 seeks to assure that convicted defendants do not unjustly enrich themselves by the sale of literary, movie, and entertainment rights about their crimes. Such provisions, especially when they apply to persons simply charged with a crime and thus entitled to be presumed innocent, present important Constitutional problems, including problems under the First Amendment and the due process clause.[19]

Moreover, as Senator Mathias noted during the debate on the bill passed by the other body, "Sometimes we overlook the fact that the writings of criminal defendants have played an important role in our society and culture. When college students delve into the dialog of Plato, such as the "Apology" or the "Crito," they glean the wisdom of a convicted defendant—Socrates. . . ."[20] The writings of someone convicted of a crime may be an important source of information about subjects of public concern, especially where the crime involved relates to public corruption.

New chapter 232 seeks to accommodate the Constitutional concerns. The new chapter applies only to persons convicted of a Federal crime, not to persons charged with a Federal crime. The offenses to which the new chapter applies—offenses that result in physical harm to an individual—are less likely to be central to political debate than are other crimes (such as those involving fraud or corruption). Moreover, the new chapter vests Federal courts with considerable discretion, not only in deciding whether to order a forefeiture, but also in deciding upon the disposition of the forfeited proceeds.[21]

New section 3630(a) authorizes the United States attorney to request, by motion and after notice to any interested party (as defined in section 3630(d)), that a Federal court order a defendant convicted of a Federal crime resulting in physical harm to an individual to forfeit all or any part of proceeds received or to be received by the defendant (or a transferee of the defendant) from a contract relating to a depiction of such crime in a movie, book, newspaper, magazine, radio or television production, or live entertainment of any kind, or an expression of that defendant's thoughts, opinions, or emotions regarding such crime. The court must order such a forfeiture if the court determines that the interest of justice or an order of restitution so requires.

New section 3630(b) provides that an order of special forfeiture must require that the person with whom the defendant contracts pay to the Attorney General any proceeds due the defendant under the contract.

New section 3630(c)(1) requires that these proceeds be retained in escrow in the Crime Victims Fund for five years after the date of the order. During that time, the proceeds in escrow may be paid out for four purposes. The proceeds may be levied upon to satisfy (i) a money judgment against the defendant issued by a Federal court in favor of a victim of an offense for which the defendant has been convicted (or a legal representative of such victim), or (ii) a fine imposed by a Federal court. In addition, the court ordering the forfeiture may, if it finds that the interest of justice so requires, order that the proceeds be used (i) to satisfy a money judgment against the defendant issued by any court in favor of a victim of an offense for which the defendant has been convicted (or a legal representative of such a victim), or (ii) to pay for legal representation of the defendant in matters arising from the offense for which the defendant has been convicted (but no more than 20 percent of the proceeds may be so used).[22]

New section 3630(c)(2) requires that, at the end of the five year escrow period, the

court issuing the order of special forfeiture determine the disposition of any proceeds remaining in escrow. The court can order that all such proceeds be paid into the Crime Victims Fund or be returned to the defendant, or that such proceeds be divided, as specified by the court, between the Fund and the defendant.

New section 3630(d) defines "interested party" to include the defendant, any transferee of proceeds due the defendant under the contract, the person with whom the defendant has contracted, and any person physically harmed as a result of the offense for which the defendant has been convicted.

New section 3631 requires the United States attorney, within 30 days after issuance of an order of special forfeiture under new section 3630, and at such other times as the Attorney General requires, to publish a notice about the order in a newspaper of general circulation in the district in which occurred the offense for which the defendant was convicted. The notice must include (1) the defendant's name and other identifying information about the defendant (such as the defendant's address at the time of the offense and at the time of trial); (2) the offense of conviction; and (3) a statement that the court has ordered a special forfeiture, the proceeds of which can be used to satisfy a money judgment against the defendant obtained by a victim of an offense for which the defendant has been convicted.

Section 1406(b) amends the table of sections for part II of title 18 of the United States Code to add an entry for new chapter 232.

Section 1407: Administrative Provisions.—Section 1407(a) authorizes the Attorney General to (1) issues such rules as are necessary to carry out the Attorney General's functions under the legislation, and (2) delegate to any Justice Department officer or employee any such function that the Attrorney general deems appropriate.

Section 1407(b) requires the recipients of money under the legislation to keep such records as the Attorney General prescribes, including records that fully disclose the amount of money received and the disposition of that money, the total cost of the undertaking for which the money used, and the amount of cost of that undertaking supplied by other sources of money; and other records that will facilitate an effective audit.

Section 1407(c) provides that the Attorney General (or a duly authorized representative) will have access (for audit and examination) to any book, document, paper, or record of the recipient of money under the legislation that may be related to the expenditure of such money.

Section 1407(d) restricts the disclosure of any research or information funished under the legislation and identifiable to any specific person. No Federal employee, or recipient of money under the legislation, can use or reveal information furnished under the legislation and identifiable to any specific person for any purpose other than the purpose for which such information was obtained in accordance with the legislation. Moreover, such information is immune from legal process and cannot, without the consent of the person providing the information, be admitted as evidence or used for any purpose in any legislative, judicial, or administrative proceeding.[23]

Section 1407(f) prohibits discrimination in (1) the participation in, (2) the benefits of, or (3) employment in connection with, any undertaking financed in whole or in part by money provided under the legislation.

Section 1407(g) permits the Attorney General, after notice and an opportunity for a hearing on the record,[24] to impose sanctions on a State [25] that has failed to comply substantially with any provision of the legislation, a rule issued under the legislation, or a provision of any other applicable law, or with an application submitted in accordance with the legislation. The sanctions that can be imposed are (1) termination of payments to the State; (2) suspension of such payments until the Attorney General is satisfied that the noncompliance has ended; or (3) any other action the Attorney General deems appropriate.[26]

Section 1407(h) requires the Attorney General to report to the President and the Congress, no later than December 31, 1987, on (1) the revenue derived from the sources set forth in section 1402(b) of the legislation, and (2) the effectiveness of the activities supported under the legislation. The Attorney General is also authorized to include in the report any recommendations for changes in the legislation.

Section 1408: Victims Participation in Parole Hearings.—Section 1408(a) amends 18 U.S.C. 4207 to require that the United States Parole Commission consider, inter alia, a statement of any victim of the offense for which the prisoner being considered for parole has been convicted. This statement, which may be oral or written, may address the financial, social, psychological, and emotional harm done to, or loss suffered by, such victims.

Section 1408(b) amends section 6 of the Victim and Witness Protection Act of 1982 to clarify that the guidelines for the fair treatment of victims and witnesses should require that the United States attorney solicit victims to submit statements at parole release hearings, if the victim provides the United States attorney with a current address.

Section 1408(c) amends 18 U.S.C. 4215 to eliminate a requirement that a prisoner request the regional commissioner to reconsider a decision adverse to the prisoner before the prisoner can appeal to the National Appeal Board.

Section 1409: Effective Dates.—Section 1409(a) provides that, except as provided in section 1409(b), the legislation takes effect 30 days after the date of enactment. Section 1409(b) provides that sections 1402, 1403, 1404, and 1407 of the legislation take effect on October 1, 1984.

Section 1410: Conforming Amendment.—Section 1410 amends 18 U.S.C. 3150, which provides that forfeited appearance and bail bonds and forfeited collateral be put in the general fund of the Treasury. Since section 1402(b) calls for such money to go into the Crime Victims Fund, section 1410 deletes the reference to "the general fund" in 18 U.S.C. 3150.

FOOTNOTES

[1] Section 1402(c) limits the amount that may be deposited in the Fund during a particular fiscal year. Thus, money deposited in the Fund during a previous fiscal year is not counted toward the $100 million cap. Since payments for the Fund will occur only after the end of a fiscal year, there may be more than $100 million in the Fund early in a fiscal year. If there is $100 million in million in the Fund at the end of a fiscal year, money from the four sources set forth in section 1402(b) deposited in the Fund early in the next fiscal year will raise the total in the Fund to more than $100 million.

[2] Section 1402(d)(1) is necessary because money deposited in the Fund will not be paid out of the Fund until the next fiscal year. A grant under section 1403 is based directly upon compensation paid by eligible crime victim compensation programs to crime victims during the preceding fiscal year, and section 1404 grants can be calculated only after section 1403 grants are made. Since the collection of information necessary to determine section 1403 grants will take some time, the Department of Justice will not be able to make grants until well into the next fiscal year.

Section 1402(d)(1) is not inconsistent with section 1402(c)(2), which only prohibits deposits in the Fund after September 30, 1988. Since payments are made from the Fund after the end of a fiscal year, there will be payments made from the Fund after September 30, 1988, in order to expand money deposited in the Fund by that date.

[3] The legislation does not entitle eligible crime victim compensation programs to receive grants of 35% of the compensation they paid to crime victims during the preceding fiscal year. Section 1403(a)(1) requires the Attorney General to make grants to such programs, but only from money in the Fund. Section 1403(a)(2) specifically provides for reducing the grants to eligible crime victim compensation programs if the money in the Fund available for victim compensation grants is insufficient to provide each eligible crime victim compensation program.

[4] Section 1403(b)(1) does not require that all medical expenses, all lost wages, and all funeral expenses be reimbursed by the program. Rather, it requires that the State offer compensation in each of those areas, subject to such limitation and conditions as the State deems appropriate. Thus, for example, a State may impose a minimum loss requirement as a condition for compensation.

[5] The nonsupplantation provision is not intended to require States to maintain or increase their yearly expenditures for crime victim compensation. It is intended to ensure that States do not decrease their financial commitment to crime victim compensation solely because they are now getting Federal money.

[6] See D. McGillis & P. Smith, Compensating Victims of Crime: An Analysis of American Programs 61, Table II (1983) (National Institute of Justice pub.)

[7] The phrase "services rendered in accordance with a method of healing recognized by the law of the State" is derived from earlier legislation. See H.R. Rep. No. 753, 96th Cong., 2d Sess. 9 n.14 (1980); H.R. Rep. No. 337, 95th Cong., 1st Sess. 10 n.19 (1977); H.R. Rep. No. 1762, 95th Cong., 2d Sess. 14 (1978).

[8] Sections 1404(a)(1) and 1403(a)(1) authorize the Attorney General to make annual grants from the Fund. The Attorney General is not precluded, however, form making periodic payments from the Fund during the year in order to enable the recipient, the chief executive under section 1404(a)(1) and an eligible crime victim compensation program under section 1403(a)(1), to receive Federal aid as soon as possible. Such a periodic payment need not reflect the distribution formula in the legislation, as long as the total disbursements for the year comply with that formula.

[9] For example, if there were $100 million in the Fund, and eligible crime victim compensation programs spent $50 million, the victim compensation grants would use up $17.5 million. If 5% ($5 million) of the total Fund were used for grants under section 1404(c), the maximum that can be so used, 77.5% of the Fund ($67.5 million) would be available for grants under section 1404(a).

[10] The Chief excecutive may administer the grant in the manner that the chief executive deems most appropriate. The chief executive may delegate administrative responsibility to one person or organization, or to more than one. Since section 1404(a)(2)(A) requires the chief executive to give priority to three types of programs, the chief executive may wish to delegate responsibility for administering the portion of the State's grant that is to be used for such programs to a person or organization experienced in dealing with such programs.

[11] This language, which is from S. 2423, was added to that bill during the debate on the Floor of the Senate. See 130 Cong. Record. 23803 (Aug. 10, 1984) (remarks of Sen. Specter). As Sen. Specter noted, "Victims of sexual assault and child abuse often have special needs that require treatment by a person with special training. Rape victims, for example, must face twisted social attitudes that shift blame to the victim. Counseling these victims requires sensitivity to the psychological and social problems that victims experience as a consequence of these attitudes." Id.

H.R. 3498 recognizes the importance of these services in a different way. H.R. 3498 requires that

a crime victim assistance program, to be eligible for victim assistance money, provide crisis intervention services on a 24 hour a day basis. This requirement is based upon two considerations.

The first consideration is that crisis intervention is probably the most important form of assistance that can be provided to victims of crime, particularly to victims of crimes of violence against the person. See Hearings on Legislation to Help Crime Victims before the Subcomm. on Crim. Justice of the House Comm. on the Judiciary, 98th Cong., 2d Sess. (publication forthcoming) (testimony of Mary Ann Largen, Lawrence J. Center, and Deborah Jones).

The second consideration is that, because crime can and does occur at any time of the day or night, crisis intervention must be available 24 hours per day. This is important from both the standpoint of the victim (who needs help when the crime occurs, not many hours later) and of the program (whose effectiveness in helping the victim often depends upon early involvement with the victim). See id. Rape crisis centers and child and spouse abuse counseling services, the programs that section 1402(a)(2)(A) requires be given priority, typically offer crisis intervention services 24 hours a day.

The requirement that the chief executive give "priority" to these programs thus will ensure that a substantial portion of the State's grant under section 1404(a) will be used to support the provision, on a 24 hour per day basis, of vitally important crisis intervention services by rape crisis centers and child and spouse abuse counseling services.

[12] Section 1404(d) of the bill defines "State" for the purposes of section 1404(a)(3)(B) to include the District of Columbia, the Commonwealth of Puerto Rico, and all territories and possessions of the United States. The term "State" in section 1404(a)(3)(B), therefore, has a broader meaning than the term "State" in section 1404(a)(3)(A).

[13] The term "effective services" does not require licensing or credentialing of crime victim assistance programs, which traditionally have not been licensed or credentialed. In determining whether a program is providing "effective services," at least two factors will be important. One factor is the program's longevity. A program that has been operational for a long time has evidenced strong community support for, and approval of, its work. A second factor is the program's financial history. A program must be judged on the basis of what it has done with the funds available to it.

[14] The term "financial support" in section 1404(a)(1)(B) is not limited to cash contributions, but includes donated property and services and other "in-kind" support.

The term "substantial" in section 1404(b)(1)(B)(i) generally would require that at least half of the program's support come from other sources. The term "financial support" as used in section 1404(b)(1)(B)(ii) would require that at least a quarter of the program's support come from other sources.

[15] See Hearings on Legislation to Help Crime Victims before the Subcomm. on Crim. Justice of the House Comm. on the Judiciary, 98th Cong., 2d Sess. (publication forthcoming) (testimony of Deborah Jones, Lawrence J. Center, and Mary Ann Largen).

[16] The term "compelling reasons" is intended to limit strictly the chief executive's discretion to waive the requirement that volunteers be utilized, and few such waivers are anticipated.

[17] The term "offense against the United States" is not defined but as used in title 18 of the United States Code refers to laws of the United States other than the Uniform Code of Military Justice and laws enacted by the District of Columbia under authority delegated to the District by Act of Congress. See, e.g., 18 U.S.C. 3041, 3052, 3237, 4082. See also H.R. Rep. No. 577, 98th Cong., 1st Sess. 10, n.1 (1983).

[18] The different penalties for individuals and organizations is consistent with the Judiciary Committee's approach to fines. See H.R. Rep. No. 1017, 98th Cong., 2d Sess. 61 (1984); H.R. Rep. No. 906, 98th Cong., 2d Sess. 15-16 (1984).

[19] See H.R. Rep. No. 1762, 95th Cong., 2d Sess. 10 (1978) ("The conferees note at the outset that such provisions raise serious constitutional questions."), citing a memorandum of the American Law Division of the Library of Congress' Congressional Research Service (memorandum captioned "Constitutional Analysis of a New York Statute Requiring Funds Received by Alleged Criminals for Certain Purposes to be Given to Their Victims," and dated Sept. 8, 1977); Note, *Criminals-Turned-Authors: Victims' Rights* v. *Freedom of Speech*, 54 Ind. L.J. 443 (1970); Note, *Compensating the Victim from the Proceeds of the Criminal's Story—The Constitutionality of the New York Approach*, 14 Colum. J. of L. & Soc. Prob. 93 (1978).

[20] 130 Cong. Record S-10539 (daily ed. Aug. 19, 1984).

[21] In exercising this broad discretion, the court will consider such factors as the victim's restitution needs as well as the extent to which the defendant will directly exploit the victim's suffering. While new chapter 232 seeks to resolve the constitutional issues, the court, when exercising its discretion under that chapter, will have to consider the constitutional issues raised by the interested parties and fashion an order that will accommodate legitimate constitutional objections.

[22] The term "matters arising from the offense for which such defendant has been convicted" is not limited to matters arising *after* the conviction (e.g., appeal of the conviction), but includes trial of the case that led to the conviction resulting in the order of forfeiture, as well as legal services occurring before trial related to the trial (e.g., preparation for trial.)

[23] The principal need for such protection involves crisis counseling, which, to be effective, requires a complete and candid disclosure of information by the victim. To the extent that an audit or examination under section 1407(c) involves records pertaining to crisis counseling, it is anticipated that disclosure of the name and address of, or other identifying information about, the victims who have been counseled will not be routinely required.

[24] The use of the term "hearing on the record" makes applicable the provisions of the Administrative Procedures Act. See 5 U.S.C. 554.

[25] The term "State" includes, as to grants under section 1403, an eligible crime victim compensation program, and, as to grants under section 1404, the chief executive of a State.

[26] The Attorney General might, for example, require payment to the Fund of money spent for purposes other than the purposes for which the recipient received the money.●

Mr. CONTE. Mr. Speaker, I yield the balance of my time to myself.

Mr. Speaker, I want to make one observation for my colleagues, and that is that there may be a vote on the conference itself. I urge the Members not to leave because we will have a fight on the Kennedy Center, and no doubt Mr. MOLINARI and Mr. SHAW will ask for a vote.

Mr. WRIGHT. Mr. Speaker, will the gentleman yield?

Mr. CONTE. I yield to the gentleman from Texas.

LEGISLATIVE PROGRAM

Mr. WRIGHT. I thank the gentleman for yielding.

Mr. Speaker, I take this time simply to announce that following this vote and the vote on the one other item, the Kennedy Center, we will be finished for the day.

We come in at 10 o'clock tomorrow morning. We have two items to take care of, either by voice vote or, if demanded, otherwise, the Export Administration Act and the antitrust exemption for cities. There is the possibility that there may be required a vote regarding the debt limit extension. The other body, I am advised, has added to that bill a provision which would repeal the imputed interest provision in the tax bill that earlier was passed. It is just possible that something may come up on the highway bill.

Those are the only things I have any knowledge of. Again, we come in at 10 a.m. tomorrow.

□ 2330

Mr. CONTE. Mr. Speaker, I yield back the balance of my time.

Mr. WHITTEN. Mr. Speaker, I yield 2 minutes to the gentleman from New Jersey [Mr. ROE].

Mr. ROE. I want to thank my chairman for yielding me the 2 minutes and if I could have the attention of the House, I know you are tired and weary like all the rest of us, but I want to answer a couple of questions for you.

Mr. Speaker, No. 1, I want to highly compliment the chairman of our Appropriations Committee [Mr. WHITTEN] for the extraordinary stand-up job he did for the House of Representatives as far as the natural resources of this country are concerned.

There are a lot of arguments and I only have 2 minutes, and we have worked day and night, and I want to give a second compliment to every Member of this House on both sides of the aisle. You may not realize one thing, but because you voted three times for that which was right, which was the water resources of this country, which is the second crisis needs of this Nation, you were able to send a message to the other body and you were able to say to that body that for once, the House of Representatives was not going to buckle under and be had again, and I compliment every person in this House that had the guts to stand up and do that.

All we are simply trying to do is to provide the water supply and the resources of the people of this Nation. The total outlay in the appropriations bill would have been about $105 million layout this year for water supply resources of this country, the entire program.

And if I may say this, and I am not opposed in the main to foreign aid, but $18 billion, as the chairman pointed out, going to foreign aid and three-quarters of that money being laid out this year alone.

My people have drowned this year. I lost five people in my district alone. For 30 years we have been waiting for some kind of consideration from the Congress of the United States to help those people to survive and each and every one of you that you wrote to me and I changed views with you.

We went over every one of your projects. We did it scientifically. They say it is important. What is important? Or do they come back and say that it is the water that people drink. The poisoning of the water supply; our ports are underdredged.

In Florida alone there is a big exposé in the paper now that the ground waters are dropping so fast they do not know whether they will be able to take care of the population that is there. And State after State, the breadbasket of this Nation, the food of

this Nation and the transportation of this Nation is involved.

I want to thank you for your support and just one second more. There is a poem that goes:

For of all sad words of tongue or pen, the saddest are these, it might have been. But of all sad words of tongue or pen more sad are these it is but it had not ought to be.

And we are going to pass that water bill next year if it is the last thing we do.

Thank you for your support.

Mr. WHITTEN. Mr. Speaker, I yield myself my remaining 2 minutes.

Mr. BOLAND. Mr. Speaker, will the gentleman yield?

Mr. WHITTEN. I yield to my colleague, the gentleman from Massachusetts.

Mr. BOLAND. Mr. Speaker, I did not want this evening to pass without the House taking note of the fact that this is the last time that the name of J. KENNETH ROBINSON will appear in any kind of a continuing resolution or any conference report.

I want to pay my own respects to him and I know the House of Representatives does too. I want him to know how grateful I am for the service he has given not alone for some 8 years on the Appropriations Committee; 7 terms in the Congress; 14 long years of magnificent service to the Appropriations Committee; and to his service of 7 years on the Intelligence Committee. He has given outstanding service to his beloved State of Virginia, to the Nation and his district.

He certainly has been an outstanding member of this House and I wish for KEN and his gracious and very devoted wife Kit many, many years of happy retirement.

Mr. WHITTEN. Mr. Speaker, may I say that it is always a pleasure to work with the gentleman from Massachusetts, the ranking minority member of the committee [Mr. CONTE]. I appreciate the comments he has made, and I want him to know I am thankful for his cooperation and good humor in accomplishing the task which was placed before us. We may not always completely agree on every issue we have to deal with, but I believe we always work toward the same overall goals. For example, the gentleman from Massachusetts and I did not completely agree on the Senate proposal to eliminate all energy and water development projects from the resolution—which would have aided every section of the country—but we do agree that passage of this conference report today is essential. I thank the gentleman for his contributions and cooperation during the consideration of this continuing resolution.

Mr. Speaker, as we conclude consideration of this conference report, I would like to point out that as chairman of the Appropriations Committee I feel obligated to and have cooperated with the leadership and I'm glad to do so. I realize that the situation is such that this is required, but I do want to point out what we have done here this Congress.

We have dropped authorizations which were in the House passed resolution and if by chance we need them we do not have a thing on the shelf to which we could direct our efforts. The bill sponsored by Mr. ROE and included by reference in the House resolution is an authorization bill. We do not have to appropriate any funds which it would authorize. But for 14 years, we have not had an authorization for any new public works projects.

I want to take this opportunity to thank the gentleman from New Jersey [Mr. ROE] for his gracious statement and for the tremendous contribution he has made during the years to the support of needed public works projects in every section of the country. The gentleman and I, and many others in this body, know the true worth of these projects. We have worked closely together in the past and I am sure will continue to do so.

I am saying to you that if we do not wake up to the fact that somebody had better look after our country you can have all the money in the world and it will not matter. I want to say that if we listen to Mr. Stockman and his pronouncements on certain measures, I think we are just surrendering—not meeting—our obligations and our authority to a second man and not to the President. We have never heard directly what the President's position on this resolution was.

Mr. Speaker, I want to say now that I hope we will give thought in the next session to more 2-year and multiyear authorization bills. That is a battle beyond my control, but it is quite evident that we simply cannot do our work with the current methods and with the limited time available.

You understand we are glad to cooperate and we are glad to do the best we can, but this conference report is brought on us partly because we are unable as a Congress to finish our authorization bills. I hope, Mr. Speaker, you will give thought about the next Congress to give attention to the multiyear authorizations.

Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. MCHUGH].

Mr. MCHUGH. Mr. Speaker, I rise in support of the conference report. As with all compromises, this is not a perfect conference report. I would have much preferred, for example, that the conference report include the provision of the continuing resolution adopted by the House which would have precluded the President from introducing U.S. troops in Central America for purposes of combat without prior authorization by the Congress. Because the Senate firmly resisted this provision, and because of the press of time, the conferees adopted as a compromise language expressing the sense of Congress that the President should not introduce combat troops without congressional authorization. Although this is advisory language only, the message to the President should be clear on this point.

I also would like to address, Mr. Speaker, a number of issues relating to the conference agreement on the fiscal year 1985 agricultural appropriations bill, which is incorporated into this conference report.

FOOD STAMPS

The conference agreement on the agricultural appropriations bill appropriated $11,450 million to fund the Food Stamp Program for the full fiscal year. This is the first time in several years that we have funded food stamps for the full year in the regular agricultural appropriations bill, and I believe this will facilitate smoother operation of the program.

In the past, Congress often had to consider a supplemental appropriation for the final months of the year amidst threats from the Department that benefit reductions or terminations were imminent. This should not occur in fiscal year 1985.

Under the conference agreement, $652 million of the $11.45 billion food stamp appropriation is available only after submission of an official budget request. But once the budget request is made, the funds are immediately available. No further appropriation action by Congress will be necessary.

This puts the ball squarely where it should be—in the administration's court. The administration requested an inadequate food stamp appropriation once again this year. Now the administration will have to request the remaining amount.

This is of no small importance to needy food stamp families, because under section 18(b) of the Food Stamp Act, the Department is to reduce food stamp benefits if Congress has provided an insufficient appropriation. For fiscal year 1985, Congress is hereby appropriating the full $11.45 billion needed for the year. While release of $652 million of this amount is subject to submission of a budget request, this $652 million will have been duly appropriated. As a result, the administration cannot legally invoke section 18(b) and reduce benefits on the grounds that insufficient funds have been appropriated. Since the funds have been appropriated, the administration will be legally obligated to request however much of the $652 million is needed to prevent benefit reductions.

I am also grateful that the conference agreement, as incorporated into the continuing resolution, endorses the food stamp directives contained in

both the House and Senate committee reports. Of particular interest is a directive that the Department not institute benefit reductions by administrative fiat through issuance of regulations that would alter the food stamp economy-of-scale factors. Such an administrative action, which we are hereby barring, would have the effect of reducing benefits for the great majority of elderly households on food stamps and would harm many poor families with children as well. This type of action is appropriate for consideration in the legislative arena, but not for implementation through issuance of a regulation.

In addition, the conference agreement endorses several other important food stamp directives contained in the Senate committee report. These direct the Department to require States to develop a method for providing food stamps to eligible persons who are homeless, and also direct that the Department act to ensure that no areas are automatically terminating food stamp benefits when a household is dropped from AFDC. The Department is to report back on the actions it has taken to accomplish these tasks within 90 days of enactment.

The conference agreement also endorses the Senate report directive that the Department not issue a contemplated overhaul of food stamp regulations—the so-called Williams regulations—before food stamp reauthorization legislation is completed next year. This is designed to avoid the additional errors that would inevitably result from overhauling the food stamp regulations twice in a year's time. In addition, if and when any regulatory changes ultimately are made, these changes may not, under the directives endorsed by the conference agreement, include changes that make the program more complicated, add to administrative burdens, or effectively bar or delay benefits for eligible households unless, of course, such changes are required by law.

WIC

I am gratified that the agricultural appropriations conference agreement, which is incorporated into this continuing resolution, also includes $1.5 billion for the WIC programs in fiscal year 1985. The conference agreement appropriates $1.254 billion for the period from October 1, 1984, through August 1, 1985, and an additional $246 million for the period from August 2, 1985, through the end of the fiscal year. The $246 million is to be released upon submission of a budget request.

In the conference agreement, we have also taken strong action to ensure that these funds are properly managed by the Department in fiscal year 1985. We have written into the statutory language a requirement that funds shall be apportioned based on an annual appropriation of $1.5 billion. The Department is accordingly required to make $375 million, one-fourth of the $1.5 billion appropriation, available at the beginning of each of the first three fiscal quarters of the year. The final $375 million is to be made available on July 1, provides that the budget request has been transmitted by that time. If the budget request has not been submitted by that time, then the remaining funds for the period through August 1, $129 million, would be provided on July 1, with the final $246 million made available as soon as the budget request was transmitted.

As in past years, any unspent funds carried over from the prior year are to be allocated as expeditiously as possible, and are in addition to the $1.5 billion appropriation. This is specifically directed by Senate committee report language that is endorsed by the conference agreement.

We have also directed that the Department operate the program so as to maintain the maximum caseload that a full-year $1.5 billion appropriation, plus carryover funds, will allow. This should be sufficient to maintain current WIC participation levels of 3.1 million persons, and it is our hope, as expressed in the House committee report, that this funding level will also enable some modest increases in participation to occur. WIC still reaches less than half of those who are eligible for it.

I am particularly pleased with the very strong action the conferees took to ensure that OMB cannot manipulate the allocation of funds in a manner that would spread some of the $1.254 billion into the the period after August 2. The statutory language of the conference agreement effectively bars deferrals, or similar actions by OMB or the Department, of any part of the fiscal year 1985 WIC appropriation. It is true that following the Supreme Court decision on the legislative veto, it is not clear whether deferral authority still exists. However, even if OMB still has this authority, the deferral authority will not extend to the WIC funds appropriated in this act. The agricultural appropriations conference agreement included in the continuing resolution will, upon enactment, become legislation that is subsequent to the Budget Control and Impoundment Act and that supersedes the earlier act with regard to deferral authority relating to the fiscal year 1985 WIC appropriation. This is accomplished by virtue of the new provision that mandates, in the statute, the apportionment of the WIC appropriation.

The SPEAKER pro tempore. Mr. Speaker I yield such time as he may consume to the gentleman from California [Mr. MINETA].

Mr. MINETA. Mr. Speaker, I rise in support of this legislation. It is urgently needed for many reasons, but I wish to take this opportunity to discuss in particular some of its provisions affecting aviation.

The capacity of our airport and airway system to handle a growing number of flights, to handle them without undue delay or restrictions, and above all else, to handle them safely, has been a subject of widespread concern among the Members of this House. We have attempted to deal with those capacity issues by modernizing and expanding the Federal Government's air traffic control system and by increasing grant funds available for airport improvements.

This continuing resolution, I am pleased to say, largely concurs in those increased commitments to airport and airway improvement. It provides for a fiscal year 1985 appropriation for air traffic control system improvements, the facilities and equipment account, of $1.37 billion. This is not quite as high as the $1.407 billion Congress provided as new authorization for fiscal year 1985, but is substantially above the $750 million appropriated for the same purpose for fiscal year 1984. Furthermore, the continuing resolution sets an obligation ceiling on airport grants of $925 million. This is not as high as the $987 million Congress provided as new authorization for fiscal year 1985, but it is an improvement over the fiscal year 1984 level of $800 million.

These airport and airway improvement programs are, of course, funded entirely from the aviation trust fund, money exclusively raised by excise taxes on aviation users. Members of this House have expressed concern that aviation trust fund dollars might be used to support FAA operational expenses to a greater extent than permitted by law. As my colleagues are aware, in the Airport and Airway Improvement Act of 1982 we specifically limited the use of aviation trust fund dollars for FAA operational expenses, and we tied that limitation to the level of funding actually made available for airport and airway improvements. Given the level of airport and airway spending provided for by this continuing resolution, the maximum authorized level of trust fund support for FAA operations is $1.11 billion, and I am pleased to note that this continuing resolution is consistent with that limitation.

One aspect is this continuing resolution that I cannot be pleased about is the provision weakening existing regulations controlling jet noise. The House-passed continuing resolution contained no such provisions, but the other body chose to add language directing the Secretary of Transportation to grant exceptions primarily to certain foreign carriers which operate service to Miami, FL, and to Bangor,

ME, in aircraft which will no longer comply with Federal noise rules after the end of this year.

Many of us in this House consider the Senate provision to be highly objectionable. Federal rules setting January 1, 1985, as the date for compliance with jet noise standards have been on the books for over 7 years. Congress reaffirmed that deadline over 4 years ago. Most U.S. airlines have taken the steps necessary to achieve compliance with the noise standards by January 1, often at great expense. Now, primarily for the benefit of a few small foreign carriers which serve two U.S. airports, the other body would have us legislatively grant exemptions to these long-standing rules.

Mr. Speaker, this kind of provision is not fair to the vast majority of U.S. carriers who have taken us at our word and who have spent substantial funds to achieve compliance. Futhermore, in adopting this type of 11th hour, special exemption approach, we undermine our own credibility by sending a message to industries that if they ignore compliance deadlines we set we will waive the deadlines in the end anyway. We in effect create an incentive for industries to ignore our directives, since those who do not comply are forgiven and those who do comply have already had to pick up the costs of compliance.

If we are to regain credibility for the compliance deadlines we have set, we will have to steadfastly reject all future arguments for legislative exemptions, rollbacks, and other forms of special treatment. We are going to have to resist unsubstantiated arguments of widespread economic hardship if special treatment is not granted. I do not question that where carriers ignore long-standing regulations and statutes requiring compliance actions by a certain date, and then at the 11th hour claim that they would suffer economic harm if the compliance deadlines were not waived, that they would in fact be hurt by our refusal to grant last-minute waivers. But I would point out that such hurt is self-inflicted by their own tardiness, and is not the fault of our compliance schedules.

We are also going to have to learn to see through their arguments that not only they, but also the communities they serve, would be damaged by their inability to meet compliance deadlines. It was argued in this case, for example, that the Miami area would lose 6,000 jobs if these carriers were not exempted. That claim was made on the assumption that none of the cargo now moving through Miami on these particular aircraft would continue to move if these particular aircraft could not carry it. That assumption is clearly nonsense. Without exemptions, this cargo would have continued to move through Miami, either in complying aircraft leased or otherwise obtained by these carriers, or by other carriers, many of them U.S. carriers, already operating in these markets with complying aircraft. The idea that people are willing to pay to have this cargo shipped but that no carriers would be willing to move it is absurd. In my view, the estimate of 6,000 jobs at risk must have been a typographical error. I would estimate that there were only 6 jobs riding on this provision, all of them Washington lobbyists.

Mr. Speaker, the fact that the other body did adopt this particular provision put our conferees in the difficult position of having to deal with it in the hurried environment of the continuing resolution conference. Several of our conferees opposed the Senate provision, and I want to note that particularly Chairman JAMIE WHITTEN and our colleague from California, Congressman VIC FAZIO, distinguished themselves in arguments against this Senate provision. Due in large part to their efforts, it was possible in conference to improve the Senate provision somewhat, although certainly not to the point where striking it entirely would not have been preferable. I want to make it clear to my colleagues that it is not a question of the conference report language on this issue being acceptable to me. It is not acceptable to me. But it is the best language our conferees could get under these particular circumstances.

Because I played a part in the modifications agreed to in the conference, let me take a moment to explain the noise provisions as contained in this conference report. For those aircraft which do not now comply with stage 2 noise standards and which are required by FAA rules, part 91, to meet those standards by January 1, 1985, the Secretary of Transportation is directed to grant exemptions where all of the following conditions are met:

First, the operator of that aircraft must apply for the exemption before January 1, 1985.

Second, for aircraft for which hush kits are available or under development, such application must be accompanied by a firm contract which will allow the operator to achieve compliance at the earliest possible date. In order for an exemption to be granted pursuant to this provision, that contract must be found by the Secretary to be with a bona fide contractor, that execution of the contract will in fact achieve compliance at the earliest possible date, and that the contract requires nonrefundable deposits sufficient to ensure that the operator will proceed to compliance as provided in the contract. In other words, we expect the Secretary to not merely accept contracts at face value, but to look behind them and to determine independently that the above tests are satisfied. For aircraft for which hush kits are not available or under development, but which the operator obtained prior to January 1, 1980, the application must be accompanied by a sworn commitment that the operator will enter into a contract for a stage 2 compliant aircraft by June 1, 1985, and such contract must meet all of the above tests.

Third, exemptions may be granted under this section only for operations between Miami and a non-U.S. airport or between Bangor, ME, and a non-U.S. airport. No other operations by noncomplying aircraft are to be permitted under the terms of this section.

Fourth, operators are not permitted by this section to increase their operations with noncomplying aircraft at Miami or Bangor during the period for which they hold exemptions.

Fifth, exemptions granted pursuant to this section are to be for the shortest possible time necessary to achieve compliance. Furthermore, no exemptions granted pursuant to this section are to extend beyond January 1, 1986, except where certain narrow conditions apply and where the applicant has met all other requirements of this section.

The application of this section is, therefore, to be quite narrow. Aircraft for which hush kits are not available or under development and whose operators obtained them since January 1, 1980, and aircraft to be operated on any routes other than those between Miami and a non-U.S. airport or Bangor and a non-U.S. airport are not covered by this section. For all circumstances not covered by this section, the Secretary is to continue to be guided by preexisting Federal statute, regulations, and policy, including the conference report and other legislative history accompanying the Aviation Safety and Noise Abatement Act of 1979.

● Mr. HEFTEL of Hawaii. Mr. Speaker, I wish to express my mounting anger at the duplicity of our legislative process. Two weeks ago the Congress of the United States eliminated the military rent-plus housing program from the 1985 Department of Defense authorization bill.

The Congress acted wisely. During the 2 years the Rent-Plus Program has been in effect in Hawaii, it has caused rents to skyrocket. Frequently, $500 a month apartments became $800, $900, even $1,000 a month apartments.

The reason that this has happened is rather simple. Rent-plus provides fixed housing subsidies for off-base personnel, subsidies in excess of the rental rates set by normal market forces. And unlike the variable housing allowance which would replace it, the Rent-Plus Program fails to provide

an incentive for military personnel to seek lower cost housing.

Still, despite the wisdom demonstrated by Congress, an appropriations subcommittee of the other body is attempting to resurrect the Rent-Plus Program in Alaska and Hawaii as part of the continuing appropriations bill currently moving toward enactment.

I am outraged that such a maneuver could triumph at the last moment. We are looking at a program with proven abuses, a program the House Armed Services Committee studied and found in clear need of reform, a program that the House and the other body have agreed to replace through the authorization process, and a program which the House Appropriations Committee has also agreed should be changed.

Yet these actions may be overturned by Members of the other body at the end of a congressional session through a legislative maneuver which violates the rules and spirit of this House.

Mr. Speaker, no member of this body or of our companion body can claim to support reductions in Federal spending, balanced budgets, and curbs on waste and abuse while permitting the continuation of programs, like rent-plus, which so blatantly thwart all three objectives.

I fear that there is little hope for the integrity of the Federal budget if we are unable to change or eliminate programs that are fraught with waste and abuse, if not fraud.

I also fear that such 11th-hour machinations can only cause Congress' stock with the American people to plummet further. Neither we as individuals nor Congress as an institution can afford that.●

● Mr. DICKS. Mr. Speaker, I want to commend the conferees of the House for their hard work in reaching an agreement on this conference report on a number of very difficult subjects.

I particularly want to commend their efforts to work for the wishes of this House in relation to restrictions on antisatellite weapons and on reductions in funding for the strategic defense initiative. I know that on both these issues the other body had very strong views and it was only with the equally strong insistence of Defense Subcommittee Chairman ADDABBO and the other House conferees that the compromises on these issues were achieved.

I would have preferred to retain the House position prohibiting testing of antisatellite weapons against objects in space so long as the Soviets did the same, and limiting real spending growth on the Star Wars program to 5 percent. But I believe that this conference has preserved the essence of the House's desire to move with caution on these programs while the possibility of arms control solutions are explored.

As I understand the agreement, funding for SDI would be at $1.4 billion, roughly $400 million below the administration request. I feel this more moderate rate of spending will help avoid a headlong rush into areas that could threaten the abrogation of the ABM treaty. I would note that the administration will be required to submit to Congress a report more fully discussing the cost and policy implications, especially issues relating to arms control, of this program. This report will help the Congress make more informed judgments on future requests for SDI, which as currently proposed would rise very rapidly.

On the question of antisatellite tests against an object in space, the conference would prohibit such tests until after March 1, and allows no more than three total tests for the fiscal year. My own hope is that we will be at the bargaining table with the Soviets discussing limits on these systems along with the larger question of strategic defense by March 1. I also sincerely hope that the Soviets will come to their senses and renew discussions on reductions and limitations on strategic and intermediate range missiles. If we can make progress in the arms control arena, then we would be wise to choose not to go forward with any antisatellite testing against an object in space. The certification requirements included in the authorization conference concerning the impact of such tests on arms control prospects should be taken seriously by both the administration and the Congress before any commitments are made that we will come to regret later.●

● Mr. PANETTA. Mr. Speaker, I am pleased to point out that the conference report on House Joint Resolution 648 includes an amendment that I offered to restore the basis for food stamp benefits from 99 percent to 100 percent of the thrifty food plan, effective November 1, 1984. This is a small, but important, step toward making the Food Stamp Program more responsive to the serious problem of hunger in America today. It is a measure that has received bipartisan support in both the House and Senate and was specifically recommended by the President's Task Force on Food Assistance.

It is my hope that Congress will build on this effort next year, when the Food Stamp Program will be reauthorized. The thrifty food plan amendment we approved today was part of H.R. 5151, the Hunger Relief Act of 1984, which was passed by the House on August 1, 1984, by a 364-to-39 vote. I believe the remainder of H.R. 5151 should be a basis for antihunger efforts next year. I am pleased to note that Senator DOLE, chairman of the Senate Subcommittee on Nutrition, recently introduced a bipartisan bill (S. 3017) that is similar in approach to H.R. 5151.

Mr. Speaker, new evidence of the domestic hunger problem continues to appear and the problem is still growing in many areas. Just last week, the U.S. Conference of Mayors issued a report entitled "The Urban Poor and the Economic Recovery." This survey of 83 of the Nation's principal cities revealed that 73 percent of the cities experienced an increase in demand for emergency food assistance during 1984, with a major increase occurring in 19 percent. Only 7 percent of the cities experienced a decrease in emergency food aid demand. And over 50 percent of the cities project another increase in emergency food assistance demand in 1985.

I believe this indicates that the current economic recovery is leaving many people behind. We have a responsibility to these people to shore up the social safety net on which they depend. Today's action is a step in the right direction.

I would like to thank the many House Members whose work on the hunger issue over the past year has laid the groundwork for this amendment. In particular, I would like to thank BILL EMERSON, ranking minority member of the Nutrition Subcommittee of the Agriculture Committee. Mr. EMERSON and I have traveled throughout the country over the past 2 years to study the domestic hunger problem and I believe we have been successful in developing responsible, effective, bipartisan legislation to address difficult social problems. In addition, I would like to cite Agriculture Committee Chairman DE LA GARZA, ranking minority member MADIGAN, Representative JEFFORDS, Select Committee on Hunger Chairman LELAND, and ranking minority member ROUKEMA for their active assistance and cooperation on the hunger issue this year.

Before closing, I would like to comment on one additional matter that pertains to the administration of the Food Stamp Program. It has come to my attention that a provision of the Deficit Reduction Act of 1984 involving the Child Support Enforcement Program could have an adverse effect on food stamp error rates. It is my understanding that up to $50 a month in child support payments made to recipients of aid to families with dependent children [AFDC] will be disregarded in determining AFDC benefits. But, the law requires that any increase in benefits paid to these recipients is to be counted against their food stamps.

Without making any comment on the merits of this proposal, I would point out that this change in policy cannot be implemented easily overnight. It involves a constant monitoring of when and how much child support is received by many AFDC recipi-

ents. In New York State, for instance, an estimated 45,000 cases a month would be affected. States cannot be expected to implement this type of change without some errors occurring, especially in the early stages. While I believe States should be held accountable for errors in administration, I do believe they should be given a reasonable time period to phase in abrupt changes in Federal policies, especially when they involve significant new administrative burdens.

The Department of Health and Human Services [DHHS] has recognized the need to provide States with adequate leadtime for implementation before errors arising from the new policy are counted against States in assessing sanctions for high error rates. My understanding is that the DHHS will not count such errors in determining sanctions for a 1-year period. I believe this is a reasonable approach.

The DHHS approach does not mean that errors will not be measured or that they will be condoned. The quality control system will still identify these errors and effective steps can still be taken to assure competent performance by the States. For a limited time, however, any errors arising out of the $50 disregard policy will not be included in determining the appropriate sanction level.

I believe that the Department of Agriculture should take a similar approach. We cannot expect States to implement complex new policies overnight without error. I believe the Secretary of Agriculture should utilize his discretionary authority to waive sanctions on errors due to this new provision for a period consistent with that established by DHHS.●

● Mr. LOWRY of Washington. Mr. Speaker, I wish to express my very strong support for the prohibition on covert aid to the Nicaraguan Contra insurgents contained in House Joint Resolution 648 as it was originally passed by the House of Representatives.

The Reagan administration's Nicaraguan policy carries the greater danger of leading us into war. It violates our obligations under international law. It causes innocent men, women, and children to suffer. It undermines the principle of self-determination which is a vital component of the effort to establish stable democratic institutions in Latin America.

The United States is a great nation because it stands for justice and the rule of international law rather than anarchy and rule by terror. Our policy toward the Nicaraguan Government belies our commitment to these ideals. Would we stand for it if a foreign country mined our harbors, paid people to kill our fellow citizens, and ignored the World Court's jurisdiction when we complained about these actions? Absolutely not, yet that is what we have done to Nicaragua.

We have pledged to uphold the OAS Charter, which states:

> No state or group of states has the right to intervene directly or indirectly for any reason whatever in the internal or external affairs of any other state.

Support for the Contras is a mockery of this commitment.

We should pay more attention to the concerns of Latin American supporters of democracy. I was struck by these words from Daniel Oduber, the former President of Costa Rica, the only firmly established democracy in Central America:

> What worries me is that present U.S. policy is another step by which all the inter-American institutions are being destroyed. If all the doctrines we believed in such as nonintervention, self-determination, nonaggression and peaceful settlement of conflicts are destroyed, 100 years of inter-American relations are going to be in crisis.
>
> Unilateral intervention is unacceptable. I'm going to have to tell you frankly that for us to see the U.S. Congress, that we all respect and see as our example in democracy, discussing the appropriation of funds for a group of men to change the government of another country undermines completely what we Latin American democrats have worked so long to build.

The administration's policy is also deeply disillusioning to many in our own country. Quite a few of my friends and constituents have been to Nicaragua. Not one has returned to express support for covert aid. Instead, they tell me that, whatever our disagreements with the Sandinista government, the administration's policies serve only to cause great misery for innocent people who are not responsible for the policies of that government.

The sad fact is that President Reagan does not understand the causes of unrest in Nicaragua and elsewhere in Central America. In July 1983, the President said: "The trouble that is going on down there comes from outside the area, is revolution exported from the Soviet Union and from Cuba." He is simply wrong. His view ignores the causes of unrest—poverty, violence, and oppression—which cannot be solved by support for covert activities.

We can use our strengths—our democratic institutions and economic resources—to give constructive support to human rights, democracy, and economic progress that benefits all Central Americans. We must also demonstrate that we respect our neighbors' independence and right to self-determination.

To implement a positive policy of this sort, it is absolutely essential for us to begin by insisting on a strict prohibition on covert aid. I urge my colleagues to join in this effort.●

● Mr. McDADE. Mr. Speaker, I rise in support of amendment No. 4 which contains the provisions of the Interior appropriations bill for the fiscal year 1985.

Mr. Speaker, the amendment before you today does not make anyone of us completely happy. It is the result of literally weeks of careful negotiations both in preconference and conference and I believe we have finally reached a responsible middle ground on all aspects of the bill, including some very complex and controversial issues: several being oil and gas leasing on the Outer Continental Shelf; the Synthetic Fuels Corporation; and the overall dollar amounts that are both acceptable to the conferees and the White House.

Specifically, the bill provides roughly $8.1 billion in new budget authority making it approximately $95 million above the fiscal year 1984 enacted level and well below the House budget allocation of $8.5 billion.

The conference report regarding oil and gas leasing restates the House-passed version of the bill which prohibits use of funds for a portion of the steps leading up to the lease sales in the following planning areas: Georges Bank in the North Atlantic; central and northern California; and southern California. However, language will accompany this moratorium which strongly states that the managers will not continue such blanket moratoria in future years unless a case can be made that the prelease negotiation process is inadequate to ensure that all resource values are provided proper consideration and protection in specific areas, and then such moratoria will not exceed the geographic limit of such areas. The Department is further urged to continue to consult with the appropriate congressional, state and local officials in an effort to resolve the long-term status of these areas.

In an attempt to reduce the overall dollar amounts in the bill—the conferees found it necessary to cut the strategic petroleum reserve acquisition funds by $300 million. This will still enable the Government to maintain a daily fill rate of 159,000 barrels per day, a sizable increase over the administration's requested 145,000 barrel rate. Further, accounts containing new budget authority were reduced by 2 percent.

Perhaps the most delicate compromise of all was the resolution we propose for the projects of the Synthetic Fuels Corporation. The conferees took this action in order to continue a viable, broad-based National Synthetic Fuels Program and at the same time give the new Board, when appointed, the flexibility to reexamine existing letters of intent. Based on this compromise, we have been given assurances by the Office of Management and Budget as well as the White House that they will send nominees to

fill the current vacancies on the Board soon after passage of this bill.

The compromise package would rescind $5.375 billion from the Synthetic Fuels Corporation instead of the House-passed version of $5 billion; it sets aside production goals, establishes a $750,000,000 reserve for clean coal technology demonstration activities, provides $5.7 billion in the remaining account to meet letters of intent as of the April 1 meeting of the Synthetic Fuels Board, provides that if the total letters are less than $5.7 billion, 50 percent becomes available for obligation for other projects and 50 percent is withheld from obligation. Another provision makes the Synthetic Fuels Board subject to ethics in Government requirements.

This agreement contains many of the major programs that the Congress has strongly supported in past years. We have continued funding for high priority land acquisitions, for management of public lands, wildlife refuges and the national parks. We have funded the historic preservation and endangered species as well as important forest research.

The bill contains the funding necessary to address critical energy issues. Included is $458,610,900 for energy conservation activities including $47 million for the Schools and Hospitals Program and $191 million for low-income weatherization. A total of $274.9 million is also provided to continue high priority fossil and energy research and development activities.

This report recognizes the importance of continuing our support for the cultural resources of this Nation and includes $163.6 million for the National Endowment for the Arts, $139.5 million for the Humanities, $21.6 million for the Institute of Museum Services and $189.6 million for the programs of the Smithsonian Institution.

We have continued to strongly support programs that directly affect our country's native Americans as well as fulfill our Nation's commitments with the U.S. Trust Territories.

Mr. Speaker, I urge my colleagues to adopt this amendment which my chairman and I so strongly support.●

● Mr. FRENZEL. Mr. Speaker, this is a better bill than left the House. There are modest elements of restraint in it. The anticrime privilege is marvelous. We are told, but we have no figures to back it up, that the bill measures up to the Rose Garden agreement described by the President.

Yet, there are problems. First, the procedure is simply awful. Appropriating by grab bag violates every procedural rule we have. Second, we don't know what's in the bill. Only vaguely do we grasp its exterior dimensions.

Unfortunately, we do know that it is a large number, well above last year's spending, and well above a cost-of-living increase. The Defense appropriation for instance, calls for nearly a 10-percent nominal increase. We also know that it is not our last appropriation. Supplementals will continue to increase our deficit next year.

So, with great regret, and with a commendation to the conferees for producing a signable bill, I conclude that to be consistent with my strong feelings about deficits and overspending, I am obliged to vote against the bill.●

● Mr. MINETA. Mr. Speaker, I urge adoption of this provision. First, I feel it is important to read a letter to my colleagues in the House dated July 19, 1984, to the Chairman of the Board of Trustees of the Center, Mr. Roger L. Stevens, and signed by the Vice President of the United States, the Honorable GEORGE BUSH:

> I asked my staff to review the situation regarding the Kennedy Center revenue bonds as described in your letter of May 22. It appears that the administration has a quite specific policy developed by a working group that included representatives of Treasury, OMB and the Kennedy Center. I will certainly mention my support for the administration-sponsored legislation to Don Regan and encourage every effort to resolve this matter in a constructive and responsible fashion.

I believe this letter makes it clear that the administration supports the bill. Therefore, I would like to address one of the key issues concerning this legislation and that is the fact that in 1958 when the Congress created the National Cultural Center, the Board was mandated to present artistic programming of the highest quality, to serve as a national focus for the performing arts in America, and to reach the broadest audience through its activities. Since the Center opened in 1971, $27.5 million has been raised in the private sector thereby allowing the Center to carry out these responsibilities for which the Federal Government provides no support.

Unlike commercial theaters in New York City and elsewhere, in Washington, the Kennedy Center cannot and should not rely on 25-week runs of touring shows—such as "Cats"—shows that have long since returned millions to their investors. To the contrary, section 4 of the act clearly states that the Kennedy Center shall present music, opera, drama, and poetry from this and other countries. Further, it states the Kennedy Center shall present lectures, develop programs for the youth and the elderly, and provide facilities for other civic activities. Mr. Speaker, the programs presented at the Kennedy Center are not always the most popular or profitable.

In fact, it would be easier if the Kennedy Center were to schedule the most popular, the easiest to sell, cheapest to stage performances and devote itself to the business of making money. But this is not the purpose of the Kennedy Center—rather, the purpose of the Center is to enrich our lives and encourage the talent so abundant in our Nation.

Mr. Speaker, some of my worthy colleagues believe that the programs offered by the Kennedy Center are only accessible to a narrow group of local patrons. This is far from correct. The Center reaches far beyond Washington, DC, to enrich the lives of millions of Americans from all walks of life.

The Kennedy Center acting company brings live theater to communities large and small across the United Stated. This year the company visited more than 30 States.

The Terrace Theater further extends the Center's national outreach by providing a performance showcase for theater talent from all around the country. During its first 5 years of operation, the theater presented performances by 300 different groups from across the Nation.

The annual American College Theater Festival this year involved more that 13,500 students from more than 450 colleges and reached an audience of more than 2 million people.

For the past 11 years, 4-H members from all around the country spend a special day at the Kennedy Center, which consists of special tours and art demonstrations sponsored by the volunteer organization Friends of the Kennedy Center in cooperation with the National 4-H Leadership Congress.

In 1984, alone, more that 500,000 people have enjoyed free and low admission performances at the Center.

Some of my colleagues have stated that the Kennedy Center is only for the very rich and elite society of Washington and that the average price ticket is $55. That is not the case. A top ticket price of $55 represents the smallest proportion of tickets for Kennedy Center events and reflects only the extremely high cost of opera engagements and generally, the average price for performances in the Opera House is $30 per ticket. For the Kennedy Center's remaining three theaters, the average prices are $20, $15, and $13 for the Eisenhower Theater, Concert Hall, and Terrace Theater, respectively.

In most instances, patrons who will buy lower priced tickets are doing so on subscription for the very purpose of attending the most performances at an affordable price. The financial reality of the performing arts depends most heavily on a firm base of subscribers. Therefore, the financial reality of the garage revenues also depends upon subscribers.

Some of my colleagues have suggested an increase in the parking rate structure from $3 to $5. Certainly, a patron buying a $55 ticket to the Met would not be disadvantaged by a $5 parking fee. However, subscribers are attending multiple events during the

year and would be the most disadvantaged by an increase in the garage fees. In fact, the Kennedy Center garage would be at a competitive disadvantage in attracting business since it would be immediately priced above parking facilities located directly across the street. In this regard, last year the Kennedy Center garage was filled only 73 times and if the Center's fee were raised above the neighborhood standard, it is virtually certain that business would be lost to other area garages and that net garage revenues would actually decline.

Mr. Speaker, it has been pointed out that in 1987, the Center will annually receive approximately $746,000 in parking revenues, assuming that future net operating profits from parking remain at fiscal year 1983 levels. These revenues would be about $490,000 more than the amount available to the Center in 1983. However, of that amount, $200,000 would immediately be required for new annual payments into the Treasury sinking fund, leaving an immediate net of $300,000. Rising production, overhead, and theater maintenance costs that are the sole responsibility of Kennedy Center will absorb any additional available garage income. For instance, over the past 5 years, the cost of producing and underwriting Kennedy Center programming has increased 230 percent and the Kennedy Center payments to the Park Service have increased 63 percent. The cost of productions has accelerated sharply in the past 3 years. Fewer shows are being produced and the impact is causing new works of art to be developed on a routine basis by the Kennedy Center. This increase in costs is not only being felt by the Kennedy Center, but has also impacted theaters in New York according to various articles in the New York Times. Fortunately, the Kennedy Center has managed these increases with the influx of no Federal dollars by a fivefold increase in its private fundraising to a level of $5 million in fiscal year 1983, and by a streamlined administrative structure that operates with a minimum of overhead. The CPI inflation rate for fiscal year 1978–83 averaged 8.9 percent and for the same period the Kennedy Center's general and administrative expenses experienced an average growth of 4.7 percent. The General Accounting Office has pointed out in three different reports that the Kennedy Center is one of the most efficiently run performing arts centers in the country.

Mr. Speaker, to conclude, the $30 million in interest we are talking about is compound Federal interest on a Federal debt on a building already owned by the Federal Government. The General Accounting Office recently stated that if the amounts due are waived by the Congress, there would be no impact on budget deficits. These amounts were never included in estimates of the national debt. Mr. Speaker, it appears today what this Congress is being asked to do by the administration is to simply restructure the financial books of the Kennedy Center. Although other options which would provide for such restructuring may be valid, this is a consensus legislative proposal supported and endorsed by officials of the Office of Management and Budget, the Treasury, the Senate, and the Vice President of the United States.

Mr. Speaker, the Kennedy Center has lived up to the expectations of former President Eisenhower and President Kennedy by allowing the John F. Kennedy Center for the Performing Arts to reach and influence the lives of millions of people who otherwise would not be able to enjoy the high quality of artistic talent available in the world.

I urge enactment.●

● Mr. BERMAN. Mr. Speaker, I rise today in support of the amendments to the Juvenile Justice and Delinquency Prevention Act of 1974 in House Joint Resolution 648.

These amendments provide for the continuation and implementation of the coordinated, national law-related education program developed and evaluated by the National Institute for Juvenile Justice and Delinquency Prevention. The program has demonstrated that law-related education can reduce delinquency when properly implemented. This achievement has been the result of a coordinated effort of five national organizations—the Constitutional Rights Foundation, Law in a Free Society, the National Institute for Citizen Education in the Law, the American Bar Association, and Phi Alpha Delta Law Fraternity International. Support from the OJJDP has enabled these groups to obtain vast experience and expertise in the development and implementation of successful delinquency prevention programs used in a number of States including my own. This year's program, for example, includes intensive efforts in 11 States and the provision of resources, services, and assistance across the country. Our action today guarantees that the momentum of this program will not be lost and that this national coordinated effort will be enabled to expand throughout this Nation. It is vital that at bare minimum the funding levels provided be maintained.

In a field where failure has been more common than success, law-related education has proven to be a rare exception, an example of a delinquency prevention strategy that works.

I am aware of the strengths of law-related education from the experiences of programs in my State. It is important as a part of our Federal assistance efforts that we capitalize on success—that we not lose the momentum gained in this proven delinquency prevention program and not dissipate its strength.

The law-related program has not only demonstrated its capacity to reduce delinquency, but it has also demonstrated its capacity to foster civic competence and civic responsibility. It provides our youth an opportunity to gain an understanding of and a commitment to the fundamental principles and values essential to the preservation of improvement of our free society.

Our action provides for the continuation and expansion of this national effort, building upon the success of the past several years, coordinated by those with the experience and expertise required for proper training and implementation. This is an exemplary part of our efforts not only to reduce juvenile delinquency and crime but of our efforts to foster the development of civic competence and civic responsibility among our youth.

I am also aware of the virtues of law-related education from the experiences of several programs in my State. In the light of the forthcoming bicentennials of the Constitution and the Bill of Rights, this is a most appropriate time to provide support for the continuation of the proven coordinated national program which not only improves the law-abiding behavior of our youth, but which also focuses their attention on the virtues of the democratic processes of our free society. Law-related programs can improve citizenship skills. They also help students learn to avoid legal problems and to deal more responsibly and effectively with them when they do arise.

I join with my colleagues in supporting the bill/amendment to provide for the continuation and expansion of the coordinated law-related education program developed by the nonprofit organizations supported by the Office of Juvenile Justice and Delinquency Prevention.●

● Mr. TRAXLER. Mr. Speaker, I rise to call attention to certain items contained within the conference report on the continuing resolution for fiscal year 1985. I do so in order to be certain that our intent is clearly documented for the benefit of those who may have to administer these programs.

There are three research items contained within the budget for the Cooperative State Research Service of the U.S. Department of Agriculture which merit discussion. These projects were approved by House and Senate conferees on H.R. 5743, the Agricultural Appropriations Act for fiscal 1985. This conference agreement is incorporated into the matter currently before us today.

First, the conferees on the Agricultural Appropriations Act, including myself, agreed that we should provide $200,000 for Midwestern potato research. It is our intention, as documented by prior description given to the House when we originally voted on H.R. 5743, that this potato research money should be used for research work conducted in Michigan. Michigan is a major potato-producing State, and the processing of potatoes is an important component of Michigan's agribusiness. We expect that varietal research work will be conducted to improve production and utilization technology for potatoes, in accordance with a research proposal initiated by the Michigan Potato Industry Commission.

Second, we also agreed to provide $300,000 for stone fruit decline research in Michigan, involving primarily cherries and peaches. We want to be able to reduce the crop losses that have been experienced as a result of certain disease problems.

This will be the first year of funding for each of these two projects, and I anticipate that the amounts necessary to complete the research design will be considered in later appropriation bills.

Finally, our conference on the Agricultural Appropriations bill also concluded that we expect that the wood utilization research program center located at Purdue University will cooperate with Michigan State University on research conducted in the Midwest. There are substantial forested areas in Michigan, and a large number of wood utilization businesses, including furniture manufacturers and other processed wood manufacturers. Michigan State University has already begun an aggressive research program in this area, and we will only take advantage of this developed expertise when we expect that the midwestern center will include Michigan State University as a meaningful partner.

I also want to call attention to the fact that with respect to the funding provided for biotechnology under the competitive research grant program operated by the Cooperative State Research Service, it is our understanding and intention that this funding also be available for animal research. This is an important field which should not be ignored given the importance of animal agriculture in our Nation.

Mr. Speaker, I also want to point out that the conferees on the continuing resolution at my urging agreed to a provision included by the Senate under the sponsorship of Senator LEVIN of Michigan. This provision allows the Department of Agriculture to use remaining fiscal 1984 balances in the Commodity Supplemental Feeding Program to settle an outstanding administrative funding claims associated with the handling of regular and bonus commodities by CSFP operators during fiscal 1982, notwithstanding any other provision of law.

During our debate on the jobs bill last year, H.R. 1718, we directed that the Food and Nutrition Service utilize funds from the Commodity Credit Corporation equivalent to 15 percent of the value of CCC donated commodities given to CSFP operators for administrative expenses. These funds were to be used to cover the costs associated with the handling of so-called bonus commodities that were not part of the regular food package in this program and which were distributed during fiscal 1983. Later, we provided a transfer of $585,000 from CCC to FNS to cover the costs associated with the handling of bonus commodities distributed during fiscal 1982. Those funds were included in H.R. 3069.

Our intention in this transfer for fiscal 1982 was to again provide for a flat 15 percent administrative funding level. But the information that we received from USDA was later updated to reflect the fact that the value of these bonus commodities was higher than we were told prior to the debate on H.R. 3069.

The amendment in the Senate, now contained in the conference report, is intended to allow for our original intent of providing 15 percent of the value of these bonus and regular commodities for administrative costs to be met. Focus: HOPE, the CSFP operator in Detroit, has formally petitioned USDA for the additional administrative funds, but had been turned away based upon a statutory technicality which prevented the use of existing funds for settling the claims of a prior fiscal year. This provision eliminates this technical bar so that USDA can consider the merits of the claim. We expect that the Department will move promptly to resolve this issue.

Mr. Speaker, I appreciate the attention given to these four items.●

Mr. WHITTEN. Mr. Speaker, I conclude by asking the support of our colleagues for this conference report.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. Speaker, I move the previous question on the conference report.

The previous question was ordered.

The SPEAKER. The question is on the conference report.

Mr. FRENZEL. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were refused.

□ 2340

Mr. FRENZEL. Mr. Speaker, on that I demand a division.

On a division (demanded by Mr. FRENZEL) there were—ayes 252, noes 60.

So the conference report was agreed to.

A motion to reconsider was laid on the table.

AMENDMENT IN DISAGREEMENT

The SPEAKER. The Clerk will report the amendment in disagreement.

The Clerk read as follows:

Senate amendment No. 14: Page 2, after line 3, insert:

The following may be cited as "The John F. Kennedy Center Act Amendment of 1984".

Section 9 of the Kennedy Center Act (20 U.S.C. 76o) is amended—

(1) by inserting "(a)" immediately after "SEC. 9.", and by striking out the third, fourth, and seventh sentences thereof; and

(2) by adding at the end thereof the following new subsections:

"(b) Effective as of the date of enactment of this subsection the obligations of the Board incurred under subsection (a) of this section shall bear no interest, and the requirement of the Board to pay the unpaid interest which has accrued on such obligations is terminated.

"(c) There is hereby established in the Treasury of the United States a sinking fund, the Kennedy Center Revenue Bond Sinking Fund (hereinafter referred to as the 'Fund'), which shall be used to retire the obligations of the Board incurred under subsection (a) of this section upon the respective maturities of such obligations. The Board shall pay into the Fund, beginning on January 1, 1987, and ending on January 1, 2016, the annual sum of $200,000 in amortization of the principal amount of the obligations. Such sums shall be invested by the Secretary of the Treasury in public debt securities with maturities suitable for the needs of the Fund and bearing interest at rates determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States of comparable maturities. The interest on such investments shall be credited to and form a part of the Fund. Moneys in the Fund shall be used exclusively to retire the obligations of the Board incurred under subsection (a) of this section. Adjustments of not greater than plus or minus 5 per centum may be made from time to time in the annual payments to the Fund in order to correct any gains or deficiencies as a result of fluctuations in interest rates over the life of the investments: *Provided, however,* That a final adjustment shall be made between the Board and the Secretary of the Treasury at the end of the amortization period to correct any overall gain or deficiency in the Fund. The terms of this adjustment shall be covered by a memorandum of understanding between the Board and the Secretary of the Treasury to be consummated on or before the time the initial payment into the Fund is made.".

MOTION OFFERED BY MR. YATES

Mr. YATES. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. YATES moves that the House recede from its disagreement to the amendment of the Senate numbered 14, and concur therein.

The SPEAKER. The gentleman from Illinois [Mr. YATES] will be recognized for 30 minutes and the gentleman from Massachusetts [Mr. CONTE] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Massachusetts [Mr. CONTE].

PARLIAMENTARY INQUIRIES

Mr. MOLINARI. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER. The gentleman will state it.

Mr. MOLINARI. Mr. Speaker, just so I am sure that we are in agreement, we have had a discussion, I was asking for a division of the question and it is my understanding, and I would like to confirm that, that we are going to have a vote first on the motion to recede.

The SPEAKER. The question will be divided, and the gentleman's rights will be protected.

Mr. MOLINARI. I thank the Chair.

Mr. YATES. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER. The gentleman will state it.

Mr. YATES. Mr. Speaker, I understand that the gentleman from New York [Mr. MOLINARI] has a preferential motion?

The SPEAKER. A preferential motion would be in order if the House votes to recede, but we have not come to that point yet.

Mr. YATES. Mr. Speaker, at what point is it in order to ask the House to recede?

The SPEAKER. The Chair can put the question now if the gentleman desires.

Mr. YATES. Mr. Speaker, I request that the Chair put the question on the recession of the House.

As I understand it, the Chair has already divided the issue?

The SPEAKER. The gentleman is correct, at the request of the gentleman from New York [Mr. MOLINARI].

The SPEAKER. The question is, Will the House recede from its disagreement to Senate amendment No. 14?

The House receded from its disagreement to Senate amendment No. 14.

PARLIAMENTARY INQUIRIES

Mr. YATES. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER. The gentleman will state it.

Mr. YATES. Mr. Speaker, is it in order at this time for the gentleman from New York [Mr. MOLINARI] to offer his motion?

The SPEAKER. It is.

Mr. YATES. Mr. Speaker, I have another parliamentary inquiry.

The SPEAKER. The gentleman will state it.

Mr. YATES. Mr. Speaker, I do not yield to the gentleman from New York for that purpose. As I understand it, the Chair will now recognize the gentleman from New York to make his motion.

The SPEAKER. The gentleman may offer the motion, but you control one-half of the time on the pending motion to concur in Senate amendment 14.

Mr. YATES. Right. I thank the Speaker.

PREFERENTIAL MOTION OFFERED BY MR. MOLINARI

Mr. MOLINARI. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. MOLINARI moves that the House concur in the amendment of the Senate numbered 14 with an amendment as follows: In lieu of the matter inserted by said amendment, insert the following:

Section 9 of the John F. Kennedy Center Act (20 U.S.C. 760) is amended by inserting "(a)" after "SEC. 9." and by adding at the end thereof the following:

"(b) The Secretary of the Treasury (hereinafter in this section referred to as the 'Secretary') shall, on September 30, 1987, credit an amount equal to the total value in excess of $23,000,000 of all gifts, bequests, and devises of money, securities, and other properties received on or before September 30, 1987, by the Board for constructing, equipping, and operating the Center and discharging the Board's responsibilities under section 4 of this Act against the interest accrued as of such date on bonds issued under subsection (a). The obligation of the Board to pay the amount of any interest credited under this subsection is terminated, effective September 30, 1987.

"(c)(1) Notwithstanding subsection (a) of this section and the terms of the bonds issued under subsection (a), the Board and the Secretary may enter into an agreement before September 30, 1987, which takes effect on September 30, 1987, providing for the cancellation of the bonds issued under subsection (a) and providing for a new contractual obligation of the Board for payment to the Secretary of a principal amount of $20,400,000. Interest on such principal amount shall be determined in accordance with paragraph (3) of this subsection. If the Board and the Secretary enter into an agreement under this subsection, the obligation of the Board to pay any principal and interest on the bonds under subsection (a) is terminated, effective September 30, 1987.

"(2) An agreement entered into under this subsection shall require annual payments of principal and interest by the Board to the Secretary until such time as the principal amount of the new obligation entered into by the Board under this subsection is repaid, as determined under paragraph (3). Each such annual payment shall be in an amount equal to 50 percent of the net revenues received by the Board from the operation of the parking facilities in the John F. Kennedy Center for the Performing Arts. For purposes of this paragraph, the term 'net revenues' means gross revenues less amounts required to be paid under any contract, or reasonably necessary to be expanded by the Board in the absence of such a contract, for the operation of such parking facilities.

"(3) Fifty percent of each annual payment under paragraph (2) or $250,000, whichever is greater, shall be credited toward the repayment of the principal amount of the new obligation entered into by the Board under this subsection, except that if the amount of such payment is less than $250,000 the entire amount of such payment shall be credited toward the repayment of principal. The remaining portion of any annual payment shall be the interest on such obligation for the year.

"(4) The Board may, at any time after an agreement under this subsection takes effect, pay amounts in addition to those required to be paid under paragraph (2) and the entire amount of any such additional payment shall be credited toward the repayment of the principal amount of the new obligation entered into by the Board under this subsection.

"(5) Any amount paid to the Secretary under this subsection shall be deposited into the general fund of the Treasury.

"(d) There is hereby established in the Treasury of the United States a sinking fund to be known as the 'Kennedy Center Revenue Bond Sinking Fund' (hereinafter referred to as the 'Fund'), which shall be used to retire the obligations of the Board incurred under subsection (a) of this section upon the respective maturities of such obligations. The Board shall make an annual payment to the Secretary for deposit into the Fund to amortize the principal amount of such obligations, not later than January 1 of each of the 30 consecutive calendar years beginning after December 31, 1986. The amount of each such payment shall be $200,000, except that such amount may be increased or decreased by the Secretary for any such calendar year by not more than five percent in order to correct any gains or deficiencies in the Fund as a result of fluctuations in interest rates over the life of the investments made under this subsection. Amounts in the Fund shall be invested by the Secretary in public debt securities with maturities suitable for the needs of the Fund and bearing interest at rates determined by the Secretary, taking into consideration the current average market yield on outstanding marketable obligations of the United States of comparable maturities. The interest on such investments shall be credited to and form a part of the Fund. Amounts in the Fund shall be used exclusively to retire the obligations of the Board incurred under subsection (a) of this section. A final adjustment shall be made between the Board and the Secretary at the end of the period in which payments are required under this subsection to correct any overall gain or deficiency in the Fund. The terms of such adjustment shall be covered by a memorandum of understanding between the Board and the Secretary to be consummated on or before the date the initial payment into the Fund is made.

"(e) Any contract for the operation of the parking facilities in the John F. Kennedy Center for the Performing Arts which is entered into by the Board after the date of enactment of this subsection shall be negotiated in consultation with the Secretary.".

Mr. MOLINARI (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from New York?

There was no objection.

PARLIAMENTARY INQUIRY

Mr. YATES. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER. The gentleman will state it.

Mr. YATES. Mr. Speaker, as I understand the parliamentary situation, I have been recognized for 30 minutes, and the gentleman from Massachu-

setts [Mr. CONTE] will be recognized for 30 minutes.

The SPEAKER. The gentleman is correct, if the gentleman from Massachusetts seeks the time.

Mr. YATES. I thank the Chair.

Mr. Speaker, I yield myself 5 minutes.

Mr. Speaker, first I want to commend the gentleman from New York [Mr. MOLINARI], the gentleman from Florida [Mr. SHAW], and the gentleman from New York [Mr. SOLOMON], for bringing this issue to the House. I think it is an important issue. It is one that has been pending almost ever since the Kennedy Center was created because of the agreement that the Kennedy Center underwent by creating a bond issue which the Treasury issued for a 20-year period under which the Kennedy Center was permitted to construct its garage.

It may surprise my good friends from New York and Florida to know that I share much of their reluctance with the way in which we are dealing with the financial problems of the Kennedy Center in the continuing resolution. I, too, have frequently been annoyed over the years with the constant assertions by the Chairman of the Center that no Federal funds have gone into its construction and programing, when we in the Congress have appropriated millions of dollars both directly, and indirectly through the programs of the Department of the Interior and the National Endowment for the Arts, to the Kennedy Center. And I, too, have been greatly concerned with the apparent absence of any sound, long-range financial planning by the Center, and its failure to set aside funds to repay a Federal bond issue which has now grown to such staggering dimensions.

Nevertheless, Mr. Chairman, I support the provision inserted by the other body, which would establish a Kennedy Center revenue bond sinking fund, which will be used to retire the principal sum of the bond issues. If this measure is not passed before the end of the year, the Treasury Department has announced that it will declare the Kennedy Center in default, sullying the name of the late President for whom this living memorial was named, and in all likelihood, ending all hope of continued public and corporate financial support of the Center.

I share my colleagues' concern over the negligent way the management has failed to make any provision over the years for the payment of the interest on this bond issue, let alone the principal. But the fault has not lain solely with the Center it hasn't been able to make the payments. As early as August 8, 1972, the General Accounting Office reported to the Congress that "We believe that parking operations cannot generate the required gross receipts during the 15 years of the parking-concession agreement." On April 11, 1975, the GAO reported that,

> The Center's net income has not been sufficient to cover the bond interest or provide for retirement of the bonds. Net income could be increased in future years by various means, but it is doubtful that sufficient revenue can be generated to enable the Center to pay the commulative bond interest due in 1978 without development of additional financing or sources of funds.

On December 20, 1977, the GAO, in a report aptly titled, "The John F. Kennedy Center for the Performing Arts is Financially Troubled," stated that,

> The Center has not made provision to pay $10.5 million in interest owed on bonds held by the U.S. Treasury; has not paid its full share of building maintenance costs; and has not been able to pay all of its operating expenses when due.

Where was the Congress in the wake of all of these clear warnings? Where were the Nixon administration, the Ford administration, the Carter administration in the face of these danger signals? There is plenty of blame to spread. The Treasury Department, in all the years that interest was due, deferred calling for payment. The current administration was so certain that the interest would never be paid that, in a statement in hearings held by the Committee on Public Works and Transportation in April of this year, Treasury indicated that estimates of the amount owed had never been included is estimates of the public debt and had never even been charged against the deficit.

Mr. Speaker, history is in order. The John F. Kennedy Center for the Performing Arts was authorized by an act of Congress in 1958 as the National Cultural Center. Following the assassination of President Kennedy, Congress by a unanimous joint resolution dedicated the Center as the sole memorial in the Nation's Capital to President John F. Kennedy, and renamed the Center as a living memorial to him in 1964.

At that time, Congress authorized and appropriated $23 million in matching funds and approved $20.4 million in Treasury loans to help construct the building. The Center's Board of Trustees—this was not only a Government grant; listen to this—the Center's Board of Trustees exceeded its match by raising $34 million in contributions from the private sector and subsequently it raised an additional $28 million to sustain the performing arts of the Center.

What is at issue here is a $20.4 million loan which is made up of 21 separate bonds whose principal is due between the years 2017 and 2019. Each bond has a simple interest rate ranging between 3½ and 6 percent.

□ 2350

Listen, this is where the trouble came in. There was a penalty clause in the agreement that compounded the interest that went into default and it is the compounding of the interest that led to the $30 million in interest that is currently owed by the Center, and it is interesting, as the gentleman from New York has pointed out, a ridiculous situation which will occur under this compounding. If nothing is done to take care of this matter, by the year 2019, the time that the principal matures, the principal is $20 million, the interest owed will be $800 million, 30 years away; so the numbers become meaningless at this point. It was just irrational to put a compounding clause in that.

Now, I do not know that there is a great deal of difference between the proposal that the gentleman from New York will present to the House or the one that has been approved by the other body and in which we ask your concurrence. As of the present time, the parking revenues, and the dispute relates almost entirely to the parking revenues, the parking revenues are divided between the parking concessionaire and the Kennedy Center. Half of them go to the concessionaire, half go to the Kennedy Center. The amount the Kennedy Center receives is $800,000 per year, approximately, that is on the average. That is what has taken place.

This is, we must remember, a national monument, on a par with the Lincoln, and Jefferson, and Washington Memorials which grace our Nation's Capital. Whom do we benefit by charging interest on a loan to create a national monument, interest which will soon exceed, by the gentleman's calculation, the principal 40 times over? Whom do we benefit by causing the Kennedy Center to default, losing all credibility among the corporate and philanthropic communities, who have been so generous in their contributions? Interest never should have been imposed at all. Indeed, there could be a strong argument made that we never even should have required a loan in the first place, but taken the responsibility to pay for the construction in its entirety, or at least conditioned it all on matching funds. What is involved here? There is not a great deal of difference. Both forgave past interest.

The Kennedy Center has fulfilled its congressional mandate. Since its opening in 1971, more than 16 million patrons have attended some 13,000 performances. More than 1.7 million people have purchased half-price tickets through a special ticket program for the elderly, the handicapped, enlisted military, and others with fixed low income. Hundreds of thousands of people every year enjoy free and low

admission performances and events sponsored by the Kennedy Center, both in Washington, and in cities throughout the country. Over 48 million people from all over the world have visited the Center, and the Center has entertained, educated, and served millions of other Americans around the Nation through radio and television programs, touring productions, and education programs.

I don't know why Treasury, after all these years, has decided to call for a default. And if there were more time left, I would be glad to go through the regular authorization process. But we are facing a year end deadline, the measure before us has been passed in the other body, and it has the support of not only the administration, but the leadership on both sides of the aisle in the House. And I will guarantee my colleagues that, as chairman of the Appropriations Subcommittee responsible for the Department of the Interior and the Smithsonian Institution, the Kennedy Center's two parents, I will keep the Center's feet to the fire, to ensure payment by the Center into the sinking fund, and to ensure that better management and planning practices surface than have in the past.

This is not a beautiful measure that we pass here today, but it is a necessary one. I urge its adoption.

Mr. MOLINARI. Mr. Speaker, will the gentleman yield for one short queston on that?

Mr. YATES. Sure, I yield to the gentleman.

Mr. MOLINARI. Mr. Speaker, I think the gentleman, if he checks the record, will find that the split is now 70 to 30, not 50 to 50.

Mr. YATES. Seventy to the Kennedy Center?

Mr. MOLINARI. Seventy to the Kennedy Center, yes.

Mr. YATES. And what is that amount, is it still $800,000, approximately?

Mr. MOLINARI. It is going to differ from year to year.

Mr. YATES. Yes.

Mr. MOLINARI. In 1987——

Mr. YATES. But I mean, on the average it has been $800,000 and in the testimony before our committee the amount that was given to us was roughly $800,000 a year.

Mr. MOLINARI. That is roughly correct.

Mr. LEVITAS. Mr. Speaker, will the gentleman yield?

Mr. YATES. I will yield in just a minute.

Let me yield to my friend, the gentleman from Pennsylvania [Mr. McDADE] first.

Mr. McDADE. Mr. Speaker, I thank my colleague from Illinois for yielding. I regret that we are taking this issue up at this hour and detaining the House.

I want to say that I believe my colleague from Illinois has explained the matter very thoroughly. The GAO has indicated there is not any way that the Kennedy Center could possibly repay what was imposed upon them some 25 years ago when they set up this arrangement with a compounding bond interest.

Let me say to my colleagues that you have a choice here. You can demand payment, I suppose, and we would end up doing one thing. We would close the doors at the Kennedy Center.

Now, I do not think we want to close the doors at our national cultural center.

Let me say to my colleagues, you have got to ask yourselves, who owns the Kennedy Center? We own it.

The SPEAKER. The time of the gentleman from Illinois has expired.

Mr. YATES. Mr. Speaker, I yield myself 5 additional minutes.

Mr. McDADE. Mr. Speaker, if the gentleman will yield further, I think it is important to realize that we own the Kennedy Center.

Now, the Senate has added this to the bill. It is true when my colleagues had a complaint that they did not have an opportunity to bring their authorization bill to the floor, but I do not think we want to send this back to the Senate at midnight and have them do something tomorrow, maybe tie up the conference report, maybe have the consequence of closing this Center, which my colleague has correctly pointed out has seen collected from the private side $60 some million to keep it running.

Now, I think we ought to commend the people at the Kennedy Center for having established here in our National Capital one of the great cultural centers of the world. We ought to vote this down quickly and send the continuing resolution over to the other body.

Mr. LEVITAS. Mr. Speaker, will the gentleman yield?

Mr. YATES. I yield to the gentleman from Georgia.

Mr. LEVITAS. Mr. Speaker, I thank the distinguished chairman for yielding.

In a moment I am going to address the point that the gentleman has just made as to what is the Kennedy Center. It is an agency of the Government that owes another agency of the Government some money, and we will address that in a moment; but I want to suggest that the gentleman from Illinois is absolutely correct, because under the amendment that is being offered by the gentleman from New York there would be a 50-50 split of the parking garage revenues, which would take some 80 years to pay off the debt that is due, the principal of that debt; so consequently, the Government will in effect get its money back sooner under the provision adopted by the Senate, rather than that which will be offered by the gentleman from New York.

Mr. YATES. Now, the differences, as I understand the proposals, and I wish the gentleman from New York would listen to me, so that I explain what I think is his proposal as well as that which is under consideration.

It is proposed in the version that the other body has adopted that the Kennedy Center pay $200,000 a year from the parking revenues into a sinking fund and that plan, which has been approved by the Treasury Department and by OMB, I repeat, OMB has approved it and the Treasury Department has approved it, it is proposed that that will pay off the principal by the year 2017, which is the date of maturity of the bond issue. No interest will be charged on that principal. That is the key point of difference between the gentleman's amendment and mine.

It has been represented that this is a bailout of the Kennedy Center. There is no difference between the gentleman's proposal and the proposal we have with respect to past due interest. The gentleman's proposal waives that interest. Our proposal waives that interest. The Kennedy Center under both proposals will not pay that interest.

What our proposal does is to say the Kennedy Center has to pay $200,000 per year until year 2016 when it will be paid off.

The gentleman's proposal will require a split of the parking revenues and the application by the Kennedy Center to the payment of principal every year and whatever amount is left over beyond the payment of principal each year from those parking revenues will be considered interest on that principal.

Does that explain it?

Mr. SHAW. Mr. Speaker, will the gentleman yield to me, please?

Mr. YATES. I just want an answer to my question. Is that correct?

Mr. MOLINARI. Mr. Speaker, will the gentleman yield?

Mr. YATES. Yes, I yield to the gentleman from New York for a reply.

Mr. MOLINARI. One point the gentleman left out, and I am glad the gentleman yielded. The compromise provides that the first $250,000 that is paid by the Kennedy Center treasury is applied to principal, or 50 percent of the amount received, whichever is greater.

Mr. YATES. Right.

Mr. MOLINARI. So it is not 80 years, as the gentleman from Georgia said. It could be a lot less.

Just to complete the question, under the gentleman's proposal, it is $200,000 a year, a total of $6 million under the gentleman's proposal, $20.4 million under ours.

Mr. YATES. Now, the Treasury Department has approved the proposal that I am sponsoring. The Treasury Department is opposed to the proposal of the other side. It says that it could not possibly keep track of the bookkeeping that would be necessary under the proposal of the gentleman from New York. Ours is specific. It would permit the Kennedy Center to go forward.

Now, the pending amendment wants to charge interest. Who do we benefit if we charge interest here?

You know, there is an old legal expression beginning "de minimis," the law takes no notice of trifles. There is not a great deal of difference in the amounts that are available here. Ordinarily the difference that is represented would be made up of a subsidy. We want the Kennedy Center to remain open.

The SPEAKER. The time of the gentleman from Illinois has again expired.

Mr. YATES. Mr. Speaker, I yield myself 2 additional minutes.

The Kennedy Center has become one of the great cultural institutions of the world. If we do not settle this problem tonight, either with the gentleman's plan or ours, OMB has indicated that it will call a default later this year.

Now, what could be worse than requiring the Kennedy Center to default on its obligations? Who gains on something like that?

This is a living memorial to one of America's great Presidents and we ought to see that it is placed on a sound financial structure.

Mr. WILSON. Mr. Speaker, will the gentleman yield?

Mr. YATES. I yield to the gentleman from Texas.

Mr. WILSON. How much time does the gentleman from Illinois have?

Mr. YATES. I have 30 minutes in all and I have already used up about 12 minutes.

Mr. WILSON. Well, the gentleman does understand and does agree that the Kennedy Center has without any question probably more private funds than any national cultural center anywhere in the world.

Mr. YATES. I am not sure I understand the gentleman's point.

Mr. WILSON. There are more private funds in the Kennedy Center in relation to Government funds——

Mr. YATES. Does the gentleman mean made as contributions to the creation of the Center?

Mr. WILSON. Yes, from the private sector.

Mr. YATES. Yes, I agree.

Mr. WILSON. I know of no other that is even competitive, but the major point in considering the Kennedy Center's financial situation in relation to other cultural institutions, would the gentleman agree, that the Kennedy Center cannot sponsor a show like "Cats" for 3 or 4 months. The Kennedy Center is obligated to do the National Ballet, and the National Symphony, and all the rest.

Mr. YATES. That is right. The gentleman is exactly right, and the Kennedy Center is a unique institution in that respect.

Mr. Speaker, I urge the House to reject the gentleman's preferential motion and to vote to concur with this.

□ 2400

Mr. CONTE. Mr. Speaker, I yield 8 minutes to the gentleman who is the ranking minority member of the Public Buildings and Grounds Subcommittee of the Committee on Public Works and Transportation, the gentleman from Florida [Mr. SHAW].

Mr. SHAW. I thank the gentleman for yielding. It is now 12 o'clock.

I would like to first of all thank the gentleman from Mississippi, the gentleman from Massachusetts, the gentleman from Illinois, and the gentleman from Pennsylvania for making it possible to bring this particular item back to the House.

I am sorry that it is 12 o'clock. However, this is a most important item.

I do not want any Member here tonight to go home and have voted on this issue and not have understood exactly what you are saying. There is a big difference between what the other body has sent over to us and what we are proposing here tonight as an amendment to send back to them.

I can tell you, colleagues, that it is absolutely necessary that we look very carefully at this issue and the millions of dollars that it is going to be costing the folks at home if we cave in to the other body's position.

Now, it is certainly worthwhile to send this thing back. We have spent in my subcommittee hours, days, weeks, and months in going over this whole matter with the Kennedy Center people. We have come up with a workable solution. It is not the best solution for the taxpayers, I grant you that.

It is forgiving over $30 million in interest, which I am opposed to. But after examining their books and records, looking at their cash-flow statement, I am convinced, as is the gentleman from New York [Mr. MOLINARI] and as every member of our committee was, that they could not pay the original indebtedness under their original bonding agreement as they represented to the Congress back in 1964 that they could do.

So, accordingly, we looked at the facts and figures, and we tried to come up with what we thought was a workable compromise.

Under the position of the other body they will pay off an indebtedness, a principal indebtedness to the Federal Government which is now owed in the amount of $20 million, plus the $30 million in interest, they will only pay back to Uncle Sam $6 million.

Now, how are you going to go home and explain that? You forgave $30 million in interest, and then you are being asked, in addition, to forgive $14 million in principal that is owed.

Mr. Speaker, what was this money borrowed for? It was borrowed to build a garage under the Kennedy Center, a revenue-producing garage which throws off right now well in excess of $2 million a year. All we are asking under this compromise is that half of the Center share of that revenue go to pay back poor old Uncle Sam.

What else can you possibly do that your taxpayers would appreciate more than requiring that the Federal Government get something that is owed to them back?

And where is this Kennedy Center losing its money? It is losing it on Broadway shows. It is losing it on the big money things that you and I go to that cost $50 a ticket. How in the world they are doing that I do not know. But this is the way this place is being managed now.

Mr. LEVITAS. Will the gentleman yield?

Mr. SHAW. I yield to the gentleman from Georgia.

Mr. LEVITAS. I thank the gentleman for yielding.

Would not the gentleman concede that none of the losses of the productions, whatever they may be, are in any way subsidized by the Federal Government and that the Federal Government to whom the money is owed is also the entity that owns the Kennedy Center, it is owned by everybody in America, and that the Kennedy Center for the Performing Arts is the U.S. Government itself?

Mr. SHAW. I would disagree with the gentleman from Georgia because the part of the money that is owed to the Federal Government is the revenue that is produced from that garage that is now going to subsidize Broadway shows. There are theaters here in town, the National Theater. It makes money out of the productions that come in there, I would certainly think. We do not subsidize them. We do not subsidize the New York theaters, and we do not subsidize the Fort Lauderdale theaters. In fact, we did not even build them. We did not even build them. They were built by the people paying local tax dollars building their own theaters.

Here in Washington we built that theater, and I do not disagree with that. I think the National Theater for the Performing Arts is one thing. But we have to demand good management and sound fiscal policies. We have not seen that. We have seen absolutely a disaster in management occurring

down here at the Kennedy Center, and now we are being asked to forgive, forgive the indebtedness owed to us.

All we are asking is not all of the revenue from the garage, just half, just half to come back and pay back poor old Uncle Sam. That is just revenue. We are taking no money away from the cultural aspects of the Kennedy Center. We are not taking anything away from the Kennedy Center. All we are asking is what is justly ours.

As a matter of fact, what we are asking is not even going to interfere with the cash flow, because we were so careful that we looked at the point in time when they were going to increase their revenue from the parking garage, and that was the first time that we were going to ask them to pay what we felt was at least the least that we could possibly ask them to pay in good conscience.

Mr. REGULA. Will the gentleman yield to me?

Mr. SHAW. I yield to the gentleman from Ohio.

Mr. REGULA. The gentleman used the word "they" as if this is another entity removed from the Federal Government. Who exactly is "they"? You say "they" owe to the Federal Government.

Mr. SHAW. Oh, yes; oh, yes.

Mr. REGULA. Who is "they"? Is it the board, or is there another entity there?

Mr. SHAW. There is a board of trustees that is a separate entity, that we do not even have the freedom of information as to the books and records. Their meetings are closed. This is a separate entity entirely.

I might say while I am talking about "they," they, at least their spokesman, who was in the Public Buildings and Grounds Subcommittee meeting when we worked out this compromise, agreed to the compromise. And then they went on a shopping expedition, and they went over to the other body and they got a better deal. Now they come back and say their trustees did not agree.

I would like to finish my sentence and then I will be glad to yield, if I have any time left.

They now come back and say, "Well, our board of trustees does not agree."

The individual they sent down here as their legal representative, they agreed.

Mr. LEVITAS. Will the gentleman yield?

Mr. SHAW. I will be glad to yield to the gentleman from Georgia.

Mr. LEVITAS. I asked the gentleman to yield to answer the question that was asked. The Kennedy Center for the Performing Arts is a statutorily created board of directors as a unit of the Smithsonian Institution. It is part of the Federal Government.

Mr. SHAW. I would like to say that it is completely independent of the Federal Government and it was put under the Smithsonian because the Federal Government really did not know what else to do with it. It acts independently, and I think to say it is really an arm of the Federal Government is somewhat stretching it.

As a matter of fact, if it is an arm of the Federal Government, then the parking concession that they entered into would be illegal because it was not put out for bids and it did not follow any of the requirements for the Federal Government in this particular situation.

I think that we ought to take a very close look at that agreement because it is so one sided.

Ms. OAKAR. Will the gentleman yield?

Mr. SHAW. I will be glad to yield.

Ms. OAKAR. I want to thank you for yielding because I do not agree with you. I just want to make one quick comment and I really thank you for yielding.

You mentioned that here we are subsidizing theater and so on. I think our country——

Mr. SHAW. I would correct the gentlewoman. We are subsidizing a parking garage under the Kennedy Center.

Ms. OAKAR. I think you said subsidizing broadway shows. I just want to say I think our Government is extraordinarily remiss in subsidizing the arts. The arts heal the soul.

England, Germany, all of the great Western cultures subsidize the arts. We ought to do more, not less.

Let us vote for this and get it over with.

Mr. McDADE. Mr. Speaker, I yield 13 minutes to my distinguished colleague from New York [Mr. MOLINARI].

Mr. MOLINARI. First, Mr. Speaker, I would like to apologize to my colleagues for taking this matter up so late, and we are going to try to move it as quickly as possible.

If we can just bide our patience a little bit we might be able to complete this very quickly.

I would like to ask the gentleman from Georgia a question before I start, if I may. There has been a great dispute in the last several weeks as to whether or not our subcommittee put forth a proposal to the Kennedy Center that they accepted.

Now, the gentleman from Georgia played a very integral role during those negotiations, and I would like to ask you to answer that question, if you would.

Mr. LEVITAS. Would the gentleman yield?

Mr. MOLINARI. I will be glad to yield.

Mr. LEVITAS. I will be happy to answer the question.

The gentleman from Georgia, along with staff of the Committee on Public Works and Transportation, acted as a go-between, a negotiator, a mediator on behalf of the proposals that were being put forth by the gentleman from Florida, the gentleman from New York, and others.

□ 2410

That proposal was acceptable, albeit reluctantly, to the representatives of the Kennedy Center and I made that representation to the subcommittee.

I think in fairness I should also point out that the Kennedy Center Board of Directors in this instance did not have the final say-so and made it clear that it would have to also be acceptable to the Department of the Treasury. As the gentleman from New York knows, the Treasury Department rejected the proposal which we in fact had agreed upon.

Mr. MOLINARI. I thank the gentleman.

Let me call to the attention of the Members of the body a missal that appeared underneath our doors tonight. I am sure some of you did not see it. It was sent out by the Department of the Treasury. I will read just one portion: "We want you particularly to know that the Kennedy Center and Treasury never accepted any alternative proposal nor was any formally presented." Now that is what we are dealing with. There is Treasury denying the statement that was made by the gentleman from Georgia. That is what we are up against. Let me tell you what we are doing here or trying to do. We are not trying to close Kennedy Center down; what we are trying to do is to preserve it and we have geared a bill that is geared to the ability of the Kennedy Center to pay.

They cannot pay $3.3 million compounded interest, they cannot pay simple interest of $1.2 million a year, but they can pay something.

Under our compromise, understand what we are talking about, we are gearing it to what they are receiving; 50 percent of what they are receiving come to the Treasury.

The first $250,000 or 50 percent, whichever is greater, goes to reduction, immediately, of principal indebtedness and the balance, whatever it is, is treated as interest.

Now think about what happens the first year that it is triggered, in 1987; $800,000 the GAO says is going to be paid to the Center. They would pay Treasury $400,000; $250,000 is credited to principal and we get the magnanimous sum of $150,000 in interest, not $3.3 million compound interest, not $1.2 million simple interest; $150,000.

Now it gets me sick when I hear people get up and talk about how Mr. Stevens of Kennedy Center is so upset at the compounding of interest that occurred here. What difference does it make, I ask you, whether the interest was compounded or not? They do not

want to pay any interest. Now let us talk about the real difference between the bailout passed by the other body and espoused by some people here. What we are offering is a reasonable compromise. Instead of $6 million being paid they will pay $20.4 million in principal and, yes, we do waive the $33 million in past-due interest. We have not fashioned a hard deal. In addition to that, we are going to be collecting some interest for the taxpayers and as the principal goes down that interest is going to go up.

Members should know that right now they have paid out almost $3 million in interest to APCOA, the concessionaire, the parking garage concessionaire, for the lease that they have, and they are paying $697,000 this year to American Security Bank, $500,000 in principal, $197,000 in interest, but they cannot pay a dime to the taxpayers.

Now we have asked this bill to be brought up for the last 6 months so that we can have a full airing of it. We do not want to close Kennedy Center. You talk about Kennedy Center and you invoke the name of a President we all love; it is like talking about the Statue of Liberty. It is sacrilegious to get up here and speak against it. But, damn it, somebody has to come up and talk some sense and say let us come up with a reasonable proposal. We do not want to close Kennedy Center.

Nobody has suggested that they cannot pay some interest to the taxpayers, and I am saying they can. They are charging $3 for parking. Now let me just conclude by saying this to you: They say they cannot raise their parking fees from $3 to $4. Why? Because they are going to lose customers who are paying $40 to $55 a ticket for some events. Now let me just bring to your attention that Lincoln Center, my friends, Lincoln Center in New York City charges $15 to park, five times what the Kennedy Center is charging, and the nearby lots charge $10 to $13. They netted last year $2 million.

That is what we are talking about.

Mr. McDADE. Mr. Speaker, will the gentleman yield to me?

Mr. MOLINARI. I will be glad to yield to the gentleman from Pennsylvania.

Mr. McDADE. I thank the gentleman for yielding.

The gentleman [Mr. MOLINARI] is an able man. The gentleman surely is not comparing the rate in New York City with the rate in metropolitan Washington?

Mr. MOLINARI. I would be glad to answer that question. Mr. Stevens says he has a more reliable market here in Washington to sell tickets than they do in New York.

Mr. McDADE. The gentleman did not answer my question. Is the gentleman trying to compare the charge at Lincoln Center with the charge in Metropolitan Washington for parking?

Mr. MOLINARI. Mr. Stevens has made that comparison.

Mr. McDADE. Obviously they are quite different, the gentleman knows that, the gentleman lives up there.

Mr. MOLINARI. Does the gentleman mean to tell me that we cannot afford to charge people more than $3, people who come to Kennedy Center in limousines?

Mr. McDADE. A limousine is going to park at Kennedy Center? Limousines are not going to park.

Mr. MOLINARI. Let us take a look at this.

Mr. McDADE. What does the neighboring parking garage charge?

Mr. SOLOMON. Mr. Speaker, will the gentleman yield to me?

Mr. MOLINARI. I yield to the gentleman from New York.

Mr. SOLOMON. I thank the gentleman for yielding.

Mr. Speaker, Members of the House, I rise to express my opposition on what I would call a forced taxpayer bailout of the Kennedy Center for the Performing Arts.

Much has been written and said about the so-called consensus that has been formed around this bailout among officials at the Treasury Department the Office of Management and Budget, various Senators and Members of Congress and the leading officers at the Center.

And I can well appreciate the urgency which faces the Kennedy Center, as well as the earnestness with which many are trying to solve this fiscal crisis.

But I can't help but feel that this proposal amounts to what has to be the first black-tie raid on the Public Treasury. And I do feel compelled to crash this private party on behalf of the uninvited guests who will be asked, as always, to pick up the tab—Mr. and Mrs. John Q. Taxpayer.

The taxpayers are being asked to forgive 10 years' worth of overdue interest payments accrued by the Kennedy Center on $20.4 million worth of Treasury revenue bonds.

Forgiving the Center's delinquent interest means we look the other way on a debt of roughly $30 million. The agreement also calls for the elimination of future interest payments on a principal to be repaid in annual installments of $200,000.

If the interest on this debt—past, present and future—were not forgiven and the Center was asked, like any other borrower, to pay the interest on a loan it requested—the interest payments could amount to an unbelievable $800 million—this on a $20 million principal.

Supporters of the bailout use this unpleasant reality as an argument in support of eliminating what they call an unfair and unplanned burden. This burden was partially caused by the increase in the prime interest rate, which contributed to the size of the interest payments.

Well, gentlemen, I can assure you that the bankrupt small businessman or the out-of-work factory worker whose plant closed did not plan on those 21-percent prime interest rates either.

Another point. The Congress recently passed a tax bill that contained provisions to severely restrict the issuance of industrial revenue bonds. Yet, now we are being asked to forgive a revenue bond that seems to have been issued without any guarantee at all that the revenue source; namely, garage receipts, would be adequate to repay the bonds at all.

The reason I say this is that I have no evidence that the Kennedy Center ever made a good faith effort to make one installment payment.

This raises another question that deserves answering before we bail out the Kennedy Center—why hasn't there been enough garage revenue to repay the revenue bonds?

According to a background statement issued by the Kennedy Center working group, "the Center's parking revenues have never been sufficient to meet the annual simple interest of $1.2 million."

One of the major reasons, according to the background statement is that "the Center borrowed $3.5 million from the parking concessionaire in order to complete building construction and pledged 50 percent of garage revenues to repayment of this loan between 1972 and 1987."

Ladies and gentlemen, this to me is evidence of blatant financial malfeasance. It sounds as if the Kennedy Center found itself a few million shy of putting the finishing touches on the facility. Unable to find a conventional lender, Mr. Stevens apparently borrowed the money from the concessionaire under terms that constitute nothing less than a sweetheart deal.

Not only is the Center paying APCOA, the concessionnaire, for operating and administrative costs, it is also making annual loan payments of several hundred thousand dollars. On top of this, APCOA receives 50 percent of remaining garage profits. The icing on the cake is a clause that provides 30 percent of garage profits to APCOA for another 10 years, even though the loan has been paid off.

In short, Roger Stevens and the board mortgaged the future of the Kennedy Center for opening night.

Everyone in the fabled consensus I mentioned earlier is convinced now that the Kennedy Center does not have an adequate revenue base to repay its debts.

But what I question is whether that certainty, or something near certainty,

dates back to the time the loan was taken.

I am not reassured by the fact that the Washington Post, in an April 4 article, refers to Kennedy Center Director Roger Stevens' "Dream, which had always been to have both the interest and the principal forgiven."

In other words, his dream all along was not a loan, but a give-away. And I wonder if that dream doesn't now play a role in inspiring this proposed bailout.

If so, then Mr. Stevens' dream is a taxpayer nightmare. It's time to wake up and try to make some headway toward paying this debt.

According to the Treasury Department, concessions now account for less than 4 percent of the Kennedy Center's income. In fiscal year 1984, garage receipts, the biggest part of the concession income, totaled $800,000.

I have said all along that the Kennedy Center should be put on a pay-as-you-go basis, and I believe that it's time to think about making parking prices high enough to meet the interest payments that were supposed to be paid for out of garage revenues.

Second, I am distressed to read that one of the major reasons for this bailout is that the fiscal crisis confronting the Kennedy Center impedes fundraising from private sources.

Thomas Kendrick, the Center's Director of Operations, told the Post on March 24 that "You can't expect people to donate large sums, if it may go to the Treasury."

I wonder if Mr. Kendrick feels the same way about paying back a debt to a bank. Well, Mr. Kendrick, this is no different—except that in this case the bank is the Treasury and the Treasury is owned by the taxpayer. The taxpayer deserves to be paid back, too.

Now, about his statement that you can't expect people to donate large sums if it may go to the Treasury. Let me say that millions of taxpayers each year do make large sum donations to the Federal Treasury. And before we ask those who will never even see the Kennedy Center to forget the money owed them, I think it behooves those who pay lipservice to the arts to dig a little deeper to help pay off the debt.

Most of those people who patronize the Kennedy Center, and particularly those who use the parking garage, are foreign diplomats, embassy employees, U.S. Government bureaucrats, Members of Congress, lobbyists, and Washington high society. They are not our constituents and our constituents should not be asked to pay for their culture.

By this, I mean that the Kennedy Center exists for the benefit of an elite of art lovers, and they do not need the support of the taxpayer. They can do it on their own.

That's the very essence of the fairness issue we hear so much about today.

We have been told that this debt was incurred to construct a living monument to a fallen President. While I agree that the Kennedy Center is indeed open for all to see, it is not financially accessible to the average American. Its primary function has been to display classical culture at contemporary prices—not to provide a memorial to the arts which all citizens can enjoy.

Today, I propose a better monument. I propose this Congress restore the Kennedy Center to a pay-as-you-go footing.

I propose a fiscally responsible performance that will bring the curtain down on this talk of bailouts for privileged special interests. I urge you to delete this bailout from the resolution.

Mr. LEVITAS. Mr. Speaker, will the gentleman yield to me?

Mr. MOLINARI. I will be glad to yield to the gentleman from Georgia.

Mr. LEVITAS. I thank the gentleman, my good friend, for yielding.

Mr. Speaker, I want to say this because I think in the lateness of the hour, in the passion that is raised, we sometimes lose our perspective.

Mr. Speaker, I want to commend the gentleman from Florida [Mr. SHAW], the gentleman from New York [Mr. MOLINARI], and the other gentleman from New York [Mr. SOLOMON]. They have been sincere, they have been up front, they have felt, and I understand that they felt, that they had made an understanding and a transaction which has now been circumvented. I understand that.

The gentleman knows that I had a proposal which I thought was preferable to the one from the Treasury but that has been rejected. I think we have to do something about it and essentially I am going to support the proposal that the Senate has passed.

Briefly, Mr. Speaker, my alternative would have recognized the approximately $60 million raised to date by the Board of Trustees of the Kennedy Center, necessary to carry out the performing arts functions of the John F. Kennedy Center which are mandated pursuant to section 4 of the act. Namely, section 4 mandates that the Kennedy Center present opera, dance, drama, and classical music, yet no funds are made available for such purposes. Thus, my proposal would recognize that the Kennedy Center has raised $60 million to date, and that $23 million of that amount was required to match Federal funds appropriated for the construction of the Center, and further recognize that the trustees have raised in excess of $37 million in excess funds to be credited against future interest accruing annually. In addition, my proposal would continue to recognize on an annual basis the private funds raised and allow for them to be credited against accruing interest. My proposal, like the administration's proposal, would require the Kennedy Center to pay $200,000 annually into a sinking fund to be set up in the Treasury which would allow for amortization of the bond principal when it comes due in 2017 and 2019. My proposal did not waive any interest, but instead recognized the achievements and the great fundraising efforts of the Kennedy Center, and their ability to allow the Center to be a truly national cultural center which reaches beyond the Washington environs.

But I want to respond to the gentleman from New York for just a moment. We do have a deficit in this country. In fact we just passed a bill of some several billion dollars by voice vote and now we are talking about $33 million which is a lot of money but in comparison it is not as great.

I want to read from the letter that came to us from the Department of Treasury and I quote: "The waiver will not impact the deficit according to the Treasury and to the General Accounting Office." So both the GAO and Treasury have accepted the fact that the $33 million that will be waived has not even been put on the books, it is not reflected as part of the deficit, there will be no deficit impact.

I think all of us who are concerned about the deficit ought to be cognizant of the fact that there is no deficit impact from the passage of the proposal here.

Mr. MYERS. Mr. Speaker, will the gentleman yield to me?

Mr. MOLINARI. I yield to the gentleman from Indiana.

Mr. MYERS. I thank the gentleman for yielding.

Mr. Speaker, I rise reluctantly at this hour to oppose my two good friends from Illinois and Pennsylvania here, but I think the gentleman [Mr. MOLINARI] is right. I rise here as a matter of equity.

Just about a half hour ago we removed $65 million from a project because we could not afford it. Now we are asking the taxpayers of the country to foot $30 million in interest forgiven. Is it more important to let a few people be able to use the facilities there, is it more important for a few people to be able to enjoy this, to see an opera, than it is for the people of Minnesota, the Dakotas, Iowa, to get their grain down through lock and dam 26 so it can be exported and it can help our balance of trade, help our farmers to export? Can you justify a few people being able to see the cultural activities? I am for the Kennedy Center, but who should pay it? Is it fair today to say we are going to help people go there to see the cultural activities, yet we are going to tell the

people along the Ohio River at the lock that is about to go out, almost 60 years old, needs to be replaced, and the people of Pennsylvania today, people of Pittsburgh cannot get their ore, their steel, their coal, their grain, the petroleum through that lock and dam without breaking the tows? We said that just about an hour ago that we could not afford that.

□ 2420

How can you justify saying now we are going to bail out to the tune of $30 million people that could afford it?

I think the gentleman is right. I do not know what it takes to pay for the extra parking, but I think the people who use that facility should pay a user fee. I support user fees and this is one of them.

Mr. MOLINARI. Mr. Speaker, let me conclude by saying to the Members, realize that if you do not adopt this proposal what you are doing is you are waiving not only $33 million in past interest, which we do not object to, but you are waiving interest for 33 years in the future without any knowledge whatsoever as to whether they have the ability 5 years from now, 10 years from now, or 15 years to pay something to the taxpayers.

We have come up with a very reasonable, fair proposal that permits the Kennedy Center to continue to operate and yet we are getting something back for the taxpayers. It is a very fair proposal, a reasonable proposal. I urge my colleagues to support it.

Mr. YATES. Mr. Speaker, I yield 3 minutes to the gentleman from Georgia [Mr. LEVITAS].

Mr. LEVITAS. Mr. Speaker, I will place in the RECORD material, a letter from the Vice President of the United States in support of the Treasury Department position. A letter from the Treasury Department in support of the position of the Senate, together with a letter signed by the Speaker, the chairman of the committee, the minority leader, the majority leader, the minority whip, and the majority whip.

THE VICE PRESIDENT,
Washington, July 19, 1984.

Mr. ROGER L. STEVENS,
Chairman, Board of Trustees, John F. Kennedy Center for the Performing Arts, Washington, DC.

DEAR ROGER: I asked my staff to review the situation regarding the Kennedy Center Revenue Bonds as described in your letter of May 22. It appears that the Administration has a quite specific policy developed by a working group that included representatives of Treasury, OMB and the Kennedy Center. I will certainly mention my support for the Administration-sponsored legislation to Don Regan and encourage every effort to resolve this matter in a constructive and responsible fashion.

Sincerely,

GEORGE BUSH.

DEPARTMENT OF THE TREASURY,
Washington, DC, October 10, 1984.

To MEMBERS OF CONGRESS: We at the Treasury Department have simple, cold facts, which we want to share with you regarding the Administration's honest effort to solve a nearly impossible problem—the Kennedy Center's $20.4 million debt to the Secretary of the Treasury. Our solution—not the best of all possible worlds, admittedly—is to allow a waiver of interest on the debt in exchange for prepayment of the principal into a sinking fund in the Treasury.

Here are the facts we want you to know:

1. The waiver will not impact the deficit, according to Treasury and GAO.

2. The Kennedy Center will prepay in yearly installments, of $200 thousand, the $20 million of principal into the Treasury, starting in 1987, rather than paying the principal when due in 2017-2019. (Of course, the prepayments will have a higher "current value" to the Treasury and the taxpayer than if the principal were not paid until due in 2017.) How can the opponents call this a "bailout" when the Kennedy Center is paying everything it possibly can.

3. The Continuing Resolution represents a consensus legislative proposal to restructure the Kennedy Center debt. This proposal which is the product of months of study and a thorough audit by the GAO has the support of the Treasury Department, Kennedy Center, GAO, OMB, Interior Department and by the leadership of both parties in the House (see the attached "Dear Colleague" letter). We want you particularly to know that the Kennedy Center and Treasury never accepted any alternative proposal nor was any formally presented—simply because we are sure that our proposal is the most feasible and direct way to solve the problem and the most protective of the taxpayer.

4. Deferring the matter to the next Congress would not lessen our difficulties. The practical considerations are that the Center can meet only its obligation of the principal indebtedness. That conclusion is supported by the GAO and independent, private-sector auditors.

I hope you agree that the matter should be resolved along the lines of the Administration proposal, and that you will provide your support when the matter comes before the House—and vote to recede and concur with the Senate version of the Continuing Resolution. The managers of the Continuing Resolution support this proposal.

Sincerely,

BRUCE E. THOMPSON, Jr.,
Assistant Secretary (Legislative Affairs).

Enclosure.

CONGRESS OF THE UNITED STATES,
HOUSE OF REPRESENTATIVES,
Washington, DC.

DEAR COLLEAGUE: The Senate has passed S. 2562 which provides for waiver of interest payments and for repayment of principal of bonds of the John F. Kennedy Center for the Performing Arts purchased by the Secretary of the Treasury. The Senate version of the Continuing Resolution (H.J. Res. 648) contains the elements of this bill and is now pending before the House. We urge your support of this measure.

By way of background, the Center was constructed with three primary sources of funding: appropriated funds, totalling $23.0 million; $34.5 million in private contributions, and $20.4 million of bonds sold to the Secretary and due for repayment between 2017 and 2019. The 1968 Kennedy Center Act permitted the Secretary to defer annual interest payments on the bond amounts and every Secretary since 1972 has deferred those payments. The Treasury Department formally advised the Kennedy Center that the interest payment due in 1984 will not be deferred.

As a result, the Treasury chaired an interdepartmental working group created to resolve the Center's financial crisis caused by the Center's debts to the Secretary. The legislation proposed by the working group permanently waives interest on the Center's debt to the Secretary and requires the Center to begin early repayment of the principal, in 1987, into a sinking fund with the Treasury so as to eliminate the principal debt by the time the bonds come due. The proposed legislation has the support of the Treasury, OMB, the Interior Department and the Center. It is, for all intents and purposes, "consensus legislation."

Passage of this measure will not affect continuation of the Center's outstanding reputation as the National Cultural Center, operating without the subsidy of an annual federal appropriation for performing arts programming. The Center's Board of Trustees will continue to pay the Federal Government the Center's portion of the building's total upkeep, as well as expenses for theater maintenance, renovation and programming that have so sharply escalated in recent years. The Department of Interior will continue to seek annual appropriations for the non-performing arts maintenance and security of the building as a federal presidential memorial.

Passage of this measure will remove the major obstacle confronting the Kennedy Center general fundraising efforts and recognize the success of the Center by providing it with a more realistic and attainable debt service plan. Ever more to the point, enactment of the bill, according to the Center's Trustees, will permit an endowment campaign to go forward to provide financial stability for the future of the Center's performing arts operations.

The full Senate passed S. 2562 by unanimous consent, reflecting the non-partisan support for the measure now before you. The Administration has informed us that the President will sign the bill if enacted as proposed.

Sincerely,

Thomas P. O'Neill, Jr., Speaker; Jim Wright, Majority Leader; Thomas Foley, Majority Whip; James J. Howard, Chairman, Committee on Public Works and Transportation; Robert Michel, Minority Leader; Trent Lott, Minority Whip.

Mr. Speaker, the issue that should be treated now is solving the financial situation of the Kennedy Center, and how we got where we are today and the proper solution to the problem.

First, let me state—we are dealing with a history of two separate pieces of legislation when we deal with the creation of the National Cultural Center, now known as the John F. Kennedy Center for the Performing Arts, or the creation of a living memorial to the late President John F. Kennedy.

Mr. Speaker, in the second session of the 85th Congress back in 1958, the Congress passed and there was enacted into law, a law known as the National Cultural Center Act. This act

provided for a National Cultural Center which would be located on a site within the Nation's Capital. The act also provided for a Board of Trustees whose purpose was to construct the Center with funds raised by voluntary contributions. This Center was to be a bureau of the Smithsonian Institution and was to present various cultural events or programs such as classical and contemporary music, opera, drama, dance, and so forth. In addition the Board was directed to present and develop programs for children and youth and the elderly, and to provide facilities for other civic activities. Although the Board was directed to present these diversified programs, and expensive operas and ballets which do not generate money but instead always produce loses, no mechanism for funding was provided for in the legislation.

At the time, President Kennedy was very committed to this project and the arts and by 1963 funds in the amount of $12 million had been raised in the private sector for construction of the Cultural Center.

The tragic death of President John F. Kennedy in November 1963 led to the introduction of legislation to rename the National Cultural Center as the John F. Kennedy Center for the Performing Arts. In 1964, this Congress in its wisdom when it created the John F. Kennedy Center as the sole living memorial to the late President John F. Kennedy in Washington, DC, and specifically provided for Federal funding to be comingled with voluntary contributions to assist in the development of the Center. Ultimately, the Center's trustees raised $34.5 million from the private sector and foreign governments to exceed the Federal matching requirement of $23 million. In addition, the legislation authorized the Board of Trustees to issue revenue bonds to the Secretary of the Treasury in the amount of $20.4 million to finance construction of the Center's parking facility.

Thus, the distinction clearly exists here. The original National Cultural Center Act provided for no Federal funds and required voluntary contributions for its construction. The act, as amended, as a memorial to the late President from the onset has always provided for Federal assistance along with private contribution to the Center.

It must be remembered that it was not originally envisioned in 1958 that the Center would have a dual function as both a national memorial and performing arts center. The building, open from early morning to late at night, receives millions of visitors, rather than being limited in function to patron use of the building's theaters in a very restricted timeframe.

The Kennedy Center is a unique institution with a complex financial history that is frequently misunderstood by the general public. The Federal Government's involvement in the Center, through the National Park Service, reflects the fact that the building as a Presidential memorial, constructed in part by Federal matching funds, is owned by the Federal Government. Since 1972, the Park Service has been authorized to maintain and secure the Center as it does other Presidential memorials. The Kennedy Center must reimburse the Park Service for the allocated costs of the performing arts activities in the building. This latter direct cost to the Kennedy Center will exceed $1 million this year and must be borne from box office receipts, earned income, and private contributions. In addition, it must be emphasized, the Kennedy Center is responsible for 100 percent of the maintenance of its five theaters, as well as backstage areas and for fiscal year 1984 these additional maintenance costs totaled $2.7 million.

It is more than appropriate for the Government to pay for the cost of nonperforming arts functions at the Kennedy Center, similar to how the Government currently pays for those maintenance type functions at the Washington Monument, Lincoln Memorial, and Jefferson Memorial. The Kennedy Center is also a monument and must be maintained in the same manner as the other Presidential memorials.

Now, let me elaborate on how we got to where we are today whereby the Kennedy Center owes approximately $30 million in outstanding interest to the Treasury against an outstanding loan of $20.4 million. The $20.4 million in Treasury bonds authorized the Secretary of the Treasury to defer interest owned on the bonds, providing that all deferred interest amounts would themselves bear interest. Since 1968, the Board has annually requested and received from the Treasury a deferral of all interest due on the revenue bonds. Today, simple interest amounts to approximately $1.2 million annually. However, compounded interest amounts to another $2.8 million. Therefore, interest is mounting by at least $4 million annually. The GAO and the Treasury have stated the garage revenues have never been sufficient in any 1 year to even pay simple interest. Now some ask why? Let me explain that in February 1969, the building was almost complete, however, $3 million was desperately needed for completion. Therefore, the Kennedy Center entered into a contract with a parking concession for a period of 15 years whereby the Center was advanced $3.5 million against the Center's share of future revenue. Profits were split whereby the parking operator received 70 percent and the Kennedy Center received 30 percent. In July 1983, the Center obtained a $2 million loan secured by future parking revenues. This loan paid off the original loan and provided for the Center's increased cash needs. This loan will be paid off in July 1987, at which time, the Kennedy Center will receive 100 percent of profits. At that time, production and maintenance costs will have also risen and the increased revenues will be desperately needed. The General Accounting Office, as well as the Office of Management and Budget and acknowledged that the Kennedy Center cannot pay more than $200,000 annually in 1987 to retire the $20.4 million bond debt, and to require an increased payment would seriously hamper the programming available at the Kennedy Center.

Mr. Speaker, this has been the subject of public press briefings, public hearings in both Houses, and has received on the record support by OMB, Treasury and Interior. It must be remembered that the bill before you addresses only one portion of the Kennedy Center's construction funding. Some Members have focused only on the $20.4 million in loans authorized in 1964. They have chosen to ignore the $34 million raised by the Center's trustees to match the Federal appropriation of $23 million to construct the building. Likewise, they have ignored the $28 million raised by the trustees from the private sector to carry out the programming mandate for the Center formulated by the Congress of the United States but for which Congress has not been asked to appropriate funding. The bill pending before this Chamber asks that $30 million in accrued Federal interest—recorded only on the internal ledgers of the Treasury Department—be waived. In return, the bill will guarantee that Treasury and the U.S. taxpayer will secure repayment of the principal beginning 30 years before the bonds fall due in 2017.

Charges have been leveled against the trustees of the Center, charges that allege the Center negotiated in bad faith with this Chamber. The Center's Chairman came before the House Subcommittee on Public Buildings and Grounds to discuss fully over the course of 2 days every aspect of the Center's operations, the circumstances surrounding the Center's garage contract. Full financial disclosure of information was supplied both to the members of the subcommittee and to the GAO. The idea of a working group to address the matter of the Kennedy Center revenue bonds was first proposed by OMB's Director, David Stockman. When, in 1983, the Department of the Treasury informed the Kennedy Center that it would not authorize the further deferrals of interest payments beyond 1984, Treasury took the lead in convening an administration working group to develop

a feasible legislative solution for Congress' consideration.

The working group was headed by Treasury under the leadership of the Under Secretary for Monetary Affairs, Beryl Sprinkel, and included the OMB and Kennedy Center. The consensus legislation contained in S. 2592 was also cleared by the Department of the Interior and submitted by Treasury to the Center's authorizing committees in the House and Senate. In addition, an open press briefing was held on the proposal by Kennedy Center and Treasury officials to explain the bill's elements and its background.

The legislation proposed by the administration permanently waives interest on the Center's debt to the Secretary and requires the Center to begin early repayment of the principal, in 1987, into a sinking fund with the Treasury so as to eliminate the principal debt by the time the bonds come due in 2017 and 2019.

The administration bill was introduced in both Houses and public hearings were held in the House and Senate during April 1984. At every point this legislation has been publicly aired and has enjoyed bipartisan support in both Houses.

At alternative measure which was more favorable to the Center was considered in the Senate but the Center's trustees maintained their support for the administration's proposal because this proposal was endorsed by OMB and Treasury and was alone capable of securing bipartisan leadership support in both the House and Senate.

Some Members believe that the bill before you will somehow cost the taxpayer millions of dollars. GAO has testified that there will be no impact on the budget deficit. Moreover, the $30 million to be waived represents Federal compound interest on a Federal debt on a building already owned by the Federal Government. What does the taxpayer stand to lose? The Government already owns the building. What the taxpayer stands to lose is this Nation's cultural center, a symbol recognized around the world as the most successful arts institution of its kind, an institution acknowledged to have changed the face of Washington, an institution that has carried the performing arts through touring productions, arts education activities in the classroom, television and radio broadcasts to every State in the Union.

The Center's trustees have raised $60 million from the private sector to build the Center and to carry out the will of Congress to create a living memorial. These moneys were raised long before corporate support for the arts became fashionable, before the National Endowment for the Arts and 51 State arts agencies were created to assist arts institutions, theater companies, ballet companies, orchestras, and individual artists all over the country. The Kennedy Center has been visited by 45 million people from across the Nation and around the world. Last year, the Emmy-award winning Kennedy Center honors were seen and enjoyed by 36 million Americans. Some 500,000 young people and their families thrilled to live performances presented under the aegis of the Kennedy Center's education program not only in Washington, DC, but by participating in children's arts festival in 9 major U.S. cities. Still relying on its own carefully administered programs and private contributions, the Center has continued to offer the most extensive half-priced ticket program in the country. More than 1.7 million students, elderly people, handicapped individuals, and those on fixed, low incomes have enjoyed the full range of the Center's artistic programming with tickets purchased at half price.

GAO audits document that the John F. Kennedy Center for the Performing Arts is one of most carefully managed of any major performing arts center in this country. Without benefit of the massive direct subsidy enjoyed by every other national cultural center, Kennedy Center has operated narrowly in the black for more than a decade despite rapidly rising inflation. This has been true despite a 230 percent increase in production costs over the past 5 years alone, despite the fact that today there is no possibility that classical music events, opera, ballet, new theatrical works, and major classic revivals can be presented without substantial private subsidy beyond box office receipts. The Center has been able to continue to carry out its congressional mandate to present all these art forms with support from more than 300 of America's most important corporations. Their support of the Center should be proof enough that management of the Center follows sound business practices and is responsible to the Center's artistic mandate, and to the American public.

The GAO has underscored these facts in GAO's most recent audit of the Center's financial operations, and audit published in April of this year. GAO concluded that payments on the interest owed were clearly beyond the financial resources of the Center. The Center's independent auditor testified before the House that the Center's future expenses and revenues could be held tightly in balance only with continued major infusions of private sector support—more than $5 million this year alone. Kennedy Center has always intended to pay its principal debt to Treasury, a debt not due until 2017. Not one single party analyzing the Center's finances has believed that within the Center's resources lies the ability to pay $33 million in compound Federal interest due to Treasury on December 31st.

The administration submitted its proposal to Congress this year because Treasury had already informed the Center's Board of Trustees that interest payment due would no longer be deferred. If the measure pending before the House for inclusion in the continuing resolution, as already approved twice by the Senate, fails, the Center will be deemed in default, an action that would result in immediate adverse media publicity which would, with virtual certainty, wreck the very private sector support that has enabled the Kennedy Center to operate so successfully. Where will the burden to the taxpayer then fall? Our goal here today should be to ensure that this remarkable record of private sector involvement—a major goal of this administration—is encouraged, not destroyed. Action to resolve the Center's financial dilemma cannot be postponed once again, as it has time and again in the past. This bill has the support of every major executive agency involved and enjoys strong bipartisan leadership support.

Much has been made of an entity familiarly known as KCPI—Kennedy Center Productions, Inc. It has been mistakenly portrayed as a producing organization, a booking agency, somehow controlled by Roger L. Stevens. Nothing could be further from the truth. Here for once are the facts:

Kennedy Center Productions, Inc., despite its name, neither produces plays, nor books presentations for Kennedy Center. KCPI, as it is commonly known, simply and only provides a private source of financing for programing—theater, opera, and music at Kennedy Center. KCPI's contributions for programing are made possible by a bank line of credit, guaranteed by public-spirited private citizens, including Roger L. Stevens. These citizens can only lose their portion of the line of credit, thus making a tax-deductible contribution to Kennedy Center.

Kennedy Center Productions, Inc., was organized in 1972 as a non-profit, tax-exempt corporation in the District of Columbia to assist Kennedy Center by providing a source of private financing for its programing. It operates totally on a nonprofit basis; coordination with Kennedy Center is provided through some members of the board of directors of KCPI who are also trustees of the Kennedy Center. KCPI pays no salaries to any official or director; and its only expenses are fees paid for periodic audit services. Basic financing has been provided by a revolving bank loan—line of credit—guaranteed by a group of public-spirited citizens, without any obligations on the part of Kennedy Center. All net profits and revenues are committed by its charter to Kennedy Center exclusively for further productions.

Since 1972, KCPI has provided nearly $6 million to the Kennedy Center for the production and presentation of more than 80 dramatic, musical, and operatic presentations. KCPI has enabled Kennedy Center to operate its four major theaters virtually throughout the year without an excessive number of dark weeks. Productions assisted by KCPI include "Annie," Leonard Bernstein's "Mass," Carlisle Floyd's "Willie Stark," and Tom Stoppard's "Jumpers."

Thus, KCPI is only one of the financial means utilized by the Center to enable it to produce and present new works and major revivals of classics. Unlike commercial theaters in New York City and elsewhere in Washington, the National Cultural Center cannot and should not rely on 25-week runs of touring road shows—shows that have long since returned millions to their investors. The purpose of the National Cultural Center is not to offer a virtually open-ended run of a tired road company. Rather it is to present major chamber ensembles in the terrace concerts series in a 500-seat theater; to present world and American premieres by such important playwrights as Arthur Kopit, William Gibson, Tom Stoppard, Harold Pinter, Jean Kerr, and Arthur Miller. Its mission is to present the best from around the world. Virtually every major foreign artistic company of importance has been showcased in the Nation's Capital. What else but this did Congress intend when it created the Center as a catalyst for the arts in America in 1958?

The Kennedy Center is a complex and complicated institution with a straightforward, simple mission. It is a Presidential memorial—a Federal building—open free to more than 3.5 million visitors each year. Maintained in part by the National Park Service, which is responsible for slightly more than 75 percent of the building's housekeeping and maintenance costs as a memorial, visitors to this Park Service site are guided through the building 365 days a year by unpaid Kennedy Center volunteers, not by Park Service employees paid by the taxpayer. Literally hundreds of thousands of dollars are saved. Not only does the Center save the taxpayer money, the Center's trustees pay the U.S. Government for roughly 25 percent of the building total memorial costs, in addition to paying 100 percent of its programing responsibilities, theater operation and renovation expenses. The Center's trustees spent approximately $3.1 million last year on maintenance, of which $1.2 million was allocated to the Park Service and $2 million was spent to renovate the Opera House.

The bill before you is the result of months of honest effort by honest brokers—both in the executive branch, the Kennedy Center, and both Houses of this Congress. Their efforts have been to protect the investment the taxpayer has made in our National Cultural Center:

To see to it that the Center's national public service and education programs are maintained on a national basis through an overwhelming proportion of private support and volunteer effort.

To respond to Treasury's and GAO's hard assessments of the outer limits of the Center's private fundraising; and

To ensure the survival of the institution that has changed Washington, inspired the creation of performing arts centers in every region of this country.

To conclude, this legislation which was drafted by the administration, shares the support of the General Accounting Office. It is a viable option to insure the financial stability of the Kennedy Center and allowing the late President John F. Kennedy commitment to the arts continue to be realized. To conclude, I feel it appropriate to quote from the late President John F. Kennedy,

I am certain that after the dust of centuries has passed over our cities we, too, will be remembered not for our victories or defeats in battle or in politics, but for our contribution to the human spirit.

Mr. Chairman, I urge enactment of this measure.

Mr. MOLINARI. Mr. Speaker, will the gentleman yield?

Mr. LEVITAS. I yield to the gentleman from New York.

Mr. MOLINARI. I thank the gentleman for yielding.

Would the gentleman tell me the date that he has on the letter that was sent by the majority leader, the Speaker, and all the other leaders in this House.

Mr. LEVITAS. The letter that I was quoting from is attached to a letter from the Department of the Treasury dated October 10, 1984.

Mr. MOLINARI. I would like the gentleman to know that we received a copy of that letter 2 weeks ago, without a date on it. We got one yesterday that was dated October 9. We got one today dated October 10. It is my understanding that this letter was actually signed 3 or 4 months ago.

Mr. LEVITAS. I appreciate the gentleman's contribution.

Frankly, I would rather be on the floor tonight debating the matter of Star Wars or Nicaraguan aid rather than this issue. But here we are talking about this issue.

I want to make a point. What we are talking about is a debt that is compounded Federal interest on a Federal agency, an arm of the Federal Government, on a building already owned by the Federal Government. If they default on this debt, what is going to be foreclosed? The Government already owns this building.

What we are talking about is a transaction that has not even been recorded on the deficits accounts of the Government. We are talking about dealing with a problem which will make it easier for the Kennedy Center, that has already raised $60 million in private contributions, for carrying on its own activities. And one other thing, the law that this Congress passed imposed upon the Kennedy Center unfunded responsibilities to provide services to the handicapped, performances for the poor and minorities, for senior citizens, and the only place that those funds come from are from funds raised by the Kennedy Center. It does not come from this Congress. They are not getting any credit for those services they are rendering which we have required of them.

I think that in this instance we have an opportunity to support the administration and to support the Kennedy Center. I urge a "no" vote on the motion of the gentleman from New York.

Mr. YATES. Mr. Speaker, I yield 1 minute to the gentleman from Washington [Mr. FOLEY].

Mr. FOLEY. Mr. Speaker, the gentleman from Florida [Mr. SHAW] requested the General Accounting Office report on this matter.

Mr. W.G. Anderson, the Director of the Government Division of the General Accounting Office, reported to Mr. SHAW that if the amounts due are waived by the Congress there will be no additions to the Federal deficits or debt since none of these projections has ever been included by the Government in any projections of the national debt.

It must be remembered, Mr. Anderson said, that this is compound interest on a Federal loan on a building the Federal Government already owns.

But in addition to that, this proposal would repay 30 years early the principal due on this building which would in fact reduce the deficit. That would be real money, not these speculative unlimited amounts of compound interest that cannot be paid by this institution or any other.

We are taking a realistic action if we reject the Molinari amendment and agree to the Senate. I urge Members to do that tonight by a strong bipartisan vote.

Mr. YATES. Mr. Speaker, I yield 1 minute to the gentleman from Louisiana [Mr. HUCKABY].

Mr. HUCKABY. Mr. Speaker, a half hour ago we passed almost a half trillion dollar appropriation bill. We are going to be reading for weeks what was in it. We did not choose to disagree with the Senate on water projects, or on Star Wars, or some of the major issues facing this country today. Rather, on how much we will charge to park at the Kennedy Center.

I say it is time we get on with the business of the House.

Mr. McDADE. Mr. Speaker, I yield 1 minute to the gentleman from Florida [Mr. SHAW].

Mr. SHAW. Mr. Speaker, I would like to comment on the comments of the gentleman from Washington.

This is a question of if it does not show up in the deficit, forget about it.

Well, both particular proposals waive the interest. So we are not talking about any difference with regard to the interest.

But what we are talking about is forgiveness of indebtedness. By trickery or by creative accounting or whatever you want to call it, the proposal that is before us will pay $6 million into a sinking fund that the Federal Government would get years down the road; $6 million into a sinking fund.

What we are talking about under compromise is for the Federal Government to receive $20 million right along.

So what money do you lose? You lose the interest that the Federal Government is paying out on the deficit. We are talking about a loss in revenue to the Federal Government. There is no other way to cut it.

To say that this is not a problem and that this is not a part of the deficit, I think, is simply symptomatic of the problem of this whole Congress and the whole way we run the Government. We walk away from dollars. We spill more in here than the taxpayers could possibly pay.

Mr. YATES. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. McDADE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER. Without objection, the previous question is ordered.

There was no objection.

The SPEAKER. The question is on the preferential motion offered by the gentleman from New York [Mr. MOLINARI].

The question was taken; and the Speaker announced that the noes appeared to have it.

RECORDED VOTE

Mr. SHAW. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 178, noes 185, not voting 69, as follows:

[Roll No. 458]

□ 0040

Messrs. TOWNS, HERTEL of Michigan, SABO, and GUARINI changed their votes from "aye" to "no."

Mr. GOODLING changed his vote from "no" to "aye."

So the preferential motion was rejected.

The result of the vote was announced as above recorded.

The SPEAKER. Without objection, the motion to concur is agreed to.

Without objection, a motion to reconsider is laid on the table.

Mr. MOLINARI. Mr. Speaker, I demand a recorded vote.

The SPEAKER. On the motion to reconsider?

Mr. MOLINARI. Mr. Speaker, I am sorry.

PARLIAMENTARY INQUIRY

Mr. MOLINARI. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER. The gentleman will state it.

Mr. MOLINARI. Mr. Speaker, has the gentleman from Illinois made a motion yet? I have been waiting to hear his motion. I wanted to ask for a recorded vote on that motion. I have not heard it, and I think I may have got up prematurely.

The SPEAKER. The motion to concur was pending.

Mr. MOLINARI. The motion to concur, Mr. Speaker?

The SPEAKER. Yes; and the Chair put the question on the preferential motion and it did not prevail, by a vote of 178 to 185.

Mr. MOLINARI. Mr. Speaker, on the motion to concur, I was on my feet trying to seek recognition to get a recorded vote. I am still waiting to hear the gentleman make the motion, Mr. Speaker, and I have been standing here.

The SPEAKER. The gentleman does not have to make the motion; the motion was pending, and let me say to the gentleman that the Chair looked down there and the gentleman made no motion whatsoever.

Now, if the gentleman was on his feet, the Chair was ready to recognize him for that purpose. The Chair tries to be fair, and resents it when a Member says that the Chair is unfair.

Mr. MOLINARI. I did not say that, Mr. Speaker.

The SPEAKER. The gentleman said he was on his feet and ready.

Mr. MOLINARI. I was on my feet, Mr. Speaker.

The SPEAKER. The Chair at that particular time was going through the normal motions.

Mr. MOLINARI. Mr Speaker, if I may be heard. I have not cast any reference whatsoever on the Chair's actions.

The SPEAKER. The Chair is very sensitive about a thing like that. When the gentleman said he was standing on the floor, if the gentleman was standing on the floor, I would have recognized the gentleman for that purpose.

Mr. MOLINARI. Mr. Speaker, I guess there is no way I am going to make my point, so I will just keep quiet. Thank you.

The SPEAKER. The Chair has put the question because the question was pending. Without objection, the House concurs. That is what the Chair said. That is the normal procedure. Then the Chair put the normal question which is, "Without objection, the motion to reconsider prevails." The matter was laid on the table. The Chair will again put the question unless there is an objection. The Chair has to have unanimous consent to vacate the proceedings whereby the motion to concur in the Senate amendment was agreed to.

Mr. MOLINARI. I appreciate that, Mr. Speaker.

The SPEAKER. Does the Chair have unanimous consent to put the question again?

The Chair has been granted it.

The question is on the motion to concur.

Mr. MOLINARI. I ask for a vote on that, Mr. Speaker.

The SPEAKER. The gentleman did not rise at the proper time, but the Chair recognizes the gentleman for that purpose now

Mr. MOLINARI. I thank the Speaker, and I ask for the yeas and nays on that, Mr. Speaker.

The SPEAKER. The gentleman asks for the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 166, nays 163, not voting 103, as follows:

[Roll No. 459]

□ 0100

So the motion to concur was agreed to.

A motion to reconsider was laid on the table.

REPORT ON RESOLUTION PROVIDING FOR AGREEING TO THE SENATE AMENDMENT TO H.R. 4230, EXTENDING AUTHORITIES UNDER EXPORT ADMINISTRATION ACT OF 1979

Mr. DERRICK, from the Committee on Rules submitted a privileged report (Rept. No. 98-1160) on the resolution (H. Res. 615) providing for agreeing to the Senate amendment to H.R. 4230, to extend the authorities under the Export Administration Act of 1979, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION WAIVING POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 6027, CLARIFYING APPLICATION OF CLAYTON ACT

Mr. DERRICK, from the Committee on Rules submitted a privileged report (Rept. No. 98-1161) on the resolution (H. Res. 616) waiving certain points of order against the conference report on the bill (H.R. 6027) to clarify the application of the Clayton Act to the official conduct of local governments, and for other purposes, which was referred to the House Calendar and ordered to be printed.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

Mr. SKELTON, for 15 minutes, today.
Mr. STRATTON, for 5 minutes, today.

(The following Members (at the request of Mr. BRYANT) to revise and extend their remarks and include extraneous material:)

Mr. ANNUNZIO, for 5 minutes, today.
Mr. WIRTH, for 5 minutes, today.
Mr. FASCELL, for 5 minutes, today.
Mr. SEIBERLING, for 5 minutes, today.
Mr. PEPPER, for 60 minutes, today.
Mr. SHARP, for 60 minutes, today.
Mr. GONZALEZ, for 60 minutes, today.
Mr. BRYANT, for 5 minutes, today.
Mr. WEISS, for 5 minutes, today.

(The following Members (at the request of Mr. DICKINSON) to revise and extend their remarks and include extraneous material:)

Mr. WALKER, for 60 minutes, today.
Mr. YOUNG of Florida, for 10 minutes, today.
Mr. GOODLING of Pennsylvania, for 10 minutes, today.

(The following Members (at the request of Mr. WEBER) to revise and extend their remarks and include extraneous material:)

Mr. FISH, for 60 minutes, today.
Mr. WEBER, for 60 minutes, today.
Mr. DIXON, for 60 minutes, today.

EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

(The following Members (at the request of Mr. DICKINSON) and to include extraneous matter:)

Mr. ZSCHAU.
Mr. GILMAN in two instances.
Mr. MCCAIN.
Mr. KRAMER.
Mr. HUNTER.
Mr. SKEEN.
Mr. FRANKLIN.
Mr. BLILEY.
Mr. MICHEL.
Mr. SMITH of New Jersey.

(The following Members (at the request of Mr. BRYANT) and to include extraneous matter:)

Mr. WAXMAN.
Mr. FASCELL in two instances.
Mr. BOLAND.
Mr. MICA.
Mr. MARKEY.
Mr. DE LA GARZA in five instances.
Mr. FEIGHAN.
Mr. MRAZEK.
Mrs. SCHROEDER.
Mr. HAWKINS in three instances.
Mr. HERTEL of Michigan.
Mrs. LLOYD.
Mr. HAMILTON.
Mr. EDWARDS of California.
Mr. LELAND.
Mr. MAVROULES.
Mr. HARRISON.
Mr. WAXMAN.
Mr. MOLLOHAN.
Mr. HUBBARD.
Mr. SMITH of Florida.
Ms. OAKAR.
Mr. BRYANT.
Mr. KASTENMEIER.

SENATE JOINT RESOLUTION

A joint resolution of the Senate of the following title was taken from the Speaker's table and, under the rule, referred as follows:

S.J. Res 236. Joint resolution relating to cooperative East-West ventures in space; to the Committee on Foreign Affairs.

ENROLLED BILLS AND JOINT RESOLUTIONS SIGNED

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee had examined and found truly enrolled bills and joint resolutions of the House of the following titles, which were thereupon signed by the Speaker:

H.R. 437. An act for the relief of Patrick Starkie;

H.R. 932. An act for the relief of Harry Chen Tak Wong;

H.R. 1072. An act for the relief of Margot Hogan;

H.R. 1152. An act for the relief of Tomoko Jessica Kyan;

H.R. 1426. An act for the relief of Phillip Harper;

H.R. 1713. An act for the relief of Elizaveta Fankukhina;

H.R. 1865. An act for the relief of Nery De Maio;

H.R. 1932. An act for the relief of Mireille Laffite;

H.R. 2372. An act to recognize the organization known as the Navy Wives Clubs of America;

H.R. 2418. An act for the relief of Anis Ur Rahmaan;

H.R. 3382. An act for the relief of Dennis L. Dalton.

H.R. 3401. An act to designate the United States Post Office and Courthouse located at 245 East Capital Street in Jackson, Mississippi, as the "James O. Eastland United States Courthouse";

H.R. 3402. An act to designate that hereafter the Federal building at 100 West Capital Street in Jackson, Mississippi will be known as the Doctor A. H. McCoy Federal Building;

H.R. 4025. An act to authorize the Administrator of General Services to transfer to the Smithsonian Institution without reimbursement the General Post Office Building and the site thereof located in the District of Columbia, and for other purposes;

H.R. 4164. An act to amend the Vocational Education Act of 1963 to strengthen and expand the economic base of the Nation, develop human resources, reduce structural unemployment, increase productivity, and strengthen the Nation's defense capabilities by assisting the States to expand, improve, and update high-quality programs of vocational-technical education, and for other purposes;

H.R. 5167. An act to authorize appropriations for military functions of the Department of Defense and to prescribe military personnel levels for the Department of Defense for fiscal year 1985, to revise and improve defense procurement, compensation, and management programs, to establish new defense educational assistance programs, to authorize appropriations for national security programs of the Department of Energy, and for other purposes;

H.R. 5183. An act to direct the Secretary of Agriculture to convey certain National Forest System lands to Craig County, Virginia;

H.R. 5603. An act to revise and extend programs for persons with developmental disabilities;

H.R. 5618. An act to amend title 38, United States Code, to revise and improve Veterans' Administration health programs and to improve security and law enforcement at Veterans' Administration facilities; and for other purposes;

H.R. 5691. An act for the relief of Sutu Bungani William Beck;

H.R. 5787. An act to remove an impediment to oil and gas leasing of certain Federal lands in Corpus Christi, Texas, and Port Hueneme, California, and for other purposes;

H.R. 6206. An act relating to the water rights of the Ak-Chin Indian Community;

H.R. 6216. An act to amend the Bankruptcy Amendments and Federal Judgeship Act of 1984 to make technical corrections with respect to the retirement of certain bankruptcy judges, and for other purposes;

H.R. 6225. An act to prevent disruption of the structure and functioning of the Government by ratifying all reorganization plans as a matter of law;

H.R. 6228. An act providing for an extension until April 21, 1992, of five patents relating to oral hypo-glycemic drugs of the sulfonylurea class;

H.R. 6248. An act to amend title VII of the Omnibus Crime Control and Safe Streets Act of 1968 to provide enhanced penalties for certain persons possessing firearms after three previous convictions for burglaries or robberies, and for other purposes;

H.R. 6311. An act to combat international terrorism;

H.J. Res 482. Joint resolution authorizing the Law Enforcement Officers Memorial Fund to establish a memorial in the District of Columbia or its environs;

H.J. Res. 551. Joint resolution providing for the reappointment of Anne Legendre Armstrong as a citizen regent of the Smithsonian Institution;

H.J. Res. 552. Joint resolution providing for reappointment of A. Leon Higgin-

botham, as a citizen regent of the Smithsonian Institution;

H.J. Res. 580. Joint resolution authorizing the Kahil Gibran Centennial Foundation to establish a memorial in the District of Columbia or its environs;

H.J. Res. 638. Joint resolution designating October 1984 as "National Head Injury Awareness Month";

H.J. Res. 655. Joint resolution designating February 16, 1985, as "Lithuanian Independence Day"; and

H.J. Res. 663. Joint resoltuion making further continuing appropriations for fiscal year 1985.

SENATE ENROLLED BILLS SIGNED

The SPEAKER announced his signature to enrolled bills of the Senate of the following titles:

S. 1688. An act to amend the act of October 18, 1972, to authorize additional authorization of appropriations for Sitka National Historical Park, Alaska;

S. 1889. An act to amend the act authorizing the establishment of the Congaree Swamp National Monument to provide that at such time as the principal visitor center is established, such center shall be designated as the "Harry R.E. Hampton Visitor Center", and for other purposes; and

S. 2616. An act to revise and extend the program of assistance under titles X and XX of the Public Health Service Act.

JOINT RESOLUTION PRESENTED TO THE PRESIDENT

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee did on this day present to the President, for his approval, a joint resolution of the House of the following title:

H.J. Res. 663. Joint resolution making further continuing appropriations for fiscal year 1985.

ADJOURNMENT

Mr. WRIGHT. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed, to; accordingly (at 1 o'clock and 7 minutes a.m.), the House adjourned until today, October 11, 1984, at 10 o'clock a.m.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

4153. A letter from the Secretary of Commerce, transmitting a report on the Ogallala aquifer water problem, pursuant to Public Law 94-587, section 193; to the Committee on Public Works and Transportation.

4154. A communication from the President of the United States, transmitting a report entitled "A Quarter Century of Soviet Compliance Practices Under Arms Control Commitments: 1958-1983", pursuant to the Department of Defense Authorization Act of 1985; jointly, to the Committees on Armed Services and Foreign Affairs.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. BROOKS: Committee on Government Operation. H.R. 5185. A bill to revise the procedures for soliciting and evaluating bids and proposals for Government contracts and awarding such contracts using full and open competition, and for other purposes; with an amendment (Rept. No. 98-1157). Referred to the Committee of the Whole House on the State of the Union.

Mr. RODINO: Committee of conference. Conference report on H.R. 6027 (Rept. No. 98-1158). Ordered to be printed.

Mr. WHITTEN: Committee of conference. Conference report on House Joint Resolution 648 (Rept. No. 98-1159). Ordered to be printed.

[Submitted October 11 (legislative day of October 10) 1984]

Mr. DERRICK: Committee on Rules. House Resolution 615. Resolution providing for agreeing to the Senate Amendment to H.R. 4230, a bill to extend the authorities under the Export Administration Act of 1979. (Rept. No. 98-1160). Referred to the House Calendar.

Mr. DERRICK: Committee on Rules. House Resolution 616. Resolution waiving certain points of order against the conference report on H.R. 6027, a bill to clarify the application of the Clayton Act to the official conduct of local governments, and for other purposes. (Rept. No. 98-1161). Referred to the House Calendar.

PUBLIC BILLS AND RESOLUTIONS

Under clause 5 of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

By Mr. BATEMAN:

H.R. 6430. A bill to amend the River and Harbor Act of 1946; to the Committee on Public Works and Transportation.

By Mr. BEILENSON:

H.R. 6431. A bill to amend chapter 29 of title 18, United States Code, to impose a criminal penalty for revealing prematurely the results obtained by polling voters on election day; to the Committee on the Judiciary.

By Mr. GONZALEZ:

H.R. 6432. A bill to improve and expand benefits for active duty military personnel and their dependents; to the Committee on Armed Services.

H.R. 6433. A bill to provide adequate mental health care and psychiatric care to all Americans; jointly, to the Committees on Energy and Commerce and Ways and Means.

By Mr. GUARINI (for himself, Mr. RANGEL, and Mr. MILLER of California):

H.R. 6434. A bill to establish a Special White House Conference on Protection of Children in Child Care; to the Committee on Education and Labor.

By Mr. PRITCHARD:

H.R. 6435. A bill to amend title 44, United States Code, to authorize the Secretary of Commerce to establish prices charged for charts, tide and tidal current tables, tidal current charts, coast pilots, water level products, and associated data bases published or produced by the National Oceanic and Atmospheric Administration, and for other purposes; to the Committee on Merchant Marine and Fisheries.

By Mr. SHANNON:

H.R. 6436. A bill to amend the Internal Revenue Code of 1954 to provide for a first-year capital cost recovery system and to integrate corporate and individual income taxes; to the Committee on Ways and Means.

By Mr. VENTO (for himself, Mr. KILDEE, Mr. SHARP, Mr. SIKORSKI, Mr. ECKART, Mr. LUKEN, Mr. OXLEY, Mr. SEIBERLING, and Mr. MOODY):

H.R. 6437. A bill to grant the consent of the Congress to the Midwest Interstate Low-level Radioactive Waste Compact; jointly, to the Committees on Energy and Commerce and Interior and Insular Affairs.

By Ms. OAKAR (for herself, Mr. LEVIN of Michigan, and Mr. LEHMAN of Florida:

H. Res. 614. Resolution establishing the House of Representatives Family Liaison Office; to the Committee on House Administration.

PRIVATE BILLS AND RESOLUTIONS

Under clause 1 of rule XXII, private bills and resolutions were introduced and severally referred as follows:

By Mr. KINDNESS:

H.R. 6438. A bill for the relief of Joseph Karel Hasek; to the Committee on the Judiciary.

By Mr. MATSUI:

H.R. 6439. A bill for the relief of Helen Hudson; to the Committee on the Judiciary.

ADDITIONAL SPONSORS

Under clause 4 of rule XXII, sponsors were added to public bills and resolutions as follows:

H.R. 4805: Mr. ACKERMAN.

H.R. 4970: Mr. MITCHELL.

H.R. 5176: Mr. EVANS, Mr. TALLON, Mr. LOTT, Mr. GUNDERSON, Mr. HUBBARD, and Mr. STUMP.

H.R. 5307: Mr. BEILENSON and Mr. OBERSTAR.

H.R. 5975: Mr. BROOKS, Mrs. BOXER, Mr. FAZIO, Mr. PACKARD, Mr. SIKORSKI, and Mr. WEBER.

H.R. 6021: Mr. MCGRATH.

H.R. 6096: Mr. SILJANDER.

H.R. 6132: Mr. SILJANDER.

H.R. 6162: Mr. ACKERMAN.

H.R. 6182: Mr. GEPHARDT, Mr. LONG of Louisiana, Mr. MCNULTY, Mr. DIXON, Mr. HARRISON, and Mr. ACKERMAN.

H.R. 6203: Mr. KOSTMAYER and Mr. LOWRY of Washington.

H.R. 6207: Mr. ACKERMAN and Mr. LOWRY of Washington.

H.R. 6243: Mr. HUGHES.

H.R. 6244: Mr. WEISS, Mr. EDGAR, Mr. GORE, and Mr. ACKERMAN.

H.R. 6306: Mr. ROEMER, Mr. MORRISON of Washington, Mr. KINDNESS, Mrs. BURTON of California, Mr. HUTTO and Mr. FRANK.

H.R. 6315: Mr. HAWKINS and Mr. OTTINGER.

H.R. 6419: Mr. OTTINGER.
H.J. Res. 489: Mr. WILLIAMS of Montana.
H.J Res. 528: Mr. BEDELL and Mr. ERDREICH.
H.J. Res. 615: Mr. GORE.
H.J. Res. 647: Mr. GORE.
H. Con. Res. 363: Mr. RUDD, Mr. LUKEN, Mr. DE LA GARZA, Mr. FIELDS, Mr. PRITCHARD, Mr. UDALL, Mr. FRANK, Mr. DICKS, Mr. SHARP, and Mr. PICKLE.
H. Res. 537: Mr. FRENZEL.
H. Res. 605: Mr. FAUNTROY.

EXTENSIONS OF REMARKS

WALTER CAMP "FATHER OF AMERICAN FOOTBALL"

HON. BRUCE A. MORRISON

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. MORRISON of Connecticut. Mr. Speaker, last week, I was pleased to introduce a resolution that would issue a postage stamp on behalf of Walter Camp, the father of American football.

Walter Camp revolutionized the game of football. He created the game as we know it, making it the uniquely American game that millions of fans around the country have come to love. He introduced, among other things, the 11-man team, the idea of downs, the line of scrimmage, the T-formation, and, most importantly, the forward pass. These innovations have become so much a part of the game that sometimes we fail to appreciate that someone, namely, Walter Camp, had to introduce them. Who could imagine football without the influence of Walter Camp?

Walter Camp's interest in the game of football began when he was an undergraduate student at Yale University, which is in my congresssional district. At Yale, he was a member of every varsity team—track, swimming, tennis, and rowing—and was captain of the football and baseball teams. Twice he was selected to the all-American football team. Later, he was named Yale University's first football coach and led the university to national prominence. In addition, for over 40 years he edited the official Handbook of Football.

Each year at Yale University Walter Camp is honored by an organization that has taken his name, the Walter Camp Foundation. I would very much like to honor Walter Camp by having a commemorative stamp issued that recognizes the extraordinary achievements of this man and the great contribution he has made to one of America's most popular sports. I hope my colleagues will see fit to recognize Walter Camp by issuing this postage stamp on his behalf.

A copy of the resolution follows:

H.J. RES. 660

Whereas the innovations Walter Camp introduced into the game of football were responsible for its survival and its development into the sport that is played in the United States today;

Whereas Walter Camp was instrumental in the establishment of the Official Football Rules Committee, and chaired such committee from its creation in 1905 until 1911;

Whereas Walter Camp was a member of the American Intercollegiate Football Rules Committee when such committee adopted innovations, including the forward pass, that increased the popularity of the game of football in the United States and ensured its survival;

Whereas Walter Camp was a member of every football legislature, intercollegiate football convention, and football committee from 1878 until his death on March 14, 1925;

Whereas Walter Camp edited the Official Handbook of Football for 42 years;

Whereas Walter Camp was the first football coach at Yale University, and served in such position without pay;

Whereas Walter Camp, as a Yale undergraduate student, was a member of every varsity team, including the track, swimming, tennis, and rowing teams, and was captain of the football and baseball teams;

Whereas Walter Camp was selected for two all-America football teams, in 1910 and in 1915;

Whereas Walter Camp initiated the substitution of scrimmage for rugby style scrummage and the adoption of the system of downs, two innovations that revolutionized the basic structure of the game of football;

Whereas Walter Camp initiated many other innovations in the game of football, including the numerical scoring system, the tackle below the waist, the eleven-man team, and the T-formation;

Whereas Walter Camp initiated several innovations that decreased the violence of the game of football, including the use of a neutral zone between the lines of the opposing teams, and a ban on flying wedges and other dangerous tactical devices;

Whereas Walter Camp was responsible for introducing good sportsmanship into the game of football;

Whereas Walter Camp is honored annually at Yale University by the Walter Camp Foundation; and

Whereas Walter Camp after his death in 1925, was recognized by the American Intercollegiate Football Rules Committee as the father of American Football: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the United States Postal Service shall provide and sell, as soon as practicable after the date of the enactment of this joint resolution, a postage stamp issue to honor Walter Camp, the organizer of the game of football in the United States. The United States Postal Service shall determine the denomination, design, and period of provision and sale of such postage stamp issue.●

TRIBUTE TO JACK J. JACOBS

HON. GLENN M. ANDERSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. ANDERSON. Mr. Speaker, I rise today to pay tribute to one of Long Beach, California's most distinguished citizens—Jack Jacobs. Mr. Jacobs, who has contributed to the commercial growth and humanitarian efforts of the city of Long Beach in innumerable ways, will celebrate his 84th birthday on October 24.

Mr. Jacobs moved to Long Beach in 1926 from Georgia and became a licensed real estate broker in 1931; 3 years before he retired from his enormously successful career in 1970, he built his first convalescent home in Long Beach. Today, many residents of Long Beach recognize Mr. Jacobs as the "King of Convalescents," as he presently holds financial interest in 90 convalescent homes, 5 of them in Long Beach.

As this suggests, his retirement has been anything but relaxed and restful. As president of Senior Opportunities and Services, Mr. Jacobs has gone the extra mile to support his fellow senior citizens and help them achieve security and dignity in retirement. This is only the beginning. He has served on the boards of the American Red Cross, the Volunteers of America, and the City of Hope Hospital Sponsors Club, and was a founding member of the Long Beach Community Services Development Corp.

Nor has Mr. Jacob's interest in business waned in his retirement. Besides developing his chain of convalescent homes, he has served on the Long Beach Chamber of Commerce, the National Advisory Board of the American Security Council, the Long Beach Redevelopment Project Area Committee, and the board of directors of the Harbor Bank. Long Beach's continued dependence on him was attested to recently when Mayor Ernie Kell appointed him to the Long Beach Planning Commission.

My wife, Lee, and I would like to take this opportunity to join his wife Rena, his two sons, Martin and Stanley, his seven grandchildren and four great-grandchildren, and his countless friends in wishing Mr. Jack Jacobs a happy 84th birthday. I also hope he has many more happy and productive years ahead of him because I am not

● This "bullet" symbol identifies statements or insertions which are not spoken by the Member on the floor.

entirely sure that the city of Long Beach can get by without him.●

STRENGTHENING THE AMERICAN ISRAELI ECONOMIC RELATIONSHIP

HON. TOBY ROTH

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. ROTH. Mr. Speaker, Congress has worked to strengthen the economic relationship between the United States and Israel. Congress has given the authority for the President of the United States to negotiate a free trade area between the United States and Israel. The establishment of a free trade area would result in the elimination of a tariff and nontariff barriers to trade between these two countries. It is a logical and natural next step in the development of United States-Israeli economic relationships. The free trade area would also advance the progression toward an open fair international system of trade by demonstrating that the elimination of trade barriers, rather that their imposition, can lead to mutually rewarding economic benefits.

Mr. Speaker, strengthening American-Israeli trade relations by the establishment of a free trade area will benefit the United States. First, it will result in the creation of additional demand in Israel for U.S. manufactured products. Today, Israel and the European Community are implementing a free trade area. With the establishment of a similar relationship between the United States and Israel, the competitiveness of U.S. exports will be preserved in Israel's $8 billion import market. Second, many Israeli high technology exports incorporate American made products. Thus, a free trade area will stimulate the export of American high technology components to Israel. Third, a free trade area will promote opportunities for U.S. companies to invest in Israel and benefit from Israel success in exporting to developing countries which are the fastest growing export markets. Fourth, it would expand opportunities for U.S. banking, insurance, travel, and engineering services in Israel's domestic market.

There is, most importantly, a complementary relationship among United States and Israeli exports. Nevertheless, a free trade area does not preclude the application of U.S. import relief and escape clause procedures to insure that the elimination of barriers to trade will continue to benefit both economies. In fact, expedited safeguard procedures will provide protection for any U.S. industry that may have vulnerability to imports.

Mr. Speaker, recognition of mutual benefits is the driving force behind this effort to expand American-Israeli trade. Israel is America's second largest export market in the Middle East. U.S. exports in 1982 amounted to $2.3 billion. In comparison, during the same year Israeli exports to the United States accounted for five-tenths percent of U.S. imports.

In Israel's 3½ decades as a sovereign State, national economic development and exports have gone hand-in-hand. Those pioneers who built Israel constructed the economic foundation of Israel from the ground up—from kibbutz settlements, and their agricultural miracle, to a highly sophisticated aircraft industry. From independence in 1948, expanding exports became an absolute necessity. Israeli exports rose from $57 million in 1948 to $11.5 billion in 1982.

Yet, for all these economic accomplishments, Israel's economy is fragile and must rely on heavy inflows of official U.S. military and developmental assistance. Many Israelis, irrespective of political party, are searching for an economic solution—as well as a political settlement—which would decrease dependence on this assistance.

In a recent interview, Trade Minister Gidelon Patt, observed that if Israel could develop a $5 to $6 billion a year market in the United States for Israeli industrial goods—with an added value of $3 to $3½ billion—"then that happy day will arrive when Israel will no longer require any economic assistance from the United States." A significant increase in trade among the United States and Israel would clearly strengthen exporters in both countries.

A common phrase in the United States is "exports means jobs." That has been the theme of three successive "Great Lakes Exports Conferences," which I sponsored. In Israel, however, exports means survival and the United States is committed to the survival of Israel.

Free trade zones are not a new concept. In fact, the major international agreement governing world trade, the General Agreement on Tariff and Trade, specifically recognizes free trade zones. Congess has already approved legislation establishing a type of free trade zone for the Caribbean Basin. Both the executive branch and Congress have considered a comprehensive proposal for a North American Free Trade Area incorporating the United States, Canada, Mexico, and the Caribbean countries

Trade expansion would be especially suited to manufactured and high technology products, an area where the Israelis have a high percentage of highly skilled workers and have devoted considerable resources to research and development. Israeli exports succeed because they are innovative and adaptable to special industrial and agricultural applications. There are lessons to be learned here for many U.S. exporting companies. In fact, conferences on Israeli exports indicate that U.S. firms, especially small- and medium-sized companies, have much to gain by participating with smaller Israeli firms who have successfully penetrated tough foreign export markets.

America's relationships with our friends and allies are based on certain principles. Fidelity to democratic institutions and principles link Washington and Israel. The strategic dimension to this relationship to the security of the Eastern Mediterranean is also a major factor in our bilateral relations.

Already many U.S. defense-oriented companies cooperate with their counterparts in Israel and Israel innovations to military systems has saved the United States considerable R&D expenditures. However, the economic dimension of the American-Israeli relationship should be strengthened. A program to strengthen America-Israeli trade could also serve as an incentive for other parties, to the Arab-Israeli conflict, to place their own economic development ahead of regional strife.●

AGE RATING IN HEALTH INSURANCE IS UNFAIR

HON. MARY ROSE OAKAR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Ms. OAKAR. Mr. Speaker, these are difficult times for a lot of senior citizens in Ohio. This summer saw the beginning of age rating for Blue Cross and Blue Shield group health insurance subscribers in northeastern Ohio.

Age rating means that health insurance premiums increase with age. For some older people in my district, premiums have jumped up to $150 per month. According to press accounts, premiums have increased as much as 50 to 100 percent for persons over age 50.

Traditionally, Blue Cross practiced community rating for health insurance. Everyone, regardless of age, was charged the same basic premium; and everyone could count on protection from the financial disaster of serious illness or injury. That's what insurance is for. And that's what spreading risk is all about.

Unfortunately, under this equitable policy, Blue Cross found it difficult to compete with commercial insurers—who, for years, have charged older Ohioans more for health insurance. So, Blue Cross decided to age rate health insurance in northeastern Ohio.

Now, Mr. Speaker, nobody should fail to appreciate the health insurance coverage Blue Cross has long provided

for older Ohioans. And nobody wants Blue Cross to be at a disadvantage with their competition. But two wrongs don't make a right. Age rating was wrong when the commercial insurers used it. And it is wrong today. Age rating is age discrimination. It is bad news for senior citizens.

Age rating is unfair. Every one of us has some older person to thank for providing our health insurance—not to mention room and board—during our first 18 years. Why shouldn't all of us be willing to help our elders shoulder some of the risk of ill health?

Age rating is unsporting. It changes the rules for seniors who have purchased health insurance all their lives under community rating. While they were young, they helped shoulder the risk for older members of society. Now that they are older, though, no such help is extended to them.

Age rating is discrimination. It isolates the elderly—all elderly, sick or healthy—and deprives them of the benefits from spreading risk over a large segment of society.

Finally, Mr. Speaker, age rating is perverse economics. Raising health insurance premiums won't discourage older people from getting sick. Nor will it discourage them from growing old. age rating will only make it harder for people to buy insurance as they age. This is hardly the kind of incentive we want to promote.

Mr. Speaker, I am informed by the Ohio Insurance Department that age rating is well within the limits of lawful insurance practices in Ohio. The director of the department writes:

Since age rating has been a permitted practice throughout the insurance industry in Ohio, even as gender is permitted in underwriting, perhaps the solution would be for the legislature to prohibit age rating for health care coverage.

Perhaps, indeed. The law most certainly should prohibit unfair insurance practices, such as age rating. For the average American, insurance is the fourth largest purchase, after food, housing, and taxes. We spend 12 percent of our disposable income for premiums. It is critical that we be assured of equitable rates and fair practices in insurance.

Perhaps it is time, Mr. Speaker, for Congress to take a hard look at the law that all but prohibits Federal regulation of the insurance industry. Perhaps it is time for us to take a hard look at these persistent, unfair practices and take action to change them.

Mr. Speaker, older Americans have suffered enough unfair treatment. They deserve better. I urge my colleagues to examine their own districts for the practice of age rating by health insurers, and to work for reform of this discriminatory practice.●

THE GOP PLATFORM—GROUNDS FOR WORRY

HON. RICHARD L. OTTINGER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. OTTINGER. Mr. Speaker, my good friend, John B. Oakes, former senior editor at the New York Times, recently wrote an article detailing the differences between the preelection Ronald Reagan we see presented via the media and the real Ronald Reagan as laid out in the Republican platform of 1984.

As Mr. Oakes so aptly points out, "It—the GOP platform—has to be read to be believed." The platform clearly belies the President's campaign comments on the issues of war and peace—including any meaningful arms negotiations or reductions with the Soviets—the United States role in Central America, the administration's avowed support of tuition tax credits, capital punishment, ethics in Government, the environment and the administration's destabilizing economic policies which threaten our present economy and our children's future. The President's good guy image is destroyed by his platform, his smile hides his true agenda of a second, unaccountable term, and the moral overtones of the GOP platform have a chilling resemblance to the unhealthy zeal we have seen destroy other nations. Mr. Oakes rightly maintains they are not needed in our country. I commend his article to the attention of my colleagues:

THE G.O.P. PLATFORM—GROUNDS FOR WORRY

(By John B. Oakes)

CHILMARK, MASS.—Party platforms are traditionally meant neither to be read nor to be believed. The Reagan Republican platform of 1984 is different.

It has to be read to be believed, all 74 pages of it. This is one of those historic projections of policy that needs to be understood not as a flight of fancy but as a serious foreshadowing of coming events.

The right-wing radicals who are now in control of the Republican party have laid out the course for "four more years" Ronald Reagan, their wholly-owned subsidiary, will be guided by it. Their philosophy is his philosophy.

President Reagan's new-found "moderation" is an obvious pre-election pose without post-election substance. If it were otherwise, he could not honestly run on this platform. Neither could his satellite George Bush.

The foreign policy plank of the 1984 platform resounds with Mr. Reagan's fevered belligerency toward the Soviet Union, which his soft words toward Soveit Foreign Minister Andrei A. Gromyko last weekend did noting to dispel. How can one expect rational dialogue with Moscow when Mr. Reagan's platform declares that the Soveit Union's "globlist ideology and its leadership obsessed with military power make it a threat to freedom and peace on every continent"; or that "Soviet expansionism" and "imperialist aggression" are alone responsible for virtually every disturbance of the peace in Asia, Africa and the Americas.

The platform rings the death knell of arms control based on mutuality of interest. It insists on the prerequisite that "we shall keep . . . our country stronger than any potential adversary." Reeking with moral superiority, it rejects, as an "illusion," the idea that the Soviet leaders could "share our ideals and aspirations." The most significant arms-control agreement in recent years—SALT II (sabotaged in the Senate)—is dismissed out of hand. Mr. Reagan's "Star Wars" program—a fatal new dimension of the arms race—is "enthusiastically" applauded.

Making the laughable comment that "the danger of war has grown more remote under President Reagan" the platform at the same time shoves him nearer to war: "Marxist Nicaragua . . . cannot be allowed to remain a Communist sanctuary," while "continued assistance" to the Nicaraguan rebels is endorsed.

In tones reminiscent of the late 19th century, Mr. Reagan's platform declaims that the "God-given and inalienable right" of private property "is the cornerstone of our liberty and the free-enterprise system." The right of property "safeguards for citizens all things of value," including "their religious convictions, their safety and liberty." In a sequence of monumental illogic, the very next paragraph reaffirms "our support for a human life amendment to the Constitution." The platform then proposes an antiabortion test for "appointment of judges at all levels."

On other domestic issues, the platform spells it all out: tuition tax credits (designed to destroy the public schools); capital punishment (it must be "carried out humanely"); appointments ("we will continue to hold all public officials to the highest ethical standards," presumably no higher than those of Edwin Meese 3d, Mr. Reagan's Attorney General designate); environment ("conservation means development as much as it does protection").

On the economy, the platform opposes, as an article of faith, "any attempts to increase taxes" no matter how crippling the $200 billion deficits become. It goes further. It seeks to eliminate the graduated income tax in favor of a flat tax, which would benefit Mr. Reagan's fellow millionaires even more than the tax cuts he has already engineered. The platform criticizes the Federal Reserve Board, which has been the one domestic bulwark against inflation.

President Reagan's "good guy" image is cut to pieces by his platform. His carefully packaged TV appearances, in which he studiously avoids the issues, present him as a benign (if aging) father figure for all America. His platform reveals him as champion of a smiling authoritarianism that threatens to destroy individual liberty and freedom in the guise of protecting them. It is permeated by a moralistic fervor that has led to disaster in other countries and has no place in our own.●

SALUTE TO MART NIKLUS

HON. BRUCE A. MORRISON

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. MORRISON of Connecticut. Mr. Speaker, I would like to recognize

today Mart Niklus, one of Estonia's outstanding freedom fighters and defender of human rights. Mart Niklus, who is regarded as a national hero by the Estonians, has been instrumental in coordinating the efforts of the various human rights activists in Estonia, Latvia and Lithuania. He is currently serving 10 years in a hard labor camp and 5 years internal exile for anti-Soviet agitation and propaganda.

Mart Niklus was first imprisoned in 1958 and sentenced in 1959 to 10 years of hard labor, followed by 3 years of internal exile, for sending photographs depicting conditions in Soviet-occupied Estonia to a Western journalist. After spending 8 years in Soviet prisons and labor camps, he was released in 1966. During the years following this imprisonment, he was repeatedly imprisoned and his home searched, and in 1980 was refused permission to leave Estonia and join his family in Sweden.

Mart Niklus began his most recent prison term in 1981 in the infamous Chistopol Prison, where he recently spent his 50th birthday in solitary confinement. His health is rapidly weakening and he is in the midst of a hunger strike.

Mr. Speaker, for 40 years the Soviet Union has stripped the Estonian people of their national identity, culture and language. Mr. Niklus, the symbol of Estonian resistance to the Soviet occupation in Estonia, has shown a true sense of nationalism in his struggle to free himself from his harsh oppressors. I deeply salute Mart Niklus, and others like him, who have earned the admiration of the people of Estonia and also of the world.●

ADMINISTRATION'S ATTEMPT TO PRESS COSTA RICA INTO ITS CAMPAIGN AGAINST NICARAGUA

HON. EDWARD. J. MARKEY

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. MARKEY. Mr. Speaker, in the bleak political landscape of Central America, one nation has long stood out as an example of democracy and stability. In contrast to its troubled neighbors, Costa Rica has seemed a virtual Jeffersonian democracy. Unfortunately, recent efforts by the Reagan administration to press Costa Rica into its campaign against Nicaragua have increased factionalism and polarization within that country, with disturbing implications for its political stability.

The administration's announcement that the Voice of America will be renting a transmitter in northern Costa Rica to broadcast propaganda to Nicaragua is a case in point. Debate over the VOA's intentions in that country already has exacerbated tensions within San Jose between those officials wishing to accommodate the Reagan administration and those who fear further damage to Costa Rica-Nicaraguan relations. Others are troubled by what they see as the United States' arm twisting of a small country in order to achieve its policy goals, further compromising Costa Rica's tradition of neutrality.

Monica Kennon, a Research Associate at the Council on Hemispheric Affairs, has written a memorandum that analyzes the controversy surrounding the introduction of USIA broadcast activities scheduled for next year. I would like to have this memorandum printed at this point in the RECORD.

THE VOICE OF AMERICA IN COSTA RICA: SENDING THE WRONG SIGNAL?

U.S. Ambassador to Costa Rica Curtin Winsor's Sept. 2 confirmation that Costa Rica will be a beneficiary of Charles Wick's United States Information Agency's (USIA) $1 billion modernization package for the Voice of America (VOA), intended to transmit the "U.S. public diplomacy message to the world," has spawned a new wave of strife in an already overheated San Jose on the issue of Washington's increasing role in Costa Rica's domestic and foreign policy. It also marks another highly controversial action by Wick, a Reagan confidant, whose tenure as USIA chief continuously has been characterized by public debate over his conduct in office and his politicization of the agency.

The new pact, signed August 31 at the residence of President Luis Alberto Monge by Winsor, the equally controversial U.S. envoy to the country, and Lilia Castelan de Lara, president of the privately-controlled Costa Rican Association for Information and Culture (ACIC), allows the VOA to use an ACIC radio station to broadcast messages that "support democratic values" to Nicaragua. The arrangement also is intended to counteract extensive propaganda by Nicaragua's Sandinista government on frequencies that reach northern Costa Rica, and punctuates another step by Washington into the public news manufacturing business while it moves to privatize other traditionally public sector activities.

PRIVATE OR PUBLIC ENTERPRISE?

The VOA, which traditionally enters broadcasting agreements with foreign governments, rather than with private groups, negotiated the pact with the ACIC only after an initial attempt to reach an accord with San Jose had been thwarted by Costa Rican law, which prohibits foreigners from owning broadcast facilities in that country. The current agreement still runs clearly contrary to Costa Rica's proclamation of neutrality, issued by President Monge last November—which, having fallen short of being incorporated into the constitution, is not legally binding but is nonetheless central to the increasingly strident debate over government policy. A provision of the neutrality proclamation states that "the maintenance or establishment of nonpublic wireless installations aimed at communicating with warring factions will not be tolerated."

The ACIC, an instant product of negotiations between the U.S. Embassy, the USIA and Costa Rican commercial broadcasters, was created last December with the express purpose of enabling the VOA to circumvent legal roadblocks to setting up the new transmission station.

The arrangement—of which many details remain secret—enables the VOA to circumvent the law, since it does not officially own the station, but is paying a rental fee of $3.2 million for use of transmission facilities, plus an additional $168,000 annually for the 20-year duration of the pact.

The station, which will begin transmitting next year, will be located in the northern city of Pital, Guanacaste, near the Nicaraguan border. According to a State Department official, the VOA will be entitled to broadcast to Nicaragua on the new frequency 5 to 6 hours a day, with the ACIC using the remaining 18 or 19 hours for its own programming. The 50-kilowatt station will operate on both AM and FM frequencies, which are easier to pick up in Nicaragua than the short wave transmissions which the USIA currently uses to broadcast to that country.

The broadcasters, in turn, will profit handsomely from the installation, since its signal will be the only non-Nicaragua-based channel easily accessible to northern Costa Ricans, granting the ACIC a virtual monopoly on domestic programming in the area. Mountainous terrain prevents signals from San Jose and other southern cities from easily being carried to the north.

The origins of the agreement remain unclear. USIA spokesmen cite a written request to President Reagan from President Monge last December for a transmitter, as well as a year-old review by the National Security Council that pronounced the USIA's present worldwide broadcast facilities badly in need of modernization and expansion. Members of the Costa Rican Legislative Assembly, however, privately have hinted that the intitiative, including Monge's letter, was the result of joint pressure tactics by the U.S. Embassy in San Jose and the USIA.

COOL RECEPTION

The disputed pact has become a considerable source of tension within and outside the Costa Rican government. Questions that were raised over the legality of the agreement within the Legislative Assembly postponed its signing on at least three occasions.

The installation also has provoked protests from a variety of Costa Rica's political groups and parties, including elements of the ruling National Liberation Party (PLN). Shortly after the agreement was ratified, a political committee of the left Liberationist Youth movement, in an implicit reference to the ACIC, condemned the attitude of "a few Costa Ricans" who "spare no efforts to endanger our peace and sovereignty." Independent deputy Ricardo Rodriguez called the VOA's arrival the "beginning of the surrender of national sovereignty to a foreign power." The centrist, Social Democratic Party, declared that the facility will give "the United States a platform on Costa Rican soil that will provoke unnecessary tension with the Nicaraguan Government and violate the principle of neutrality."

Indeed, the VOA has added fuel to the Radical Democratic Party's August 24 request that the Costa Rican government declare Ambassador Winsor persona non grata for what it termed his "incessant meddling" in Costa Rican affairs, which included a public statement by him that a former president of the country was a "man who should be declared insane."●

THE IMPORTANCE OF THE LABOR MOVEMENT IN AMERICA

HON. MARCY KAPTUR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Ms. KAPTUR. Mr. Speaker, the important place that the labor movement has served in the lives of America's working men and women is often ignored or misunderstood. It is good for us to remind ourselves of the roots of the labor movement and its implications for the future. I would like to commend to my colleagues a statement I made on Labor Day in which I discussed this topic:

Labor Day 1984 is the 90th anniversary of the first Labor Day celebration the people of the U.S. held in 1894. Labor Day is the national holiday which honors the dignity of working people. Only in free societies, do labor unions exist. Without freedom, there can be no free labor union movement.

Today, in our country, there is a reawakened interest in American heritage, particularly individual family histories, or "roots", or as the librarians call it geneology. Americans, family by family, are rediscovering not only who they are as Americans, but what their rich heritage implies for the future.

Labor Day 1984 is a good time for us to remind ourselves of the roots of the labor movement, and ask ourselves what that implies for the future. From its earliest days, the American labor movement has been a movement of dissent. As George Meany once said:

"Workers dissenting against economic exploitation. Workers dissenting against sweatshops and other substandard working conditions. Workers dissenting against employers' control of their lives, their homes, their schools, their opportunity to improve their lot and, most especially, that of their children.

Unions have never been very popular with "the establishment"—for dissent is never popular with those who have much and intend to keep it all. By its very nature, dissent is a questioning of authority.

Only in a democracy can workers control their individual destiny—economic and political. To be free, workers must live in a system where people are more important than wealth. And, in the final analysis, that is just what a democracy is all about."

History proves the case. In Mussolini's Italy, unions were the first targets of fascist terror. In Hitler's Germany, the Federation of Trade Unions was the first organized force to feel the deadly blows of the Nazi storm troopers.

In Czechoslovakia in 1948, the Communist used control of the unions and thus stifled effective, democratic opposition. Communist rulers in East Germany, Poland, Czechoslovakia and Hungary had to crush workers' rebellions to remain in power. The Russian worker today has no right to freely associate, speak his mind, bargain with his employer—and, certainly, he has no right to strike.

The labor movement, as its name implies, is always a *movement* . . . that is a cause with moral and ethical underpinnings. Though the labor assessment is intensely practical and seeks material ends, it is also guided by ideals that are deeply spiritual in that it draws to people's attention the value of each person's life and the limitless possibilities for each person's development as a human being.

With Solidarity Day III, we celebrate the struggle of a free people through their free trade unions to secure and maintain not only their economic rights but their simple human rights. Or as a famous poem says, "we struggle for bread, but also for roses."

This week, I had occasion to visit an old mining town in western Pennsylvania, an area like our own only in that it has lingering unemployment. I saw a glimpse of what life there used to be like—a company town where workers had no rights, lived in tarpaper shacks owned by the company, paid for food with script issued by the company, and where mine workers still have the highest on-the-job death rate of any occupation in the country. I was reminded again about the age-old struggle between shareholders' and managers' rights, and workers' rights, and how much we had progressed as a society since the 1930's.

I understood how labor unions had been absolutely essential in our 20th century American drive to build a middle class, to enact Social Security and pension laws, health benefits, safety and sanitation regulations, minimum wage, collective bargaining, and arbitration, the 8-hour day, abolition of child labor, unemployment insurance, civil rights, medicare and education.

But I also reflected on where the labor movement is going. It is a movement accustomed to meeting new challenges and adapting to new conditions. I know its role will be key as our society attempts to meet new challenges of the future:

Challenges of:

lingering unemployment in our basic industries.

the special problems of unemployed older workers affected by plant shutdowns, and the problems stemming from the growing pool of part-time workers with no benefits.

the enormous opportunity presented to workers in the steady growth of pension funds assets and their unlimited potential to create jobs in America.

for expanded education and training for younger workers who must adapt skills quickly to fast-changing technology.

for affordable health care for all Americans.

for a new fair trade policy that blunts unfair foreign competition.

for new labor-management cooperative efforts in the workplace, so our nation can regain the competitive edge in our key industries as well as maintain industrial peace for the common good.

I am here today to tell you without the labor movement, America would be a very different society in which to live. Rights are never won completely but must be rewon constantly. As Jefferson said, "The price of liberty is eternal vigilance".

I am also here today to express the concern that affluence for some in our society must not blind us to the unmet human needs of billions of Americans. Together, we must find new ways to help people help themselves as we move toward the 21st century.

And as we move toward that newer world, let us be guided by a quest for justice, human rights and for individual dignity for each human being. As John Kennedy said not so many years ago, "In so doing, we demonstrate to ourselves that our society is vital, our purpose steadfast, and our determination to fulfill the promise of American life for all Americans is unconquerable."●

TRIBUTE TO ROBERT MILLER

HON. GEORGE W. GEKAS

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. GEKAS. Mr. Speaker, On September 21 and 22, 1984, the 31st Annual World Plowing Matches were held in Lincolnshire, England; a contest that featured participants from 24 countries competing for the title of World Plowing Champion.

I am pleased to note today in the CONGRESSIONAL RECORD that a constituent of mine, Mr. Robert Miller, of Millersburg, PA, was one of two participants sent to England to represent the United States at the plowing contest.

As was noted recently during a nationally-televised nightly newscast, Mr. Miller won the right to represent the United States after winning the U.S. National Plowing Championship in August 1983, held in Pennsylvania. Prior to this achievement, Mr. Miller won the title of Pennsylvania State Plowing Champion.

It was these two honors that earned him the right to represent not only Pennsylvania in England, but the citizenry of the United States as well. I would like to take this opportunity, along with other fellow Pennsylvania, to congratulate Mr. Miller not only for winning the National Plowing Champtionship title, but on his performance and representation of our country before the world.

South Dakota will be the setting for the 1984 National Plowing Contest scheduled to take place this week. The winner of this contest will represent the United States in Denmark in 1985.●

AMERICAN RED CROSS "SUPER CPR SATURDAY"

HON. GLENN M. ANDERSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. ANDERSON. Mr. Speaker, before the House completes its business for the year, I would like to mention a fine program that is being put together by the American Red Cross. The goal of the Red Cross is to eliminate human suffering and needless loss of life through educational programs and disaster relief to the community.

The American Red Cross provides cardiopulmonary resuscitation [CPR] training to community groups, business and industry, and community residents on a regular basis. And last year, the American Red Cross con-

ducted 8,466 CPR classes, resulting in 97,466 persons receiving CPR training.

Statistics reveal that when CPR is administered within 4 minutes after the heart has stopped, it can save the lives of victims of heart attack, drowning, shock, and asphyxiation. Approximately 4,000 lives could be saved in Los Angeles County each year, if 25 percent of the population were CPR trained.

Annually, the American Red Cross and television station KNBC combine efforts as cosponsors of a major CPR training event in the southern California area. This event, known as "Super CPR Saturday," under the banner "Your Hands Can Save a Life," is part of a massive national American Red Cross and NBC campaign to increase the public's awareness of the need to learn CPR.

The fourth annual event will be held January 26, 1985, at 26 sites throughout southern California. It is expected to train 6,000 community residents during a single day, and 1,500 persons during the week preceding the event.

I join with my wife, Lee, in saluting the efforts of the American Red Cross and KNBC in promoting this lifesaving technique.●

TRIBUTE TO KENT HANCE

HON. G. V. (SONNY) MONTGOMERY

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 4, 1984

● Mr. MONTGOMERY. Mr. Speaker, I want to join with my colleagues today in honoring the gentleman from Texas, Representative KENT HANCE, who will not be back when the 99th Congress convenes in January.

KENT HANCE has made an impact since coming to Washington in 1979. He was a very active member of our Conservative Democratic Forum and offered strong leadership when we were working on ways to reduce Federal spending. KENT has been a hard-working Member of Congress and I know the people of the Lubbock area appreciate his service to them.

KENT HANCE is one of this Nation's bright young leaders and I know we will be hearing from him again. He has too much to offer the State of Texas and this Nation. I am proud to call him a friend and enjoyed having the opportunity to serve with him in this Chamber.●

IN TRIBUTE TO TOM CORCORAN

HON. CLARENCE E. MILLER

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Monday, October 1, 1984

● Mr. MILLER of Ohio. Mr. Speaker, I rise in tribute to my good friend and colleague from Illinois, TOM CORCORAN, who is retiring from the House with the close of business in the 98th Congress.

I have had the distinct pleasure to serve with TOM for many years in this body and I have always been impressed by his sense of integrity and fair play when considering the issues that are of importance to our Nation. His service on the House Energy and Commerce Committee was marked by attention to detail and commitment to the principles of the free enterprise system.

I know that I join with others here today to say that he will be greatly missed. Thank you, TOM, for a job well done.●

TRIBUTE TO LARRY WINN

HON. ROBERT J. LAGOMARSINO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 2, 1984

● Mr. LAGOMARSINO. Mr. Speaker, I rise to pay tribute to my dear friend and respected colleague on the House Foreign Affairs Committee LARRY WINN.

Since I first came to the Foreign Affairs Committee 10 years ago, I have looked to LARRY for leadership and guidance. It was his experience and sensitivity to the national security and foreign policy issues we considered that helped me formulate my own positions on these issues.

His insight on security and economic assistance, on relations with our allies in the Middle East and our commitments within NATO proved to be a valuable contribution to constructive consideration of legislation in our committee.

As he retires from this body, his ability and his friendship will be sadly missed. I join all his friends in thanking him and wishing him health, happiness, and the contentment of knowing he has performed an outstanding public service for his constituents and his country.

My wife, Norma, and I will miss LARRY and his wife, Joann. We wish them well and hope to see them often.●

HOUSE JOINT RESOLUTION 158

HON. MORRIS K. UDALL

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. UDALL. Mr. Speaker, on October 4, 1984, the House concurred in the Senate amendments to House Joint Resolution 158.

On this subject, I want to take this opportunity to emphasize that the amendment requires that fractional interest representing 2 percent or less of the acreage of a tract of land are to escheat if they are incapable of earning $100 in at least 1 of the 5 years after the death of the current owner. However, the property is presumed to be incapable of generating the required $100 if it has not, in fact, done so in at least 1 of the 5 years preceding the death of the owner.

In essence, the amendment incorporates the administration's suggested amendment to allow a longer time period for determining if the minimum income has been earned. It also takes into account the concerns of individual Indian people that they should have an opportunity to demonstrate that an interest may have substantial but as yet unexploited value. It is my understanding that under this bill, if an interest in land has not generated the required income prior to the death of the current owner, it should be presumed that the interest escheats. Individuals may, however, attempt to rebut the presumption by presenting substantial evidence of the interests future earning capacity. For example, by presenting evidence of leasing requirements or other evidence that the property will, in fact, be capable of generating at least $100 in income in at least 1 of the 5 years after the death of the current owner. Mere speculation on future use or value will obviously be insufficient to overcome the statutory presumption favoring escheat.●

JOSEPH LANIER, JR.

HON. RICHARD RAY

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. RAY. Mr. Speaker, the influx of imports into the United States has caused tremendous damage to many formerly sound American industries such as steel, automobile manufacturing, agriculture, and the textile industry.

The textile industry has been particularly hard hit by imports in this last decade. By 1983, textiles accounted for 15 percent of our trade deficit, or $10.6 billion.

It was this decline in what was once one of our most prosperous industries which led me to join with others of my colleagues to seek ways to help the American textile industry withstand unfair foreign competition. H.R. 5823, the Textile Employment and Fair Trade Act of 1984, would provide some relief to our struggling textile industry. By temporarily freezing imports, imposing reasonable quotas, and monitoring imports more closely, we hope to provide a breathing space for our American textile industry.

The textile industry will also benefit from the passage of the Derrick amendment which requires that labels stating the country of origin be mandatory on all textiles. Since polls have shown that over a third of American consumers notice whether or not their fabrics are American made, this amendment should curtail import sales in our country.

Mr. Speaker, as I and others have worked here in the Congress to find solutions to the problem of textile imports, we have found that the men and women who work in the textile industry are also actively working to revive this industry.

I have been particularly privileged to have the advice and input of Joseph Lanier, Jr., chairman and chief executive officer of WestPoint Pepperell, during my research on the textile problems.

Mr. Lanier has the ability to look at the competition which U.S. textiles face and, using American ingenuity, he can map out a plan to meet that competition. It is his vision and foresight which have kept WestPoint Pepperell successful, even during recessions.

Imports are indeed a problem, but Joseph Lanier has been successful in an industry that was highly competitive before imports became a threat. For him, the world offers countless markets for WestPoint Pepperell, and he is a master at selling his product all over the globe.

I have long admired Mr. Lanier, not only for his knowledge and skill in the textile industry, but for his unfailing determination to keep American textiles a leader in this international competition.

In the October 1984 issue of Delta's Sky magazine, Jasper Dorsey offers an informative profile of Joseph Lanier. I hope my colleagues will read this profile, remembering as they do that a real solution to the textile trade deficit will not come from our efforts alone. Instead, it will be expert businessmen like Joseph Lanier who put the United States on top of the world textile market.

[From Sky Magazine, October 1984]

JOSEPH L. LANIER, JR., CHAIRMAN AND CEO, WESTPOINT PEPPERELL, INC.

(Profile by Jasper Dorsey)

There are a number of unusual things about the giant textile company, WestPoint Pepperell.

One is that its corporate headquarters is in the small, country town of West Point, Georgia, about 30 miles north of Columbus and Fort Benning.

Another is that its chairman and chief executive officer, Joseph Lamar Lanier, Jr., is the fourth generation of his family to head the enterprise since it began over 100 years ago.

Yet another is that WestPoint Pepperell is considered by industry analysts to be one of the very best-managed firms in a very tough, competitive industry.

There are a number of other aspects unique to this company and its CEO.

Joe Lanier was born on February 9, 1932, in Lanett, Alabama, a town named for his family, on the banks of the fabled Chattahoochee River. He went to the college his father and uncles attended, Washington and Lee University, earning a B.S. degree in 1954. He joined the S.A.E. fraternity, he said, because his father and uncles were Phi Delta Thetas. ("Each generation should improve on the previous one," says Lanier.) Then came the Harvard Business School. After graduation at W. & L., he married a physician's daughter from his hometown, the former Ann Morgan. Military obligation occupied 1955–57, as he became a company commander in the U.S. Army.

He'd chosen W. & L. because he wanted a small liberal arts school instead of one specializing in engineering. Later experience confirmed his judgment; he's met many highly skilled engineers who have difficulty in articulating their ideas and who cannot sell. Moreover, the liberal arts gave him a far broader education and sense of values. He prefers to place technology on top of the broader education, rather than the other way around.

He was baptized into selling at a subsidiary, Wellington Sears Co. of New York City, after the Army. It took. He's been selling ever since. He had started working in the mills as part-time summer help at age 15; he because assistant manager of one in 1959, then to corporate headquarters as a vice president in 1962. In 1964, he returned to New York as vice president for New Product Planning and Development, a key assignment. A manufacturing slot followed, and a presidency (of the Industrial Fabrics Division) arrived in 1968.

He went on to the board of directors, then became executive vice president in late 1969. Election as chief operating officer and president came in 1974, then as president and CEO in 1975, when he was 43. He was elected chairman in 1979.

Eighteen months later, on May 10, 1982, he was named the best chief executive officer in the textile industry by the *Wall Street Transcript*. The selection was made by the editorial staff of the newspaper, based upon 50–60 interviews with industry executives, leading financial analysts, money managers, the academic community, trade journalists, and various professional sources. The test, according to the newspaper, is to what extent the CEO has taken the proper steps to enchance the overall value of the enterprise for the benefit of the shareholders. Lanier received the honor again in July of this year, when he was chosen as one of the two best in the industry.

WestPoint Pepperell is the third-largest publicly held textile manufacturer in the nation, with an outstanding reputation for flexibility, excellent productivity, and cost control, as well as superior talent for marketing and anticipating customer needs. There are 22,000 employees with 40 manufacturing facilities located in Georgia, Alabama, South Carolina, North Carolina, Florida, Maine, Texas, and Virginia.

In an industry which is extemely competitive, and suffers from foreign competition, Lanier was one of the first textile CEOs to develop a global strategy. Moreover, he's open-minded about imports and exports. With all this, and during trying times, he has maintained an above-average return on capital. WestPoint Pepperell has a tradition of being a low-cost producer of quality goods, achieved by early placement in their mills of the most modern equipment. They've done it, especially during recessions, because the strength of the company encourages and permits it.

Lanier's management skill is very quick to identify new markets, and doesn't hesitate to pull equipment off one product to put it to work on a new one. He has done every job in the mills. This gives him a canny knowledge of what can be done, as well as how and when to do it.

Perhaps the key to Joe Lanier's strength is that he knows what business his company is in. Surprisingly, many CEOs do not. He puts it this way: "I see us as a *textile marketing company*, which also *manufactures* textiles. We're in business to earn money selling textiles, not just to manufacture cloth." It's no accident that he's an excellent salesman—of both ideas and textiles.

Constantly searching for innovation, and placing a heavy emphasis on marketing, he likes to stay out in front, but does not emphasize market share, for he believes you can have that today and lose it next season. Further, a sound second place is preferred to an expensive first place.

Company president Clarence J. Kjorlien believes that a major force in Joe Lanier's career has been his family heritage. This obligation and deep commitment give an extra thrust and dimension for shareholders and employees. They become apparent after short acquaintance.

Lanier's responses to questions about pressure imposed by his family are humorous. He's never been against nepotism, but recalls that early in his career he spent a long time doing things nobody else wanted to do. He confesses to being competitive, both on the playing field or in business, and has always tried to be the best at anything worth doing; but he smilingly adds, "We try to have fun doing business, but it always has a serious side."

His hobbies include expertise in golf, fishing and hunting. He is an excellent gunner on driven grouse in the Scottish Highlands, and enjoys all the traditions of this ancient sport, including wearing "plus two" knee britches, high-top shoes, long woolen stockings, and tweed hunting jacket and cap.

Kjorlien says Lanier's best contribution to the company's operation is being as sensitive to the market as he is, while still being conscious of the whole mosaic of a very complex business and what makes it go. There's fire and desire there, plus a better insight into the market than his competition. He never loses sight of how all the parts fit into the whole. Lanier knows everyone who's been with the company awhile, even their parents.

An outside director, attorney Yetta Samford, defines Lanier's assets as having a keen people sense, along with a willingness to listen to new ideas: "Joe has an excellent sense of humor and likes to have a good time, but is tough-minded and can be tough without being unfair or unreasonable. Foresight is his strong suit, especially on capital investments."

Another outside director, Bill Flowers, former CEO of Flowers Industries, describes Lanier this way: "Joe's one of the outstanding CEOs in the nation. He come up through the ranks, knows the machines and the plants; not many rise that way now, or have that background. He combines those talents with a sharp analytical ability, a worldwide scope of marketing, and a great capacity to control costs. This moves him to place the major emphasis on selling."

It was from a small cotton mill in the war-ravaged South of 1867 that West Point Pep-

perell grew into the third largest publicly held firm in the industry.

With capital secured by the sale of cotton to the eager British, the founders purchased used machinery from New England mills, then build a mill on the edge of a cotton field on the banks of that Chattahoochee River for water power, and commenced to make osnaburgs (a heavy, coarse cotton fabric). Willing labor was plentiful.

Again with foresight, the services of two experienced cotton mill men were secured from England, and new equipment was ordered to obtain best production at the lowest cost. Lafayette Lanier, son-in-law of the founder, decided to convert from osnaburgs to cotton duck, a fabric in great demand on the frontier for tents and wagon covers. Then he secured a contract with a shrewd Yankee trading firm in Boston to sell their products nationwide. N. Boynton & Co. sold millions of yards of canvas for the purpose of housing railroad workers who were building five transcontinental lines. Another benefit obtained from the Boynton arrangement was access to Boston capital. Demand for textiles skyrocketed as the nation grew.

By superior foresight and management skill, the company had created a manufacturing textile concern in a place with great natural advantages, where nothing like it existed before. They secured expert mill management, got a running start on competition by anticipating the market, then capped it all by securing a superior marketing and capital-raising source.

The original firm was incorporated as WestPoint Manufacturing Co. in 1880. The merger with Pepperell Manufacturing Co. in 1965 has been called a perfect marriage by analysts, as it brought together the expertise of WestPoint Pepperell in industrial fabrics, carpets and toweling, including Martex® towels and Cabin Craft® carpets—with the complementing lines of Pepperell's apparel fabrics and its Lady Pepperell® sheets.

The marriage of Deep-South strengths and traditions with the Yankee enterprise of Biddeford, Maine, is symbolized by the winged griffin trademark of WestPoint Pepperell. The body of a lion with the head and wings of an eagle symbolize the union of strength and ability with integrity. The wings suggest billowing fabrics, and the whole truly represents a sustantial firm, broad in scope and dedicated to quality textiles.

The company operates five almost-autonomous divisions, with the control overview to avoid duplication. Each has a president, manufacturing and marketing head, and a strong comptroller function. Legal and financial operations are based in the corporate headquarters. Corporate and division staffs are very lean.

Annual sales of $1.2 billion through August 1983 were up nine percent over 1982. Significantly, net income—$53 million vs. $43 million—was up 21.5 percent. Sales for the first nine months of fiscal year 1984 had risen to $1 billion from $881.2 million in 1983. Earnings for the same period were up 26 percent to $44.9 million and $4.30 per share, compared with earnings of $35.7 million and $3.42 per share from the same time in 1983. Another record year is predicted. Productivity per-man-hour has risen 50 percent over the last ten years. Quality is up substantially, too, providing a real bonus. Capital investment increased during this same period by $436 million in spending, helping make increased performance possible.

The staff describes Lanier best with one word—enthusiastic. He also has a good picture of where the company should go and a good grasp of when it should be there. He gives freedom to managers, expects innovation, delegates well, and is not a second-guessser—he never says, "I'd have done it this way."

Lanier approaches problems with a clean slate, and is very open to new ideas—they are never scorned or ridiculed. Called a free-thinker, Lanier doesn't want to keep doing things the old way because they've always been done that way, and doesn't mind changing his opinion. He seeks advice and weighs contrary opinions, searching for all the facts. If something isn't profitable, he changes or drops it. If he needs information, he goes straight to the individual who might have the answer. This not only gives him a response but also an insight into the capability of the person.

Divisions find the CEO often in the field, where he makes himself available to everyone; he's always had the great ability to say the right thing. Lanier draws an audience quickly, and has the asset of sincerity in speaking to groups.

The newest division is the international one. There are joint-venture operations in Holland, the United Kingdom, Belgium, Germany, and France. But the thread of innovation runs strongest in Costa Rica, where cloth that's woven and cut with top quality at home is airshipped to San José, and tailored into shirts for the likes of Arrow. Started a year ago, the Costa Rican operation is doubling in size.

Management style is highlighted by Lanier's personal participation in promotions, training, and assignments of middle management and upward. The company uses a number of methods to do a good screening job, looking for willingness and desire. They prefer to promote from within, and rewards are based upon performance.

The most critical decisions he has made, Lanier feels, are two: to realize they are marketers first and manufacturers second, thus enhancing profitability; then the development and selection of the managers who hold the firm's top position.

The most critical decisions he can make about the future, he says, will be how to anticipate needs and wants—what products, what markets—then how to best serve them, all the while developing and selecting the best managers. He prefers his top managers and officers to have a broad, instead of a narrow, specialized expertise in the enterprise; so, he moves the promotable candidates into a number of assignments to develop and broaden skills. Performers are supported and rewarded.

The company is enormously proud of having founded a "50 Year Club" in 1947 which now list over 400 members, who all have 50 or more years of service. Over time, the firm brought prosperity and work to its communities. They not only provided homes for employees, but helped establish schools, churches, utilities and other services normally provided by local governments.

In the early 1950's, the firm began to sell all its houses to employees, since the houses were good buys for those living in them. They gradually withdrew from the utility and school businesses but remained in recreation. In almost every community where WestPoint Pepperell has a plant, there is a company-owned and -operated recreational facility available free to the public, not just employees.

Active in community affairs, Joe Lanier serves in positions of leadership in the family tradition. He serves, too, in leadership roles in the textile industry associations. There's time also to serve on the boards of directors of the Trust Company of Georgia, Flowers Industries, Torchmark Corp., and numerous others.

This sandy-haired, enthusiastic man, who looks like a football player 10 to 15 years younger than he is, usually has a twinkle in his blue eyes, for he is doing exactly what he has always wanted to do—see his company continue to be successful, with top earnings, and watching his officers, managers, and employees grow and prosper.

He is fully aware of standinng upon the shoulders of all those who have built WestPoint Pepperell and the great traditions that have been created by devoted, dedicated leadership and creativity.

Lanier has followed faithfully in all those traditions and achievements and—in an intensely competitive industry—has substantially improved them. You can't do much better than that.●

TRIBUTE TO ABRAHAM "CHICK" KAZEN

HON. G. V. (SONNY) MONTGOMERY

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 4, 1984

● Mr. MONTGOMERY. Mr. Speaker, I am honored to take part today in this special order paying tribute to our colleague from Texas and my close friend, ABRAHAM "CHICK" KAZEN.

I first met CHICK KAZEN when we were both freshmen in the 90th Congress. He and I served together on the Armed Services Committee for many years. We worked side by side on the Installations and Facilities Subcommittee and CHICK was also a ranking member of the Investigations Subcommittee. We will miss his knowledge and experience on matters of national defense.

He has been a faithful and hard-working servant of the people of the 23d District of Texas and I know he has earned the respect of Members on both side of the aisles for his dedication to getting the job done. CHICK has always been an eloquent speaker and a student of parliamentary procedure. It has been a great honor serving with CHICK KAZEN. We will miss him in this Chamber.●

CIVILIANS IN VIOLATION OF U.S. LAWS

HON. JIM MOODY

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. MOODY. Mr. Speaker, on September 24, the Washington Post carried a letter to the editor by Representative JIM LEACH, the distinguished chairman of the arms control and foreign policy caucus, concerning the legal implications of the activities of

private groups aiding the Nicaraguan Contras and the Salvadoran Army. The gentleman from Iowa pointed out that civilian military assistance, two of whose members died during a combat operation inside Nicaragua, appeared to be in violation of two laws: the Arms Export Control Act and the Neutrality Act. He also noted that the Reagan administration's failure to restrain this group—and in some cases, the administration's assistance to its activities—placed the administration in possible violation of four laws: the two mentioned previously; the $24 million cap on direct or indirect aid to the Contras in the fiscal year 1984 Defense Appropriations Act; and section 515 of the Foreign Assistance Act, which limits the permissible functions of U.S. military personnel working at our Embassies.

Having had the opportunity to debate one of the leaders of this misguided group, civilian military assistance, I found the comments of the gentleman from Iowa and his concern for respect for the law particularly relevant. I applaud his comments and his letter, entitled "Those 'International Vigilantes' Were Wrong." Therefore, I am including a copy of it so that any of my colleagues, who may have missed it, will have the opportunity to read this informative letter.

THOSE INTERNATIONAL VIGILANTES WERE WRONG

"Ask just what is wrong with what they did," says The Post of the two Americans killed in Nicaragua Sept. 1 while flying a military helicopter in an operation by Nicaraguan insurgents [editorial, Sept. 11]. Legally, the Post implies, nothing. The facts as reported, though, suggest there is quite a bit "wrong with what they did" from a legal perspective. They took actions, and were part of an organization that took actions, that may have violated the Arms Export Control Act and the Neutrality Act. By turning a blind eye to some of their activities and assisting in others, U.S. officials may themselves have run afoul of these laws and two others, the Defense Appropriations Act and the Foreign Assistance Act.

Section 38 of the Arms Export Control Act requires export licenses for many of the "defense articles and services" that Civilian-Military Assistance, the Alabama-based group sponsoring the two Americans, provided to Nicaraguan contras and the Salvadoran army: ammunition clips, camouflage uniforms and training on military helicopters for instance. These licenses, by all reports, were not obtained; yet U.S. officials in Honduras and El Salvador who were aware of the transfers did nothing to stop them, and in some instances actually assisted in them.

Section 960 of the Neutrality Act prohibits its support or participation in "military enterprises" against other countries that are carried on from the United States. It would appear, based on press descriptions, that CMA's military enterprises against Nicaragua was based in the United States. It was from here that cash, military materiel and military training were sent to help overthrow the government of Nicaragua. CMA has made the filmsy argument that by making a pit stop in Honduras, its members exempted themselves from the letter of the Neutrality Act. This agrument is contrary to the act's original intention and subsequent interpretion as recently as this summer in a case involving a military enterprise against Haiti. By failing to halt CMA's activities in this country, although the FBI reportedly had been aware of them since last spring, U.S. officials may be complicitous with CMA in violating the Neutrality Act.

Section 775 of the Defense Appropriation Act for this year set a ceiling of $24 million in U.S. government expenditures that "directly or indirectly" have the effect of supporting the contras. The $24 million has been spent. According to press reports of CIA briefings of congressional committees, the $24 million does not include the cost of the construction of the air base where CMA-trained contra pilots on military helicopters. (The GAO has already suggested that the construction of that base and another used by the contras with DOD exercise funds—which do not require specific approval from Congress for construction—was illegal: these bases should have been built with Defense Department military construction funds, which do require specific approval from Congress.) Also not included are the salaries of U.S. personnel present at the air base in supervisory and maintenance roles, and of U.S. personnel at the embassy in Honduras, who acted as liaisons for transfers of military materiel from CMA to the contras. This is indirect aid, pure and simple, and it evades the clear intent of the law.

Section 515 of the Foreign Assistance Act limits the permissible functions of U.S. military personnel managing arms transfer programs for the U.S. government. These functions relate only to government-to-government transfers, yet a logistics officer in El Salvador has reportedly acted as a conduit and processor for military materiel being sent to the Salvadoran Army by CMA.

Respect for the law is at the heart of both our national traditional and the fluid contract between the executive and legislative branches on foreign policy. "What is wrong" in this case is the private citizens, frustrated with the struggle between their elected representatives over Central American policy, have decided to take foreign policy into their own hands, and the administration has chosen not to enforce the law against these international vigilanties.—JIM LEACH.

The writer, a Republican representative from Iowa, is chairman of the Arms Control and Foreign Policy Caucus.●

E. GRACE PAYNE: TIRELESS COMMUNITY LEADER

HON. AUGUSTUS F. HAWKINS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. HAWKINS. Mr. Speaker, I wish to extend my greatest appreciation and respect for E. Grace Payne, executive director of the Westminster Neighborhood Association in Los Angeles. Under her leadership the Westminster Neighborhood Association has served as a tremendous source of community assistance for disadvantaged persons. She has helped senior citizens secure housing and helped clothe and feed the poor. I would like to submit for the RECORD an article by the Los Angeles Times which pays tribute to E. Grace Payne and her significant contribution to the residents of Watts.

The article follows:

ELLA PAYNE CHOSE WATTS—AND SHE STUCK IT OUT

(By Sandy Banks)

Ella Grace Payne knows first-hand of the conditions that spawned the Westminster Neighborhood Assn. in Watts—the poverty, the despair, the sense of isolation and neglect that pervaded the community.

"Twenty-five years ago, there were no social service agencies in Watts," recalls Payne, who moved to Watts in 1945. "No hospitals, no mental health programs . . . nothing.

"Services were poor and things were expensive. So many people were out of work and there were pressures on their families, and there was nowhere they could turn for help."

Today, from her office in the Westminster center near 103rd Street and Wilmington Avenue, Payne heads one of the most extensive social service programs in Watts.

A community activist who serves on many local boards, including the Coro Foundation and the Girl Scouts of America, Payne took the helm of Westminster in 1972. Under her leadership, the agency has almost doubled its 35-member staff and increased its annual budget from $300,000 to $1 million.

INITIAL TASK

Westminster had just lost its home in a donated former USO building when Payne was named director, so her first task was to find a new location.

Her role as an officer with the Presbyterian Church took her on visits to churches throughout Southern California and Hawaii, "and I never failed to tell them about the mission we were carrying out here in Watts at Westminster," she said.

Over the next few years, Payne helped raise $600,000 from individual Presbyterian churches to help build the spacious new quarters the center occupies today.

"We've been very lucky to have the steady support of the church over the years," she said. Today, she spends about half her time as Westminster's director soliciting contributions from local churches and foundations. Her efforts have paid off handsomely, with more than $250,000 in donations flowing into Westminster's coffers each year.

Westminster was started by the Presbyterian Church in 1959 as a mental health counseling service for troubled families. In those days, Payne belonged to the Bel-Vue Presbyterian Church in Watts, where she taught Sunday school, sang in the choir and headed church-based Girl Scout troops.

She remembers the Sunday morning Westminister's former director, Archie Hardwick, came to their church to appeal for volunteers.

"The next morning on my way to work, I showed up at Westminster's door to volunteer and I've been here ever since." Payne said.

Later that year, she joined the agency's board of directors and, in 1972, she left the job she'd had for 21 years as manager of a Los Angeles wholesale house to become its director.

And now, 12 years later, at 66, Payne is not yet ready to retire.

"There's still too much to be done," she says firmly.

Payne and her husband, Tom, and two children left Texas for Los Angeles in 1942 as part of the migration of job-seeking blacks from the South during World War II.

In Texas, Payne has been a schoolteacher, but here she went to work riveting P-38 fighter planes at Lockheed. Her husband earned a college degree in biology and found a job as a dining car steward for the Southern Pacific Railroad.

Like most black families, they settled in South-Central Los Angeles, first in an apartment near Washington Boulevard and Central Avenue, then later farther south in the "Blodgett Tract" of new homes near Central Avenue and Imperial Highway in Watts.

STILL IN SAME HOUSE

"In those days, that was one of the finest areas where black people could buy new homes," Payne recalled. "We paid $9,900, which was a lot of money, but we wanted our children to grow up in a nice neighborhood."

Forty years later, Payne and her husband still live in the home on a quiet street of small, neat bungalows just a stone's throw from Westminster and the public housing projects of Watts.

Many of her middle-class neighbors—the attorneys and postal workers and business people—have moved away, but Payne bristles at the suggestion that life in Watts is somehow beneath someone of her professional standing.

"People always say to me, 'You don't have to live there anymore. Why don't you move?" But they don't understand this is where I *choose* to live," she said. "Watts is my community, and it's a fine place to live."

At her many public speaking engagements, Payne zealously defends Watts against its popular image as a burned-out jungle of street crime because of the "Watts Revolt," as residents prefer to call the outbreak of violence there in 1965.

"Watts is the name of a community, not a riot," she is fond of saying. "The people in Watts are no different from the people anywhere else. All they need is a chance, and that's what we're here for."●

BONKER MEDICARE BILL WORTHY OF SUPPORT

HON. DON BONKER

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. BONKER. Mr. Speaker, I would like to insert in the RECORD the following editorial from the Daily Olympian of Olympia, WA, regarding my bill, H.R. 4487, the Supplemental Medical Insurance Improvements Act of 1983.

The editorial follows:

BONKER MEDICARE BILL WORTHY OF SUPPORT

Skyrocketing medical costs and the aging of our population are going to wipe out the Medicare trust fund by as early as 1987 unless Congress acts to control the program's costs, generate new revenue, or institutes a combination of both. Appropriate and timely action must be taken to preserve this program that helps provide medical care for our elderly.

Congressman Don Bonker, 3rd District Democrat, outlined his comprehensive Medicare reform bill earlier this month when the Health Subcommittee of the House Ways and Means Committee held its first hearing on this pressing matter.

The elderly face the same problems as the rest of society in that the cost of a serious illness can be catastrophic. But the elderly are at this point in life when major illnesses become more common and limited retirement income makes it particulary difficult to insure against them.

Bonker's bill addresses these problems. He told the House subcommittee his bill would provide more complete health care coverage for senior citizens and save the elderly up to $1 billion annually. It would accomplish this at no cost to the Treasury, since added coverage would be paid for by beneficiary premiums.

Bonker's bill is apt to come under attack from the insurance industry because it puts government even deeper into that field. Currently, Medicare covers less than half of the elderly recipient's medical costs. Most seniors now purchase "Medigap" insurance from private companies to pick up the shortage. This costs them an average of $300 to $400 a year and sometimes more.

Bonker's plan would cost the elderly less. For $17.75 per month, seniors could purchase greatly expanded hospital and physician coverage, including all co-payments for hospital care beyond the sixtieth day and all hospital care beyond the sixtieth lifetime day.

The extra coverage would cost seniors about $12 a month less than they pay on an average for Medigap insurance. For an additional $6 to $8 a month, seniors could expand coverage to include prescription drugs used to treat chronic illnesses, something that drains the budget of many of our elderly citizens and something very few private insurers now cover.

BONKER, who is chairman of the House Aging Subcommittee on Housing and Consumer Interests, told his colleagues that total health care costs not paid by Medicare have increased to the point the elderly face the same financial plight they did before Medicare was established. Twenty percent of their income once again is going to pay medical expenses.

The reason is both Medicare's Part A, which provides for hospital coverage, and Part B, which covers physicians and other services, require substantial co-payments from the beneficiaries and carry steep deductibles. At the same time, Medicare expenditures have grown from $3.2 billion in 1965 to more than $50 billion today.

BONKER said, "The elderly must not be made to pay for what is, in some instances, a political inability to control health care costs."

The Bonker bill will win support from both the elderly and the medical care industry. The advantage to the elderly would be superior coverage at less cost and considerably less confusion about what they actually are getting for the money they spend on insurance.

Hospitals and doctors would benefit because Medicare already collects premiums and pays bills. Hospitals would not have to collect deductibles as they now do.

BONKER's proposal makes sense and deserves support from Congress. It solves the serious problem of financing our elderly's medical needs, without additional drain on the treasury. But Congress also must give more attention to controlling the runaway costs of the Medicare program, which in essence means bringing medical costs in general back under control.●

TRIBUTE TO ABRAHAM "CHICK" KAZEN

HON. ELDON RUDD

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 4, 1984

● Mr. RUDD. Mr. Speaker, I have the greatest respect and admiration for our colleague, CHICK KAZEN, and it has been an honor to serve beside him in this noble institution. It is thus with profound sadness that I bid farewell to CHICK as he looks to retirement.

CHICK and I served together on the Mexico-United States Interparliamentary Conference where we worked to strengthen and improve relations with our southern neighbor. We worked closely together on the Interior Committee when I first came to Congress back in 1977.

He has been an outstanding representative of his constituents in Texas' 23d District and indeed of all Americans. His presence in the House will be sorely missed.

Let me take this opportunity to wish CHICK and his family the best in all their future pursuits. I hope he will also keep in touch and benefit us all with his expertise in the days ahead.●

TRIBUTE TO BARBER CONABLE

HON. TED WEISS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 3, 1984

● Mr. WEISS. Mr. Speaker, I rise to express my heartfelt thoughts upon the pending retirement from the House of my friend and colleague from the State of New York, BARBER CONABLE.

It has been an honor to serve with a Member of Congress whose experience is as broad and whose intellect is as sharp, as that of BARBER CONABLE.

BARBER is a man who has had the utmost respect for the public trust, striving always to serve the best interests of his constituents of the 30th Congressional District of New York and the interests of our Nation. There can be no doubt that the people of New York and all the United States owe him a great debt of gratitude for his efforts here in the House of Representatives.

Among BARBER's best qualities is his singular gift for fairness. Always able to place principle ahead of partisanship, he continually fashioned the kind of legislative compromises which were respected by members from both sides of the aisle and served to improve the quality of life for American citizens.

As the ranking minority member on the House Ways and Means Commit-

tee, BARBER CONABLE distinguished himself as an intellectual giant on questions of taxation and the economy. His work on matters of concern to the elderly was conducted with insight and compassion. His even-handed and resourceful approach to all issues has not always earned him a place in the limelight, but it has repeatedly produced results.

The retirement of BARBER CONABLE will leave a certain emptiness in the House of Representatives, but those of us who have had the privilege of working alongside him will continue to cherish our memories of our good friend for years and years.

To BARBER and his family, I wish the best of everything and Godspeed in all their future endeavors.●

MINORITY ENTERPRISE DEVELOPMENT WEEK 1984

HON. BILL RICHARDSON

OF NEW MEXICO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. RICHARDSON. Mr. Speaker, next week the United States will honor a very important group of people—the minority business men and women of America.

There are more than 600,000 minority owned business in this country. These are the business of innovation, finding creative new ways to succeed in these economically difficult times. They work to meet the needs of their communities as well as the needs of our Nation. They provide training and employment for thousands of American workers each year, many of whom would be unemployed if these minority owned companies did not offer them the chance to learn, grow, and produce. In return, these companies receive a loyal and efficient work force.

Hopefully, the number of minority owned enterprises will continue to grow. Congress must work to create an economic environment in which this can happen. Working together, we will see more Hispanics, black, native Americans, and other minorities leaving the assembly line and entering the board room, more women serving as corporate directors. This can only serve to make the United States and American business stronger.●

WELCOME TO FRIENDS FROM NEW ZEALAND

HON. ROBERT A. BORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. BORSKI. Mr. Speaker, I want to take this opportunity to welcome the Morrison family of New Zealand to the United States. Jeannie and Terry Morrison, and their son, Terry Lee, will visit the United States later this month. The Morrisons plan to tour Philadelphia, New York, and Washington during their stay.

Mr. Speaker, our two nations—the United States and New Zealand have a long tradition of friendship and cooperation. It is indeed a pleasure to welcome these friends from far away to our country.●

THANK YOU, JOHN ERLENBORN

HON. CLARENCE E. MILLER

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Monday, October 1, 1984

● Mr. MILLER of Ohio. Mr. Speaker, the House of Representatives will soon lose one of its most distinguished Members with the pending retirement of Illinois' JOHN ERLENBORN.

Twenty years ago, JOHN ERLENBORN began his service in the House. For two decades the citizens of his congressional district in Illinois have been honorably and ably represented by a man known for his leadership and responsibility. His role on the House Education and Labor Committee has made him a valuable legislator, with his interest in measures coming before that important committee clearly identifiable.

Many times I can recall seeking JOHN'S able input and views on bills coming to the House floor. He has distinguished himself by placing the highest priority on issues of importance to the people of America. His service here will be greatly missed and I hope that we can continue to seek his views and good counsel as Congress wrestles with issues yet ahead.

I appreciate your good work, JOHN, and I know that Congress as a whole will miss your good work as well.●

MARYLAND SHIPYARD WINS AWARD

HON. ROY DYSON

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. DYSON. Mr. Speaker, I rise on this occasion to praise the efforts of the Chesapeake Shipbuilding Co. of Salisbury, MD, located in Maryland's First Congressional District. Established in Salisbury in 1981, the company has expanded and now employs 90 full-time workers. The shipyard not only has delivered several new ships since being started, but also does first-quality ship repair.

Recently, Chesapeake Shipbuilding was awarded the "Distinctive Inland Vessel Award" by Marine Engineering/Log magazine in recognition of its fine design and construction of the cruise vessel *Savannah*. This ship was constructed in the Salisbury shipyards between 1982 and 1984, when it was delivered for service to the American Cruise Lines of Haddam, CT. The *Savannah* is believed to be the largest coastal cruise ship in the United States.

In an industry going through very difficult times, it is heartening to see a young company rewarded for its outstanding construction work. I am proud, as a member of the House Merchant Marine and Fisheries Committee, and as a Marylander to represent this type of excellent entrepreneurship in Maryland's First Congressional District.

I am including in the RECORD two articles which describe the excellent work of Chesapeake Shipbuilding, Inc., one from the Journal of Commerce and the other from the Daily Times in Salisbury, MD.

[From the Journal of Commerce]

MARYLAND SHIPYARD WINS AWARD

BALTIMORE.—Chesapeake Ship Building Inc. of Salisbury, Md., has been presented with a "Distinctive Inland Vessel Award" for the design and construction of the cruise vessel *Savannah*. The award was made by Marine Engineering/Log magazine in recognition of the vessel's outstanding features.

The *Savannah* was constructed in Salisbury starting in December 1982 and was delivered to American Cruise Lines, of Haddam, Conn., in March 1984.

With overnight accommodations for 132 passengers and 25 crew members, the vessel sails on a variety of one- and two-week cruises along the Atlantic and Gulf coasts throughout the year.

The *Savannah* is believed to be the largest coastal cruise ship in the United States.

Chesapeake Ship Building established its Salisbury facility in the winter of 1980-81 and presently employees 60 to 90 year-round workers. The shipyard has delivered a number of new vessels since its opening and has undertaken some ship repair work.

In 1984, the yard not only has delivered the *Savannah* but also launched two 165-foot dinner boats.

[From the Daily Times]

SALISBURY SHIPYARD HONORED

SALISBURY.—Chesapeake Shipbuilding Inc. of Salisbury was recently presented with a "Distinctive Inland Vessel Award" for the design and construction of the M/V *Savannah*.

The award was made by Marine Engineering-Log magazine in recognition of the vessel's outstanding features as recorded in the August, 1984, issue of the publication.

The M/V *Savannah* was built in Salisbury, starting in December 1982, and was delivered to American Cruise Lines of Haddam, Conn., last March.

The vessel has overnight accommodations for 132 passengers and 25 crew members. The M/V *Savannah* sails on a variety of one and two-week cruises along the Atlantic and Gulf coasts throughout the year.

It is believed to be the largest coastal cruise ship in the United States.

Each year the magazine recognizes outstanding new vessels built in a number of

different categories. In 1984, nine vessels, including the M/V *Savannah* were presented "Distinctive Inland Vessel" awards.

Chesapeake Shipbuilding established its Salisbury yard in the winter of 1980-81 and employs 60 to 90 year-round workers. The shipyard has delivered a number of new vessels since 1981 and has been active in repairs to existing ships.

This year, the yard has delivered the M/V *Savannah* in March, and launched two 165-foot dinner boats. One of these, the M/V *Star* of Detroit, was delivered in July and is currently operating out of the Detroit, Mich., version of Harborplace, known as Rennaisance Place.

The shipyard is currently working on three new vessels and is remodeling one other.●

TRYING TO EXCUSE THE INEXCUSABLE

HON. CARROLL HUBBARD, JR.

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. HUBBARD. Mr. Speaker, while in Kentucky during this past weekend, I read an excellent editorial published in the October 5 edition of the Paducah Sun, in Paducah, KY, the largest city in my congressional district.

The editorial, written by the newspaper's editorial writer Don Pepper, comments on the House Intelligence Committee's findings regarding the recent bombing of the American Embassy annex in Beirut and the rash of excuses offered for its occurrence by those in charge of securing the safety of the Americans in Beirut. I commend Mr. Pepper for his thought-provoking editorial observations, and I urge my colleagues in the House to read them closely. The editorial follows:

[From the Paducah Sun, Oct. 5, 1984]

TRYING TO EXCUSE THE INEXCUSABLE

A House Intelligence Committee which has looked into the bombing of the American Embassy annex in Beirut has concluded that it wasn't a lack of intelligence that resulted in the tragedy.

There was plenty of information, says the committee. But nobody paid attention to it.

By now it is clear that this conclusion goes beyond politics in this politically fevered time. Both the Republicans and the Democrats on the committee agree that there was no excuse for what happened in Beirut.

Even Tip O'Neill rises above demagoguery, as he does occasionally.

"The president must stop trying to sweep this tragic incident under the rug," he said. "He must hold those responsible for ignoring this intelligence accountable. Until he does so, embassy security will continue to be a low priority in his administration and the lives of Americans will continue to be in greater jeopardy than necessary."

There really is no alternative, although President Reagan has been looking for one.

He has said he wouldn't "deliver somebody's head up on a platter" and that "there was no evidence of any carelessness or anyone not performing their duty."

There never will be evidence if you don't look for it. The circumstances surrounding the tragedy as laid out by the House committee, however, suggest that the evidence must be there in plain sight for anyone willing to look.

Mr. Reagan has cited the near-destruction of our intelligence capabilities in the Seventies in defense of the failure to protect the embassy adequately. There is something to this, but the House committee found that whatever the limits on our intelligence capabilities, it did provide explicit warnings of precisely what happened.

Beirut is like a "war zone," especially for Americans, said the committee. There had been two special alerts because of warnings of violence.

Two previous attacks by suicidal fanatics in bomb-laden vehicles had killed 258 Americans already.

In July the Defense Intelligence Agency had warned embassy security people and later the State Department in Washington that the threat to embassy facilities in both east and west Beiruit was "exceedingly high."

The House committee comments, therefore, that "the probability of another vehicular bomb attack was so unambiguous that there is not logical explanation for the lack of effective security countermeasures."

The report is damning:

"This intelligence portrayed a situation where those responsible for security at U.S. installations in Beirut—both in Washington and on the scene—should have been taken every precaution possible to thwart just such an attack as occurred," the panel said.

"Use of the alert mechanism should have gained the direct attention of top State Department and embassy officials, including security officers to such likely threats."

Mr. Reagan's comment that the security arrangements were not complete and likening the delay to the difficulty in redoing a kitchen trivializes the tragedy.

Commentators have noted that when the White House itself was threatened, apparently by a similar vehicle-bomb attack, effective temporary measures were taken—cement-laden trucks were parked in the driveway.

Mr. Reagan has accepted responsibility, which is correct enough in a formal sense. But it wasn't Mr. Reagan's job to assess the security arrangements in Beirut and devise defenses. It was somebody's job, though. For Mr. Reagan to accept responsibility is not to deflect criticism. Responsibility means acknowledging that it's your job to take action, to fix blame and—yes—to punish.

The House committee makes it plain that there is no evading the fact that the bombing was inexcusable. So Mr. Reagan should stop trying to excuse it.●

ON THE PRESERVATION OF OUR TRADEMARK SYSTEM

HON. NICHOLAS MAVROULES

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. MAVROULES. Mr. Speaker, I would like to commend my colleagues for approving a bill that was urgently needed to protect our consumers. Today, we passed H.R. 6163, a measure that will maintain, for both business and consumer, the trademark system in the Lanham Act that has served this Nation so well for more than 60 years.

Mr. Speaker, the reason we have had to legislate on this subject lies in a decision of the Ninth Circuit Court of Appeals in 1982 that stated a consumer of a trademarked product must know the name of the manufacturer, otherwise the trademark became generic.

Well, Mr. Speaker, the potential for danger, damage, and injury to consumers is obvious if corrective action had not been taken quickly. We could walk into a toy store to buy a toy for our children or grandchildren, buy a certain toy because of a trademark we trust and have come to rely upon, but end up with something that is of lower quality and possibly dangerous as well.

The same is true of almost everything we buy—the products in the grocery store, the items in the drug store. Mr. Speaker, the need for the action taken today is obvious—not only to companies with trademarked products, but to our consumers.

That is why the Consumer Federation of American and members of the business community, such as Parker Brothers in my district, have so strongly backed H.R. 6163.

The reasons for the ninth circuit decision still are not clear. For 60 years, the courts have used a uniform, clear cut and traditional test for determining when a trademark becomes a generic name. That test is whether most comsumers recognize the name as a trademark.

Now the ninth circuit has held that a trademark is invalid unless most consumers can identify the company that manufacturers the product in question.

Think about that for a moment.

How many of us can name the company that manufacturers Anacin, Pac-Man, or Tide? And because we cannot, does that justify denying these companies their trademark rights and the consumers who buy these products the protection these trademarks offer?

Of course not.

Today, we wisely voted to eradicate the problem and chaos created by the ninth circuit decision, and have restored to our people—businesses and consumers—the protections that have worked so well for more than six decades.●

REV. KAY GLAESNER MARKS 35 YEARS OF SERVICE TO GOD, COMMUNITY, AND COUNTRY

HON. MICHAEL DeWINE

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. DEWINE. Mr. Speaker, I wish to call the attention of the House to the work of the Rev. Kay Medick

Glaesner, Jr., of St. John's Evangelical Lutheran Church in Springfield, OH, as he celebrates 35 years of service in the ordained gospel ministry.

Reverend Glaesner has served St. John's untiringly. He has overseen great growth in the church, and has also made a a special effort to reach out to the poor, the alienated, and those suffering from mental problems.

As the recession affected more and more people in Springfield, he founded a food pantry, outreach store and walk-in center—not only for his own flock but for anyone in the communty who needed help.

One way he reached out to those alienated from church was to establish a drive-in church. I've spoken there.

He has been a leader in mental health related work. He founded a guidance center and mental hospital in Springfield, and has served as president of the Ohio Mental Health Association.

His many contributions have not been limited to the spiritual. While serving in the military, he designed a bearing which is still in use today in military aircraft.

Reverend Glaesner has been awarded the U.S. Congress' highest noncombat military honor, the Legion of Merit, and five George Washington Freedom Medals for the messages he has preached and for his work in promoting world peace. He has visited most of the Lutheran missions in the world.

Reverend Glaesner has changed many people's lives for the better during his 35 years of service in the ministry. He is an example for all of us.●

CELEBRATING THE 200TH ANNIVERSARY OF THE GERMAN SOCIETY OF THE CITY OF NEW YORK

HON. JOSEPH P. ADDABBO

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. ADDABBO. Mr. Speaker, today I am honored to call the attention of my colleagues to the 200th anniversary of the "German Society of the City of New York." Founded in 1784, this charitable organization has helped countless numbers of German-Americans lead better lives in our great country.

During periods of heavy immigration, this organization was the key support group for German-Americans. As the immigration of German-Americans has slowed, the energies and efforts of this society have continued to prevail. They have assumed new responsibilities in addition to their immigration and advisory service, they provide comprehensive social services. The German Society of the City of New York is concerned with student scholarships, medical aid, job placement services, and general financial assistance for young and old.

It is this great organization which can be credited with the founding of distinguished institutions in our city such as the Lenox Hill Hospital, the Legal Aid Society, the Central Savings Bank, and the Isabella Home. All these organizations have served New York City and made it a great home for all.

In these difficult times, support organizations such as the German Society of New York provide a mountain of strength. Not only are the old and infirmed assisted with housing services, the young and college-aged are enlightened with summer camps and educational scholarships. These outpourings enable the German Society of the city of New York to strengthen the ties between newer generations of Germans living in America and the proud generations of the past.

Mr. Speaker, I believe that America is a great country because our people are unselfish and reach out to each other. The German Society of the city of New York is proof that we are concerned for those individuals in need of social services. Their extensive support systems are a credit to the German heritage as well as to the American way of life.

On October 19, as members of the German Society of the city of New York gather at the New York Plaza Hotel to celebrate the 200th anniversary of this organization, I wish to pay tribute on behalf of the people of New York for the work they have done for our city. The German Society of the city of New York has its place not only in our city and State but in the United States and I am proud to join with them on this occasion.●

NEW CHALLENGES IN SOUTH FLORIDA TOURISM

HON. WILLIAM LEHMAN

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. LEHMAN of Florida. Mr. Speaker, in recent times, Miami has been going through a difficult transition in the tourist and convention industries which have been especially hard hit in south Florida.

While the expansion of tourism in central Florida—Disney World and Epcot—has been very competitive, other tourists have been in transit via Miami to vacation sports in the Caribbean. Nevertheless, Miami is most fortunate because we do have dynamic leadership that is meeting the new challenges in south Florida tourism.

One who has never lost faith in our community is my good friend, Donald E. Lefton, president of the Continental Co. His story and the story of his company was featured in the July 1984 issue of Hotel and Resort Industry, the national magazine for lodging buyers and management. The article by David M. Kleinman well illustrates Don's belief that our south Florida community can continue its expansion toward its long-held prominence in the tourism industry.

I would like to share with my colleagues the following excerpts from this article:

Recognition and respect are not easily won in the lodging industry. For many new companies, the bright promises of early success often fade over the years as competitors eat away at their early advantages.

However, it looks like The Continental Companies (TCC) are an exception to the fast start/slow growth marketing cycle in the lodging industry. This private, Miami-based hotel development company founded 14 years ago by two law partners, has put together a string of successes and now has $115 million in annual revenues and a portfolio of 29 diverse hotels with 5,500 rooms.

It has won recognition and respect for its demanding management style, thorough market research, attention to local market conditions, successful development of airport hotels and for building food and beverage operations into important profit centers.

Sherwood M. Weiser and Donald E. Lefton are the former law partners who founded Continental. Wieser became chairman of the board and Lefton became president and, from their description, they learned the hotel business by the "immersion method." Freely translated, that means "sink or swim."

However, hotel development was a natural outgrowth of their earlier interests. By 1967, Weiser and Lefton has already been practicing law in Cleveland for 12 years, and developing hotels in Eastern Ohio on a part-time basis. They had also played a key role in arranging the sales of several hotels to International Telephone & Telegraph. So, when the corporate giant was looking into the viability of acquiring the Sheraton hotel chain, it hired Weiser and Lefton to evaluate all of the 92 properties in the Sheraton system at the time.

Prior to the creation of Continental in 1970, its founders and chief executive officers had already been consultants to the hospitality industry, as well as investors in properties of their own. That was all the catalyst Weiser and Lefton needed to take the next step. As Lefton wryly puts it: "It's called 'instant expertise.'" Except that he's being modest because their expertise has been built up over the years to the point where TCC is not only one of the fastest growing and most diversified, but may also be one of the nation's most successful, hotel development and management firms.

Weiser and Lefton define luxury in five-star terms: original art works, not prints, to adorn rooms and public spaces; striking pieces of sculpture (a large, welded steel sculpture by Alexander Liberman, valued at almost $100,000 was commissioned for the entryway of the Grand Bay Hotel); genuine antiques, not limitations; greenery in the rooms; marble in the bathrooms; full recreational, entertainment, food and beverage amenities, and construction costs that, de-

pending on the area of the country, can exceed $150,000 per room.

NO DETAIL OVERLOOKED

The Grand Bay Hotel Coconut Grove, the first in the Cigahotel venture, belies any notion of skimping and further illustrates TCC's idea of luxury. At a cost of $30.5 million, its 200 guest rooms begin with 30 suites on the third floor of a 13 story, pyramid-shaped structure, decreasing in number by two with each successive floor as they ascend to the four penthouses that occupy the 12th and penultimate floor. Each of the guest rooms and spacious bi-level suites features terraces or balconies large enough for outdoor dining. The Grand Bay's terraces which front the suites are huge by hotel standards since the hotel's unique, pyramid-shape allows each terrace to sit atop the room below it. Amenities include a gourmet restaurant lounge, pool and health club, specialty shops, underground parking, concierge and chauffeur services, as well as the Grand Bay's rooftop nightclub which is attracting international attention as only the second Regine's in the U.S.

The design of the hotel is such that accommodations command striking views of Biscayne Bay and the Coconut Grove marina. Each of the penthouses affords a three-directional view. Utilizing the unusual angles of the site, Ramon Collado, project architect for Nichols & Associates, was able to provide dual entrances to the Grand Bay Hotel—one to the hotel proper and another for the convenience of those intending to dine at the Grand Cafe restaurant or dance at Regine's rooftop nightclub.

Since "quietness" is an indispensable part of hotel luxury, it is worth noting that soundproofing and the elimination of vibrations from the rooftop Regine's were achieved by building the 5,000 square-foot facility as a room within a room, containing it within the outer shell of the hotel's topmost floor. Even the windows work to this end: double panes of air-separated quarter-inch glass have been used.

As businessmen whose community involvement includes philanthropic and civic activities, both Weiser and Lefton understand the importance of precise, carefully tuned marketing within each local community as a means of promoting individual hotels. "But all the marketing in the world won't make a hotel successful if we can't produce with a quality product," Weiser states.

"We believe in doing a great deal in community relations," explain Weiser. "In most areas where we do business, we're heavily involved in community affairs. We spend a great deal on community charities, for example, partly because we believe that in most cases the best marketing tool is to market within our own geographical areas.

Continential's airport hotels have been distinguished performers. Each of these hotels is also noteworthy for its upscale dining offered to guests and local residents in the form of "Daphne's." Daphne's is also a success story that can be backed up by some impressive figures. According to a survey published by *Restaurant Hospitality* in 1982, Daphne's in Miami finished 18th among 500 of the nation's top grossing independent restaurants. The year earlier it finished seventeenth.

The Daphne's in Miami sports an upscale and lavish decor, superb cuisine, a price list that supports the fashionable ambience and decor, and a 14-piece band every evening.

In the lodging industry, the rewards for doing something well are as satisfying as ever. The Grand Bay Hotel has the room rates which reflect its style of luxury, but even so has run an occupancy rate in excess of 70 percent since opening late last year. The significance of that figure emerges in connection with the very competitive Florida markets where occupancies are generally lower and hoteliers engage in rate wars as a prime means of undermining the competition.

So it's no surprise that for Weiser the most exciting part of the hotel business is, as he puts it, "the creative end of it. To me, the most exciting part is starting with a good idea, committing the dollars and developing a product that's successful."

Weiser didn't have to add that this is precisely that sort of approach the Continental Companies has been taking for fourteen years. And as observers have been noting. ICC has the financial wherewithal, a proven track record both in development and operations and the ability to create new opportunities. It is from these areas of success that it has won the industry's respect.●

HOUSE CONCURRENT RESOLUTION 367

HON. PETER H. KOSTMAYER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. KOSTMAYER. Mr. Speaker, I rise to introduce House Concurrent Resolution 367, expressing the sense of Congress that the State legislatures should enact reforms which protect the legal rights of child victims of sexual abuse.

We have all been shocked and angered by recent reports of the tragic increases in child abuse in America. We are only beginning to understand how widespread the problem has become. The figures are staggering. National estimates indicate that at a minimum one out of eight girls is a victim of sexual abuse before her 18th birthday. The number of reported cases of abuse and neglect have increased by 123 percent since 1976. It is estimated that 1,500,000 children in this country are victims of abuse and neglect.

In 1983, the National Committee for Prevention of Child Abuse released a survey which showed that services to protect children failed to keep up with the rising numbers of victims of abuse. We have taken some constructive steps during the 98th Congress to bridge that gap, including the passage of the Child Abuse Amendments and of the DeConcini-Miller amendment to the continuing resolution. This amendment provides a timely response to recent allegations of child abuse in day care centers by appropriating $25 million to the States for child development and child abuse prevention contingent upon each State developing procedures for screening and conducting criminal history checks of child care providers.

One crucial area of the child abuse problem which we have yet to address is judcial reform. I believe that the Federal Government can and should do more to protect our children. But I also believe that the State legislatures have an important role to play in ensuring and protecting the legal rights of children. It is my hope that the passage of House Concurrent Resolution 367 would provide the basis for a cooperative effort between the Federal and State Governments.

In most States administrative and legal procedures are dictated by antiquated, insensitive statutes which only serve to compound the trauma experienced by the innocent victims. One would almost think that the purpose of these laws was to abet the child abuser in his efforts to blackmail the child into silence. Most child abusers will tell their victims that the child will be blamed if he or she reports the abuse. Once the child has overcome this fear and his or her family has made the difficult decision to take their case to the courts, all too often they find themselves publicly humiliated.

Of course, reforming court procedures in such delicate cases is a difficult undertaking. But it can be done, and it must be done. Several States have enacted innovative approaches to handling child sexual abuse cases, and others, including my own State of Pennsylvania, are considering such legislation.

Child abuse cases involving victims under the age of 4 are almost impossible to prosecute under current laws because the children are deemed too young to testify in court. In these cases, exceptions should be considered so that a parent, social worker, or child psychologist could testify about what the child victim told them.

Child victims who are old enough to testify should be granted the same protection provided for juvenile offenders. Children accused of crimes get special treatment from the courts such as courtrooms closed to the public while child victims are forced to relate the most degrading and embarrassing details of a frightening experience in a public courtroom under the eyes of the perpetrators. This humiliating experience could be avoided through the use of closed circuit television or videotaped depositions.

Justice and compassion demand that reforms like these be considered for courtrooms across the country. I believe that House Concurrent Resolution 367 is a good beginning. It will send a clear signal to the State legislatures that the Congress is committed to reform. The Senate has already passed Senate Concurrent Resolution 120, an identical bill introduced by Senator PAULA HAWKINS, a leader in the fight to protect our children. I

urge my colleagues in the House to join the Senate in this effort to protect the legal rights of child victims of sexual abuse.●

THREE AMERICANS RESCUE BOAT PEOPLE

HON. STEPHEN J. SOLARZ

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. SOLARZ. Mr. Speaker, the plight of Vietnamese boat people is one of the greatest tragedies of the day. In search of freedom they take to the seas in small and fragile crafts and face the perils of ocean storms and the even worse threat of brutal and vicious attacks by pirates. In the first half of 1984 almost 50 percent of the refugee boats reaching Thailand were attacked, frequently more than once. And, countless other boats never even reach the shore. Clearly, the horrors inflicted upon these innocent refugees—murder, rape, abduction—are unacceptable to the civilized world.

The international community has a moral obligation to deter pirate attacks and assist the victims. One antipiracy program which has the potential to save hundreds of lives is for ships at sea to come to the aid of floundering refugee boats. The front page of today's New York Times carries the story of the humanitarian efforts of 3 Americans, whose boat came to the assistance of 86 refugees who may otherwise have perished at sea. The U.N. High Commissioner for Refugees presented the Nansen Medal, the highest honor for humanitarian efforts, on behalf of refugees to Capt. Lewis M. Hiller and two crewmembers, Jeffrey H. Kass and Gregg Turay. I commend these Americans and call upon my colleagues to join me in urging other ship captains to assist refugee boats in distrees.

The story follows:

DARING "BOAT PEOPLE" RESCUE BRINGS HONOR TO 3 AMERICANS

(By Henry Kamm)

GENEVA, Oct. 8.—Chua Quach was not present at an awards ceremony here today at which three American seaman were honored by Poul Hartling of Denmark, the United Nations High Commissioner for Refugees.

Yet no one knows better than Mr. Quach, a Vietnamese refugee who now works as a laborer in a furniture factory in Philadelphia, what happened on the night of Sept. 23, 1983, in the stormy sea off the north coast of Borneo.

That was when Capt. Lewis M. Hiller stopped his 94,000-ton tanker, the Rose City, and went to the aid of Mr. Quach and 85 other refugees who were adrift in a small boat. Neither Mr. Quach nor the other refugees were present at the award ceremony today.

Without the heroic assistance of the Americans, Mr. Quach says, he would have died that night, together with his son. So would the other Vietnamese "boat people" adrift with him in the South China sea—without food, with water only for the children and having burned most of their clothes in eight days and nights trying vainly to signal passing ships.

The award given to Captain Hiller and two crew members, Jeffrey H. Kass and Gregg Turay, was the Nansen Medal, the highest honor for humanitarian efforts on behalf of refugees. It was presented at the Palace of Nations here by Mr. Hartling on behalf of a special committee. The group, similar to the one that awards the Nobel Peace Prize, is made up of representatives of Norway and other governments and international organizations.

MANY BOATS ARE IGNORED

Since Vietnamese began fleeing their country in great numbers in 1975, accounts have multiplied of their small, often disabled, boats' ignored by merchant vessels whose masters are eager to avoid the often time consuming, and thus expensive, formalities of bringing the refugees to land.

Mr. Quach, said that "more than 10" ships had passed the refugee vessel, before the American tanker stopped. He recalled that crew members on one ship waved in greeting as the ship sailed out of sight of the refugee boat.

SWAM TO SAVE 2

Mr. Quach said in an interview from the United States that he was particularly grateful to Mr. Kass, 31 years old, a seaman from Seattle whose chief activity when he is not at sea is tending an organic garden on an island off Vancouver.

Mr. Kass swam through turbulent waters at night to rescue Mr. Quach, 43, and his 8-year-old son, who had clung to a lifesaver for two hours.

"He saved not only our lives but that of my wife, who remained behind in Vietnam," Mr. Quach said, his voice choking. "She would have committed suicide if our son had drowned."

Mr. Quach said that at the time of the rescue, there was no food and little water left on the rickety boat, heavily overloaded with 36 men, 20 women and 30 children. A 16-year-old drowned during the rescue operation.

"NEVER DONE MY DUTY"

When he decided to escape, Mr. Quach had just been released after seven and a half years in a "re-education" camp, to which he was confined for having been a lieutenant in the South Vietnamese Army. "I had never done my duty as a father to my son," he said, "so my wife and I decided we had to do this."

Mr. Quach and his son said they hoped Mrs. Quach would soon be able to leave Vietnam and join them.

When the lights of the Rose City beckoned in the distance, Mr. Quach said, he had abandoned hope for two days and was devoting all his time to consoling his son, "to spend my time on him before we die."

"I held my son to my bosom and waited for the time to die," said Mr. Quach, a graduate of Saigon University in linguistics who speaks fluent English.

He was chosen to be the first to try to climb aboard the Rose City, which had let down rope ladders. "I was supposed to lie," he said. "I was supposed to say we were 50, because we feared we would be refused if I said we were about 90."

He never told his lie, because his son slipped out of his embrace as he tried to climb the ladder and Mr. Quach jumped into the sea after him. "I didn't think," he said. "I knew I couldn't live without my son."

Fortunately, he had instructed the child before leaving Vietnam in how to to stay underwater. He had made his son immerse his head fully in a tub, successively lengthening the time the child held his breath. They reached one of the life rings Captain Hiller had ordered thrown toward the refugee boat.

From his reading, Mr. Quach recalled that lifesavers had signal lights attached. "When I found it and turned it on," he said, "I felt hope and told my son we would be rescued. But time passed and nobody came. The Rose City got smaller and smaller, and I came to lose hope.

"I told my son, 'I'm very sorry I haven't done my duty as a father.'

"He said 'Don't talk about this; say something cheerful.' But I made up my mind to throw away the lifesaver and to hold my son and die quickly together."

HELP ARRIVES

At about that time, Mr. Kass, who with others of the crew had descended into the refugee boat to use it to search for survivors and had been overcome by seasickness, spotted the father and son. He handed one end of a line to a shipmate and jumped into the choppy sea. Reaching father and son with great difficulty, he pulled the lifesaver and those holding onto it to the refugee boat.

Mr. Kass jumped into the sea a second time when Mr. Turay, 27 years old, carrying an unsecured line, swam out to rescue another survivor who was clinging to a lifesaver. All three men made it back through a heaving sea. Earlier, a human chain of seamen on the rope ladders had handed the young and old up to safety, timing their moves as the heavy waves raised the refugees boat partly up the 40-foot height difference between the vessels.

"FELT TOTALLY OBLIGED"

The principal message of the High Commissioner's speech was to plead with the maritime industry to obey the moral law of the sea that Captain Hiller said he followed without hesitation.

The moral law of the sea, which is not codified in any statute book, is to give help to those in need and has long been a tradition among seamen. But there is no stated policy per se that has been adopted toward the boat people.

"I am sad and disturbed about so many reports that ships are passing by refugees in trouble," said Captain Hiller, 55, of Lakehurst, N.J., in an interview. "I felt totally obliged to stop and offer any assistance I could."●

A CELEBRATION OF THE HUDSON VALLEY ENVIRONMENT

HON. MATTHEW F. McHUGH

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. McHUGH. Mr. Speaker, in my own congressional district in upstate New York, we have long appreciated and valued our quality of life. Our community leaders, public and private, have worked together to preserve and strengthen the resources of our area

that contribute to a vital and growing economy and a rich and splendid environment.

Last October, a conference was held at Lake Mohonk in New Paltz, NY, and the Mohonk Consultations welcomed 35 cooperating organizations as participants in a celebration of the Hudson Valley environment. I would like to commend the Mohonk Consultations and its planning committee for their work in bringing together recognized experts in the fields of the environment and development to examine our past achievements and make recommendations to continue our joint efforts for the future to benefit nature and man.

I would like to call to my colleagues attention the following summary of the proceedings at the conference. It encompasses both the substantive concerns raised at the conference as well as the spirit of community that was reinforced at the celebration.

The summary follows:

PROCEEDINGS OF "A CELEBRATION OF THE HUDSON VALLEY ENVIRONMENT"

(For Mohonk Consultations and the Planning Committee; Keith Smiley, Chairman)

WHY A CELEBRATION OF THE ENVIRONMENT?

"Mohonk Consultations" and its Planning Committee concluded their debate on this question by agreeing that:

Unless we pause to recognize the progress which has been made during recent years, and thus create a positive image of the great potentials of the Hudson Valley, we will begin to be overwhelmed and dissipate the sort of faith in the future which stimulates further efforts,

The time was right to assess the advances that had been made in the decade since the United Nations Conference on the Human Environment in Stockholm, Sweden.

It was appropriate that our assessment encompass, first, the "little world" in which we live—the Hudson Valley; and

The public be given an opportunity to see the breadth of participation in the achievements that had been made—including those of private enterprise, citizen non-government organizations and governments.

It was important to make strong note of the problems yet remaining and likely to emerge in the future and the Conference Planners saw to it that this important matter was included in the "Celebration."

There was concern that a defeatist mood might cause us to overlook regional, state and national achievements as a result of exposure to the "new and catastrophic" environmental problems featured in the daily media.

An additional concern reflected a finding by the United States Advisory Commission on Intergovernmental Relations (ACIR). In a recent report, the ACIR stated: "The growing belief is that government is not performing well; that it is promising more than it can deliver. The failure to achieve overly ambitious goals obscures substantial progress being made." (The Federal Role in the Federal System: The Dynamics of Growth. A Crisis of Confidence and Competence. Advisory Commission on Intergovernmental Relations, A-77, July, 1980.)

With these thoughts in mind, the letter of invitation to the Conference said: Mohonk Consultations, Inc., a non-profit organization established in September, 1980 and headquartered at Mohonk, has been engaged in developing a program designed to assist in maintaining the Hudson Valley environment as a pleasant, livable and productive habitat for its citizens and to protect and enhance natural ecological communities. While the outlook and outreach of Mohonk Consultations is national and international, common sense dictated that an early task concurrent with other efforts address the "unique opportunity which exists for the people and institutions of this river basin." (From the Mohonk Consultations report on its Hudson River Program—October, 1980 to June, 1982—copies available from the Consultation office.)

This letter is an invitation to join together with us and with many neighboring organizations in a simple and uncomplicated one-day "Celebration of the Hudson Valley Environment" to be held on October 5, 1983 at the Mohonk Mountain House.

This conference is intended to convey a summary of the benefits that have been attained during roughly the past decade. While it is important that the public be alert to environmental problems needing solution, it is equally important to sustain public interest and support for needed action by establishing a sense of accomplishment—of motion toward solutions.

Therefore, the meeting has a twofold objective. First, it will provide an "uplift of spirit," so necessary to insure public confidence and support. Second, the program will note the needs of the future, attempt to identify the most important challenges calling for cooperative action in the region, and lay the groundwork for future consultations intended to coordinate more effectively the efforts of the many and varied groups which hae expressed interest in such a program of action.

Whatever successes have been achieved have resulted from the actions of the official public agencies, the non-governmental public interest organizations and the private sector, all driven by an awareness of the goals desired by the citizens of the nation, the state and the Hudson region. With this though in mind, the Celebration program has been designed to provide an unusual opportunity for many types of organizations concerned about the special qualities of the Hudson Valley area to "take a place up front" to present their interests and tell of their accomplishments.

Daily events involving problems and damaging happenings related to environmental concerns are well reported in the various media, as they should be. By way of contrast, we expect that our Celebration will build a confidence that, nonetheless, the Hudson Valley is on its way toward maintanining its reputation as a habitat beneficial to man and nature.

The Conference program focused upon five subjects. The first were concerned with assessments of progress of a regional nature:

Caring About the Land—Land/Air/Water. The record of significant actions taken and underway.

Toward Understanding the Ecosystem. Advances in the Hudson Valley in understanding and systematic integration of ecosystems.

Economic Forces in Support of the Environment. The identification of economic forces and actions in support of environmentsl gains.

Community in the Valley. Progress made toward developing a sense of community and the identification of the common values encouraging a unity of environmental goals.

The fifth subject was concerned with:

The Valley and the Nation. The relation of the Valley to the state and national scene; major challenges for the future.

WHY CELEBRATE TOGETHER?

Many of us need to be better informed about the positive programs of other organizations and individuals. We believe that each sharing will build a stronger basis for joint efforts and avoidance of duplication. This process must be helpful to those in the private sector, to non-governmental public interest organizations and to public agencies.

The Board of Managers of Mohonk Consultations and the Conference Planning Committee are confident that this process of sharing will help to creat a feeling of pride in the special values of the Hudson Basin on the part of its people. We look foreward to an era of less tension and conflict; and greater coordination and cooperation in our join concern to maintain the wilder community as a pleasant and livable "home". We hope that our Hudson Valley "Celebrations" will stimulate the orgainization of similar gatherings elsewhere in many regions of the nation.●

A RUNAWAY PENTAGON

HON. BRUCE F. VENTO

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. VENTO. Mr. Speaker, this week agreement was reached on the fiscal year 1985 Department of Defense authorization and appropriation.

While several components of this bill can form the basis for a rational defense policy, I oppose the enactment of this legislation.

The DOD authorization conference report is inadequate in several respects. This report dilutes strong House action on several issues including the prohibition the introduction of U.S. troops in Central America and a ban on the deployment of nuclear-armed, sea-launched cruise missiles.

I also opposed this legislation because it, in effect, ratifies many aspects of Reagan's nuclear weapons buildup. This bill not does not create a policy from which we can reach a responsible arms control agreement. It is clear that we must put a stop to an arms race that is out of control and involves constructing weapons of questionable effectiveness.

Finally, this legislation does not control a Pentagon budget that is also out of control. It is clear that Congress must bring the Pentagon budget under control. The President and the Pentagon will not face the crucial decisions in developing a rational defense budget. This point was brought home today with the news reports of a Pentagon media blitz.

Mr. Speaker, there are basic flaws in the Pentagon decisionmaking process.

The Pentagon's priorities are out of kilter: Wish lists become requirements; untested sophisticated technology supersedes proven equipment and sound strategy; gold plating is the norm; and exhorbitant costs are condoned. The failure of the administration and the Pentagon to address these practices threaten our defense capabilities and encourage continued abuses in Pentagon spending.

This failure of sound public policy must be rectified by Congress. We cannot continue to pour unlimited, uncontrolled funds into inefficient programs. We have made progress in reforming defense spending, but even these modest reforms have been opposed by the Pentagon.

Mr. Speaker, the defense agenda for the 99th Congress is clear. We must develop a rational policy designed to eliminate excessive spending and to move for an end to the ever-growing nuclear arms race.

At this time, I would like to bring to my colleagues' attention a New York Times column on Pentagon spending. This column, by a staff officer in the Office of the Secretary of Defense, highlights the current problems in the determination of the runaway Pentagon budget.

[From the New York Times, Oct. 3, 1984]

A RUNAWAY PENTAGON

(By David Evans)

WASHINGTON.—At a recent internal Pentagon briefing concerning the fiscal year 1986 defense budget, the Air Force speaker raised irony to a new level. A tentative budget of "only" $109 billion, he said, placed "severe fiscal constraints" on the Air Force. This conviction, shared equally by the Army and Navy, is as unconvincing as the kid who laps down a three-scoop ice cream cone and says he's "still hungry." But the remark is revealing. Despite the biggest sustained budget growth since the World War II mobilization, the Pentagon still regards a shortage of money as the main obstacle to a full renaissance of American military power.

The perception of a cash shortage is driven, first, by an out-of-control requirements process. One immutable law of Pentagon force planning is that the Joint Chiefs of Staff will generate requirements greater than the existing force, irrespective of the strategy in vogue at the time. It is the inevitable result of a cycle that a former officer calls "incestuous amplification."

It begins with the services each going through an elaborate itemization of the number of ships, planes and divisions they want. These listings are stapled together to produce the whole. Real trade-offs—say, giving up a wing of Air Force F-15 fighters for an extra Army division—do not intrude on this stylized ritual. The process is additive, and the result is an inflated "requirements menu" with a five-year cost of about a trillion dollars more than the existing force. Naturally, any peacetime defense budget compared to this target appears woefully inadequate.

The perception of a cash shortage stems also from the seductive notion that we can fight a "sanitary" war using complex (and costly) weapons—sophisticated target-acquisition devices, computers, long-range missiles, etc.—that will whittle down a numerically superior foe before he can use his own arms. The unstated premise is that the side doing the whittling will suffer minimal losses.

From this optimistic vision of conventional conflict the "force multiplier" idea orginates: a single fighter equipped to shoot down five MIG's at long range is really the equivalent of more than one plane. There are two assumptions: first, the enemy will accommodate us by charging blindly into the teeth of this technology; second, he will continue to do so in the face of unacceptable losses. In short, a predictable foe destroyed by arms that always work perfectly.

This video-game vision would be fine where it not for a few real-world problems. Not only are these expensive and difficult-to-maintain systems vulnerable to saturation attacks, they can be thwarted in cheap and unpredictable ways, as Iran is doing by using simple radar reflectors to lure Iraqi Exocet missiles away from their intended targets, the oil tankers at Kharg Island.

It is also doubtful that our heavy investment in this "beyond visual range" technology will be used in a shooting war, where the rules of engagement dictate positive identification of the target before shooting. This means that the pilot must make sure the blip on his radar screen is an enemy plane, not a buddy. But combat at such close quarters does not require complex technology: short-range missiles and cannons are brutally effective. More importantly, aircraft stripped of all the electronic "black boxes" and heavy long-range missiles are much more agile. Greater effectiveness does not necessarily come at greater cost.

The net result is the creation of a selffulfilling prophecy. Long-range capability is touted as essential to prevail against a numerically superior foe; this drives up each weapon's cost, which reduces the number that can be bought. The inevitable numerical shortfall is then served up to justify spending additional sums. This is why, after an increased in the defense budget of more than $100 billion in the past four years, the claim is still made that Moscow is "outproducing" us.

The budgetary arguments are clouded still further by the "should cost" dilemma. Billion dollar warships and $50 million fighters may no longer raise eyebrows among inside budgeteers, but do these huge sums reflect what these weapons should cost? The unappreciated answer from A. Ernest Fitzgerald, a cost analyst for the Secretary of the Air Force, is that the Pentagon is generally getting taken to the cleaners by contractors charging anywhere from two to 10 times what would be expected in the private sector. The brouhaha over the $400 claw hammer is symptomatic of how major items like bomers and cruisers themselves are priced.

Closely related to the "should cost" phenomenon is the habit of underestimating initial production costs and assuming that they will decline as experience is gained on the production line. Actual experience dictates otherwise. Costs are generally underestimated and tend to increase over the life of the production cycle.

While these costing assumptions are at odds with reality, they are bureaucratically useful for getting programs started. The system in effect rewards underbid proposals for new weapon systems. The result? A vicious cycle of rising costs, declining production rates and fewer weapons, all of which combine to produce tremendous pressure for increase defense spending.

Speaking for myself, I think that exaggerated force requirements, inappropriate technology and high costs are symptomatic of a runaway system. A 45 percent real increase in defense spending over the past four years has been necessary just to keep the force from shrinking. The former Army Chief of Staff, Gen. Edward C. Meyer, was on target when he said: "Either we are going to spend ourselves into extinction, or we have to come up with alternative strategies and new ways to allocate resources."●

THE CHARLES B. "TEX" THORNTON FALCON FOUNDATION SCHOLARSHIP

HON. KEN KRAMER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. KRAMER. Mr. Speaker, that magnificent service school, the U.S. Air Force Academy, is a crown jewel of my Fifth District. It's where the carefully selected young people of our country are schooled in leadership, and acquire the dedication for an Air Force career in uniform—and where today's classes will not only have to deal with the world, but security upgrading in the edges of the universe itself. The classes now there will be calling the turn on aerospace military matters into the year A.D. 2000 and beyond.

On October 5, 1984, the Falcon Foundation, which gives prep school assistance to aspirants for appointment to the Air Force Academy, ceremonially inaugurated the 50th of such available awards. It was named for the late Charles B. "Tex" Thornton, who died in November 1981, and his portrait was placed in the Fairchild Hall of Great Airmen along with all the 49 other illustrious leaders, strategists, scientists, and aeronautical engineers. Thornton was the founder of giant Litton Industries, built it into a respected international concern, and placed its data systems plant in Colorado Springs. He also gave a 3,200-acre spread of land in the San Luis Valley for establishment of the Triple L Youth Ranch, a haven for court-awarded child abuse victims. And one of the people in the audience the night of the scholarship announcement was George Foreman, the ex-heavyweight champion, who was also a protege of the same Tex Thornton who pried him out of the ghetto and counseled him into a future.

The Falcon Foundation has helped more than 1,000 otherwise inadequately prepared young people in community schools through the educational requirements to pass entrance exams and to graduation and commissions to serve their country. More than 150 were in the audience that night. Thornton was the one who started the custom of naming the schloarships for

leaders, and he did two of the most coveted ones—for Gen. Carl A. Spaatz, the first USAF Chief of Staff, and Lt. Gen. Ira Eaker—as he wanted winners to be part of the heritages of such highly placed figures. The Falcon Foundation, established in 1958, was given an endowment grant from the foundation of the Litton Industries, to make sure this would go on every year forever.

I would like my colleagues to see how the current president of Litton, Dr. Orion Hoch, made the presentation, and following that the text in the folder that every winner will get to study the reaons why that Thornton name is on the award he or she gets.

The presentation and biography follow:

FALCON FOUNDATION PRESENTATION, U.S. AIR FORCE ACADEMY, OCTOBER 5, 1984

Secretary Orr, General Gabriel, General Scott, Distinguished Guests, ladies and gentleman: My first encounter with Tex Thornton, who is being honored here tonight, was in an environment somewhat like this—an educational one. He had always placed a great value on education especially after doing some of his university degree work in night school. The place was Hughes Aircraft, about 30 years ago, and his audience was composed of about 100 new college graduates. Hughes had recruited these graduates to accept a scholarship whereby we worked half-time and also studied for masters degrees in physics or engineering. Many of us were from eastern schools and to the horror of many of our professors, we had turned down fellowships to places like Harvard, Princeton or MIT for the chance to live on the frontiers of electronics. We bought the ptich, the pay was good and we never regretted it.

Tex, who was managing Hughes at the time, along with Si Ramo and Dean Woolridge (the R&W of TRW), took time out of their busy schedules to give these green engineers lectures and tutorials on business, government, leadership and their vision of the electronics revolution. Tex felt that the future was going to belong to those who understood these new technologies. He believed the electronics revolution at our doorstep would be as pervasive and important as the earlier industrial revolution had been. He was gambling on us just as America gambles on this institution and its leadership product.

I know we were all impressed that he thought we were up to the roles which he envisioned for us to perform. He was the focus of attention that day, and to me, as long as he lived, he was a significant presence. Tex always had the time and interest to teach and develop leadership. The group of illustrious "Whiz Kids" he took to Ford at the end of World War II. The long list of Hughes and Litton graduates who have created new businesses or now run major enterprises attest to the fact. I know that I learned more about business and leadership from Tex Thornton, than any other person I encountered in my academic or business career. We used to say that for every three years that you were associated with Tex Thornton, you gained six years of experience. This Col. Charles B. "Tex" Thornton Falcon Foundation Scholarship we inaugurate tonight, will carry with it to everyone who wins it, a responsibility, a responsibility to rise to all the implications bound up in that word—leadership.

Tex also had a lifelong, love affair with the U.S. Air Force. It started in his twenties when he was asked to come up with a method by which the Air Force could determine how much it was, where it was, and its state of readiness. He brought into being the Office of Statistical Control and ultimately it managed about one-sixth of the manpower, material, munitions, and the money expended by this country during World War II.

Indeed, his tracks are all over this military reservation.

He served on various commissions. He was on your board of visitors. When the Falcon Foundation was getting under way he was the one who named a scholarship for the very first Air Force Chief of Staff, General Carl A. "Tooey" Spaatz. He set up another one for another leader he respected greatly, Lt. Gen. Ira Eaker. This started the custom of putting names of significant contributors to air power on all the Falcon Foundation Scholarships and in turn led to your hall of great airmen. It was to keep leadership alive not just commit it to dull history books and statistics but to make perpetual examples, living influences. That's why it's such a special pleasure to all of us at Litton Industries, the company he founded that his name will go on the fiftieth Falcon Foundation Scholarship here tonight.

I'm going to ask Mrs. Thornton to join me as we unveil the portrait which will be hung in your Air Force Academy Hall of Great Airmen.

BIOGRAPHY OF CHARLES B. THORNTON

The life of Charles B. (Tex) Thornton is an unusual and unique story of many years of far-reaching contributions to both military and industrial activities of the United States. At age 28 he joined the pre-Pearl Harbor Army Air Corps as a Second Lieutenant. A series of rapid promotions elevated him to one of the youngest colonels. In industry, his record is one of rapid development of a large corporation, invention and development of new products and technical systems, and outstanding corporate management. For 28 years Tex Thornton served as Chairman of the Board and Chief Executive Officer of Litton Industries which he founded and guided into one of the country's largest, most innovative and productive corporations. Litton's annual sales reached $5 billion with earnings in excess of $300 million.

Tex was born in 1913 in Haskell, Texas. At age 14, with the help of his mother, he had acquired 40 acres of land and his checks were honored in every store in town. He entered Texas Tech University starting in engineering and switching to business administration. He finished his college education at George Washington University and received a Bachelor of Science degree.

The Honorable Robert Lovett, Assistant Secretary of War for Air, brought Tex into the Air Force as a lieutenant and gave him the job of putting the Army's Air arm on a businesslike basis. Tex organized the Air Force's first statistical control organization which, through the years, has contributed a great deal to the operation and management of the Air Force. A part of this organization was nine men who became expert in Thornton's concept of statistical control. After WWII, he persuaded them to team-up in a package with Thornton as leader with the objective of applying their knowledge in the business world. Knowing that the Ford Motor Company was losing money, Thornton wrote to Henry Ford II offering the services of his team to bring the company under better fiscal control. Mr. Ford agreed and employed Tex and the team. They did a remarkably good job for Ford. Among the ten were two future presidents of the Ford Motor Company—Robert S. McNamara and Arjay Miller—plus four divisional general managers.

In 1948, after two years with Ford, Thornton signed on with Howard Hughes as general manager of Hughes Aircraft Company in Culver City, California. In five years, he built Hughes Aircraft from annual sales of $1.5 million to $200 million and enabled it to become a leader in missile work.

In 1953 Tex left Hughes with a plan to form his own company. He went to Lehman Brothers of New York City, a Wall Street investment house, seeking financial assistance for his business plan. With Lehman's help, he started by buying a small microwave tube company bearing the name of its owner, Charles V. Litton. "I told Lehman," he said, "that I wanted to start a company that would be strong in future science and technology and well balanced with engineering, production and sales." In three years, under Thornton's management, Litton Industries reached annual sales in excess of $100 million with strong earnings. Tex was its Board Chairman and Chief Executive Officer for 28 years.

Litton Industries made numerous and valuable contributions to the Country's defense system. Two of these, the "Moon Suit" and the LN-3 inertial navigation system, are now on exhibition in the Air Force Museum. When President Johnson established the Job Corps to teach skills to high school dropouts, Litton Industries was first to respond with a Job Corps Center near Oakland, California. In four years, 14,000 young people from every state went through the training course.

Tex Thornton has many military and civilian awards, decorations and special honors including the Distinguished Service Medal. He held four Honorary Degrees from several universities.

In 1981, President Reagan, in presenting him the Presidential Medal of Freedom, stated: "Tex Thornton has earned the esteem of all Americans who value patriotism, enterprise and compassion as cornerstones of our nation's greatness."

This great American, a man with a distinguished history of achievement in both defense and industry passed away in 1981 at the age of 68. He is survived by his wife, Flora Laney Thornton, and two sons, Charles and William.

The Falcon Foundation is indeed pleased to participate in this annual scholarship which has been established in perpetuity. This scholarship in Mr. Thornton's honor is designed to help young people gain entrance to the Air Force Academy.●

CONFERENCE REPORT ON H.R. 2867, THE HAZARDOUS AND SOLID WASTE AMENDMENTS OF 1984

HON. W.J. (BILLY) TAUZIN

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. TAUZIN. Mr. Speaker, as one of the House conferees on H.R. 2867, the

Hazardous and Solid Waste Amendment of 1984, I feel constrained to correct an erroneous impression inadvertently created by section 102 of the conference report, which was hastily considered and approved by both the House and Senate late last week.

During the conference on this legislation, the conferees agreed to delete section 10(a) of H.R. 2867, as passed by the House last year under the heading "Reuse, Recycling and Reclamation." That provision vaguely instructed the Administrator of the Environmental Protection Agency to regulate the use, reuse, recycling, and reclamation of materials recovered from the solid waste stream.

Mr. DOWDY of Mississippi and I agreed with the Senate conferees that section 10(a) should be dropped. The conference report dealing with section 102 of the legislation now states that our agreement was reached because, allegedly, EPA already has authority to regulate activities involving the recycling and reclamation of materials recovered from solid waste and, thus, further legislation is unnecessary.

The conference report is plainly incorrect in this regard. To my knowledge, EPA has no authority under existing Federal solid waste legislation to regulate the recycling or reclamation of metals, paper, textiles, or rubber that have been recovered and removed from the solid waste stream for reuse as valuable raw materials. In fact, even the section deleted by the conferees from H.R. 2867—section 10(a)—recognized that fact by specifically providing:

> Regulation implementing this provision shall not contain a definition of solid waste that makes such regulations apply, directly or by implication, to nonhazardous wastes being recycled (such as nonhazardous metals, paper, textiles, or rubber used or reused for beneficial reclamation).

In truth and in fact, therefore, the reasons Mr. DOWDY and I joined the Senate conferees in the deletion of section 10(a) of the House bill were as follows:

First, no hearings were held on this particular proposal in either the House or Senate.

Second, there was no similar provision in the Senate version of the legislation.

Third, no evidence was presented by EPA or anyone else why regulation of actual recycling and reclamation activities is necessary at this time.

Fourth, metals recycled from solid waste must compete economically with virgin metals produced from mining, and since 1976, mining wastes have been exempt from EPA regulation by section 8002(f) of RCRA. Thus, regulation of metal recycling activities at this time would be discriminatory and economically damaging to solid waste recycling, which presently is one of the most economically sound and efficient means for dealing with solid waste and hazardous waste.

Fifth, finally, section 10(a) was at odds with sections 2 and 501 of H.R. 2867 which mandate that the Federal Government expend substantial appropriated funds and change its entire procurement system to maximize recyling of materials from solid waste.

In sum and substance, therefore, the conferees decided that regulation of solid waste recycling activities should be withheld, at least with regard to metals, paper, textiles, and rubber recovered or diverted from solid waste, until the facts are presented to Congress and steps are taken to equalize the regulatory impact on recyclers and those with whom they compete in day-to-day industrial operations.●

MISSING AND EXPLOITED CHILDREN

HON. JOHN McCAIN

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. McCAIN. Mr. Speaker, only recently have Americans become aware of the tragic problem of missing and exploited children. Every year 50,000 children disappear and remain missing at the end of the year. Every year 1.8 million children are missing for some length of time.

Thanks to the exemplary efforts of many individuals such as Senator PAULA HAWKINS and John Walsh, the tide is beginning to turn in the fight to make our children safer. Today, I would like to take note of the outstanding achievements of Deborah Pyburn, an anchorwoman at KTSP-TV in Phoenix, AZ, whose crusade to focus attention on the tragedy of missing children has met with resounding success.

Deborah first became involved with this cause in April of this year. She traveled extensively, searching out organizations and police departments with proven records in locating missing children. Bringing this information back to Phoenix, Deborah began to enlighten her viewers to the extent of the problem and its often tragic consequences.

Her efforts have made Deborah's station, KTSP, a model for news stations throughout the country. Every evening Deborah focuses reports on two missing children and publicizes the toll-free number viewers may call if they have information on a missing child. Called Missing Child Watch, Deborah also uses this segment of the news to inform parents about upcoming child safety programs.

Largely as a result of KTSP's campaign there have not only been joyful reunions of parents and their missing children, but just as importantly the community has become united in its resolve to combat the problem of missing children. Few would disagree that Deborah Pyburn was the catalyst and is now the driving force behind the crusade to make Metropolitan Phoenix and beyond one of the safest areas for children.

As she carries out all her reports and interviews, Deborah quickly makes one aware that this is much more than just an assignment to her. The concern for others that characterizes her work makes it clear that she is a true and successful champion of the rights and safety of our children.

Very often those of us in public office criticize members of the media for their adversarial journalism and negative viewpoints. Deborah Pyburn has proven that it is possible to be not only an excellent journalist but also a loving and caring person. On behalf of all the children and parents in the Phoenix area, I would like to express our gratitude for her dedicated efforts.●

LEGISLATION TO PREVENT ELECTION PROJECTIONS BASED ON EXIT POLLS

HON. ANTHONY C. BEILENSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. BEILENSON. Mr. Speaker, I am introducing a bill today to restrict the use of exit polls to make projections of the outcome of elections before the polls have closed.

Congress has already made clear its belief that early projections of election results are a dangerous infringement on the fairness and legitimacy of the Democratic process: we have already formally recorded the sense of Congress that projections based on exit polls should be withheld until voting is complete. But the television industry is ignoring the public interest; it is intent instead on the race to be first to project the winners in elections. Congress, therefore, is going to have to prevent the premature use of exit poll results by law.

Mr. Speaker, last June 26, by a bipartisan vote of 352 to 65 we overwhelmingly passed House Concurrent Resolution 321, pointing out that early election projections undermine democracy, and asking the broadcasting industry to voluntarily refrain from projecting elections until the voting is complete. The Senate also passed the resolution by a wide margin. However, broadcasters have made it clear, by their actions during this spring's primary elections and by their testimony before congressional committees, that they intend to continue the practice.

This fall's elections will show us whether the television networks are

going to change their election-day practices in response to the urging of Congress and the overwhelming desire of the American public. Frankly, Mr. Speaker, I am not optimistic, so I have prepared legislation which I shall reintroduce next year if we see a rerun, this November, of early projections by the network broadcasters.

I understand that some may feel that any restraint on broadcasters is an infringement on the First Amendment right to freedom of the press. While I do not believe that requiring the press to withhold information for a few hours, where it directly affects the electoral process, would be unconstitutional, I have framed my proposal in a way that directly addresses the problem of harmful interference with the electoral process.

Under this proposal, exit polling within 1,000 feet of a voting place would be a criminal offense if done with the intent to reveal the results prematurely—that is, before the polls have closed for the office in question. In an election for the Senate, for example, all polls in the State would have to have closed before the results obtained by exit polling could be disclosed. And in a Presidential election, all polls nationwide would have to be closed before the result could be announced.

Mr. Speaker, I realize that this proposal only deals with one source of early election projections. A single national poll closing time would also be an important improvement to the electoral process if we wish to prevent the use of the officially tabulated results in key precincts for projecting the winner of a national election, and that issue will have to be addressed along with the problem of exist polling. Meanwhile I want to make it clear that this legislation will be reintroduced to deal specifically with the exit polling problem if it continues this November.

Mr. Speaker, a great deal of testimony has been taken on the problem of early projections and their effect on elections, and I am not going to recite it all again here. I do want to repeat the essential point, which is that early projections fundamentally undermine the electoral process by making people believe that their vote has no effect or importance to the election. This can cause people to refrain from voting entirely, which may have a vital, decisive impact on the outcome of other races, particularly close ones, at issue in the same election.

Of course Members of Congress from the west coast are particularly concerned about the problem, because election projections on the 6:30 p.m. news on the east coast will become known to voters on the west coast more than 4 hours before their polls close, discouraging many thousands of voters from taking the time to vote. There is clear and strong evidence that this has happened in the last two national elections, in 1980 and 1982.

But, Mr. Speaker, the problem also affects the east coast and everywhere else as well. In a State where the polls close at 8 p.m., a 6:30 p.m. projection based on exit polling can affect the remaining voting within that same State.

Mr. Speaker, I want to emphasize the fundamental point about early election projections—that they undermine the electoral process by making some voters feel that their votes do not count. We cannot permit this to continue, and I propose this legislation as part of our search for a reasonable solution.

The networks can easily avoid the need for this legislation by practicing some self-restraint, and I earnestly hope they will do so. If not, Mr. Speaker, I shall urge my colleagues to join me in support of this bill next year.●

DATA DISCLOSURE UNDER S. 1538, THE DRUG PRICE COMPETITION AND PATENT TERM RESTORATION ACT OF 1984

HON. HENRY A. WAXMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. WAXMAN. Mr. Speaker, section 104 of the recently passed Drug Price Competition and Patent Term Restoration Act, S. 1538, requires the Food and Drug Administration to release safety and effectiveness data in several circumstances, such as when a drug is eligible for an ANDA, unless there are extraordinary circumstances which warrant its withholding. As discussed in the House committee reports (Rept. 98-857, parts I and II) and as I explained prior to passage of the bill in the House (CONGRESSIONAL RECORD, Sept. 6, 1984, 24425), this provision is intended to codify the Food and Drug Administration's current regulation pertaining to this type of data. (21 C.F.R. 314.14(f).) The term "extraordinary circumstances" is discussed in the preamble to the regulation. (39 Fed. Reg. 44602, 44633, 44637-8 (Dec. 24, 1974).)

When S. 1538 passed the Senate on September 12, 1984, Senator HATCH made a statement about section 104 and inserted in the CONGRESSIONAL RECORD (Sept. 12, 1984, 24977-78) a letter he received from the Food and Drug Administration (FDA) outlining its interpretation of the section. Because the Senator's statement and the FDA letter contradict the explicit language of section 104 and my understanding of FDA's current policy, I must clarify the intent of the section.

The text of S. 1538 initially passed the Senate as S. 2926. In its introduced version, S. 2926 provided that "extraordinary circumstances" exist when safety and effectiveness data are found to be "trade secret or confidential commercial or financial information." This description of extraordinary circumstances was deleted from S. 2926 when it passed the Senate and it is not contained in S. 1538.

In Senator HATCH's statement when the Senate passed S. 1538, he said that "extraordinary circumstances are present, for example, when the information is trade secret or confidential commercial or financial information." In other words, he claims that the bill as enacted should be read as if it contains the language which had been deleted from the original bill. He argues for this reading by asserting that the Congress intended for the term "extraordinary circumstances" to be coextensive with the exemption in the Freedom of Information Act (FOIA) (5 U.S.C. 552(b)(4)) for "trade secrets and commercial or financial information obtained from a person and privileged or confidential."

As the principal House sponsor of this legislation, I negotiated to have the deleted language struck from the bill. Section 104 was not intended to be a blanket reference to the FOIA. Section 104 creates a strong presumption that the data covered by the section will be available to the public. It recognizes that in some unusual cases, where there are extraordinary circumstances, the FDA should be able to withhold the data. For example, when a company can show FDA that the data qualifies as a trade secret, as defined in *Public Citizen Health Research Group* v. *FDA*, 704 F.2d 1280, 1288 (D.C. Cir. 1983), then FDA can withhold it. However, since FDA would have the authority to withhold data under exemption 4 of the FOIA in the absence of section 104, the term "extraordinary" cannot and should not be read as meaning exemption 4 of the FOIA. Therefore, a company could not prevent disclosure by a simple claim or demonstration that the data were confidential, commercial information or that the data have possible commercial competitive value.

In the Food and Drug Administration's letter to Senator HATCH, the agency said that its general counsel interpreted the term "extraordinary circumstances" to include confidential commercial information, and that this view is reflected in a pending proposal to revise FDA's new drug approval regulations. The agency also claims for the first time that its proposed practice is its current practice, but there is no support for this statement of which I am aware. Thus, section 104 was intended to codify the agency's current practice as we understood it and as I

described it in the above paragraph, not as the FDA described it in its letter.

Another issue which has arisen in connection with section 104 is whether information which would support the application of a competitor for approval before a foreign regulatory agency qualifies under the extraordinary circumstances exception. In commenting on the FDA's proposed regulation, several commenters addressed this same point and argued that such data were trade secrets and should be withheld. The FDA reviewed those arguments and in the preamble to the regulations said "none of the comments submitted demonstrated any likelihood that the full reports of such information, as contrasted with summaries, are required under foreign law in order to justify marketing abroad." The Commissioner concluded that "any such possibility of competitive advantage is too conjectural and remote to justify invoking the trade secrets exemption of the Freedom of Information Act." However, the FDA said that extraordinary circumstances might justify denying disclosure if a "specific instance arise[s] in which a competitive advantage can be demonstrated in concrete terms." Section 104 of the bill adopts this same approach.●

CLARIFYING THE RAKER ACT

HON. ED ZSCHAU

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. ZSCHAU. Mr. Speaker, on September 12 this body passed the historic California Wilderness Act, the culmination of 20 years of studies, negotiations and debates. The designation of the Tuolumne River as part of the National Wild and Scenic Rivers System will preserve the great scenic and recreational qualities of one of California's outstanding natural resources. I am proud to have been able to play a role in this achievement.

I would like to take this opportunity to reiterate the historic and continuing importance of the Tuolumne as an indispensable source of water supply for San Francisco and the surrounding bay area communities. Since the passage of the Raker Act authorizing construction of a water conveyance and supply system, the Tuolumne has evolved as the principal source of domestic water supply for over 2 million residents in the San Francisco Bay area. The purpose and long range vision of the Raker Act was to ensure that the water needs of these growing communities would be met by the Hetch Hetchy system throughout this century and beyond.

To that end, section 201 of H.R. 1437 contained a provision making clear that it is not intended to alter in any way the rights, privileges and obligations of the Raker Act's grantees. In this connection I am including in the RECORD a letter from the attorneys for the Bay Area Water Users Association, which is composed of the cities and water districts in the bay area which obtain water from San Francisco. The letter addresses the history of the Raker Act and concludes that further construction of the Hetch Hetchy water supply system, consistent with the scope and purpose of the Raker Act, does not require additional legislation. Instead, they conclude, such development will require the approval of the appropriate Federal official specified in the act itself—the Secretary of the Interior or the Secretary of Agriculture.

The Tuolumne River supplies the water that is vital to the lives of existing and future generations of bay area residents. As so wisely envisioned by Congress in passing the Raker Act, it is essential to safeguard the Tuolumne's water supply potential so that it may meet the water supply demands of these communities now and in the future. Used properly, the Tuolumne will meet the many needs—drinking water, electricity, and recreation—of the people of California. The passage of the California Wilderness Act is truly a victory for all the people of California.

HANSON, BRIDGETT, MARCUS,
VLAHOS & STROMBERG,
San Francisco, CA, October 3, 1984.

Re H.R. 1437.

Hon. ED ZSCHAU,
House of Representatives, House Office Building, Washington, DC.

DEAR CONGRESSMAN ZSCHAU: We are the attorneys for the Bay Area Water Users Association (BAWUA), whose membership includes the 28 cities and water districts in the San Francisco Bay Area which purchase water from the San Francisco Water Department. (A complete list of member agencies is attached).

Most of these communities obtain the majority of their water supply from San Francisco; many are entirely dependent on San Francisco for their domestic water supply. Since nearly 80 percent of the water furnished by San Francisco to its suburban purchasers originates in the Hetch Hetchy system on the Tuolumne River, BAWUA members were understandably concerned about the possible impact which designating the Tuolumne as a wild and scenic river might have.

During the course of the Senate's consideration of Wild and Scenic River status for the Tuolumne, BAWUA emphasized the importance of preserving the ability of the Bay Area communities to continue to rely on the Tuolumne as their municipal water supply. We were therefore pleased that, as amended in the Senate, H.R. 1437 incorporated language making clear that the designation of portions of the river as wild and scenic ". . . is not intended or shall be construed to affect any rights, obligations, privileges or benefits granted under any prior authority of law, including Chapter 4 of the Act of December 19, 1913, commonly referred to as the Raker Act (38 Stat. 242)."

This language, which was also adopted by the House, seemed to us to recognize the central role which the Tuolumne River plays in meeting the water needs of the Bay Area and to reflect a Congressional intent that rights derived from the 1913 Raker Act remain unaffected by the recent legislation.

Our clients have learned that material has been included in the CONGRESSIONAL RECORD which seems to interpret the Raker Act as requiring Congressional approval for additional construction of water delivery facilities on the lands originally granted by Congress in 1913. Because of the importance of the Raker Act to the Bay Area's water supply, we have been requested to submit to you further information clarifying the Raker Act on this point.

The material which appears in the September 12, 1984 CONGRESSIONAL RECORD consists of a memorandum dated December 13, 1983 from the American Law Division of the Congressional Research Service. The memorandum is specifically addressed to the question of whether further Congressional approval would be required in order to increase the height of O'Shaughnessy Dam. Our clients have taken no position on the necessity or desirability of that particular project. However, some of the analysis contained in the memorandum could be extended to other projects of direct and immediate benefit to suburdan communities and, if so applied, could disrupt the orderly operation and extension of the water supply system.

The basic premise of the memorandum is that "the 1913 Act appears to have intended the [Hetch Hetchy] project to be constructed and completed shortly after authorization." The conclusion drawn from that premise is that new construction undertaken now or in the future is beyond the "scope and purpose" of the Act simply by virtue of the passage of time.

We respectfully submit that the premise is incorrect and the conclusion, therefore, wrong.

First, there is no express provision in the Act itself which either requires Congressional approval for construction of facilities nor requires particular facilities to be completed by a specific date. Second, the premise of the memorandum conflicts with the basic purpose of the Act.

The fundamental purpose of the Raker Act was to provide a water supply for San Francisco and surrounding communities which would meet their needs for water into the 21th Century. The Ninth Circuit Court of Appeals summarized the background and purpose of the Act in *City of Palo Alto* v. *City and County of San Francisco* (9th Cir. 1977) 548 F.2d 1374.

"The Raker Act was passed in the aftermath of the great San Francisco earthquake and fire to grant access to the water and hydroelectric resources of the Hetch Hetchy Valley in Yosemite National Park. . . . Instrumental in the defeat of the environmental viewpoint was the demonstrated need for a cheap and abundant supply of water to accommodate the growing power and water demands of the Bay Area. The legislative debates are replete with discussion of the projected population growth of the Bay Cities as well as of San Francisco proper and the demand for water which such growth would entail."

Illustrative of the long-term and regional focus of the 63rd Congress, to which the Court refers, is the following excerpt from the House Report:

"In one important respect the situation in California requires special consideration. . . . In a relatively few years practically all available water will doubtless be appropriated for one or the other use, and it will then be possible to obtain it for municipal use only at great cost and damage to existing communities and industries. It is therefore necessary to-day for the cities of California to look further ahead than in most other parts of the Country and to take such steps that in the future when they may need the water they shall have the right to take it. For this reason, it is believed that in making provision for the future supply of San Francisco and other Bay cities, a source should be selected, if possible, that is capable of supplying the needs of the communities for the balance of this century."[1]

Similarly, the remarks of Congressman French, a member of the Committee, emphasized that the water supply system should be capable of supplying the combined needs of San Francisco and Bay cities through the end of the century.

"We can not look, however, to the immediate population of the city of San Francisco and to the population of the other bay cities and counties and upon the basis of their present population determine the question of reasonable water supply. Any water system that may be constructed . . . upon the basis of collecting the water in the Sierra Mountains, conveying it in enormous pipes to the several cities, must be constructed at immense cost; and ought to be constructed in such a manner as will permit the ultimate development of a system in the most economical way, adequate to meet the requirements of a greater future population. . . .

We can not know what the future population of San Francisco and the other bay cities will be in 25 or 100 years from now. I have no doubt that the population at the end of the present century will be not 773,000 people but nearly 4,000,000 people or, as has been estimated by those who have made a careful examination of the question and as is indicated in the report by the Board of Army Engineers, 3,633,000 people." [2]

There is no evidence that members of Congress thought that the Hetch Hetchy system, designed to meet the gradually increasing water needs of a growing metropolitan area, would be quickly built or necessarily completed in one stage. In fact, the evidence from the legislative history shows the contrary: that Congress was aware that the project would be gradually extended over a considerable period of time as demand for water increased.

The Report of the Army Board of Engineers, referred to at length in the House Committee Report, makes this very clear.

"The plan of development is a gradual one. The tunnels will be built full size to carry at least 400 M.G.D. Where there are several parallel pipe lines, they will be constructed as needs demand . . . *The dams will be built gradually and not to full height at once.* Other parts of the system will be constructed from, time to time, extending over about 50 years * * *." [3]

[1] H.R. Rep. No. 41, 63rd Cong. 1st Session (1913), p. 22, quoting from the Report of the Board of Army Engineers.

[2] 50 Cong. Rec. 3964-65.

[3] Advisory Board of Army Engineers "Investigations Related to Sources of Water Supply for San Francisco and Bay Counties," p. 30 (1913).

The Army Board Report, in estimating the cost of the Hetch Hetchy project for purposes of comparison to other alternatives, envisioned a phased construction schedule which would see 100 M.G.D. delivered to the Bay Area by 1920, 140 M.G.D. by 1940, 200 M.G.D. by 1960, 285 M.G.D. by 1980, and 400 M.G.D. by 2000.[4]

These cost estimates were adopted in the House Report which differentiated between the $37.4 million cost of the "first installation" necessary to bring 200 M.G.D. to the Bay Area and $77 million "ultimate cost" of the entire project.[5]

The actual construction of the Hetch Hetchy system has, in fact, followed the phased schedule of which the Army Board advised the Congress. It required over 20 years of continual construction activity before the basic 150 mile system of tunnels, pipes and dams was finished and water first delivered to the Bay Area in 1934. Since then, additions have been made in response to increased demand. Thus, for example, O'Shaughnessy Dam was raised an additional 85 feet in the mid 1930's; Cherry Valley Dam was built in the mid 1950's; additional powerhouses were built in the 1960's; and transmission pipelines across the San Joaquin Valley and in the Bay Area added in the 1950's, 1960's and 1970's. As recently as 1980, San Francisco requested and obtained permission from the Department of the Interior to construct a pumping station at Lake Lloyd to transfer water between that lake and Lake Eleanor.

These and other projects involved in the gradual completion of the system envisioned by Congress have gone on under the supervision of the Secretaries of the Interior, and Agriculture, as provided in the Raker Act itself. They have *not* been accomplished by a series of successive Congressional authorizations.

The courts have recognized the role of the executive branch in supervising the Hetch Hetchy project. In *City and County of San Francisco* v. *United Airlines* (9th Cir. 1979) 616 F.2d 1063, the court noted that the Raker Act "gave the Interior Secretary broad powers to oversee the project." And in *Starbuck* v. *City and County of San Francisco* (9th Cir. 1977), 556 F.2d 450, the Court of Appeals stated that the "Raker Act's administration depends on a finely tuned interplay of the Secretary's discretion and a balance of State and federal control over the use of Hetch Hetchy water and power."

The Congressional Research Office memorandum relies on two Sections of the Act (Sections 2 and 5) to support its premise that Congress intended the entire Hetch Hetchy project "to be completed within a few years after enactment." Neither section in fact does so, particularly when read in light of the overall Congressional purpose sketched above.

Moreover, the memorandum does not plausibly explain the language in Section 9(k) which requires O'Shaughnessy Dam to be completed to a height of at least 200 feet, with a foundation capable of supporting the dam "when built to its greatest economic and safe height." The memorandum suggests that this concluding phrase may merely have been meant to impose good workmanship requirements of the kind contained elsewhere in the Act. The suggestion is not persuasive since it would render the language redundant. In addition, building a foundation capable of supporting a higher dam than necessary is simply wasteful, unless the dam is expected to be subsequently raised. As we have seen, the Army Board of Engineers Report anticipated the initial construction of a "low dam" and its eventual extension many years later. (Army Board Report, p. 130-131).

To summarize (1) Congress, in granting the rights contained in the Raker Act, envisioned a project aimed at meeting water needs of the San Francisco Bay region for over a century; (2) it anticipated the phased construction of facilities to meet those needs as they presented themselves; and (3) it entrusted to the appropriate Departments the task of administering the Act and enforcing compliance with its terms.

It is in light of that "scope and purpose" that the reference to rights granted by the Raker Act in Section 301 of the California Wilderness Bill should be understood.

Respectfully submitted,

RAY E. MCDEVITT.

REMEMBERING CARL PERKINS

HON. AUGUSTUS F. HAWKINS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. HAWKINS. Mr. Speaker, in the closing days of this session I want to again pay tribute to our late colleague Carl D. Perkins who will always be remembered as a legislative giant and a champion of the impoverished and the disadvantaged. He was continually seeking to make America a better

place for all Americans, and consistently sought alternatives to the social and economic deprivations experienced by those who at times were leaderless and friendless.

Carl Perkins' legacy lives on in the millions of Americans who benefited from his efforts to improve the quality of public education in our Nation's schools. His policies spoke for those who had little or no voice in government—the children, the handicapped, and the poor. He believed in a nation that was caring, humane, and charitable to its citizens. President Franklin Roosevelt once said that "the test of our progress is not whether we add more to the abundance of those who have much: it is whether we provide enough for those who have too little." Carl Perkins firmly believed in that same credo.

Some of Carl Perkins' legislative triumphs included the Vocational Education Act of 1963, the landmark Elementary and Secondary Education Act of 1965 and the provision for blacklung benefits in the Coal Mine Health and Safety Act of 1969. As chairman of the Education and Labor Committee he was committed to a number of my own legislative initiatives including the Full Employment and Balanced Growth Act; youth employment legislation; and programs to train and employ the jobless.

He believed that a civilized society simply could not turn its back on national problems such as child poverty, illiteracy, unemployment, and inadequate worker protections. He used his unique and crafty legislative style to guide and nurture through Congress major legislation that addressed the needs of our society, and attempted to remedy basic injustices such as starvation and ignorance.

Other major legislation sponsored by Carl Perkins included programs to help students secure financial aid. He was one of the prime sponsors and advocates of the Education Amendments of 1980 (Public Law 96-374), which extended and strengthened postsecondary education programs and student assistance. He was the primary author of the School Lunch Amendments of 1968, 1970, 1975, and 1978. These amendments improved the regular school lunch and breakfast programs and established additional programs for feeding poor children in the summer; for providing meals to day care centers and homes for the retarded; and for bringing nutritional and medical care to those whose health were at risk because of inadequate diets.

Mr. Speaker, this body will greatly miss Carl D. Perkins. He was a man of great moral courage and human conviction. He left us with a treasured legacy—one which we will continue to honor in his memory.●

THE SDI AND GRADUAL BUILDDOWN: A MODEST PROPOSAL FOR RATIONAL ARMS CONTROL

HON. MARILYN LLOYD

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mrs. LLOYD. Mr. Speaker, the President's suggested strategic defense initiative [SDI] has caused a significant amount of debate on the relative merits of embarking on a defensive nuclear strategy. Clearly such a choice implies a politically and programmatically difficult transition from today's unfortunate mutually assured destruction [MAD] arms race status to a very different situation where defensive capability provides a significant element of deterrence and resulting stability. Nevertheless, I believe that the SDI approach deserves careful consideration and the attention of the best minds in the country from Government, industry, and the universities. I cannot support the critics who contend that any such effort is inherently destabilizing from a strategic nuclear perspective.

In this regard, I was fascinated by the recent article in the Bulletin of the Atomic Scientists entitled "Defense-protected build-down" by Jack N. Barkenbus and Alvin M. Weinberg, both of whom work at the Institute for Energy Analysis of the Oak Ridge Associated Universities. I am particularly pleased that two of my constituents have provided such a thoughtful and innovative approach to "Breaking the Nuclear Deadlock." Dr. Weinberg is an old and valued friend who has provided refreshing perspectives over several decades on a spectrum of issues from that of civilian nuclear power through arms control. In terms of intellectual energy, he remains perennially youthful and an inspiration to all of us in Government who are interested in devoting our time and capabilities to making the best choices about future directions for this country.

The point of this Barkenbus/Weinberg article is to suggest the combination of a "build-down" strategy for offensive weapons coupled to an incrementally evolving strategic defense system. I, for one, believe that the stakes in the arms race and nuclear arms control are much too great to ignore this very interesting and innovative approach. Wouldn't it be rewarding if such a U.S. initiative, which should not diminish our deterrent capability, could serve as a strong signal to the U.S.S.R. that the "ratcheting down" of the arms race could begin in a rational and measured fashion? I believe that my colleagues in the House will find this article very provocative and at the same time an extremely constructive contribution to the SDI debate.

In his Star Wars speech, President Reagan held out the prospect of eliminating the nuclear Armageddon threatening the American people through development and deployment of advanced defensive weapon systems. Most observers will agree that a defense-oriented world is safer, and generally preferable, to an offense-oriented one and that assured survival is preferable to assured destruction. But many arms control experts regard defensive weapon systems as undesirable for three reasons:

There is concern that their deployment will touch off yet another expensive round of technological development, leading eventually to new offensive weapon systems that can overwhelm the defense.

Even if this renewed competition for offensive superiority does not occur, there are likely to be serious deficiencies in the defenses and many claim that any defense significantly less than 100 percent effective is hardly worth deploying.

No one has shown how to avoid the instability of the transition from an offense-oriented world to a defense-oriented one, created in part by a willful abrogation of the ABM treaty.

In a worst-case scenario, the deployment of defensive weapons by the United States, as espoused by Reagan, would lead the Soviet Union to regard itself as being at a great disadvantage. It might, therefore, feel compelled to escalate the arms race by deploying its own defensive weapons system and/or increasing its offense (both quantitatively and qualitatively); or, in extremis, to strike before its forces had been neutralized.

These concerns, we believe, can be overcome by adopting a strategy that combines deployment of defensive weapons with a concomitant and compensating reduction of offensive weapons by the party deploying the defense. In other words, an orderly transition to a defense-oriented world can be achieved if the country deploying the defense simultaneously reduces its offense to compensate for such deployment.

Before describing this "defense-protected build-down" we must clarify our basis assumptions:

The arms race has spiraled upward because neither the United States nor the Soviet Union will accept being at a strategic disadvantage vis-a-vis its adversary.

Stable deterrence is possible, and desirable, at much lower force levels than are now deployed, and with opposing forces roughly at parity.

Traditional arms-control efforts and bilateral negotiations show little promise of producing much lower force levels.

Unilateral American disarmament is politically impossible at present, even if the resulting lower force level is theoretically sufficient to prevent an attack by the Soviet Union.

Of these propositions, perhaps the last—the political infeasibility of unilateral disarmament—is the most controversial. If stable deterrence can operate at a lower force level, one might ask, why not simply reduce our offense in the expectation that such an act of U.S. statesmanship would lead to a corresponding reduction by the Soviets? Yet, given today's political realities, we cannot see how any U.S. president could order a serious reduction, even in superfluous elements of the strategic nuclear force, without an equivalent and verifiable reduction by the other side. The possibility of

anti-missile defense, even a relatively poor defense, would make such a unilateral build-down much more feasible.

President Reagan's optimism in his March 23, 1983 speech regarding the prospect of a U.S. citizenry free from the nuclear sword of Damocles is an illusion. Faith in the ability of science and technology to return the genie to its bottle is unjustified. Even were a leak-proof missile defense possible, other delivery systems for nuclear weapons could be used to keep millions of Americans in jeopardy.

The real issue being raised by Reagan, therefore, is not whether we can return to an era free of the possibility of a nuclear holocaust, but whether new defensive systems can be mounted to reduce significantly the level of terror or destruction that can be wreaked on the earth—that is, to reduce the level of terror at which deterrence operates. The president called upon the scientific community to devise a network of futuristic and exotic space- and land-based systems to intercept and destroy Soviet strategic ballistic missiles when launched. * * * Some remarks about the prospects for transition to defense systems are included.

The call for simultaneously deploying defensive systems and freezing offensive weapon levels—a "lightly-armed, heavily-defended" policy—is not new, since it has long been recognized that the unlimited use of offensive weapons can invariably overcome defensive systems.[2] What is new in our proposal is the insertion of symmetry (and hence stability) into the policy, based upon credible estimates of the defense's effectiveness. The basic calculus of our proposal is determined as follows.

We assume that initially, in the absence of a defensive system, the two sides are at parity in offensive weapons. Let us suppose the United States then deploys enough anti-missile devices to knock out the maximum Soviet attack with a certain kill probability. Then the maximum Soviet attack would equal the original number of Soviet warheads delivered, minus the probable number destroyed by U.S. defensive devices.

We propose that when the United States deploys a defensive system with the capabilities described above, it dismantle a number of its own warheads equivalent to the probable number of Soviet warheads which would be destroyed by the defensive system. The advantage of this simultaneous deployment of defense and destruction of a corresponding part of the offensive system is that at each stage of deployment the two sides are still evenly matched in actually delivered warheads; yet the total number of deployed warheads has been reduced.

It may be useful, for illustrative purposes only, to provide a simplified example of how defense-protected build-down might work. Let us assume for the moment that the United States and the Soviet Union are at parity, with each side having 1,000 reentry vehicles. Suppose further that Washington unilaterally deploys a ballistic-missile defense system with a kill probability of 0.1, and at the same time dismantles 100 of its warheads. The Soviets would then face a number of options: They could strengthen their offense or deploy a defense of their own without a concomitant defense-protected build-down; they could keep their offense at its current levels in exchange for the U.S. build-down; or they could deploy a defense and adopt such a policy.

The first option would appear relatively unattractive to the Soviets since such a response would lead the United States either to reduce its build-down, or even to restore all of its dismantled offensive weapons. The prospect of fewer U.S. weapons facing the Soviet Union would seem to us to be a powerful reason for Soviet policy-makers to think twice before deciding to increase their offense. Thus the second and third options, either of which reduces the force levels at which deterrence operates, clearly appear superior to the first. Of these two, the third would be preferred since only it leads to a continuing winding-down of offense * * *.

The various risks of the defense-protected build-down approach are discussed and the need for an incremental approach is outlined.

Initially, defense-protected build-down would be confined to our counterforce weapons, the very accurate, land-based ICBMs which, because they are counterforce, pose the threat of a first strike. Further, we would limit our initial deployment to 100 interceptors, since this can be done without violating the ABM treaty. How many reentry vehicles these 100 interceptors would destroy in a realistic attack scenario would be estimated.

Let us say that the number is 50 out of 100 incoming reentry vehicles. In the absence of a ballistic-missile defense, the Soviet attack would have destroyed 200 of our offensive warheads; with a ballistic-missile defense system, only 100 would be destroyed, assuming one U.S. ICBM carries two warheads. Thus were we to dismantle an additional 100 warheads on our counterforce missiles, we would still maintain the same delivered counterforce threat as before we deployed the defense system and dismantled our 100 reentry vehicles. Yet we have reduced the actual number of counterforce weapons, and have thereby given a powerful signal that we are not contemplating a first strike.

We do not advocate that the United States make deep cuts in its offensive forces without some form of Soviet response. We envision instead an incremental build-down structured around a limited number of unilateral initiatives and consistent with Charles Osgood's theory of graduated and reciprocated initiatives in tension reduction (GRIT).[3]

As developed by Osgood, GRIT is the application of interpersonal communication and learning principles to international relations. It posits that adversary nations can reverse the escalating cycle of tension, distrust and competition by taking steps that have proved useful to conflict resolution among individuals. Specifically, GRIT involves the unilateral initiation of conciliatory acts by one party, which challenges the other party to respond in kind.

GRIT relies upon unilateral action, the only to the extent required to set in motion a two-party process of reducing tension and conflict. The defense-protected build-down could be structured in a manner consistent with specific and cumulative steps in the GRIT theory that have been identified by Svenn Lindskold.[4] How the United States might proceed on this course is briefly illustrated. . . .

It is impossible to predict what the Soviet and other international reactions to such a U.S.-initiated build-down process would be. But a plausible case can be made that if we carry it out correctly, the Soviets could be persuaded to join in, producing a downward trend in the arms race. . . .

One manner in which the U.S. might proceed as to elicit a positive Soviet response is discussed.

If a downward spiral is the objective, why not simply agree to reduce the number of offensive weapons without going to the trouble of deploying a defense? This would be a welcome course, but is it realistic? After 30 years of arms control, the superpowers have many more nuclear warheads facing each other than when the talks began. Mutual suspicions and distrust continue to abound; as one of us said 16 years ago, true disarmament, from a position of no defense, does not happen.[5] And perhaps the additional element of uncertainty injected by the existence of defensive weapons might help stay the finger of frustrated leader who is eager to push the button. . . .

Some virtues of a defensive posture mentioned.

Continuing thought and discussion need to be directed toward a defense-protected build-down in order to determine its full potential and strategic implications. It may be useful here to recapitulate its major tenets and advantages as currently perceived.

It offers a means of reducing nuclear armaments, without the political and strategic risks associated with disarmament and with the retention of rough strategic parity.

It can be initiated unilaterally, thereby avoiding bilateral negotiations which tend to get bogged down in minutiae.

By deploying the defense sequentially and unilaterally, the process can begin even without both sides agreeing on the value of its kill probability.

It can be implemented on an incremental basis consistent with the development of the technology itself, thereby minimizing the risks of misestimation of the kill probability and staying within the ABM Treaty.

It is not inimical to the strategic interests of the Soviet Union: witness its continuing efforts to upgrade air and missile-defense capabilities. If these characteristics of defense-protected build-down are real, there can be justified confidence that a transition to a defense-oriented world can take place without destabilizing consequences.

The build-down concept is not novel; it has been tabled at Geneva by the United States in connection with the Strategic Arms Reduction Talks (START).[6] Nor is the idea of substituting defense for offense new. Why, then, has the idea of a defense-protected build-down not been brought forth to date? We suggest three major reasons:

In this nuclear world of suspicion and hostility, the build-up of defensive capabilities is seen as a provocative act that negates the "assurances" derived from mutual destructive capabilities. Deployment of defense in any form is frequently rejected out of hand by policy-makers because it threatens the very basis for prevailing strategic doctrine. We believe that this total allegiance to mutual assured destruction (MAD) has taken us far beyond the bounds of reasonable or necessary actions to protect the country.

Those who have espoused defensive systems have, by and large, done so because their distrust of Soviet intentions has been so complete. Fortress America, regardless of the Soviet response, seems to have been an aim in this camp—and it is this camp which has dominated much of the analysis of defensive strategies. Reducing offense is regarded as giving the Soviets an advantage which they will surely exploit.

Most important, there remain grave questions about the technical and economic feasibility of ballistic-missile defense. Obviously, a defense-protected build-down strategy makes sense only if defensive systems are

technologically feasible. Yet it has been shown that a defensive system need not be perfect, or even close to perfect, to achieve a most important goal—reduction in the level of confrontation and therefore a lessening of the risk of the catastrophe that would befall all of us if deterrence failed. It should also be obvious that expensive ballistic-missile defense research and development efforts can be justified only if the eventual deployment would serve to diminish and not exacerbate the tensions of the arms race.

The enormus human and global risks and deficiencies in the U.S. strategic policy of mutual assured destruction have been evident for decades. but until now, national leaders have perceived no practical alternatives. It is imperative not only for our generation, but for generations to come, that such alternatives be found.●

THE BLACK-WHITE HEALTH GAP—THE DISPARITY WIDENS

HON. MICKEY LELAND

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. LELAND. Mr. Speaker, it is clear that Federal cutbacks in health, nutrition, and other programs have debilitated the general health of minority and impoverished Americans. I have seen the tragic results of these program cutbacks among my consitutents in Houston, as well as across the Nation. A health gap exists between black and white Americans, and it continues to widen. This situation is critical, and I call my colleague's attention to the following article which appeared in today's Washington Post—October 10, 1984.

Mr. Speaker, the usually insensitive Reagan administration was actually forced to recognize the problem when it issued its "Health USA" report on January 17, 1984. Their response? Secretary of Health and Human Services Margaret M. Heckler established a task force. I hope that the members of Secretary Heckler's task force will also read the following article; they stand to gain the most insight.

THE BLACK-WHITE HEALTH GAP

DISPARITY WIDENING, CONGRESSIONAL CAUCUS IS TOLD

(By Sandra R. Gregg)

While Americans, in general, are healthier today than they were 30 years ago, a large gap continues to exist between blacks and whites. The statistics are sobering:

A black baby is twice as likely as a white baby to die before its first birthday.

The life expectancy for a black person is 68 years, compared with 74 years for whites.

Black women are about 2½ times more likely to die from diabetes than white women.

Black men are seven times more likely to be murdered than white men and have a greater chance of dying of cancer and heart disease.

Some of the therapies used in treating patients are much less effective on blacks than whites.

Doctors and health activists grappled with the reasons behind these facts at a recent two-day meeting of the Congressional Black Caucus Health Braintrust. Speakers offered several explanations for why blacks are more susceptible than whites to certain unhealthy conditions: Blacks are more likely than whites to be poor, to have unhealthy diets and to live and work in undesirable conditions—which increases their stress level and limits their access to health care. Minorities are also more likely to live or work in places that expose them to carcinogens such as lead from car pollution or peeling paint.

Several speakers said the health gap between blacks and whites is widening and blamed it on funding cutbacks by the Reagan administration, including $2 billion from Aid to Families with Dependent Children (AFDC), and an 18 percent reduction in Maternal and Child Health funds. Others noted that many health resources have not reached those who needed help the most.

A major problem with current medical care, said psychiatrist Patricia A. Newton, of Baltimore's Provident Hospital, is that it focuses on "curing illness, not preventing it." For example, Newton said, funds have been poured into some communities to treat alcoholics and drug addicts, but not into studies and programs to address why certain miniority groups are more susceptible to these conditions or how the trend can be reversed.

Newton urged programs to address the full range of health, which she defined as "physical, emotional, social, political, cultural and economic well-being."

Stress, depression, anger and low self-esteem are particular problems in the black community where unemployment rates are double that for whites, said Lawrence Gary, director of the Institute of Urban Affairs and Research at Howard University. Studies demonstrate, he said, that these factors often result in higher rates of smoking, alcoholism, drug abuse, child abuse and homicide. In addition, mental health specialists report that while suicide has always been more common among whites, blacks—especially young men—have in recent years been taking their own lives more often. The suicide rate among black men increased from four per 100,000 in 1960 to 11 per 100,000 in 1981—a jump of 171 percent.

RACIAL COMPARISONS OF DEATH RATES FROM MAJOR CAUSES

[Number of deaths per 100,000 U.S. residents]

Cause of death	Black men	Black women	White men	White women
Heart disease	327	201	227	134
Cancer	229	129	160	107
Diabetes	17.7	22	9.5	8.7
Suicide	11.4	2.4	19	5.7
Homicide	71.9	13.7	10.9	3.2

Source: Department of Health and Human Services.

Some of the reported increase in disease rates among blacks "may be more apparent than real," as a result of better data collection in minority communities, said Dr. Alfred Haynes, dean of the Charles Drew Postgraduate Medical School in Los Angeles. He stressed, however, that "poor people are sicker than rich people regardless of race . . . Poor people are more likely to accept a certain level of illness as natural," he said, and may wait until they are seriously ill before seeking medical care.

But Dr. Jack White, director of the Howard University Cancer Center called the "late for treatment" argument a "cop out." In all stages of cancer, he noted, blacks tend to have lower survival rates because they are often battling other major diseases. Especially if they are poor, he said. "they just don't have the proper resistance."

Lung cancer is the most prevalent form of that disease among black men, he said, followed by prostate tumors. Breast and colon/rectal malignancies are increasing in the black population, although more research is needed to determine why. Studies implicate hectic life style, alcohol consumption and cigarette smoking. However, preliminary data from a Howard University study suggests an increase in prostate cancer among men with better nutrition and a more affluent life style.

In treating many diseases, therapy must be based on racial differences in response to medications, noted Dr. Mark S. Johnson, acting chairman of the Family Practice Department at Meharry Medical School in Tennessee. An example: beta blocker drugs that work well for white patients with high blood pressure are not nearly as successful in blacks. Just 10 years ago researchers discovered, he said, that hypertensive blacks respond better to diuretics—a group of drugs that work by reducing fluid retention, a condition particularly common among blacks.

Racial differences in response to treatment lead Johnson to advocate more studies geared specifically to blacks. "We cannot assume," he said, "that results from research using homogeneous samples can be generalized to the total population."

Several speakers addressed the most poignant example of programs and funds not reaching their target: the high infant morality rate—a statistic often used to measure the well-being of a particular group. Recent national figures show that 19 of every 1,000 black babies born in the U.S. die before their first birthday—nearly twice the rate for whites. In the District of Columbia in 1983, there were 20.1 deaths per 1,000 live birth among black babies, according to Alicia Fairley, an assistant to the city's health commissioner. The rate for whites: 8.6 per 1,000.

A large proportion of infant deaths among blacks, said Dr. Robert L. Johnson, a professor of pediatrics at the New Jersey School of Medicine, is a result of the high pregnancy rate among teen-agers who do not know how to care for themselves or their infants. Prenatal outreach programs for poor teenagers were working well in the late 1970s, he said, but cutbacks in the 1980s have meant more patients and fewer resources.

Consequently, Johnson said, "the pregnant 16-year-old needed (but could not get) more than a midwife visit. She needed someone to help her deal with the problems that led her to getting pregnant in the first place."●

A FINE PROLIFE STATEMENT

HON. MARY ROSE OAKAR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Ms. OAKAR. Mr. Speaker, I am proud of the Bishop of Cleveland, Bishop Anthony Pilla. In his pastoral message to his flock, he speaks strongly about all prolife issues. It is an encompassing message, and I am proud to have him as our spiritual leader.

The following is an article concerning his message.

PILLA URGES FIGHT FOR ALL LIFE ISSUES

(By Darrell Holland)

Catholics should be fighting as strongly against capital punishment, nuclear war and social injustice as they are against abortion, Bishop Anthony M. Pilla said last week.

Pilla, spiritual leader of the Cleveland diocese's one million Catholics, said that a just society encompassing concern for the dignity of all human life can only be achieved by focusing on all the issues and regarding them as threatening to the sacredness of life.

The statement, issued to encourage Catholics here to participate in the activities of Respect Life Month during October, was sent to the 257 parishes in the eight-county diocese.

For many people, both Catholics and non-Catholics, the concept of respect for life has focused almost exclusively on the abortion issue. Pilla reiterated the church's official position prohibiting abortion under any circumstances.

He made no mention of the abortion controversy in the presidental election campaign, which has focused primarily on Geraldine Ferraro, Democratic vice presidential candidate and a Roman Catholic. She opposes abortion personally but has said she does not want to force her religious beliefs upon those who disagree. Her position has displeased the archbishop of New York, where she lives.

Pilla said that to fully express the Catholic ideal of respect for all life and to establish a just society, no threat to human dignity or life can be ignored.

These issues of abortion, capital punishment, nuclear war and social injustice are interrelated, Pilla said. He called abortion one of the most significant moral issues of this century but he warned Catholics not to ignore the other issues.

"Without inner consistency, our credibility and effectiveness will be seriously compromised," he said.

"Your personal desire or success in one area of interest will be fatally compromised unless the consistency toward all other issues is clearly indicated. This consistency is needed in the first place, to build the consensus within the Catholic community which can then have an impact on the wider civic community."

Avoiding single-issue crusades on respect-for-life issues, and instead including all of them in a single effort to achieve justice and protect life, would be a significant step for a viable and vigorous Christianity and is more likely to have a moral impact on the way society thinks and on how the major institutions establish moral priorities, Pilla said.●

THE 85TH ANNIVERSARY OF ST. JOSEPH'S HOSPITAL

HON. RICHARD H. LEHMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. LEHMAN of California. Mr. Speaker, I rise today in recognition of the 85th anniversary of St. Joseph's Hospital—an institution that I am very proud to represent. St. Joseph's Hospital has a memorable history. Founded in 1899, by Father William O'Connor with the invaluable assistance of the founder of Stockton, Capt. Charles M. Weber, it has served the Stockton community with enthusiasm and ardor.

St. Joseph's Hospital is owned by the Sisters of St. Dominic and is governed by a community Board of Trustees. There are numerous individuals who have contributed to the great success of St. Joseph's: Thomas Shepard, the chairman; Sister Mary Gabriel, president; and Edward G. Schroeder, executive vice president; just to name a few.

The two most prominent and positive aspects attributable to St. Joseph's Hospital over the years has been their community responsiveness and their pioneering approach in the health field. St. Joseph's is the largest medical-surgical hospital between Sacramento and Fresno, having 316 beds, employing 360 physicians on staff, and serving individuals within a 60-mile radius. St. Joseph's has reacted superbly to the growth and needs of Stockton and the surrounding areas, and has become a regional center for heart care, cancer care, respiratory care, and trauma care.

I would like to take a minute to mention some of St. Joseph's distinguished achievements in the health field. St. Joseph's hospital pioneered a short-stay surgery center in 1978. This center added considerably to patient convenience as well as to help bring down health costs. In addition, St. Joseph's was the first hospital in Northern San Joaquin Valley to pioneer corinary angioplasty in February of this year. This procedure has been a viable alternative to open heart surgery in selected cases, having a 95-percent success rate.

I am proud of the achievements of St. Joseph's Hospital. In light of the advanced and innovative technological trends in the health industry and the skyrocketing costs of health care, St. Joseph's Hospital has displayed their ability to come up with cost-effective approaches to delivering quality health care. I have had the fortunate opportunity to meet with Mr. Schroeder and other members of the St. Joseph staff, and was truly impressed with their dedication in advancing the cause of quality health care to all individuals.●

YOU WERE WRONG, MR. PRESIDENT

HON. AUGUSTUS F. HAWKINS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. HAWKINS. Mr. Speaker, a recent editorial by the Charlotte Observer comments on the President Reagan's recent visit to Charlotte, and his unfortunate remarks relative to school integration. It is precisely these remarks that only serve to divide and alienate our citizens from each other and exacerbate tensions unnecessarily. The following editorial spells out why Mr. President, you were wrong.

The editorial follows:

YOU WERE WRONG, MR. PRESIDENT

Thank you, Mr. President, for honoring our city with your presence Monday. It was a very special day for Charlotte, and all of us were proud to have you here.

There is one thing, however, that you need to know about this community—something you obviously didn't know when you made your speech on Monday.

Charlotte-Mecklenburg's proudest achievement of the past 20 years is not the city's impressive new skyline or its strong, growing economy. Its proudest achievement is its fully integrated public school system.

That system was born out of a bitter controversy over court-ordered busing. It was shaped by caring citizens who refused to see their schools and their community torn apart by racial conflict. It was nourished by courageous elected officials, creative school administrators and dedicated teachers and parents. It has blossomed into one of the nation's finest, recognized throughout the United States for quality, innovation and, most of all, for overcoming the most difficult challenge American public education has ever faced.

It would have been quite appropriate and very much appreciated if you had noted that accomplishment, which any president might hold up as a model to the rest of the country.

Instead, you said something quite different, an unwelcome reminder of some ugly emotions and unfounded fears that this community confronted and conquered more than a decade ago. Busing, you said, "takes innocent children out of the neighborhood school and makes them pawns in a social experiment that nobody wants." And you added: "We've found out it failed."

Where did you find that out, Mr. President? From Jesse Helms? If you had talked to some of the good Republicans here you would have found that many of them are very proud of their public schools and would fight anyone—even you—who tried to destroy what this community has accomplished.

Maybe we shouldn't expect you to know a great deal about Charlotte-Mecklenburg and its public schools. But, with all due respect, Mr. President, you flaunted your ignorance, and if you had set out deliberately to upset the people of the community you couldn't have come up with a more disturbing statement.

Until that point in your speech, you had been interrupted by applause from a supportive, partisan crowd after almost every line you uttered. Maybe you noticed that your comment about busing was greeted with chilly silence.

In fact, the statement must have sent a chill through many of your supporters here, not just because of the possible political embarrassment to you, but also because, in a second term, through your influence and the appointment of several Supreme Court justices, you might force this community to dismantle its integrated school system. That would be a tragedy for those who have invested so much hard work, good will and

loving care in building it, and for future generations of our children.

You sometimes speak of a "shining city on a hill," Mr. President. You visited one briefly on Monday, but you didn't understand, or seem to care, what makes it shine.●

THE REAGAN ADMINISTRATION'S RECORD ON WOMEN'S ISSUES

HON. ROBERT J. MRAZEK

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 4, 1984

● Mr. MRAZEK. Mr. Speaker, I rise today to recognize the accomplishments attained in the 98th Congress on key initiatives of special concern to women.

Over the past 2 years, I have lobbied and supported important initiatives which endorse the notion that laws in this country should treat women equitably. I am pleased to acknowledge that a number of these bills, including the Child Support Enforcement Act, the Retirement Equity Act, and a bill granting tax-exempt status to dependent care facilities, passed both Houses and have been signed into law. However, while we have met with a number of important successes, we have been confronted with a great many failures.

It gives me no pleasure to point a finger of blame for these shortcomings. However, it is difficult to stand idly by when it is clear that the administration's positions on women's issues have worked against the goals of many of these initiatives. In particular, the administration's stance clearly contributed to a failure to move forward on the issues of child care and educational equity.

Over the past 4 years, the administration has consistently proposed drastic cuts in the title XX social services block grant. This block grant is vitally important to women and children, as title XX moneys are used to fund daycare services for the children of working mothers. With greater numbers of women entering the workforce out of necessity, this program has played a critical role in assisting women in getting adequate care for their small children. For the administration to adopt this position in our times is to avoid the reality, and to be negligent in its responsibility to all the people.

Another matter on which the administration has attempted to turn back the clock on equality between the sexes is on an issue that I'm sure is familiar to all of us. The Civil Rights Act of 1984 reaffirmed the intent of Congress in enacting title IX of the Education Amendments of 1972. These amendments held that an institution receiving Federal aid may not discriminate on the basis of sex. The bill was introduced in response to the Supreme Court ruling in Grove City against Bell which held that title IX need only apply to education programs that directly receive Federal dollars and not to the entire institution. The Justice Department, under direction of the administration, advocated the position of narrowing the interpretation.

Over the years enforcement of title IX has contributed to invaluable gains by women while, at the same time, negating basic injustices in our public education system. For example, since the enactment of title IX in 1972, the share of professional degrees earned by women has quadrupled. In addition, the large number of gold medals won by women athletes in the Summer Olympics can clearly be traced to the enforcement of equality in school athletic programs through title IX.

While debate raged on this matter, the Reagan administration sat on its hands. Subsequently, the bill died in Senate. The same administration which, with great fanfare, appointed one woman to the Supreme Court, could not bring itself to further the cause of equality to all women.

Mr. Speaker, these are but two examples that show the true colors of this administration in regard to matters of sexual discrimination and true equality in our society. It is one thing to say that you support equality for women. It is quite another to work toward that goal.●

THE FRENCH NUCLEAR EXPERIENCE

HON. DAN MICA

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. MICA. Mr. Speaker, it is always useful to shed facts on hotly debated issues. Two current issues involve the viability of nuclear power and the connection, if any, between reprocessing of commercial nuclear fuel and the potential proliferation of nuclear weapons.

Useful facts which I think bear on both issues appear in an interview in the July–August edition of the Electric Power Research Institute Journal with Bertrand Barré, nuclear attaché at the French Embassy in Washington. Barré recounts the French experience with nuclear power and the motivation for its development. The interview is neither argumentative nor is it a polemic for or against any aspects of nuclear issues. We in this country, where nuclear issues are too often debated with more vehemence than wisdom, can learn something from the French experience.

The material follows:

THE FRENCH NUCLEAR EXPERIENCE

Bertrand Barré, nuclear attaché at the French Embassy in Washington, DC, joined the French Atomic Energy Commission in 1967. With a background in nuclear engineering, Barré has worked extensively with materials and reactor design. He spent two years in Great Britain collaborating on the Dragon project and a year in San Diego working on high-temperature reactors. In 1976 Barré became technical adviser to Michael Pecqueur, deputy chairman of the French Atomic Energy Commission; when Pecqueur became chairman of the commission in 1978, Barré remained as his technical adviser. Barré joined the embassy in Washington in September 1980.

What role do you play at the embassy as nuclear attaché?

As nuclear attaché I wear four different hats. I am an adviser to the ambassador, and as such, I work mainly on nonproliferation as a liaison to the U.S. State Department. I am the representative of the French nuclear industry in this country; in this capacity, I serve as liaison to the Department of Energy and the Nuclear Regulatory Commission. I am also here as an observer, and I report back to France on the nuclear scene in this country. My fourth role is as spokesman for the French government and industry as far as nuclear energy is concerned. From time to time I speak at universities or attend meetings, and I supply all the information available on the French nuclear program to anyone who asks.

What is the current energy situation in France?

To answer that question I would have to go back and start with the situation as it was in 1973. At that time we were using oil for about 68% of our total energy balance, and 98% of this oil was imported. We also imported about half of our coal and two-thirds of our natural gas. We had a sizable hydroelectric program, but most of the sites were equipped or in the process of being equipped. There was little potential for increased energy from hydroelectric power.

The French nuclear program was still embryonic in 1973. France stated its atomic energy program rather early—the Atomic Energy Commission was established in 1945. In 1946 all the utilities of the country were united and nationalized to form one big utility, Electricité de France [EDF]. EDF covers the whole country and has a monopoly on distribution and transmission; it produces 80% of all electric generation in France. By 1973 EDF had achieved a very extensive program of engineering in hydroelectric projects, so there were teams of engineers in-house who were quite competent in managing big projects. This was an important factor in the development of nuclear energy.

Before the first OPEC meeting in 1971, oil was $1.70 a barrel; by 1975 it was $13 a barrel. It was suddenly obvious that our dependence on oil was simply unbearable. We had become much too vulnerable, particularly to cutoffs, and we couldn't afford the new price of oil without severe strain on the nation's economy.

WHAT OPTIONS DID THE FRENCH GOVERNMENT HAVE AT THAT TIME?

To reduce oil imports, we had three choices. First, we could boost domestic oil production, which is what you did in this country. However, this was not really an option for us. Our reserves are ridiculously low. We were producing all that we could, and that wasn't very much.

Our second choice was, of course, to conserve oil. Energy became much more expensive almost overnight, so there was a big in-

centive to conserve. We were, however, already quite thrifty as far as energy consumption was concerned because France has a historical record of high energy prices. At that time, we were consuming energy at a level of 3.5 tons of oil equivalent per capita a year. To give you an idea of what this means, Americans were consuming at a rate of 8.5 tons of oil equivalent per capita. So in France there was much less fat to be trimmed. There was a limit to what we could achieve without going from conservation to starvation.

Our third policy option was to switch fuel, but this brings us back to the original problem. Boosting domestic coal production was technologically possible, but economically very difficult. Coal from Australia, coming in through French ports, was still cheaper than French coal. We did, however, manage to diversify a bit by importing coal from countries other than those from which we were importing oil. We were importing two-thirds of our natural gas, and our main supplier, the Netherlands, indicated that it would be decreasing rather than increasing exports because its resources were dwindling. Our hydro program, as I said, offered little potential for increase, and renewables, though a long-term prospect, have long lead times before they can offer any significant input. On the other hand, we had the background and experience to launch a crash program in nuclear energy, and this is what we did. At the end of 1974 the government decided to increase roughly four times the pace of the nuclear construction program that was already under way.

How successful was this accelerated program in nuclear energy?

In 1973 nuclear energy accounted for less than 2% of France's primary energy consumption; it has now reached 17%. Oil, which was at 69% in 1973, has been reduced to 47% of total energy consumption—a decrease we hope to push to less than 30% by 1990. At that time use of nuclear energy will be on a par with oil. In terms of electricity production, nuclear was supplying only 8% in 1973, while oil was supplying 75%. To show you that our crash program didn't achieve results quickly, in 1977 nuclear still accounted for only 8.4% of electric generation. In 1983, however, nuclear accounted for 48% of electric generation, and this year it will produce more than 55%. There is a high likelihood that by 1990, we will have reached our goal to make the nation's electric grid invulnerable to cutoffs from any foreign supplier.

The rate of our increased use of nuclear power has been unique, even if you look at other countries with the same incentives for nuclear power that we had, such as Italy and Japan. In 1976 France ranked eighth in terms of nuclear energy production; in 1983 we ranked second behind the United States, although the United States is geographically much larger. We have outdistanced Japan and the Soviet Union; we produced twice as much nuclear energy as Germany and three times more than Great Britain. Frances' program is a unique phenomenon worldwide.

How do you explain this unique success?

There is no single reason, but rather a convergence of reasons. First, the incentive was there. We were heavily dependent on foreign oil, and there seemed a national will to do something about that dependence. France also experienced an oil embargo in 1956, after the Suez expedition, so maybe there were still nagging reminders that we were vulnerable, which added a psychological pressure to the situation.

Second, we had a single utility that was able to be its own architect-engineer and to manage projects of this large scope. At that time the nuclear industry was still rather limited; we had only eight reactors in operation, the largest only 550 MW, but we did have the experience. Also, in 1973 we had complete mastery of the fuel cycle—we even had a breeder reactor in operation. The Phénix plant had become critical in the spring of 1973. The AEC had considerable experience in all areas of nuclear energy. So there was a sound infrastructure ready to go.

The third important step was that instead of shopping around, we decided to focus on one kind of reactor—the pressurized water reactor (PWR)—built by one supplier, Framatome, which has a license from Westinghouse Electric Corp. We decided to order a number of identical 900-MW units and to increase the size to 1300 MW later on. Currently; there are twenty-seven 900-MW reactors in operation and 7 under construction. The first 1300-MW reactor should go critical very soon, and there are 19 others under construction. We are just now ordering the next batch of units, which will be slightly over 1400 MW. The policy of ordering by batch of identical units was probably the main reason for our success.

What are the benefits of such standardization?

The policy of ordering identical units has a number of attractive features; it also has some drawbacks that I will discuss as well. By its large orders, EDF enabled Framatome to build new facilities, knowing that it would have a reasonable numbers of orders for many years. This gave Framatome a total manufacturing capacity of eight 900-MW units a year of five 1300-MW units which was consistent with the rate of ordering six domestic units a year and two for export. Also, by being such a big customer, EDF could control prices quite strictly. In addition, there is only one French supplier of turbogenerators, Alsthom-Atlantique. The same factors apply here as well—Alsthom-Atlantique could modernize equipment, and EDF could control price.

As far as plant construction was concerned, EDF already had a special division in operation for all the engineering and management aspects of the program. Its staff applied the same competence and dynamism to the nuclear program as they had applied to the hydro program. The first 900-MW unit, Fessenheim I, took 80 months to build; the average time now for a unit of this size is only 60 months—just five years—which is not much time for a project of this size. Standardizing our nuclear program also made the licensing process much easier. Once the original plant had been licensed, the licensing process could focus attention on site characteristics and minor departures from the standard design at each subsequent plant. This made it much easier for the licensing commission to deliver on time. I hear many complaints about the U.S. Nuclear Regulatory Commission, but I tend to sympathize with the problem of having to license 78 different reactors. Up to now, there have not been two identical units anywhere in the United States, and this does create licensing problems.

By standardizing our program we also minimized training problems for nuclear personnel. In France, personnel can be switched from one plant to another, and they will find the same control room and the same procedures. In case of emergencies, this is very valuable. If one plant is in trouble, we can run simulations in a number of other plants, and we can send experienced engineers from one plant to another. Having only one supplier and a strong utility able to control prices has made nuclear energy in France by far the cheapest way to generate baseload electricity. It is 50% cheaper than coal and three times cheaper than oil.

There is, of course, a negative side to ordering a number of identical units. We make ourselves vulnerable to a common-mode failure. If one large failure occurs, 30 units would be affected. That was the initial gamble. By now we know for sure that these plants can operate at least six years without serious problems. So we are not as vulnerable as it initially appeared. We did, in fact, experience one of these common-mode problems. It followed the pattern of developing in our oldest plant and spreading to other plants. We were able, however, to take preventative action on those remaining plants at each of the refueling and maintenance outages that followed. If we experience any such problem in the future, we will have sufficient advance warning to take preventative measures in other plants and sufficient backup plants to ensure reliable service.

What about public sentiment on nuclear power?

There has always been majority support here for the nuclear option because it was consistently presented by the different governments over the years as the best option to reduce our dependence on foreign oil. This part of the message was always clear. There also has always been a strong minority opposing nuclear power. In October of 1983, however, a survey carried out in all 10 countries of the European community showed that support for nuclear power is strongest in those countries, like France, with the biggest nuclear programs. The fear of nuclear power is also lowest in the same countries. The evidence is somewhat hard to interpret—it's a chicken-and-egg situation. Has nuclear power developed in countries that fear it less or because people accustomed to seeing nuclear plants fear them less? I'm not sure which is true, but the results of the survey are still a fact. The same survey was taken two years before, and comparisons show that support has grown and fear decreased over those two years.

The current trend in France is growing support of nuclear energy. A related survey showed the French people still thought there might be an energy crisis looming in the future. There you have the main basis for support of nuclear power—not all people like it, but most think nuclear energy is better than an energy crisis.

As far as organized opposition is concerned there is a major difference between protests in France and in this country. In France the protest concerned additions to the nuclear program; the opposition has never asked for shutting down existing plants or even for stopping construction on plants already underway. There was protest over opening new sites, and even today the opening of new sites is always a hard process. However, putting a new plant in the same site is not a big problem. Once a site is opened and the plant in operation, there is very little protest. A striking example of this is the Superphénix breeder reactor, which was the focus of strong protest. Opposition went far beyond the French borders; it was really European opposition. Since 1977, however; there hasn't been one significant protest at the site. The plant should go critical in 1985, and there have

been no more problems with public acceptance. La Hague, our reprocessing plant, is still the stage for some protests. However, the massive protests involving local opposition have died down; what we have now I would call professional protesters.

What are the licensing and regulatory processes in France?

The licensing processes in France are very close to those in the States with one basic departure. Contrary to what you may have read from time to time, we do not have one-step licensing; this is a misconception. What we do have is only one step of public participation at the very early stage of site approval. Once the site has been authorized, there is no longer the possibility of public participation. There is always the possibility of going to court, but otherwise, the public is no longer part of the actual process.

The actual licensing process is carried out in exactly the same way as in the United States, but within the licensing body. The licensing body is part of the executive branch and reports directly to the Minister of Industry and Research. In the United States, utilities have to issue a preliminary safety report, apply for a construction permit, show a final safety report, and receive an operating license. The process is exactly the same in France. One of the differences, of course, is that it is easier to make the safety report if you are licensing a plant that is identical to all the other plants. This speeds up the licensing process, as well as any subsequent retrofit that might be required.

As far as the regulatory aspects are concerned, there is a much less antagonistic relationship between the utility and the regulators than exists in this country. For example, for those retrofits considered necessary but not urgent, the regulatory body has authorized the utility to wait until the next planned outage rather than ordering shutdowns.

What is the current status of your breeder program? France began breeder studies in 1953, and our first reactor, Rapsodie, was in operation in 1967. Originally a 24-MW (th) reactor and later boosted to 40 MW, Rapsodie was a test reactor; we used it to develop fuel for other reactors and for a number of other studies. It was shut down last year, having outlived its usefulness. The second step, and one of the most successful, was the Phénix plant, a 250-MW (e) plant that went critical in July 1973. Phénix was built in five years and within budget—quite an achievement. It incorporates all the basic features of French design: liquid sodium cooling, mixed oxide fuel, and a pool-type design. With the pool-type design, inside the pool you have not only the core but also the primary system, together with its components, pumps, and heat exchangers.

The Phénix rector was proof of the system. It has been operating very well since 1973 and has generated over 12.5 billion [10^9] kWh. For a reactor this size, it has a load factor comparable to most routine PWRs and BWRs. In addition, we have had some very interesting incidents concerning the Phénix, which were to be expected as part of its experimental nature. These incidents involved the primary heat exchanger and steam generators and at times provoked down periods of up to a year. These are significant periods, but we have gained a lot of confidence in the system because we found that we could master such incidents without lasting consequences.

One of the things that amazes most people is that sodium is so completely noncorrosive. You can remove equipment that has been operating near the core for five years, and it looks brand new. It is also easy to decontaminate. After washing away the sodium, you can put your hand on the primary heat exchanger, and the radiation level is only about 100 mr/h. This is quite an important statistic if you want to replace a generator. Radiation dosages to maintenance and operating crews are amazingly low, more than one order of magnitude below the doses of operating a standard water reactor. So, even from an operational point of view, it is a reactor that the nuclear personnel like. But it is expensive.

The Phénix was not of commercial size, so the next step is Superphénix, which has been built at Creys-Malville. Initial testing of this new facility is already under way, and because it is a one-of-a-kind operation, these tests will be rather extensive. Superphénix is a multinational venture: it is owned by a company called Nersa, 51% of which is owned by EDF, 33% by the national utility of Italy, and 16% by SKB, which is mostly German. Superphénix is 1200 MW (e), and we hope it will be the proof of complete technical feasibility for a commercial breeder. It will not be proof of commercial feasibility because it, too, will be expensive. Electricity generated by Superphénix will be about twice the cost of electricity generated by traditional PWRs. So it might be more expensive than coal, although it will certainly be less expensive than oil.

Just recently, you may have read, there have been a number of agreements among European countries concerning breeder reactors. In particular, there has been a special agreement between EDF and the Central Electricity Generating Board, so the British are now part of this European operation. It is anticipated that the British will have an ownership in Superphénix II, or whatever it is called at the time it is available for orders. This will not take place until after one year of successful Superphénix I operation to make sure that none of the options we took were problems.

Your breeder program is in keeping with your general philosophy of controlling the fuel cycle, correct?

Yes, controlling the fuel cycle is a very important part of the story. In the United States antinuclear forces sometimes have a very easy argument that although you are building reactors, the fuel cycle is not following at the same pace. This is not so true in France.

In France we switched to LWRs only when we were sure that we were mastering the enrichment because we didn't want to be dependent on anyone for a vital part of the fuel cycle. About half of our uranium is mined in France. Our resources amount to about 120,000 tons, and probable reserves amount to about 200,000 tons. This is not big compared with American reserves, but it is very big by European standards. These resources give us long-term security; we can always increase production in time of need. On a routine basis, we rely on imports for the other half of our uranium needs, mostly from Africa. However, our full mining capacity in France means that we could afford a cutoff of all uranium imports for 10 years with no adverse effect on power.

We started with a gas-cooled reactor, as did the British. With this type of reactor, the spent fuel cannot be stored in pools for very long. Reprocessing was not optional. We had to reprocess the fuel once it was unloaded from the reactor. So, before we even embarked on LWRs, we already had sizable experience with reprocessing. We are now expanding the reprocessing plant at La Hague to a capacity of 1600 tons per year by 1990. Some of this capacity which is far beyond our needs, will be contracted to provide reprocessing service to 33 utilities in seven countries. Ultimately, such a capacity will be able to accommodate the full French program for quite a time. This reflects the coherence of our policy; we have not let this part of the fuel cycle fall behind.

Also, we have been able to partly answer the most nagging question that nuclear developers ask, what do we do with the waste? We reprocess to recover what is useful, and we vitrify the actual waste. The optimal timeframe to reprocess is about four years after the shutdown of the reactor, and the optimal timeframe to vitrify is about seven years after shutdown. We have had a vitrification plant in operation at Marcoule since June 1978, and it has been very successful. We are building two similar units at La Hague; the first should be in operation by 1986 to begin vitrifying the backlog there. The capacity of these two new vitrifying units will be able to accommodate the output of the reprocessing plant with a sizable safety margin.

We have begun some preliminary geologic screening for permanent underground disposal areas, but we have not made any serious decisions in this area. So, what we do not have yet is the last stage, a disposal site for high-level nuclear waste. However, there is no big hurry to find a site. Once you vitrify, very little can happen to the waste.

What is the current focus of research and design in the French nuclear industry?

One thing that we have worked on is the Thermos reactor. Thermos was an attempt to use nuclear power in an area besides electric generation; it was specifically designed for district heating. At present, although we have made a completely detailed design, we have not found a customer. It is only marginally economical. In France there is only one district heating system; that is in Paris. However, the Paris system uses dry steam, while the Thermos reactor generates hot water. To make Thermos economical, we would have to finance the reactors and also find an appropriate district heating network. This hasn't been possible up to now, but the Thermos is on the shelf and we'll have it when we need it.

More active studies currently involve small- and medium-size PWRs with a view to possible export to less-developed countries. But it is fair to say that the main thrust of our research and development is in two main areas: the breeder program and improving the large PWRs.

Having observed the nuclear industry in this country, what advice would you offer to improve our nuclear options for the present and the future?

It is difficult to advise on such an issue. Some of the things that have been beneficial in France are really not relevant in the United States. For instance, you couldn't have only one utility; the United States is far too big for that. However, having 3000 utilities doesn't help the situation.

You do not need 80 different types of reactors. The trend is to standardize; and I can only add my support for this trend. Standardization makes it much easier for licensing plants and helps to cut costs. Maybe the United States is big enough to have more than one reactor design, but certainly not more than one per vendor. The tendency of utilities to shop around and bid for the least price is probably not the best way to

achieve reliability in the nuclear industry. I also think that the United States should have sites authorized in advance, before utilities start spending dollars on construction. The notion of a site bank is very good. That is what EDF does; we have sites ready today and until the end of 1987. The United States does need some licensing reform and I believe that we will see this reform take place in the near future.●

SCHOOLS THAT WORK

HON. AUGUSTUS F. HAWKINS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. HAWKINS. Mr. Speaker, we hear so much criticism these days about the quality of education in our public schools. Unfortunately by being overly immersed in negativism, we overlook the fact that there are a large number of public schools that have been largely successful in raising student test scores and overall school morale. I have addressed these new and creative school improvement strategies in H.R. 4731, the Effective Schools Development in Education Act.

In a recent Los Angeles Times editorial, a number of successful public schools are identified. Two of these schools, Huntington Park High School and Washington Preparatory School (formerly Washington High), are among these highly rated schools. Their success is evidence that there are many things schools can do to improve student achievement and behavior. I would like to submit the editorial "Efforts Pay Off" for the RECORD.

EFFORTS PAY OFF

High schools that do best at putting their graduates in college generally are those whose students' families have a tradition of attending college and the ability to pay the tuition. That's obvious. But the records of other schools—often in less affluent neighborhoods—confirm another obvious point: that good principals, strong counseling programs and teachers who believe their students can do the work can in fact produce students who can do the work. That conclusion is borne out in statistics on enrollment at the University of California and California State University.

No one is surprised, for example, that the area schools that sent the most graduates to UC campuses in the fall of 1982 were Beverly Hills High School, University High School in West Los Angeles, Palisades High School in Pacific Palisades, Santa Monica High School, Rolling Hills High School, Taft in Woodland Hills, Palos Verdes High School and University High School in Irvine.

But there are others in inner-city areas, sections of the city heavily populated by recent immigrants, or blue-collar neighborhoods that defy expectations and produce UC and Cal State students as well. Consider these examples culled by Times reporters from state university statistics:

Carson High School sent four times as many of its students to the state's public universities one year as did Redondo Union High School. Belmont, Crenshaw, Dorsey, Garfield and Roosevelt—all inner-city schools—sent more students into the UC system than did some schools in the southeast area of the county. Carson, for example, has counselors like Vallory Wachter who stress the importance of college.

On the surface, few students at Huntington Park High School might be expected to go to college because their families are on welfare or speak little or no English. Yet that high school is about average compared to other schools in terms of how many students it sends to college and how they fare once they get to campus.

One reason is that Principal Marjorie O'Hanlon sees to it that her staff knows that its "biggest job is to help these young people believe in themselves." For example, Martha Valencia had no clear plans on what she wanted to do after high school graduation although she had a good grade-point average at Huntington High, was senior class secretary and recipient of a Rotary Club school service award. Her counselor steered her toward college, where she is now a sophomore majoring in computer science.

Two years ago, Washington High School in South-Central Los Angeles changed its name to Washington Preparatory School and emphasized academic preparation. College attendance by its graduates increased from 60% in 1982 to 81% this year.

Of course, there is no way to judge strictly from the statistics how well local high schools are doing in preparing their graduates for college. But the figures do help focus on schools where someone is doing something right—where there are enthusiastic counselors with high expectations for their students, no matter what their economic backgrounds, and where there are special programs that stress academic preparation and try to cut dropout rates. Increased cooperation between the public schools and the universities cannot fail to help improve the ability of both to produce better students.●

TAX EQUITY AND EFFICIENCY ACT

HON. JAMES M. SHANNON

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. SHANNON. Mr. Speaker, if there is one thing that every Member of Congress can agree on, it is that our tax system is a mess. On all of the standards that we use to judge tax laws—equity, efficiency, and simplicity—it fails miserably. Our tax system is unfair. It is inefficient. And to mention simplicity and the Internal Revenue Code in the same breath is laughable. Of all the issues I have been involved in over the past 6 years, reforming the tax system is one of the most important, and one on which I have worked the hardest. The reason is simple: The way we structure our tax system affects in some way every person in this country.

It is not hard to discern the reasons why the system fails to meet these basic standards. Although the progressive rate structure was supposed to provide equity, the progressivity of the system has been seriously eroded by the ability of big corporations and those in the upper brackets to use loopholes in the tax laws to greatly lessen their tax liability. Efficiency has been sacrificed to a whole series of provisions that make some kinds of investment more attractive than others and lessen the revenue-raising power of the system. And every new tax bill we pass seems to make the system a little more complex.

These problems have greatly increased over the past few years. In 1981, at the administration's behest, we passed the Economic Recovery Tax Act. This bill made the tax system much less fair and much less efficient. It granted huge tax cuts that, while conferring some benefits on middle-income taxpayers, gave the biggest breaks to the wealthy. It created the accelerated cost recovery system [ACRS] which was practically a Government subsidy for business investment and reduced still further the already ridiculously low share of Federal revenue contributed by the corporate tax. We then went on to pass the Tax Equity and Fiscal Responsibility Act in 1982, and the Deficit Reduction Act this year. These bills did restore some of the fairness and efficiency to the system, but at a cost of still more complexity in the tax laws.

Many of the proposals that have been offered to deal with these problems have aimed at a total restructuring of the tax system—a flat tax, for example; or a tax with flattened rates; or a consumption tax. I have some problems with each of these proposals and am skeptical of their ability to win passage. However, I do think it is possible to make some major changes in the tax laws that would significantly increase both their equity and their efficiency. Today I am introducing legislation, the Tax Equity and Efficiency Act, that would make two such changes.

First of all, the TEEA would replace ACRS with a first-year capital cost recovery system. This is a system that I advocated back in 1981, along with several respected analysts, and that we came close to approving at that time. Under this system, every capital asset would be assigned to one of 35 classes. When a company invests in an asset, rather than spread out the cost over a certain number of years, it would deduct in the year the asset is purchased the present value of economic depreciation—that is, the cost of the asset discounted by the value of receiving the full cost recovery allowance in the first year, rather than spread out over its economic life. The present value of economic depreciation is determined for each class of assets through a formula based upon the average useful life of those assets. The system also replaces the current in-

vestment tax credits with a first-year investment tax credit that is tied in with the first-year recovery allowance to produce an effective tax rate of 40 percent for investment in each and every type of asset. Thus, the widely varying treatment of different types of investment and the ridiculously low tax rates produced by investment in certain assets that we have seen under ACRS would be eliminated, and the tax system would be more neutral in its treatment of investment. In a few years, once the system has been fully implemented, it should bring in substantially more revenue that the current ACRS system.

The second part of my proposal is the integration of the corporate tax with the personal income tax. Under my plan, both corporate income and corporate taxes would be allocated among the shareholders in proportion to their stock ownership. Each shareholder would have attributed to him as income both dividends actually received, as under current law, and his pro rata share of retained earnings; and the shareholder would be taxed at that income at his own tax rate. Individuals would receive a credit for their pro rata share of taxes paid by the corporation at the corporate rate; corporate shareholders could not receive this credit but would flow it through to their own shareholders. In order to deal with the logistical problems involved in computing and allocating corporate earnings, especially when corporate holders of stock are involved, the shareholder would not be deemed to have received his share of retained earnings until 9 months after the taxable year in which they were earned by the corporation. Thus, if a corporation were operating on a calendar year basis, its shareholders would not be deemed to have received their share of the corporation's undistributed 1985 earnings until September 1986.

In order to avoid double taxation when dividends are actually distributed any dividends would be deemed to have been made first out of current year, untaxed earnings and profits, and then out of previously taxed income, which would be recorded in a separate account. Amounts distributed out of previously taxed income would be excluded from the recipient's taxable income, and the previously taxed income account would be reduced accordingly.

Upon sale or transfer of corporate stock, the shareholder would pay capital gains tax, as under current law. However, the basis for the stock would be stepped up to include accumulated earnings on which tax had already been paid. Thus, the corporate income tax would become essentially a withholding device for taxes on dividends and accumulated earnings. In addition, this measure would help resolve the lock-in problem—for example, the ability of asset holders to accumulate substantial increases in wealth without paying tax on them until disposing of the asset—that has been a disturbing element in capital gains taxation. Over a period of several years, accumulated earnings provide a close approximation of capital gains, excluding inflation; and thus taxing these earnings is similar to taxing the appreciation of capital gains, adjusted for inflation.

In short, the proposals I am offering, while not completely restructuring the Tax Code, would make significant changes in two parts of it that have been at the heart of many complaints about unfairness and inefficiency in the current system. It will do away with the wasteful and inequitable ACRS system and replace it with one that will treat every corporation equally and not allow any corporation to reduce its tax liability through tax-motivated investments in equipment. It will reform the way that corporations and their shareholders are taxed on their income so that wealthy stockholders can no longer benefit from large accumulations of untaxed earnings. By doing these things, it will lead to a tax system that is more fair, more efficient, and, yes, even a little more simple to work with. I hope that it can be given serious consideration when Congress gets down to the nuts and bolts of tax reform.●

A TRIBUTE TO CONGRESS' FINEST SUBCOMMITTEE STAFF

HON. RICHARD L. OTTINGER
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. OTTINGER. Mr. Speaker, for the past 4 years I have been extremely fortunate to hold the position of chairman of the Energy Conservation and Power Subcommittee of the Energy and Commerce Committee. Not only have I enjoyed working with a talented and able group of my colleagues, but I have had the good fortune to have had an outstanding staff. As my career in Congress and my associated responsibilities as chairman draw to a close I would like to take a moment to thank the staff of the subcommittee for their fine work. Their standards of excellence, diligence, and dedication helped keep those vitally important issues within the subcommittee's energy jurisdiction alive and as well as could be expected under the current administration. The consistently high level of subcommittee work ensured that the strides made in energy policy over the past decade were not rejected or repealed and established a policy framework for the inevitable resource challenges of the future. I can say without hesitation that it is one of the finest committee staffs ever assembled.

I must give most of the credit to my friend and staff director, Mike McCabe. Mike first worked for me when I pulled him away from his position as legislative assistant to Senator GARY HART to run the Environmental Study Conference. In short order he expanded the Study Conference to serve the Senate and attracted enough new members to make it the largest legislative service organization in Congress; 4 years ago I asked Mike to apply his exceptional administrative ability and keen political judgment to the new subcommittee where he crafted an aggressive agenda to preserve the balanced bipartisan energy policies of past Congresses and mold new approaches to address current conditions. Mike put together a staff and created an office environment which produced the most productive, resourceful, and effective subcommittee in Congress.

Chief counsel Dave Schooler has served as the subcommittee's parliamentary strategist with one of the best minds on how this institution works that I have ever seen. Dave's intimate knowledge of the issues and energy law, as well as his insight into parliamentary procedure, made him an indispensable collaborator on all subcommittee business. This was first fully demonstrated in his work on the Omnibus Budget Reconciliation Act of 1981 when the first Department of Energy authorization was passed. His exceptional ability was also a key factor in moving the highly complicated and contentious Nuclear Waste Policy Act of 1982 through committee and on to eventual passage.

Over the past 4 years Sarah Glazer has served as the subcommittee's principal expert on the many important energy conservation programs that have been under attack by this administration. This hostile environment was quite different from her work for me in the Science and Technology Committee during the last 2 years of the Carter administration when these issues still held executive branch favor. However, whether it was the low-income weatherization program, the automobile fuel-efficiency standards or the residential conservation service, Sarah was able to deftly resolve complicated problems and turn political opposition into support for the goals and objectives of these vital energy conservation policies.

Bruce Driver is the subcommittee's superb counsel on utility issues and I have yet to meet anyone who has a better understanding of the complex and arcane world of utility regulation. Out of his comprehensive, indeed encyclopedic knowledge of these matters he has been able to develop some of the most creative and innovative ap-

proaches to utility policy to be proposed. He laid the substantive groundwork for cost-effective, least-cost electric utility policy, when others were still grappling with the theoretical concepts of this new approach. This was best reflected in the work he did on construction work in progress legislation, hydroelectric relicensing, and the extremely creative regional power planning bill.

Jeanine Hull, counsel on nuclear issues, has made a major contribution in unravelling the mysteries of the Department of Energy's largest energy expenditure—the Uranium Enrichment Program. Her efforts may ultimately result in billions of dollars being saved rather than wasted by investment in unneeded and outdated enrichment technologies. This same thoroughness and preparation made an important mark on the subcommittee's consideration of the Nuclear Waste Policy Act. Jeanine's recent work with subcommittee minority staff on nuclear licensing reforms promises to provide valuable new direction on this difficult issue.

Jerry Brubaker has been the subcommittee's expert on international nuclear nonproliferation issues. His understanding of the intricacies of the nuclear fuel-cycle and its effects on our economy and national security is unparalleled. Jerry's hard work and analysis was the single most important staff contribution to the termination of the uneconomical Clinch River breeder reactor project. These skills were ably directed toward a complete rewrite of nuclear nonproliferation policy which won the support of Members of both the House and Senate and now forms the basis for a fundamental strengthening of efforts to stop the spread of nuclear weapons.

David Moulton is the newest member of the subcommittee staff and took over the energy conservation and low-income energy assistance programs handled by his talented predecessor Alison Freeman. David brought to the subcommittee his years of experience as Washington's top energy conservation lobbyist. In his post as conservation counsel he has established himself as effective in Congress as he was outside. His excellent work on the Low-Income Energy Assistance Program and the Solar and Conservation Bank have made a positive and lasting impact on the implementation of these programs. His innovative approach to extending the residential energy conservation tax credits lends momentum to consideration of this issue in the next Congress while increasing the program's effectiveness and lowering the credit's cost.

Despite all of the talent directed at the issues within the jurisdiction of the subcommittee, there must be a strong support organization to make it all run smoothly and to process the day-to-day work product. In this regard, the subcommittee has been very fortunate to have Liz Cingel as the administrative assistant. Liz's organizational genius has made the extensive recordkeeping and filing system work better than it ever has before. In addition, she has managed the office's finances and word processing tasks with accuracy and efficiency. Liz is a professional manager of the highest caliber.

Janice Warren is the kind of solid, dependable staff assistant who most Members would give their right arm for, but who few have the opportunity to employ. She is always ready to take the most confusing chinese puzzle of a draft speech or report and turn it into a document that will be referred to for decades as legislative history. The precision and skill with which she executes her duties are remarkable, but what is most impressive is her even temper and steady personality, even in the face of the most urgent rush jobs.

Over the past 4 years Marie Burns has advanced into being one of the most versatile and productive members of the support staff. She has shown an administrative ability beyond her limited years of experience and I fully expect her to be running a subcommittee office within a very short period of time.

Legislative assistant Marianne Bailey has developed an extraordinary aptitude for understanding the complexities of the legislative process and has used this ability to keep the subcommittee fully informed of the progress of issues within our jurisdiction. In addition, her recent handling of some of the renewable energy issues demonstrates that she can master a broad range of substantive issues with ease.●

OIL DRILLING ON GEORGES BANK IS A DISASTER

HON. EDWARD J. MARKEY

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. MARKEY. Mr. Speaker, I wish to express relief that the Department of Interior has called off its proposed sale of offshore oil exploration leases on Georges Bank, in the North Atlantic. The sale was to have taken place Wednesday, September 26, 1984.

Ironically not a single oil company bid was submitted for the Georges Bank lease sale. In fact, the Department of Interior's North Atlantic lease sales have proved to yield a history of unproductive dry holes. Interior is apparently promoting something not even the oil companies are interested in.

However, this lease sale proposal is a reminder to all of us that the Reagan administration continues to pursue the environmentally destructive and economically bankrupt policies of former Interior Secretary James Watt.

The Georges Bank is not only a Massachusetts treasure but a national treasure, and is the source of almost one-fifth of the fish consumed in the United States. The fishery generates nearly $1 billion in revenues each year. It is folly for the Department of Interior to have targeted the most productive fishery in the world for one of the most aggressive and least justified oil exploration projects. With 1 billion acres available elsewhere in the United States for offshore oil exploration, it astounds me that Interior planned to sacrifice a proven and renewable resource of revenue, the Georges Bank fishery, for a supply of oil so speculative that even the oil companies don't care to investigate it.

Interior estimated that, at best, lease sale 82 would yield less than an 8-day supply of oil for the United States. Yet the Department was willing to risk a small drilling accident or error which could trade ruin hundreds of years of productive seabed.

The first lease off the coast of Massachusetts led to an expenditure of $1.1 billion by the oil industry, and yielded eight dry holes. With years still left on the lease, drilling has stopped because no oil was found. If oil is ever found on Georges Bank, the price will be prohibitive. If all the oil projected to be at Georges Bank were discovered and refined into gasoline, and that gasoline were priced to take its actual cost of production into account, the people of Massachusetts would be paying anywhere from $3 to $9 per gallon at the pump for it.

Under the Outer Continental Shelf Lands Act Amendments of 1978, the Secretary of Interior is required to balance the economic benefits of oil exploration against environmental risks, and must refuse to lease where the risk to fisheries is unreasonable. Adequate balancing would have taken Georges Bank out of consideration for oil and gas leasing. Not only is the cost of drilling prohibitively expensive, but a billion-dollar-a-year fishery would have been severely jeopardized.

The order enjoining the sale was issued precisely because the Department of the Interior had failed to consider environmental interests adequately. Perhaps, the Department of the Interior will now be warned that in the future such interests must be taken into account exactly as the Coastal Zone Management Act and the National Environmental Policy Act direct.

The Commonwealth of Massachusetts repeatedly asked the Department of the Interior if it made sense to risk the most productive fishery in the world for an insignificant and costly

trickle of oil. The Commonwealth has been trying to balance two resources: energy and fisheries. Energy resource imports into the State have decreased by about 20 percent during the past decade, and conservation has increased substantially.

The Department of the Interior has a clear mandate from Congress to involve State and local governments in the policy planning for OCS development. However, let us look at what has happened when the people of Massachusetts have voiced their concerns. The Department has embraced a policy of confrontation rather than cooperation. Good-faith efforts by the Commonwealth to assist the Department of the Interior in designing a rational and safe leasing program have been thoughtlessly rebuffed. The Commonwealth has been treated with high-handed condescension by Interior, and had to resort to court adjudication to have its concerns taken into serious consideration.

The State asked that all canyons and all tracts shallower than 400 meters be deleted from the sale, but Interior had deleted only those tracts in which the oil companies showed little or no interest. It is ironic that this administration, which has claimed to encourage State and local autonomy, has bureaucrats from Washington telling fishermen from Massachusetts that the oil companies know best. The oil companies only know profits best.

The Department of the Interior should realize that its proposed lease sales, and the way it is doing business with the Commonwealth of Massachusetts, is wrong. If this administration truly wants to get the Federal Government off our backs, Georges Bank is the place to start.●

FEDERAL ANTICRIME ACT SAILS THROUGH THE HOUSE

HON. JERRY M. PATTERSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. PATTERSON. Mr. Speaker, on Tuesday, October 2, 1984, the House passed H.R. 5960, the Federal Anticrime Act by an overwhelming vote of 406 to 16. This bill contains significant and far-reaching reforms that will have a direct impact on the incidence of crime in this country. The Federal Anticrime Act continues the war against crime by substantially increasing sentences for violent offenders and drug pushers, providing aid for programs that help locate missing children, and assisting local anticrime and victim compensation programs. I commend my colleagues on Tuesday's vote and I am hopeful that with the cooperation of the other body we can put this bill on the President's desk before the end of this legislative session.

Recent statistics demonstrate that this legislation is urgently needed. The Bureau of Crime Statistics of the Department of Justice reports that the United States now has the highest crime rate among the world's industrialized democracies—20 times higher than Britain's, and 100 times higher than Japan's. Today, anyone living in a large American city is more likely to be murdered than an American soldier in World War II was to die in combat. Serious crime—murder, rape, arson, assault, robbery, and burglary—now touches 1 in 10 American households every year. We also know that a relatively small percentage of the criminal population—only 6 percent—is responsible for 50 percent of all the violent crime in this country. Each of these "career criminals" commits 40 to 400 serious offenses per year.

The Federal Anticrime Act meets the career criminal problem head on. The bill gives the Federal Government the power to prosecute a person with two prior convictions for robbery or burglary who uses a firearm in the commission of a third robbery or burglary. Convicted criminals would be subject to a minimum prison sentence of 15 years without the possibility of probation or parole. Just getting this segment of the criminal population off the street will have a major impact on crime.

The Anticrime Act also attacks another major national problem—drug abuse. Drug trade in this country has become big business with estimates at over $80 billion in illicit sales every year. Moreover, violent crime in this country has doubled since 1960, a time when experts say illegal drug use also began to escalate. Current figures indicate that 90 percent of all heroin users commit crimes in order to obtain money to support their habit, and that 50 percent of all inmates used drugs before committing their offenses.

The Anticrime Act clamps down on pushers by increasing the Federal fines for dealing drugs 10 times and proposing an alternative fine structure under which drug offenders can be fined twice their gross profits on illegal drug sales. The Federal fines collected from drug smugglers are then targeted back into the Nation's drug law enforcement programs.

Another key provision in the Anticrime Act provides for increased Federal assistance to State and local law enforcement. Police and sheriff departments shoulder over 95 percent of the criminal justice workload in this country. As a result, local law enforcement represents our most important line of defense against crime. Providing local officials with the manpower and tools they need is critical to our crime reduction efforts.

In addition to beefing-up local law enforcement, the bill encourages local officials to develop citizen awareness programs, like Neighborhood Watch. The Department of Justice reports that citizen awareness programs have had a great deal of success in reducing the crime rate in cities all around the country. For example, in 1974, the largest city in my district, Santa Ana, had the highest increase in crime of all the cities in California. In 1975, we began implementing a community-oriented crime prevention program. The next year, Santa Ana had the largest decrease in its crime rate of any city in the United States. I think that statistic speaks for itself about the effectiveness of these types of crime prevention programs.

Mr. Speaker, there are many other provisions in the Anticrime Act that I would like to discuss in detail. However, I know my time is short so I will simply mention each briefly. The bill increases funding for State compensation and witness protection programs and provides stiff penalties for jumping bail and for violating the terms of pretrial release. Additionally, it narrows the insanity defense and increases the defendant's burden of proving insanity. The bill also requires that prisoners serve at least 80 percent of their sentences and outlaws homosexual rape and other forms of sexual abuse not already covered by current law. Finally, it reauthorizes the Office of Juvenile Justice and Delinquency Prevention and provides more Federal support for projects that help locate missing children.

I firmly believe that the American people want the reforms proposed by the Federal Anticrime Act. These reforms will help reduce the incidence of violent crime and drug smuggling, improve witness protection and victim compensation programs, beef-up local law enforcement, and make our criminal justice system more just. I am hopeful that we will have this package on the President's desk in the next few days. Together, we can help make crime a thing of the past.●

USER FEES FOR MAPPING AND CHARTING ACTIVITIES OF THE NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

HON. JOEL PRITCHARD

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. PRITCHARD. Mr. Speaker, today I am introducing a bill, at the request of the administration, to allow the Department of Commerce to recover some of the costs incurred in the production of National Oceanic and Atmospheric Administration [NOAA] maps, charts, and information prod-

ucts. The acquisition, maintenance, and provision of this information contained in these products is necessary to support national defense as well as safe and efficient public and commercial marine and air navigation.

As the Congress strives to develop a budget that includes the programs important to this country, the Congress should at least examine, where appropriate, the application of the beneficiary pays principle as a tool to help reduce the Federal deficit. It is of paramount importance, however, that we only proceed in this direction after careful study is given to all the ramifications of such an action. Therefore, in order to encourage such investigation and dialog in the next Congress, I am introducing this bill today.

As part of the necessary analyses, NOAA has made a preliminary estimation of the demand for nautical chart products. This is a good start. From here, however, a number of factors must be examined, such as the elasticity with respect to price, for both marine and aeronautical charts, before we decide if human safety and environmental protection are jeopardized. If it is shown that the application of the beneficiary pays principle would be effective in recovering some of NOAA's production costs for maps and charts while maintaining necessary safety standards, then and only then should Congress proceed with this change.

Mr. Speaker, it is important that Congress continue to examine the beneficiary pays principle with respect to a number of types of Government services. In many instances, this principle, if implemented gradually, could prove effective in defraying some of the costs to the Federal Treasury. Mr. Speaker, I would expect that the 99th Congress will examine this principle further, with respect to NOAA maps and charts, and I would encourage additional analysis and consultation by both the Congress and the administration in the interim.

Thank you, Mr. Speaker.●

TRIBUTE TO MY STAFF

HON. RICHARD L. OTTINGER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. OTTINGER. Mr. Speaker, at the end of this session I will be leaving Congress and 16 years of service to the people of Westchester County, NY. I have been proud of my service and am extremely grateful for the trust and respect showed to me by the voters of the 20th District.

What many of my constituents may not realize is that I could not have served them as effectively without the outstanding staff I have had over the years. I have always had the good fortune to have dedicated and able staff to help me fulfill my representative duties. In fact, my former administrative assistant, Oren Teicher, who joined me upon my reelection in 1974, is now seeking my seat in the House.

Before Congress adjourns I would like to express my deepest thanks to those staff members who have put in so much effort on my behalf over the past few years.

As every Member knows we have two staffs, equally important in the jobs they perform, but with different duties—the district office staff and the Washington staff.

My personal staff is directed by my administrative assistant Clarence "Bud" Grebey. Bud came to my office a little over 2½ years ago from the staff of former member Toby Moffett to serve as my press secretary. He soon proved his capabilities in this field by developing press contacts and creating strategies that I had never before known to exist. Bud also in a short period of time displayed exceptional administrative and organizational talents. It seemed only natural when John Dineen left my staff earlier this year that Bud should succeed him as my AA. In that capacity I have seen Bud's capabilities and potential grow even greater, ensuring that both my Washington and New York offices remain effective and productive during my last year in Congress.

The heart and soul of my Washington staff is my office manager, Jean Trader. Jean first came to work for me when I worked in the Peace Corps, in 1963. When I made the decision to run for Congress, Jean ran right along with me—and has been by my side ever since. No one can get things done like Jean gets things done. Her organizational skills are unparalleled and her ability to accomplish the impossible never ceases to amaze me. Her talents have, over the many years of our association, ensured that my Washington office has consistently been run effectively and efficiently.

As any Member of Congress knows, without a personal secretary to put together your schedule, life itself would seem to grind to a halt. Barbara Santos has for the past 3 years filled this position with skill, personality, and patience. She has been able to bring order to an often chaotic and conflicting schedule and is always there to make sure that I have been at the right place at the right time. Her hard work and long hours have had a remarkable impact on my last years in Congress.

William Trawick has served as my expert on Federal grants and housing programs. In his 3 years on my staff Bill has brought more than $150 million in Federal housing, community development, and transportation grants to the people of Westchester County, perhaps the most important of these being the Winbrook Housing Complex in White Plains, modernizing 450 much needed, low-income housing units. Bill also played a key role in the transition of Westchester's commuter rail lines from Conrail to the New York MTA.

Mary Clifford came to my personal staff after first working on my subcommittee staff. She soon mastered the intricacies of the legislative process and her efforts have been instrumental in developing a strong viable alternative to the economic policies of President Reagan. She has done much of the behind-the-scenes work on the National Economic Recovery Project, a Democratic economic plan that has been endorsed by 153 of my colleagues in the House. Mary is currently working to put together a conference for small businesses on the Federal procurement process.

Rebecca Stone is my legislative assistant for defense and foreign affairs issues. Becky's hard work and dedication to humanitarian and rational ideals have made an important mark on my consideration of many of the most difficult and important issues we have faced in the 98th Congress. Becky was instrumental in my efforts to abolish funding for the National Endowment for Democracy.

Fran McPoland first started working for me as a "Teens for Ottinger" campaigner in the late 1960's. She joined my Washington staff in 1983 as my LA for environmental and energy issues. Her expertise in these fields proved valuable in emphasizing my commitment to the environment and implementing programs to protect the resources of New York State and the Nation.

Pat Ryan is the newest member of my staff, taking over my health, education, and seniors issues. I feel very fortunate to have such a hard worker as Pat on my staff. Her exceptional talents have been paramount in my efforts to bring the inhumane cuts in education and vital social programs by the Reagan administration to the forefront of public thought in Westchester. I know her thoroughness, skill, and warm personality have made an important mark on the people of Westchester County.

Perhaps the greatest asset in a press secretary is a firsthand knowledge of the district he must cover. Terence Kelly has brought to my office just such a talent. He served for 2 years as one of my most capable caseworkers in Westchester and has proved himself equally as capable in Washington as my press secretary. Terry has proved to be an adroit conduit between myself and the media of New York and Washington.

In my office the individual who has ensured that the mail is answered

promptly and accurately and that correspondence is filed correctly is Emma Pyles. Emma recently took a leave of absence from my staff to deliver something other than correspondence, and Monday became the mother of a baby—Scott. I'd like to take this opportunity to offer the Pyles family my warmest congratulations on their new addition.

My district staff is headed by my long-time friend and and political confidant, Belle D'Onofrio. I doubt that there is anyone in Westchester County who has more political savvy and connections than Belle. She has, over the years, proved instrumental in developing many of my constituent services and casework policies. She began her career in politics as a volunteer during my 1970 bid for the Senate and has remained an invaluable asset, in and out of the political arena, ever since. Belle's outstanding organizational and administrative capabilities are reflected in the excellent reputation my district offices have received for prompt and effective constituent service.

In addition to Belle, my district staff is comprised of five of the hardest working and dedicated staffers any Member of Congress could ask for.

Rhoda Fidler is probably best known by the people of Westchester as the warm and efficient person they encounter when first entering my New Rochelle office. Most recently, she played a key role in organizing a meeting between local fire and police chiefs and town leaders with officials from the Brookhaven National Laboratories to discuss the proposed shipment of radioactive waste through Westchester. Her efforts have led to special training for emergency squads by the Brookhaven Labs.

Linda Luddy has done an outstanding job working with students and seniors in Westchester County. She is single-handedly responsible for organizing my highly praised annual conferences for senior citizens. In addition, Linda every year handles my nomination of students to the U.S. military academies and handles a large load of constituent casework.

Louise White has played two key roles in my district office. Foremost is her ability to organize a coherent schedule of appointments for me while home. Of equal importance is the excellent job she does of handling constituent requests and casework. Hundreds of constituents have been assisted by her talents.

Dorothy Crozier serves as my immigration expert. She began working with me in the mid-1960's and has been a dedicated and caring staffer ever since. Dottie is responsible for uniting hundreds of families torn apart by the bureaucratic madness of the INS and for obtaining citizenship for an equal number of immigrants whose life dream had been to come to our country.

Joan Patricia Horton is a woman who has led an exemplary life of dedication to equal opportunity for all Americans. As my chief community affairs adviser, Joan has acted as my eyes and ears among the people of southern Westchester. Her advocacy of fair employment and housing practices has ensured that our hard-fought civil rights laws are not neglected.

It cannot go without saying that one reason the current staff of the Washington office has performed as well is the groundwork laid by the manager of my last two campaigns and my former administrative assistant, Dave Gold. Dave did a spectacular job of raising the percentages by which I was reelected to astoundingly high levels. He has since moved his astute political skills to the private sector where he now helps other progressive political candidates. However, before Dave departed at the beginning of this Congress he turned over his duties as administrative assistant to his capable protege John Dineen.

John has since moved on to apply his considerable managerial skills to the Environmental and Energy Study Conference where I am confident he will guide that vital legislative research organization into a new phase of quality service to Members.

Mr. Speaker, without the talent, hard work, and long hours of these individuals my service in Congress would be meaningless. I wish all of them the best of luck in years to come, and know the friendships and associations we have made during my time in Congress will last well past the final days of the 98th Congress.●

TRIBUTE TO RON PAUL

HON. DANIEL B. CRANE

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 4, 1984

● Mr. DANIEL B. CRANE. Mr. Speaker, I know of no one in this Congress—indeed, in the history of our country—who has shown greater fidelity to his principles than our retiring colleague, the Honorable RON PAUL.

When others ask, "What is expedient?" RON PAUL asks, "What is right?" When others say, "It will cost me votes," RON PAUL says, "Truth cannot be bought.

For his passion for truth, he has found himself in the minority time after time. He has been condemned as unreasonable, someone who doesn't understand compromise, a man who doesn't know you have to "go along to get along."

But RON PAUL knows that "from the beginning of our history, the country has been afflicted with compromise. It is by compromise that human rights have been abandoned." Charles Sumner's observation rings tragically true today.

Had he been a contemporary, John Quincy Adams would surely have had RON PAUL in mind when he advised legislators, "Always vote for a principle, though you vote alone, and you may cherish the sweet reflection that your vote is never lost."

RON, cherish that reflection. Your votes and personal example will live to shepherd generations yet unborn.

Mr. Speaker, Jesus himself testified that a prophet hath no honor in his own country. There are precious few in this body who recognize that, for a fleeting moment, we had a giant in our midst.●

TRIBUTE TO HON. J. KENNETH ROBINSON

HON. LOUIS STOKES

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. STOKES. Mr. Speaker, I would like to thank my distinguished colleague, the gentleman from Virginia [Mr. WHITEHURST] for reserving this special order so that Members can salute our colleague KENNETH ROBINSON. At the end of the 98th Congress, Mr. Speaker, Congressman ROBINSON will retire from the House of Representatives. For 14 years, he has served the people of the 7th Congressional District of Virginia in an exemplary manner. I know that his constituents will miss the fine service that he has rendered to them.

Mr. Speaker, I have had the pleasure of serving on two committees with Congressman ROBINSON. As a result of those associations, I have come to respect my good friend and colleague.

Both of us serve on the House Appropriations Committee. Although we are members of different subcommittees, I always knew that when an appropriations bill from one of my subcommittees came to the full committee for consideration, Congressman ROBINSON would focus his attention on that legislation. In those deliberations, Congressman ROBINSON would listen to every side of an argument before making a judgment and casting his vote.

Mr. Speaker, I also have had the honor of serving with Congressman ROBINSON on the House Select Committee on Intelligence. As many of my colleagues know, Congressman ROBINSON is the ranking minority member of that committee. He is one of the experts in the House on this Nation's intelligence activities.

Mr. Speaker, after 14 years in the House of Representatives and 4 years in the Virginia State Senate, Congress-

man ROBINSON is retiring. I know that his constituents will miss his service. Many of us, on both sides of the aisle, will miss his leadership and friendship.●

TRIBUTE TO KEN ROBINSON

HON. JOHN N. ERLENBORN

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. ERLENBORN. Mr. Speaker, I join in extending my thanks and congratulations to the gentleman from Virginia [Mr. ROBINSON] as he retires from the House of Representatives at the end of the 98th Congress.

KEN has been not only an able spokesman for the people of the 7th District of Virginia, but a stalwart defender of our country and its basic freedoms. I thank him for his hard work here, which I know has been a labor of love for him.

As a fellow ranking Republican who also has decided to take his leave from these very hallowed halls at the end of this term, I feel a special kinship to the ranking Republican on the Select Committee on Intelligence. It was a tough decision to make, but KEN can retire with a feeling of much satisfaction for the valuable service he has given to the people of Virginia and all other Americans.

Congratulations, KEN, for a job well done. May you find the enjoyment in retirement you so richly deserve.●

TRIBUTE TO KENNETH ROBINSON

HON. JAMES T. BROYHILL

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. BROYHILL. Mr. Speaker, it was some months ago that I first learned that KENNETH ROBINSON would not seek reelection to the House seat that he has held for the past 14 years. My first thoughts were about the loss to this House and to the Nation of the services of a man who has fought a valiant fight these many years for sanity in Government. KEN is the kind of Representative who works tirelessly without thought of political reward. He is a student of the appropriations process and a thoughtful, perceptive leader on the Intelligence Committee to whom I have turned often for advice. KEN, we will miss your voice of reason here in the Congress, but fully understand your desire for a different lifestyle at this point in life. Louise and I want to wish you and Kit well. Stay in touch.●

THE BANNING OF COMMERCIAL WHALING

HON. HENRY A. WAXMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. WAXMAN. Mr. Speaker, the International Whaling Convention [IWC] has voted for a cessation of commercial whaling by the end of 1985. I strongly endorse the IWC's ban and hope that all nations will abide by its terms. However, at this time it appears that at least three countries—Japan, Norway, and the Soviet Union—disagree with the ban and do not plan to comply with the 1985 deadline.

The Congress has already recognized the need for the U.S. Government to encourage other countries to comply with international treaties which protect marine resources. The President is currently required to restrict the amount of fish which can be taken from U.S. waters by the fishermen of countries which violate such a treaty.

I call upon the President to execute his authority to promote international cooperation in carrying out the IWC ban. If his efforts fail, I believe the Congress should consider taking additional steps to assure compliance.

One such additional step is encompassed in a bill before my Subcommittee on Health and the Environment, H.R. 5032. The bill would require that any retail product containing imported fish be labeled to show the country from which the fish was imported.

The legislation was introduced by our distinguished colleagues Mr. JEFFORDS, Mr. MAVROULES, and Mr. BOSCO, and is supported by a number of commercial fishing organizations as well as several distinguished members of the California Legislature.

The proponents of this bill argue that all products containing fish should be labeled as to the country of origin so that American consumers can select, if they so desire, the products of American fishermen. This labeling requirement would empower American consumers to reject the fish products of countries like Norway, Japan, and the Soviet Union, that do not cease commerical whaling.

Mr. Speaker, I recognize that H.R. 5032 has other purposes as well. I am considering the reasons set forth by the sponsors of the bill. At this time, I am prepared to say that legislation like H.R. 5032 may be necessary in order to promote international compliance with the IWC's ban on commercal whaling.●

RESTRAINTS ON PUBLICATION BY SEC

HON. RON PAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. PAUL. Mr. Speaker, the Securities and Exchange Commission apparently thinks that it has the authority to approve or disapprove what is written and read about the stock market and other investment opportunities. The registration of investment newsletters comprises an "agreement" by the publishers to conform to a whole host of SEC rules and regulations in the production of their newsletters. This treatment has the effect of regulating not only what is written as investment advice, but what is contained in advertising material as well. The registration with the SEC constitutes a virtual occupational license, restricting entry into SEC-approved applicants with SEC-approved contents.

I certainly do not condone fraud in the securities market, but I do believe that the SEC's registration requirements, along with the myriad additional rules and regulations which apply to these publications, interfere with freedom of speech and of the press. In addition, the right of private citizens to read material of their choice is being denied. How citizens choose to use the information presented to them must ultimately be their own responsibility. Likewise, investment brokers and investment counselors who intentionally make false claims should be prosecuted, but neither of these situations justify the prior restraint of publication—on a variety of extraneous grounds—being practiced by the SEC.

I believe that the legitimate watchdog function of the SEC would better be performed by a nongovernmental agency, or agencies. These would not be empowered to pursue their own interests, but rather those of their clients in the investment community. In that way we would be more likely to maintain an evenhanded treatment of all of these publications on the criterion that counts—prevention of fraud in the investment counseling industry. Agencies organized in this way, through the market rather than by Government decree, could serve the legitimate function of alerting investors to fraud—which would be handled in the courts—without the ability to engage in discriminatory punitive actions of their own.●

TRIBUTE TO CHARLES FEUEREISEN, PAST NATIONAL COMMANDER OF THE JEWISH WAR VETERANS OF THE UNITED STATES

HON. ROBERT G. TORRICELLI

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. TORRICELLI. Mr. Speaker, I would like to take this occasion to honor Charles Feuereisen, past New Jersey State commander and national commander of the Jewish War Veterans of the United States.

A much decorated hero of World War II, Feuereisen served with the 511th Parachute Infantry of the 11th Airborne Division where he received the Bronze Star, the Silver Star, the Purple Heart, and the Distinguished Unit Citation.

Mr. Feuereisen, a resident of Oradell, NJ, will be honored at a testimonial breakfast to be held on November 11 at the New Milford Jewish Center in New Milford, NJ. Mr. Sol Abrams, commander of the Cpl. Charles M. Wallach Post of the JWV, announced that "many national, State, and local government leaders as well as leaders from veterans organizations, civic, religious, community and business groups are expected to attend the event."

It is especially fitting that Charles Feuereisen be honored on Veterans Day. He was the first president of the New Jersey Allied Veterans Council, a past president of the 11th Airborne Division, a past vice commander of the Advertising Men's Post of the American League, and is still a member of that organization and the Veterans of Foreign Wars. He was also a founder and charter member of the Cpl. Charles M. Wallach Post 773 of the Jewish War Veterans of the U.S.A. In addition to serving as State commander and national commander of the Jewish War Veterans, he was a charter member of the North Bronx-Asher Post 226, Americanism chairman of the New York State JMV, a past Bergen County council commander, past commander of the third region, past chairman of the tri-State action committee and chairman of the foreign affairs committee of the Jewish War Veterans.

Many honors and awards have been bestowed upon Charles Feuereisen in civilian life, including his being named as Man of the Year by his hometown of Oradell, NJ. Indeed, Charles Feuereisen makes everyone who served our Nation in any wars or conflict, proud to wear the title of veteran.●

IN HONOR OF EXCELLENCE, PHYLLIS BENEKE

HON. ALAN B. MOLLOHAN

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. MOLLOHAN. Mr. Speaker, I would like to take this opportunity to offer my congratulations to Ms. Phyllis Beneke of Wheeling, WV, who has recently been named a winner of "In Honor of Excellence," a new national program recognizing outstanding principals and teachers.

This is the first year for the program, which is sponsored by the Burger King Corp. and the National Association of Secondary School Principals [NASSP]. The program chooses one principal and one teacher from each State as winners.

Ms. Beneke, the principal of Wheeling Park High School, was chosen by a board of her peers to receive the honor. Their choice was based on Ms. Beneke's outstanding capabilities as both a school administator and an upholder of high standards of curriculum. Her school's unique blend of cummunity participation in the development of the goals of the school and emphasis on student achievement within a supportive climate is an incentive to all people in both West Virginia and the Nation seeking to further the progress of education.

Phyllis Beneke's dedication to the development of education in West Virginia is a source of great pride and inspiration to me and my fellow West Virginians. Her exemplary work as a principal serves as a model for educational improvements throughout the Nation. Again, I congratulate Ms. Beneke and wish her the best of luck in the future.●

A TRIBUTE TO RAYMOND P. SCHULTZ

HON. LAWRENCE J. SMITH

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. SMITH of Florida. Mr. Speaker, today I rise to give special recognition to Mr. Raymond P. Schultz of Hialeah, FL, for his role in helping to respond to disasters in Central America. Mr. Schultz is chairman of the Central American Emergency Committee of Sister Cities International and serves as a vice president of the organization's board of directors.

Sister Cities International has long been active in helping to provide disaster relief to Central America through its network of sister cities in the area. The Miami area has developed exceptional facilities to meet emergency and disaster situations locally and overseas.

Mr. Schultz was recently honored by the Department of State and the Agency for International Development for his efforts. The award, one of the highest commendations of the Agency, was signed by AID Administrator M. Peter McPherson and Secretary of State Georga Shultz.

In recognition of the honor Mr. Schultz has received and of his personal committment to this important program, I hope my colleagues will join with me in extending congratulations and our appreciation to Raymond Schultz.●

BLACK/WHITE HEALTH DIFFERENTIALS: 20 YEARS AND THE CRISIS CONTINUES

HON. LOUIS STOKES

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. STOKES. Mr. Speaker, on September 27 and 28, 1984, the Congressional Black Caucus Health Braintrust, which I cochair, along with my distinguished colleague from Illinois, Mr. HAYES conducted a 2-day workshop on the health status of blacks and other minorities in the United States.

Mr. Speaker, the general public and many of my colleagues may not be aware of the critical health care situation confronting the black community or of the various obstacles they still face in accessing affordable and quality health care. However, as a result of the Congressional Black Caucus Health Braintrust hearings, we have brought this pernicious problem to the attention of many Americans. Now, I hope that the Congress and the President can begin to address this critical situation.

I would like to take this opportunity to share with my colleagues an article which appeared today in the Washington Post that reveals the shocking disparity between the health status of black and white Americans.

[From the Washington Post, Oct. 10, 1984]

THE BLACK-WHITE HEALTH GAP—DISPARITY WIDENING, CONGRESSIONAL CAUCUS IS TOLD

(By Sandra R. Gregg)

While Americans, in general, and healthier today than they were 30 years ago, a large gap continues to exist between blacks and whites. The statistics are sobering:

A black baby is twice as likely as a white baby to die before its first birthday.

The life expectancy for a black person is 68 years, compared with 74 years for whites.

Black women are about 2½ times more likely to die from diabetes than white women.

Black men are seven times more likely to be murdered than white men and have a greater chance of dying of cancer and heart disease.

Some of the therapies used in treating patients are much less effective on blacks than whites.

Doctors and health activists grappled with the reasons behind these facts at a recent two-day meeting of the Congressional Black Caucus Health Braintrust. Speakers offered several explanations for why blacks are more susceptible than whites to certain unhealthy conditions. Blacks are more likely than whites to be poor, to have unhealthy diets and to live and work in undesirable conditions—which increases their stress level and limits their access to health care. Minorities are also more likely to live or work in places that expose them to carcinogens such as lead from car pollution or peeling paint.

Several speakers said the health gap between blacks and whites is widening and blamed it on funding cutbacks by the Reagan administration, including $2 billion from Aid to Families with Dependent Children (AFDC), and an 18 percent reduction in Maternal and Child Health funds. Others noted that many health resources have not reached those who needed help the most.

A major problem with current medical care, said psychiatrist Patricia A. Newton of Baltimore's Provident Hospital, is that it focuses on "curing illness, not preventing it." For example, Newton said, funds have been poured into some communities to treat alcoholics and drug addicts, but not into studies and programs to address why certain minority groups are more susceptible to those conditions or how the trend can be reversed.

Newton urged programs to address the full range of health, which she defined as "physical, emotional, social, political, cultural and economic well-being."

Stress, depression, anger and low self-esteem are particular problems in the black community where unemployment rates are double that for whites said Lawrence Gray, director of the Institute of Urban Affairs and Research at Howard University. Studies demonstrate, he said, that these factors often result in higher rates of smoking, alcoholism, drug abuse, child abuse and homicide. In addition, mental health specialsits report that while suicide has always been more common among whites, black—especially young men—have in recent years been taking their own lives more often. The suicide rate among black men increased from four per 100,000 in 1960 to 11 per 100,000 in 1981—a jump of 171 percent.

RACIAL COMPARISONS OF DEATH RATES FROM MAJOR CAUSES

[Number of deaths per 100,000 U.S. residents]

	Black		White	
	Men	Women	Men	Women
Cause of death:				
Heart disease	327	201	277	134
Cancer	229	129	160	107
Diabetes	17.7	22	9.5	8.7
Suicide	11.4	2.4	19	5.7
Homicide	71.9	13.7	10.9	3.2

Source: Department of Health and Human Services.

Some of the reported increase in disease rates among blacks "may be more apparent than real," as a result of better data collection in minority communities, said Dr. M. Alfred Haynes, dean of the Charles Drew Postgraduate Medical School in Los Angeles. He stressed, however, that "poor people are sicker than rich people regardless of race . . . Poor people are more likely to accept a certain level of illness as natural," he said, and may wait until they are seriously ill before seeking medical care.

But Dr. Jack White, director of the Howard University Cancer Center called the "late for treatment" argument a "cop out." In all stages of cancer, he noted, blacks tend to have lower survival rates because they are often battling other major diseases. Especially if they are poor, he said, "they just don't have the proper resistance."

Lung cancer is the most prevalent form of that disease among black men, he said, followed by prostate tumors. Breast and colon/rectal malignancies are increasing in the black population, although more research is needed to determine why. Studies implicate hectic life style, alcohol consumption and cigarette smoking. However, preliminary data from a Howard University study suggests an increase in prostate cancer among men with better nutrition and a more affluent life style.

In treating many diseases, therapy must be based on racial differences in response to medications, noted Dr. Mark S. Johnson, acting chairman of the Family Practice Department at Meharry Medical School in Tennessee. An example: beta blocker drugs that work well for white patients with high blood pressure are not nearly as successful in blacks. Just 10 years ago researchers discovered, he said, that hypertensive blacks respond better to diuretics—a group of drugs that work by reducing fluid retention, a condition particularly common among blacks.

Racial differences in response to treatment lead Johnson to advocate more studies geared specifically to blacks. "We cannot assume," he said, "that results from research using homogeneous samples can be generalized to the total population."

Several speakers addressed the most poignant example of programs and funds not reaching their target: the high infant mortality rate—a statistic often used to measure the well-being of a particular group. Recent national figures show that 19 of every 1,000 black babies born in the U.S. die before their first birthday—nearly twice the rate for whites. In the District of Columbia in 1983, there were 20.1 deaths per 1,000 live births among black babies, according to Alicia Fairley, an assistant to the city's health commissioner. The rate for whites: 8.6 per 1,000.

A large proportion of infant deaths among blacks, said Dr. Robert L. Johnson, a professor of pediatrics at the New Jersey School of Medicine, is a result of the high pregnancy rate among teen-agers who do not know how to care for themselves or their infants. Prenatal outreach programs for poor teenagers were working well in the late 1970s, he said, but cutbacks in the 1980s have meant more patients and fewer resources.

Consequently, Johnson said, "the pregnant 16-year-old needed (but could not get) more than a midwife visit. She needed someone to help her deal with the problems that led her to getting pregnant in the first place."●

HEALTH PLANNING

HON. HENRY A. WAXMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. WAXMAN. Mr. Speaker, on September 28, 1984, Senator HATCH inserted a statement in the CONGRESSIONAL RECORD regarding the "intent of Congress in language that appears in past continuing resolutions concerning health planning activities." In his comments, Senator HATCH asserts that the decision of the California Superior Court Judge who ruled in the recent case of Alameda-Contra Costa Health Systems Agency against Office of Statewide Health Planning was wrong because he ignored the language of the continuing resolution.

In my view, the interpretation of the law put forth by Senator HATCH is incorrect.

The Federal health planning law applies to States which choose to receive Federal funds. Participating States are required to have State certificate-of-need laws; and these laws must grant local planning agencies the right to request a hearing by the State planning agency on a certificate-of-need application before the State agency's decision is final. It is my understanding that every State certificate-of-need law, except for California's, grants local agencies this right.

The fiscal year 1983 continuing resolution provided appropriations for the health planning program. the language of the resolution is:

Such sums as may be necesssary to continue the Health Planning Program throughout fiscal year 1983 at the current rate of operations, provided that no penalties shall be applied nor any state or local agency agreement terminated pursuant to sections 1512, 1515 or 1521 of the Public Health Service Act.

The fiscal year 1984 continuing resolution and the House-passed continuing resolution for fiscal year 1985 refer to this language in the fiscal year 1983 resolution.

The Department of HHS interpreted the fiscal year 1983 language in an April 13, 1983, "program policy notice" entitled "Effect of the Continuing Resolution for FY 1983." The notice said:

It is important to note that the continuing resolution only prohibits termination of agencies or the imposition of any penalties; all statutory and regulatory requirements of Title XV continue in effect. We encourage all agencies to meet the requirements of Title XV, and we will continue to monitor the progress of each agency and point out areas that need to be improved or strengthened.

I believe the Department's position is correct. The continuing resolution is a directive to the Department of HHS not to impose the statutory penalty of loss of other public Health Service Act funds or to terminate an agency. All other requirements of the law are in effect, but the Department is prohibited from taking action to penalize noncompliance.

The Department's position is in stark contrast to the position stated by Senator HATCH. In my view, it was not

the intent of Congress to allow the statutory and regulatory requirements of the health planning law to lapse and for States to be free to receive Federal funds while operating their planning programs in any way they choose, whether consistent with the Federal law or not, and the Department has interpreted congressional intent correctly.

With regard to the Alameda-Contra Costa lawsuit, Senator HATCH asserts that the judge is "essentially ignoring the language in the continuing resolution prohibiting penalizing States for noncompliance." He further states that Congress intended for "States to follow their own State laws, and if out of compliance with Federal law, to be protected from public or private sanctions." I do not agree with his interpretation. As the Department of Health and Human Services has pointed out, the continuing resolution imposes no such restrictions on a State judge or limits on private parties.

The Senator's attempt to inject Congress into the judicial proceedings in California is not appropriate. The law suit is a dispute over California's State law and can still be appealed. The lawsuit does not have the "significant consequences in many States that are currently out of compliance" as the Senator suggests. In fact, every other State certificate-of-need law, including his own State of Utah, grants the hearing which was the subject of the California case.●

VINCE AND THE PRESIDENT

HON. BYRON L. DORGAN

OF NORTH DAKOTA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. DORGAN. Mr. Speaker, a few weeks ago I was sitting in an airplane doing some thinking about a fellow that lived in a small town near where I grew up. I jotted down a few of my recollections and observations, and I decided to share them with my colleagues.

Vince was a short, thin man in his 50's when I knew him. He had black greased-back hair and a pencil-thin mustache. Vince owned a bar in a small town near where I grew up. His bar was downstairs, below one of the few Main Street businesses. It was always dark there. Vince had that sallow, indoor look, even when he ventured outside. He smoked a lot and he almost never smiled.

Nobody had much to do with him, especially women.

One day, suddenly, Vince went for it all. He went out and bought a pink Cadillac convertible with gold-plated hubcaps. It looked a mile long with those sleek 1950's style back fenders. It sat in front of Vince's bar all day, every day; you couldn't miss it in that little town.

That car changed Vince's life. He would drive it up and down Main Street. Things were different for Vince; now he had women friends riding with him. They liked the pink Cadillac. Vince didn't look any different to me; he still had that pale look like he just stepped out from his bar downstairs. The only difference was that now and then he smiled at the women in his car. He looked like he was on top of the world.

But it didn't last long. Vince had borrowed money to buy the car, and the payments kept Vince broke. He couldn't afford upkeep for the car; it began to look old, the pink began to fade. The women stopped riding with Vince. He still drove up and down Main Street, but now there was no one to return his smiles. The car began to look like Vince.

Then one day Vince died, and the car was sold for scrap.

I was a teenager when I knew Vince. We talked about him, my buddies and I, but we didn't expect Vince to teach us anything. Yet as I look back, I think I learned something important from Vince.

Almost anyone can look prosperous for awhile. False prosperity can look real, until the bills are due.

It's 30 years later, but I think I see another Vince. This one isn't sallow and thin, he is handsome and robust; he doesn't run a bar, he runs the country. But he thinks like Vince. He thinks if you borrow a lot now, the ride will be worth it, no matter what comes later.

Comparing Ronald Reagan to Vince might be a bit unseemly. The fact is, Reagan is doing to the country what Vince did to himself. Our $200 billion budget deficits are Reagan's pink Cadillac. They buy false prosperity, and they are steering this country toward trouble.

Nobody had the heart to tell Vince, and now no one has the courage to tell Mr. Reagan. We are still being asked to pay for his pink Cadillac, loaded with all the options.

Mr. Reagan's Cadillac will fade in time; they all do. The question is whether America will recognize the problem before it begins to gather rust. I'd ask Vince his thoughts, but he's done teaching.●

THE DISABILITY DISASTER

HON. ROBERT GARCIA

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. GARCIA. Mr. Speaker, I recently received a letter and an article from a constituent regarding the Reagan administration's Social Security policy. In light of the recent debate between Mr. Mondale and the President, I would like to submit this recent New York Times article. Hopefully, this article will enlighten President Reagan to the true effects of his policies regarding Social Security.

THE DISABILITY DISASTER

In October 1981, a Manhattan social agency found him living as a vagrant in Central Park. At that time he was delusional, filthy hostile. . . . His application for . . . benefits was rejected initially and on reconsideration despite a medical report stating that he hallucinated, had delusions of people being after him and spent most of his time wandering the streets. . . . In the denial of reconsideration of his application . . . it was stated that while his condition prevented him from returning to his "usual job," there were "many other jobs" that he could perform.

What usual job? Which many other jobs? Such examples of bureaucratic callousness run through lawsuits over the Social Security Disability program, which the Reagan Administration has turned into an administrative disaster area. Now an appeals court decision in New York makes clear that the disaster is moral as well as managerial.

Early in President Reagan's term, Administration budget-cutters considered the $18 billion program a sitting duck. Carter Administration officials, alarmed by astronomical increases in disability payments, had ordered reviews of all disability cases in order to identify cheaters. It would be a simple matter, their successors figured, to make deep cuts by speeding up the review schedule—and by quietly tightening the rules for eligibility. New interpretations of the rules ordered by internal memo meant that an ability to boil water or rake leaves immediately established one's "employability," thereby disqualifying hundreds of thousands of the obviously disabled.

But getting away with such interpretations wasn't so easy. Social Security workers found themselves telling pathetically crippled or schizophrenic people to go out and find work. Many state officials refused to carry out the harsh new policy. Soon, Federal courts and administrative law judges were swamped with pitiful appeals—and they handed down a steady stream of rulings in favor of the disabled claimants. By last spring, more than 200,000 of 491,300 people disqualified had won reinstatement on appeal.

Frederick A.O. Schwarz Jr., New York City's corporation counsel, led a legal battle against the change in the rules for the most vulnerable group, the mentally handicapped. A Federal appeals court this week affirmed a favorable ruling he had won from a lower court. What's remarkable about the decision is the need to appeal, and the attitude it reflects in the Administration. For the Federal Government did not contest the merits. It insisted on appealing only on technical grounds of jurisdiction. In effect, Washington admitted that its initial policy was wrong.

When Federal dollars support the helpless, to be wrong is to be painfully wrong. "On the day that he received the notice that he was cut off," a psychiatric nurse testified of one patient, "He became very upset. . . . That day he became more and more depressed, mute, unresponsive, crying. And finally, several hours later he was found in his apartment by his roommates in a mute

and unresponsive position; curled up on the couch, not responding to people trying to arouse him or call his name. . . ."

Despite such stories, the Administration even now persists in defending its policy with technicalities. It might yet appeal the New York case to the Supreme Court. In addition, the White House defends "nonacquiescence"—refusal to accept defeats in some disability case as precedents in others. And its objections to sensible measures to restore some decency to the system have stalled reform legislation for months.

One explanation for such stubbornness is that the Administration continues to let obsessive cost-cutting limit its vision. That's a charitable excuse for a policy that looks more like official cruelty.●

TRIBUTE TO MART NIKLUS

HON. DUNCAN HUNTER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. HUNTER. Mr. Speaker, I rise today to pay tribute to a great crusader for human rights, Mart Niklus. An Estonian, Mart Niklus, knows only too well the oppressive nature of life in the Soviet Union. He is now serving his second 10-year prison term—the last 2 years in solitary confinement—for anti-Soviet propaganda and agitation. On the occasion of Niklus' 50th birthday, President Reagan issued a special proclamation honoring this brave man. The nation of Estonia and Mart Niklus understand the Soviet regime and the meaning of the word repression. That is why I offer the President's proclamation as a reminder to all of us that our liberty must never be taken for granted.

The proclamation follows:

THE WHITE HOUSE

WASHINGTON

September 7, 1984

This special occasion provides me with a welcome opportunity to pay tribute to a leading Estonian human rights activist and Helsinki accords monitor, Mart Niklus.

Often praised by fellow dissident and scientist Andrei Sakharov, Mart Niklus will be spending his fiftieth birthday in solitary confinement under intolerable conditions in a Soviet prison. He is currently serving his second ten-year sentence for "anti-Soviet propaganda and agitation" and has been held in solitary confinement for nearly two years with visitation rights suspended until July 1986.

Mart Niklus is an ornithologist but he has never been permitted to work or to publish in his profession as a result of his continued opposition to Soviet repression. He has signed numerous statements of protest against Soviet violations of human rights and has played a crucial role in coordinating the efforts of human rights activists in Estonia, Latvia, and Lithuania. Harassed by Soviet authorities for twenty-two years, arrested numerous times, imprisoned and refused permission to emigrate to Sweden, Mart Niklus is in critical condition and is in need of immediate medical attention.

The Helsinki accords commit the signatory countries, of which the Soviet Union is one, to respect individual rights and fundamental freedoms and to "deal in a positive and humanitarian spirit" with the applications of persons wishing to emigrate to rejoin relatives. I call upon the Soviet Union to abide by the provisions of the Helsinki accords and, in particular, to allow Mart Niklus to emigrate to join his relatives in Sweden. In evaluating its relations with other countries, the United States will take into account the extent to which such countries honor their commitments under international law, especially commitments with respect to the protection of human rights.

RONALD REAGAN.●

FAREWELL TRIBUTE TO KENT HANCE

HON. BILL PATMAN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 4, 1984

● Mr. PATMAN. Mr. Speaker, I would like to take this time to offer a tribute to one of our colleagues, Congressman KENT HANCE of Texas, who will be leaving this House at the end of this Congress. KENT has served his constituents and his State with distinction, and I am proud to consider him a friend of long standing.

It was my great privilege to serve with KENT during his 4 years in the Texas Senate, when on numerous occasions we joined in efforts to preserve the family farm and ranch and promote the well-being of the most productive members of our society, our agricultural producers, in the face of all manner of adversity. KENT was, and is, an outstanding authority on some of the most vital issues affecting Texas and Texans—water rights, illegal immigration, oil and gas production, and national defense—and he has spoken brilliantly and effectively across the State and here in Congress, on behalf of his district, his State and his Nation. I have no doubt that his exemplary record of service and accomplishment is merely entering a new phase as he leaves the Congress, and I look forward with enthusiastic anticipation to the future achievements of KENT HANCE.●

A TRIBUTE TO THE HONORABLE JACK EDWARDS

HON. EDWARD P. BOLAND

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 3, 1984

● Mr. BOLAND. Mr. Speaker, I want to join my colleagues in paying tribute to one of the most extraordinary Members of the House of Representatives, JACK EDWARDS of Alabama.

I have had the pleasure and privilege of serving with JACK on the House Appropriations Committee for a number of years. He enjoys a reputation in that body as a man of uncommon ability and integrity. The respect with which he is regarded crosses both party lines and political philosophies. In the often heated debate which accompanies committee sessions, JACK's has been the voice of reason and common sense. He has shown us the path to compromise on many occasions when agreement seemed impossible, and in so doing he has greatly facilitated the work of the committee and the Congress.

JACK EDWARDS has made innumerable contributions to the security of our Nation through his work on the Defense Appropriations Subcommittee. He fought for the programs he believed were necessary to safeguard our freedom, but he never advocated the issuance of a blank check to the Pentagon. In spite of the complexity of the weapons systems with which the subcommittee must deal, JACK was dogged in his conviction that the taxpayers of America have a right to both a sound national defense and an economical one. He made his decisions on defense items like the money being considered was his own and, in my judgment, the people of America were well served in the process.

Mr. Speaker, JACK EDWARDS' service in this House has been in the best tradition of representative democracy. That service has reflected credit on both JACK and the people of Alabama whose wisdom kept him here for 20 years. He is a good and decent man whose counsel we will miss in the years ahead. I regret that he will not be with us in the next Congress, but I want to wish he, and his wife Jolane, continued success and happiness as they return to Mobile and the life they have chosen.●

FAREWELL TRIBUTE TO CHICK KAZEN

HON. BILL PATMAN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 4, 1984

● Mr. PATMAN. Mr. Speaker, as we near the end of the 98th Congress, we must soon say goodbye to one of our wisest and most respected leaders, Chairman CHICK KAZEN of the Interior Water and Power Resources Subcommittee.

CHICK is nearing the end of his 38th year in elected office, beginning in the Texas House of Representatives in 1947. In 1952, he won election to the Texas Senate, where I was privileged to serve with him during the first 6 years of my tenure there. He was one of the most able Members of that body, and his untiring efforts on behalf of the people of south Texas served as a standard for us to emulate. His long and productive service in the

Texas Legislature earned him more plaudits than I can begin to list here.

Having distinguished himself in service to this Nation in World War II conflicts ranging from northern Africa to Burma, he has continued his service through a congressional career spanning the past 18 years. It has been my particular pleasure the past 2 years to serve with him on the Water and Power Resources Subcommittee, where he has skillfully and effectively guided legislation vital to our agriculture, commerce, and environment.

CHICK KAZEN will be sorely missed in this Congress, but I hope to continue to call upon him. His counsel and his friendship have been and will continue to be very valuable to me.●

JOHN ERLENBORN

HON. ROMANO L. MAZZOLI

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Monday, October 1, 1984

● Mr. MAZZOLI. Mr. Speaker, my distinguished colleague, JOHN ERLENBORN of Illinois, has been a friend from my earliest days in the House when we served together on the Education and Labor Committee. We authored together an employment discrimination measure which is still on the books today: The Equal Employment Opportunity Act.

JOHN is an extremely knowledgeable and effective member, especially on pension and employee benefit matters. JOHN will be missed in the House as a voice of moderation and good sense. I wish him every success, and all health, and good fortune in the years ahead.●

WHY NOT A REAL DEBATE?

HON. CARROLL HUBBARD, JR.

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. HUBBARD. Mr. Speaker, while in Kentucky this past weekend, I read an article published in the Sunday, October 7, edition of the Messenger-Inquirer, in Owensboro, KY.

The feature column, written by reporter Keith Lawrence, describes the first of two debates between President Ronald Reagan and former Vice President Walter Mondale. I commend Mr. Lawrence for his thought-provoking comments, and I ask my colleagues in the House to read them.

The Keith Lawrence column follows:

WHY NOT A REAL DEBATE?

They schedule it for the Kentucky Center for the Arts. Then they start rationing the tickets like they expected Michael Jackson to appear instead of Ronald Reagan and Walter Mondale.

Then they decide to block off the street in front of the place for security reasons and keep everybody who looks like a Kentuckian a block away. Why didn't they just stay in Washington and paint a backdrop to look like Louisville?

Why do these folks need to answer questions from a bunch of big-shot journalists with Barbara Walters to referee?

Put them in Freedom Hall or Rupp Arena—which seats 10 times as many people as the Kentucky Center for the Arts—and let real people ask them questions. The kind of questions they ask themselves when they're trying to make this week's paychecks stretch to cover next week's bills.

Let's see Reagan and Mondale sweat. Let's see them go at each other one-on-one. Let's see how quick they are on their feet. This namby-pamby debate in Louisville is just a glorified press conference with a handful of high-priced reporters asking the same questions you've already been bored with all summer.

We deserve better.●

LOBBYING DISCLOSURE

HON. LEE H. HAMILTON

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. HAMILTON. Mr. Speaker, I would like to insert my Washington report for Wednesday, October 10, 1984, into the CONGRESSIONAL RECORD:

LOBBYING DISCLOSURE

Lobbying is big business today. More than 15,000 Washington lobbyists employed by special interests spend in excess of $1 billion every year trying to reach Congress, the President, and government officials with the maximum impact and chance of success. That works out to more than $2 million for each member of the Senate and House of Representatives. What is more troublesome, lobbying is a growth industry whose practices become bolder with each passing year.

Like most Americans, Hoosiers view lobbyists with suspicion. They regard them as people with disproportionate access to government who "buy" their way into power. Hoosiers are worried that their own voices are all but lost in the babble raised by lobbyists. Congressmen and Senators believe that lobbyist are often useful, sometimes essential, advocates whose expertise aids the legislative process. However, legislators are also worried about the influence of lobbyists. Their concern is fed by the knowledge that the law regulating lobbyists is not working.

Enacted in 1946, the Federal Regulation of Lobbying Act was designed to open up lobbying to public scrutiny. There are three important reasons why the act focuses on disclosure. First, public confidence in government disappears if lobbying is shrouded in secrecy. Citizens have a right to know not only what government officials are up to, but also what special interest groups are working for or against government policies. Second, policy makers need to know who the lobbyists are, whom they represent, how much money they spend, and how they spend it. A federal official cannot make a sound decision unless he knows whether the lobbyist in his office really speaks for a million people, or only for himself. Third, disclosure is the only appropriate remedy in these situations because a ban or constraint on lobbying probably would be unconstitutional. The First Amendment guarantees the right "to petition the government for a redress of grievances."

Regrettably, the current lobbying disclosure law achieves very few of its objectives. Under the law, the lobbyist must register with Congress, report his expenditures, and reveal the names of people paying more than $500 for his services. Penalties for violations are imprisonment, stiff fines and limits on future lobbying. The Supreme Court upheld the act's constitutionality in 1954, but interpreted it narrowly. The court held that the act applies only to lobbyists who get contributions from others, not to those who use their own money to lobby. Moreover, it held that the act covers only those lobbyists who put face-to-face pressure on legislators. Indirect lobbying through staffs and many varieties of "grassroots" lobbying are not covered.

The result is a hodgepodge of unenforceable and generally ignored reporting requirements. For example, a campaign by a public interest group against a bill could be covered, but not an identical campaign by a major corporation using its own funds. A trade association's newspaper advertisements against a tax would not be covered unless readers were asked to write their legislators about it. A lobbyist's letter to a legislator asking for support of a bill could be covered, but not if the lobbyist addressed the letter to staff. Identical lobbying activities could have different reporting requirements.

Overall, several factors must be present before an activity is considered to be lobbying. If any one of the factors is missing, the activity is not covered. Because of this, the act is more loophole than law. Some call it a national disgrace. Far fewer than half of the lobbyists in Washington register, and the amount of money spent on all types of lobbying may be ten times greater than that appearing in the disclosure reports. The Justice Department has not even tried to enforce the law since 1954.

In part because of the failure of past reform efforts, there is, to my dismay, little movement in Congress toward workable lobbying disclosure. However, it is a mistake to sit back and wait for a scandal to erupt. Action is urgently needed because lobbying is becoming more sophisticated, and many state-of-the-art techniques hide the real source of the appeal. For example there is the "proxy mailing" where an individual gives a lobbying group the authority to use his name to contact Congress about whatever issues the group thinks important. Another is the use by lobbying groups of laser printers to make up "grassroots" letters for their members on what appears to be personalized stationery. Yet another is the use by lobbying groups of highly refined and targeted mailing lists to find people who can be convinced to write to Congress in support of a cause.

Members of Congress in particular must have more information about what the special interests are doing. The aim is not to try to catch lobbyists lying or making sinister deals, but rather to get a better understanding of the pressures that influence Congress. What the Supreme Court said in 1954 remains true: "Present day legislative complexities are such that individual Members of Congress cannot be expected to explore the myriad pressures to which they are regularly subjected. Yet the full realization of the American ideal of government by elected representatives depends to no small extent on their ability to properly evaluate such pressures. Otherwise, the voice of the

people may too easily be drowned out by the voice of special interests masquerading as proponents of the public weal."

We must make the current lobbying disclosure law more effective. Civil penalties would help overcome our hesitancy to change violators with crimes. We should require disclosure not just of the money spent on lobbying, but also of the kinds of lobbying being undertaken. We should broaden disclosure so that it covers more "grassroots" lobbying. I would prefer a thorough disclosure law with strong sanctions, but I do not think that such a measure can be enacted in the present climate. An option would be voluntary compliance with new reporting provisions. Lobbyists value their respectability; if Congress said that they ought to disclose general information about their activities, compliance probably would be high.●

NOVEMBER 7, A DAY OF MOURNING FOR RUSSIAN-AMERICANS

HON. BENJAMIN A. GILMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. GILMAN. Mr. Speaker, November 7, 1984, marks the 67th anniversary of the rise to power of the Soviet Government. We are all too familiar with the blight of repression and persecution throughout the Soviet Union and throughout the world that had its inception on November 7, 1917.

Accordingly, the Congress of Russian-Americans has launched a campaign to designate November 7, 1984, as "A Day of Sorrow and Irreconcilability." I support the organization's efforts and request that its prepared statement on this issue be included at this point in the RECORD.

The article follows:

A DAY OF SORROW AND IRRECONCILABILITY, 1984

As we approach November the 7th, the day when the Soviet Union annually celebrates international communism's arrogation of power in Russia, we—Russian-Americans—appeal to the U.S. Government and to freedom-loving citizens of this country to designate it as a Day of Sorrow and Irreconcilability.

Sadly, albeit fittingly, among all the ethnic groups making up the tapestry of these United States of America, only the Russian-Americans persist in annually asking their Government and their fellow Americans to observe this inglorious day. Russian-Americans feel it is their sacred duty to mark with mourning and defiance the day international communism claimed their former countrymen as its first victim. Thus, they honor their brothers living under the Soviet rule.

On this day we express our sorrow for all the victims of the Communist terror, and our irreconcilability with the theory and practice of Communist doctrine.

Moreover, let us not forget that November 7, 1917 marked not only the beginning of immeasurable sufferings for the Russian and other enslaved peoples of the Soviet Union, but also the beginning of a global human tragedy which today endangers the existence of the free world. Utilizing the threat of a nuclear war, the Soviets have gradually taken over key strategic positions in all parts of the world. Today there is hardly a nation on the face of the Earth that has not been victimized by Communist aggression.

Therefore, we ask the Government of the United States and all other free world governments to designate November the 7th as a Day of Sorrow and Irreconcilability.

Over the past 67 years the Soviet Government has spared no effort in trying to strip the Russian nation of its heritage. Despite the desecration and destruction of over 50,000 churches and monasteries, the persecution and extermination of millions of people in concentration camps and prisons, we witness today in the Soviet Union a revival of faith and awakening of national pride. The determination of the Russian people to live free blazes as never before. Perhaps the Russian soul, having nurtured its people through their long, barren winter of oppression, senses at last spring's hymn of freedom yearning to be sung. How more can we honor our brothers than by lending voices to this chorus? For by proclaiming this day of sorrow and irreconcilability, we intone "Let There Be Light" and indeed for all those who hear our voices in their darkness there is light.●

THE DOG ATE MY HOMEWORK AND THE LORD UNDERSTANDS

HON. PATRICIA SCHROEDER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mrs. SCHROEDER. Mr. Speaker, I marvel at the President's ability to move around, visiting one function or another—Reagan/Bush rallies, Republican fundraisers, dinner with his penpal, a songfest at the Grand Old Opry, and photo opportunities galore. If I had a dollar for every photo opportunity Reagan's offered, I could settle the national debt with a personal check.

During the Presidential debate Sunday evening Mr. Reagan excused himself from attending church because he is afraid of a terrorist attack. "I think the Lord understands," he explained. Fundraisers and rallies yes, but church services no. I'm sure the Lord is still trying to figure that one out.

Of course, it would have been difficult to pin it on Carter. "I don't attend church because Jimmy Carter won't let me." Likewise, the Congress scapegoat wouldn't quite fit. "If it weren't for those Democrats in Congress, then I could go to church."

And comparing church attendance to remodeling a kitchen loses something in the translation.

So it is heartening to see that Reagan is expanding his repertory. He now has enough alibis, excuses, and absolutions for a full-scale Broadway musical.

We could call it, "The Dog Ate My Homework."

To paraphrase T.S. Eliot: He always has an alibi, and one or two to spare: At whatever time the deed took place—Reagan wasn't there.●

TRIBUTE TO CATHOLIC SOCIAL SERVICES

HON. FRANK HARRISON

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. HARRISON. Mr. Speaker, it is with great pride that I rise to pay tribute to the outstanding accomplishments of Catholic social services of the Diocese of Scranton, who are celebrating their 60th anniversary on October 24, 1984.

For over half a century, Catholic social services has served the needs and addressed the problems of the people of northeastern Pennsylvania. Maximizing their budget of over $1 million, during the past year Catholic social services has provided services to 11,829 individuals, 3,488 families and provided over 42,000 hours of counseling to people in need. A recitation of all the accomplishments of Catholic social services during the past 60 years would far exceed the time and space allotted here today. But an examination of the Catholic social services record over the past 10 years from 1974–84, demonstrates, quite clearly, the nature and depth of their commitment to serving the needs of their community. 1974—Court Advocate Program; 1975—Luzerne County Prison Psychological Unit; 1976—Volunteers in Probation; Runaway Youth Component of the Bridge; 1977—Juvenile Court Component/Court Advocate Program; 1979—Receipient of the Benjamin Rush Award for Outstanding Service to the Community; 1980—Treatment Alternatives to Street Crime Program; Adoption Program licensed by State of Pennsylvania; 1983—St. Vincent de Paul Soup Kitchen served its first meal; Luzerne County Alcohol Highway Safety Program was initiated; 1984—Alcohol Education Program for underage drinkers; Gabriel House developed to provide safe, affordable housing for single women.

I would like to join with the people of northeastern Pennsylvania in expressing a most sincere appreciation to Msgr. Donald A. McAndrews, A.C.S.W., and the entire staff of Catholic social services for their devotion to community service and to wish them much success in all their future endeavors.●

IN HONOR OF AN OUTSTANDING PEACE CORPS VOLUNTEER AND FELLOW BAY STATER

HON. NICHOLAS MAVROULES

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. MAVROULES. Mr. Speaker, I take pride in sharing with you and my colleagues the achievements of a fellow Bay Stater, Judy Cook. Judy, a resident of Salisbury, MA, is currently serving this country and the Third World as a Peace Corps forestry volunteer in Costa Rica.

Judy, a volunteer teacher at the Buenos Aires de Puntarenas High School, is working to establish a more successful agriculture program in Costa Rica.

Mr. Speaker, in the Costa Rican town where Judy is currently residing, she and her students had cleared the land, germinated beds, and sowed seeds without much success. Then, Judy asked for—and received—a private donation from America for a water pump.

Judy requested help from the Peace Corps Partnership Program on behalf of her school. The international sales division of the Jim Walter Corp., in Tampa, FL, quickly responded. It donated the entire $850 needed for a water pump and pump accessories.

Mr. Speaker, without a steady, accessible water supply, there had been little chance that the tiny forest and fruit tree seedlings that Judy and her students had so industriously planted would have ever matured.

The water pump, when put to use, will greatly increase the effectiveness of the school's irrigation project.

An additional benefit sparked by Judy's efforts has been the development of a lasting friendship between her Costa Rican community and the Jim Walter Corp. As a Peace Corps partner, this American company will share in an exchange of letters, music, photos, and other items that reflect Costa Rican culture and lifestyle.

Mr. Speaker, I congratulate Judy Cook and commend her for her fine achievements in Costa Rica. Thanks to Judy's work, and that of all Peace Corps volunteers, a better understanding will be fostered between Americans and the peoples of the Third World.●

THE GRAND OPENING OF PRUCARE OF RICHMOND

HON. THOMAS J. BLILEY, JR.

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. BLILEY. Mr. Speaker, it is my great privilege and pleasure as the Representative of Virginia's Third Congressional District to congratulate PruCare of Richmond on the grand opening of its new headquarters.

Begun in 1981 as a division of the Prudential Insurance Co., America's largest insurer, PruCare is now the largest health maintenance organization in the city of Richmond, counting some 25,000 Richmonders in its membership. PruCare has grown substantially since that time and should be very proud to move to these lovely new accommodations as its first permanent headquarters.

PruCare will share the 27,000 square feet of space with the McGuire Clinic, a long-established and well-respected Richmond medical group practice.

The dedication of these new premises is testament to PruCare's success in meeting today's goals of increased competition and reasonable cost in the vital area of public health care. PruCare's commitment in the Richmond metropolitan area will mean that innovation and competition will keep the costs of medical care down and make the Richmond health care marketplace more efficient.

I am confident that, as Richmond grows, PruCare will also grow in its ability to meet the needs of our community. Already PruCare is springing up in other major cities throughout America.

I send my best regards and warmest wishes to the ladies and gentlemen who make PruCare work. And I want to say a word of congratulations to Jim Brittain, vice president of PruCare of Richmond and to my old colleague Bill Leidinger, chief administrator of the McGuire Clinic.

I wish all of you continued success and good health. And I congratulate you for helping make these goals possible for the people of Richmond.●

H.R. 6420

HON. CECIL (CEC) HEFTEL

OF HAWAII

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. HEFTEL of Hawaii. Mr. Speaker, I wish to submit the language of H.R. 6420, the Cash Flow Income Tax Act of 1985, which I introduced on October 5, 1984 into the RECORD.

Attached is the text of the bill:

H.R. 6420

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; ETC.

(a) SHORT TITLE.—This Act may be cited as the "Cash Flow Income Tax Act of 1985".

(b) AMENDMENT OF 1954 CODE.—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1954.

(c) TECHNICAL AND CONFORMING AMENDMENTS.—The Secretary of the Treasury or his delegate, not later than 90 days after date of the enactment of this Act, shall submit to the Committee on Ways and Means of the House of Representatives and to the Committee on Finance of the Senate a draft of any technical and conforming amendments to the Internal Revenue Code of 1954 which are necessary to reflect the substantive amendments made by this Act.

TITLE I—CASH FLOW INCOME TAX

Subtitle A—Cash Flow Income Tax

(a) GENERAL RULE.—Section 1 (relating to tax on individuals) is amended to read as follows:

"SECTION 1. TAX IMPOSED.

"(a) MARRIED INDIVIDUALS FILING JOINT RETURNS AND SURVIVING SPOUSES.—There is hereby imposed on the taxable income of every married individual (as defined in section 143) who makes a single return jointly with his spouse under section 6013, and every surviving spouse (as defined in section 2(a)), a tax determined in accordance with the following table:

"If taxable income is:	The tax is:
Not greater than $15,000	10% of taxable income.
$15,000 or greater but not greater than the Social Security wage base.	$1,500 plus 23% of taxable income in excess of $15,000.
The Social Security wage base or greater.	30% of taxable income in excess of the Social Security wage base plus $1,500 plus 23% of taxable income between $15,000 and the Social Security wage base.

"(b) HEADS OF HOUSEHOLDS.—There is hereby imposed on the taxable income of every individual who is the head of a household (as defined in section 2(b)) a tax determined in accordance with the following table:

"If taxable income is:	The tax is:
Not greater than $12,000	10% of taxable income.
$12,000 or greater but not greater than the Social Security wage base.	$1,200 plus 23% of taxable income in excess of $12,000.
The Social Security wage base or greater.	30% of taxable income in excess of the Social Security wage base plus $1,200 plus 23% of taxable income between $12,000 and the Social Security wage base.

"(c) UNMARRIED INDIVIDUALS (Other Than Surviving Spouses and Heads of Households).—There is hereby imposed on the taxable income of every individual (other than a surviving spouse as defined in section 2(a) or the head of a household as defined in section 2(3)) who is not a married individual (as defined in section 143), a tax determined in accordance with the following table:

"If taxable income is:	The tax is:
Not greater than $12,000	10% of taxable income.
$12,000 or greater but not greater than the Social Security Wage base.	$1,200 plus 23% of taxable income in excess of $12,000.
The Social Security wage base or greater.	30% of taxable income in excess of the Social Security wage base plus $1,200 plus 23% of taxable income between $12,000 and the Social Security wage base.

"(d) MARRIED INDIVIDUALS FILING SEPARATE RETURNS.—There is hereby imposed on the

taxable income of every married individual (as defined in section 143) who does not file a return jointly with his spouse under section 6013 a tax determined in accordance with the following table:

"If taxable income is:	The tax is:
Not greater than $7,500..	10% of taxable income.
$7,500 or greater but not greater than the Social Security Wage base.	$750 plus 23% of taxable income in excess of $7,500.
The Social Security wage base or greater.	30% of taxable income in excess of the Social Security wage base plus $750 plus 23% of taxable income between $7,500 and the Social Security wage base.

"(e) ESTATES AND TRUSTS.—There is hereby imposed on the taxable income in excess of $3,000 of every estate and trust taxable under this subsection a tax of 30%.

"(f) ADJUSTMENTS SO THAT INFLATION WILL NOT REDUCE THE VALUE OF STANDARD DEDUCTIONS AND CREDIT AMOUNTS.

"(1) IN GENERAL.—Not later than December 15 of 1985 and each subsequent calendar year, the Secretary shall prescribe the standard deduction, dependent credit and 'ten percent bracket' amounts which shall apply in lieu of the amounts defined in paragraph (1) with respect to taxable years beginning in succeeding calendar year.

"(2) METHOD OF ADJUSTING AMOUNTS.—The amounts which shall apply in lieu of the amounts described in paragraph (1) with respect to taxable years beginning in any calendar year shall be prescribed by increasing each amount contained in paragraph (1) by the 'cost-of-living adjustment' for such calendar year. If such increase is not a multiple of $10, such increase shall be rounded to the nearest multiple of $10 (or if such increase is a multiple of $5 but not a multiple of $10, such increase shall be increased to the next multiple of $10).

"(3) COST-OF-LIVING ADJUSTMENT DEFINED.—For purposes of paragraph (2), the cost-of-living adjustment for any calendar year is the percentage (if any) by which—

"(A) the CPI for the preceding calendar year, exceeds

"(B) the CPI for the calendar year 1985.

"(4) CPI FOR ANY CALENDAR YEAR.—For purposes of paragraph (3), the CPI for any preceding calendar year (or for 1985) is the average of the Consumer Price Index as of the close of the 12-month period ending on September 30 of such preceding calendar year (or 1985, as the case may be).

"(5) CONSUMER PRICE INDEX.—For purposes of paragraph (4), the term "Consumer Price Index" means the most recent Consumer Price Index for all-urban consumers published by the Department of Labor.

"(6) TEN PERCENT BRACKET DEFINED.—For purposes of paragraph (1), the term "ten percent bracket amount" means the highest taxable income subject to no more than 10% tax.".

(b) REPEALS RELATED TO REPEAL OF INCOME TAX.—The following provisions are hereby repealed:

(1) Part VI of subchapter A of chapter 1 (relating to minimum tax for tax preferences).

(2) Part I of subchapter G of chapter 1 (relating to corporations improperly accumulating surplus).

(3) Part II of subchapter G of chapter 1 (relating to personal holding companies).

(4) Part III subchapter G of chapter 1 (relating to foreign personal holding companies).

(5) Part IV of subchapter G of chapter 1 (relating to deductions for dividends paid).

SEC. 102. IMPOSITION OF TAX ON CORPORATIONS.

Section 11 (relating to tax on corporations) is amended to read as follows:

"SEC. 11. TAX IMPOSED.

"(a) GENERAL RULE.—There is hereby imposed on the taxable income of every corporation a tax of 30 percent.

"(b) MINIMUM TAX WHERE CORPORATION ACCUMULATES SURPLUS.—

"(1) IN GENERAL.—The amount of the tax imposed by this section on any corporation for any taxable year shall not be less than 30 percent of any 'accumulated surplus'.

"(2) ACCUMULATED SURPLUS.—For purposes of this section, 'accumulated surplus' means the 'adjusted net income' of the corporation less the dividends (including stock dividends) paid by the corporation during the taxable year.

"(3) ADJUSTED NET INCOME.—For purposes of this section—

"(A) IN GENERAL.—The term 'adjusted net income' means the net income of the corporation for the taxable year, less the aggregate adjusted bases of the depreciable property placed in service by the corporation during the taxable year.

"(B) TREATMENT OF SPECIAL DEDUCTIONS FOR CORPORATIONS.—For purposes of subparagraph (A), the deductions provided by part VIII of subchapter B of this chapter shall be treated as deductions allowable in computing net income.

"(C) DEPRECIABLE PROPERTY.—The term 'depreciable property' means any property which would be subject of the allowance for depreciation provided by section 167 (as in effect prior to its repeal by this Act).".

SEC. 103. DEFINITION OF TAXABLE INCOME

Part I of subchapter B of chapter 1 is amended to read as follows:

"PART I—DEFINITION OF TAXABLE INCOME

"Sec. 61. Taxable income defined.
"Sec. 62. Adjusted gross income defined.
"Sec. 63. Net income defined.
"Sec. 64. Gross income defined.
"Sec. 65. Unlimited carry forwards.

"SEC. 61. TAXABLE INCOME DEFINED.

"(a) IN GENERAL.—Except as provided in subsection (b), for purposes of this subtitle, the term 'taxable income' means adjusted gross income minus the deductions allowed by this chapter (other than the deductions allowable in computing net income).

"(b) INDIVIDUALS WHO DO NOT ITEMIZE THEIR DEDUCTIONS.—In the case of an individual who does not elect to itemize his deductions for the taxable year, for purposes of this subtitle, the term 'taxable income' means adjusted gross income minus the standard deduction.

"(c) STANDARD DEDUCTION.—For purposes of this subtitle—

"(1) IN GENERAL.—Except as otherwise provided in this subsection, the term 'standard deduction' means—

"(A) $8,000 in the case of—

"(i) a joint return under section 6013, or

"(ii) a surviving spouse (as defined in section 2(a)),

"(B) $6,000 in the case of an individual who is the head of a household (as defined in section 2(b)),

"(C) $4,000 in the case of an individual who is not married and who is not a surviving spouse (as defined in section 2(a))),

"(D) $4,000 in the case of a married individual filing a separate return, or

"(E) zero in any other case.

"(2) LIMITATION ON STANDARD DEDUCTION IN THE CASE OF CERTAIN DEPENDENTS.—In the case of an individual with respect to whom a credit under section 151 is allowable to another taxpayer, the standard deduction applicable to such individual for such individual's taxable year shall not exceed such individual's earned income.

"(3) CERTAIN INDIVIDUALS NOT ELIGIBLE FOR STANDARD DEDUCTION.—In the case of—

"(A) a married individual filing a separate return where either spouse itemizes deductions,

"(B) a nonresident alien individual,

"(C) an individual making a return under section 443(a)(1) for a period of less than 12 months on account of a change in his annual accounting period,

"(D) an estate or trust, common trust fund, or partnership, or

"(E) a corporation,

the standard deduction shall be zero.

"(d) ITEMIZED DEDUCTIONS.—For purposes of this subtitle, the term 'itemized deductions' means the deductions allowable by this chapter other than the deductions allowable in arriving at net income.

"(e) ELECTION TO ITEMIZE.—

"(1) IN GENERAL.—Unless an individual makes an election under this subsection for the taxable year, no itemized deduction shall be allowed for the taxable year. For purposes of this subtitle, the determination of whether a deduction is allowable under this chapter shall be made without regard to the preceding sentence.

"(2) TIME AND MANNER OF ELECTION.—Any election under this subsection shall be made on the taxpayer's return, and the Secretary shall prescribe the manner of signifying such election on the return.

"(3) CHANGE OF TREATMENT.—Under regulations prescribed by the Secretary, a change of treatment with respect to the standard deduction and itemized deductions for any taxable year may be made after the filing of the return for such year. If the spouse of the taxpayer filed a separate return for any taxable year corresponding to the taxable year of the taxpayer, the change shall not be allowed unless, in accordance with such regulations—

"(A) the spouse, for the taxable year covered in such separate return, makes a change of treatment with respect to the standard deduction and itemized deductions consistent with the change of treatment sought by the taxpayer, and

"(B) the taxpayer and his spouse, within such period as may be agreed on with the Secretary, consent in writing to the assessment of any deficiency, to the extent attributable to such change of treatment, even though at the time of the filing of such consent the assessment of such deficiency would otherwise be prevented by the operation of any law or rule of law.

This paragraph shall not apply if the tax liability of the taxpayer's spouse, for the taxable year corresponding to the taxable year of the taxpayer, has been compromised under section 7122.

"(f) MARITAL STATUS.—For purposes of this section, marital status shall be determined under section 143.

"SEC. 62. ADJUSTED GROSS INCOME DEFINED.

"(a) GENERAL RULE.—For purposes of this subtitle, the term 'adjusted gross income' means the sum of:

"(1) the net income for the taxable year,

"(2) any increase in indebtedness for the taxable year, and

"(3) any decrease in savings for the taxable year, less,

"(1) any decrease in indebtedness for the taxable year, and

"(2) any increase in savings for the taxable year.

"(b) INCREASE OR DECREASE IN INDEBTEDNESS.—For purposes of this section—

"(1) INCREASE (OR DECREASE) IN INDEBTEDNESS.—The increase (or decrease) in indebtedness for any taxable year is the indebtedness of the taxpayer as of the close of the taxable year less the indebtedness of the taxpayer as of the close of the preceding taxable year.

"(2)(A) INDEBTEDNESS OF THE TAXPAYER.—The term 'indebtedness of the taxpayer' means any indebtedness—

"(i) for which the taxpayer is liable, or

"(ii) secured by property which the taxpayer beneficially owns.

"(B) EXCLUSION ELECTION.—Each taxpayermay elect to exclude from adjusted gross income, in a manner prescribed by the Secretary, up to $20,000 in indebtedness. If taxpayer so elects, then neither the interest nor principal payments arising from such loan or loans shall be deductible for purposes of this title.

"(3) TREATMENT OF PARTNERSIP DEBT.—If the taxpayer is a partner in a partnership, such term includes the taxpayer's proportionate share of the partnership's indebtedness.

"(4) TREATMENT OF JOINT INDEBTEDNESS.—In the event that more than one taxpayer is liable for a given debt, then the taxpayers may elect, in a manner prescribed by the Secretary, how the debt is to be apportioned between them for purposes of this section. However, in the absence of such an agreement, then the debt may be apportioned by the Secretary.

"(c) INCREASE OR DECREASE IN SAVINGS.—For purposes of this section—

"(1) INCREASE (OR DECREASE) IN INVESTMENT ASSETS.—The increase (or decrease) in savings for any taxable year is the aggregate adjusted bases of investment assets held by the taxpayer as of the close of the taxable year, less the aggregate adjusted bases of the investment assets held by the taxpayer as of the close of the preceding taxable year.

"(2) INVESTMENT ASSETS.—

"(A) IN GENERAL.—Except as otherwise provided in this paragraph, the term 'investment asset' means any property which is held by the taxpayer—

"(i) as an investment, or

"(ii) for use in the active conduct of a trade or business.

"(B) RESIDENCES INCLUDED.—Real property used by the taxpayer as a primary residence shall be treated as an investment asset.

"(C) INTEREST IN QUALIFIED PLANS.—The term 'investment asset' includes any interest in—

"(i) a trust described in section 401(a) which is exempt from tax under section 501(a),

"(ii) an annuity contract described in section 403, or

"(iii) an individual retirement plan.

"(D) DEPOSITS OR ACCOUNTS IN FINANCIAL INSTITUTIONS.—The term 'investment asset' includes any deposit or account in a financial institution.

"(E) NONINVESTMENT ASSETS.—Any property purchased by the taxpayer primarily for his personal use, consumption or enjoyment shall not be treated as an investment asset."

"(3) TREATMENT OF BEQUESTS.—

"(A) GENERAL RULE.—Any reductions (or increases) in aggregate adjusted bases of investment assets or indebtedness because of liquidation and distribution to the taxpayer's heirs of estate of deceased taxpayer shall be included in the adjusted gross income of the taxpayer.

"(B) CREDIT AGAINST TAX.—

"(i) GENERAL RULE.—A credit of 30% of the total distribution to the taxpayer's heirs shall be allowed against the tax imposed by this title.

"(ii) The credit allowed by subparagraph (i) shall not exceed $90,000.

"(C) FAILURE TO DISTRIBUTE PROPERTY.—Property of deceased taxpayer not distributed to heirs within two years of date of death shall be treated by the Secretary as if distributed.

"SEC. 63. NET INCOME DEFINED.

"For purposes of this subtitle, the term 'net income' means gross income minus the following deductions:

"(1) TRADE AND BUSINESS DEDUCTIONS.—

"(A) IN GENERAL.—The deductions allowed by this chapter (other than by part VII of this subchapter) which are attributable to a trade or business carried on by the taxpayer if such trade or business does not consist of the performance of services by the taxpayer as an employee.

"(B) FOREIGN TAXES DEDUCTIBLE.—The amount of taxes imposed by foreign countries and possessions of The United States shall be allowed as a deduction from gross income. The deduction allowed by this paragraph shall be in lieu of the credit allowed by section 33 prior to its repeal by this act.

"(2) TRADE AND BUSINESS DEDUCTIONS OF EMPLOYEES.—

"(A) REIMBURSED EXPENSES.—The deductions allowed by part VI (section 161 and following) which consist of expenses paid or incurred by the taxpayer, in connection with the performance by him of services as an employee, under a reimbursement or other expense allowance arrangement with his employer.

"(B) EXPENSES FOR TRAVEL AWAY FROM HOME.—The deductions allowable by part VI (section 161 and following) which consist of expenses of travel, meals, and lodging while away from home, paid or incurred by the taxpayer in connection with the performance by him of services as an employee.

"(C) TRANSPORTATION EXPENSES.—The deductions allowed by part VI (section 161 and following) which consist of expenses of transportation paid or incurred by the taxpayer in connection with the performance by him of services as an employee.

"(D) OUTSIDE SALESMEN.—The deductions allowed by part VI (section 161 and following) which are attributable to a trade or business carried on by the taxpayer, if such trade or business consists of the performance of services by the taxpayer as an employee and if such trade or business is to solicit, away from the employer's place of business, business for the employer.

"(3) LOSSES FROM SALE OR EXCHANGE OF PROPERTY.—The deductions allowed by part VI (section 161 and following) as losses from the sale or exchange of property.

"(4) DEDUCTIONS ATTRIBUTABLE TO RENTS AND ROYALTIES.—The deductions allowed by part VI (section 161 and following) and by section 212 (relating to expenses for production of income) which are attributable to property held for the production of rents or royalties.

"(6) ALIMONY.—The deduction allowed by section 215.

"Nothing in this section shall permit the same item to be deducted more than once.

"SEC. 64. GROSS INCOME DEFINED.

"(a) GENERAL DEFINITION.—Except as otherwise provided in this subtitle, gross income means all income from whatever source derived, including (but not limited to) the following items:

"(1) Compensation for services, including fees, commissions, employer contributions to employee benefit plans (as defined in subsection (b)(1)) and similar items.

"(2) Gross income derived from business.

"(3) Gains derived from dealings in property.

"(4) Interest.

"(5) Rents.

"(6) Royalties.

"(7) Dividends (including stock dividends).

"(8) Alimony and separate maintenance payments.

"(9) Annuities.

"(10) Income from life insurance and endowment contracts.

"(11) Pensions (including social security benefits).

"(12) Unemployment compensation.

"(13) Income from the discharge of indebtedness.

"(14) Distributive share of partnership gross income.

"(15) Income in respect of a decedent.

"(16) Income from an interest in an estate or trust.

"(17) Gifts, inheritances and bequests (as defined in section 88).

"(18) Prizes and awards.

"(b) Except as otherwise provided in this subtitle, the term 'employer contributions to employee benefit plans.' means—

"(1) the cost of group-term life insurance on an employee's life (as defined in section 137), and

"(2) the cost of accident and health insurance plans

"(c) CROSS REFERENCES.—For items specifically included in gross income, see part II (section 71 and following). For items specifically excluded from gross income, see part III (Section 101 and following).

"SECTION 65. UNLIMITED CARRY FORWARDS.

"(a) CORPORATE TAXPAYERS.—Any provision to the contrary notwithstanding, when corporate adjusted net income flow is negative, the negative amount may be carried forward to offset positive taxes in future years. There is no limitation on the amount or duration of the carry-forward.

"(b) OTHER TAXPAYERS.—Any provision to the contrary notwithstanding, when a taxpayer's taxable income is negative, the negative amount may be carried forward to offset positive taxes in future years provided that the taxpayer is not an individual with respect to whom a credit under section 151 is allowable to another person.

"SEC. 105. CREDIT IN LIEU OF DEDUCTION FOR DEPENDENTS.

"SEC. 21. DEPENDENT CREDIT.

"(a) GENERAL RULE.—There shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to $200 for each dependent exemption of the taxpayer.

"(b) CREDIT IN LIEU OF DEDUCTION—

"The credit provided by subsection (a) shall be in lieu of any deduction allowed by section 151.

"(c) DEPENDENT EXEMPTION.—The term 'dependent exemption' means any exemption for which a deduction would be allowed under section 151 to the taxpayer but for subsection (b) of this section.

"(d) CREDIT NOT TO EXCEED TAX.—The credit allowed by subsection as for taxable

year shall not exceed the tax imposed by this chapter for such taxable year.".

Subtitle B—Base Broadening

PART I—CREDITS

SEC. 121. REPEALS.

The following provisions are hereby repealed:

(1) Section 21 (relating to expenses for household and dependent care services necessary for gainful employment).

(2) Section 22 (relating to credit for the elderly and the permanently and totally disabled).

(3) Section 23 (relating to residential energy credits).

(4) Section 24 (relating to contributions to candidates for public office).

(5) Section 25 (relating to interest on certain home mortgages).

(6) Section 26 (relating to tax credits generally).

(7) Sections 27, 901, and 936 (relating to taxes of foreign countries and possessions of the United States; possession tax credit).

(8) Section 28 (relating to clinical testing expenses for certain drugs for rare diseases and conditions).

(9) Section 29 (relating to credit for producing fuel from a nonconventional source).

(10) Section 30 (relating to credit for increasing research activities).

(11) Section 32 (relating to earned income).

(12) Section 38 and subparts B and E of part IV of subchapter A of chapter 1 (relating to credit for investment in certain depreciable property).

(13) Section 40 and 87 (relating to alcohol used as fuel).

(14) Section 41 and 409A (relating to employee stock-ownership credit).

PART II— EXCLUSIONS

Subpart A—Repeals

SEC. 131. REPEALS.

The following provisions are hereby repealed:

(1) Section 101 (relating to certain death benefits).

(2) Section 102 (relating to gifts and inheritances).

(3) Section 103 (relating to interest on certain governmental obligations.

(4) Section 103A (relating to mortgage subsidy bonds).

(5) Section 105 (relating to amounts received under accident and health plans).

(6) Section 106 (relating to contributions by employer to accident and health plans).

(7) Section 108 (relating to income from discharge of indebtedness).

(8) Sections 109 and 110 (relating to improvements and taxes by lessees).

(9) Section 112 (relating to certain combat pay of members of the Armed Forces).

(10) Section 113 (relating to mustering-out payments for members of the Armed Forces).

(11) Section 116 (relating to partial exclusions of dividends received by individuals).

(12) Section 117 (relating to scholarships and fellowship grants).

(13) Section 120 (relating to amounts received under qualified group legal services plans).

(14) Section 121 (relating to one-time exclusion of gain from sale of principal residence by individual who has attained age 55).

(15) Section 125 (relating to cafeteria plans).

(16) Section 126 (relating to certain employer commuting expenses).

(17) Section 126 (relating to certain cost-sharing payments).

(18) Section 127 (relating to educational assistance programs).

(19) Section 129 (relating to dependent care assistance programs).

(20) Section 133 (relating to certain loan interest expense).

(21) Section 305(e) (relating to dividend reinvestment in public utilities).

(22) Section 621 (relating to payments to encourage exploration, development, and mining for defense purposes).

(23) Section 911 (relating to to earned income of citizens or residents living abroad).

(24) Section 912 (relating to exemption for certain allowances).

(25) Section 931 (relating to income from sources within possessions of the United States).

(26) Section 933 (relating to income from sources within Puerto Rico).

Subpart B—Other Changes

SEC. 136. PRIZES AND AWARDS.

Section 74 is amended to read as follows:

"SEC. 74. PRIZES AND AWARDS.

"Gross income includes amounts received as prizes and awards.".

SEC. 137. GROUP-TERM LIFE INSURANCE PURCHASED FOR EMPLOYEES.

(a) IN GENERAL.—Subsection (a) of section 79 (relating to group-term life insurance purchased for employees) is amended to read as follows:

"(a) IN GENERAL.—There shall be included in the gross income of an employee for the taxable year an amount equal to the cost of group-term life insurance on his life provided for part or all of such year under a policy (or policies) carried directly or indirectly by his employer (or employers); but only to the extent that such cost exceeds the amount, if any, paid by the employee toward the purchase of such insurance.".

(b) EXCEPTIONS.—Subsection (b) of section 79 (relating to exceptions) is amended by striking out paragraph (1) and by redesignating paragraphs (2) and (3) as paragraphs (1) and (2), respectively.

(c) CONFORMING AMENDMENT.—Subsection (d) of section 79 is hereby repealed.

SEC. 138. TAXATION OF UNEMPLOYMENT COMPENSATION.

(a) IN GENERAL.—Subsection (a) of section 85 (relating to unemployment compensation) is amended to read as follows:

"(a) IN GENERAL.—Gross income includes any unemployment compensation received by the taxpayer during the taxable year.".

(b) CONFORMING AMENDMENT.—Section 85 is amended by striking out subsection (b) and redesignating subsection (c) as subsection (b).

SEC. 139. SOCIAL SECURITY AND TIER 1 RAILROAD RETIREMENT BENEFITS.

Section 86 (relating to social security and tier 1 railroad retirement benefits) is amended by striking out subsections (a), (b), and (c) and inserting in lieu thereof the following:

"(a) IN GENERAL.—Gross income for the taxable year includes the social security benefits received during the taxable year.".

SEC. 140. GIFTS, BEQUESTS, ETC., INCLUDED IN GROSS INCOME.

Part II of subchapter B of chapter 1 is amended by adding at the end thereof the following new section:

"SEC. 88. GIFTS, BEQUESTS, ETC.

"(a) IN GENERAL.—Gross income includes the value of property acquired by a gift, bequest, devise, or inheritance.

"(b) DEMINIMUS EXCLUSION.—A taxpayer may exclude up to $5,000 per year of property acquired by gift, bequest, devise or inheritance from gross income."

PART III—DEDUCTIONS

Subpart A—Repeals

SEC. 151. REPEALS.

The following provisions are hereby repealed:

(1) Section 167 (relating to depreciation).

(2) Section 168 (relating to accelerated cost recovery system).

(3) Section 169 (relating to amortization of pollution control facilities).

(4) Section 171 (relating to amortizable bond premiums).

(5) Section 172 (relating to Net Operating Loss Deductions).

(6) Section 173 (relating to circulation expenditures).

(7) Section 174 (relating to research and experimental expenditures).

(8) Section 175 (relating to soil and water conservation expenditures).

(9) Section 177 (relating to trademark and trade name expenditures).

(10) Section 178 (relating to improvements by lessees).

(11) Section 179 (relating to election to expense certain depreciable business assets).

(12) Section 180 (relating to expenditures by farmers for fertilizer, etc.)

(13) Section 182 (relating to expenditures by farmers for clearing land).

(14) Section 184 (relating to amortization of certain railroad rolling stock).

(15) Section 185 (relating to amortization of railroad grading and tunnel bores).

(16) Section 188 (relating to amortization of certain expenditures for child care facilities).

(17) Section 189 (relating to amortization of real property construction period interest and taxes).

(18) Section 190 (relating to expenditures to remove architectural and transportation barriers to the handicapped and elderly).

(19) Section 192 (relating to contributions to black lung benefit trust).

(20) Section 193 (relating to tertiary injectants).

(21) Section 194 (relating to amortization of reforestation expenditures).

(22) Section 194A (relating to contributions to employer liability trusts).

(23) Section 195 (relating to startup expenditures).

(24) Section 196 (relating to deduction for certain unused investment credits).

(25) Section 216 (relating to cooperative housing corporations).

(26) Section 217 (relating to moving expenses).

(27) Section 218 (relating to political contributions).

(28) Section 219 (relating to retirement savings).

(29) Section 221 (relating to deduction for two-earner married couples).

(30) Section 222 (relating to adoption expenses).

(31) Section 263 (relating to certain capital expenditures).

(32) Section 265 (relating to certain interest expenses).

(33) Section 266 (relating to certain carrying charges).

(34) Section 268 (relating to sale of land with unharvested crops).

(35) Section 272 (relating to disposal of coal).

(36) Section 278 (relating to certain capital expenditures).

(37) Section 279 (relating to interest on certain indebtedness).

(38) Section 280 (relating to certain expenditures incurred in the production of films, books, records, etc.).

(39) Section 280B (relating to the demolition of structures).

(40) Section 280C (relating to certain expenses for which credits are available).

(41) Section 280F (relating limitation on the investment credit, etc.).

(42) Section 281 (relating to terminal railroad corporations).

(43) Part XI of subchapter B of Chapter 1 (relating to corporation preference items).

(44) Part I of subchapter I of chapter 1 (relating to depletion deduction, etc.).

Subpart B—Other Changes

SEC. 156 LIMITATION ON DEDUCTION FOR INTEREST EXPENSE.

Subsection (a) of section 163 is amended to read as follows:

"(A) GENERAL RULE.—There shall be allowed as a deduction all interest paid or accrued within the taxable year on indebtedness. Interest deductible shall include interest incurred to purchase, carry or improve an investment asset (as defined in section 62(c)(2) including subparagraph B (relating to primary residences)). Consumer interest expense shall not be deductible.".

SEC. 157. REPEAL OF DEDUCTION FOR REAL AND PERSONAL PROPERTY TAXES.

Subsection (a) of section 164 (relating to deduction for taxes) is amended by striking out paragraphs (1) and (2) and by redesignating paragraphs (3), (4), and (5) as paragraphs (1), (2), and (3), respectively.

SEC. 158 DEDUCTION FOR CHARITABLE CONTRIBUTIONS LIMITED TO 5 PERCENT OF ADJUSTED GROSS INCOME.

Subsection (b) of section 170 (relating to percentage limitation) is amended to read as follows:

"(b) PERCENTAGE LIMITATION.—The amount allowable as a deduction under subsection (a) for any taxable year shall not exceed 5 percent of the taxpayer's adjusted gross income for such taxable year.".

"Subsection (e) of section 170 is repealed and subsection (j) is redesignated as subsection (f).

SEC. 159 DEDUCTION FOR MEDICAL, DENTAL, ETC., EXPENSES.

Subsection (a) of section 213 (relating to deduction for medical, dental, etc., expenses) is amended by striking out "5 percent" and inserting in lieu thereof "10 percent".

SEC. 160 DEDUCTION FOR CASUALTY LOSSES.

Subsection (h) of section 165 (relating to casualty and theft losses) is amended to read as follows:

"(h) CASUALTY AND THEFT LOSSES.—

"(1) IN GENERAL.—Any loss of an individual described in subsection (c)(3) shall be allowed for any taxable year only to the extent that the aggregate amount of such losses sustained by such individual during the taxable year exceed $500.

"(2) SPECIAL RULE.—

"(A) JOINT RETURNS.—For purposes of the $500 limitation of paragraph (1), a husband and wife making a joint return for the taxable year shall be treated as one individual.".

SEC. 161 REPEAL OF LIMITATIONS ON ALLOWANCE OF CAPITAL LOSSES.

Section 165(f) and part II of subchapter P of chapter 1 (relating to limitation on capital losses) are hereby repealed.

Subpart C—Other repeals

The following are hereby repealed:

Part IV of subchapter N of Chapter 1 (relating to Domestic International sales Corporations).

Subpart C of Part III of subchapter N of Chapter 1 (relating to Foreign Sales Corporations).

Subpart A of Part III of subchapter N of Chapter 1 (relating to the foreign tax credit).

Subpart G of Part III of subchapter N of Chapter 1 (relating to export trade corporations).

Subchapter P of Chapter 1 (relating to the taxation of capital gains).

Subchapter S of Chapter 1 (relating to S corporations).

Subchapter T of Chapter 1 (relating to cooperatives).

SUBTITLE C—EFFECTIVE DATE

SEC. 171. EFFECTIVE DATE.

The amendments made by this title shall apply to taxable years beginning after December 31, 1985.

TITLE II—REPEAL OF ESTATE AND GIFT TAXES

SEC. 201. REPEAL OF ESTATE AND GIFT TAX.

(a) GENERAL RULE.—Subtitle B (relating to estate and gift tax) is hereby repealed.

(b) Subchapter J. of Subtitle A (relating to estates, etc.) is hereby repealed.

(c) CROSS REFERENCE.—For provision treating inheritances and gifts as includible in gross income, see section 88 of the Internal Revenue Code of 1954 (as added by section 140 of this Act) and section 64 (as added by section 103 of this Act).

SEC. 203. EFFECTIVE DATE.

The amendments made by this title shall apply with respect to estates of decedents dying after, and gifts made after, December 31, 1985.●

TRIBUTE TO HON. ABRAHAM "CHICK" KAZEN, JR.

HON. MELVIN PRICE

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 4, 1984

● Mr. PRICE. Mr. Speaker, as the gavel sounds for the adjournment of the 98th Congress, it will mean the loss of the experience and talents of one of our most able colleagues, ABRAHAM "CHICK" KAZEN, JR. I am privileged to join others in honoring this outstanding public servant who has served his Texas constituents and our Nation in a superior manner.

As chairman of the Armed Services Committee, it has been my privilege to work very closely with CHICK during his 18 years of exemplary service in the House of Representatives. Although he was active in matters pertaining to defense, education, agriculture, housing, land planning, and veterans' affairs, it was as a member of the Armed Services Subcommittee on Military Installations and Facilities that he probably made his most lasting contribution. He had a significant hand in providing necessary facilities modernization and improvements for our Armed Forces worldwide.

CHICK believed strongly that Congress had a responsibility to provide adequate living and working conditions for our men and women in uniform and their dependents. One of his major concerns was to assure that adequate medical care was available for active duty members as well as military retirees and their families. In this regard, he worked tirelessly to initiate legislation that will eventually provide a replacement facility for the outmoded and dilapidated Brooke Army Medical Center in San Antonio, TX. Because of his efforts, this new hospital will become a reality after years of frustration.

As a member of the Armed Services Committee, CHICK KAZEN has been unfailingly attentive to the interests of his own constituency and conscientious in the discharge of his duty to maintain the strength and readiness of the Nation's defenses. It has been a high privilege and a great pleasure to serve with him.

CHICK will be sorely missed by his colleagues in the Congress and by the Nation as well. I wish him and his lovely wife, Connie, happiness and success in all their future endeavors.●

CELEBRATING THE WORK OF MRS. JOSEPHINE GRAY

HON. DAN MICA

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. MICA. Mr. Speaker, let me take a moment at the end of this legislative year to note the humane and selfless contributions of a women from my district in Palm Beach County, Mrs. Josephine Gray. After serving with the Peace Corps in St. John's, Antigua, for 2 years, Mrs. Gray has extended her commitment to the corps for an additional term.

Mrs. Gray graduated from Columbia University and taught art at Palm Beach Junior College for 15 years. She left the United States in June 1982 as a member of Peace Corps to teach cottage industries to the local population of St. John's. Through her efforts these people learn a craft which enables them to produce a sellable product and benefit their economic situation.

It is just such personal and meaningful interaction that is the true measure of American passion and concern. I commend Mrs. Gray for her work. I expect that the tradition of personal service and commitment that she reflects will live longer after some of the more formal diplomatic initiatives we undertake.●

FOOD CRISIS IN CHAD

HON. MICKEY LELAND

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. LELAND. Mr. Speaker, I call your attention to an article that appeared in the New York Times, October 10, 1984, on hunger caused by drought conditions in Chad where thousands have left their homes in search of food. The situation in Chad is presented in the context of suffering throughout Africa. Because new reports of hunger arrive daily from Africa, 56 Members of the House joined Representative HOWARD WOLPE and me in a letter directing M. Peter McPherson, Administrator of the Agency for International Development, to report monthly on the needs of African nations and urged the use of emergency reserves promptly during the times when Congress is adjourned.

[From the New York Times, Oct. 10, 1984]

CHAD GRIPPED BY FOOD CRISIS AS DROUGHT EMPTIES VILLAGES

(By Clifford D. May)

NDJAMENA, CHAD, October 3.—Abandoning his home, the Chadian village chief said, was the last thing he thought he would ever do.

But when the months dragged by without rain, causing the millet and maize to turn brown and shriveled and the animals to die, the chief said, he came to see that he and his people had no other choice.

"Most of us had never before in our lives left the village," said the chief, Adouna Makai, whose village is near Ati, 250 miles from Ndjamena, the Chadian capital. "But there is nothing there now. Not even a dog is left."

The villagers, he said, traveled by truck when they could find one and on foot when they could not. In a little less than a month they had completed the trek to Ndjamena.

They were not the first to arrive; there are thought to be 50,000 displaced people in Ndjamena, previously a city of 300,000. In Chad as a whole, which has a population of not much under five million, roughly 150,000 people are believed to have fled their homes in order to survive.

MILLIONS OF DISPLACED PEOPLE

But the effect of the long dry spell on Chad is only part of a larger problem: In Africa south of the Sahara, 150 million people are suffering as a result of drought. Up to five million are said to have become refugees. Uncounted millions more are believed to have become displaced, a category that differs from that of refugee only in that the displaced people have crossed international boundaries.

The drought has hit particularly hard in the Sahelian-Sudanese belt, an ecologically fragile swath of territory stretching from Mauritania on the Atlantic to Somalia on the Indian Ocean 3,500 miles away.

In Chad, relief officials believe 1,000 people have died as a result of starvation or malnutrition since July. The situation, they said is almost certain to deteriorate further when what is normally referred to as the dry season begins in the next few weeks.

"For Chad, this current drought is worse than the great drought of the 1970's," said Jamie Wickens, the representative in Ndjamena of the Food and Agriculture Organization. "The food needs will certainly be greater."

TREND SEEN BY EXPERTS

No one really knows what is causing the drought or how long it will last. Many scientists fear, however, that a long-term climatic change may be under way, aggravated to some degree by man-made ecological damage such as over-grazing and extensive cutting of forests.

The drought of the early 1970's and the current drought, a growing number of experts have come to suspect, may be not separate events but rather symptoms of the same trend or of a single phase in the climatic cycle.

Adapting to such changes may have been simpler in the past. Some anthropologists point out that about 100 years ago there were virtually no nations as such in Africa south of the Sahara, so severe changes in the weather would have merely caused people to pick up and move on to greener areas that were sparsely inhabited or poorly defended.

Now, however, such migrations can no longer occur without causing political and social turmoil.

Relief officials say they believe it will be more difficult to help Chad than most of the other drought-stricken countries of Africa. The country is landlocked and the best port in the region is at Lagos, Nigeria. But Nigeria has closed its borders with its neighbors, saying it has economic problems of its own.

Even if adequate supplies of food do arrive, distribution is likely to be a logistical nightmare, the relief officials said. The north of Chad has been under the control of Libyan-backed rebels for more than a year, and insurgent activity has been flaring sporadically in the south as well.

NO RAILROADS OR HIGHWAYS

The country, which is as large as Texas, Oklahoma and California combined, has no railroads or highways, although there are dirt tracks that are passable at certain times of the year.

In the past special camps have been set up where displaced people could be housed and fed. Relief officials said, however, that they would prefer another approach if possible.

"Conditions in the camps often become terrible, squalid, a breeding ground for disease," said Mr. Wickens. "That's a lesson we learned from the last drought."

But the other option, the absorption of displaced people into existing population centers, could lead to additional pressures on Chad's poorly developed urban areas. "It could be staggering," Mr. Wickens said.

For now, at least, Mr. Makai and those who came with him are living among relatives in the city. The chief explained that the relatives shared what little food they had and the villagers slept on straw mats in the courtyards of the adobe compounds.

"There is little for them to do during the long, hot days," he said. "We're looking for work, but so far there is nothing."

Someday, he said, he would like to lead his people back to the village, to regather the families and clans there. But he said he was not hopeful.

"We're looking at at least nine months of severe hardship," said Mr. Wickens. "If we can get through that, then maybe people can begin to hope again."●

TRIBUTE TO CHICK KAZEN

HON. NICK JOE RAHALL II

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 4, 1984

● Mr. RAHALL. Mr. Speaker, I would like to take this opportunity to add my voice to those of my colleagues in saying that we are going to miss our friend from Texas, CHICK KAZEN. It has been my pleasure to serve with CHICK on the Interior and Insular Affairs Committee, where I have been able to observe firsthand the dedication with which he served the people of the 23d District in the great State of Texas. He always made sure that the views of his constituency were well represented in any debate.

He has been a true public servant, using his position in this institution to meet the needs of those he has served so faithfully. CHICK and I have also joined forces on issues of interest to us with regard to our ethnic heritage which we both proudly share. Just recently, largely through the efforts of CHICK KAZEN, legislation was passed which will authorize land in the District of Columbia to memorialize the great Lebanese American post-philosopher-artist, Kahlil Gibran. CHICK was also instrumental to helping me secure passage of a resolution I sponsored awarding a gold medal to Danny Thomas in recognition of his outstanding humanitarian work with St. Jude Children's Research Hospital.

When I first came to Congress in 1977, I was helped a great deal by CHICK and I thank him for helping me make my niche here in the House. This institution and the country will miss his leadership and it has been an honor to serve in the House of Representatives for the last 8 years with CHICK KAZEN.●

BARBER CONABLE

HON. MORRIS K. UDALL

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. UDALL. Mr. Speaker, one of our colleagues and one of my good friends BARBER CONABLE, is leaving this House at the end of this Congress. He brings to mind UDALL'S Fourth Law of Congressional Retirement, which says that "them that should, don't, and them that ought to, won't."

BARBER CONABLE is one who shouldn't, and we shall miss him.

Mr. Speaker, those of us who have been here for a time have seen dozens and dozens of Members come and go. Some stayed only a short while, others for several terms, and still others, longer than they should have. And of

that total number, only a couple of handfuls have left a real imprint, a contribution that is remembered, respected, and admired.

BARBER CONABLE is one of those who will be remembered. BARBER and I have been on opposite sides of a lot of votes and together on a lot. I know BARBER as a contemplative man. He has a streak of decency, fairness, and soundness that tells us a lot about the kind of folks that inhabit his congressional district in upstate New York.

There is no meanness or expediency in this man, and if there were a single word above all others to describe the way BARBER thinks and operates, it would have to be, "independent." He is an independent man, his own man, and it shows.

One biography says of BARBER that he always understands and sympathizes with the motivations of others even when he differs with them, but he fights hard when he has to—as one might expect of a man who served in the Marine Corps in two of our wars.

BARBER CONABLE is the kind of caring, conscientious, and concerned citizen that this Chamber was made for. He has honored it with his work, his spirit, and now and then, with his well-known wit.

I will miss BARBER and his civilized brand of public service. I will miss his contributions here, and I will miss a friend. I wish him and his wife, Charlotte, and their children, all of the best that they seek in the years ahead.●

THE OUTER SPACE TREATY OF 1967

HON. DANTE B. FASCELL

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. FASCELL. Mr. Speaker, on this day 17 days ago, October 10, 1976, the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, Including the Moon and Other Celestial Bodies was entered into force.

As both the United States and the Soviet Union are parties to this treaty, this agreement marked an important step in promoting cooperation between the superpowers in the arena of space. Preserving space for peaceful purposes must be the driving force in our space arms control policy.

Under this treaty, the signatories agreed:

Not to place in orbit around the Earth any objects carrying nuclear weapons or any other kinds of weapons of mass destruction, install such weapons on celestial bodies, or station such weapons in outer space in any other manner;

The Moon and other celestial bodies shall be used by all States parties to the treaty exclusively for peaceful purposes;

The establishment of military bases, installations, and fortifications, the testing of any type of weapons and the conduct of military manuevers on celestial bodies shall be forbidden;

The use of military personnel for scientific research or for any other peaceful purposes shall not be prohibited; and

The use of any equipment or facility necessary for peaceful exploration of the Moon and other celestial bodies shall also not be prohibited.

The extension of the arms race into space must be averted at every stage. Programs that would result in edging us toward the weaponization of space must be closely monitored by this committee and the Congress.

It is with this in mind and in a spirit of preserving cooperation in space that the Subcommittee on International Security and Scientific Affairs, which I chair, conducted a series of hearings on arms control in outer space. We examined the current administration's space arms control and defense policy, that is, the Strategic Defense Initiative and the antisatellite [ASAT] weapons program.

During these hearings, the subcommittee discussed a number of treaties agreed to over the years relevant to space arms control. In particular, the potential abrogation of the ABM Treaty arose as a major concern.

Moreover, the Outer Space Treaty of 1967 was highlighted as an agreement which contributed to cooperation, not competition in space.

From these hearings, it became clear that a change in current policy is required. It has been my recommendation, which I will reiterate here, that this country can take five steps which will form a more constructive space arms control policy. They are:

First, mutual suspension of the United States and Soviet ASAT Testing Program;

Second, resumption of bilateral negotiations with the Soviet Union to ban antisatellite weapons;

Third, initiation of bilateral negotiations with the Soviet Union to ban all space weapons;

Fourth, upgrading U.S. satellite survivability; and

Fifth, maintaining ballistic missile defense research consistent with existing arms control agreements.

In this way, we can hopefully avert a terrible and costly arms race in space.

The subject of space arms control and how past treaties and perhaps future treaties can contribute to keeping the heavens free from militarization is a major priority of the Committee on Foreign Affairs and will continue to be a priority in the upcoming Congress.●

METHANE FUELING MORE AND MORE AMERICAN VEHICLES

HON. DAN GLICKMAN

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. GLICKMAN. Mr. Speaker, back in 1980, the Congress approved legislation to conduct research, development, and demonstration work on the use of a plentiful alternative transportation fuel: methane or natural gas. That legislation was prompted by the recognition that mobility is a basic American quality that we should strive to preserve and protect. If that legislation had been fully implemented, I feel confident we would be well on the way to making methane-fueled vehicles a significant part of our transportation mix. We haven't come as far as we could have, but, as last Friday's Wall Street Journal pointed out, our confidence in this alternative transportation fuel was well founded. Natural gas vehicles are starting to make inroads into the U.S. transportation system as they have already done in a number of foreign countries. I urge my colleagues to take a moment and read the article which I ask unanimous consent to be printed in the RECORD at this point.

[From the Wall Street Journal, Oct. 5, 1984]

NATURAL GAS GAINS AS FUEL FOR VEHICLES

(By Linda M. Watkins)

Natural gas, despite some drawbacks, is gaining popularity as an alternative fuel for cars and trucks.

More than 25,000 vehicles in the U.S. cruise on a compressed form of the gas commonly used to heat homes. World-wide, an estimated 400,000 cars, trucks and vans have switched to natural gas in recent years, says the American Gas Association, a trade group.

The numbers are escalating as the domestic gas industry, with huge gas reserves, seeks new markets to replace scores of industrial customers who sharply reduced their gas use during the recession. In addition, operators of fleets of cars and trucks say they're discovering the fuel is the cheapest, safest and cleanest way to run their vehicles.

"It saves money and it's reliable," says James Uhrmacher, controller at Coca-Cola Bottling Co. in Erie, Pa. The company converted 14 delivery trucks and six service vans to natural gas, cutting its fuel bill by $11,000 a year. The gas association says it costs $1,500 to $2,000 to convert a vehicle to run on compressed gas.

BIGGEST DRAWBACK

Despite the fuel's apparent advantages, natural gas-powered vehicles aren't likely to take over the highways anytime soon. The biggest drawback is that there are only three public natural gas fueling stations in the U.S., far fewer than the 20 in Canada and 240 in Italy, says George H. Lawrence, president of the gas trade group.

Still, the fuel is winning converts, especially among companies, schools and government agencies that have large numbers of

vehicles that can be fueled at private stations.

The concept of a natural gas-powered vehicle dates back to 19th century experiments. The idea was shelved in the U.S. for many years and almost completely discarded in 1954 when Congress regulated natural gas like other utilities.

Before Congress removed price controls from gas drilling in 1978, companies had little incentive to dig for the gas and seek new marketing outlets. Today, however, with reserves estimated to last more than 100 years and traditional large customers reducing their demand, the huge vehicle market seems a natural. The development of a lightweight aluminum cylinder for storing the compressed gas has also helped.

HIGH OIL-IMPORT COSTS

Other countries, plagued by high oil-import costs, recognized the value of compressed-gas vehicles long before the U.S. Italy, for instance, started converting some of its cars 40 years ago and has more than 250,000 such vehicles today. New Zealand began converting four years ago and now has 65,000 vehicles powered by compressed gas.

Uncertainties about the world oil situation prompted Coca-Cola Bottling's switch to natural gas, says Mr. Uhrmacher. "This is a fuel that won't cramp our style when we have to deliver to our customers," he says.

Although direct fuel cost comparisons are difficult, tests by a group of 27 natural gas utilities have shown that a Ford Ranger pickup truck traveling 225 miles spends $7.80 on natural gas fuel for a trip that would cost $14.52 in gasoline.

East Ohio Gas Co. of Cleveland operates the largest compressed gas-fleet in the U.S. The utility's 900 vans, trucks and sedans, all powered by natural gas, use $500,000 less in fuel a year than if they were operated on gasoline or diesel fuel, the company estimates.

SAFER TO OPERATE

Besides financial savings, compressed gas-vehicles are safer than gasoline-fueled cars and buses, says John Langer, transportation director for the Harbor Creek School District in northwestern Pennsylvania. Unlike gasoline, compressed gas doesn't explode upon heavy impact, he says. "It starts smoother and there's no problem when starting in the winter," he adds. The school district's 30 buses use the fuel.

Natural gas is also less of a pollutant than gasoline and other alternative fuels such as methanol and propane, says Adele Bolet, an energy researcher for Georgetown University's Energy and Strategic Resources Program.

Still, few in the energy industry believe that natural gas will pose a serious threat to gasoline or diesel fuel. Oil company executives don't see the fuel as an economical alternative to gasoline even though the American Petroleum Institute reports that Americans spend more than $254 million a day on imported gasoline. Says Jerry Martin, a Chevron U.S.A. official: "There are so many more priority uses of natural gas that we don't expect this type of vehicle to be over a tiny, tiny part of the transportation market." Gasoline industry officials note that there are about 160 million motor vehicles in the U.S., almost all of which run on gasoline or diesel fuel.

The scarcity of natural gas refueling stations is the biggest problem. Most compressed-gas fleet vehicles that travel long distances must have dual fuel systems, so they can run on gasoline after exhausting the gas stored in cylinders.

Still, fuel analysts think that with further research they can reduce costs and convert many other vehicles to natural gas. On the horizon, they claim, are natural gas-powered forklifts, go-carts and lawn mowers.●

FOR THE RELIEF OF HELEN J. HUDSON

HON. ROBERT T. MATSUI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. MATSUI. Mr. Speaker, I rise today to introduce legislation for the relief of Mrs. Helen J. Hudson, an employee of the Sacramento Appeals Office of the Internal Revenue Service, which will deem her as an employee with 5 years of civilian service. I believe this extraordinary relief is necessary in order to permit Mrs. Hudson, a terminally ill cancer patient, to apply for and have approved a disability pension which would sustain her as she continues to fight for life.

Mrs. Hudson has been employed with the Internal Revenue Service since March 23, 1980. She has been a loyal and dependable employee whose performance has been exemplary. In January 1984, Mrs. Hudson was diagnosed as a terminally ill cancer patient; yet, she has continued to work as much as possible even while undergoing chemotherapy treatments. As a single parent and sole supporter of her 13-year-old son, Mrs. Hudson is dependent upon the income and medical benefits from her position with the Internal Revenue Service.

Unfortunately, Mrs. Hudson's health has continued to deteriorate and she may no longer be capable of maintaining her level of performance with the Internal Revenue Service. The Internal Revenue Service and Mrs. Hudson's coworkers have pursued all administrative measures at the county, State, and Federal level to remedy this tragic situation without success and I commend their valiant efforts. Consequently, as Mrs. Hudson has exhausted her sick and annual leave in September of this year, she will soon be faced without any means of financial support as she attempts to combat this evil disease for her life.

I have no doubt that Mrs. Hudson is a dedicated civil servant, deserving of this life-supporting compensation as has been demonstrated by her exemplary service to the IRS and the U.S. Navy. Mrs. Hudson meets all of the requirements for a disability retirement; yet she is being denied this compensation on the basis that she lacks 5 months and 13 days of civilian service—the length of time that would fulfill the 5 years of civil service as required by the Federal personnel regulations. Unfortunately, the medical prognosis remains that Helen may not live to complete this 5-year requirement.

It is indeed a tragedy to deny a dying woman disability retirement on the basis that she lacks less than 6 months of civil service especially in light of the fact that she served her government in the military for nearly 2 years. By making Helen Hudson eligible for disability retirement, we will be providing her the opportunity to enjoy the remaining months of her life at home with her son. I urge my colleagues to join me in this humanitarian effort and seek the expeditious consideration of this matter.●

IMPUTED INTEREST COMPROMISE

HON. MEL LEVINE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. LEVINE of California. Mr. Speaker, I am deeply disappointed that Congress has not acted to repeal the imputed interest regulations contained in the Deficit Reduction Act of 1984, H.R. 4170.

I strongly support repeal of these new regulations because they will effectively eliminate the ability of tens of thousands of homeowners in my district and others throughout America to finance the sale of their homes. I know from personal experience that this option can be a vital tool in facilitating the sale of homes in these days of high interest rates.

That is why I cosponsored H.R. 6021, which would repeal the changes made in the imputed interest laws. Unfortunately, it is now clear that H.R. 6021 is dead. With it, died any chance of repealing the new imputed interest regulations before Congress recesses.

While I supported the Deficit Reduction Act, this provision of it will work an unfair hardship on individual homeowners, despite the clear intent of Congress that this not be the case.

The $250,000 exemption included in H.R. 4170 was clearly designed to exclude primary residences of moderate income homeowners. However, as a result of rapidly increasing real estate values in Los Angeles County, many individuals who paid very modest prices for their homes now find themselves living in extremely expensive homes. For example, it is not unusual for a home which cost as little as $30,000 a few years ago to cost 10 times that much today.

As a result of the passage of H.R. 4170, homeowners will no longer have the ability to finance the sale of their home at an interest rate below the market rate.

At a time of unprecedented budget deficits, there is every reason to

expect interest rates to continue to increase—despite the President's rather novel view that the two are unrelated. As this occurs, the impact on the residents of my district, and the real estate industry as a whole, will be calamitous.

I had hoped that Congress would act swiftly to repeal these imputed interest regulations. That has now become impossible.

This issue will not die with the 98th Congress, however. When Congress reconvenes in 1985, I will renew my efforts to repeal this damaging and ill-considered new law, and I urge my colleagues to do the same.●

ARKANSAS FLYING HALL-OF-FAMERS

HON. JOHN P. HAMMERSCHMIDT

OF ARKANSAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. HAMMERSCHMIDT. Mr. Speaker, on November 9, three Arkansas pilots will be inducted into the Hall of Fame of the Arkansas Aviation Historical Society. These flying "Hall of Famers" are Edward W. "Eddie" Holland of Little Rock, Maj. Gen. Winston P. "Wimpy" Wilson of Forrest City, and the late Brig. Gen. John D. Howe of Hot Springs.

These men have served their country with distinction as pilots in the Army Air Force, Air National Guard, and Air Force; however, their contributions to aviation history go beyond military service. As citizens, they have not only shared their military experiences, but they have also shared the knowledge that came with being involved in aviation at a time of rapid progress—thereby providing a vision for what is possible in the future.

As ranking minority member of the House Subcommittee on Aviation and especially as an Arkansan, I am pleased and proud to see these men recognized for their contributions to aviation history. Mr. Speaker, I'm inserting for the CONGRESSIONAL RECORD an article recently published in the Arkansas Democrat, which outlines the many and varied accomplishments of these three fine men.

The article follows:

FLIERS' HALL OF FAME TO INDUCT THREE VETERAN ARKANSAS PILOTS

(By Guinda Reeves)

Three Arkansans will be inducted into the Hall of Fame of the Arkansas Aviation Historical Society at its fifth annual banquet on Nov. 9 at the Riverfront Hilton in North Little Rock.

The inductees are Edward W. "Eddie" Holland, 64, of Little Rock, serving his 16th year as director of the state Department of Aeronautics; Maj. Gen. Winston P. "Wimpy" Wilson, 72, of Forrest City, now retired from the Arkansas Air National Guard; and the late Brig. Gen. John D. Howe, a former commander of Wright-Patterson Air Force Base in Ohio.

Holland is often called "Mr. Aviation" for his efforts to develop aviation and airports in Arkansas.

Enlisting in the U.S. Army Air Force during World War II, Holland flew 37 combat missions during his tour of duty and received four air medals, two battle stars and a presidential citation.

Holland helped organize the Arkansas Aviation Historical Society with Richard N. Holbert, president of Central Flying Service in Little Rock, and now serves on the society's board of directors.

He's considered "the keeper of the files" by the society because of his extensive collection of aviation-related information, which is said to be a major source for Arkansas aviation history.

Wilson, born in Arkadelphia and reared in Little Rock, saw his career in National Guard aviation span the transition "from Jennies to jets."

He enlisted in the Arkansas National Guard in 1929 as an airplane mechanic with the 154th Observation Squadron and, after graduating from Hendrix College at Conway in 1934, rejoined the squardron as a pilot in 1940.

In 1950, Wilson became a special assistant to the Chief Air Force Division of the National Guard Bureau during the Korean War. He had accompanied, and later succeeded, the late Maj. Gen. Earl T. Ricks to Washington, DC, as commanding officer of the Air National Guard.

Howe, a native Arkansan born in 1906, left college to join a group of pilots flying in exhibitions at county fairs in the Midwest and soon became a licensed pilot.

He left in 1929 to become chief pilot for the then fledgling Delta Airlines but, in 1930, he joined the same Arkansas National Guard squadron as Wilson. On active duty from 1930 to 1940, Howe advanced from 2nd Lieutenant to captain, becoming base and detachment commander at Adams Field by 1940. That same year, his squadron was called to active federal duty.

In 1941, he was assigned to form the 4th Air Depot Group at Wright-Patterson Field and subsequently put together the Southwest Pacific Air Depot for wartime operation in Australia. He eventually returned to Wright-Patterson Air Force Base as base commander.

Receiving several decorations for his service in Korea, Howe became the Air Force's director of maintenance engineering after going to the Pentagon in 1951. He received his general's star in 1953.

In 1960, Howe retired to Hot Springs, where he died at age 70 in 1977.

The master of ceremonies at the banquet to honor Holland, Wilson and Howe, will be Richard Collins, the editor of Flying magazine.●

IS OUR NAVAL POWER AT RISK?

HON. JOHN EDWARD PORTER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. PORTER. Mr. Speaker, I would like to call the attention of my colleagues to an article which appears in today's Wall Street Journal on the very important question of naval power. This article was written by Mark Kirk, a very talented young man who I am pleased to say has recently joined my staff. Mr. Kirk points out in his article that there is only one predictable element if the next war comes—that people, planes, and ships will be lost. It is important to remember that we must not only provide the best equipment for our forces, but that the equipment must be provided in sufficient quantity so that we can sustain losses and continue fighting. This is not the situation, as Mr. Kirk points out, with only 13 aircraft carriers.

I commend this article to my colleagues as important reading:

CAN WE PROTECT OUR PRECIOUS FEW CARRIERS?

Our nation's military strategy is based on a simple premise: the defense of our country as far from home shores as possible. This can be accomplished only with a strong Navy that can defend itself far from home. Recent events show that, despite the $81.8 billion we shall spend on our Navy this year, it will not be able to protect itself, let alone us.

The U.S. Navy is based, for better or for worse, around 13 large aircraft carriers. Without these carriers, our Navy would lack the offensive strength it needs to win far from our shores. To defend these carriers, the U.S. has developed one of the most expensive planes and air-to-air missiles ever made: the F-14 Tomcat and the AIM-54A Phoenix missile. Packed with expensive electronics, these two systems were designed to shoot down six times their number of hostile aircraft hundreds of miles from their carriers. These systems did not come cheaply, $28 million for the plane and nearly $1 million for each missile.

Unlike a bullet, which cannot be fooled by any sort of electronic countermeasures, highly sophisticated systems like the Phoenix depend on secrecy to maintain their effectiveness. A detailed knowledge of their inner workings would quickly reveal a way to defeat them. Unfortunately, this happened to the Phoenix, our first-string and most expensive air-to-air missile. Both the F-14 and Phoenix were sold to Iran, which was later engulfed in revolution. The "A" version of the missile, common to both the U.S. Navy and the Iranian air force, is now thought to be thoroughly "compromised" (i.e., sold to the Russians), rendering the large numbers of Phoenixes in the Navy's magazines of questionable value.

Hughes, Aircraft Corp., maker of the Phoenix, fought to save the missile by producing a new "C" version. This missile promised to be more advanced and would not be sold abroad. Unfortunately, the missile is so complicated and the workmanship so poor that the Navy temporarily suspended all deliveries of the missile until the problems were solved.

This suspension was a result of the Navy's new tough policy on weapons quality. In the long run, this policy will have enormous benefits. In the short run, it could unearth some embarrassing items for both the Navy and its major suppliers. The recent news of faults in the Navy's F/A-18 jet fighter is a case in point.

These inspections are good in themselves but are only a first step. They ignore the more basic problems with these planes and missiles. The Phoenix is a radar-guided mis-

sile, emitting a radar signal and homing in on whatever that signal bounces off of. This works well in theory, but in practice, many problems exist. The radars aboard these planes and missiles are too small to separate two targets closely spaced. When faced with two planes flying about 400 to 500 yards apart, the missile will see the two as one and aim in between. There are other problems related to seeing low-level targets or through water vapor. In all, the Secretary of Defense has given the Phoenix a 10% chance of actually hitting its target. The record of the other radar-guided missiles used by the Navy and Air Force is similar.

The F-14, pride of the U.S. Navy, also has many problems, the first of which is cost—more than $28 million each. The Navy was forced to buy a cheaper plane, the F/A-18, to fill out the carrier wings. Ironically, due to cost overruns, the F/A-18 is now more expensive than the "expensive" plane it replaces. The F-14 is also very large, giving it a distinct disadvantage in air combat. During the Vietnam and Arab-Israeli wars, targets were rarely engaged beyond visual range. Most actions were quick surprise attacks, with victory won by the side that saw the other first.

The F-14's engine is also a worry. In recent testimony, Navy Secretary John Lehman stated that "the [engine] in the F-14 is probably the worst engine-airplane mismatch we have had in many years. The . . . engine is just a terrible engine and has accounted for 28.2% of all F-14 crashes."

Last, although an aircraft carrier is a floating airfield, it is also a ship, and a ship, so says naval wisdom, can always be sunk. In recent reports, the Navy's antisubmarine-warfare experts stated that Soviet submarines of all types were getting quieter. They noted that relatively small decreases in the noise levels of Russian submarines result in significant cuts in the detection range of U.S. sensors. They stated that 50% of Soviet submarines would be able to get within close range of an aircraft carrier by 1990. Many Soviet submarines need not get too close since they are armed with anti-shipping cruise missiles that have ranges of 30 to 300 miles. In order to survive, a carrier battle group would have to clear an area at least 60 miles wide of submarines. Such a volume is currently beyond the capabilities of a task force.

The Navy's efforts to ensure the delivery of equipment in proper working order are on the right track. It must, however, go a step further and respond to the tremendous implications of quieter Soviet submarines and the limitations of radar-guided systems. As it stands, our naval strength will depend on the survival of a relatively small number of ships in any future war. Instead, we ought not only to provide the best equipment for our forces, but in sufficient numbers to withstand losses that are sure to occur.●

DEPARTMENT OF EDUCATION HONORS MISSION JUNIOR HIGH SCHOOL

HON. GEORGE E. BROWN, JR.

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. BROWN of California. Mr. Chairman, I would like to draw the attention of my colleagues to the exemplary performance exhibited by a middle school in my home district, the Mission Junior High School of the Jurupa Unified School District, in Riverside, CA. I am proud to announce that Mission Junior High School is one of 88 middle schools in the country to be counted among the outstanding public secondary schools recognized in the 1983-84 Secondary School Recognition Program of the Department of Education.

Most notably, Principal Don Manzo deserves congressional recognition for his critical role in bringing his school to the height of academic excellence. He has initiated innovative activities and programs which have enhanced the learning experience of his students, and sets an example for other schools to follow. According to the Secretary of Education, T.H. Bell:

This honor is bestowed on unusually successful schools in which the faculty, students, and community have demonstrated a commitment to excellence and are dedicated to maintaining that commitment at all times.

In my opinion, Mission Junior High more than aptly fits that description.

Mission Junior High School went through an intense screening process before it was selected as one of the Nation's top secondary schools. It had to be first nominated by the Riverside County superintendent of schools. After satisfying numerous criteria, it was then submitted to the State Board of Education. The application was reviewed at the State level and selected as one of nine middle schools in California. Further screening by the State paired that number down to five and those schools were sent to the Federal Government for competition in the national program. Mission Junior High School was visited by Government representatives before being selected as a National Exemplary School—one of only 88 middle schools in the Nation.

Mission Junior High School was scrutinized for 14 attributes such as: clear academic goals, rewards and incentives for students, and opportunity for meaningful student responsibility, and participation. Selection committee members also tallied numbers from seven indicators of success, ranging from student performance on standard achievement tests to student/teacher attendance rates. Mission Junior High scored exceptionally well in every category, pushing ahead of it's scholastic competitors.

The Mission Junior High School is a shining example of the revitalization of education going on in this country. With schools such as Mission Junior High as a role model for other schools, national pride and commitment to education excellence will once again be the hallmark of our society. The success of Mission Junior High School is accented by its ethnic and cultural mix—dashing the misconception that students from ethnic and minority communities cannot achieve high levels of excellence.

I feel that the Secondary School Recognition Program has helped to reverse the crisis in confidence in American education. In commending the achievements of schools such as Mission Junior High School, much positive public attention has been drawn to education and has helped to rekindle pride in our community, and pride in our educational system.●

SCOTTISH RITE MASONIC FAMILY LIFE WEEK

HON. BENJAMIN A. GILMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. GILMAN. Mr. Speaker, the Supreme Council of the Scottish Rite of Freemasonry has designated the week of November 18 to November 24, 1984, as "Family Life Week."

This designation is most appropriate. A great deal of talk has been generated in our society lately indicating the death of the family. It may be that many Americans are taking this negative publicity to heart.

Although rapid changes in our society may be causing many to question the role of the family in today's world, now more than ever it is incumbent upon all of us to stress the importance of the family unit.

The social historian Peter Farb tells us:

The family is woven into the social fabric and it could hardly become extinct without unraveling nearly everything of which it is a part.

It is from the family unit that the individual learns the basic morals upon which our society is based. It is from the family unit that the individual learns pride in personal achievement, sense of duty, and devotion to ideals. The morality of our civilization—love, respect, and self-discipline—can be learned only through the family unit.

Accordingly, the Scottish Rite Masons are to be commended for sponsoring "Family Life Week," to remind us all of the importance of the family in our Nation. Nearly 500,000 members of the Scottish Rite in the Northern Masonic Jurisdiction, which includes a 15-State area, are participating in this Family Life Week Program.

The theme of 1984 Family Life Week will be "The Family—America's Strength."

Mr. Speaker, I ask all of our colleagues to join with us in saluting the Scottish Rite Masonic Order for sponsoring "Family Life Week," and in urging all of our constituents to reflect on the importance of the family

as the source of America's strength during the week of November 18 to 24.●

CLARENCE NEFF

HON. ROBERT H. MICHEL

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. MICHEL. Mr. Speaker, every now and then we come across an extraordinary human being who reminds us of what it really means to be an American. Such a man is Clarence Neff of Stronghurst, IL. Clarence retired from the Illinois State General Assembly after 22 years of service and his friends and neighbors held a testimonial dinner in his honor on October 6, 1984, at the Western Illinois University grand ballroom. Perhaps we can learn something by examining what it is about Clarence Neff that led those who know him best to pay him this high tribute.

Mr. Neff has had so many successes in his life that it is difficult to choose the major ones.

From 1941 until the present he has been in the farm implement business. He has been engaged in the automobile dealership business, been founder, president, and chairman of the board of the Bank of Stronghurst, and owns and operates a grain and livestock farm.

He has served his community for 16 years as mayor of Stronghurst and his party by serving as chairman of the Republican Party Central Committee of Henderson County. As I said, he served 22 years as a member of the Illinois General Assembly and, as legislator, served as chairman of the Bank and Savings Committee, vice chairman of the Illinois Transportation Study Commission, and cochairman of the Illinois Motor Vehicles Law Commission.

In 1976 and 1980, Clarence Neff coordinated the Illinois 19th Congressional District for Presidential candidate Ronald Reagan and was delegate in 1976, 1980, and 1984 to the Republican National Convention.

He has received many awards, including the distinguished service award from Tri State University in Indiana, his alma mater, and an honorary degree, doctor of law, from the same distinguished institution.

As you can see from this partial list of his many activities, Clarence Neff knows the meaning of the word "community." He knows that our American system works best when we are willing to work for it. As a businessman, a political leader, a legislator, a citizen, a husband and father, Clarence Neff has shown us all what it means to be proud of your community, your State, and our Nation. I'm glad to have this opportunity to introduce our colleagues to this fine Illinois gentleman.●

A TRIBUTE TO FRANK A. BOGDAN

HON. CHRISTOPHER H. SMITH

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. SMITH of New Jersey. Mr. Speaker, I rise today to pay tribute to a very special person, Frank. A. Bogdan. On Sunday, October 28, 1984, Frank will be the special guest at a testimonial dinner given in his honor by the Trenton chapter of the Polish American Congress. I would like to take this opportunity to call the attention of my colleagues in the House to his outstanding career of community service.

Frank is being honored for his many years of dedication and work on behalf of Poland, his community, and his parish.

Mr. Speaker, Frank Bogdan has dedicated himself to his family, his church, his community, and Poland. He is a devoted member of the Polish American Congress and has served as president of the Trenton, NJ, chapter for 9 years.

He also currently serves as vice president of the New Jersey (State) Polish American Congress and is on the national board of directors of the organization. He has served this organization diligently and faithfully and is a great resource to the Polish American community. Frank's membership in the Polish Falcons No. 59, the Kosciuszko Foundation, and the Orchard Lake Alumni Association also serve as testimony of his dedication to the Polish American community.

Active in community affairs, Frank is a member of the board of directors of the Pride in Trenton Corp. He also serves as a member of the Mercer County Community College Advisory Commission and the North Trenton Lions Club.

A communicant of St. Hedwig's Catholic Church in Trenton, Frank served as president of the Parish Club and as coach of the school's basketball and track teams. He is a member of St. Hedwig's choir and Council No. 7244 Knights of Columbus. He is also a recipient of St. Hedwig's Man of the Year Award.

Frank was born in Trenton, NJ, on October 3, 1914, and is 1 of 11 children of Joseph and Victoria Bogdan who immigrated to America from Poland in the early 1900's.

Mr. Speaker, Frank answered the call of service to his country in 1942 and entered the Army Air Corps. He served as a flight radioman and saw duty in the Ferrying Command and Air Transport Command in many areas of the Pacific including Okinawa, New Guinea, and Japan. Frank is a charter member of American Legion Post No. 458 and a member of the Catholic War Veterans Post No. 417 and the Veterans of Foreign Wars Post No. 3022.

In 1947 he married Josephine Odorczyk and they have two sons, who are both married. Frank attended Girard School, St. Hedwig's School, Rider College, and Rutgers University.

In 1964, Frank became secretary to the War Memorial Commission and served as director of the Trenton War Memorial Building until his retirement.

Mr. Speaker, I indeed feel privileged and proud to make this body aware of Frank Bogdan's commitment to his community, country, and parish. He is certainly a shining example of dedication and compassion for his fellow man. I would like to join his family and friends in wishing him all the best in his endeavors and to thank him for enriching our lives.●

IN CELEBRATION OF ANNA ELEANOR ROOSEVELT

HON. EDWARD F. FEIGHAN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. FEIGHAN. Mr. Speaker, on October 11, we will observe the 100th anniversary of the birth of Anna Eleanor Roosevelt.

Eleanor Roosevelt—through the life she led, the kind of dedication and compassion she brought to her work, her commitment to changing the world into a better place—has enriched all of our lives.

Her deep conviction and persistence are the reasons the nations of the world joined together in ratifying the U.N. Declaration on Human Rights. She knew, as we are painfully reminded each day, that not all nations honor that statement. But that does not diminish the greatness of her accomplishment. Through her work, her vision and energy, we have established a standard for the behavior of nations.

For Eleanor Roosevelt, the rights of human beings to live peacefully, productively, and in dignity were paramount. From her fight for antilynching laws, to her personal involvement in education, to her role as an international stateswoman, she devoted her life to building a better future.

On the day of her death, Eleanor Roosevelt was carrying a scribbled note in her wallet. That note came from the sermon of a black minister she had heard preach. He said:

We ain't what we ought to be. We ain't what we're going to be. We ain't what we

want to be. But, thank God, we ain't what we was.

Through the quality of her life, Eleanor Roosevelt has transformed us all. Because of her, "we ain't what we was." We are better.●

SMOKEY BEAR WEEK

HON. JOE SKEEN

OF NEW MEXICO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. SKEEN. Mr. Speaker, for the past 40 years the people of the United States have had a unique symbol to remind them of the tremendous damage that can occur to our forests when a fire starts due to carelessness. That symbol, of course, is "Smokey Bear" whose constant reminder that "Only You Can Prevent Forest Fires" has undoubtedly saved millions of acres of our forests and woodlands from the ravages of fire.

This week, October 7 to 13, has been officially declared by Congress to be "Smokey Bear" Week.

Since Smokey was a native of New Mexico and was found in the Lincoln National Forest in the district I represent, I would like for Americans everywhere to be aware of the remarkable achievements of this program. Earlier this year, we honored Smokey Bear through the issuance of a special commemorative postage stamp.

But we can honor him daily this week, this year and for the years to come if we continue to remind everyone that "Only You Can Prevent Forest Fires."●

NEW YORK CITY EXPERIENCES SUDDEN RISE IN ANTI-SEMITIC INCIDENTS

HON. MARIO BIAGGI

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. BIAGGI. Mr. Speaker, earlier this year the anti-defamation League of B'nai B'rith reported a significant decline in anti-Semitic incidents nationwide between 1982 and 1983. Although the number of anti-Semitic incidents in 1983 was still far from unacceptable—more than 1,000 incidents reported nationwide—the decline did provide a sense of hope that this serious problem was somehow coming under control.

Yet, while there may be reason for optimism in other parts of the country, the anti-Semitic problem in New York continues at a very alarming rate. Consider, for example, that New York City police statistics show that anti-Semitic incidents in the city increased by more than 90 percent during the first 7 months of 1984, when compared to the same period last year. These statistics reveal that during the 7 months ended July 31, there were 72 anti-Semitic acts of violence or vandalism, compared with 37 such incidents during the same period in 1983.

Largely responsible for this dramatic increase in anti-Semitic activity was a spree by vandals at Co-op City, a 50,000-resident complex in my home district in the Bronx. A majority of these anti-Semitic incidents involved the spraying of swastikas on dozens of apartment doors and hallways in Co-op City.

It should be noted that New York led all States in the number of anti-Semitic incidents reported during each of the last 4 years. In fact, last year there were 215 anti-Semitic incidents reported in New York, or almost one-third of the total number of incidents reported nationwide.

Simply put, the tragedy of anti-Semitic violence and vandalism will not go away without a strong and effective response to this serious problem. That is why earlier this year thousands of dollars in reward money, some of which came out of my own pocket, was collected to help capture the Co-op City vandals. But, much more can and must be done, and we here in the Congress can certainly make an important contribution to the crackdown on anti-Semitic violence.

In fact, I have authored a bill (H.R. 473) this Congress to slap stiff new Federal penalties on those who seek to injure, intimidate, or interfere with the free exercise of religious beliefs as secured by the Constitution. I first introduced this legislation in 1981 after extensive consultations with legal officials and representatives of major Jewish organizations.

My bill imposes a graduated series of penalties against those convicted of antireligious acts dependent on whether the action results in property or bodily injury. The minimum penalty would be a fine of not more than $10,000 and/or imprisonment for not more than 5 years. Life imprisonment could result in the most severe of cases that result in death.

Specific offenses to be covered under my bill include: Painting swastikas or other offensive emblems on religious buildings; stealing religious articles such as Torahs, which would interfere with the ability to conduct religious services; vandalizing in any fashion religious buildings, grounds, or cemeteries; acts of arson against religious facilities or property, including cross burnings; and bodily assaults and harassment.

Mr. Speaker, we must not be deceived by the numbers. Anti-Semitic violence may be on the decline nationwide, for now, but the problem still rages in many parts of the country, and an effective response has been slow in coming. It is true that 16 States have laws imposing stiff penalties for crimes of religious violence and vandalism, but 34 States do not. Further, it would be wrong for us to place the entire burden of this problem on the States. We, at the Federal level, also have an important role to play in the fight against anti-Semitism. We can begin by establishing tough new Federal penalties for crimes of religious violence and vandalism. My bill would accomplish that and I plan to reintroduce it when the 99th Congress convenes. I am hopeful it will receive the prompt and favorable consideration it deserves.

Mr. Speaker, at this time, I wish to insert the New York Daily News article which discussed the recent and dramatic rise in anti-Semitism in New York.

The article follows:

[From the New York Daily News, Aug. 26, 1984]

BIAS INCIDENTS UP HERE

(By Ruben Rosario)

Anti-Semitic incidents in the city during the first seven months of this year increased by more than 90% compared to a similar period last year, according to police statistics.

Police officials and Jewish leaders partly blame the dramatic rise on a four-month spree by vandals at Co-op City in the Bronx.

New York City and Long Island continue to lead other cities and regions in reporting such cases.

During the seven months ended July 31, police statistics on bias-related assaults, break-ins and property damage reveal that 72 of 132 incidents were anti-Semitic in nature, compared with 37 such incidents—out of a total of 84—during the same period in 1983.

There were 34 anti-black incidents reported, a 20% increase from the 27 recorded during the first seven months last year.

"When you compare the number to the 7 or 8 million people living here it doesn't seem like much," said Lt. Joseph Leake of the bias investigation unit.

Investigators said a majority of incidents involved anti-Semitic and anti-black slogans sprayed on walls and other property damage caused by vandals.

The spraying of swastikas on scores of apartment doors and hallways and a break-in at an NAACP daycare center in May that caused $10,000 in damage were among 21 incidents reported since April at Co-op City, a 50,000-resident complex near City Island. All but four incidents were directed against Jews, with the rest aimed at blacks.

Despite the recent increase, figures kept by the unit disclose that the number of incidents reported annually has dropped by 10 in each of two years, from 192 in 1981 to 172 in 1983.

Anti-Semitic incidents compiled by the Anti-Defamation League of B'nai B'rith show a steady decline nationwide.

The 670 incidents recorded in 1983 represented a 25% drop from 892 in 1982 and a 31% drop from 1981.

New York State, which led all states in incidents reported during the last four years, accounted for 215 incidents last year, or almost one third of the total number nationwide. California, with 111 incidents, and

New Jersey, with 57, were second and third. All three states showed declines.

Long Island, where 115 incidents were reported last year, has a decline in such cases over five years.

League officials said they were pleased with the downward trend and agreed with police that the increase in the city this year was linked to events at Co-op City.●

A DAY OF SORROW AND IRRECONCILABILITY 1984

HON. MERVYN M. DYMALLY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. DYMALLY. Mr. Speaker, I recently received a letter from the Congress of Russian-Americans. I was reminded in the letter that November 7 is the day that the rulers of Russia celebrate their rise to power. For Russian-Americans this is not a day of celebration; rather it is a reminder of a radical change in Russian life and culture—a change that has had profound effects for them. I would like to share that letter with my colleagues:

CONGRESS OF
RUSSIAN-AMERICANS, INC.,
Nyack, NY, October 1984.

A DAY OF SORROW AND IRRECONCILABILITY 1984

As we approach November the 7th, the day when the Soviet Union annually celebrates international communism's arrogation of power in Russia, we—Russian-Americans—appeal to the U.S. Government and to freedom-loving citizens of this country to designate it as a day of sorrow and irreconcilability.

Sadly, albeit fittingly, among all the ethnic groups making up the tapestry of these United States of America, only the Russian-Americans persist in annually asking their Government and their fellow Americans to observe this inglorious day. Russian-Americans feel it is their sacred duty to mark with mourning and defiance the day international communism claimed their former countrymen as its first victim. Thus, they honor their brothers living under the Soviet rule.

On this day we express our sorrow for all the victims of the communist terror, and our irreconcilability with the theory and practice of communist doctrine.

Moreover, let us not forget that November 7, 1917 marked not only the beginning of immeasurable sufferings for the Russian and other enslaved peoples of the Soviet Union, but also the beginning of a global human tragedy which today endangers the existence of the Free World. Utilizing the threat of a nuclear war, the Soviets have gradually taken over key strategic positions in all parts of the world. Today there is hardly a nation on the face of the earth that has not been victimized by communist aggression.

Therefore, we ask the Government of the United States and all other Free World governments to designate November the 7th as a day of sorrow and irreconcilability.

Over the past 67 years the Soviet government has spared no effort in trying to strip the Russian nation of its heritage. Despite the desecration and destruction of over 50,000 churches and monasteries, the persecution and extermination of millions of people in concentration camps and prisons, we witness today in the Soviet Union a revival of faith and awakening of national pride. The determination of the Russian people to live free blazes as never before. Perhaps the Russian soul, having nurtured its people through their long, barren winter of oppression, senses at last spring's hymn of freedom yearning to be sung. How more can we honor our brothers than by lending voices to this chorus? for by proclaiming this day of sorrow and irreconcilability, we intone "let there be light" and indeed for all those who hear our voices in their darkness there is light!

BOARD OF DIRECTORS.●

HEAD START PROGRAM IS WORKING

HON. WEBB FRANKLIN

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. FRANKLIN. Mr. Speaker, because of official business on October 9, 1984, I was detained in my district and was unable to be present when the House of Representatives voted to approve S. 2565 reauthorizing the Head Start Program for 2 years. S. 2565 is the Senate companion bill to H.R. 5885 which passed the House on June 28, 1984. Had I been here, I would have voted yes on S. 2565. The Head Start Program has proven invaluable in providing services designed to bridge the gap in early development for economically disadvantaged children and enable them to more fairly compete once they reach school age. Recent studies have shown that children who participate in Head Start do significantly better in school than similar children who do not participate. They also experience lower dropout and delinquency rates. This is firm evidence that the Head Start Program is working and is well-deserving of the broad, bipartisan support it has traditionally enjoyed. This is a "hand-up" rather than a "hand-out." This is a way out—an attempt to break the poverty cycle, not accelerate it. I strongly support this program and its aim for self-sufficiency.●

YOU WERE WRONG, MR. PRESIDENT

HON. DON EDWARDS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. EDWARDS of California. Mr. Speaker, for the last 4 years, this administration has tried to make us believe that transporting students to achieve racial integration is a failure. Through its gloom and doom predictions it has sought, in the courts and elsewhere, to undo the results of 30 years of work to achieve racial equality.

Although the debate has centered around the term "busing," the real message the administration has tried to send is that school desegregation has failed. Yet, the Judiciary Committee's extensive review of school desegregation has shown that leadership, particularly from public officials, has been the key factor in successful school desegregation plans.

That is the fact. But with respect to civil rights, this administration has demonstrated time and again its willingness to disregard the facts as it pursues its political agenda.

The following editorial from the Charlotte Observer is proof that school desegregation can work—and has worked well in communities around the country where civic leaders, school officials, parents, and students have been committed to the successful and peaceful integration of their schools. We commend the people of Charlotte, NC, Seattle, WA, and throughout the country who have exhibited the kind of leadership necessary to achieve school desegregation.

[From the Washington Post, Oct. 10, 1984]

YOU WERE WRONG, MR. PRESIDENT

(By Tom Brina)

The following editorial appeared in The Charlotte Observer on Tuesday, the day after President Reagan visited the city.)

Thank you, Mr. President, for honoring our city with your presence Monday. It was a very special day for Charlotte, and all of us were proud to have you here.

There is one thing, however, that you need to know about this community—something you obviously didn't know when you made your speech on Monday.

Charlotte-Mechlenburg's proudest achievement of the past 20 years is not the city's impressive new skyline or its strong, growing economy. Its proudest achievement is its fully integrated public school system.

That system was born out of a bitter controversy over court-ordered busing. It was shaped by caring citizens who refused to see their schools and their community torn apart by racial conflict. It was nourished by courageous elected officials, creative school administrators and dedicated teachers and parents. It has blossomed into one of the nation's finest, recognized throughout the United States for quality, innovation and, most of all, for overcoming the most difficult challenge American public education has ever faced.

It would have been quite appropriate and very much appreciated if you had noted that accomplishment, which any president might hold up as a model to the rest of the country.

Instead, you said something quite different, an unwelcome reminder of some ugly emotions and unfounded fears that this community confronted and conquered more than a decade ago. Busing, you said, "takes innocent children out of the neighborhood school and makes them pawns in a social experiment that nobody wants." And you added: "We've found out it failed."

Where did you find that out, Mr. President? From Jesse Helms? If you had talked

to some of the good Republicans here you would have found that many of them are very proud of their public schools and would fight anyone—even you—who tried to destroy what this community has accomplished.

Maybe we shouldn't expect you to know a great deal about Charlotte-Mecklenburg and its public schools. But, with all due respect, Mr. President, you flaunted your ignorance, and if you had set out deliberately to upset the people of the community you couldn't have come up with a more disturbing statement.

Until that point in your speech, you had been interrupted by applause from a supportive, partisan crowd after almost every line you uttered. Maybe you noticed that your comment about busing was greeted with chilly silence.

In fact, the statement must have sent a chill through many of your supporters here, not just because of the possible political embarrassment to you, but also because, in a second term, through your influence and the appointment of several Supreme Court justices, you might force this community to dismantle its integrated school system. That would be a tragedy for those who have invested so much hard work, good will and loving care in building it, and for future generations of our children.

You sometimes speak of a "shining city on a hill," Mr. President. You visited one briefly on Monday, but you didn't understand, or seem to care, what makes it shine.●

WOMEN IN COMMUNICATIONS

HON. MIKE LOWRY

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. LOWRY of Washington. Mr. Speaker, I would like to congratulate Women in Communications on the celebration of its 75th anniversary this year. In 1909, the organization was founded at the University of Washington in Seattle in what is now Washington State's Seventh Congressional District. The organization was then known as Theta Sigma Phi. It began as an inspiration of seven women journalism students who were determined to build a national organization that would defend first amendment freedoms and help women journalists advance in their careers. These pioneering women were successful.

In a 1926 article on the founding of the organization, Helen Ross Lantz wrote that cofounder Georgina MacDougall Davis came to her "fairly bursting with a plan * * *" The aim was "to start an honorary journalism fraternity to which none but the best might hope for admittance and from which would come all the great women writers of the future." Within a few days, Georgina MacDougall and Helen Ross enlisted five other enthusiastic women journalism students—Blanche Brace, Helen Graves, Olive Mauerman, Rachel Marshall, and Irene Somerville. After several weeks of delightful agonizing and solemn meetings, Mrs. Lantz wrote, "at last there came a day * * * when we were all set to burst forth upon an unsuspecting world."

The fruits of the seven women's cooperative plan were readily apparent. Mrs. Lantz wrote, "For the next 2 years, [the] founders walked off the campus with every literary prize and promotion rewarding literary effort."

Women at other campuses also recognized the value of a cooperative women's literary organization. By October 1910, women at the University of Wisconsin had joined in this budding national organization; within the next 6 years, eight more universities had formed chapters. They were: University of Missouri (1911); University of Indiana (1913); University of Kansas (1913); University of Oklahoma (1915); University of Oregon (1915); Stanford University (1916); and University of Montana (1916). The chapters remain active.

The precursor of Women in Communication was founded at a time when journalism was struggling to call itself a profession and to establish an identity on college campuses. There were few journalism classes being held at the University of Washington or at any institution of higher learning in the Nation. There were a few classes here, some instruction there. In 1908, the University of Missouri established the first separate department; the University of Washington followed the same year, turning its fledgling classes into a department. By 1910, there were four journalism departments in the United States, with Wisconsin and New York joining the two already operating.

The visionary founders of Theta Sigma Phi saw the true possibilities of this new academic field. They campaigned for women's rights. They set up a job register. They worked for recognition of women in the profession, and for a fair shake at jobs and promotions. The issues that they addressed in the early years of the century remain important in 1984.

And what became of Georgina MacDougall Davis? As a student, she started a women's column at the Daily Wave and she debated for women's suffrage.

She combined a busy life raising a family, and she was a stringer for the Christian Science Monitor. She headed numerous civic groups, and she was instrumental in starting chapters of the organization in Spokane and Portland.

Today, there are more than 170 campus and professional chapters of Women in Communications, with another two dozen petitioning to be chartered. In addition, several thousand independent members live in areas where there are no chapters. The 12,000 members work in many fields of journalism and communications—newspapers, broadcasting, public relations, advertising, magazines, publishing, freelance writing and editing, communications education, photo journalism, and communications law.

The past two decades have been a period of unprecedented growth and change for the organization, sparked, in part, by the influx of women into the work force and by women's changing expectations about their career and family roles. Twenty years ago, a national headquarters was set up in Austin, TX, where it remains today. A few years later, a regional structure was organized to encourage expansion. In 1972, after the great social and political upheavals of the 1960's, the name of the organization was changed from Theta Sigma Phi to Women in Communications, Inc., and men were admitted for the first time. When a delegation of members went, somewhat apprehensively, to inform founder Georgina MacDougall Davis of these massive changes, she is reported to have said, "Well, it's about time!"

In 1979, a public affairs office was established in Washington, DC, to keep members informed about the policy issues affecting women and the ever-expanding communications profession. In 1982, the membership took a leap upward; 11 new chapters came into existence. The organization's Clarion Awards, now in their 11th year, are well respected and sought after.

But with the growth and change, Women in Communications, Inc., is still dedicated to these purposes which have remained essentially the same since its founding:

To unite members to promote the advancement of women in all fields of communications.

To work for the first amendment rights and responsibilities of communicators.

To recognize distinguished professional achievements.

To promote high professional standards throughout the communications industry.

Delegates and members of Women in Communications, Inc., will meet in Seattle October 10–14, 1984 to celebrate the 75th anniversary and to pay tribute to the founders and the many other dedicated women who have contributed to the organization's achievements, and they also will look forward to meeting the increasingly complex challenges facing women and the communications profession.

Again, I congratulate Women in Communications on its 75th anniversary. I am sure they will have a fine conference in Seattle and experience continuing success as an organization.●

HIGH TECHNOLOGY WEEK CELEBRATED NATIONWIDE

HON. MERVYN M. DYMALLY
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. DYMALLY. Mr. Speaker, I am elated with the success of the first National High Technology Week activities, especially the manner in which individual States highlighted the week which was established by more than 200 Members of the Congress in a joint resolution.

During the planning stage for the week, the Congressional Caucus on Science and Technology sent packets of information to every State with suggestions as to how each might observe the week which extended from September 30 to October 6, 1984. Some outstanding activities around the country resulted. I would like to cite some of these activities for the benefit of my colleagues.

Letters have been received from several Governors in support of "National High Tech Week" and these letters enumerate plans within the various States to recognize the week. Gov. Harry Hughes of Maryland announced plans to highlight cooperative science employment programs, high technology educational events, tours, career workshops, and donations of computer equipment.

Gov. James B. Hunt of North Carolina asked each of the State's 142 school superintendents to organize a series of special events during the first week of October to highlight the importance of science and technology. Other activities planned for the week were: Announcement of the North Carolina recipients of Federal Small Business Innovation Research grants for 1984; announcement by the North Carolina Board of Science and Technology of a $150,000 research grants program available to college and university researchers; organization and announcement of a series of workshops designed to alert small business persons to opportunities for funding of research activities.

Gov. Mario Cuomo of New York said his State had launched efforts to bolster educational programs in scientific, mathematical, and technical training. He noted also that New York has created a foundation to grant scholarships to high school students who demonstrate exceptional talent in mathematics and science. The foundation also sponsors summer computer camps.

Govs. Charles Robb of Virginia, Richard D. Lamm of Colorado, D. Robert Graham of Florida, Ed Herschler of Wyoming, Richard Bryan of Nevada, Dick Thornburg of Pennsylvania, George Deukmejian of California, and Bill Sheffield of Alaska all sent proclamations honoring September 30 to October 6 as "National High Tech Week."

In Georgia, a national high technology steering committee member, who is a curriculum specialist at Georgia State University, organized observance activities. Dr. Lucretia Payton enlisted the aid of educators, media people, PTA's, vocational educators, and industry officials from high technology companies including Rockwell International and Lockheed, as well as city and State officials, the State university system and other organizations involved in science and technology. Consequently, there were numerous exhibits, displays, computer clinics, a symposium titled "Collaborating and Networking in High Tech," and presentations to a chapter of Alpha Kappa Alpha sorority and to the Georgia teacher finalist in science and mathematics.

In North Dakota, the State supervisor of industrial arts, Jerry Balistreri used the statewide newsletter to inform instructors of high technology week and to alert them to high technology resources available to them. The North Dakota State Board for Vocational Education developed a mobile laboratory containing printed information and technological exhibits. The lab, about which several articles are pending in various national journals, can travel to communities statewide. The State also published a booklet, available to all secondary and postsecondary teachers, which lists the high technology resource materials currently available in the State. The materials include texts, video tapes, and curriculum materials. The North Dakota State School of Science devoted a day to open house activities. The activities at the school included computer-aided architectural drawing, computer-generated music, and use of robotics in welding.

In California, the first national computer show for children, sponsored by the information processing group will extend high technology week a bit since their activity will take place from November 30-December 2, 1984 at the Disneyland Convention Center in Anaheim. The purpose of the show entitled "Bits and Bytes" is to create a forum for information exchange and interactive dialog among young people, parents, educators, and industry professionals. It includes hands-on sessions for training as well as application. It also includes conferences and discussion groups.

In Ohio, Gov. Richard Celeste helped his State celebrate by dedicating a $5.5 million advanced technologies center on October 5. Activities sponsored by the Lorain County Community College included tours of the center, a poster competition, high technology film showing, a visit by Neil Armstrong, and industrial exhibits by approximately 50 companies.

The Washington, DC, production group, Thea Marshall Communications, sponsored four radio programs, three 90-second TV spots, several full length television programs, and a number of public service announcements titled "People to People." Two titles from this series of productions are "Winners and Losers in the Information Age" and "The Impact of Technology on the Political Process." Most of these programs have been widely distributed for use on commercial, public, and cable stations.

In Alaska, the University of Alaska at Fairbanks conducted a seminar which was sent via satellite from Palo Alto, CA, to 72 stations including those in Juno and Fairbanks. The University of Alaska also hosted research days for the grade and high school students at the Fairbanks campus.

The Technical Research Center of Finland [VTT] signed a cooperative agreement with the University of Alaska as an indication of the importance of high technology in the Arctic and sub-Arctic regions. The University of Alaska is the only American University so honored.

And on Thursday, October 4, the amusements industry, under the auspices of the Amusement Game Manufacturers Association, celebrated high technology week by donating to the National Museum of American History, Smithsonian Institution, a collection of electronic amusement machines which trace the influences and advances that technology has rendered to this uniquely American entertainment medium over the last decade.

The machines, selected on the basis of technological design and because they meet the Smithsonian Institution's mandate that any item accepted into the Institution's collections reflect the "American experience," include Pong (1972), the first electronic video game, which was donated by Mr. Nolan K. Bushnell, Sunnyvale, CA; Pac-Man (1980), the most popular video game to date, presented by the Bally Manufacturing Corp., Chicago, IL; Sharpshooter II (1983), one of the first pinball games to incorporate solid state electronic technology. It was given by Game Plan, Inc., Addison, IL; Dragon's Lair (1983), the first laser disc game, presented by Cinematronics, Inc., El Cajon, CA; and Startime, the first video jukebox, given by Video Music International, Los Angeles, CA.

I would like to personally commend several people who were responsible for making this donation occur: Mr. Glenn E. Braswell, executive director, Amusement Game Manufacturers Association, who initiated and coordinated the industry's participation; Mr. Carl Scheele and Mrs. Ellen Highes, National Museum of American Histo-

ry, who coordinated the Smithsonian Institution's reception of the industry gift; Mr. Glenn K. Seidenfeld, Jr., general counsel and secretary, Bally Manufacturing Corp.; Mr. Wendell McAdams, executive vice president, Game Plan, Inc.; and Mr. Jack Millman, president, Video Music International.

Responses from many ethusiastic scientists, corporate leaders, educators, and policymakers indicate that National High Technology Week 1984 was a resounding success.

I believe nationwide observance of high technology week has increased public awareness of the place of technology in our lives. Activities during the week involved every age group, and involved many people who had not previously been availed of the opportunity to consider the role of technology in their daily lives.

I want to thank my distinguished colleagues in both Houses of the Congress for their bipartisan support of this most important effort. Your continued support is necessary if this country is to retain its leadership in world scientific and technological endeavors. I hope to see each of you at the next Science and Technology Awards Banquet on Monday, September 30, 1985.●

NATIONAL EXEMPLARY SCHOOLS AWARD OF 1984

HON. DENNIS M. HERTEL

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. HERTEL of Michigan. Mr. Speaker, it is with great pride that I draw attention to two outstanding schools located in Madison Heights, MI: Bishop Foley High School and John Page Middle School. Both schools were among the 60 private and 202 public schools nationwide to receive the coveted "National Exemplary Schools Award of 1984" for promoting and sustaining excellence in education.

In addition to furthering education, Bishop Foley High School was selected by the Exemplary Private School Recognition Program for its commitment to instilling Catholic values and fostering a sense of social responsibility in its students. At Bishop Foley, education reaches beyond the classroom through its many community outreach programs. The "Foley Family," as Principal Turk refers to those affiliated with his school, extends its warmth and concern to the elderly, handicapped, needy, and learning disabled.

John Page Middle School also boasts a challenging, positive academic atmosphere coupled with broad-based community support and involvement. For John Page to be selected by the Secondary School Recognition Program as a model of excellence in education, it had to display not only these qualities, but provide a reward and incentive program for its faculty and set clear expectations and goals for the entire institution, as well. Under the able leadership of Principal Klein, John Page sets a standard intellectual and moral achievement for public schools around the Nation.

On November 8, 1984, representatives from the Department of Education will honor the faculty, students, parents, and administrators of Bishop Foley High School and John Page Middle School by presenting them with plaques. These plaques represent more than excellence in education; they signify a pledge to the integrity of American society and to the welfare of future generations.●

MR. PRESIDENT, HERE'S THE REAL STATE OF OUR NATIONAL PARKS

HON. JOHN F. SEIBERLING

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. SEIBERLING. Mr. Speaker, during the debate on October 7, President Reagan claimed that the reason his administration attempted to halt the acquistion of national parkland was that the parks were "dirty" and needed fixing up, but that now the parks have been repaired and the administration is again buying parkland.

As chairman of the Subcommittee on Public Lands and National Parks, which has held extensive hearings on these matters over the past 3½ years, I can only note that it's clear that the shade of former Secretary of the Interior James Watt is still around. Certainly the President's words are the same ones we heard when Secretary Watt was still in office, which only means, as the old saying goes, the more things change the more they stay the same.

I feel like a broken record myself on this subject, but perhaps I can help set the record straight for the other Members.

CONGRESS REJECTED PARKLAND CUTS

When President Reagan came into office, it is true that the administration, through Secretary Watt's efforts, sought to impose a moratorium on the purchase of new parkland. It is also true that Congress firmly rejected this attempt and, instead, added more funds for new park purchases. Thus thwarted, Secretary Watt tried other maneuvers, including attempts to devise ways to deauthorize existing parks, an attempt which also failed. The public's outcry against the Secretary's efforts was enormous, and repeatedly Congress made it clear that we would refuse to entertain any such proposals.

Meanwhile, Congress did appropriate funding for an administration-backed park restoration and improvement program, as these included ongoing park maintenance activities and construction projects that should be funded. However, we did not take an either/or approach; park maintenance and construction are not incompatible with the acquisition of land already authorized within existing parks. The delays in land acquisition if Congress had adopted Secretary Watt's proposal would simply have driven up the future cost of acquisition, since, the lands would ultimately have to be acquired at higher prices.

KEEP OUR NATIONAL PARKS CLEAN?

The President's comments about his concern for "dirty" parks, became even more astonishing when you consider that the administration has consistently opposed legislation that would keep our parks clean; namely, the Park Protection Act, H.R. 2379, which passed the House on October 4, 1983, by the overwhelming margin of 321 to 82 but which died in the Senate, due largely to the administrations' objections to it. This bill was a response to a 1980 report by the National Park Service that identified over 4,000 threats to the land and wildlife in the national parks.

What that bill would do is simply the following:

Require Federal agencies, as part of their normal decisionmaking process, to: First, notify the Secretary of the Interior if a proposed Federal action in or adjacent to a national park unit could degrade the park; second, give the Secretary time to reply; and, third, notify the affected congressional committees of action taken.

Require a biennial state of the parks report to Congress identifying resource threats in all park units.

Direct the National Academy of Sciences to develop a research and monitoring system to help the National Park Service.

I would further point out that the bill would not have changed any existing Federal authority. It would simply require one Federal agency to talk to another before they took any action that might harm the resources of a unit of the National Park System. The bill would allow the Park Service to comment on other Federal agency actions if it believed that the proposed action would be detrimental to the resources of the park unit. The action could not be slowed down or stopped, even if it were found to be detrimental, but the agency head would have to submit a written statement explaining why he was proceeding.

Such a requirement would not only help protect our park resources but would help reduce foolish Federal ex-

penditures or decisions that could later require more Federal expenditures to correct the problems created by the first action. I am, therefore, doubly surprised that the President does not support the bill.

I would also suggest that the President look a little closer at what the Interior Department is doing before he makes claims such as saying that they are now acquiring parkland. Yes, they are, but only because Congress has continued to push them. Under Secretary Watt, the Interior Department set up a series of procedural roadblocks to slow down acquisition, roadblocks that remain unchanged today. As a result, the National Park Service has closed its books on the 1984 fiscal year with nearly $79 million of its available appropriations unspent. The National Park Service's obligation rate—the percentage of available funds it spent—is only about 58 percent in 1984 compared to a 75-percent average during the years before the Reagan administration.

Worse yet, the Interior Department has again taken away $30 million of the Park Service's acquisition money to be used for firefighting by the Bureau of Land Management. The Department did this last year, but promised that the money would be subsequently replenished. It was, but only for a few days. Claims by the administration that the Park Service wouldn't be able to spend the money now sound rather hollow to those of us who have seen what the Interior Department has done to curtail the program. Obviously, diverting the money would make the Department's obligation rate seem higher than it was. If the Department had an efficient land acquisition program, as it once did, the National Park Service would have no trouble whatsoever doing the work that is needed to obligate the funds.

I would also note in passing that the Interior Department is trying to blame the Congress for the delays, based on requirements for congressional reviews of certain purchases. While that may be partly true because of requirements put in place by the Senate Appropriations Committee, it was not caused by the House. Furthermore, at hearings I chaired, the agencies themselves admitted that the delays were primarily internal within the administration, and are focused on the National Park Service. Officials from the Forest Service testified that it took them only 3 weeks to get clearance from the Department of Agriculture for the same type of purchase that it took 3 months to clear through the Department of the Interior. This remains true today, despite the fact that it has been over 1 year since the departure of Secretary Watt.

COMMITTEE REPORT

Mr. Speaker, I would again commend to the Members a report on land acquisition program prepared by subcommittee staff for use by the Committee on Interior and Insular Affairs: "Land Acquisition Policy and Program of the National Park Service," Committee Print No. 7, 98th Congress, 2d session, dated June 1984. It documents these issues and concerns.

Following my remarks I will insert for printing in the RECORD an article on the report which appeared in the PLI Newsletter of the Public Lands Institute and which provides a summary of the report and a commentary by syndicated columnist Edward Flattau that appeared in the St. Louis Post-Dispatch and other newspapers.

In conclusion, I would simply note that I believe that the national parks have managed to survive the last 4 years not because of, but in spite of, President Reagan's administration. It is also clear that the 99th Congress will have much work remaining to do, regardless of the outcome of the election, to assure that the national parks are properly managed and protected.

The PLI Newsletter article follows:

NATIONAL PARK SYSTEM DAMAGED BY ANTI-ACQUISITION POLICY

Determined resistance to the acquisition of lands for the National Park System, a policy initiated and stubbornly adhered to by former Secretary of the Interior James G. Watt, did real damage to the System, according to an oversight report published this summer by the House Committee on Interior and Insular Affairs.

And the policy still hasn't changed much, the Report said, even though new Secretary William P. Clark said he would buy some park lands and asked Congress to appropriate $100 million for that purpose in fiscal 1985. Most of the procedural roadblocks set up under Watt remain in place, making it difficult for the Park Service even to pick up problem inholdings from willing sellers.

The Report (Committee Print No. 7, 98th Congress, 2nd Session, dated June 1984) was prepared by the staff of the Subcommittee on Public Lands and National Parks. The Subcommittee, a panel chaired by Representative John F. Seiberling of Ohio, held five days of oversight hearings on the land acquisition issue, extracted many relevant documents from the Department of the Interior, and its staff conducted interviews with numerous Interior and Park Service officials. The inquiry was prompted by the fact that Congress, clearly rejecting the Watt policy, kept appropriating substantial funds to buy lands for newly-authorized parks and to address the inholding problem. Congress provided the money but Watt wouldn't spend it.

For fiscal year 1982, 1983 and 1984, the Administration asked for a total of only $130 million from the Land and Water Conservation Fund for parkland acquisition. Congress, however, appropriated a total of $332 million over the same three years. Nevertheless, actual acquisition came to a "near standstill."

"During the two combined years of 1981 and 1982, the National Park Service purchased fewer acres of land (36,246) than during any single year since 1966, the first year after the Land and Water Conservation Fund was established. During fiscal year 1983, despite the Department's claims of improvement, [even] less acreage was purchased . . . only 13,285 acres."

The Report described threats and damages to twenty different National Parks, Seashores and Recreation Areas that resulted from the no-acquisition policy. The threats ranged from strip-mining and clear-cut logging in areas where Congress had authorized acquisition to commercial and housing developments on inholdings (privately held tracts within park boundaries).

Commenting on the Report, syndicated columnist Edward Flattau wrote in the St. Louis Post-Dispatch and other newspapers:

"Under William Clark, the Interior Department continues to display a reluctance to pursue park land acquisition in aggressive fashion. Observers attribute this lethargy in part to Clark's failure to oust Watt's lieutenants. Assistant Interior Secretary Ray Arnett, an individual dedicated to keeping federal purchases of additional park land to a minimum, remains in charge of the acquisition program. He and his aides continue to use the same delaying tactics that Watt employed to frustrate Congress' demand for park expansion."

Following, verbatim, is the Committee's own summary of its report:

Since establishment of Yellowstone National Park in 1872 and the National Park Service in 1916, the world has viewed the National Park System as the model for resource conservation.

The early national parks were carved from the public lands in the West, transferred from other agencies, or created through donations. Although many contained private inholdings, it was not until the early 1960's that new parks were established that required purchase of large amounts of private lands. Parkland acquisition is governed by the Land and Water Conservation Fund Act, the Uniform Relocation Act, and specific acts establishing park units.

"Starting in 1981, the Interior Department attempted to curtail park acquisition. Former Secretary James G. Watt proposed a moratorium on park purchases and diversion of acquisition funds for other purposes. Congress rejected the moratorium restored the funding, and did not approve the diversion of funds.

"Interior Department officials also suggested deauthorizing certain urban parks, but this too was dropped after it caused a great public outcry.

"The Department also withdrew the National Park Service's authority to approve land purchases, initiated new policies and requirements for land protection plans that would deemphasize fee acquisition, and greatly increased the number of procedural reviews for acquiring parkland.

"The effect of these new requirements was the Park Service's land acquisition program came to a virtual standstill. Funds appropriated for individual units were not being spent. Fewer acres were acquired than during any comparable previous time. The Park Service's obligation rate, which had previously averaged 75 percent a year, dropped to about 51 percent in fiscal year 1982.

"The delays in acquiring parkland may have constituted an illegal impoundment of funds. They create substantial hardships on many property owners and caused numerous threats to the resources of affected parks. Specific examples of these problems are cited in the report.

"The report concludes with a number of recommendations concerning issues that remain to be addressed. It is noted that, al-

though the administration's fiscal year 1985 budget request contains, for the first time in 3 years, a request for funds for new parkland acquisiton, many of the problems described in the report remain unresolved.

"Recommendations are included for these and other related issues meriting further attention."●

NUCLEAR ARMS CONTROL

HON. EDWARD J. MARKEY

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. MARKEY. Mr. Speaker, there is no more important issue before this Congress and the Nation than the nuclear arms race. There is no more important initiative than the nuclear freeze. One of the most eloquent and effective advocates of a mutual, verifiable freeze on the nuclear arms race and nuclear arms control has been the gentleman from Oregon, LES AUCOIN.

Mr. AUCOIN has written a cogent article that examines the military benefits that a nuclear freeze would bring this Nation. I commend this piece to my colleagues, and request that it be printed in the CONGRESSIONAL RECORD:

[From the Arms Control Today, September 1984]

WHAT GOOD IS A FREEZE?

(By Congressman Les AuCoin)

It is astonishing that, as nuclear weapons budgets continue to grow and the security created by these weapons continues to shrink, the nuclear freeze is widely regarded as more of a political movement than as serious arms control.

Because its proponents have not sufficiently emphasized the national security advantages of the freeze, the debate has focused on the secondary issue of verifiability. While the verifiability of the key elements of the freeze is clear, this does not in itself make the freeze any good. After all, a treaty could be at the same time verifiable and disastrous.

In fact, a bilateral freeze is both verifiable and immensely beneficial. It is the most promising deterrence-augmenting device available to the United States today—far better than any proposed weapon. In particular, the freeze will do more for intercontinental ballistic missile (ICBM) survivability than any currently proposed weapon or arms control initiative.

ICBM'S AS HAS-BEENS

Since the early 1970s, there has been considerable debate over how well U.S. ICBMs could survive a massive surprise Soviet attack. Could such an attack be coordinated? Would their missiles, under wartime conditions, keep their theoretical accuracy? Some experts, including Kosta Tsipis of MIT, argue that over half of U.S. ICBMs could survive such an attack. Others, primarily weapons advocates and opponents of arms control, argue that as few as one-fifth would survive.

In this discussion, let us assume the predictions of the pessimists are right, and U.S. ICBMs are highly vulnerable. As we will see, even under its opponents' assumptions, the case for the freeze is overwhelming.

To whatever extent ICBM vulnerability exists, it is largely due to the monumental increase in Soviet ICBM accuracy over the past decade and a half. In 1968, a typical soviet ICBM warhead would miss its target by more than a mile. Today, that miss distance is down to about one-eight of a mile, rendering destruction of a U.S. silo by a single Soviet ICBM warhead more probable than not. The problem has been made more severe by the advent of Soviet MIRV (multiple independently-targetable reentry vehicle) technology, which permits them to target two warheads against each U.S. silo, compounding the attack's effect.

Deterrence can, of course, continue without ICBM survivability. U.S. bombers and submarine-launched balistic missiles are highly effective. But the more varied a deterrent can be made, the more secure it will be against unexpected countermeasures. ICBM survivability is worth keeping.

This desire for a multi-armed deterrent has been uppermost in the minds of U.S. strategic planners; various new weapons and arms control solutions have been offered to prevent the loss of the ICBM deterrent.

The ostensible rationale behind the MX and "Midgetman" ICBM programs is to increase the survivability of U.S. ICBM warheads after a Soviet first strike. More than thirty basing modes, including the Carter Administration's "racetrack" and the Reagan Administrations' "Densepack," have been studied by the U.S. Air Force and by various Presidential commissions. None of these had reached full-scale development; all have been found, in one way or another, to be unworkable. The MX, thus, is slated for deployment in old—and presumably vulnerable—Minuteman silos. If Midgetman somehow avoids cancellation, it too will probably use silo basing for lack of an alternative.

President Reagan's Strategic Arms Reduction Talks (START) plan was aimed, in rhetoric although not in substance, at reducing ICBM vulnerability. The arms control package developed in 1982 by my colleague Albert Gore (D-TN) sought the same goal. And SALT II, if combined with a multiple-point ICBM basing system, would also have increased ICBM survivability. But START has progressed little beyond the propaganda stage, the Gore plan has been watered down into a nearly meaningless adjunct to START, and SALT II is in limbo.

As a result of this failure to find either a military or an arms control solution, the ability of Soviet ICBMs to carry out a first-strike attack against our ICBMs has been advancing rapidly, while the ability of our ICBMs to survive has not.

HARDENING AND THE FREEZE

Four major factors determine the probability that an ICBM silo will survive an incoming ballistic warhead: Increasing the hardness (strength) of the silo increases the probability that the silo will survive; conversely, increasing the explosive power, reliability, or accuracy of the attacking warhead decreases survivability.

Over the past fifteen years, U.S. silo hardness has more than tripled, from approximately 600 pounds per square inch (psi) blast overpressure resistance to the present 2,000 psi. The U.S. has also doubled its number of ICBM warheads from 1,054 to about 2,140 by replacing single-warhead Minuteman I missiles with triple-warhead MIRV Minuteman IIIs. At the same time, the explosive power of the typical Soviet ICBM warhead has dropped from one megaton to about one-half megaton.

Nevertheless, advances in Soviet missile accuracy have more than made up for U.S. silo hardening. Far fewer U.S. ICBMs would survive an attack today than in 1968. Hardening our silos has not been entirely wasted—even more would succumb had we not done it. Still, hardening and MIRVing obviously have not saved as many of our ICBM warheads as would be desirable. And the worst is yet to come. If Soviet accuracy continues to improve, U.S. ICBM survivability will continue to decline, reaching near-zero even as silos are further hardened.

The limits of silo hardening are not clear. Reports in the trade press suggest that present Soviet silos are hardened to approximately 6,000 pse. Small-scale Defense Nuclear Agency tests suggest that superhardness in the tens of thousands of psi may be possible, although applicability of these studies to full-size structures is controversial.

There has been speculation on the possibility of what might be called "ultrahard" silos: nearly indestructible devices hundreds of thousands of psi hard. Administration spokesmen have suggested that these would render Soviet accuracy irrelevant.

In theory, this is correct. But in practice, it is like building a barrel that can survive a plunge over Niagara Falls. What matters is not the barrel but the man inside. A missile sufficiently powerful and accurate to create such overpressure will also place the silo in the explosion's crater. If a silo is itself bounced into the air and left lying on the bottom of the crater, it will not matter if the silo structure is intact. The missile will not fire. Even if the silo is only under the rim of the crater, the missile will be unable to fire up through the many feet of dirt piled up at the rim. Recent press reports indicate that such accuracy is clearly achievable; and if this hypothetical indestructible object meets the attacker's irresistible force, the attacker will win.

We've been losing the hardness/accuracy race and will continue to lose unless we redefine the rules. But the nuclear freeze is an amazingly effective way to change the rules of the race, loading them in favor of survivability and deterrence.

Hardness can be useful, provided it is combined with a weapons freeze. The freeze affects nuclear warheads and delivery vehicles, but not basing systems or launch platforms. In particular, it places no restrictions on silo hardening.

Had Soviet accuracy been frozen fifteen years ago, the U.S. would not even face the appearance of vulnerability today. We cannot, of course, turn back the clock. But if we can hold Soviet accuracy close to today's level, ICBM vulnerability can be contained and even reversed. The nuclear freeze does that, and more. By limiting accuracy but at the same time allowing hardening to proceed, the freeze enables hardness to win the race.

FREEZE DYNAMICS

Conventional wisdom holds that research and development cannot be closely monitored, and that technological advances are therefore difficult to control by negotiated agreement. Perhaps. But because flight testing of ballistic missiles can be verified with very high confidence, the application of accuracy-related technology can thereby be controlled.

The key to the freeze is its complete ban on ballistic missile flight testing. This will confine to military insignificance any future increases in Soviet accuracy.

Missiles are complex devices. Without flight tests it is impossible to know exactly

how one component will interact with another. Computer analysis and captive testing are useful, but they cannot stimulate the acceleration, vibration, temperature changes, and other phenomena of real flight. Anyone inclined to believe that a new missile technology can be reliably deployed without flight testing should consider that five new ballistic missiles—the Soviet SS-X-24, SS-X-25, and SS-NX-20, and the U.S. MX and Pershing II—saw their first test in this decade, and four of the five first tests failed.

If flight testing were prohibited, national leaders on both sides would know the first rehearsal would count as the final performance. Soviet planners fully understand that installing a new guidance upgrade and having it fail in the midst of a first strike would, as the saying goes, spoil their whole day.

Under the freeze, a Soviet missile designer would have this choice: He could stick with his present force, which is adequate for deterrence and retaliation but not good enough for a comprehensive counter-silo first strike. Alternatively, he could install new, theoretically better but untested guidance systems, software, reentry materials—and risk catastrophic failure. Neither course leads to a high-confidence first strike. This is precisely the predicament in which we should seek to place the Soviets. The freeze would do it.

IMPROVING ACCURACY

That a zero-test environment will mean absolutely unvarying missile performance forever is unlikely. A completely static freeze is not realistic, but neither is it necessary.

Small incremental accuracy improvements can be made without testing. The gravitational and geodesic irregularity of the Earth, for example, is a moderate contributor to ballistic missile inaccuracy; its further measurement by satellite would continue in the absence of ballistic missile flight tests.

Some missile components could also be clandestinely tested in military or civilian space vehicles. But this would be of limited utility, because the trajectory and reentry characteristics of ballistic missiles are distinct from that of orbiting space flights. These distinctions could and should be further widened by treaty provisions prohibiting space flights which appear to overlap key ballistic missile characteristics.

The cost and inconvenience thereby imposed on the space programs of both sides could be substantial. But we can pay the cost from the savings generated by the freeze itself, and we can live the inconvenience. Prevention of a nuclear first strike must have higher priority than any space program

"RUSTING"

Running contrary to the possibility of improved accuracy under zero-test is another, more powerful consequence of the freeze that will, in time, lower both Soviet accuracy and reliability.

Because tests of existing ballistic missiles as well as new types would be prohibited under a freeze, problems in component aging and design would inevitably arise. Some component aging problems can be detected and the components replaced. But high confidence fixes, especially of design problems, will be impossible without flight testing. Other defects will be undetectable and unknown in the no-test freeze environment.

Loss of confidence in untested weapons will affect both sides. But unlike the relatively undemanding deterrence mission, a disabling counterforce first strike requires very high accuracy and reliability. The best way to shift the nuclear balance away from first strike and toward deterrence is to force both sides to let the weapons sit untested. A possibly "rusty" missile is not an attractive first-strike weapon.

THE FREEZE ADVANTAGE

An example of the protection the freeze gives to ICBM survivability is shown in Tables I and II, and in Chart I.

Table I shows the number of reliable warheads surviving in the mid-1990s if the U.S. follows the current administration's modernization program, including START and Build-Down which allow 2,500 ICBM warheads for each side. While President Reagan has requested only 100 MX missiles, it is no secret that the U.S. Air Force desires many more. Let us assume a fully modernized deployment of 175 MX missiles with ten warheads each, plus 750 single-warhead Midgetmen. The Soviet Union is assumed to build an identical force to comform to START and Build-Down. The table considers two conditions, both well within the reach of Soviet technology by the mid-1990s: Under the first condition Soviet ICBMs are assumed to be qualitatively similar to the U.S. MX, which the Administration plans to deploy in 1987. Under the second condition, ICBMs on both sides are assumed to add precision satellite guidance.

Table I demonstrates that, even with full ICBM modernization and substantial silo hardening, very few U.S. ICBM warheads would survive a Soviet first strike. The benefit of silo hardenig quickly melts away in the face of advancing Soviet accuracy. In the absence of a freeze, the U.S. ICBM deterrent will be gone.

TABLE I.—U.S. RELIABLE ICBM WARHEADS SURVIVING WITH MODERNIZATION

[Mid-1990's]

U.S. silo hardness	MX-quality attack	Satellite-guided attack
2,000 psi (present United States)	10	<10
6,000 psi (present Soviet)	40	<10
10,000 psi	100	<10
20,000 psi	260	<10

Table II shows how U.S. ICBMs would survive a Soviet first strike under a nuclear freeze. It considers three different conditions: The first condition is a worst case where, even though Soviet missile testing is frozen, the Soviets manage to forestall any weapon degradation and instead increase their accuracy by ten percent. The second condition is one of no change from present Soviet missile capability. The third condition assumes that, as a result of "rusting" under zero-test, missile accuracy and reliability drop one percent per year for 20 years on both sides.

TABLE II.—U.S. RELIABLE ICBM WARHEADS SURVIVING WITH A FREEZE

[Mid-1990's]

U.S. silo hardness	Worst case [1]	Static freeze [2]	Rusting missiles [3]
2,000 (present United States)	330	440	660
6,000 psi (present Soviet)	780	910	1,020
10,000 psi	940	1,130	1,160
20,000 psi	1,210	1,370	1,310

[1] 10 percent Soviet accuracy gain.
[2] No change from 1984.
[3] 1 percent annual accuracy and reliability loss for 20 years.

Since some modernization and some "rusting" are probably inevitable, the net effect of the freeze presumably would lie somewhere between the two examples. But even the worst freeze case in Table II is better than the best non-freeze case in Table I. Moreover, if U.S. silos were hardened to match Soviet hardness levels of 6,000 psi, the worst freeze case would give the U.S. at least three times as many surviving ICBM warheads as the best non-freeze case.

ZERO-TEST ESSENTIAL

While some commentators have suggested that a freeze should permit a limited number of ballistic missile tests, this would be a serious mistake. Even if superhardness is achievable, the strategic success of the freeze requires that flight tests of existing as well as new-type ballistic missiles be prohibited. If the U.S. permits the Soviets to flight-test their SS-18s and SS-19s, there will be no verifiable way to prevent progressively better accuracy from putting U.S. ICBMs into the disastrous, non-survivable, non-freeze condition shown in Table I. Although the present Soviet SS-18s and SS-19s carry a reliability handicap because of their liquid fuel, if their accuracy is unconstrained they can become nearly as effective first-strike devices as any new-type ICBM.

Moreover, the psychological significance of zero-test may even exceed its technological significance. The longer the time since the last flight, the more reluctant any national leader will be to roll the dice and risk his nation's survival on the proposition that his disabling first strike will be successful.

The freeze is a high-confidence plan for ICBM survivability without incurring the cost of a single new missile. It will be effective not only against attack by ICBMs but against the even more dangerous eventuality of attack by accurate submarine-launched ballistic missiles (SLBMs), which could strike with significantly less warning.

In addition, the freeze will prevent testing and deployment of Soviet depressed-trajectory ballistic missiles, which could reach even inland airbases too quickly for U.S. strategic bombers to escape. It will prevent testing and deployment of new weapons systems that are difficult to monitor. Deep cuts in the world's nuclear arsenals will thus be much easier to make. Finally, because the freeze will reduce first-strike potential and increase survivability on both sides, it is as much in the interest of the Soviet Union as of the U.S. It will enhance stability and reduce the chance of nuclear annihilation for all concerned.

It is incumbent upon freeze opponents to show an alternative that offers equal or greater security at equal or lower cost.●

IN TRIBUTE TO CHARLES NAGANO

HON. ROBERT T. MATSUI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. MATSUI. Mr. Speaker, a close and dear friend of mine and the city of Sacramento passed away recently, and I would like a few minutes to recognize this exceptional individual.

Mr. Speaker, Charles Nagano touched many lives during his 62

years. He touched us because he was a kind and exceptionally generous person who cared dearly for his fellowman. With Charles Nagano, a mere acquaintance was made to feel special. His warmth was real, and it was felt by many.

A wholesale produce merchant and a cofounder of the Lucky Fruit & Produce Co., Charles Nagano also fought for his country and the principles for which he stands. Despite being sent to Tule Lake Internment Center in May 1942, he enlisted in the U.S. Army 6 months later as a language specialist. He served in the Pacific and the Philippines and participated in the occupation of Japan. He also served in the Korean war before leaving the Army as a military intelligence officer.

Mr. Speaker, Charles Nagano was indeed a special individual, and I would like his dear wife Betty; his son, Dennis; his daughters, Diane Ogata and Dale Shijo; his brother, George; and his sisters, Violet Nekoishi and Jane Uejio, to know that my thoughts and prayers are with them.●

LETTER CARRIERS COLLECTIVE BARGAINING RIGHTS

HON. ROY DYSON

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. DYSON. Mr. Speaker, seldom do our actions bring the swift results that followed from the recent passage of H.R. 6040, the supplemental appropriations bill. Included in that bill was an amendment, put forward by my colleague from Massachusetts, Representative SILVIO CONTE, to protect the integrity of the collective bargaining process as it applies to U.S. postal employees. As you may recall, negotiations on a new postal workers contract reached an impasse last July. The existing contract expired in August, and rather than submit to binding arbitration, as the Postal Reorganization Act of 1970 directs, Postmaster General Bolger unilaterally imposed a final offer that would go into effect immediatley, that is, last September.

Congress was compelled to enter the scene in September and enact legislation to prohibit Postmaster General Bolger from imposing his will on contract negotiations in violation of the collective bargaining agreement. I rise today because I was a strong supporter of this amendment and I am pleased to report that it has brought the relief for which it was intended.

Renegotiating collective bargaining agreements is always a difficult matter requiring the utmost flexibility and good faith on the part of both labor and management. These qualities are even more important in Postal Service negotiations. Under the provisions of the 1970 Postal Reorganization Act, workers are prohibited from striking their workplace in the event of a bargaining impasse, and management is prohibited from unilaterally imposing a "final offer." If an impasse is reached, both parties are supposed to submit to a 45-day factfinding period followed by another 45 days of binding arbitration. There are, in other words, no alternatives to straightforward negotiation.

Unfortunately, Postmaster General Bolger saw the expiration of the existing contract as an opportunity for cutting the pay of all future postal employees by 23 percent. This would create an unfair and burdensome "two tier" pay system within the Postal Service and was opposed by postal workers. The July impasse was a result of postal workers' opposition to this scheme, and rather than submit to arbitration, Postmaster Bolger simply set about putting his proposal into effect, directly contradicting the spirit and letter of the 1970 Postal Reorganization Act.

The amendment Congress included into the supplemental appropriation bill reconfirms the prohibition against unilaterally imposing a management compensation proposal. It thus prevented Postmaster General Bolger from going ahead with his "two tier" pay schedule and has protected the integrity of the existing collective-bargaining procedure.

The contract dispute remains unresolved. I personally do not understand Postmaster Bolger's belief that the system suffers from excessive wage costs, since it has consistently operated in the black for the past several years. And I am hopeful that the arbitration process will disallow any such drastic reduction. This remains to be seen, but for the time being, I am gratified that we have taken action to guarantee that arbitration will be given its chance, and pleased to have been a strong supporter of the Conte amendment.●

RURAL AMERICA NEEDS REA SYSTEM

HON. THOMAS A. DASCHLE

OF SOUTH DAKOTA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. DASCHLE. Mr. Speaker, passage of legislation to meet rural electric cooperative needs must be placed at the very top of the emergency action list for 1985.

It is absolutely indefensible that this Congress has failed to adopt the most critical REA legislation to come before it in 50 years. The House did its job, but an administration unable to see the immense benefits of a strong rural economy support by affordable rural electrification convinced the other body to shelve the REA bill.

Rural America has enjoyed no recovery. Rural America remains in the depths of a recession the equal of any in this country. Yet when farm families are struggling to make ends meet, one of the few pillars of strength remaining in their communities is threatened. That pillar, rural electrification, was built on the understanding that provision of electric power in Mud Butte, SD, is not, and can never be, the profitmaking proposition that selling electricity in Manhattan will always be. Rural communities, particularly the most sparsely populated such communities, will either receive their power from an REA system which enjoys some preference in meeting its credit needs or they will see their power costs soar and their economies decline.

Economics of rural power may not be understood at OMB. But for 50 years, this Congress and every administration has understood. I urge this body to prepare to act on that understanding, to rescue rural electrification as a first order of business next year.●

TRIBUTE TO J. KENNETH ROBINSON

HON. CHARLES E. BENNETT

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 9, 1984

● Mr. BENNETT. Mr. Speaker, all of us in Congress, whether Republican or Democratic, will greatly miss our beloved colleague J. KENNETH ROBINSON when he leaves us at the end of this session. He is a man of ability and character, and moreover a real friend to everyone who knows him. We will miss his steady hand and composed judgment in the Halls of Congress, because he has been here a man who could achieve by bringing people together, rather than by disunity. We wish him and his beloved family every happiness in his retirement from this House and hope sincerely that he will often journey to be with us, even though it will cause him temporarily to leave his beloved Shenandoah Valley.●

TRIBUTE TO RICHARD OTTINGER

HON. GARY L. ACKERMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. ACKERMAN. Mr. Speaker, I rise today to pay tribute to our distinguished colleague, Congressman RICHARD OTTINGER of Mamaroneck, NY.

It has been an honor to serve in this body with a man of Congressman OTTINGER's stature and vision. As a freshman Member, I have looked to seasoned legislators for guidance and leadership. RICHARD OTTINGER's commitment to his beliefs, uncompromised through the many years of his service, taught me a valuable lesson—that deeply held ideals need not be diminished by time or cynicism.

His tireless efforts to preserve the environment, protect America's workers, and ensure the rights of those who cannot fight for themselves have been an example of how one man's ideals can be turned into reality.

Congressman OTTINGER has devoted many years of his long and exemplary career to serving the people of New York and the citizens of this great Nation, and we have all benefited from his commitment and compassion.

Mr. Speaker, the many contributions our colleague has made to improving the quality of life in this country are lasting ones that will be passed on to future generations. Our water is clearer, our air is cleaner, and our natural resources are protected and preserved for our children to enjoy. RICHARD OTTINGER's efforts have reaped these rewards for all of us.

Mr. Speaker, the list of his noble accomplishments and efforts is long. I regret that this rare and distinguished man is leaving this body. But I know that he will continue to enrich the lives of many, and I would like every Member of the U.S. House of Representatives to join with me now in honoring our colleague, RICHARD OTTINGER.●

A TRIBUTE TO U.S. SENATOR PAUL TSONGAS

HON. JOSEPH D. EARLY

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 10, 1984

● Mr. EARLY. Mr. Speaker, I am very pleased to include this well merited tribute to my dear friend and colleague, PAUL TSONGAS, our junior Senator from Massachusetts.

Just the other night I overheard an unusual comment about him. While having dinner in a Boston restaurant a woman at the next table said: "I like Senator TSONGAS very much because every time he speaks at a public event he is brief and he is believable." Maybe that is the magic formula PAUL has used to confound the political prophets and win every election contest he has ever entered.

In any case I think that woman's remark tells us a good bit about the political wisdom and personal sincerity of PAUL TSONGAS. But it is not the whole story by any means.

Over the past 10 years of his service here, 4 in the House and 6 in the Senate, he has gained increasing recognition as a national legislator of exceptional intellect, inspiring vision, and unusual effectiveness. In committee hearings and Chamber debates his scholarly knowledge and moving appeal is very convincing and persuasive in his consistent promotion of the common good. Since he entered Congress his principal objective has been to encourage all Members to unite to provide our confused and frightened world with a leadership example of an America in which "the strong are just and the weak secure" and the preservation of global peace is the paramount desire.

He is internationally admired for his persevering efforts to achieve these vitally important goals.

He is deeply respected by the great majority of Senate Members for his intellectual capacity, his tolerance of opposition, his cooperative disposition, and his genuine good nature.

The people of our Commonwealth know him as an individual of quiet but exceptional efficiency, immense courage, unwavering principle, and compassionate understanding. They have repeatedly selected him to serve them in Congress because he has earned their confidence and trust. The people of our Commonwealth and all his colleagues and associates know that PAUL TSONGAS has never sought a political title or position just for the inflation of his own ego, or for his own selfish interest. They know, and everyone knows, that he has his own deep convictions about the real values of this life and the order of priority in which they should be considered.

Therefore, very few, if any, were surprised when he voluntarily chose the responsibility of family leadership over the prospective influence of a leadership position of the U.S. Senate.

He will be greatly missed when he leaves the Senate at the end of this session. The Nation and our Commonwealth will suffer a great loss. However, the example of his high character, courage and competence in the public service of his country will always provide a moving inspiration to those of us who remain here and all those who will come after us.

That is why I am honored to join with all his friends in wishing Senator PAUL TSONGAS, his gracious wife Nicola, and his three lovely daughters continued family happiness and increasing success through many many satisfying years ahead.●

TRIBUTE TO ABRAHAM "CHICK" KAZEN

HON. E de la GARZA

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 4, 1984

● Mr. DE LA GARZA. Mr. Speaker, the Congress has been a living force in the American system of government for nearly 200 years, a dynamic embodiment of our citizens. The will of our people emerges through the agreements and disagreements that develop and each of us as Congressmen attempt to reflect the views and desires of our own constituencies.

Yet some Members go beyond the mere confines of their own districts, representing and striving to achieve the goals of a broader constituency—a majority of the body politic. And when such Members retire, not only we, their colleagues, or their individual constituents feel the loss, but the whole system suffers.

As the 98th Congress winds to a close, we are beginning to realize our true losses as our colleagues and friends retire. One such individual whom we will all miss and I in particular is my good friend and distinguished colleague ABRAHAM "CHICK" KAZEN.

In the Texas Legislature from 1953 to 1964 when I left—he served in the senate and I in the house—we worked together for south Texas and again since 1966 when CHICK came to the House of Representatives I have had the great privilege of working with him for 18 more years. One can hardly condense these years of service into a few brief moments of respect and admiration. Yet that is what I must do today—taking note of the passing of an era with the departure of our good friend and colleague.

He has, by the virtue of hard work and dedicated application to the problems of his constituents in Texas 23d District risen to a place where very few men in the history of this Nation have been—at the very top, among the most experienced and dedicated leaders this Congress has ever known.

As a legislator, CHICK KAZEN has been among the most effective and exceptionally gifted leaders to have served in Congress. It is a tribute to the good judgment of the people of his district that year after year they chose him as their Representative. His concern for them and their problems has always been first and foremost, and he has never forgotten from where he came and why he was here.

His has been the ability to understand the influence of the past upon the present and combine that knowledge with the insight to understand the needs of the future. That is the true gift of leadership.

It will be hard for me to think of Congress without CHICK KAZEN for he is one who has surely given far beyond what he has received and has done so without question. As he concludes his service I would like to salute him and wish him all the good things life has to offer. No one is more deserving.●

CONGRATULATIONS TO JACK EDWARDS ON HIS RETIREMENT

HON. CHALMERS P. WYLIE

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 3, 1984

● Mr. WYLIE. Mr. Speaker, I feel, JACK EDWARDS is one of the most highly respected men who ever served in Congress.

JACK EDWARDS' retirement from the Congress is a real loss to the Congress as well as for his constituents. People in his congressional district at least have the consolation of knowing that he will be in downtown Mobile with the fine law firm of Hand, Arendall, Bedsole, Greaves & Johnston. Few Members of Congress accomplish as much for their constituents as JACK EDWARDS has.

It has been a real pleasure for me to have JACK join the House Banking, Finance and Urban Affairs Committee where he has provided solid knowledgeable support. I regret that he was not on our committee earlier because he was so very effective in the short time he was on the committee. He was on the Appropriations Committee for 16 years including almost 10 years as the ranking Republican on the very important Defense Subcommittee where he rendered necessary valuable service to our country.

JACK'S respect and popularity among his peers led to his election as secretary of the House Republican Conference in 1972. He was reelected continuously until 1979 when he was unanimously elevated to vice chairman of the conference. The last 6 years as vice chairman have been particularly significant since that office is one of eight elected positions of leadership for House Republicans. This has meant regular trips to the White House to provide valuable counsel to the President in high matters of state.

In service to one's country few Members have the distinction of having served his district and Nation so extremely well.

JACK'S counsel and wonderful personal presence will be missed in the Halls of Congress.

My wife, Marjorie, and I wish JACK and Jolane every happiness and success as they begin a new journey for the years ahead.●

TRIBUTE TO ABRAHAM KAZEN

HON. CHARLES E. BENNETT

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 4, 1984

● Mr. BENNETT. Mr. Speaker, as this Congress comes to a close, I regretfully note that Congressman ABRAHAM KAZEN will not be with us next January. And that is our loss and the loss of our country, because he has been an outstanding Member of this House; and has served his district, and State, and our Nation with excellence. He is a bright and personable man whom we all love as a friend. In World War II he had a distinguished record in combat in the Air Force. Before he came to Congress he had a distinguished career in his State legislature and he capped a long and effective career in Congress with the passage of major legislation, particularly in the field of defense. We will miss him and his lovely wife Consuelo, and hope they come often to be among us in the years ahead.●

CONGRATULATIONS TO BARBER B. CONABLE, JR., ON HIS RETIREMENT

HON. CHALMERS P. WYLIE

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 3, 1984

● Mr. WYLIE. Mr. Speaker, I want to take this opportunity to express my sincere admiration and respect for BARBER CONABLE, certainly one of the ablest men who ever served in Congress. BARBER CONABLE'S retirement from the Congress after 20 years of distinguished service is a profound loss to the cause of good government in Washington. He has served on some of the most important legislative and Republican committees, Presidential task forces, and private sector commissions of recent Congresses. His experience and leadership will be sorely missed from comparable work in future Congresses. BARBER has certainly been one of the outstanding Members of Congress since I have served.

He has been the ranking Republican on the House Ways and Means Committee since 1977, and he is currently an important member of both the prestigious Joint Committee on Taxation and the thankless but important Committee on Standards of Official Conduct. In previous Congresses he has served as a distinguished member of both the Joint Economic Committee and the House Budget Committee. He has also been a part of two crucial Presidential task forces in recent years, namely, the National Commission on Social Security Reform—the so-called Greenspan Commission—and the Task Force on Private Sector Initiatives—the so-called Grace Commission. Given the various limitations on service imposed by the Rules of the House of Representatives it is difficult to imagine what else BARBER CONABLE could have done in his official capacity. In Republican Party matters he has also served as chairman of both the House Republican Policy Committee and the Republican Research Committee.

He and his lovely wife Charlotte are the parents of a wonderful son and three beautiful daughters, and all three daughters announced their intentions to marry earlier this year. With so many family and legislative responsibilities soon to be history I am sure we will see much distinguished service in the private sector from the Conables. My wife, Marjorie, joins me in wishing the Conables many years of happiness in their new career.●

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Any changes in committee scheduling will be indicated by placement of an asterisk to the left of the name of the unit conducting such meetings.

Meetings scheduled for Thursday, October 11, 1984, may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED

NOVEMBER 29

9:30 a.m.

Temporary Select Committee to Study the Committee System

Business meeting, to further consider recommendations to reform the Senate committee system.

SR-301
